

Weather Delays Harvest of Extra Fine Grain Crop

President Kennedy, returning from his trip to Europe, was described as tired and disillusioned. In view of the fact that his visits to French and British heads of state were very pleasant, that leaves only one conclusion. He must have had an unpleasant conference with the gangster boss of the Kremlin.

It's easy to imagine Khrushchev's attitude at the meeting. Inspired by recent successes of the red movement in Laos and Cuba, and gloating over this nation's embarrassment in both incidents, he no doubt felt inclined to apply his ugly and domineering disposition to full advantage. Putting it mildly, our president isn't likely to be pleased by what he heard.

If so, perhaps it isn't too much to hope that some good will come from the meeting. We can get some satisfaction from the report that no deals or concessions were made. At the same time we know that our president is better acquainted with his foe. He should have a better understanding of what to expect in the future, a stronger conviction that it is foolish to continue going along with the red co-existence hoax, which Tom Anderson, fiery editor of Farm and Ranch, describes as an immoral, impossible and gutless fraud.

Before the meeting this column considered the summit conference as a waste of time. And it would have been disappointed if the President had returned beaming confidence that he had made progress toward world peace. That would have been a sure sign that he was taken in by Khrushchev's treacherous assurances. But the depressed attitude offers a ray of hope. It's possible that JFK knows the score more thoroughly than ever before. If so, the trip was worth while, and we can look forward more confidently to a revival of our old time American spirit.

Possibly another encouraging sign was the absence of Secretary of State Dean Rusk at the Vienna encounter. Rusk was there, but the President did not call on him for help. Does this mean that JFK will depend more on his own judgment and less on Rusk's in dealing with the commies? We hope so. To our way of thinking the man who helped dupe this country into accepting the Chinese red take-over as an agrarian reform is not really qualified to serve on the President's cabinet. He has to be lacking in either judgment or principle. We're somewhat assured by this sign. We'd be even more pleased if JFK depended less on him, or better still, replaced him with someone more dependable.

Another sign of possible significance was a remark Tuesday that an attack by Russia on any of the European countries will touch off a nuclear attack by this country on Russia. It may have been idle talk. It may also have been a warning to the Soviets that our dander is up. Though said by a lesser official of the government, it could be Kennedy's answer to a Khrushchev threat about Berlin or Western Europe.

Squeamish people may shudder at the thought that such talk points to war. But lots of others will welcome it as the only way of dealing with the reds. If more firmness had been exercised by us years ago the world would not be in its present pitiful fix. If, at last, we stand our ground, perhaps we can still stop the red conquest. Whether it works or not, the sure fact is that it cannot be as futile as our former weakness.

Regarding fears of World War III, we might as well be realistic and understand that there is less danger in firmness. If we weekly allow the red conquest to go on we'll soon be unable to resist it. And when the reds are confident they can win we'll surely have war... or surrender. On the other hand a show of courage can possibly stop the red advance, or even turn it back.

Muenster's grain crop this year is one of its best but farmers are getting uneasy about losing some of it to the weather. Harvesting has been exceptionally slow. First maturity was retarded by cool damp weather. Then, when grain was ready, rain delayed the cutting. Drizzles on Saturday and Tuesday stopped combines until noon, and a good shower Wednesday probably stopped them for two or three days.

Following Wednesday's short hard rain, no damage was reported, so the grain still can pull through without serious loss. Meanwhile the moisture was most welcome to all growing crops. So far the season has been favorable even though it is causing some worry.

Reports from local grain dealers indicate that about one fourth of the local wheat crop has been harvested, also that the average yield for the area should be near 30 bushels per acre. Some is poorer, but some is much better, going as high as 40 bushels or more. The quality is the best ever for this area, testing 62 and 63.

Reports on oats are equally good, though spotted. Some fields are poor, some are estimated up to 80 bu. per acre. Generally, it is the best here in many years. Tests too are the best ever. Walt and Leo Becker claim some oats testing 39.

The moisture measure for the month so far is 1.15 inch. Readings for the 3rd, 6th and 7th added to .16 and that for the 8th was .99.

Rainfall for May was 3.18, about two inches below normal for the month. Total for the year to now is 14.06 inches. The total through May was 12.91 in.

Council Regulates Operation of Pool

More regulations on operation of the swimming pool were adopted by the city council at its meeting Monday night. The pool will remain open until 9 o'clock if swimmers are there, however none will be admitted after 8 o'clock. Starting time is 2 o'clock and the pool will be open every day but Monday.

The council also set a price on pool rental for swimming parties. The charge will be \$7.50 per hour including service of a life guard. Persons interested are asked to see George Petrus, pool manager, for more details.

Regarding the Red Cross life savers swimming class, Petrus said about 30 students are expected. He suggests that those who plan to come phone him or see him Friday or before so that he will know how many to order supplies for. Class starts Saturday the 10th.

Dick Cain Named Director of State Auction Markets

Dick Cain, a new director of Texas Livestock Auction Association, will attend the organization's quarterly meeting of directors next Sunday at the Sheraton-Dallas Hotel. Main task facing the TLAA board is a review of final plans for the coming 1961 National Livestock Marketing Congress in Dallas on June 21-24.

In connection with the congress two livestock marketing groups will hold their annual conventions. One is the National Association of Livestock Auction Markets, headed this year by Cecil Ward of Gainesville as national president. The other is the National Livestock Dealers Association.

Pawless Home At Rock Station Destroyed by Fire

Fire of undetermined cause about 3 to 4 a.m. Wednesday completely destroyed the George Pawless home near the Rock station about four miles east of Muenster. No one was there at the time and everything in it was lost.

Rural fire trucks from Muenster and Gainesville went to the fire but both were too late to stop the blaze. A truck driver who reported the fire here said it was too late to save any part of the house but firemen could protect the station. With wind in their favor they did not have to contend with spreading flames.

Parish Donates \$275 to Cemetery

Cemetery donations were slightly below normal last Sunday as ladies of the Garden Club held their annual collection at Sacred Heart Church following the five masses. The total given was \$275.41.

Mrs. Steve Mosier, treasurer, said that any who missed their chance to donate can still help along. Donations will be accepted by her or by Mrs. A. F. Gremminger, chairman of the cemetery committee.

Funds collected are used for cemetery maintenance which costs about \$600 a year. Money is raised in special collections All Saints Day and Memorial Day.

Mosman Retained As Grand Knight Of Muenster KCs

Muenster Knights of Columbus at their annual election of officers Wednesday chose John Mosman to continue as their grand knight. This will be his second term in the office.

The members also re-elected all of their officers except one. Deputy Grand Knight Charles Taylor, after serving two terms, asked the group to favor other nominees. They elected Eugene Hoedebeck to succeed him.

Other officers, all re-elected for another year, are Chancellor Frank Felderhoff, Recorder Dan Luke, Treasurer James Walterscheid, Advocate Arthur Endres, Warden Albert Herr, Guards Eddie Fleitman and Walter Klement, and Trustee Charley Hellman. Trustees whose terms have not expired are Pat Hennigan and Leo Sicking.

Appointments to offices of chaplain, financial secretary and lecturer will be named at the next regular meeting, Grand Knight Mosman announced.

Also a part of the meeting was a report by delegates to the K of C state convention in Galveston last month. A report by John Mosman and Herbert Meurer presented high spots and vital decisions of the convention. A report by J. W. Fisher explained the basis of selecting award winners from several dozen council publications. He proudly announced that Muenster's KC bulletin, edited by Charles Taylor, placed second in the group of small mimeographed papers, and the state council's certificate was presented to Mr. Taylor.

Another report was the grand knight's review of council activity for the year.

Before the business session members were treated to the council's annual supper, featuring barbecued chicken.

Pavement Project Is Complete at Cost of \$15,600

The city's 1961 paving project, covering more area than any of the former projects has just been completed at a cost of about \$15,600.

Figures revealed by City Manager Steve Mosier show that the total paid to H. M. Scott and Son was \$11,520.98. That covered the cost of shoving and packing base material and doing the surface work. In addition the city spent about \$3500 for base gravel and over \$600 for five concrete gutters, four of them on Walnut and the other at Pecan and Sixth.

In return the city received \$7,770.30 from property owners for their share in the cost of new pavement. This covers 6 blocks on Walnut and 1 block on Fifth and widening pavement on Fourth and Sixth.

The city's charge to the property owner is based on the area of pavement extending to the middle of the street. It is 72 cents a square yard, which falls considerably short of meeting the city's actual cost.

The contractor's charge for base work and surfacing is 55 cents a square yard. However the city had previously furnished the gravel base. In addition the city has to stand the cost of paving intersections. Furthermore, when the original project is done maintenance becomes the city's responsibility. This year maintenance involved repairs and surfacing on Pecan, South Hickory and Seventh.

Figuring this year's entire paving project the city's cost is \$7,830, the property owner's is \$7,770.

Another change in management of the swimming pool is coming up, due to a change of Uncle Sam's orders to Dan Hamric.

Earlier Dan was assured that he could wait until next summer for his six weeks of military training. So he took the job as co-manager of the pool. Now he has orders to report for military duty.

The solution: R. E. Hamric will take his son's place from 2 to 5 as George Petrus, the other manager, serves as life guard. After 5 until closing time the replacement will probably be Jimmy Doughty, who will take the life saving course in order to qualify for the job.

Progress Club Adopts Changes At Youth Center

Several changes in the operation of the Muenster Youth Center were adopted by its sponsoring organization, the Community Progress Association in a meeting Wednesday night of last week.

As explained by Glenn Hellman, president, the center will be open Saturday and Sunday nights from 7 to 10 and members of the sponsoring group will be present at each party to supervise and assume financial management.

Another decision was to limit the club's membership to high school students. During the summer, until the actual membership is determined by enrollment in high school, eligibility is extended to all eighth grade graduates. High school grads, however, are no longer eligible.

Dues are 50 cents per member per month payable at least six months in advance and preferably a year in advance. Membership cards will be issued by L. B. Bruns.

Admission to the club will be by membership cards. In case both persons in a couple are local residents both will need a card. However a member may bring a non-member date from outside the community.

The new set of regulations was adopted as a means of providing supervised recreation for youngsters who want it, and the progress association welcomes suggestions that would help them to improve it.

Saturday night, June 10 will be the first night to operate under the new arrangement. Students wishing to attend are reminded to get their membership cards.

ALL IS NOT WELL

It would seem that not all is well within the vast Communist empire, despite the claims of enormous progress that come periodically from Moscow and Peking. One of the greatest problems, it has become obvious, lies in the food supply.

Soviet's bread basket, was given the sack for failure to produce. Two other top officials were given one more chance — on an "or else" basis.

Both the Soviet Union and Red China, columnist Robert S. Allen reports, have been frenziedly buying food from other countries. To obtain foreign exchange, Russia has sold big blocks of her precious gold supply on the London free market. In China, the food shortage is apparently still graver, with famine and starvation rampant in some areas. The crisis is due in part to the vagaries of weather — but in addition,

says Mr. Allen, there has been "widespread mismanagement and bungling, and extensive pilfering and sabotage."

Communism, according to its leaders, offers the only way to produce the abundant life for the masses of people, and capitalism is doomed to fall before it. But it doesn't seem able to do much of a job of feeding hungry stomachs.

THE GOVERNMENT

'Gaze at this magnificent structure,' declares the government official, pointing at a new housing project or bridge, or superhighway. 'Built entirely with government funds,' he continues, the implication clear that no mere private group could do anything quite as good.

But . . . Where did the government get its funds to build this 'magnificent structure'? Not from anything the government produced or sold or some service it performed. No, the government — federal, state or local — got its funds from the people who earned wages and salaries or ran business and paid their share of taxes. . . .

FIRST IN INCENTIVES FOR NOT WORKING

In a previous column we pointed out that the U.S.A. is first among the nations of the world in giving money away.

In this short article we would like to draw attention to another unenviable first of Uncle Sam's achievements (?): He is first in giving incentives for not working.

Nikita Khrushchev proudly boasts that because of the communist dictatorial system, Russia is first in putting people to work. The Russian people have no choice—they work at what and when they are told — or else.

But here in "free" America workers are free to work at what or when they please. No penalties are meted out for not working. On the contrary, our architects of the welfare state bend every energy to create incentives for either not working at all, or for soldiering on the job.

The outstanding of these incentives is, of course, unemployment benefits. No one quarrels with the basic idea of paying wages for a limited period to workers who just can't find employment. The trouble is in the abuse of unemployment benefits. We have carried them almost to the point where it pays a worker to be permanently unemployed.

So chalk up another first for the U.S.A. Let Russia hold to her claim to be the first nation to send a man into space — the U.S.A. is the first in rewarding workers for not working.

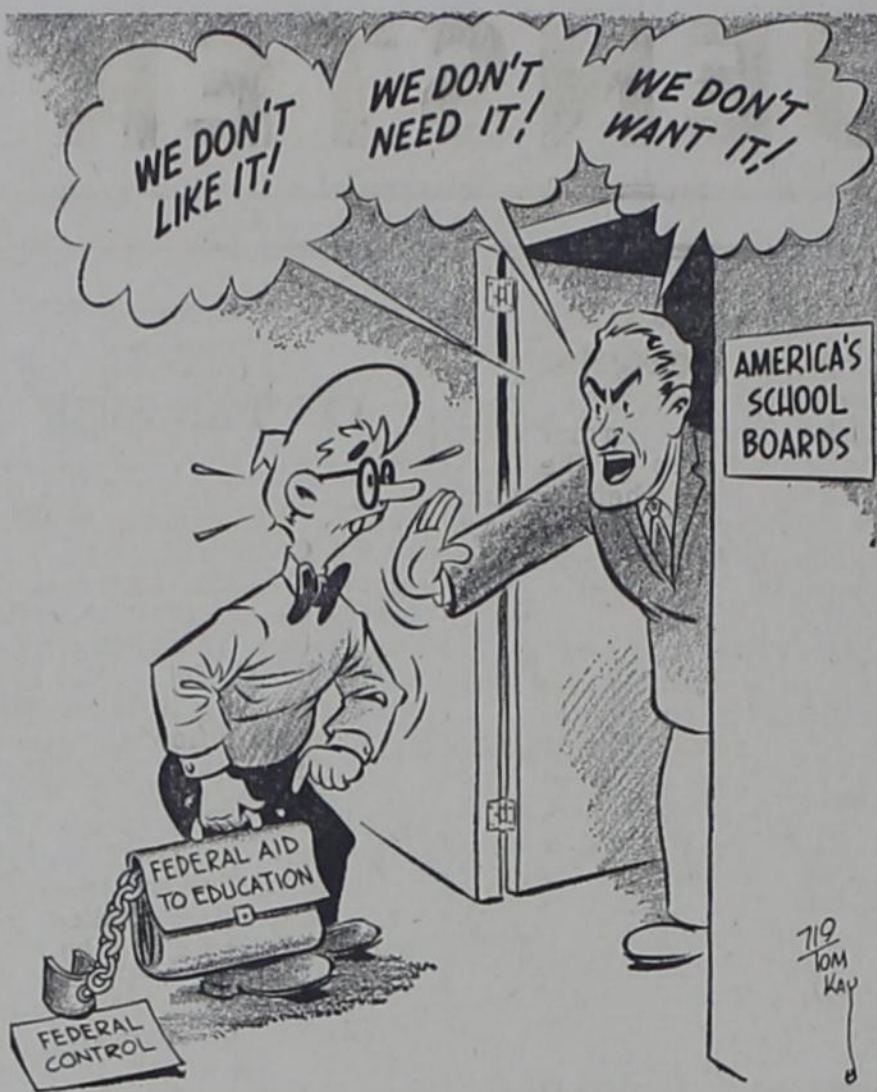

SECOND CLASS PEOPLE

People who want to be paid without working enough to earn it are second class people, not Americans. People who want to be protected without having the courage to fight, and earn their own protection, are second class citizens. People more anxious for security than self-respect, comfort above accomplishment, for "peace in our time" above integrity . . . all these shallow, self-seeking, small-souled people are dragging America down to the second-class nation status.

For a hundred years of hard working self support, America was respected, prosperous, unselfish without being made a fool.

Run this nation once more by hard work — and for those Americans with self-respect, not for whiners — and we'd sweep that scornful "second class" sneer and all excuses for it down that rat hole where it belongs.

WHAT IS A CONSERVATIVE?

Harry T. Everingham, National Exec. V. Pres. of "We, The People," gives his definition in the form of the pledge of an American Conservative. It was printed in "The American Statesman" as follows:

To conserve for our children and coming generations, the same personal freedom and opportunity for progress and prosperity that our fathers secured for us — our American Heritage.

To conserve our Constitution — government by law — with its original checks and balances, to limit the power of all public servants.

To save our competitive free enterprise system which made our nation great and our people prosperous.

To preserve national independence, private prosperity, to encourage individual liberty for personal growth and fulfillment for all.

To select and elect conservatives to office who will uphold the Constitution and resist forces seeking to seize our property, our security and our sovereignty.

To save self-government, self-reliance and self-advancement, to restore self-respect, human dignity and worth, through freedom under God.

To protect our American Heritage from the Welfare State, "the planned economy," Socialism and World Government which would eventually place us under a Communist dictatorship.

REMEMBER FLAG DAY, JUNE 14

IT'S A HISTORICAL FACT!

The first flag of the United States originated 184 years ago in the Second Continental Congress, — 11 days after it was requested by an Indian as an emblem of protection for his chiefs!

A radio station phoned 1,000 men asking to whom they were listening. Eighty per cent said their wives.

Pity the poor clergyman who bought a used car and didn't have the vocabulary to run it.

BUCKET SEATS ALONE DO NOT A MONZA MAKE

■ Gee! ■ Little did we know, when we introduced the Corvair Monza last year, that we were starting a Big Thing. We just thought it would be pleasant if you could buy a car that treats you, the driver, like you want to be treated. ■ The bucket seats, of course, are the most obvious evidence of our desire to please you. But they're not the most important thing. No sir. What's really vital is the way a Monza handles—something nobody in the U.S. has yet copied. Or can copy. Because Corvair is the only rear-engine car made in this country, and you know what that means: steering light as thisledown. (You even park this one more easily, it steers so briskly.) Beautifully balanced braking—the car stays level even under panic braking, which we hope you'll never have to do. Traction and more traction, so you don't become a stick-in-the-mud. The kind of cornering that's sheer joy to experience. ■ You get more: a fully independent suspension that blots out road shocks before they can ruffle you. Clean, crisp styling. Thoroughgoing economy, from purchase price to operating cost. ■ You're not going to be satisfied with bucket seats alone, are you?

At Birthday Party For Granddaughter

Sixth birthday of Rebecca Howell, daughter of Mr. and Mrs. Bobby Howell of Fort Worth, took her grandmother, Mrs. Tony Gremminger to that city for the birthday dinner Sunday.

Going with Mrs. Gremminger was another granddaughter, Glenda Pagel, who attended her cousin's birthday celebration, and Mrs. M. J. Endres who was the guest of her brother and sister-in-law, Mr. and Mrs. Bert Fisch. The trio from here spent Saturday and Sunday in Fort Worth.

Rebecca's dinner party featured the traditional birthday highlights including gifts, picture taking and a decorated cake. Her sister, Stephanie, also came in for her share of attention from her grandmother.

Local News BRIEFS

Miss Marye Weinzapfel spent the weekend in Dallas with former teachers and girl friends at the University of Dallas and attended the school's commencement exercises Sunday afternoon.

Miss Dyann Hellman has a summer job in Wichita Falls. She's a life guard at Holliday Inn swim pool. Her sister, Mrs. C. J. Newman also is employed at the Inn, doing clerical work, and Dyann lives with the Newman family.

Weekend visitors with Mr. and Mrs. J. W. Fletcher were their daughter and son-in-law, Mr. and Mrs. Wm. M. Terrell and children Toni and Terry of Lubbock, accompanied by a friend Howard Axtell of that city. They were here Friday evening to Sunday morning, then went to Denton to see her brother Jack Fletcher and family and from there to Decatur to visit her parents.

Mr. and Mrs. Mike Newbill have had a short vacation here with her parents, the John Wierlers, following his graduation from North Texas State College. From here the couple went to Jacksonville Beach, Florida, to make their home. He has a job there.

Reporting a fine time in Nebraska is Nick Yosten who had a week with his brother, Matt Yosten in Schuyler, also visited nieces and nephews there and in West Point and Snyder. He made the trip with the group that went to West Point for the jubilee celebrations of Sister Ruperta and returned with Larry Yosten and son Matt Saturday night. The others from here, Mrs. Bob Yosten, Joe Swirczynski and Ruth Yosten, went on to Colorado Springs, Colo., with Sister Ruperta and Sister Angeline for more ceremonies at the nuns' motherhouse. Mrs. Joe Swirczynski has joined them at Colorado Springs. She and her husband will have an extended visit with their children there.

Tony Otto Family Reunion Attended By 60 Relatives

Annual reunion of the Tony Otto family was held Sunday with six of Mr. and Mrs. Otto's seven children and their families present including 30 grandchildren and six great-grandchildren for a total of about 60 at the all day gathering.

The reunion started in the City Park with a picnic dinner and ended at the J. P. Flusche home with supper. The high wind and sprinkles moved the family group indoors.

Coming from out of town for the event were Mr. and Mrs. Dave Flusche of Lubbock, Miss Betty Ann Hoenig of Wichita Falls, the Tommy Ottos and the Alvin Noggiers and their children and Ben Otto of Gainesville and Mr. and Mrs. Julius Hermes and children of Lindsay.

Present from here were Mr. and Mrs. Tony Otto and Messrs. and Mmes. John, Earle and Ray Otto and their families, Messrs. and Mmes. Tony Hoenig, J. P. Flusche, Don Flusche and Bill Martin and their families. Only Mr. and Mrs. Sidney Otto were missing. He couldn't leave his oil field work in Duncan, Okla.

Mr. and Mrs. Dave Flusche spent the weekend with his parents. He has finished the regular term at Texas Tech and has started back to summer school. Visiting them in the J. P. Flusche home Saturday were her grandparents, Mr. and Mrs. J. R. Witman of Garland.

It's a touch job teaching children manners. Still, it's less painful than setting good examples.

Auxiliary Group Will Be Hostesses During X-Ray Day

Arrangements for serving as hostesses when the Mobile X-ray unit visits Muenster Friday afternoon and Saturday morning occupied a part of the business session of the local VFW Auxiliary at their June meeting Monday night. Members lined up as volunteers to be on duty Friday afternoon 2 to 6 o'clock and Saturday morning 9 to 12.

Other business consisted of reports. Mrs. Charlie Pagel advised that Buddy Poppy collections in the annual drive total \$120.00. The Memorial services were reviewed and a report given on the social evening which featured a barbecue chicken supper catered by Rohmer's Restaurant.

Dates for the state convention were announced. It will be held in San Antonio June 29, 30 and July 1. Members of both the Auxiliary and the VFW Post are planning to attend.

June CDA Meeting Postponed 1 Week

Members of the local court Catholic Daughters of America have been advised that their June meeting has been postponed one week. The reset date is June 16.

Polansky of Dallas, district deputy, whose first open date is June 16. She will be busy this weekend arranging details in connection with the Diocesan Leadership Institute for CDA courts in Dallas Sunday.

Tips From Your Hatchery Phone 63

Seems each year our plant life has a new enemy. This year it is mildew, not that mildew fungi is new, but this year it has invaded new fields such as crepe myrtle, leaf shrubs and many others.

But plant life has a new ally... Upjohn folks who make medical supplies have come out with a new product for mildew fungi. It's called Acti-dione... works best applied in hot sunshine... needs a repeat treatment to insure cure.

Troubled with brown spots in your lawn? The Ortho folks have a lawn disease control that really works. You can apply it with your hand Ortho hose spray which I hope you will buy from us.

The United States Soil Corp. of Dallas is making a new lawn fertilizer especially for north Texas lawns. It isn't a nitrogen fertilizer but conditions your lawn so that less nitrogen is needed. And it de-chiggers as it fertilizes.

Want to make folks think you are a real "green thumb" gardener? Then get an Ortho Leaf Polish Bomb. These really pretty-up drab plants. We appreciate your business. — Clive

Rules to Follow When Involved In Auto Accident

Vacation time is near. Soon millions of people will be driving about the country, and automobile accidents will occur with increasing frequency. What should a person do when involved in an accident?

At such times it is hard to keep your wits about you and know just what to do. It is therefore a good idea to plan in advance just what you would do in event of a smash-up. Here are a few simple rules that every driver should commit to memory:

1. STOP! Failure to stop can result in serious criminal consequences.
2. RENDER AID. If anyone is injured: (1) Render first aid. (2) Stop bleeding. (3) Call a doctor or an ambulance or both. (4) Do not move an injured person in any way that could possibly add to his injury.
3. PROTECT THE SCENE FROM FURTHER DAMAGE. You may be liable for damages to approaching drivers, unless they are properly warned. If the highway is obstructed at night, have someone turn his headlight beams on the wrecked vehicles.
4. CALL AN OFFICER. Policemen, Highway Patrolmen, Sheriffs and their deputies are trained accident investigators whose testimony may be invaluable in establishing your civil claim for damages.
5. GATHER INFORMATION... WRITE IT DOWN. Don't trust your memory. Don't guess — be specific. Measure skid marks. Step off distances. Be sure to obtain names and addresses of witnesses. You are required by law to exhibit your driver's license to the other driver — and he must do the same.
6. BE CAREFUL WHAT YOU SAY. Even if you feel you probably are to blame, it is best to make no admission. You may learn later that the other driver was equally at fault, or more so. Emotional comments can be misconstrued by others, or may be misquoted. Whatever you say, make it factual.
7. SEE YOUR DOCTOR if there is the slightest chance you may be injured. Serious injuries do not always result in immediate pain or bloodshed.
8. CONSULT YOUR LAWYER immediately. The sooner your lawyer is brought into the matter, the better he can advise you and protect your rights. He can obtain statements from the witnesses while their memories are

fresh, and do many other things to insure that the true facts are preserved. Get your lawyer's advice before giving any interviews or statements to investigators or adjusters for the other side.

9. INFORM YOUR INSURANCE COMPANY PROMPTLY. Failure to do so may void your policy.

10. REPORT THE ACCIDENT to the Department of Public Safety. This is required by law if there is any injury, death, or total damages exceed \$25.00.

An official accident report form may be procured from the Police, Sheriff's Dept., Highway Patrol, or State Dept. of Public Safety.

State 4-H Honor To Claude Jones

College Station, . . . Claude Jones, Gainesville banker and widely known 4-H booster, was among 11 individuals honored here Tuesday by the Texas 4-H Recognition Committee. They were presented plaques during the first general assembly of the annual Texas 4-H Roundup, attended this year by some 2,000 boys and girls, their leaders and friends from every section of the state.

Mr. Jones has actively supported 4-H Club work in Cooke county for some 30 years. He has given freely of his time, talents and finances to further the county's Extension Service programs with 4-H drawing his special attention. Leadership development has been a favorite.

During recent years, his contributions to district and state programs have increased and presently he represents his district on the Texas 4-H Recognition Committee. His contributions to this group have helped make possible the programs sponsored on a statewide basis.

Mr. Jones was presented a burnished copper plaque set in walnut by President Earl Rudder, Texas A&M College. President Rudder complimented Mr. Jones on his unselfish support of Extension activities and especially for his many contributions to 4-H Club work. The plaque signifies that the honoree is now an honorary 4-H member.

We should all do something every day to make other people happy — even if it's only to let them alone.

Construction of the 41,000 mile Interstate Highway System will be the largest construction project ever undertaken.

Texas now has a total of more than 60,000 miles of highways — enough to stretch around the world twice at its equator.

The chips are down. The time has come for him to spell out the details of that key statement in his inaugural address: "Ask not what your country can do for you. Ask what you can do for your country." Given a worthy and honorable objective, the nation is ready, as so often before, to make the necessary sacrifices. Also, it's time for us to pray that he and those who help with his decisions will have the benefit of Divine guidance.
