

MUENSTER ENTERPRISE

VOLUME XII

MUENSTER, COOKE COUNTY, TEXAS, FRIDAY AUGUST 13, 1948

NUMBER 38

Toby Wiese, Former Lindsay Man, Passes After Long Illness

Perhaps it's a good thing that local businessmen were not invited to the FMA party Tuesday night. Had they heard the pep talk that Bryant Blaylock gave the dairy farmers some of them might have become unhappy with their present business, maybe even to the extent of closing shop and moving back to the farm.

Blaylock has a way of making the dairyman proud of his calling. He inspires a feeling of satisfaction that compensates in some measure at least for the hard work and confining schedule of caring for a herd of cows. Besides that he inspires a confident feeling that everything is going to be all right in years to come. After that meeting Tuesday night it's doubtful whether there was a single worry in the crowd concerning economic security for the future.

One of the most amazing problems in this country today is the fact that important thinking men keep pleading for more work and more production but the wisdom of their advice just doesn't seem to dawn on the public. Blaylock is another man preaching that gospel. He insists, as so many others do, that wage levels are merely incidental and the important factor is to make things and have them available for use. Regardless of what a man earns, the public is being gypped if he turns out only a half day of work. He shares with the millions of others like him guilt for the fact that there aren't enough goods to go around.

A man visiting here from the North was saying a few days ago that farmers in his area are not permitted to haul their own products to city markets. As they enter a city they have to hire union men to drive their trucks to market. The farmer isn't permitted to turn a hand. He just rides along and grudgingly gives up a share of his profit to the man who has been imposed upon him.

There's one of the cases of accomplishing absolutely nothing. Even though the union driver claims to earn his pay, the significant point is that the other person is not permitted to work. All the thousands of drivers so engaged in all the cities of the nation are not adding one iota to the well being of the country. For what good they're doing us they might as well spend their time playing solitaire.

The line of honey the Russians hand us sometimes becomes so ridiculous as to be amusing. This week's gem is a statement by the Russian ambassador that the embassy children's mathematics professor had been wounded in the head, hence could not possibly be a reliable witness before the Un-American investigating committee. The ambassador did not attempt to explain why his country is willing to engage a weak minded man to teach a precise subject like mathematics to its children. Apparently it made no difference to them if the kids were told that 2 plus 2 equals 22. Possibly that even fitted in with the Russian standard of education, judging from the known fact that the reds favor confusion a lot more than truth.

A more significant point for us to notice, however, is that native Russians after living in this country for a while and observing the difference in freedom, living standards and ethical values decide that they don't wish to return to the privation and slavery of Russia. Some of them are no less nauseated by the underhanded methods of red agents and offer to tell all about the whole shabby mess if this country will protect them and their families from Russian persecution.

In the light of such exposures it is hard to imagine how any American citizen can be so simple minded as to fall for the Russian propaganda line.

Developments in the red spy case have revealed why Hank Wallace was so irritated over the start of investigations at just the time he was holding the Progressive party convention. He knew all along what the rest of us discovered later, that some of the subversives under suspicion are big shots in his party. He has a 100 per cent pro-Russian and anti-American platform but he had hopes of keeping that sordid fact away from his deluded followers who actually expect him to lead the way to the promised land.

To make matters worse, Hank declines to renounce his guilty party members. Apparently it's all right with him if the country knows that he's affiliated (Continued on Page 10)

Albert J. (Toby) Wiese, 42, passed away Sunday in Flint, Michigan, after a lingering illness. He was the son of Mrs. Anna Wiese of Lindsay.

The body arrived in Gainesville Wednesday morning and lay in state at the George J. Carroll and Son Funeral Home until the funeral services at 8 a.m. Thursday in Saint Peter's church at Lindsay. Leo Wiese of Flint accompanied his brother's remains on the trip.

Rev. Conrad Herda, pastor, was celebrant of the solemn requiem mass. He was assisted by Rev. Alcuin Kubis and Rev. Francis Zimmerer, both cousins of the deceased, as deacon and sub deacon. Seminarian Hubert Neu was master of ceremonies. Burial was in the Lindsay cemetery.

Mr. Wiese was born and reared in Lindsay. He had been employed with Buick-Motor Company in Flint for the past 25 years. During that time he spent his annual vacations with his mother at Lindsay and was well known not only at Lindsay but also in surrounding communities.

Survivors in addition to his mother are five brothers: Frank of Gainesville, Leo, Bill and Paul of Flint and Vincent of Fort Worth; three sisters, Mrs. Val Dieter and Mrs. Jake Bezner of Lindsay, and Mrs. Wm. Schmitz of Gainesville.

Bill and Paul Wiese were unable to attend their brother's funeral as both are confined to hospitals in Flint as the result of injuries received in automobile accidents.

Fisher and Knabe Herds Lead Latest Summary on State Dairy Association

Of the 26 dairy herd improvement associations in Texas now in operation Cooke county ranked second in the production of average pounds of milk and second in the average pounds of butter fat, it was announced today from the office of the county agent.

The average milk production was 648 pounds, and the average butter fat weight was 28.1. There are 191 producing cows in the 11 herds in the Cooke County association.

According to the state association's summary report for the month of July, Paul Fisher and John Knabe had the high ranking herds. In Mr. Fisher's herd of 14 cows, the average pounds of milk was 734, with the average butter fat yield being 33.7.

Mr. Knabe's herd of 34 cows averaged 820 pounds of milk and 38.1 pounds of butter fat.

Norman Luke Receives Permanent Navy Citation

NEW ORLEANS.—Permanent citations for the Distinguished Flying Cross and gold stars in lieu of third and fourth Air medals have been sent to Lt. Norman J. Luke, USNR, Muenster, Texas, Eighth Naval District headquarters here announced today.

Navy Secretary John L. Sullivan cited Lt. Luke for "heroism, extraordinary and meritorious achievements" as first bomber pilot in Patrol Squadron 13, operating from advanced bases in the central Pacific on long-range patrols over enemy territory between Oct. 1943 and June, 1944.

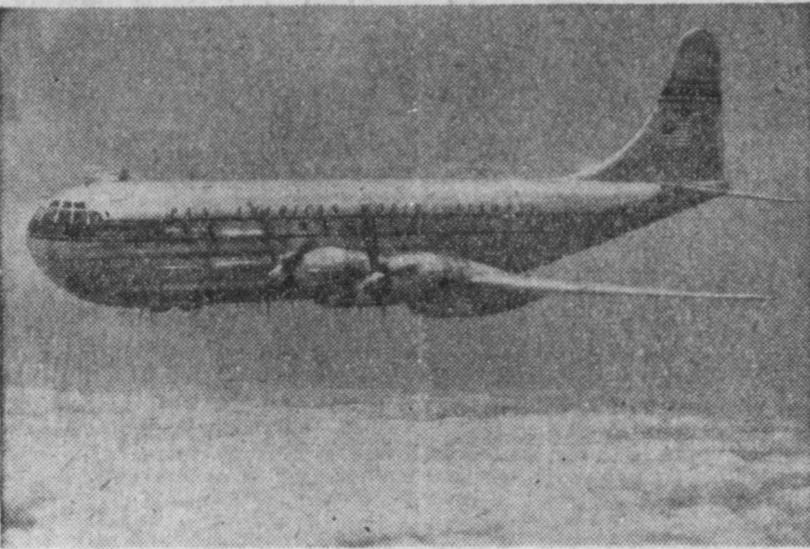

During 30 months overseas he took part in the Naval air campaign for capture of the Marshalls, Saipan, Philippines and Okinawa.

Lindsay Summer School Opens Monday August 16

Seven Sisters of Divine Providence from the motherhouse, Our Lady of the Lake Convent in San Antonio, are here for the opening of summer classes at the Lindsay school, next Monday, August 16.

Four of the Sisters are in Lindsay for the first time. They are Sisters Joseph Marie, superior, Sister Basilia, Sister Roche, and Sister Monica. The other three, Sisters Cosmas, Rose Frances and Matthew, were connected with the school last year.

Summer classes will continue for several weeks until the cotton harvest when they will be dismissed so that students may assist in gathering the crop. The regular term will open after the cotton season closes.

Juan T. Trippe, President of Pan American World Airways, announced that the new Clipper America is now flying. The \$1,500,000 Clipper, the first of a fleet of 20 Boeing Stratocruiser-type Clippers, will be delivered to Pan American in November. It carries 75 passengers and is the only airliner with a double deck, having a spacious lounge and bar on the lower deck. The largest, fastest commercial landplane, the Clipper America will be used in service between San Francisco and Honolulu, cutting present flight time from 12 hours to 8½. It will also be used in the New York-London service where it will cut flight time from 14½ to 12 hours. Later the new-type Clippers will be used extensively in the company's proposed system of domestic routes and also elsewhere on PAA's world-wide service.

Blaylock Stresses Pride And Confidence in Dairying At FMA Annual Gathering

More than 400 members of the Farmers Marketing Association sat spellbound for over an hour at the parish hall Tuesday night, and acquired a glowing pride in the fact that they are dairymen. They were listening to Bryant Blaylock of Marshall, self-styled East-Texas hill-billy, who is accepted as one of the outstanding dairy specialists of the nation as well as one of the nation's favorite speakers on the subject of dairying.

The occasion for the gathering was the FMA's annual social meeting, with a Dutch lunch as a lead-off for the oratorical treat that was to follow. Rudy Hellman, manager of the FMA plant, was toastmaster introducing Mayor J. M. Weinzapfel, who welcomed the group, the principal speaker and J. B. Klement, president of the FMA, who expressed the members' appreciation for Mr. Blaylock's inspiring remarks.

The noted East Texan enumerated several prominent reasons to justify a dairy farmer's pride in his work. The first is that he provides no less than 25 per cent of the sustenance of the average American citizen. Of the 1700 pounds of food consumed each year by the average person, he said, 425 consists of milk and milk products.

Another reason is the high standard of quality and sanitation attained by American dairy farmers, a fact which Blaylock emphasized by comparing American processing and distribution standards with those of other nations.

The dairy farmers' part in the last war was another source of pride. Despite decreased manpower on the farms milk production was increased from 105 million pounds in 1940 to 122 million in 1943. As a result soldiers and industrial workers all received an ample supply of this essential food. Even abroad the supply was generous. Dairy products made up 25 per cent of all this nation's food export.

No less impressive is the economic importance of milk to the nation. Dairying as an industry is greater than wheat and cotton combined, Blaylock said. One-fifth of our population makes a living at it, and to our 6 million farmers, 4½ million are milking 25 million cows for an annual income of three billion eight hundred million dollars. Blaylock also pointed with pride to this state's progress in the dairy industry. Since the late twenties, when processing whole milk in the state was originated,

Paul Fisher was a patient for treatment at Gainesville Sanitarium the latter part of last week.

Walter Klement lost part of his right index finger in a hay-baller accident at his farm Friday and received treatment at Gainesville sanitarium. The finger was severed at the first joint.

Walter Richter is recovering normally following an operation for the removal of his appendix Monday at Gainesville sanitarium.

Texas advanced from 32nd place to 8th place in the nation. In this connection Blaylock added congratulations to Muenster farmers for pioneering the milk processing industry in Texas. Their cheese factory was among the first in the state.

The speaker then enumerated other facts which indicated that the prospects in sight are far brighter than the records of achievement so far. The first step in that direction is to improve Texas cows to the quality of those in California, which net their owners twice as much on an average. Comparative production figures are 1400 quarts per cow in Texas and 2100 in California.

That improvement in itself offers big possibilities to the dairyman, but there are several more favorable factors to combine with it. Per capita milk consumption has increased from 807 to 870 pounds a year since before the war. During the same time the population has increased 15 million, births have increased from 1.9 million to 3.9 million per year and marriages have increased by 500 thousand. All signs point to a steadily increasing demand for dairy products.

At the same time milk cows have decreased by 2½ million and other livestock has decreased 15½ million to decrease the demand on the nation's greatest grain crop.

Summing it all, Blaylock stated that feed prices should get in line to make production costs reasonable while milk continues to command a good price. There is no better investment today than a herd of good cows, he said.

Turning briefly to the present alarming spread of communism in this country Blaylock sought to inspire confidence in the American way by comparing results here and in Russia. If the Red system is so wonderful, he asked, why is it that 160 million Russians have only 2 million telephones while we have 35 million? And why does Russia have only one half as many automobiles as the state of Texas?

He then explained that there's nothing wrong with our system, and the only reason for present confusion is that too many people don't want to work. There are bricklayers, for instance, who used to earn \$12 a day for laying 1000 bricks. Today they get \$24 but lay only 500 bricks. The wage isn't important, he said, but production is. To keep this country great we've got to make things... we've got to work.

Norman Luke and Joe Starke are among the 1176 students at NTSC who are on the dean's honor list for the first six weeks of the summer session. Luke is a senior majoring in business administration and Starke is a junior industrial arts major. They are sons of Messrs. and Mmes. Joe Luke and Joe Starke.

Floyd Lehnertz returned Tuesday by motorcycle from Wash-tuena, Wash., where he spent the past several weeks helping Charles Schmitt with his harvest.

BURGLARS BREAK INTO H AND H OIL CO. AND J. B. WILDE MOTOR CO.

Burglars, inactive here for several months, broke into two business houses during the early part of this week but took very little of any value.

Their first visit was Sunday night at the H & H Oil Co. Fred Hennigan, the owner, discovered about 8 p.m. that a window was broken and a set of keys was missing. Suspecting a later return he placed his son Arthur on guard with a rifle. After a while the youth decided to go home for a pistol. On his way he met City Marshal Andy Harrison and the two of them returned to find the place had been entered during his absence.

The office had been thoroughly ransacked and items missed were some stamps, a billfold and the rifle and cartridges left by the young man when he went after the pistol.

J. B. Wilde's garage was the second place visited and the evidence left indicated that the intruder might have been the same person who broke into the H & H Oil Co. The second burglary was Monday night.

Wilde said the burglar entered by breaking a glass in a door and reaching through to remove a bar which held the door inside. He ransacked the safe, desk drawers and the cash register and, to Wilde's knowledge took only the few pennies of change which he left in the cash drawer. Officers from the sheriff's department took finger prints.

Up to late Wednesday no arrests had been announced on either case.

Stainless Steel Whey Condenser at FMA Will Be Installed Next Week

The FMA Cheese factory's new stainless steel whey pan, which will bring the plant's whey condensing facilities up to date with latest engineering developments, is due to arrive here about the middle of next week, and installation will begin immediately after arrival. Special remodeling to accommodate the unit was completed several weeks ago.

Larry Yosten and Monte Hellman left by truck for Chicago early Thursday. The unit is to be loaded on their flat trailer Monday and they are expected back about Wednesday.

The new whey pan will replace the old copper model which has been in use here since the plant started condensing whey several years ago. Besides being larger and more efficient it makes a higher grade product free of the slight taint resulting from a copper unit. It will enable the plant to produce the highest quality of condensed whey.

Rev. Albert Schreiber Is Prior, Rev. Alfred Hoenig Is Director of Studies

The Very Reverend Albert Schreiber has been appointed new prior of Subiaco Abbey, succeeding the late Rev. Benedict Boergerding, it was announced this week when Rt. Rev. Abbott Paul Nahlen of the abbey visited here.

Father Albert was ordained May 26, 1927, and has been serving as director of studies at Corpus Christi College where he also issued the yearbook and news sheet. He is a native of Windthorst.

At the college Rev. Alfred Hoenig will succeed Father Albert as director of studies.

HIGHWAY ENGINEER WILL BE HERE SEPT. 8 TO DISCUSS ROAD PLAN

People of the community who wish to take a part in planning this area's long range road program will have an opportunity to discuss their ideas here on Wednesday, Sept. 8, with J. M. Isbell, state highway engineer for the Wichita Falls district.

Isbell set the date for a meeting here in response to a request made jointly by County Judge Carroll Sullivan and Mayor J. M. Weinzapfel.

The purpose of the meeting is to make a preliminary study of all farm to market roads in this area. Recommendations of residents will be considered in determining how roads can be routed so as to give the greatest possible benefit to the greatest number of persons.

The hour for the appointment set by Mr. Isbell is 3 p.m., but the meeting place has not been decided at this time.

Miss Adeline Bindel is recovering from a tonsillectomy performed Tuesday at Gainesville

A. H. Richter Dies Suddenly Monday Of Heart Attack

Al H. Richter, 68, brother of Wm. Richter, and remembered by local pioneers as an early resident of the community, died suddenly at his home in Fort Worth early Monday morning, Aug. 9, the victim of a heart attack. He died while speaking with his wife a few moments after assuring her that the faint illness he felt was nothing serious. Prior to that he was active daily, enjoying normally good health.

Funeral services were held Wednesday at 10 o'clock at St. Mary's church in Fort Worth after which the body was taken to Austin for burial.

For more than a year Mr. and Mrs. Richter had plans of moving to Austin and building a house near that of their daughter, Mrs. David Henderson, but his contracting business at Fort Worth delayed their moving.

Mr. Richter had been a builder in Fort Worth since shortly after moving there in 1912. He was also well known here as a builder, having been the contractor on the Muenster parochial school construction in 1925.

Mr. Richter was born in Germany in October, 1879, coming to this country at the age of 1 when his parents, Mr. and Mrs. Henry Richter, moved to Nebraska. In 1891 the family moved to Muenster.

In August, 1905, Mr. Richter was married in Gainesville to Miss Violet Murdock and made his home there until moving to Fort Worth.

Mr. Richter is survived by his wife; one daughter, Mrs. David Henderson of Austin; three sons, Edmund of Beaumont, Raymond of Lubbock, and Al Jr. of the U.S. Army in Puerto Rico; and two brothers, William of Muenster, and Henry of Paul's Valley, Okla.

SOLICITORS ORGANIZE TO RAISE FUNDS FOR BOY SCOUT PROGRAM

A short and snappy community drive to raise funds for the Boy Scout Program in North Texas got underway here Monday night when 32 scouters met at a luncheon in the parish hall to organize their campaign.

Twenty eight of those present were workers who will make the community contacts. The others were Frank Cockrell, field representative of Circle 10 Council, Dr. A. A. Davenport of Gainesville, chairman of the Cooke county committee, J. M. Weinzapfel, Cooke county committee-man, and County Judge Carroll F. Sullivan. In short addresses the four of them outlined the purpose and method of the drive.

Conducted simultaneously with other drives in all 14 counties of the Circle 10 Council, the drive is intended to raise money for all phases of scout activity. These include scout activities, camping, training and promotion, administration and advancement.

Each person on the collection team is expected to see about 10 prospects and, if possible, complete the drive within a week.

Mr. and Mrs. Joe Hoenig and family spent Sunday in Rhineland with Mr. and Mrs. Leo Fetsch, and Misses Eleanor and Rita Hoenig remained to spend the week with their uncle and aunt and with friends.

Mr. and Mrs. Gus Hellman and daughter, Janis Kay, of Corpus Christi returned to their home Tuesday after a week's visit with his mother, Mrs. Ben Hellman and members of the family.

Schedule of Coming Events

The following is a list of scheduled meetings in the community for the coming week as reported by the organizations concerned. In offering this service the Enterprise invites all clubs, societies and civic groups to use the schedule as a convenience to their members. Please submit reports by Wednesday noon.

THURSDAY, AUG. 12, Community Council, Parish Hall, 8 p.m.

FRIDAY, AUG. 13, Catholic Daughters Meeting, K of C hall 8 p.m.

THURSDAY, AUG. 19, Mission Sewing Circle, K of C hall, 2 p.m.

THURSDAY, AUG. 19, VFW Auxiliary, call meeting, home of Mrs. David Trachta, 8 p.m.

LOCAL NEWS BRIEFS

Bill Hoehn of Borger arrived Thursday for a short visit with his father, A. T. Hoehn.

Tony Walterscheid started construction this week on a combination hay and dairy barn.

Rev. Raymond Wewer of Subiaco, Ark., is visiting in the parish this week.

ited here this week with relatives.

Mmes. J. C. Trachta and John Wieler were Wichita Falls visitors Tuesday.

Miss Joyce Williams of Orange spent the weekend and Monday with her parents and family here.

Mr. and Mrs. Leroy Stelzer of Henrietta spent the weekend here and at Saint Jo visiting relatives.

Mr. and Mrs. Norbert Hoedebeck have moved to town to occupy the house vacated by the Leo Hoedebecks.

Melvin and Gene Schoech had as their guest for the weekend, their cousin, Pollie Sandmann of Lindsay.

Mr. and Mrs. J. Y. Hobbs and daughter spent several days of the past week visiting relatives and friends in Oklahoma and Arkansas.

Joe Mages and daughters, Loretta, Harriette, and Albina, left Wednesday for a visit in Amarillo with the Charlie Berend family.

MISS UNEIDA DIETER, FORMER LINDSAY GIRL, WEDS IN CALIFORNIA

Miss Uneida Dieter, daughter of Mr. and Mrs. Anton Dieter of Brisbane, Calif., formerly of Lindsay, became the bride of Joseph Fernandez in a pretty twilight ceremony performed at 7 o'clock on Saturday, July 31, in the Visitation Valley Catholic church at

Tractor Safety Depends on Easy Ride Seat

"No more back-breaking tractor rides!" says Phillip B. Senesac, shop foreman in the Agricultural Engineering Department of Purdue University. He is shown seated on a new type tractor seat which was installed nearly two years ago on a tractor used on the school's experimental farms.

LAFAYETTE, IND. — Relief from the "rough-riding" discomforts farmers suffer while driving a tractor over bumpy fields every day is essential not only to more efficient farming, but is also a major factor in reducing farm accidents, according to a recent statement by Donald M. Kinch, assistant professor of Agricultural Engineering at Purdue University.

Basing his opinion on a recent tractor operators comfort survey conducted by the Society of Automotive Engineers which revealed that the percentage of time tractor drivers sit on the seats of their machines ranged from a high of 99 per cent on one make of tractor to a low of 55 per cent on another model, Mr. Kinch declared:

"Standing on tractors while driving is extremely hazardous. Recent reports show that a majority of farm accidents involve falls from machinery, particularly tractors. While in some cases a farmer is forced to stand because of the need for better vision, generally this practice can be traced to the fact that the tractor is not

equipped with a comfortable seat and the constant jolting and vibration are too much for his endurance.

"The average farmer sits on his tractor seat for longer periods than he does in the seat of his automobile. Certainly it is far more essential that he be comfortable while doing his field work than when he is merely driving for pleasure," Mr. Kinch stated.

Pointing out that considerable progress toward providing comfort for tractor drivers has been made, Mr. Kinch said that he was "greatly impressed with a new type tractor seat which was installed on a tractor used on the university's experimental farms, by a Michigan manufacturing firm nearly two years ago. This tractor seat consists of a variable rate coil spring, which makes adjustments unnecessary regardless of the weight of the driver, a double action hydraulic shock absorber to smooth the jolts, and a rubber-mounted stabilizer bar to reduce sideway. The popularity of this seat is indicated by the fact that it is now being used as standard equipment on four well-known makes of tractors.

then I remembered I had left it in the bathroom at home."

When the judge got home that night, his wife said, "John, why all the fuss about your watch — sending four or five men to get it?"

"What!" howled the judge.

"I never sent anyone. What did you do?"

"Gave it to the first one who came," said his wife. "He knew just where it was."

San Francisco.

The double ring service was read by Father McCarthy and was witnessed by a large assemblage of relatives and friends of the young couple.

The bride was given in marriage by her uncle, Cavitt Moon of Brisbane. She was beautifully gowned in white bridal satin fashioned with sweetheart neckline, long sleeves and formal train. A seed pearl crown held the fingertip length veil and the heart-shaped bouquet was of orchids & Stephanotis. For "something old" she carried a white lace handkerchief that her grandmother, Mrs. Myrtle Moon, carried at her wedding.

Mrs. J. Micallef, aunt of the bride, was matron of honor, wearing aqua brocaded satin and Miss Mary Fernandez, cousin of the groom, was bridesmaid, wearing gold brocaded satin. They carried colonial bouquets of white roses. Donna Dieter, small sister of the bride, was flower girl. She wore a baby blue taffeta frock and carried pink baby roses.

The groom was attended by Joseph Micallef and Eugene Mat-tecui.

The couple was honored with a buffet dinner at the home of the groom's parents, Mr. and Mrs. Anthony Fernandez in San Francisco, after which they left on a wedding trip to spend two weeks at Lake Tahoe. For traveling the bride wore a pale green wool suit with white accessories and a corsage of orchids. When they return they will make their home at 250

Peninsula Ave., San Francisco.

The bride was born and reared in Lindsay. She moved to California with her parents about four years ago.

Shooting Insulators On Power Lines Can Cause Severe Damage

Inconvenience to users of electricity has occurred on several occasions recently because of boys or hunters shooting insulators on the Texas Power & Light Company's lines, according to C. E. Stringer, district manager for the company.

"While such occurrences may be from innocent pranks or careless shooting," he said, "they frequently result in serious property damage and can cause interruption of electric service over a wide area to industries dependent upon electric power, as well as to farms and residences. These inconveniences have been severe enough for a standing reward of \$100 to be offered for the arrest and conviction of anyone damaging these insulators intentionally, specifically through gunshot."

TRUTH HURTS

The judge was explaining to the jury that a witness was not necessarily to be regarded as untruthful because he altered a statement he had previously made.

"For instance," he said "when I entered this courtroom today, I could have sworn that I had my watch in my pocket. But

THERESE SCHAD HAS PARTY ON 9TH BIRTHDAY SATURDAY

Little Miss Therese Schad was honored with a surprise birthday party Saturday afternoon. She was 9 years old. Her mother, Mrs. Al Schad arranged the affair.

The guests arrived in a body at the Schad home and after singing the happy birthday song presented gifts to the honoree. They then had a theatre party at the Relax.

After the show they returned to the Schad home where refreshments of birthday cake, ice cream and grape juice were served.

Present were Doris Lee and Florene Horn, Patsy and Marilyn Horn, Dolores and Barbara Boyles, Lois and Margaret Owen, Carolyn Cunningham, Mary Weinzapfel, Clarice and Mary Margaret Schad.

I. A. SCHOECH FAMILY HAS REUNION PARTY SUNDAY

Members of the Schoech family gathered at the home of Mr. and Mrs. I. A. Schoech Sunday evening for a family reunion. All children and their families were present with the exception of Mr. and Mrs. Ferd Yosten of Fort Worth who were unable to attend.

Present from out of town were Mr. and Mrs. Charles Harris of Dallas, Mr. and Mrs. Frank Schoech of Dallas and Sister Perpetua of Our Lady of the Lake Convent, San Antonio, and Mr. and Mrs. Alvin Cier of Valley View.

Mr. and Mrs. Harris are moving this week from Dallas to make their home in Los Angeles, Calif. She is the former Miss Pauline Schoech.

—Mrs. Albert Herr, the former Miss Ann Arendt, daughter of Mr. and Mrs. Paul Arendt of Lindsay. Mr. and Mrs. Herr are making their home in this city since their recent return from a wedding trip. He is the son of Fred Herr of Muenster.

George J. CARROLL and Son

Serving Cooke County Since 1901

Phone 26 Gainesville

A hard driving taxicab pilot ignored a red light, zoomed around the corner at low altitude, missed a light standard by an inch, grazed a bus, and threatened a traffic policeman's life, all in one mad dash.

The policeman hailed the hack, then strolled over to him, pulling a large white handkerchief from his pocket en route.

"Say, cowboy," he said in mock admiration, "on your way back I'll drop this. See if you can pick it up with your teeth."

Fan-fare A Selection of Facts On This Business of Keeping Cool

Refreshers course: To keep you cool, calm and collected on hot, humid days and nights, the air must circulate in a room at least once every two minutes. . . . When you're hot, your body is blanketed by a layer of stagnant air. Air can absorb only so much moisture, and the batch surrounding you is already full of it. You, therefore, are not only hot, but sticky and sluggish, and in some cases "all in." . . .

To get direct and quick relief, place your electric fan two to five feet above the floor and six or ten feet away from you. . . . For indirect air movements, place the fan a foot from the wall and let its stream play directly on the surface. This achieves a more gentle circulation, but it has been found to be thorough and just as effective, if slower. . . .

On excessively hot nights, put the fan, facing outward, on a table about three feet in front of an open window. Then open the other windows or doors. The fan will drive out the day's accumulation of inactive air and replace it with fresh, invigorating currents. Placement of the fan a few feet in front of the window has just been revealed as greatly increasing the fan's air exhaust capacity for night cooling. . . .

Larger equipment, for cooling the entire home, includes window-type and attic-type cooler fans. One of these installations, which also supplants the hot, dead air with fresh and cooler outside currents, can cause as much as a 20-degree temperature drop throughout a five-room house or apartment.

The fan, one of the oldest of electric household appliances, was invented in 1832. . . . The alternating current type followed in 1888, the oscillating model in 1910. . . . Today fans are manufactured by ninety companies. Last year 2,902,000 were produced, with a retail value exceeding \$78,000,000. . . . This, compared with 712,149, valued at \$11,000,000, produced more than 20 years ago.

Through the years the fan has become vastly more efficient. . . . Since the cooling effect of a fan depends almost entirely on the amount of air it can move, great engineering stress has been placed on propeller design. . . . Developments in this science, added to electric motor refinements, have made the fan incomparably quieter and as much as 50 per cent lighter. . . .

Radio interference also has been eliminated. . . . Bearing developments prevent oil drips and the spattering of walls and furnishings. . . . The fan today has finger-tip oscillation adjustment. . . . It is more durable. Endurance tests on its oscillation cord, for instance, have shown that the cord can be bent 200,000,000 times without breaking.

In addition to cooling assignments, the ordinary table-model fan can be used to: Remove odors from commercially or home dry-cleaned clothes. . . . Quick-dry tea towels or the family wash when hung indoors on rainy summer days—by blowing away the moisture-laden air, evaporation is hastened, the fabric dries more evenly and mildew is prevented. . . .

It also can: Speed up the drying of nylons and the rayons, thus extending their life—slow drying stretches synthetic fabrics, weakens them and spoils the shape. . . . Thaw frozen foods in a third the time it would take at room temperature. . . . Remove cigaret and stale beverage odors from the recreation room. . . . Freshen clothes in closets, at the same time discouraging moths. . . . Speed up the refrigerator defrosting chore. . . .

In the kitchen, tests have revealed that about 400 pounds of steam are given off from various cooking processes for a family of four each year. This steam is grime-ridden—three pounds of carbon, equivalent to ten teacups of lampblack, and a fifth of a pound of volatile oil and fat, equivalent to a teacup of olive oil. But it is all eliminated by the ventilating fan. . . . This type of kitchen fan is ideal, but a simple portable fan will serve if placed to draw the kitchen air through an open window or pantry.

The average fan, which you probably consider such a simple affair, requires more than 100 separate manufacturing operations. . . . It also has at least 250 parts, plus 500 feet of copper wire. . . . Materials, in addition to copper, that enter into its make-up range from free-cutting, deep-drawing, spring and electrical steel to tin, lead, oil, graphite, fiber, plastics, thermosetting varnish, paint, bronze, aluminum, nickel, cadmium, brass, zinc, rubber, wool felt, scotch tape and rag paper. . . .

And among the arts it calls upon are pattern making, mold and die making, sand and die casting, heat treating, metal working, gear cutting, plastics molding, infra-red baking, welding, lithographing, powdered metallurgy and dynamic balancing. . . .

The average life of a fan, with reasonable care, is reported as exceeding 20 years. . . . Yearly lubrication is usually all it requires—care should be taken lest over-oiling damage the insulation on the motor windings. . . . If it won't start, check the cord for a break and inspect connections to see that they are tight. This failing, consult a service man. . . . In cases a thorough cleaning of the blades will quiet a noisy, vibrating "walking" fan.

Star, Life and Eagle Scout Awards Indicate Character and Ability

"First Class Scouts and Scouters, except Assistant Scoutmasters under twenty-one years, who must qualify as First Class Scouts, who meet the requirements herein stated for Star, Life or Eagle Scout Rank, or for the award of Eagle Palms, may receive such awards only when the local Committee on Advancements secures in such manner as it may determine wise, for those who may be in a position to know from personal knowledge, not from the Scout himself, but from the parents, school teachers, employer, pastor, Sunday school teacher, Scoutmaster, member of his Troop Committee or others, definite, concrete, satisfactory evidence that the Scout has:

"First, actually put into practice in his daily life the ideals and principles of the Scout Oath and Law, the Motto 'Be Prepared' and the 'Daily Good Turn.'"

"Second, maintain an active service relationship to Scouting. "Third, make an effort to develop and demonstrate leadership ability."

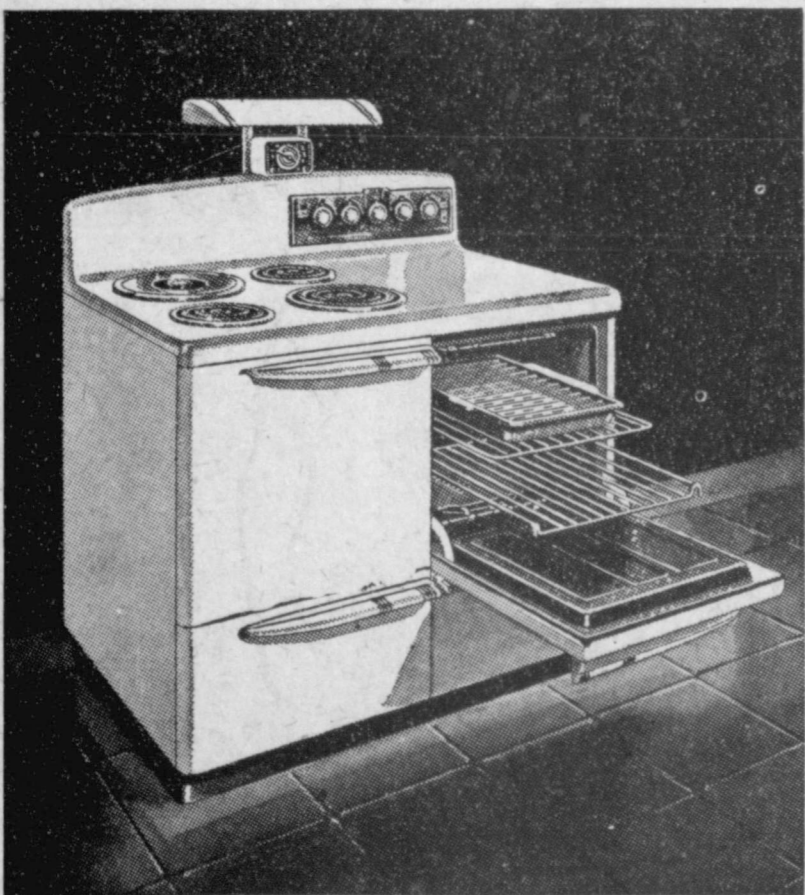

The Star, Life and Eagle Ranks are respectively the highest steps in Scout advancement. Those who attain these honors, of necessity, should be real Scouts, representative Scouts — Scouts on the inside as well as on the outside.

The National Council, therefore, requires that the Committee on Advancement before conferring these awards shall positively know:

(1) That the Scout is living up to his Oath and Law and Motto and Good Turn. So important is this that they are instructed to secure specific evidence from the Scout's associates.

(2) The Scout to be honored with these high ranks in Scouting must, of course, continue actively in Scouting and try to develop leadership ability in his Troop relations.

(3) The challenging need of America is leadership — people

Admiral

Fully Automatic Electric Range is a delight to use

Automatic cooking with the Admiral Deluxe is as simple as ABC.

A. Turn selector switch to oven, cooker or appliance outlet. B. Set "Start, Stop, Aut." controls on clock (scale is graded for 12 minutes automatic cooking periods.) C. Turn temperature control to proper heat.

The Admiral Deluxe also has Flex-O-Heat "no-skip" control giving you not only 3 or 5 speeds but all the intermediate speeds. The flow of heat increases gradually as you turn the switch, like the flow of water increases gradually as you turn the handle of a faucet.

who have ability and reliability enough to carry responsibility in business, in government, in church, everywhere. Leadership can only be learned by leading. Scouting offers the opportunity to get this experience. Each Scout should use it by making an earnest, though modest, effort to serve through giving leadership to such activities and work and Good Turns as his own leaders deem wise. To help rather than merely to lead is the ideal.

Always Busy

Friend— "How can you make a living tuning pianos way back here in the country?"

Tuner— "No trick at all — in slack times I tighten barbed wire fences."

The old Latin word for money — "pecunia," from which we get our word "pecuniary"— came from "pecus," meaning cattle.

LOCAL NEWS BRIEFS

Mr. and Mrs. Andy Harrison and children drove to Grand Prairie Sunday to visit his brothers, Terrell and Harvey Harrison.

Mrs. Joe Tischler and little granddaughter, Judy Yosten, have returned from a two-week visit with Mrs. Tischler's children in Dallas, Celina and Pilot Point. At Celina they had the pleasure of welcoming Father Thomas Weinzapfel to his new parish.

Mr. and Mrs. E. S. Lawson, Mr. and Mrs. Leo Lawson and daughter, Mr. and Mrs. Starling Lawson, and Mr. and Mrs. Looney McGowan and children, spent Sunday in Albany, Texas, at the home of Roy Lawson where a family reunion of the Lawsons was held. More than 40 members of the family were in attendance.

Messrs. and Mmes. J. J. Haverkamp and Leo Haverkamp spent Sunday in Corsicana with the

formers' son-in-law and daughter, Mr. and Mrs. Troy Cooper and were accompanied home by Misses Helen and Rosabell Haverkamp who had been visiting there a week.

Pvt. Kenneth Wiesman who is taking basic army training at San Antonio, has the following address: S. Squadron, BM6, Flight 3387, Lakeland Air Base, San Antonio. In a recent letter to his parents, Mr. and Mrs. Al Wiesman, he said to tell all his friends hello.

Mr. and Mrs. Joe Gorman visited here the latter part of last week with her parents, Mr. and Mrs. W. H. Endres. They were on the last lap of their wedding trip and went from here to Rockford, Ill., where they will make their home. They left Friday night by plane from Dallas to Chicago.

Miss Betty Lue Buckley returned last Wednesday from San Antonio where she attended the Summer School of Catholic Action for one week and spent three days visiting friends. During the school Miss Buckley served as one of the editors for the school's official publication "Action Sheet" published daily during the week.

Misses Johann Seyler, Juanita Weinzapfel and Gladys Wilde left Friday night by bus for Detroit, Mich., where Miss Seyler received delivery of a new Plymouth Monday. The trio will stop at Jonesboro, Ark., to visit Margie Seyler and to attend religious ceremonies there on the 14th and 15th at Holy Angels Convent.

Mr. and Mrs. H. C. Billingsley and son of Ardmore, Okla., visited relatives here Sunday. They were accompanied to Muenster by their nephews, Dan and Bert Hamric, who had been their guests for a week, and took their little daughter, Gayle, back home with them after she spent a week in this city with her cousins.

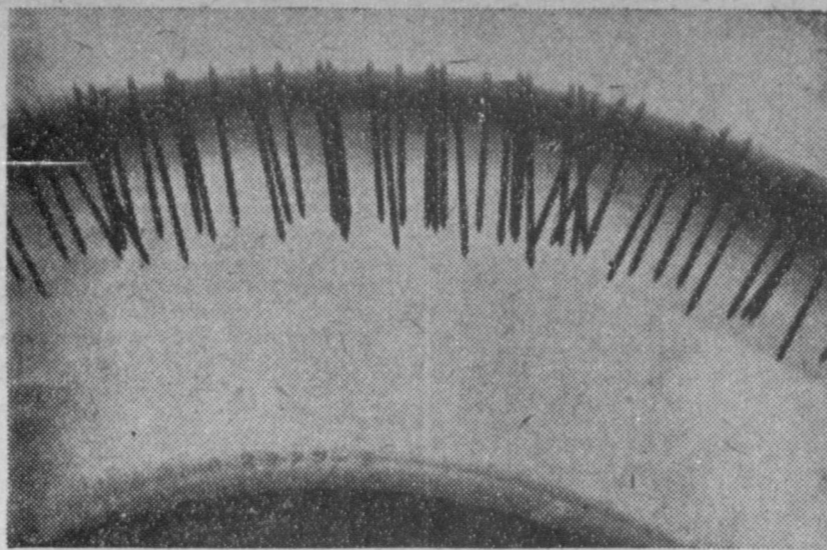

Among local persons planning to be in Jonesboro, Ark., on the 14th and 15th for religious ceremonies at Holy Angels Convent are Mrs. Frank Seyler, Mrs. John Fette, Mr. and Mrs. Ben Seyler and son, Billy. They will be accompanied by Mr. and Mrs. Darrell Adams and Mrs. C. W. Ratliff of Lubbock, and Mrs. Elwyn Hope of Fort Worth. Mrs. Herman Fette, Miss Anna Grace Fette, Miss Jeanette Meurer, Mrs. Joe Felderhoff and daughter, Miss Mary Ann, Mr. and Mrs. Arnold Rohmer and son, the John Wielers, the John Fishers, the R. M. Zippers, the J. W. Hess family, Rev. Herman Laux and others

SCOUT HENRY WEINZAPFEL ADMITTED TO ARROW ORDER
Induction ceremonies for boy scouts of Circle 10 Council who were admitted to the Order of the Arrow, national boy scout camping fraternity, were held Friday at an overnight meeting at Camp Wisdom and those admitted into the order included Henry Weinzapfel of the Muenster troop.

He was accompanied by John David Meurer, a candidate for induction, and Larry Hofbauer and John Myrick, members.

Those inducted into the order are elected by members of their own troops, Scoutmaster Nick Miller said. Each troop is allowed to elect 10 per cent of its members who are first class scouts and who attended the scout camp for one week during the summer.

Mr. and Mrs. H. H. Allen of Gainesville were Sunday supper guests of Mr. and Mrs. Ed Chadwell and Stan Chadwell at Myra.

Looking into a tube after 301 nails had been driven through both casing and tube is a new application in X-Ray photography that enabled engineers of The General Tire & Rubber Company to prove their story that the new Puncture-Sealing tube is the safest measure that can be applied to driving today. 100 days after the test the tube retained every pound of its original pressure.

With more cars than ever before on the highways, cars that are far above the prewar average age, there is a crying need for more safety. It was to fill this need that General Tire engineers designed the new Puncture-Sealing tube with its high degree of anti-blowout protection.

MRS. JOE HORN HOSTESS TO GET-TOGETHER CLUB

Mrs. Joe Horn entertained members of the Get-Together Club in her home last Wednesday afternoon for the regular monthly meeting of the group.

Four tables were arranged for progressive 42 series in which Mrs. Joe Luke received the high score award and Mrs. John Kathman the consolation favor. The galloping award went to Mrs. John Hoffman, a guest, and Miss Elizabeth Fleitman, the other guest, received the guest prize.

Mrs. Jake Pagel received a birthday gift from her Sunshine Pal. The hostess served a delicious plate supper at the close of the afternoon.

During a brief business session, Mrs. Jake Pagel, president, presided and members made plans for their annual party, deciding that it will be held this Thursday in the home of Mrs. Ben Hellman, with Mrs. Jud Boyles and Mrs. Joe Horn assisting with hostess duties.

MISS BILLIE WIMMER IS COMPLIMENTED AT PARTY

Miss Billie Wimmer, bride elect of Ray Otto, was complimented with a pretty miscellaneous

shower and party Sunday afternoon in the parish hall. Hostesses were Miss Grace Wimmer, Mrs. Tony Hoeng and Mrs. John Otto. Progressive 42 series entertained the guests and the hostesses served a refreshment course after which the honoree opened gifts presented by the 18 ladies in attendance. Game prizes, won by Mrs. C. J. Wimmer, high, Miss Frances Ann Hennigan, low, and Mrs. Paul Arendt, Jr., galloping, were presented to the honor guest.

Mr. and Mrs. Henry Luebbert and daughters of Fort Worth visited her mother, Mrs. Anna Haverkamp and Mr. and Mrs. Bill Stelzer Sunday.

GAY COLOR ON SWINGS AND SLIDES REDUCES PLAYGROUND INJURIES

Beauty can take the beast out of potentially dangerous play equipment for children. That's the opinion of safety specialists of the Accident Prevention Department, Association of Casualty and Surety Companies, who have been looking into home and playground hazards which needlessly kill or maim small children.

The safety experts point to a recent study made by a paint manufacturing concern which shows that beautifying playground equipment can also serve to make it safer. Not only that, the attractive colors help entice youngsters to the playground and away from more dangerous areas, like the street. Here are some of the recommendations the paint experts make of which the safety experts approve:

The rare sight of an owl in flight was caught by nature photographer Lynwood Chase, using a Speed Graphic and electronic flash operating at 1/10,000th of a second. Here the owl lowers its landing gear—powerful talons—and uses its wings for brakes as it alights on a branch. Photo was made in a specially-constructed forest studio.

For slides — Paint them green. It counteracts excessive sunlight

and is restful to children's eyes. Steps leading to the top of the slide, however, should be yellow to draw child's attention and make him more careful when climbing up.

For see-saws — Green again, with edges painted yellow to give greater visibility and reduce chances of children running into them.

For swings and swing rings — Youngsters are less likely to be struck by seats or rings painted yellow. Green is best for uprights and overhead bars.

For sand boxes — Green. For jungle gyms — Blue, a cool, restful color, associated psychologically with need for precaution.

For trash cans — Grey with a white star. The latter emphasizes neatness and encourages youngsters to help keep playground tidy.

JOE LUKES HOSTS FOR BARBECUE PARTY THURSDAY

Mr. and Mrs. Joe Luke were hosts for a barbecue supper and lawn party at their home last Thursday night for the Luke relationship which included more than 30 guests.

The party complimented Mr. and Mrs. Anthony J. Hoffman of Hereford, recently married couple, Mr. and Mrs. Joe Gorman, recently married couple, and Mrs. Ben Koester of Saint Louis, Mo. Mrs. Hoffman is the former Miss Marcella Luke and Mrs. Gorman is the former Miss Dollie Endres.

JIMMY HARRISON HAS PARTY ON 4TH BIRTHDAY

Jimmy Harrison, who was four years old Tuesday, was given a birthday party by his mother, Mrs. Andy Harrison, at their home in the afternoon. She was assisted by Mrs. Herman Fette in directing games and serving refreshments.

The little honoree received an assortment of gifts from the guests.

TAXPAYERS WILL PAY 10 MILLIONS FOR GI SHENANIGANS ABROAD

WASHINGTON.— The shenanigans of GIs overseas during and after the war will cost American taxpayers an estimated \$10,000,000 in damage bills.

That's the conclusion Army and Navy officials here have reached after surveying the stack of foreign damage claims that has piled up.

The Army disclosed Monday that it is in the process of paying out about \$9,000,000 on some 54,000 individual claims filed since the end of the war. The Navy said that its claim payments total about \$1,000,000.

The bulk of the bills are for thousands of cases of personal and real property damage allegedly caused by American soldiers and sailors overseas.

Most countries reject such claims on their troops as battle losses. But Uncle Sam settles up without bickering.

The biggest single bill, totaling \$4,000,000, is that paid to date for an alleged breach of neutrality when a U.S. bomber crew mistakenly dropped a load of bombs on a small Swiss town.

As a rule, the U.S. does not allow claims for combat loss. But it pays out promptly for property destroyed by its occupation troops — mistakenly or otherwise.

Claims commissions have been set up in Germany, Italy, Japan, Trieste, Korea, Iceland, Hawaii, the Philippines, Panama, Trinidad, Jamaica, the Azores and British Guiana.

Typical is the case of the British landowner who charged that some of his trees had been cut down by American soldiers stationed in England. As evidence, the Briton produced a paper sign — "Pvt. Mortimer Snerd."

The claims commission took one look at the paper and paid almost without question. It agreed that only some playful GI could have signed such a paper.

The Army and Navy are permitted by direct congressional authorization to settle such small individual claims on the spot. But anything above \$5,000 requires passage of a special bill by Congress.

Probably the smallest payment on record is one totaling \$3.33. The sum was paid to a native of Tonga Tabu for five coconut trees which he alleged GIs had cut down.

One of the largest claims ever turned down was for 14,600,000 francs. A Tunisian farmer charged the battle of Kasserine Pass was fought on his land and in-

sisted he was entitled to recoup his losses.

The farmer did not press the Germans for payment. He wanted Uncle Sam to pay up. The U. S. government pointed out that this was a case of "battle loss" and he would have to be satisfied with \$48 for actual occupation damage.

There are countless other little payments on the records, ranging from personal injury in jeep accidents to Army and private motor vehicle collisions on foreign soil.

SURPRISE PARTY GREET'S AILEEN KOELZER FRIDAY

Miss Aileen Koelzer was honored with a surprise party in observance of her 16th birthday Friday night at the home of her parents, Mr. and Mrs. Pete Koelzer. Her mother and brother, Victor, planned the event.

Gifts, games and birthday cake with other refreshments made it an enjoyable evening for some 25 guests.

Those present included the following classmates of the honoree: Mary Ann and Joan Felderhoff, Bernice Reiter, Regina and Verena Henschel, Olive Haverkamp, Pauline Mages, Jeanette Meurer, and Hugh Endres and Melvin Herr, Mr. and Mrs. John Flies and daughters, Misses Patty and Betty of Chanute, Okla., Misses Ceal and Dorothy Sicking, and members of Aileen's family.

COMPARE the values; compare the prices; and you'll choose Chevrolet!

For to compare the values is to know that only Chevrolet brings you the Big-Car riding-smoothness of the original and outstanding Unitized Knee-Action Ride... the Big-Car performance and dependability of a world's champion Valve-in-Head engine... the Big-Car beauty and luxury of the enviable Body by Fisher... the Big-Car safety of Fisher Unisteel Body-Construction and Positive-Action Hydraulic Brakes... plus many another major quality advantage still not available in any other motor car in its field.

And to compare the prices is to know that Chevrolet prices are the lowest in the field... and that Chevrolet value continues to be the highest in its field!

That's why Chevrolet is America's No. 1 car; that's why it's the car for you!

FIRST in Riding-Smoothness!
You just can't beat the genuine Unitized Knee-Action Gliding Ride for real riding-smoothness—real traveluxury—over any and all kinds of roads; and, remember, this famous "Knee-Action" ride is exclusive to Chevrolet and more expensive cars.

FIRST in Thrills with Thrift!
There's nothing like Chevrolet's world's champion Valve-in-Head engine for thrills and thrift. It holds all records for miles served and owners satisfied. It embodies that extra sound, extra-dependable Valve-in-Head design, found elsewhere only in costlier cars.

FIRST in Tasteful Beauty!
You will be perfectly sure of your car's beauty-leadership when you own a car with the world-famous Body by Fisher; and this most desirable of all car bodies—beautiful from every angle, inside and out—is available only on Chevrolet and higher-priced cars.

FIRST in All-Round Safety!
You and your family will enjoy the triple safety protection of Fisher Unisteel Body-Construction, the Unitized Knee-Action Ride and Positive-Action Hydraulic Brakes—another combination of features found only in Chevrolet and higher-priced cars.

CHEVROLET — and Only CHEVROLET — IS FIRST!

**Centuries Of
Threshing
Re-Enacted At
Milwaukee**

MILWAUKEE—The ancient sweep-power and thresher pictured above will play featured roles at the Wisconsin Centennial Exposition where they will join other historic machines and methods in a pageant dramatizing 5,000 years of agricultural history. These machines and others dating back more than a century, will demonstrate changing threshing methods from pioneer times to the present. Entitled the "March of Machines", the pageant is being presented by the J. I. Case Company. It will re-enact actual threshing methods beginning with flailing and treading, as practiced from Biblical times until a century ago, and culminating with the combine of today. The "March of Machines" is a feature of the opening week of the Centennial Exposition to be held at State Fair Park, Milwaukee, August 8 through 14.

**Local
NEWS
Briefs**

George Gehrig made a business trip to Dallas Friday.
Arthur Felderhoff was a business visitor in Dallas Friday.
Mmes. J. C. Trachta and John Wieler made a business trip to Sherman Thursday.
Charles Fisher is the owner of a new blue Chevrolet 4-door sedan delivered by J. B. Wilde Friday.

Olivia Stock and Rosa and Michael Driever were Sherman visitors Sunday afternoon

Bill, Alvin and Jerry Fuhrmann, Herbert Miller, Buddy Markham and James Hammer spent Sunday afternoon in Sherman.

Mrs. Mary Schmitz of Wichita Falls spent the weekend with her daughter, Mrs. Charles Fisher and family.

Mr. and Mrs. Bob Swirczynski and children of Ardmore spent Sunday night and Monday here with their parents.

Miss Florence Fette spent Sunday with Miss Mary Ann Felderhoff and in the afternoon accompanied her to Sherman for a visit.

Mrs. Stephen Markham and children returned Friday from a vacation visit in Alexandria, La., where they were guests of her sister.

Mr. and Mrs. J. O. Waggoner had as weekend guests their children, Venson Waggoner of Fort Worth, and Mr. and Mrs. V. L. Rowe of Ranger.

Misses Terese Walter and Dolores Walter and Mmes. John Walter, Al Walter, Paul Endres and Frank Bayer were in Fort Worth shopping Thursday.

Rev. and Mrs. Harold Taylor of Myra were Sunday guests of Mr. and Mrs. J. W. Fletcher. Rev. Taylor is pastor of the Myra Methodist church.

Mrs. Ben Koester left Saturday night to return to her home in Saint Louis, Mo., after a week's visit here with relatives of the Luke families.

Mr. and Mrs. John Flies and daughters, Misses Patty and Betty, of Canute, Okla., were here for a visit with the Gus Sicking family and other relatives during the week.

Mrs. E. P. Buckley and Betty Lue left Thursday morning for Jonesboro where this weekend they will be among those attending the religious ceremonies at Holy Angels Convent.

Ben Seyler and daughter, Miss Johann, were in Lubbock the latter part of last week for a visit with their daughter and sister, Mrs. Darrell Adams, and the C. W. Ratliff family.

Rhody Klement, Tony Yosten and Bernard Swirczynski left Friday on a two weeks' trip that will include visits in Mexico, California, Washington, Nebraska and other states.

Work began the latter part of last week on a new home for Mr. and Mrs. John Kathman. It is located in the west part of town, north of the Victor Hartman home.

Miss Doris Lee Heilman has returned to Wichita Falls where she is employed following a two week visit with her parents, Mr. and Mrs. Clarence Hellman and family.

Mr. and Mrs. J. W. Fletcher had as guests Saturday Mr. and Mrs. Bernice Davidson of Fort Worth and Mrs. L. P. Davidson of Gainesville. Mrs. Davidson of Fort Worth is Mr. Fletcher's sister.

Mr. and Mrs. Earl Swingler of Marietta, Okla., are the parents of a daughter their first child, born at M & S hospital on August 5. She is the granddaughter of Mr. and Mrs. Joe Swingler of this city.

Miss Thelma Kathman of Fort Worth is spending a two weeks' vacation here with her parents, Mr. and Mrs. Frank Kathman. During the latter part of last week she and her mother spent several days in Kilgore with relatives.

THE HOFFMANS, ON WEDDING TRIP, VISIT IN MUESTER

Mr. and Mrs. Anthony J. Hoffman, recently married couple, stopped here the latter part of last week to visit relatives while they were on their wedding trip. Mrs. Hoffman is the former Miss Marcella Luke, daughter of Mr. and Mrs. Carl Luke of Hereford, formerly of Muenster.

The double-ring wedding service was performed in Saint Anthony's church, Hereford, Father Albert Heald officiating.

The bride, given in marriage by her father, wore a white slipper satin gown, two-tiered veil of imported French illusion and carried a bouquet of white carnations. She was attended by her sister, Mrs. James R. Clements, Fort Worth, who wore pale green marquisette over satin. Mr. Hoffman was attended by Mr. Clements.

At noon a wedding dinner was served in the home of the bride's parents.

After their wedding trip the couple will be at home on a farm north of Hereford. Mrs. Hoffman was graduated from West Texas High School, Canyon, and attended Our Lady of Victory

College, Fort Worth. Mr. Hoffman graduated from Hereford High and served three years in the army.

Mr. and Mrs. Bill Derichsweller and family spent Saturday night and Sunday in Windthorst with her sister, Mrs. Fred Steinberger and family and her mother, Mrs. Peter Bindel.

Photograph of 1,000,000 bacteria

No, of course you can't see them. And you can't see the millions of bacteria that play havoc with your milk during hot weather. The higher the temperature the faster bacteria multiply, the greater the need of removing the greatest possible number of them.

Keep your bacteria count down by cleaning utensils with an efficient cleanser . . . like Bomber detergent dairy cleaner . . . and sterilizing with a good disinfectant . . . like BK chlorine bearing disinfectant.

And replace defective utensils. Cracked and rusted spots furnish perfect hiding places for bacteria.

**MR. AND MRS. ROBERT BAUER
RETURN FROM WEDDING TRIP**

Mr. and Mrs. Robert Bauer have returned from a wedding trip and are making their home in Gainesville.

Mrs. Bauer is the former Miss Anna Doris Geray, daughter of Mrs. Margaret Geray of route 6, Gainesville, and the bridegroom is the son of Mr. and Mrs. Joe Bauer, route 6, Gainesville.

The couple was married in a double-ring ceremony on Wednesday, Aug. 4, in Saint Mary's church with Father Molloy officiating.

The bride was given in marriage by her brother, James Geray. She wore a bridal gown of white lace and marquisette over taffeta and fingertip length veil and carried a colonial bouquet of gardenias.

Miss Janet Geray was maid of honor for her sister, and another sister, Miss Patricia Geray, and the groom's sister, Miss Mary Ann Bauer, were bridesmaids. They wore identical dresses of pale blue taffeta and picture hats of the same material and carried colonial bouquets of pink carnations.

Robert Henzler, Pilot Point,

**Billion-Gallon U.S. Appetite for Ice Cream
Seen; A New Science May Help Satisfy It**

By HENRY CONKLIN
Engineering Commentator
America's ice cream industry, which got under way almost a century ago with a production record of a few hundred gallons, is making plans to demand a billion gallons of ice cream a year by 1955.

That's nearly 14 times the consumption of 72,000,000 gallons thirty

minutes, 100-pound cakes of frozen foods bought in season for continuous ice cream manufacture.

With the electronic method, the thawing is inside-out and uniform. Alternating current would be flashed in and out of the frozen foods millions of times a second, causing molecular friction—and thawing in a twinkling.

The conventional thawing method is outside-in. It not only is far from

"In the good old summer-time . . ."

years ago in 1915 and twice the peak consumption of 450,000,000 gallons in 1945.

The 1945 record was short-lived. In 1946 and 1947, the industry achieved billion-dollar ranking and was dishing its product out at a rate approaching 750,000,000 gallons. And production reports so far in 1948 indicate still another record.

Although the industry was founded back in 1851, it dates its mass production era from about the turn of the century, when electric motors began taking over the laborious hand-cranked freezer method.

Electronics as Latest Aide

Through the years many other developments have contributed vastly to the industry's production and product. They include electric refrigeration, sterilization, pasteurization, homogenization and robot packaging systems.

The latest aide may turn out to be a new science—electronic heat—already one of electricity's most important industrial applications.

Technicians of both the ice cream industry and high-frequency equipment companies of the electrical manufacturing industry are pushing experiments with a so-called dielectric heater that would defrost, in

uniform but a time-consumer, and it causes waste.

The photo, of Stephen and Leslie Jean Avery, Pelham, N. Y., was taken after a tour of one of the nation's largest ice cream plants, in New York City. The tour, a school-conducted one, also revealed that:

Ice cream manufacture annually requires more than 8 billion pounds of milk and cream, 72 million pounds of fruit for flavoring and 9 million pounds of nuts.

Vanilla Still First Choice
Ice cream is served in 30 flavors; 50 per cent of the total consumption is vanilla, with chocolate and strawberry running second and third as the people's choice.

The cone, introduced at the St. Louis Fair in 1904, is still the No. 1 ice cream novelty, accounting for 2,500,000,000 servings annually. At soda fountains the favorite dish is the chocolate soda, 8 to 1.

More than 300,000 gallons of ice cream—60 million spoonfuls—are sold on a hot Sunday in New York City. The world's largest city, however, runs a poor third in per capita consumption. Leading city is Washington, where the first ice cream plant was established, and still operates. Philadelphia is second.

cousin of the groom, was best man. Ben Henzler, Pilot Point, and Johnny Sturm, Gainesville, were groomsmen.

Breakfast was served at the home of the bride's parents and dinner was served in the Turner Hotel at 1:30. A reception was held at the Lindsay hall at 6 o'clock for relatives and friends and a dance followed.

**Appendicitis Was Fatal
To Sixty Texans During
First Five Months of '48**

AUSTIN.—Sixty Texans died as the result of appendicitis during the first five months of 1948 according to figures released by the Texas State Department of Health.

"This figure does not appear large when compared to the deaths from cancer, tuberculosis and heart disease," Dr. Geo. W. Cox, State Health Officer said, "but with the knowledge that these sixty Texans died needlessly, the figure is tragically high."

More than anything else, Dr. Cox said he would attribute fatality in appendicitis to the complacent attitude of the people concerning the disease. It is not put in its "proper perspective." Too often, the Health Officer said, people have the vain hope that the prolonged pain in their stomach will "wear off". He

cautioned that the stomach ache which lasts more than three or four hours should be considered a serious matter.

Appendicitis killed 60,000 people in the United States and Canada last year, Dr. Cox said. He warned that young adults are especially susceptible to attacks, and that appendicitis is a leading cause of death among children and adolescents.

"Operative techniques have been improved to the extent that an unruptured appendix can be removed with great safety," Dr. Cox said. "It is therefore apparent that the negligence in appendicitis rests with the patient who fails to seek prompt medical attention."

He said it was imperative that the patient lie quiet until the doctor comes as moving about disturbs the inflamed parts. He strongly urged against taking laxatives in cases of suspected appendicitis.

**COURTESY IS BEST
ACCIDENT INSURANCE
SAYS SAFETY EXPERT**

What can drivers do to reduce their chances of collision on the highway?

In a single word the answer would be, COURTESY. That's the belief of George Clarke, managing director of the Texas Safety Association.

"All rules of the road boil

down to this fundamental concept . . . courtesy," said Mr. Clarke.

"The biggest collision-maker we have on the highway today is the fellow who refuses to yield right-of-way," he declared. "Yet the simple exercise of courtesy could prevent most mishaps."

The Association is cooperating with the National Safety Council's safety education program for August, emphasizing courtesy and defensive driving. These rules were offered for life-saving on the highway.

Consider carefully the rights of others. Offer hand signals before stopping or turning.

Understand both local and state traffic laws.

Rely . . . not on HIS brakes, but on your own.

Take time to reach your destination safely.

Exercise reasonable judgment and common sense.

Stay within your own lane, except for passing.

Your courtesies will reflect in the attitude of others.

Otto Walterscheid Muenster, Texas

A housewife answered the doorbell to find a little girl of 5 and her younger brother, relatively new to walking, both standing on the step. The little girl was all dolled up in an old formal of

her mother's and a grownup hat. Her little brother was wearing one of his father's hats that wobbled on his head and an older brother's coat that hung almost to the walk. "I am Mrs. Smith," said the little girl in a very formal tone, "and this is my husband, Mr. Smith. We've come to call." The woman who had answered the call decided to play along with the youngsters and their act so she invited "Mr. and Mrs. Smith" in for tea. The

CHICAGO, ILL.—Charges communistic principals and ideals are being taught daily in a Chicago public high school were repeated as the Board of Education pressed its investigation at an open hearing. Photo shows Elliodor Libonati, chairman of the Americanism committee of Cook County council, American Legion, as he questions Miss Emilie Noack, civic teacher, target of the investigation. Testimony of one pupil at the school indicated Miss Noack openly admitted in class that she was a communist but declared, "I'm an American communist."

kids walked in and sat down and the hostess went immediately to the kitchen for some cookies and milk. When she returned the callers were already headed for the front door. "Must you go so soon?" asked the hostess. "I hoped you could stay for tea." The little girl tossed back an artificial smile. "We can't, thank you," she said pleasantly, "Mr. Smith just wet his pants."

Mr. and Mrs. Raymond Laux were Sherman visitors Sunday.

A daughter was born Monday at M & S hospital to Mr. and Mrs. Ewald Hoelker.

Miss Florene Arendt spent several days of last week in Muenster with her sister, Mrs. Buster Herr.

Sister Frances of Little Rock, Ark., is here for a visit with her sisters, Mmes. Henry Stoffels and John Schmidkofer.

Miss Mary Louise Bezner has returned from a visit in Bragg, Okla., with her sister, Mrs. Bomar Woods and family.

Sister Ramona and Sister Anna Rose of San Antonio are here from their farm north of

a visit with their parents, Mr. and Mrs. Jake Bezner and family.

Miss Gertrude Bengfort, a candidate at Our Lady of the Lake Convent, San Antonio, is here for a visit with her parents, Mr. and Mrs. Joe Bengfort.

Miss Tresa Mae Spaeth is visiting in Albuquerque, N. M., with the H. P. Hennigan family while she is on vacation. She made the trip by plane.

Miss Rose, Fuhrmann, daughter of Mr. and Mrs. Wm. Fuhrmann, will be married to Frank Stoffels, son of Nick Stoffels of Muenster, next Tuesday morning, August 17, in Saint Peter's church.

F. A. Rauschuber of the N. W. Valley View conservation group, and John Kupper, Westview conservation group, have been constructing terraces during the past week.

The H. J. Fuhrmanns have moved from their farm north of

CHICAGO—It's a man-bites-dog story when firemen go to school to learn how to break glass but that's what the Chicago fire department is doing in this picture. The glass is Hercule, the super-strong tempered glass used in modern all-glass doors. Two men making a running stab at the panel with a 14-foot pike-pole did not succeed in breaking through, as the arch in the pole clearly shows.

CHICAGO—Susan Marie Cibulka, 4, plays with doll in her home here, unaware that her parents face the hardest decision of their lives; whether to remove girl's blinded right eye and possibly save left, or wait for the right eye to recover, risking total blindness if recovery fails. Susan had injured her eye the Saturday before Easter, when she fell on the blade of an open scissors she had been playing with.

town to occupy the former Joe Bezner home in the east part of town, which Mr. Fuhrmann bought.

Sister Dorothy Therese of San Antonio is visiting her parents, Mr. and Mrs. I. A. Zimmerer, who also have as their guest their son, Rev. Francis Zimmerer of Subiaco, Ark.

Ralph Bezner who was formerly attending school in Longview is now in Austin attending a highway patrolman's school. His family is at home in Gainesville while he is taking the course.

Mrs. Elizabeth Kubis and her family have as their guests Rev. Alcuin Kubis of Corpus Christi and Sister Florence Marie of San Antonio, son and daughter of Mrs. Kubis.

Sister Mary Olive daughter of Mr. and Mrs. John Neu, Sr., who spent the summer months at Our Lady of the Lake Convent in San Antonio, is now in Texarkana, Ark., and will teach at Providence Academy when the new school term opens.

Al Loeffelholz Jr. of Norman, Okla., spent the weekend with his uncle and aunt, Mr. and Mrs. Will Sandmann. When he returned home he was accompanied by his cousins, Ray and Edward Sandmann to spend several days in Norman.

Mrs. John Schad has as her guests this week her six children who are in religion. They are Rev. Sylvester Schad, Scranton, Ark., Brother John of Subiaco, Ark., and Ven. Sisters Liboria,

"Bureaucracy is like parking-meters. After hirin' a lot of people to watch and collect... they use the money that's left to buy more parking-meters!"

Vera, Alma Sophie and Helen Margaret.

Mr. and Mrs. Albert Hoelker have returned from their wedding trip and are at home in the city occupying the house Mr. and Mrs. Bruno Zimmerer vacated when they moved across the street to the former Schmitz Estate place which Zimmerer bought.

Walter Schmitz, son of Mr. and Mrs. Joe Schmitz has been promoted to corporal at the 13th Air Force installation in the Philippine Islands. Cpl. Schmitz has been on duty there for almost 8 months. He is assigned to the 67th Fighter Squadron and is detailed to duty as an operations clerk. He was one of five men in the organization promoted to the grade of corporal.

H. J. ZIMMERER FAMILY HAS REUNION THIS WEEK
All members of the H. J. Zimmerer family are together this

Confetti---

with traitors and cut-throats and spies.

As regards the spy case, it's only a little less difficult to reconcile President Truman's attitude with our American standards. He carries belief in his men's integrity to such an extreme as to reflect on his own judgment and cast suspicion on the very persons he tries to shield.

In withholding evidence about suspected persons the president only intensifies the public's suspicion. To our way of thinking he should have cooperated in the investigation instead of denouncing it as a red herring. If the guys are guilty he should be pleased to see them exposed. If they are not guilty he should be even more pleased to prove their innocence. From the looks of things he's afraid that espionage will be traced uncomfortably close to the White House itself, and that would be embarrassing indeed.
