

Annual Reception In Holy Childhood Set February 5

February is Holy Childhood month and date for the annual enrollment of babies and other children who have missed a previous enrollment has been set for Sunday, Feb. 5, at Sacred Heart Church. The service will begin at 2 p.m.

This will also be the time to pay the annual dues of 12 cents for each child enrolled. Sister Gabriel who is in charge of the organization here said dues for children in school should be sent in with the youngest child in the family.

The story of the Holy Childhood begins more than a hundred years ago. Bishop Charles de Forbin-Janson organized the children of the world in a crusade of prayer and sacrifice for their own betterment and for the spiritual and temporal welfare of the unfortunate children of the pagan world.

Any child under 12 years of age may be a member and the number now enrolled in this apostolate throughout the world totals some 22 million.

Requirements are simple: a short prayer daily and dues of at least one penny a month. The funds are distributed by a papal commission to every mission territory of the world. Having reached their twelfth year, members are asked to become members of the Society for the Propagation of the Faith. As members of the latter they retain membership in the Holy Childhood which is accorded rich spiritual favors by the Holy See.

Mrs. Yosten Hosts Progressive Club

January meeting for Progressive Club members was held in the home of Mrs. Buddy Yosten with all members present and one new member welcomed to the group. Mrs. Ray Walterscheid joined to replace Mrs. Paul Luke who moved to Dallas.

After the 42 games, the hostess served apple pie a la mode and coffee. Mrs. Alvin Fuhrman made high score, Mrs. Charlie Wimmer Jr. was second, Mrs. Joe Voth secured the galloping award and Mrs. Joe Trubench received the consolation prize. Next month's meeting will have Mrs. Robert Bayer as hostess.

Local News BRIEFS

Mr. and Mrs. Paul Luke and children Ken and Ruth are getting settled in their Dallas home at 13929 Birch Lane Drive. They moved Tuesday with the assistance of Henry and Alphonse Luke. The Paul Lukes' home here has been bought by Jerry Wimmer.

Mr. and Mrs. Jim Fette and children Dena Kay and Jimmy Joe drove over from Dallas Sunday afternoon for a visit with his mother Mrs. Isabell Fette and his grandmother Mrs. J. H. Otto. Coming with them were friends from Dallas, Mr. and Mrs. Cecil Lovett and two children.

Mrs. Tony Wiesman entertained with a coffee Wednesday morning in her home at Gainesville for Burk Royalty Company employee wives. There are 14 and they get together every two weeks for morning coffee at 9 o'clock in the various homes.

Mr. and Mrs. Eddie Fette and children ended a week's visit here Monday and returned to their home in Monahans. They came to see his mother and to visit his sister, Mrs. Bill Tilger, before she and her children returned to California.

Mrs. Dick Cain is back at home after spending almost two weeks in Lubbock with her sister and husband, Mr. and Mrs. O. Z. Smith, while Mr. Smith had a major operation for kidney stones. Mrs. Cain's mother, Mrs. J. S. Hogan of Burleson went with her. Before they returned they drove to Amarillo to see the Frank and Jerry Hogans and the Lloyd Hefners and stopped at Lawton, Okla. to visit Mrs. Hogan's sister, Mrs. Harrison Hunter.

Mr. and Mrs. Kenneth Reynolds and children of Denton divided a weekend visit with relatives here and at Forestburg. They visited her father Joe Knabe and family while they were in Muenster.

The Wednesday meeting of the Muenster Home Demonstration club was postponed due to bad weather and illness among members. The date will be re-set and announced later.

Mr. and Mrs. Pat Stelzer of Dallas came home for a weekend visit with their families.

According to recent estimates of the American Enterprise Association, some 127,000,000 Americans, or about 72 percent of the country's civilian population, have some form of private health insurance. This is double the number of insured persons over 10 years ago—and quadruple the number 15 years ago.

The organization of business and professional men claim that \$23,000,000,000 is being spent annually for health benefits of all kinds.

The wrong way (top) and the right way (lower) to mark Texas boats with registration numbers is pointed out by Bob Townsley, Director of the Texas Highway Department's Motor Vehicle Division. Top number, white, gives poor contrast with the light hull. The bottom number, contrasting sharply with the dark background, has good visibility.

Officials Advise Contrast of Color For Boat Numbers

Austin, Texas — "Texas boat owners may need a woman's opinion in choosing the colors for the registration numbers on the hulls," Bob Townsley, Director of the Texas Highway Department's Motor Vehicle Division said today.

"Boat number colors and boat hulls aren't contrasting enough to be readable — that's the problem."

"Too many boats are not numbered in accordance with the law — which requires a legible, visible, contrasting number for good identification. The solid-color area of the boat number should contrast strongly with the hull of the boat. A good many of the boats we've looked at have white numbers on a white hull — and the thin colored border around the number doesn't make it show up."

Three things the Texas boat owner should do after getting his registration number from the Texas Highway Department:

1. The solid-color area of the regulation three-inch, block letters must contrast with the hull of the boat.
2. The numbers should be located on each side of the forward half of the hull, as near to the stem as possible.
3. Between each part of the number there should be a hyphen or a space. Example: TX-1234-AA or TX 1234 AA.

Townsley said the boat-numbering problem was nationwide, and that manufacturers who make boat numbers are helping out by increasing the size of the solid-color area of the boat number to a full three inches.

Coast Guard and local enforcement authorities will give owners of boats whose numbers do not meet the federal numbering specifications until 1 July 1961 to make necessary changes.

The Water Safety Act passed by the Fifty-sixth Legislature gave the Texas Highway Department the responsibility of administering the Act. Owners who power their boats with a motor in excess of ten horsepower are required to obtain a license. Numbers are issued by the Motor Vehicle Division of the Department.

Townsley stated that 150,000 power boats were registered in Texas, and that registrations on these were good until March 31, 1963.

"The registrations are good," explained Townsley. "Now we want to get the numbers so we can read them. No matter what power rating a boat may carry, it is to the owner's advantage to register his boat. The boat's registration will provide an inexpensive way of quick and positive identification should the craft be stolen or involved in difficulty."

Steve Owen, famous football star and coach, spent his youth as a cowboy. One day, an alert coach, noting Steve's size, called out, "Hey, boy, how about taking a whack at running the ball?" Steve got off his horse, picked up the pigskin, and ran through would-be tacklers like greased lightning.

"Fine! Fine!" enthused the coach. "Try that once more, but this time take off your spurs."

An Eye for Business

After trying for months to collect a much-overdue bill for his firm, he finally telephoned the lady and explained that he would have to turn her account over to a collection agency.

"Good," she replied, and added: "Would you please turn it over to the Alson Collection Service? That's where I work — and when I pay the \$100 I owe you, I will get a 20-percent commission for collecting it."

BIRD LIFE—France advances the cause of wildlife conservation with this 30-cent stamp. It depicts Arctic "sea parrots" in a game refuge.

The teacher asked Billy why Noah took two of each animal on the Ark. To which Billy replied, "Probably because he wasn't one of those squares who believed in storks."

"I'm beginning to suspect, your mother has a low opinion of me."

"Whatever makes you think that?" asked the bride.

"Those towels she gave us are marked 'hers' and 'its'."

NOTICE OF HEARING

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

There is no soil bank this year.

The advice of the Soil Conservation Service personnel assisting the Upper Elm-Red District is "Start your own soil bank."

Begin making deposits in your own soil bank by adding fertility in the form of organic matter, nitrogen, and improved soil condition this spring by growing a crop of sweet clover on part of the land.

Sweet clover is an excellent crop for building up the organic matter when left on the ground for a seed crop and the residue is returned to the soil. Clover also protects the land from erosion. The deep roots of sweet clover get into the earth to open up plow pans and allow water to soak in for use of crops to follow. The nitrogen-fixing bacteria in the roots can add up to 75 pounds of nitrogen per acre to land which will be greatly improved and produce higher yields of following crops.

If yields have gone steadily downward during the past several years on account of low fertility and poor soil condition, a fertility builder-upper with a crop of soil improving sweet clover will work wonders for the land.

Remember, say local technicians, soil is like money. If you don't put some of it in a bank account, you won't have anything to check out.

RANGE CONSERVATION

Range Conservation Stamp

Conservation leaders here are looking forward to issuance of the world's first range conservation postage stamp by the Post Office Department in Salt Lake City, Utah.

The commemorative 4-cent stamp, printed in 3 colors, will be issued February 2 at the American Society of Range Management's annual meeting at Salt Lake City.

The stamp will go on sale at the post office here on the following day, February 3.

The stamp is in two parts. One part is a reproduction of

the famous drawing, "Trail Boss" by Charles Russell, the distinguished artist of western life. The other part shows a modern range conservation scene.

The new stamp symbolizes the development of range conservation from pioneer days of the open range to today's scientific management techniques.

Those who are interested in a "first-day cover," a souvenir envelope, can mail addressed envelopes plus a money order or certified check for the number of stamps required to the postmaster at Salt Lake City, Utah, who will place the range conservation stamp on the envelopes, cancel with a special cancellation mark used only on that day and at that place, and mail as addressed anywhere in the country.

For You And Your Town

No business man or woman in any town should allow a newspaper to go to press without his or her name or business being mentioned somewhere in its pages. This does not mean that you should have a whole, half or even a quarter page advertisement in each issue of the paper but your name and address should be mentioned even if you do not use more than a two line space.

A stranger picking up a newspaper should be able to tell what business is represented in a town . . . it is the best possible town advertiser. The man or woman who does not advertise does an injustice to himself or herself and definitely to the town.
