Hospital Campaign Opens With \$66,000 as Starter

Gratifying news was the report last Saturday night that the hospital campaign was "kicked-off" with advance gifts in the amount of \$66,000. Another report Tuesday showed that \$12,000 was added to the fund as early birds of the small army of workers turned in their first pledges.

As a starter that is an encouraging figure, justifying the general community confidence in the success of our venture. At the same time, we have to be realistic and admit that we are still a long way from the goal. Over two thirds of the quota still lies ahead. And when we consider that the amount on hand includes sizeable gifts from a few dozen who were waiting to contribute, we can assume that about ninety per cent of the job remains to be done.

Let's not underestimate the size of our project. It's an enormous job, certainly big enough to challenge our community pride and loyalty. It's going to take long and devoted duty by the workers, many and generous donations by the persons contacted. All in all, our objective calls for one of the greatest jobs of cooperative endeavor that this community has ever undertaken. And our achievement in reaching it will stand out as one of the finest ever in the history of our area.

Still, the task can be comparatively easy if each of us will show the interest and personal responsibility merited by the project. Here is a community asset that ranks next in importance to church and school. It will meet an urgent area need, and contribute to better health and greater prosperity. As such it is everybody's concern, deserving of the fullest support, both moral and financial, that each of us can give.

Few if any local ventures have started with a brighter promise. The prompt approval given to our Hill-Burton application by the State Health Department is a good indication of local need and practicability. Members of the State Board of Health are concerned principally with two factors in making their decision. First, is the hospital needed? Second, does it have good prospects of success? As urgently as the federal grants are sought throughout the state, those men are careful to favor the more deserving projects. Their approval is equivalent to an endorsement, and their promptness lends emphasis to their approval. That in itself is a cheering indication of our outlook.

Next we have encouraging reports of hospitals in communities no more progressive than our own. The administrator of Atoka's hospital, opened only one year ago, stated here Saturday night that it is operating successfully and ranks as an outstanding community asset.

Pride in this area prompts us to assume that a hospital here can do as well or better. While thriving and improving, it can render great service to community health besides creating new business, and also creating conditions leading to more progress and more business. A wonderful combination of opportunities! The question is not whether we can afford our hospital, but whether we can afford not to have it.

In this regard we should realize also that the opportunity will not be available to us long. We have to put this project over, and now, or risk losing our Hill-Burton priority, without which the undertaking would be next to impossible.

As we think it over we see the alternative of contributing to a hospital here or, very probably, paying tax to one away from here.

The objection is raised that we may have to pay to both. That's possible. But it is also less likely that a tax issue will succeed after a hospital is assured here and the strain is taken off the other facilities of the area. People on the average are tax conscious. They do not usually burden themselves unnecessarily. So, while no positive answer can be given, it's reasonable to assume that our chances of avoiding tax are better if we get our own hospital.

But even if a tax-supported county hospital should be voted later, the important point is that we would have our own hospital. We would still have the advantage of nearness for prompt treatment in emergency, for convenience and saving, for the many civic and economic benefits to our (Continued on page 8)

Muenster's hospital building campaign moved into its vital stage, the actual solicitation of funds, Saturday night in the Muenster Public School with a kick-off dinner and program, the most significant feature being a report by Campaign Director John Monk that advance gifts to then had reached \$66,000.

The event opened with a dinner in the gymnasium for workers and guests. After that the program transferred to the auditorium and got a rousing start with the appearance of Gillette and Richards, a pair of professional entertainers from Dallas who presented their act as a contribution to the local cause. Their banjo, song, dance, audience participation specialty was enthusiastically cheered. Earl Fisher introduced them.

In the session that followed Mayor Herbert Meurer was master of ceremonies and called first on Mrs. T. S. Myrick, vice president of the hospital authority, for presentation of prizes in the essay contest sponsored by the campaign. She named winners from the four participating schools and James Moster of Lindsay as the grand prize winner.

Next was William Goforth, administrator of the Atoka Memorial Hospital, Atoka, Okla. As an indication of what can be expected of a Muenster hospital, he outlined the one year of Atoka Hospital's operation. In size of community and hospital the situation there was described as very similar to Muenster's. Figures he quoted show that the hospital is nearly full and makes a profit. He also said it is a source of intense community pride, has added much business to the town and has brought three additional doctors to the area since its opening.

Another speaker was J. M.

Weinzapfel, president of the Muenster Hospital Authority and chairman of the campaign. He reviewed project developments to date, enumerated expected community benefits, and urged full cooperation to put the program over the top.

Report meetings, with entertainment and refreshments as added attractions, are scheduled for each Monday and Thursday night, beginning at 7:30, until Christmas. Main business at those meetings is to turn in pledges and donations and also pick up cards for more contacts. Following last Monday's report the fund total was announced at \$78,134.

Changes at NTPA Qualify Products For Top Rating

Improvements and alterations now under way will put the local NTPA milk processing plant strictly in the Grade A business. When changes are complete manufactured products as well as raw milk will meet requirement for the top classification.

Work on the improvements has been under way since early in the month and is expected to be finished by mid-December. Plant Manager Rudy Hellman said it has to be ready in time to handle the usual huge surplus of milk that comes in during the Christmas holidays.

While changes are being made production at the plant is practically at a standstill. Orders for Grade A milk are filled as usual but accumulated surplus is not processed here. Instead it is sent to the NTPA plant at Sulphur Springs or the Kraft plant at Sulphur, Okla. Some condensed milk is sent here for packing.

For several months NTPA has accepted only Grade A milk. Most of that is marketed as whole Grade A milk, and the surplus which was processed into milk products was also Grade A. However condensed milk was the only local product classified as Grade A. Others were penalized because of outmoded equipment and method. Changes now being made will meet requirements for processing the better quality of cream and powdered milk also.

With Grade A classification those products will qualify for higher prices and net a better profit to the plant. However there will still be sold as Grade B, that is, when supply gets ahead of the Grade A demand. Nevertheless, in the long run the change will give the plant a definite marketing advantage.

The change, which will cost about \$16,000, also includes a number of automatic controls and other technical advances to increase plant efficiency.

Callisburg Beats Local Exes 20-8

Absentees in the lineup cost the Muenster Exes Sunday afternoon as they went down for a 20-8 count before a team of adult gridders from Callisburg.

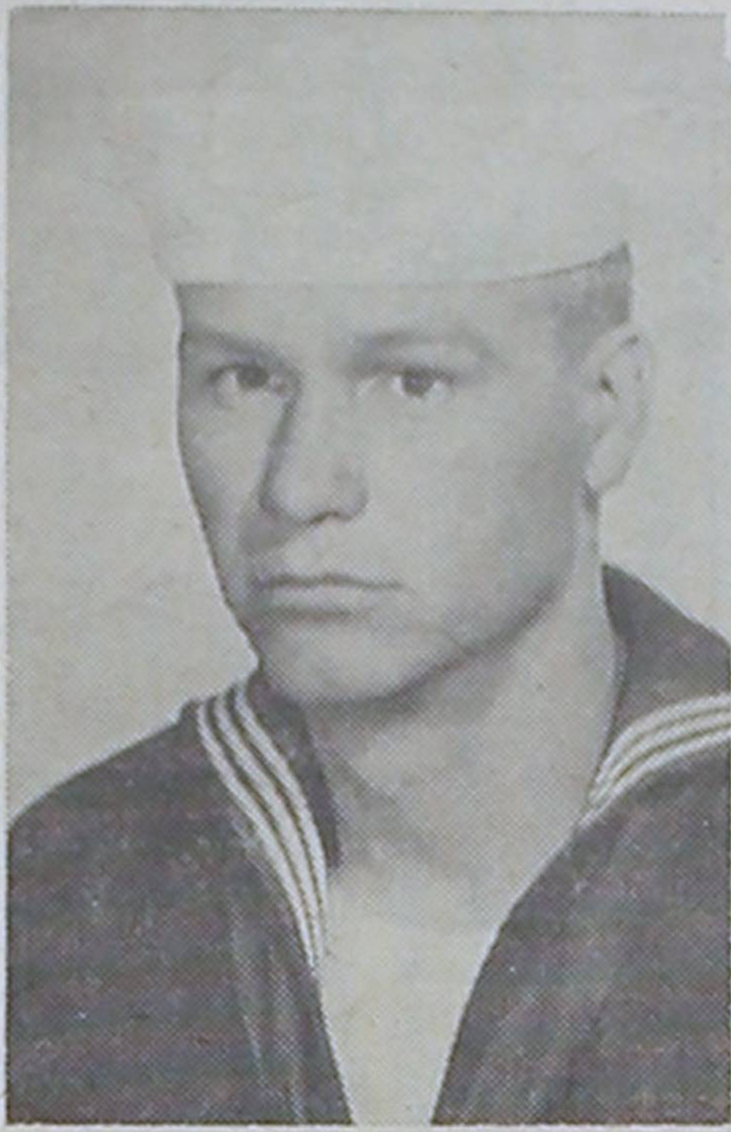

The slip-up resulted from confusion when Saturday night's game was called off to avoid conflict with other community activity. Arrangements for the next day's game were not definite, so Muenster was not ready when Callisburg arrived, and some could not be located.

Regardless, the first half of the game went all right. Noggler sprinted 75 yards for a TD on Muenster's second play and Henschel passed to Haverkamp for the extra points. From then on the play was about even until late in the third when Callisburg got loose for about 60 yards on a pitchout play and also rammed over for extra points.

In the last quarter the visitors scored twice on passes inside the 10 after drives from midfield.

Muenster missed two good chances to score as drives fizzled near the goal line. One ended in a fumble, the other in an interception.

Another meeting of the teams is planned but no date is set. Saturday night Callisburg plays Lindsay.

Bishop Dedicates Scotland Church, Windthorst School

Scotland and Windthorst parishioners Tuesday attended ceremonies dedicating their re-modeled church and re-built school. The Most Rev. Thomas K. Gorman, bishop of the Dallas-Fort Worth diocese, officiated at the ceremonies and gave an address at each of the services.

Thirteen priests from the area, including Father Alcuin Kubis, were in attendance. After the ceremonial dedicating St. Boniface Church, the bishop confirmed a class of 13 young candidates and gave benediction with the Blessed Sacrament. The church which last September marked its 50th anniversary was re-built at a cost of \$27,000. The Rev. James A. Boyle is pastor.

From Scotland the clergy drove to Windthorst where the bishop blessed the re-built high school — a new \$68,000 wing which was destroyed by fire last winter. Pastor of St. Mary's parish is the Rev. Cyril Lange, O. S. B.

James E. Moster Wins in Hospital Essay Contest

James E. Moster of Lindsay High School was the grand prize winner of the essay contest sponsored by the Muenster Hospital Authority as a feature of the current hospital fund campaign. His essay was selected on the basis of originality and neatness and concise presentation of advantages to be derived from the proposed hospital. It appears on page 2 of this issue of the Enterprise.

Announcement of winners and awards of prizes were made Saturday night at the kickoff dinner and program beginning solicitations in the hospital campaign. Four schools — Sacred Heart, Muenster High, Lindsay High and Era High — had submitted first, second and third place entries in a contest that was open to all schools of the area on the subject "What the Muenster Memorial Hospital Will Mean to Our Community." Individual prizes of \$5.00, \$3.00 and \$2.00 were awarded to the top winners of each school and Moster's essay was selected for the grand prize of \$10.00.

Winners of each school's contest, were as follows, in the order named. Muenster High: Joan Fisher, Mary Lou Swirczynski, Judy Sicking. Sacred Heart High: Karen Endres, Jerome Taylor, Shirley Wimmer. Lindsay High: James Moster, Judy Bezner, Rosemary Ann Hermes. Era High: Ladd Kelley, Margie Samek.

Endres, coincides with the optioning by the Post Office Department of a building site at the corner of Walnut and Second Streets.

"This new and modern postal facility," the Postmaster said, "will be constructed under the Post Office Department's Commercial Leasing Program, which utilizes the resources and investment funds of private enterprise to obtain needed postal buildings."

Bidding forms, specifications and other pertinent data will be available to prospective bidders at the Post Office. This will mean that an equitable construction value will be established on a competitive basis.

The site option will be transferred to the successful bidder, who will purchase the land, and then will construct the building to Post Office Department specifications and lease it to the Department on a long-term basis, with lease renewal options running up to ten years.

They moved to Bloomfield in Cooke County in 1871 and Mollie married J. S. Montgomery on March 19, 1876. Two years later the couple moved to Bulcher. Muenster was not settled until 11 years later.

Church Rite and Reception Mark W. H. Endres Golden Anniversary

Reaching a golden milestone in their married life, Mr. and Mrs. Werner H. Endres, longtime Muenster residents, observed their fiftieth wedding anniversary surrounded by their family, other relatives, and friends who joined them in celebrating the happy occasion.

A four o'clock afternoon anniversary mass and a renewal of vows pledged a half century ago took place in Sacred Heart Church and a reception and dinner followed in the Parish Hall. The celebration was a near duplicate of the festivities that honored the couple on their wedding day in 1910.

Bishop Directs Vows

The Most Rev. Bishop Augustine Dangelmayr of Dallas, former neighbor of the Endres, directed the renewal of vows and blessed the new wedding bands, twin rings of yellow gold with diamond insets, a joint gift of the children to their parents.

Father Alcuin Kubis officiated at the mass, the men's choir singing, and a nephew of the couple, Anthony Luke, at the organ. Vocal solos before the service were presented by a niece from Hereford, Mrs. Elbert Vance. Six grandsons were acolytes: John Paul and Ricky Endres, Sammy Endres, Tommy Fuhrmann

and Chris and Phil Kupper. And grandsons Clifford Endres and Jimmy Fuhrmann ushered.

1910 Attendants Present

The bride of 50 years ago was again attended by her bridesmaid of 1910, Mrs. Alec Pulte of Gainesville, the former Miss Elsie Endres. They both wore becoming blue dresses with blue velvet hats. Mrs. Endres had a white orchid corsage and Mrs. Pulte a yellow mum corsage. Ben Luke who was best man in 1910 (Continued on page 4)

IM NOT WORRIED ABOUT JACK

Well, Jack Kennedy got up this morning and took a look at the USA and decided it

not only had prestige in large quantities, but was downright glamorous.

I'm not worried about Jack carrying out the Democratic platform promises. If he tries it there are enough Southern Democrats and Republican senators to hold the line. And now that the election is over, I doubt if he'll create the cabinet post of Secretary of Culture just to have Frankie Sina-

tra near him.

Vote counting is still going on as this is written, and the popular vote totals are as close as two fat guys in a French midget car. When you figure that the Democrats had 3 million more registered voters than the GOP, you can give Dick Nixon and his platform credit for appealing to the people who think before they vote, rather than follow their grandpa's donkey even though it wears a socialist saddle-blanket. Dick lost because Jack got the states with the big electoral votes, and in the electoral college, New York gives the winner 45 big electoral votes, even if he carries the No. 1 prize state by only one vote. That's a rule of the game as we play it in these United States. So, let there be no crying in the beer.

I think old Papa Joe will brief Sonny Boy on how to gracefully back down on his rash campaign promises before January 20. That fatherly advice, plus the guardianship of the "unholy alliance" of Southern Democrats and Republican senators should keep Jack lined up to where all of us can get behind him to keep American strong — and free from dictatorship, foreign or domestic.

Congratulations, Jack. And now you be a good boy. And stay live, please. The thought of the villain of box 13 being only a heartbeat away from the most powerful post in the world is what stuns me.

NOW WHAT?

What the Muenster Memorial Hospital Will Mean to Our Community

by James E. Mosler
 Lindsay High School

In trying to determine what this worthwhile institution will mean to our community, one must find out what will contribute to the betterment and prosperity of our city. First of all it will make the citizens more health conscious, and make this a better place in which to live. If persons are ill, they will have a greater chance of being cared for, because of this added medical facility in our county. People who are in need of immediate care will receive that aid quicker because the hospital is close at hand.

Then too, it will be a source of consolation to the people who know it is a dispensary of all the latest modern therapies and drugs. Another factor is the location. Being situated in the immediate locality of Muenster, it will be very convenient and will save time and money for those who will use it.

Above all these reasons, there is one that is of great concern. There will be excellent spiritual care as well as physical. Those who will be employed there will know the spiritual, financial, and physical needs of the local people. Patients will feel more at home and satisfied knowing that they are being cared for in the best possible way, and know how things are at home at the same time. This all adds to the well being and recovery of the patients.

After having realized the points in which this undertaking will help the citizens in their daily life, one can just see what the Muenster Memorial Hospital will mean to our community. It will stand as a constant reminder of the high ideals of the people of this area.

ECONOMIC MISSION?

Two US Senators, accompanied by their wives and one member of the Senate Foreign Relations Committee staff, are now enroute to Africa for a 30 day tour of 19 countries in a four-engined Air Force Super Constellation — a type of plane carrying upwards of 100 passengers. The plane, which costs \$605 an hour to fly, will be at the exclusive disposal of this distinguished party until Dec. 22.

To appreciate how distinguished this little group is, Idaho's Senator Frank Church has racked up an ACA Consistency Index of 6 percent and Utah's Senator Frank E. Moss, 4 percent. Senator Dale W. McGee of Wyoming, eminently qualified by his ACA percentage of 0, was to have gone but has business in Washington.

What a pity Messrs. Church and Moss had no business in Washington.

SOVIET SPYING

FBI Director J. Edgar Hoover says, "The Soviets and their satellites have abused and will continue to abuse every privilege available to them. Soviet espionage agents have avidly acquired books, pamphlets, maps, technical journals and military publications for their military value. Russian intelligence files are filled with aerial photographs of this nation's cities, port facilities, missile bases and other strategic areas. Data concerning our transportation systems, major industries, technological advances and other achievements are carefully collected by Soviet and satellite agents, many operating with diplomatic immunity from the United Nations in New York and their embassies in Washington, D. C. Despite Khrushchev's blatant mouthings regarding peace and fellowship among nations, it is pure folly to ascribe these tactics to any other course but one of planned aggression."

TEEN-AGE GIRL: 1960

by Enid A. Haupt, Editor and Publisher of SEVENTEEN Magazine

Religion is playing an increasingly important role in the daily lives of America's ten million young women under twenty. According to a recent survey, millions of young women of the U.S. attend church regularly on Sunday morning. Millions more go to Sunday afternoon and vesper services, participate in parish youth activities and receive religious instruction after school during the week.

What are the reasons behind their interest in the Church?

1. **THE YOUNG** woman under twenty is "grown up." She is already assuming a responsible place in society. She realizes that religion is an important part of her life.

2. It's "in" to do good. Today's teen society is characterized by a passion for doing good unto others. One young friend said to me recently, "A girl is 'out' if she isn't busy with some form of helping people."

3. **SHE KNOWS** that she needs the security of faith to withstand the pressures of current times and international confusion, her own doubts and social insecurities.

4. From the age of sixteen on, she's thinking about a possible husband. Because of this, she finds guidance in the church — and often a husband too!

So along with increasing attendance at church and synagogue comes an awareness of the problems of interfaith dating.

Our young women face the problem of interfaith dating with the same mature and realistic attitudes that they use in all areas of their daily living. Their comments range from "It's just like an invisible shield" to "We just stopped dating — we didn't have enough in common." At sixteen and seventeen they are already anticipating the areas of trouble: children, pressures from friends and families, social difficulties and basic beliefs.

The intelligent concern with interfaith matters, the increased teen church attendance, the popularity of working for youth councils and church charity camps, taking part in church meetings and choral groups demonstrates for each and all what fine, responsible, law-abiding citizens our teen-age girls of 1960 are.

I WISH everyone knew of the good deeds of our young women: that over 43 per cent hold down full time or part time jobs — that four out of five market for the family food — that five out of ten sew their own clothes — that millions give spare hours to community, charity and church service.

TODAY'S teen-age girl has two aims: To become a happy adult and to make the world a happier place to live in. To a large extent her strength and courage is based on an abiding faith in God.

New Math, Science Films Aid Classes At SH High School

Newly added to the math and science departments at Sacred Heart High are film strips as aids to students and to teachers, Sister Theresina and George Petrus in these subjects. Problems, explanations and solutions are projected on a screen for study. Each month the latest developments and the newest in math and science comes to the school on film strips.

Vie for Accuracy

In Latin and math, students work for accuracy by vieing with each other in groups. Each group has its own name. In Latin they are Caesar and Cicero; in math, Descartes vs Einstein; in Geometry, Euclid and Pythagoras. Names and scores are recorded on the blackboard.

Sophomore Project

Sophomores of SHH spend their spare time thinking up ways to raise money and go after it. They're aiming at \$165 for an all plastic headless torso model for the biology department. They already have head and heart models.

Three times a week the class sells homemade cake and pie to students. They're also working on a handmade rug to be given away in connection with their drive for funds.

Mission Project

Sophomores and Sister Theresina are also engaged in a stamp project for the missions. They solicit cancelled stamps. Another mission endeavor — a chalice for a poor missionary — is getting funds through weekly offerings.

New 50 Star Flags

35th Anniversary Marked by Reunion

Thirty-fifth wedding anniversary of Mr. and Mrs. Frank Bindel was occasion for a family reunion at their home on Thanksgiving Day. Their children and grandchildren came with a joint gift for the honorees and food for the noon meal. Mrs. Wilfred Bindel baked the pretty anniversary cake.

Present were the Leonard Bindels and two children of Carrollton, the Archie Livingstons of Myra, the William Koerners and five children of Pilot Point, Harold and Gerald Bindel, the Arnie Wimmers and three children and the Wilfred Bindels and five children. Only Gilbert Bindel of Gainesville was unable to attend.

Mrs. Bindel is the former Miss Marie Fleitman. The couple married here on Nov. 24, 1925. They've lived all their married life on a farm northwest of the city.

In this world, nothing can be said to be certain, except death and taxes. — Ben Franklin

NOTES FROM CITY LIBRARY

Thanks to Father Martin Fischer for four colorful, pictorial booklets about the Amish and Dutch of Pennsylvania. These booklets show the religious customs, dress, homes and way of life of these industrious, rugged individuals.

One finds these booklets so entertaining and educational that he'll be tempted to stow away in Father Martin's car the next time he goes back to visit his natives state.

Thanks also to Mrs. Clyde Fisher for a subscription to Boy's Life, the official Boy Scout magazine. The reader need not be a Boy Scout, not even a boy, for that matter, just a lover of adventure and folk lore to enjoy this monthly publication.

A book described as an authoritative, practical volume of advice on friendship, dating, sex problems, marriage, religion and careers is "The Catholic Youth's Guide to Life and Love," authored by the Very Rev. Msgr. George A. Kelly. It is highly recommended by many, including Our Sunday Visitor, for young people 12 to 20 and for parents who need help in guiding their children through the physical and emotional problems that occur during these years.

Each chapter deals with a different aspect of a teen's life such as physical changes, religious vocations, safe dating, steady dating, engagements and preparation for marriage. And includes a doctor's frank discussion on sex problems. This has been donated to the Library by the Catholic Daughters of America.

You may talk too much on the best of subjects.

Golden Wedding -

served again as the 50-year attendant. Recounting happy events in their married life, Mr. and Mrs. Endres recalled they were probably the first couple to drive to church for their wedding in a car. Those were still horse and buggy days but the late Frank Seyler who owned the first automobile in Muenster took them to church.

Mrs. Endres is the former Miss Lida Luke, born in Leopold, Mo., on April 22, 1890, and a resident here since she was a child. Her parents, the late Mr. and Mrs. John Luke, came to Muenster in January 1903. Mr. Endres, a native of Doon, Iowa, and a son of the late Mr. and Mrs. Frank Endres, was born Nov. 3, 1887, and was about eight years old when his family settled in Muenster. They have lived here continuously since and consider themselves natives. John Luke was an early day teacher and a talented musician. For many years he was church organist and played for his daughter's wedding. That was on Thanksgiving Day and the golden anniversary fell on Thanksgiving. The celebration was held on the following Saturday as a convenience for out of town relatives.

For 47 years Mr. and Mrs. Endres have occupied the same

place, farming northwest of town. They continue active in parish and civic events. He is a charter member of the Knight of Columbus Council and an officer of Muenster Mutual Insurance for over 30 years, currently serving as secretary.

Parents Of Seven

They have four sons, three daughters and 33 grand children. The boys are Arthur, Gilbert, Paul and Urban Endres, all of Muenster, and the girls, Mrs. Val Fuhrmann of Muenster, Mrs. Robert Kupper of Marlin and Mrs. Jack Gorman of Rockford, Ill. They were present for the celebration attended by more than 250 guests. Granddaughters Jane Endres, Eileen Endres, Karen and Patsy Endres presided at the guest book.

In church and throughout the hall, yellow mums were the floral complement to anniversary decorations. The dining tables all carried out the central theme emphasized on the honorees' table; a double wedding ring theme. The main board held a double ring anniversary cake flanked with gold-sprinkled white tapers and garlanded with greenery entwined with ropes of miniature golden balls accented with golden wedding bells. Mrs. Nick Miller was in charge of decorations and Mrs. Joe Lehnertz catered the banquet menu.

After Dinner Program

In a short after dinner program, Arthur Endres was toastmaster. Father Alcuin was the principal speaker, paying tribute to the goldenweds and comparing 50 years of married life to a rosary. Granddaughter Miss Ruth Endres gave highlights of the honorees' half century together. Clifford Endres read a poem and, with Jimmy Fuhrmann, presented humorous gifts to their grandparents.

Two other courtesies honored the couple. Thursday night all the Endres families were guests in the Arthur Endres home for a turkey dinner and Sunday the family and other relatives plus all the out of town visitors were together again in the Parish Hall for dinner at noon. One hundred and four were present.

Out-Of-Town Guests

Among out-of-town guests at the reception were Mr. and Mrs. Robert Kupper and children Chris, Phil, Douglas, Doyle and Marliese of Marlin; Mr. and Mrs. Jack Gorman of Rockford, Ill.; Tommy Fuhrmann and John Paul Endres of Subiaco, Ark.; Miss Ruth Endres, Sister Marie Cecile Endres, Mr. and Mrs. David Endres, Miss Marcy Klement, Mr. and Mrs. C. J. Rucker and daughters Darla and Therese, Vincent Luke, Enid Walker, Mr. and Mrs. Edwin Luke and Andy Yosten, all of Fort Worth.

Also Mr. and Mrs. Ray Lueb of Oklahoma City, Mr. and

Hans & Hilda... "Tummy Ache"

Mrs. Barney Sandmann and Miss Ann Luke of Dallas, Mr. and Mrs. Jack Ratcliff and Mr. and Mrs. Wilfred Klement of Irving, Mr. and Mrs. Eugene Luke of Denton, Bernard Luke of Houston, Mr. and Mrs. Frank Hennigan of Albuquerque, N. M., Mr. and Mrs. Charles Denny and Clifford Endres of San Antonio, Mr. and Mrs. Alfred Kuhn of Midland, Mr. and Mrs. Harold Luke of Arlington.

Also Messrs. and Mmes Carl Luke, Clarence Betzen and five children, Tony Hoffman, Elbert Vance, Meinrad Koelzer, and Werner Koelzer and their families and Mrs. Lloyd Neil, all of Hereford; Mr. and Mrs. Nick Koelzer and daughters of Saint Louis, Mo., Messrs. and Mmes. Martin Friske, Albert Klement, Adolph Fuhrmann, Leonard Bengfort and Jake Bezner and Mike Fuhrmann of Lindsay, Messrs. and Mmes. Walter Pulte, Ralph Breeding and Leo Hoedebeck and Mrs. A. P. Miller of Gainesville.

Glad to be Texans again are Mr. and Mrs. Frank Haynes Jr. — she's the former Margaret Milner — and they have just moved into their new home at Euless after living in Chatsworth, Calif. The children, Nita Marie and Kenneth, visited their grandparents, the M. F. Milners, while their parents were getting settled. Mr. Haynes has gone back to work at Chance-Vought, Sunday visitors with the Milners were their son from A&M College and wife, Mr. and Mrs. Lawrence Milner, who spent the holidays in Sherman with her family.

The holiday weekend brought out of town relatives and friends to the Frank Needham home for visits. Mrs. W. B. Andrews of Gainesville accompanied by her guests, her daughter and family, the M. Rowes of Washington, Ark., were visitors Friday. Mrs. George Andrews and daughter Linda and Miss Jimmie Andrews of Borger were Saturday overnight and Sunday guests, and Mr. and Mrs. Walter Noel of Plainview were visitors Tuesday.

Mrs. Al Yosten and daughter Judy have many pleasant memories in connection with this year's Thanksgiving holidays. They went to San Antonio to visit their son and brother, Bobby Yosten at Lackland Air Force Base. Going with them was Mrs. Yosten's sister, Mrs. Homer Savage of Garland, where they stopped after spending the night with her parents, Mr. and Mrs. Joe Tischler. Bobby got a full holiday Saturday to be with his folks and they covered a lot of territory sight-seeing. The visitors also saw Lloyd Klement and Ferd Haverkamp at the base and found out they were being transferred to Mississippi this week for further training. Bobby had no information at that time where his next station would be.

Local News BRIEFS

Work at the Denis Walterscheid farm home includes addition of a room and general remodeling and redecorating.

Big disappointment for Mr. and Mrs. Bill Graham (Mary Jo Walter) of Gainesville was the word that the twin boys they are adopting have been delayed in their flight from Germany. They were to have arrived in Dallas this Thursday. Now their arrival is indefinite. The trip this week was cancelled on account of priority reservations. There will be two more flights this month and the Grahams are "on needles and pins" hoping they will have the little boys by Christmas. The twins will be two in December.

This likeness of Linda Breese appears on millions of posters and coin collectors

Linda Gail Breese, a pictorial and high-spirited young lady of four, who lives in Columbus, Ohio, was named this week as the 1961 New March of Dimes National Poster Child.

Selection of the vivacious child, a victim of the grave birth defects of an open spine and excess fluid on the brain, was announced by Basil O'Connor, president of The National Foundation, parent body of the New March of Dimes. Study and patient aid in birth defects and arthritis, together with continued work in polio, embody the expanded program of the health organization.

In January, during which the New March of Dimes will be held throughout the nation, Linda will probably feel she is facing mirrors everywhere she travels. That's because millions of posters will bear her likeness which, in drawings and photographs, will also be published in thousands of newspapers and magazines. The blonde and blue-eyed child will also appear on network television.

Linda's parents are Mr. and Mrs. Dean E. Breese. Her father is an industrial engineer. Her mother, Dorothy Lohr Breese, in addition to Linda has another daughter, Susan, 14, and two sons, Ronnie, 12, and Terry, six. Tragically, since there is

handicapped Linda among the Breese children, Ronnie is a victim of cerebral palsy but his general physical condition is described as good.

Mrs. Breese has been a Mothers' Marcher for the annual March of Dimes.

"My husband and I are deeply grateful that at last something constructive is being done about birth defects," she says. "We pray that The National Foundation which, through public contributions to the March of Dimes, financed the development of the Salk polio vaccine, will in time also solve the puzzle of birth defects, which are the largest unmet childhood medical problem in our country today."

Emphasizing the enormity of the problem, Mrs. Breese cited statistics showing that 250,000 infants in the United States are born annually with significant birth defects. Also, because of these congenital malformations, 34,000 babies a year in the nation are stillborn or die in the first four weeks of life.

Linda underwent surgery to close her spine when she was less than a day old. The operation was performed at Children's Hospital, Columbus, where The National Foundation with March of Dimes funds established the nation's first Birth Defects Study Center a few months ago. Nine months

later, she again had surgery for excess fluid on the brain, and the little girl today wears a "shunt" tube to drain off this liquid. Linda also uses crutches but has been able to discard her leg braces.

Recently, while helping her mother wash dishes, she took three steps without her crutches—a memorable and hopeful event.

READY FOR TROUBLE—Members of the Venezuelan National Guard and city police post themselves in Caracas. Student riots broke out and revolution was feared.

Navy Plan

It's always good news when something is done to save money for American taxpayers. The Navy has just put on exhibit in Washington a modern destroyer equipped with the latest anti-submarine warfare weapons. The ship is the first of 163 the Navy plans to add to its anti-submarine fleet, and has fitted out at a saving to taxpayers of more than \$15 Million. This is a dramatic accomplishment. How was it done?

The newly equipped vessel is one of many destroyers whose useful life was running out. Rust and wear were taking their toll of the ship's machinery, which had been in use since her launching 15 years ago in Bath, Maine. Instead of scrapping the vessel, the Navy made her the first to undergo complete renovation under its Fleet Rehabilitation and Modernization program, known as FRAM.

The aging destroyer had kept up with improvements in Naval warfare equipment, but in doing so her efficiency had been seriously reduced. As new equipment was added to the vessel, her living quarters became so cramped the crew had little more than elbow room. This, added to the natural wear and tear of a vessel on active duty, made it obvious that her usefulness must soon end. However, replacement was considered impossible, because of the great cost.

The FRAM program has eliminated this problem.

The aging ship was sent to the Boston Navy Yard for a complete face-lifting, and reworking of the interior of her hull. Everything in the destroyer now on exhibit in Washington is completely new. Only the hull of the vessel is old.

Duplication of the destroyer would have cost between \$38 Million and \$40 Million. Her original cost in 1945 was \$12 Million. Renovation under the FRAM program was \$10 Million. The Navy and the nation now have a modern anti-submarine destroyer at a total cost of \$22 Million, saving citizens who foot the bill more than \$15 Million.

Regardless of what happens elsewhere, we can't afford to miss this golden opportunity. Nor can we hope to correct our failure later. With our priority lost we'd have to pay the full price, not just half, on our next effort.

Since then they are at home at Lindsay.
