A week from now Texans will join the residents of 35 other states in paying a 2 per cent sales tax on retail purchases. In doing so they will derive some satisfaction from tax exemption on certain purchases, some of which are classed as necessities and some of which are already subject to higher taxes. But it is doubtful whether the limited satisfaction will compensate for the confusion caused by the complex system.

Legislators drawing up the tax measure deserve credit for their effort to ease the burden on people who are less able to pay. No doubt they helped when they exempted such items as food, housing, insurance, cars, gasoline and dental and medical expense. Assuming that some people will spend most of their money on these essentials, and will have little left for luxuries, it follows that their annual sales tax payments will be low.

But there will also be many cases of taxable and exempt goods sold in the same store, and many a retailer will have to distinguish between the two groups of items in making the collections . . . and also in making remittances to the state tax office. They will have headaches. For them the lawmakers would have been more considerate if they had simply imposed a general tax to apply to every retail sale.

We're even inclined to think that consumers too would have been happier with that arrangement. After all, their time as well as the retailer's is involved when a list of purchases has to be separated into the two groups of items. Many will resent the wasted time as much as they do the few pennies of extra cost.

An early appraisal of the situation suggests that the system might have been simplified by a more general coverage and a lower rate, exempting only a limited list of major items, especially those that are already heavily taxed. According to estimates, the tax is intended to net the state about \$24 per year out of a \$5,000 income. That might have been accomplished with fewer complexities.

Nevertheless we must admit that the legislators had many problems in working out what they finally adopted. While it's easy for us to criticize, and natural for us to resent the inconvenience, we at least hope that their method will serve their purpose . . . of raising needed funds, principally from people who are more able to pay.

In case you wondered, here's how a retailer will determine your tax. Purchases under 25 cents will be tax free. From 25 to 74 cents the tax will be a penny. From 75 cents to \$1.24 it will be 2 cents. And so on. In the long run that's supposed to average a tax of 2 per cent. Retailers will not have to keep a separate fund of pennies collected but will pay the state a flat 2 per cent on taxable sales. That will require the additional job of keeping a record of such sales.

Do you recall the storm and fury in the United Nations a few months ago over the rights of self-determination of people in Africa? Communists put on a big propaganda barrage attacking colonialism as practiced by Belgium, Portugal, France and England in the Dark Continent, and succeeded in stirring up quite a mess of discontent among people who obviously are not even capable of ruling themselves. The aim was apparent. Reds wanted to create chaos, then move in and gobble up the distressed countries into their own colonial system.

Perhaps you are wondering now why similar oratory isn't sounding in the UN over the present situation in East Germany. So does this column. A form of colonialism worse than anything in Africa has been in effect there for over 15 years and became even worse on August 13 when Khrushchev sealed the Berlin escape hatch converting the country into a big prison. Compared with the African problem, this situation is especially noteworthy because the people concerned are highly civilized and fully capable of self government, but more confined and more suppressed than the Africans ever were.

Why aren't we making an issue of this in the UN? Why don't we seize this opportunity

"YOU CAN'T TAKE IT WITH YOU" is the thoughtless attitude of the litterbug, who leaves a trail of trash on the highways which Texas Highway Department maintenance crews clean up by the truckload as shown here. The Department asks that you do "take it with you" when traveling. Dispose of your travel litter in proper containers. Please keep Texas highways clean for the enjoyment of others.

These Could Finish the Drive

An abundance of possibilities still lies ahead in this community's hospital campaign if those who donated little or nothing will decide to give their help. That fact was indicated in a summary released Wednesday by chairman J. M. Weinzapfel.

The record shows that 587 persons or firms, representing less than 40 per cent of the potential donors, have given to date.

In starting the campaign its director prepared about 2300 cards. Since then about 800 have been discarded, mostly because those concerned live too far from the community to be considered good prospects. The remaining 1500 were considered as potential donors, but to date more than 900 of them have not responded. As pointed out by Weinzapfel, reasonable help from that group could put the drive over the top.

The report also shows the number of donors in each of five brackets. Five subscribed \$5,000 or more; 49 are in the \$1,000 to \$5,000 group, 142 are in the \$300 to \$1,000 group; 293 are in the \$50 to \$300 group; 98 are in the \$1 to \$50 group.

Likewise apparent is the fact that many gave less than an adequate donation. Additions by them could also do much for the drive.

Early Filing for Hospital Grant Is Still Possible

In spite of slow progress the past two weeks, Muenster's hospital project still has a chance to file its application for Hill-Burton aid during the September meeting of the State Board of Health.

The board meets September 10, according to a report this week from the architect, J. R. Killebrew of Wichita Falls. He told J. M. Weinzapfel, chairman of the hospital drive, that he can have his plans, specifications and application forms ready for the next meeting and Muenster's drive will determine whether anything will be done then. If not the project will have to wait for three more months.

That delay would not endanger the local priority Weinzapfel explained, but would only delay the beginning of construction. Muenster's priority for the Hill-Burton funds is good for two years, and is available when the community can show subscriptions for its half of the cost with a third of it in cash.

Wednesday afternoon the fund stood at \$212,026.93 which is about \$38,000 short of the goal. Cash and securities on hand add to about \$65,000, about \$20,000 short of the mark.

According to Weinzapfel, practically all of the application is being filled out by the architect. Little of the detail work remains to be done here, so the drive can keep moving almost to the last day. A few generous donations to give new life to the drive, with a follow-up of intensive campaigning can still finish the job on time, he said.

The architect also mentioned a possibility that the application might get consideration even though the drive isn't completed, provided that prospects are good for a successful finish.

Persons willing to help put the drive over the top are asked to come to the hospital meeting Thursday night at 8 in the public school.

PTA Slates First Meeting Aug. 28

Muenster PTA will re-organize for the current term at its first meeting of the school year next Monday, August 28, when new officers take over their duties and the chief business of the session will be planning the coming year's activity. Meeting time is 8 p.m.

President Bill Lindsay urges a full attendance. Other officers are Mrs. Albert Fleitman, vice president; Mrs. David Trachta, secretary, and Mrs. Mike Sloan, treasurer.

Coaches of Both Teams Haunted by Early Injuries

With slightly more than a week to go before their opening games, coaches of both Muenster football teams are haunted by injuries.

The handicap is felt most keenly at Muenster High where the shortage of personnel presents a serious problem even when all boys are in good condition. Since last week the squad membership has grown from 14 to 15, however two are on the injured list since Monday night's scrimmage with Sacred Heart.

Mark Hellman, quarterback is temporarily out of uniform but exercising lightly trying to get a strained ankle ligament in condition for the opening game. Dickie Pagel was in uniform Wednesday night but favoring a sore back.

To Coach Glenn Richardson that is causing a special difficulty. Temporary absence of the two key men rules out the possibility of regular practice. For the time being he is spending time on fundamentals and training, hoping he will get in a few sessions on plays before the first tussle.

At Sacred Heart Coach Adam Wolf has a similar though less critical problem. Four of his first stringers are nursing injuries from the Muenster High and Lindsay scrimmages. That delays progress of his regulars, however he is not in danger of being caught short handed. His squad membership still makes up more than two full teams.

Starting their scrimmage Monday night the two teams were fairly even for a while. The Hornets scored first on a long sprint by Hellman. But his injury shortly afterward seemed to jinx the whole team. Hornets got nowhere from then on, and the Tigers scored five times.

Practice with Lindsay Tuesday was tighter though somewhat confused by each team's adjustment to the other's method. Tigers had to use 8-man defense while Knights had the ball and Knights increased to 11-man defense while Tigers had it. The net result was four TDs for Lindsay and three for Sacred Heart.

Next scrimmage for the Tigers is with Gainesville B Thursday night.

Hoffman Infant Dies at Lubbock

Graveside services were held in Lubbock Wednesday, August 16, for John David Hoffman, infant son of Mr. and Mrs. T. J. Hoffman of that city. The baby born Tuesday at 10:30 p.m. in West Texas Hospital died shortly after birth.

Father James O. Donoghue of Christ the King Church officiated at the funeral services. Survivors in addition to the parents are the child's grandmother, Mrs. Rosalie Trubenbach of Muenster and Mrs. C. O. Simons of Wichita Falls.

Mrs. Trubenbach, her daughter Mrs. Earle Otto and daughter Elaine attended the services and Mrs. Trubenbach remained for a longer visit with her son and his wife. Mrs. Hoffman was seriously ill following surgery for a ruptured appendix and was to be hospitalized at least ten days.

Work Begins on New Building for Chevrolet Agency

Construction of a new building for the local Chevrolet dealership is under way now and is due to be complete shortly after the first of January.

J. B. Hardin Jr. of Dallas moved in during the weekend as superintendent for the contractor, Robert S. Watson of Dallas. Hardin has moved a mobil trailer to the location and will live there for the duration. Architects for the job are Ralph Jackson of Wichita Falls and Oliver Tucker of Irving. Local help will be employed for most of the work.

Owner of the building is Ray Wilde, who took over management of the agency since his father, J. B. Wilde, underwent major surgery 3 months ago. J. B. has retired after completing 35 years as Chevrolet's Muenster dealer but still spends some of his time being helpful in the business. Ray has been associated with his father for the past 15 years.

A change of name accompanies the change of ownership and management. Formerly J. B. Wilde Chevrolet Dealer, it has just cleared factory channels for the official change to Wilde Chevrolet Company.

The new building is located on the north side of Highway 82 just inside the east city limit. It will have a front of plate glass and brick and three walls of block masonry. The office, show room and parts office will be air conditioned.

Its general shape will be that of two rectangles, the main section measuring 102 x 106 feet and the show room, with a 50 foot front, extending 22 feet farther forward at the southeast corner. The outside walls of the show room will be all plate glass, 34 feet on the east, 50 feet on the south and 22 feet on the west. Roof structure of the show room will extend 10 feet at the front and 8 feet at the sides.

The building will be divided into four departments as follows: show room, 50 x 34; offices, 50 x 22; parts department, rest rooms and utility rooms, two floors of 52 x 34; shop 72 x 102.

Trustees Adopt \$112,353 Budget For School Year

A budget of \$112,353 has been adopted at the Muenster Public School for the coming scholastic year. That figure, approved by members of the school board at a public hearing last Thursday night in the school building, is the estimated total of expenditures for 1961-62, including the teachers' pay raise recently passed by the state legislature.

As originally prepared, costs were estimated at \$100,283. By the time they were read the teacher pay raise had become law so \$12,070 was added.

Revenue for the year is estimated at \$117,767, which will leave an estimated surplus of \$5,414. If last year's record can be duplicated the actual surplus will run somewhat higher than that. The surplus then, originally estimated at \$10,556, turned out to be \$15,077.

Likewise the school carried over a surplus from the year before, giving it a present surplus of \$26,204 in the operation and maintenance fund and \$7,478 in the interest and sinking fund.

Because of the favorable balance in the debt retirement fund, this year's division of local tax revenue will be 80 per cent for current needs and 20 per cent for debt retirement. Last year the ratio was 70-30.

In spite of the apparent abundant surplus in funds, the school is headed for financial trouble, according to the trustees. For the past two years, while teacher pay raises were very much in the news, the local school economy wherever possible in order to be ready if and when the raise was approved. In doing so it postponed some maintenance work that cannot be delayed much longer.

Big projects, such as a new roof and a complete interior fix-up paint-up, plus payment of the remaining \$16,000 debt would leave little if any of the present surplus, and the school would have to get along on current income.

That's where the pinch will be felt. Because of the salary increase, and automatic raises of \$108 each year, instruction costs will keep going up, leaving less and less for maintenance and improvement. After a few years major adjustments will be needed to make ends meet.

DEEDS MUST FOLLOW WORDS

The reaction of Senator Byrd of Virginia to the Administration's program for a vast increase in our military capabilities should find support among all who are interested in the fiscal integrity of the country.

As reported by the Associated Press, he praised the President's speech as "a powerful statement of the American position." However, the report continued, "Byrd

said it will mean 'huge deficits or huge taxation' unless Kennedy is willing to curtail 'all non-defense expenditures' including all those he recommended when taking office in January."

Senator Byrd, of course, referred to non-defense expenditures which can be abandoned or postponed without weakening the nation's power to defend itself and, if necessary, take the offensive. These include any and all expenditures of the "welfare state" category. We have reached the point where we simply can't afford any more Big Brother government, and where individuals will have to do a better job of dealing with their own problems, and relearn the fact that Washington is not a bottomless pit of money to be handed out for

the asking. The President has spoken often of the need for sacrifice. The words must now be reflected in deeds, by government as well as individuals.

FOOD AND TAXES

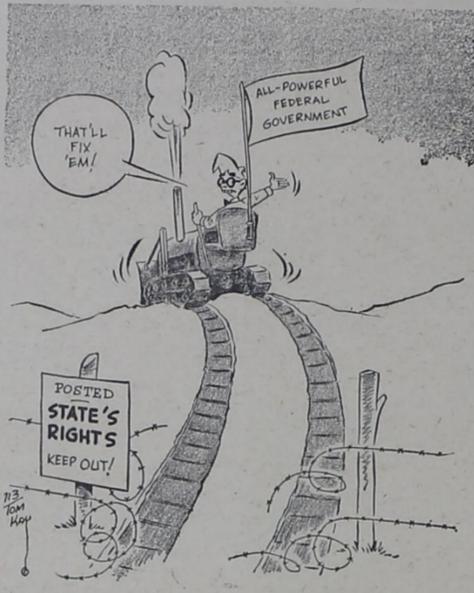

Today we're giving you only one guess as to the Number 1 expense item in the family budget.

You're right. It's taxes. Remember when food represented the heaviest outlay? The Grocery Manufacturers of America, Inc., slips the nasty news to us that food — traditionally the largest bite in household spending — is now far outstripped by taxes.

In 1960, the country's tax bill was \$112 billion — compared to a food bill of \$75½ billion. This reverses the situation of 1939, when the food bill was \$15.7 billion and the tax bill came to only \$12.4 billion — a figure which seems almost unbelievable today. Now the tax bill is at least 50 per cent greater than the food bill, and the difference is growing wider.

Tax collectors take at least one dollar out of every five you fork over at the grocery market. The buck goes for a variety of taxes — necessarily included in the end price. And to list all these taxes fully, GMA says, it would take a price tag the size of the barn door!

Khaki is a Hindustan word meaning "dust colored." The one thing that most men can do better than anybody else is read their own handwriting.

The Invader

BEST IN THE WORLD

Anyone who believes that a solution to a nation's medical problems is to put government in charge should read, word for word, an article in the July issue of Nation's Business by Dr. E. Lloyd Dawe.

Dr. Dawe — physician, surgeon and psychiatrist — is of English birth. He received his medical education in London, served four years as a medical officer in the British Army, and entered practice under the British National Health Service — the government body which administers England's program of socialized medicine. Subsequently, Dr. Dawe left England in disgust, and now practices in Connecticut.

His article deals with the experience of doctors and patients under the Health Service, and it is a sorry story indeed. Doctors are fined for prescribing drugs they believe their patients need, but which are not on the government's official list. In order to earn even a modest living, a doctor must handle an excessively large number of patients. There is a heavy

burden of paper work, taking up time that should be given to practice. Hospitals are overloaded, simply because they are "free" — that is, supported out of taxation — and so patients, particularly elderly ones, are shuffled off to them instead of being cared for at home by their families.

So it goes, with Dr. Dawe citing chapter and verse. The sum total is a serious downgrading of the medical service available to the majority of English people.

Dr. Dawe warns of the grave dangers that lie in proposed Congressional bills to give our own government substantial powers and responsibilities over medical care. His eloquent conclusion: "In this country I have found freedom of action and professional choice. Now I feel I am practicing in the best existing system in the world. It is not perfect. But we are striving to make it better. And the best medical care can be given only in the system where a doctor is not a government clerk but an individual with professional dignity and freedom."

FOR and AGAINST

for CHRIST-against COMMUNISM
BY BILLY JAMES HARGIS, LL.D.
FOUNDER CHRISTIAN CRUSADE

Communist Rights vs. American Rights

In the Worker of June 25, 1961 the U.S. communist conspirators published an "open letter to the American people" which they planned to distribute to hundreds of thousands of Americans. This so-called open letter by our deadly enemies within warned Americans that: "Your constitutional rights, your security and welfare have been placed in mortal danger by decisions of a one-vote majority in the Supreme Court in two so-called anti-Communist cases on June 5, 1961." In these decisions the Supreme Court barely upheld important requirements in the McCarran Act of 1950 and the Smith Act of 1940. Later, Justice Frankfurter granted the communists a delay in the application of the laws upheld.

This open letter by the communists is a part of their determined campaign to force the court to reverse the decision in the fall of 1961 or to assure that the Administration makes no effective efforts to enforce the laws in question. In this campaign the communist conspirators are pushing a line of deception which they have promoted in our nation for years. That propaganda line is the communist claim that attacks upon Communists are actually attacks upon all Americans. They claim that the constitutional rights of all Americans depend upon the rights of communists to continue their activities unhampered. If the communists are allowed to continue their activities without interference the American people will eventually have no rights whatsoever, because they will be in communist slavery.

In pursuing this line of deception in their open letter the communists said: "It is not for ourselves alone that we speak... In nation after nation the destruction of democratic rights of all began with the attack 'only' on the Communists. Inevitably the assault spread and sought to destroy all... That is why we say to all our fellow Americans, the bell tolls not for the Communists alone but for the hard-won rights of all Americans... Here is a typical example of the communist conspiracy's use of the Big Lie. That lie is their claim that in nation after nation the destruction of the rights of all began with action against the communists. The exact opposite is true. In nation after nation the communist conspirators have taken over by internal subversion because the leaders and people of these nations flatly refused to recognize the true nature and objectives of the communist conspiracy.

Opposition to the communist plot for enslavement of the people does not destroy the rights of any nation's people. It never has and never will. In some countries the communists and other totalitarian socialist movements have opposed each other for control of the country, but a victory by the communists instead of the other tyranny would not have meant freedom for the people. Do not be deceived by this Red lie.

August 20th birthday of John Schmitz of Thackerville, Okla., was celebrated here Sunday in City Park with a family reunion and picnic dinner, all the children and grandchildren present except Mr. and Mrs. Leroy Schmitz and son Tommy of Boosier City, La.

Attending were Mr. and Mrs. Martin Theimer of Oklahoma City, Mr. and Mrs. Freddie Schmitz and sons Buster and Mike and Mr. and Mrs. Johnny Schmitz and children Joey, Maquita and

John Dave, all of Gainesville, Mr. and Mrs. Leonard Schmitz and children Ann, Beth, Bobby and Jimmy and Rosalie Cox of Dallas, Mr. and Mrs. Ray Wilde and children Danny, Janice, Joanie, Teena and Greg and Mr. and Mrs. Al Horn.

There were birthday gifts for Mr. Schmitz and a cake that was a conversation piece. Mrs. Al Horn baked the cake in boat shape, the boat numbered 75, the honoree's age, and decorated it with miniature fishermen, fishing being Mr. Schmitz's hobby.

Milner and Mr. and Mrs. Frank Haynes of Dallas as special guests. Kenneth's sister, Nita Marie, liked the party, too. Quartet Returns From Denver Visit

Mrs. Joe Kathman says there was nothing cool about Colorado while she was there. Thermometers rose to the high 90s every day of the week in Denver. She made the trip with her brother and his wife, the G. E. W. Adames and her sister-in-law, Mrs. Joe Bergman, all of San Antonio.

In Denver they visited a niece, Miss Bertha Bittner, seeing her for the first time in forty years. They also visited at the home of Mrs. Joe Kastner where Mrs. William Bergman is spending the summer with her daughter and they entertained them with a turkey dinner and sight-seeing tours including Lookout Mountain and Buffalo Bill's grave. Another dinner party was arranged by a friend, Mrs. Mary Fuller.

A stop in Clayton, N. M., on the way back provided time for a visit with relatives of Mr. Adams. Mr. Adams, 87, did all the car driving on the trip.

Relatives, Friends Visit Jake Horns At Housewarming

Muenster and Lindsay relatives and friends were among 35 guests attending a housewarming at the new home of Mr. and Mrs. Jake Horn in Windthorst on August 15.

Those attending the party brought a shower of gifts for the honorees and eats and drinks for refreshments. They enjoyed a tour of the lovely new home consisting of six rooms, a bath and a half, centrally heated and air conditioned, attached garage and patio, modern stone exterior.

Present from Muenster were Messrs. and Mmes. Emmet Fette, Gilbert Endres, Anthony Klement, and Al Horn and Joe Horn and daughter Diane; and from Lindsay, Theo Schmitz, Mr. and Mrs. Harold Schmitz and Theresa Loerwald.

Letter of Thanks

From Father Francis Zimmerer comes a letter of thanks, intended as a personal message to each one who remembered him while he was in the hospital at Van Buren, Ark., for surgery. It was written Thursday, August 17, from the hospital.

Thanks to all my friends in Muenster and that area for the cards, flowers, prayers and gifts. They certainly provided just what I needed for a quick recovery. I received more mail than all the hospital put together. God bless you.

A few moments ago I said mass for the first time since my surgery. All went well and this will let you know how far I have come, I will be at the hospital another few days. Let us continue to pray for one another. Sincerely and gratefully, Father Francis.

Krahl-Lutkenhaus Nuptials Read At Gainesville

After their wedding trip to South Texas and the Gulf of Mexico, Mr. and Mrs. Sheldon Lutkenhaus will make their home here in Muenster. She is the former Miss Patsy Krahl.

The couple exchanged vows in St. Mary's Church at Gainesville Saturday, August 19, with the Rev. Richard Sokolsky, assistant pastor, officiating at the double ring ceremony and nuptial mass.

Parents of the newlyweds are Mr. and Mrs. Joe Krahl of Gainesville and Mr. and Mrs. Hugo Lutkenhaus of Muenster.

The bride, given in marriage by her father, wore a formal gown of white Chantilly lace with Sabrina neck line and petal point sleeves. A panel of tulle with wide rows of lace formed the back lines of the voluminous skirt and fell into a chapel sweep. A headpiece of teardrop pearls held her waist length veil and she carried yellow roses.

Mrs. James Krahl of Gainesville, sister of the groom, was matron of honor and Mrs. Ronald Kessler of Greenville, S. C., sister of the bride, was bridesmatron. They wore yellow organza dresses over taffeta designed sheath style with full overskirts and carried cascades of white carnations.

Brothers attended the groom. James Krahl was best

man and Steve Krahl was groomsmen. Another brother, George Krahl and Lambert Walterscheid, cousin of the bride, ushered.

The reception and buffet were held in the Muenster Parish Hall. Miss Judy Lutkenhaus and Mrs. Billy Williams registered guests.

Among out of town relatives present were Mr. and Mrs. Chris Jensen and son Troy and Mr. and Mrs. Roy Plumlee all of Wichita Falls, Mr. and Mrs. Jim Harris and daughters Jimmie Lynn and Starla Mabelle of Oklahoma City and Billy and Miss Marilyn Detten of Amarillo.

Father Alcuin Kubis is back from a Colorado vacation. He headquartered at Idaho Springs and went to Denver for sessions of the International Knights of Columbus convention.

Vacation Spent in Colorado, N. Mexico

Returning from a nine-day trip Tuesday were Mr. and Mrs. Al Felderhoff and sons Ross, Doug and Kenney and her brother, Harold Lutkenhaus, who were sight-seeing in Colorado and New Mexico. In the Eagle Nest, N. M., area the little boys got to see the places their daddy has been telling about after his annual deer hunting trips.

With them also was Mrs. Felderhoff's sister, Mrs. Oscar Detten of Amarillo. Meanwhile her children Billy and Marilyn Detten visited relatives here. Joe Lutkenhaus accompanied the travelers as far as Amarillo and after visiting there returned by train with his two grandchildren.

In Colorado the vacationers especially enjoyed the Royal Gorge and the attractions at Colorado Springs. They made the trip to the top of Pike's Peak on the cog railway.

An interesting side-light at Eagle's Nest was a conversation with a curio shop owner as the group picked our souvenirs. Mrs. Clarence Moore who runs the shop told them she lived in Muenster some thirty years ago during the oil boom and roomed with Mrs. Katy Roberg. Another experience, not so pleasing, was coming up on a truck wreck near Clayton and spending about 45 minutes at the scene, until an ambulance arrived, meanwhile assuring the pinned-in-cab driver that help was on the way.

Billy and Marilyn Detten visited all their relatives here and left Wednesday by train to return home.

Electric Co-ops Pledge Support Of Rural Progress

The future prosperity and military safety of the United States both depend on an all-out effort to redevelop rural areas, Senator Ralph Yarborough told rural electric leaders in San Antonio last week.

The more than 650 delegates to the annual statewide convention pledged themselves to support the drive for renewed rural progress and spent much of their convention time discussing methods for redevelopment.

Delegates also pledged themselves to a continued fight for equal rights in their own areas with other power suppliers.

The meeting of Texas Electric Cooperatives, Inc., drew the largest turn-out in the organization's twenty-year history.

Entertainment highlight of the convention was a beauty contest with the selection of Nancy Lee Payne, 18, of Donna in the lower Rio Grande Valley, as the 1962 Miss Texas Rural Electrification. Nati Lynn Smith of Colorado City, who entered the statewide contest as Miss Lone Wolf Electric, was named alternate.

Carroll Land of San Angelo, manager of Concho Valley Electric Co-op, was elected new president of TEC. Other officers elected were G. R. Schumann of Bellville (San Bernard Electric), vice-president, and J. W. Coppedge of Memphis (Hall County Electric), secretary-treasurer.

Named new members of the board of directors were Milton Potts of Livingston, C. C. Sanders of Karnes City, and F. C. Luedtke of McGregor.

Convention speakers included, in addition to Senator Yarborough, State Senator Henry B. Gonzales; Richard A. Dell, deputy administrator of the Rural Electrification Administration; Lloyd Patton, president of the Oklahoma Statewide Electric Cooperative, and James Turman, speaker of the Texas House of Representatives.

The merchant sent his bill to a slow-paying customer with the notation: "This bill is one year old." By return mail he got a greeting card saying, "Happy Birthday, Bill!"

The smart man knows what he doesn't know.

100-Horsepower "Tandem" Tractor Developed

Agricultural research engineers have found a simple method of converting two standard tractors into a four-wheel-drive tractor, producing over 100 horsepower. The conversion can be made by one man in less than an hour and a half, as the two pictures show. All parts needed for the conversion are shown on the ground in the top picture. As developed by Ford Motor Company's Tractor and Implement Division, this "tan-

dem" tractor is capable of pulling seven or eight bottom plows; for other field work its two power units can be used independently. Basic unit needed for this low-cost answer to infrequent high-horsepower demands is the Ford 6000 tractor at right. Its exclusive power-shift transmission can readily be remotely controlled; any conventional row-crop or general-purpose tractor can be adapted as the rear unit.

Lindsay News

Mr. and Mrs. Jim Schindler (Rosemary Bezner) left early Tuesday morning for Laurel, Maryland, where they will make their home while he is in the army at Fort Meade. After their wedding trip they visited relatives here and at Pilot Point and Sunday were the honorees at a gathering of both families — the William J. Bezners and the Frank Schindlers — in the Schindler home at Pilot Point. The reunion with a covered dish dinner was a farewell party for Rosemary and Jim. Unless his orders are changed they will be in Laurel the next year and a half.

Mrs. Joseph F. Neu, traveling great-grandmother formerly of Lindsay, celebrated her 90th birthday Monday in Carlsbad, N. M. She's visiting there with the J. W. Walterscheids following visits in California since her recent visit in Lindsay.

Lindsay-Gainesville Council Knights of Columbus gathered Sunday for their annual picnic in Lindsay Park. The members, their wives and families attended the outing with its noon meal.

Theo Schmitz, Mr. and Mrs. Harold Schmitz and Theresa Loerwald were among relatives attending the recent housewarming for the Jake Horns in Windthorst.

Gets BS Degree

Mrs. James Bezner was among graduates in the Thursday commencement at NTSC, Denton. She received her BS in elementary education and will teach second and third grades at Lindsay School this year.

Jake Bezner of Lindsay has been named an honorary Lone Star Farmer, the highest honorary state title offered by the Future Farmers of America.

He will be presented a plaque at the annual FFA area banquet the latter part of next month in Fort Worth.

His nomination for the honor came from the Denton district — Cooke and Denton Counties — and was approved by the district, area and state FFA committees.

The recognition is for his contributions to county agricultural and civic affairs through the years and for being a booster and supporter of the Cooke County 4-H Club and FFA programs.

Three Share Honors At Birthday Party

Two little sisters and their cousin whose birthdays come close together shared honors at a dinner party August 13 when Mr. and Mrs. Leroy Schmidtkofer were hosts in their home.

Local Juniors Nudged 8-7 by Gainesville Lads

Muenster's 1961 season of junior baseball came to an end Monday night as a group of youngsters from the three junior teams were nudged 8-7 by the champion Lions of Gainesville's little league. The local lads were coached by Willie Walterscheid, Wendell Richey and Dickie Cain.

Boners in the final inning decided the game. Going into the seventh Muenster had a 7-6 lead but a walk followed by three errors gave the visitors the two precious tallies to get ahead.

Jumping to an early 6-1 lead Muenster seemed to be headed for an easy win, then the trend reversed in the fifth and Gainesville started taking up the slack. Local pitchers were Virgil Swirczynski and Chris Cain. Between them they allowed 5 hits and 7 walks. Gainesville had four pitchers who also gave up 5 hits and 7 walks.

Doug Otto delivered Muenster's big hit of the evening, a triple with three on base. Other local hitters were Dale Klement, Roy Reiter, Virgil Swirczynski and Chris Cain.

Clarence Hellmans Have 24 at Dinner

ity to use the world's great propaganda sounding board to our own advantage? Here is our chance to bring the sordid story of red aims and methods before all the world, especially those who have been leaning to the Soviet side of the power struggle. For their sake, for civilization's sake, they need to be wised up on the kind of company they have been keeping.

Official sources tell us that US Information Agency and Voice of America have put on an intensive publicity campaign to bring the story of Berlin and East Germany to many countries so they can see for themselves the evidence of red suppression. That's fine. We hope it will have extensive and intensive effect. But we can't excuse our UN representation for its failure to expose the whole shabby story in the world's most effective medium of information.
