VOLUME XXVII

MUENSTER, COOKE COUNTY, TEXAS

JUNE 7, 1963

NUMBER 29

Most business firms take a pride in offering exceptional values, and that has been the attitude of the Enterprise for many years in offering its subscription at \$2.00 per year in the county and \$2.50 a year outside the county. That, we are proud to claim, was regarded as a generous offer more than ten years ago when the rate was upped from \$1.50 and \$2.00 a year. Even then, after the increase, this paper's rate was not only far below the average. It was one of the few selling as low as it did.

Since then, needless to say, lots of increases have been noted in the price of living. Our subscribers are well aware of that fact after seeing their costs go up and up, year after year.

The same sad facts of life apply to the publishing business. All costs have gone up, including postage rates and paper prices, which are directly related to the subscription price of newspapers.

So, effective now, the Enterprise raises its rate 50 cents a year — to \$2.50 in the county and \$3.00 outside the county, plus, of course, the 2 per cent tax on subscriptions within the state.

And in doing so we're still proud of offering an outstanding value, far below the average charge by other weekly papers. We feel, as we did a decade ago, that we are only moving up to what the trade considers a minimum rate. We are confident our subscribers will understand.

At the same time we must regretfully admit that we wonder how long this new rate will remain in effect. As the inflation picture looks now — the federal policy of deficit spending, the nation wide clamor for shorter weeks and higher pay — we expect, as our readers do, that costs will continue going up. Just the same we'll keep plugging, hoping that in spite of the signs we'll stay at this level for a long time.

Above all, we intend to continue putting our best efforts into this paper, regardless of subscription price. We are told frequently that the Enterprise would do justice to a much larger town. We are proud of that rating and we intend to maintain it.

In line with its community pride the Enterprise feels compelled to praise the efforts of a new organization that is working hard to promote Muenster. The Jaycees deserve lots of credit for sponsoring pee wee baseball and the also deserve lots of support in the benefit fish fry they are planning for June 21. This is the event by which they hope to catch up financially in the junior league program. And it will be our

## Memorial Address Urges Dedication To Nation's Ideals

Muenster's annual all-veterans memorial services honoring deceased members of the armed forces, especially those of Sacred Heart Parish, were held Sunday morning after the 10:30 mass in Sacred Heart Church.

The services, both religious and military, were sponsored by VFW Post 6205 and its Ladies Auxiliary in cooperation with the pastors.

Father Alcuin Kubis delivered the memorial address in which he reminded those present to remember those to whom this country owes the freedom, the liberty and the blessings of the American way of life. He made an eloquent appeal to all others to live up to the ideals they defended.

Several hundred persons marched in the procession from church to Sacred Heart Cemetery reciting the rosary. Before the memorial address, little boys and girls placed floral tributes on the graves of servicemen of all wars.

Mrs. Charlie Pagel, VFW Auxiliary president, placed a floral cross on the memorial marker in the cemetery's field of honor where the ceremonies were held.

The first stop was at the crucifixion group for prayers and Mrs. Arthur Bayer, Auxiliary chaplain, placed a floral spray on the monument.

Military rites included a three volley rifle salute by the Post's honor guard and taps sounded to close the service.

Gold Star mothers wore corsages and Gold Star fathers had boutonnières provided by the Auxiliary.

POPE JOHN XXIII, spiritual leader of a half billion Catholics, died on Monday, June 3. Muenster's Sacred Heart parish joins the rest of the Catholic world in mourning his death.

## 2 Swim Courses Will be Offered At Muenster Pool

Two swimming courses are scheduled for the Muenster swimming pool starting next week Tuesday. The first is a Senior Life Saving Class and the other is for beginners and intermediate swimmers. Both are to be conducted according to Red Cross regulations and swimmers completing them will get Red Cross buttons or certificates.

Glenn Richardson, pool manager, said the senior life saving class will begin at 10 o'clock Tuesday and continue every morning through the rest of the week. To enter it a student must be a strong swimmer and at least 15 years old.

Beginners and intermediate classes start on Monday the 17th and will continue for two weeks, the group being divided into classes on Monday-Wednesday-Friday and Tuesday-Thursday-Saturday. Further division into classes provides that each pupil will receive six hours of instruction during the two weeks.

Minimum requirement for taking the course is completion of the first grade of school. All older children are welcome. So are adults.

Getting instructors for the beginners is Richardson's biggest problem. Of the many who were qualified in previous years few are left here now. Some however will qualify by passing the senior course. If there are others who have the ability and time to help, they too will be welcome, Richardson said.

## Dan Hamric Gets BS At Texas Western

Dan Hamric was among graduates in the annual commencement at Texas Western College in El Paso. He received his bachelor of science in Education.

His parents, Mr. and Mrs. Ervin Hamric, attended the program Saturday evening and returned home Monday after visiting their son and family since Thursday.

## Ravens and Braves Lead Kids' Loops

The Ravens and Braves are leading their respective divisions of pee wee baseball in Muenster.

The Ravens won their third straight Wednesday night in a 10-8 decision over the Jays, and in the following game the Hawks claimed second place by nudging the Crows 13-12. Present standings are Ravens 3-0, Hawks 2-1, Jays 1-2 and Crows 0-3.

In the older loop Braves moved to the front last Friday night by walloping the Dodgers 18-8. The Yanks took the Giants in the other game by an 8-6 count. Team records for that division now are Braves 2-0, Yanks 1-1, Dodgers 1-1, Giants 0-2.

## NEWS OF THE SICK

Mayor Earl Fisher underwent major surgery Tuesday at Gaston Hospital in Dallas. His wife went with him when he entered Sunday and is staying with him. Cards addressed to him at the hospital will reach him promptly.

Werner H. Endres who entered Baylor Hospital May 31 underwent surgery this week Tuesday. The family from here and the Bob Kuppers of Marlin visited him Sunday and some of the family is with him every day. He's in Room 422 and will be hospitalized long enough to receive cards.

Fred Hennigan Sr. was dismissed from Gainesville Hospital Friday after traction and other treatment for a back injury. He's still a shut-in at home and goes back for check-ups.

Dismissed from the hospital sooner than expected and doing fine after minor surgery are Ruthie and Timmy Walterscheid, children of Mr. and Mrs. Ervin Richard Walterscheid. They had been at Scottish Rite Hospital in Dallas.

Tests in Houston this week showed Mrs. Hank Walterscheid doing fine. All reports were negative. She was at M. D. Anderson Clinic for a check-up. Next examination will be in two months. Her husband went with her and they visited her brother and family, the Earl Swinglers.

Feeling "good as new" again are Dwayne and Gene Hess who gave their parents, Mr. and Mrs. Gary Hess, quite a scare when they fell off a horse. Ten-year-old Gene was thought seriously hurt when he failed to regain consciousness, and was taken to St. Paul's Hospital in Dallas for X-rays and observation a day and a night. No concussion was found and after he regained consciousness he was apparently unhurt.

Mrs. James Hess is dismissed from Gainesville Hospital, Richey Street, following gallstone surgery, and is convalescing at home. She had the operation May 29.

Mrs. J. W. Fleitman is convalescing from minor surgery performed at Gainesville Hospital Friday. After being dismissed Saturday she went to the home of her daughter, Mrs. Lawrence Neusch at Lindsay, for rest this week before returning home.

Mrs. Willie Walterscheid is back at home, dismissed from Nocona Hospital Monday after being a surgical patient.

## Mrs. Steve Otto, 83, Former Resident Dies in Wichita

Mrs. Steve Otto, 83, a former resident, died Wednesday at 4:30 a.m. in Wichita Falls where she had resided the past 30 years. With her when death came were her husband, six of her seven children and her parish pastor, Father V. P. Micola.

Funeral services with requiem mass will be held Saturday at 9:30 a.m. in Sacred Heart Church, Wichita Falls, and burial will be in Sacred Heart Cemetery there. Owens-Brumley Funeral Home is in charge of arrangements. Rosary will be recited at the Funeral Home Chapel Thursday and Friday nights at 8 o'clock.

Mrs. Otto, the former Miss Dora Meurer, was born in Saint Louis, Mo., in 1880, and moved to Muenster with her family in 1890. She was married here to Steve Otto in 1903. For a time they lived in Archer County, then spent some time in Colorado before settling in Wichita Falls.

Survivors in addition to the husband are three sons, John and David of Wichita Falls and Sylvester Otto of California; four daughters, Mrs. John Meyers of Eagle Pass, Mrs. Roberta Koelsch of Tulsa, Mrs. Albert Eckelkamp and Mrs. William Reynolds, both of Wichita Falls.

Also four sisters, Mrs. J. M. Weinzapfel of Muenster, Mrs. Lucy Jensen of Canon City, Colo., Mrs. Frank Wolf of Stratton, Colo., and Mrs. Ed Otto of Wichita Falls; two brothers, H. A. Meurer of Scotland and W. L. Meurer of Slaton and a number of grandchildren and great-grandchildren, nephews and nieces.

## Council Invites Bids on Curbing And Paving Jobs

Members of the city council Monday night moved forward on their street improvement program with the intention of getting this year's projects finished before cold weather sets in.

Five streets were designated for attention this year and the finished job will consist of a new surface of curb to curb paving. For the greater part that means widening the present narrow strip of paving to full width then new surfacing over all. Where curb does not exist it also requires installation of curb.

The council voted to ask for early bids on both curbing and paving, to be considered at the next meeting Monday, June 17.

Streets in the project are THIRD, Main to Maple; MAPLE, Third to Seventh; OAK, Division to Sixth; SECOND, Pecan to Main; SIXTH, Main to Elm.

## Collection Adds \$360 to Fund for Cemetery Work

Members of the Sacred Heart Parish donated \$360.10 last Sunday to the cemetery fund of the Muenster Civic League and Garden Club. It was the most generous response in the club's annual Memorial Day collection, for which the committee members, Mrs. A. A. Otto and Mrs. Tony Gremminger express their sincere thanks.

Collections are taken each year on All Saints Day and on or near Memorial Day. The money is used for watering, mowing, trimming and replacement of shrubbery.

Word was received here Thursday of the death of Mrs. Ben Schwegman of San Antonio in that city Wednesday after a two-week illness.

## KCs Reelect James Walterscheid to Lead Local Council

Muenster Knights of Columbus at their annual election of officers Wednesday night gave James Walterscheid a second term as their grand knight.

Five other officers were reelected with him. They are Chancellor Eddie Fleitman, Recorder Dan Luke, Treasurer Ed Endres, Advocate J. A. Klement and Warden Joe Hoenig.

New officers elected are Deputy Grand Knight Walter Klement, Inside Guard Donny Hess, Outside Guard David Yosten and Trustee John Mosman. Trustees who continue serving on unexpired terms are Leo Sicking and Charley Hellman.

The meeting also included a report on the state convention held last month in San Antonio by Past Grand Knight Herbert Meurer, who served with Grand Knight Walterscheid as a delegate of the council. Another brief convention report was given by District Deputy J. W. Fisher. Chaplain Alcuin Kubis, who also attended the convention, missed the meeting because of the annual retreat of his Monastery.

The evening's program opened with the council's annual chicken supper for the membership, catered by Rohmer's Restaurant.

## Summer Trainee Joins SCS Office

Larry M. Jones of Millsap will be in Muenster for the summer as a trainee in the local work unit of the Soil Conservation Service.

He is working under provisions of the program by which SCS allows college students to receive on-the-job training while still going to school.

Jones is 20 years old, has completed his second year of college at Weatherford Junior College, and intends to enroll at Texas Tech in September.

## Clearing Weather Speeds Harvest; Yields are Good

Grain harvesting in the community has been going fine since Monday. It's doubtful whether one combine is idle as the area reaches approximately the half way mark for the season. If good cutting weather continues many fields will be clear by the end of the week and the over-all job should be at the 75 to 80 per cent stage.

Crops are gratifying again. From the comments of farmers who are willing to comment, indications are that the community average is between 20 and 25 bushels per acre, about the same as last year.

As usual, a few are hitting the packpot. Wilmer Walterscheid figures he averaged 44 on 15 acres. Butch Dillard of Sivelles Bend figured his at just over 40. And several are reporting between 30 and 40 bushels per acre. And then, there are yields nearer to 10 and 15.

Wheat tests are good, running consistently at about 60. But moisture tests frequently are excessive and subject to dockage. Farmers, over-eager to get their grain out of the field, are starting too early in the morning, before the night's moisture has had time to evaporate. Another factor is the increasing proportion of weeds and Johnson grass in grain fields since the rains. Some of the moisture threshed out of them settles on the grain.

## Arrest by Pratt Ends Manhunt for Dallas Escapee

The big manhunt which kept Saint Jo in a nervous strain most of last week came to an end in Muenster at 2:30 a.m. Saturday, when City Officer Bill Pratt arrested Jerry Dorough in a car in front of The Center Coffee Shop.

Dorough was one of two two convicts who broke out of a Dallas jail Monday May 29, taking a jailer as hostage. They stole three cars in their escape attempt and wrecked one in Saint Jo. From there the jailbirds fled separately on foot and were on their own until captured. One was picked up by deputies Wednesday morning while attempting to hitch a ride east of Saint Jo.

The other hitched a ride early Saturday with J. D. Carlton of Saint Jo and a friend Joe Evans of Fort Worth. Carlton, suspicious of his passenger, stopped at the phone booth outside The Center and called officers at Saint Jo and was asked to watch the man until officers arrived.

Pratt, helping at Saint Jo, heard the report and rushed to Muenster. He found the fugitive with Carlton and Evans in Carlton's car.

Dorough said that he had spent four days in Saint Jo following the pick-up crash Monday night and escaped detection several times as officers came within a few feet of him. Several dozen officers gathered in Saint Jo for the big hunt.

## Very Rev. Bonaventure Koelzer, S. A. Will Celebrate Jubilee of Ordination

GARRISON, N. Y. — Very Rev. Bonaventure Koelzer, S. A., the Superior General of the Franciscan Friars of the Atonement will celebrate the 25th anniversary of his ordination to the priesthood on Thursday, June 13. He is a native of Muenster and lived in Hereford a few years before entering the seminary.

A special Solemn Mass commemorating his Silver Jubilee in the priesthood will be held in Our Lady of the Atonement Chapel, Graymoor, on June 13 at 11:00 a.m.

Born in Muenster, in 1912, Father Bonaventure comes from a family of 12 children. He was educated at Sacred Heart School in Muenster and St. Anthony's in Hereford before coming to Graymoor in 1926 to begin studies for the priesthood. He studied at St. John's Seminary and the Catholic University of America before his ordination to the priesthood on Feb. 13, 1938 in Amarillo, by Archbishop Robert Emmet Lucey.

Following his ordination to the priesthood, Father Bonaventure served as Graymoor's Superior in Rome, and at various Graymoor posts in U.S.

At the time of his election as Superior General of all Graymoor Friars he was serving as Vicar General. As Superior General he is responsible for the direction of Graymoor activities in the U.S. and their missions overseas.

The Friars of the Atonement were founded by a former Anglican Clergyman, the Very Reverend Paul James Francis, S. A., who after his entrance into the Roman Catholic Church established the particular work of his Community to be the promotion of Religious Unity.

Since the death of Father Paul in 1940, the ranks of the Society have increased to three hundred and fifty Friars. Their Unity Apostolate has spread from a humble beginning atop the Mount of the Atonement in Graymoor, Garrison, N. Y., the Motherhouse of the Friars to four continents. In addition to their Church Unity work, the Friars staff missions, produce the famed "Ave Maria Hour" radio program and "The Lamp" magazine, and maintain St. Christopher's Inn a shelter for homeless men.

### "SOAK THE POOR" TAX

In this country we are taking 63.5 per cent of all taxes — from all sources, local, state and federal — from income. Our maximum rate is 91 per cent as compared to Switzerland that taxes only eight per cent. And eighty-six per cent of our lower income tax receipts come from the lower bracket of twenty per cent of income—the small fellow, the small farmer and laborer. All personal income tax rates about fifty per cent yield less than one billion—less than one per cent of our total Federal revenue!

It is time to work for ratification of the Liberty Amendment which would eliminate the necessity for income taxes. Brillion, Wisc., News

### Letter to A Congressman

The following letter received by Representative F. Bradford Morse (R-Mass.) speaks eloquently for itself:

"Dear Congressman Morse: I hate to tell you my troubles, but I have tried everything else I know. I feel that only you can help me now.

"I have a dependent relative staying with me who has very little fiscal responsibility. He is very good natured and means well, but he keeps buying presents for my wife and me, and our two children. He charges these presents to my account. When he sees something that he thinks we need he buys it for us. Many of these things are not needed by us and in very few cases are they exactly what we would have bought if we had bought these things ourselves. Because he doesn't work for a living, money doesn't mean too much to him and he tends to buy the first thing he sees and doesn't shop around like I would do if I were purchasing items. He is also quite generous to the poor and needy, but often gives to those he doesn't know who feed him a soft line. I just received a bill for his last spending spree and it gives me a sick hopeless feeling. I keep thinking how better off I would be if I could

### CROCODILE FEEDERS

"An appeaser is a person who feeds a crocodile hoping it'll eat him last." So writes Tom Anderson, a well known observer of the American political and economic scene. He points out that too many of us . . . haven't realized that if we have socialized agriculture and socialized power, we will have socialized medicine — and a socialized America."

Every person — in business, in labor and in government — who wants his children to enjoy individual freedom and opportunity and the privilege of a meaningful vote on election day, has immediate need to oppose the pressure for the welfare state idea in the U. S. with its size, costs, and dictation by government. He may act friendly — but don't feed the crocodile. He will shed those "crocodile tears" just before he swallows you.

### "ARCHY"

"Dozens of times you have seen him and probably not realized that he is a creature more remarkable than anything in a zoo. He is one of earth's oldest inhabitants, and a long pageant of life has passed before his small, sharp eyes. He was present to greet the arrival of dinosaurs 170 million years ago, and to bid them good-by a hundred million years later. He saw the Rockies, Alps and Appalachians push their way upward. He traveled the land bridge that several times connected the British Isles with the Continent. He was already an old-timer when Texas oil and West Virginia coal were formed. Express his 350-million-year tenure on earth in terms of a calendar year. The year was nearly over — December 30 — when he welcomed that arrival, Man. We are speaking of the lowly cockroach."

If he really does save money these days, that's backbone.

### Sophs and Sponsor Say Thanks to All For Stamp Saving

Sacred Heart High Sophomores and their sponsor, Sister M. Theresina, wish to thank all concerned for the excellent cooperation in their stamp project. There has been a continuous flow of stamps from old sources and new ones, which has kept Mrs. Barney Voth, Mrs. Anna Trachta, Mrs. Alfons Koessler Sr. and Mrs. John Walter busy cutting out stamps, and the sponsor in separating them.

Students and sponsor ask kind benefactors to keep up their work during summer vacation. They may either bring the stamps to any of the above mentioned, or they may save them until school opening in the fall.

### Top 4-H Clubbers At A&M This Week In State Contests

Eight Cooke County 4-H Club members, all of them winners in district contests, left Tuesday to demonstrate their skills in the state contests at A&M College.

Participating in the giant judging contest are Charlotte Wolf and Janice Vogel of Muenster, competing in the cooperative demonstrations; Gayle Paclik of Gainesville and Sue Dillard of Sivells Bend in the poultry marketing demonstration; and Jimmy Flusche of Lindsay, Joe Dillard III of Sivells Bend and Rudy and Mike Paclik of Gainesville who are members of the county 4-H grass judging team.

### NTPA Co-Sponsors Shortcourse for N. Texas Dairymen

The success last year of a dairy shortcourse has prompted sponsors to schedule a second two-day course this year for North Central Texas dairymen.

Mindful of the shortcourse theme, "boosting net profits," representatives of the co-sponsors, North Texas Producers Association and the Agricultural Extension Service of Texas A&M College, met last week in Arlington to plan the 1963 program.

General chairman for the second year of the program is W. T. Crouch of Arlington, president of the association.

In the preliminary meeting, 33 dairymen and county Extension agents decided that:

1. Shortcourse will be July 10-11, in the Student Union of Arlington State College.
2. Hours will be 10 a.m. until 3 p.m., with a break for lunch in the school's cafeteria.
3. Preregistration fee will be \$3. Fee for registering at the door will be \$4.
4. A committee will be appointed for each county in the area to encourage attendance and to preregister persons wanting to attend.

For the second year, coordinator of the two-day event is Dr. Curtis W. Richardson of Denton, Extension dairy specialist. Program chairman is Howard Sprague of Weatherford.

Among those present last week in Arlington was Ted Martin of Denton, district agent of the Extension Ser-

vice. Said he:

"Our shortcourse in July is going to be practical — we are planning it for the dairy farmer. As he did last year, Dr. Richardson will schedule a slate of eight speakers whose knowledge of the dairyman's problems is respected throughout the area."

### SH Mission Club Reaches Maximum Giving Past Term

The Mission Club of Sacred Heart High reached its maximum during the past school year in amassing \$334.95.

One of the projects was the purchase of a chalice for the Catholic Near East Welfare Association. (\$40.00). This makes the third chalice purchased by the Club.

Dwayne Pagel won the perpetual membership in the Propagation of the Faith Society. This award is given to the student who has made the largest contribution to the Missions during the year as shown on the Mission Chart. This does not, however, mean that the winner has necessarily been the most generous donor toward the Missions, because there are students who contribute very handsomely toward the Chalice collection, or donate generously in other ways for the benefit of the Missions.

It is most fascinating to watch the chart. It is definitely also a character chart, where perseverance plays the greatest part. A nickel a week is evidently a possibility for just about 100% of H. S. students, yet only 33.6% reached the goal. This is, however, twice the percent reached two years ago, and 10% more than last year. The classes in order of excellency are: Freshmen, Sophomores, Senior and Juniors.

Although the primary purpose of the Mission club is the collecting of money for the Missions, yet the Sponsor has very much in mind the teaching of systematic giving and saving. "Whether it be in divine or human affairs, persistency is a quality most worthwhile striving for," she says.

**Wilde Gets Award For Providing Car In Driver Training**

Wilde Chevrolet Co. has received a special award of merit from Texas Automobile Dealers Association and the Inter-Industry Highway Safety Committee, for participation in the Driver Training Program. H. S. Pittman, vice-president of TADA announced this week. For the past 14 years, members of TADA have loaned automobiles and pickup trucks, without charge, to high schools, FFA groups and 4-H Clubs, as a public service.

"Traffic studies show that young drivers proportionately are involved in far more fatal accidents than older drivers — yet they should be our best drivers", Pittman said. "The studies also show, however, that youngsters who have had driver education in school have a markedly better record than those who haven't. "We feel that the Driver Training program is one of the most important sponsored by our association each year, and we are glad that so many of our member franchised dealers participate in it as a part of their contribution to the civic welfare of their cities and towns", Pittman added.

Vehicles for driver training are loaned to schools which have qualified instructors to teach both classroom theory and actual in-the-car fundamentals of driving. A majority of the vehicles loaned by dealers are equipped with dual controls for maximum safety while the student is learning.

**Tips From Your Hatchery**

If your evergreen trees, such as cedar, juniper or pine, haven't received a good spraying you had better check them. Chances are "your bag-worms are showing". This year's crop seems to have an extraordinary appetite. Call us before it's too late. Red ants are a nuisance. Whether just a few isolated hills in the yard or acres of them in fields and pastures, our underground spraying will get them so they stay got. Just in case you forgot, we do some work in the poultry industry, and have some nice White Leghorn pullets that will be in production in July. If you like fresh, home grown eggs, better get a few. **SOIL CONSERVATION  
DISTRICT NEWS**  
**OUR SOIL ★ OUR STRENGTH**

By Eual Davis  
Management is the key to a successful pasture program and man is the key to successful management. The big question is: What is a successful management program?  
There are nearly as many answers to this question as there are insects in grandma's garden and yet there is unanimous agreement that some type of program is essential. Almost everyone includes the same practices although there is disagreement as to what, where, when, why and how the practices are to be carried out.

Everyone agrees that grass must be growing before it can be managed. Personnel of the Soil Conservation Service report that more grass was planted this year in the Upper Elm-Red District than any other year.  
Most of these plantings are now up and growing, but so are weeds and several other grasses. This competition must be removed in order for grass to do its best.

After a solid cover is obtained, the grass itself will keep down competition. Cultivation is the best method for removing both weeds and competitive grasses. Chemical sprays will kill only broad-leaf plants; mowing removes only part of the plant which includes the one planted; and grazing with cattle is the same.

After a solid cover is obtained, it is essential to maintain a dense, well-fertilized stand in order to eliminate weeds. Grasses which have been fertilized in 1963 should be top-dressed around the first of June with 15 to 60 pounds of actual nitrogen.

Moisture is the limiting factor. How the fertilizer is put out does not affect the production of Bermuda grass. Over-use does. It takes grass to make grass; so leave a six-inch height on Coastal and Midland Bermuda and four inches on common Bermuda grass.  
Livestock should be rotated at regular intervals. This makes for more and better production and helps eliminate the parasite problem. All growth above the proper use heights mentioned should be removed every 45 days by grazing or as hay. A harrow does a good job of eliminating excess manure.

For further information about a pasture management program contact your local SCS office.

Bring on those mountains! They're not so high and mighty when you've got Corvair's gummy six and rear-engine traction working on them.  
You scurry up the meanest grades. You move with sure-footed agility on wet pavement, muddy lanes, gravel and other would-be miseries.  
And with most of Corvair's weight on the rear wheels, you have easy steering, too. Fact is, the handling's so light and responsive we don't even offer power steering for the car.  
And there's more to feel good about. No problems with your radiator boiling over or going dry, because there's no radiator. Corvair's engine is air cooled. No concern about brake adjustments, either, because the brakes adjust themselves. Nothing much to think about at all except the good time you're having.  
Like to do that in a sporty bucket-seated Monza Club Coupe or Convertible? Like to spring into summer with a 4-speed stick shift\* and Spyder package\* with its 150-hp Turbocharged engine? Your dealer's got just the Corvair and the Trade 'N' Travel deal on it to put you in a holiday mood.

opportunity to show appreciation for their work in behalf of our kids. Incidentally, let's remember also that the party itself has a certain value as a community get-together.

So let's give them a nice response, help pay their expense of entertaining our youngsters, and encourage them to burn up more of their energies in behalf of a better Muenster.

After all, it isn't quite fair to say that their motives are selfish, in that they hope to

reap future benefits from their efforts to improve the town. The point is that they are not the only ones in line to gain. They are, in fact, working for others as well as themselves. For which others ought to be grateful.
