A proposed new law to catch a lot of Texas tax dodgers is the one to raise registration fees on cars and trucks and drop the property tax assessment on them. That should have been done years ago. In most places a person with only a car listed as personal property can ignore his ad valorem tax bill and get away with it. But the person paying tax on real estate is stuck. If he fails to pay the tax it is charged to his property. Eventually he has to pay to clear his property title, otherwise lose the property.

As the present law is enforced, it seems that many counties and cities are inexcusably negligent. If officers were sent out to collect either taxes (plus costs) or cars, we can be sure few owners would neglect their obligation.

We hope the legislature will approve the idea, and that Texas voters will approve the amendment. To our way of thinking, its fairer as well as more efficient to combine registration fee and ad valorem tax. It gets all the tax on a car in one transaction and, equally important, it gets the tax dodger.

Reports getting around say that lots of Liberal Democrats will go fishing on the day of the Senatorial election. They may as well. Fortunately, for the welfare of Texas, this is one election in which they will have no influence. This time we have a cinch to get some good conservative representation in Washington. Blakley and Tower are both okay. It's a pity they can't both be elected.

Concerning our relations with other countries, how about those two press releases from New Delhi on April 21? One says Prime Minister Nehru deplored US "intervention" in Cuba and charged that this nation had fostered, armed and encouraged the anti-Castro invaders. The other report said, that a senior Indian finance minister had left for Washington with orders to seek \$638 million in foreign aid from us. It's hard to find words to describe such a combination of attitudes. They insult in one statement, ask for help in the next.

In the first place we're tired of being taken for granted as the world's Santa Claus. And we're even more tired of the so-called neutrals parroting the communist propaganda. By what twisted reason do they blabber that Moscow intervention line when the facts clearly show that red intervention caused the mess? ... and long before we became involved.

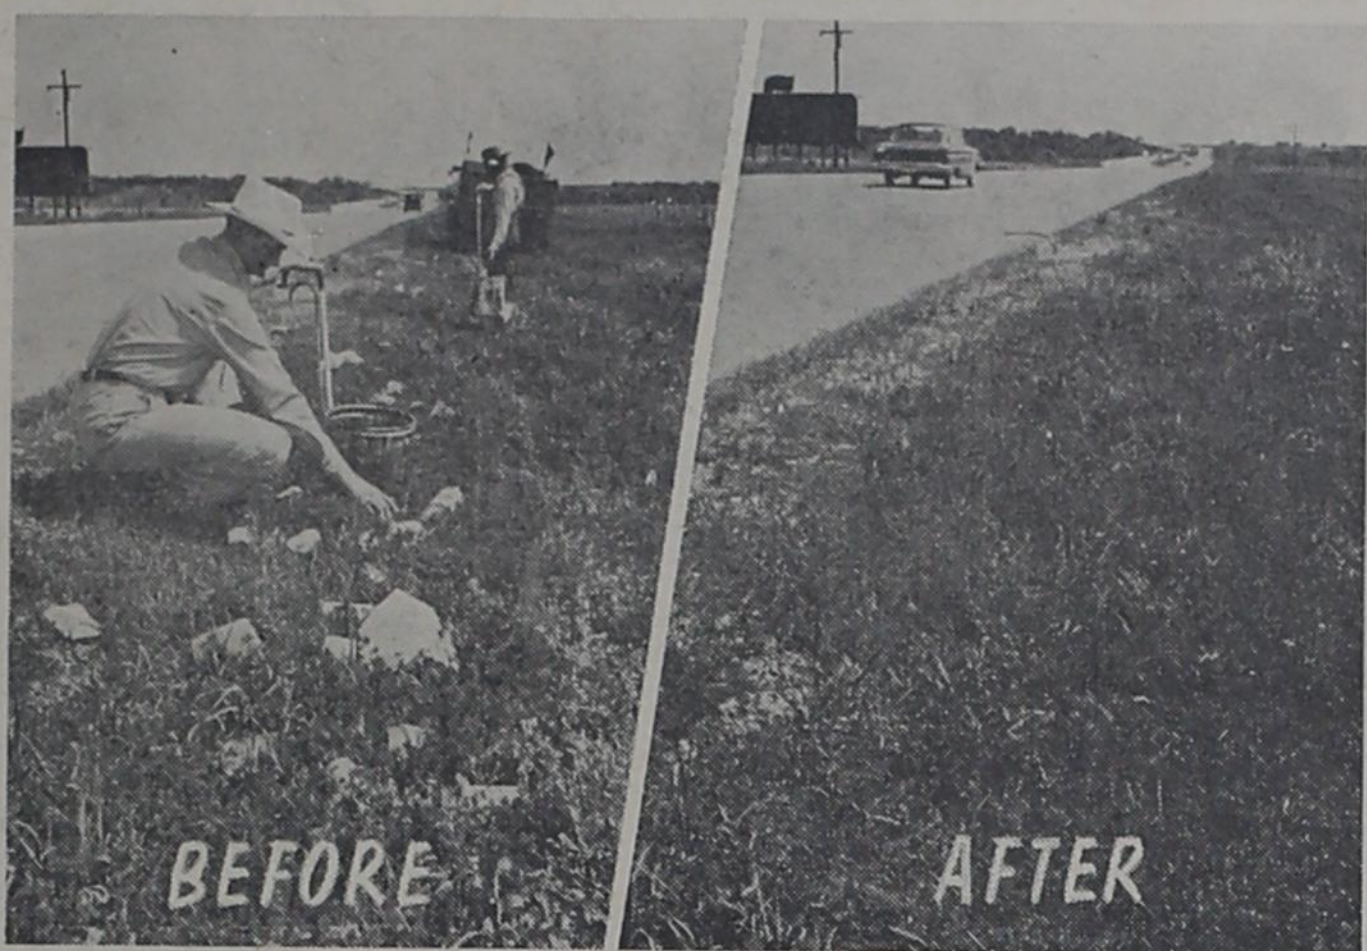

That's the frightening thing in the current world conflict. Countries like India, who see their neighbors being taken over by the reds, and who live in constant fear of being taken also, lack the understanding or the principle to present such affairs in their proper perspective. It's happening all over. No wonder Khrushchev is gloating. The signs show that his goal of world domination is approaching faster than even he had anticipated.

We hope that our national leaders can see the signs as plainly as the commies do. Maybe then they'll quit piddling and get down to the serious business that lies ahead. The situation is most urgent. It calls for drastic action. We've got to realize that freedom and human dignity are being relentlessly pushed back and their chances of survival are getting slimmer every day.

It's gratifying lately to hear President Kennedy say that the reds will be driven out of Cuba. We hope that day is near. But we must realize also that Cuba isn't the only place that needs liberating. Lots of other freedom fighters all over the world need help. Our job, if we are to succeed in the end, is to adopt the method the reds have used these many years. We've got to take the initiative. We've got to see that freedom's retreat is stopped and the red menace starts losing. How to do it is an enormous problem, and we hope our leaders are equal to it. They must find the way. If they don't our children will be living in slavery.

An inspiring program at the soil conservation awards banquet Tuesday night was the Lampasas FFA chapter's presentation, "Let Freedom Ring", which has been earning praises from patriotic organizations.

Litter tossed on Texas highways and roadsides has to be hand-picked. No machine can do this chore. Last year the clean-up and mowing bill for 57,500 maintained miles of Texas highways totaled more than \$7,000,000.

Flower Show Is Cancelled; Little Left for Showing

Muenster Civic League and Garden Club's annual spring flower show, scheduled for Saturday, has been cancelled ... because of the scarcity of flowers that are worth showing.

Mrs. Ben Luke, general chairman made the announcement Wednesday after talking over the situation with Mrs. L. B. Bruns, club president, and members of the flower show committee.

Pavement Project Will Start Soon

Muenster's 1961 paving project is due to begin very soon, possibly by the end of this week, according to information given at the city council meeting Monday night. Work will be done by H. M. Scott and Son of Denison.

Several separate jobs will be included in the complete project. The biggest is 6 blocks curb to curb on Walnut from the highway to Sixth. Another block of new pavement is on Fifth between Walnut and Pecan.

Other jobs will renovate existing pavement. Pecan from the highway to Sixth will have broken edges repaired to the original width then all will receive an additional one course surface of asphalt and crushed rock. Similar treatment is planned for three blocks of South Hickory.

Seventh Street in front of the public school will have a 12 foot strip at each side torn up and the base reshaped and re-packed. Next comes a 1 course surface on the two side strips, then another course for the entire width.

On Fourth pavement will be widened to tie with curbs built by Earl Fisher and Joe Horn.

Mrs. Dick Cain is a shut-in since Wednesday when she sprained her left ankle making a misstep at home.

Mrs. Gussie Lutkenhaus was admitted to Gainesville Sanitarium Friday to be hospitalized about a week.

Mrs. W. R. Linn is back at home, dismissed from Gainesville Sanitarium, after medical care.

Now's the Time to Transfer Students

Transfers of school children from one district to another are due this month, Superintendent L. B. Bruns announced this week.

Parents who wish to transfer students are reminded that he has a supply of application blanks and is ready to help with the detail work. All are urged to see him soon and avoid being crowded by the May 31 deadline.

SH Parish Gathers May 1 for Rite to Crown Mary Queen

Five hundred children marched in procession here Monday night in the annual May Day ceremonies climaxing the service with the coronation of Mary as Queen of May.

To Karen Endres, president of the parish Catholic Youth Council, went the honor of placing a crown of rosebuds on the statue of the Blessed Mother. Senior girls were maids of honor carrying long-stemmed gladiolas which they placed at either side of Mary's shrine centered in a bower of red rambling roses. Tiny Angels in the procession were Nancy Endres and Suzanne Huchton.

The outdoor march started at school. In the colorful line-up were high school girls in pastel formals, first grade girls in white dresses carrying long-stemmed pink carnations, Boy Scouts in uniform, acolytes in their red and white robes and all the other school children.

Heading the procession was the cross bearer and flag and banner bearers with the United States flag, the Papal flag, the Blessed Mother banner and the Texas flag. High school boys carried the statue of the Madonna, encircled with roses, on a float and placed it in the improvised shrine at the center of the communion railing.

Assembled parishioners joined in an act of consecration and hymns and Father Alcuin Kubis delivered the sermon. Benediction of the Blessed Sacrament preceded by the Litany of Loretto concluded the services.

Glenn Hellman Is New CPA Prexy

The Community Progress Association in its meeting Wednesday night of last week elected Glenn Hellman as president for the coming year.

Other officers serving with him are Donald Flusche, vice-president; Mrs. Louis Roberg, secretary; and Joe Mosier, treasurer.

Principal project of the club at this time is to work with the city firemen in financing a two way radio in the rural fire truck. Addition of that unit could save precious time in cases when a second call comes in while the truck is away on duty.

As the organization ended its first year Steve Mosier gave a short summary of the record. Included were publication of a Muenster brochure, and help on three projects: getting the rural fire truck, organizing the youth center, and improving the city park.

From the Vincent Beckers of Silver Springs, Md., comes a report of the death of her father, Joseph Rocella, Tuesday in Washington D. C.

District Meet of Catholic League Held Here Sunday

Muenster was host for the spring district meeting of the Catholic State League of Texas Sunday and will be host again for the fall district meeting. Sacred Heart Parish volunteered and was promptly accepted.

A former Muenster pastor was the afternoon's principal speaker, the Rev. Cyril Lange of Windthorst bringing the keynote address. His subject was "Back to the Altar and Back to Faith in God." A fluent speaker, acclaimed for the simplicity of his sermons, Father Cyril got a rousing round of applause. He covered home life, behavior of parents and children, delinquency and related current topics.

Karen Endres, representing the local Youth Section, also delivered a well-received talk. In the annual election of officers Ernest Hoff of Windthorst was retained as president and Mrs. Andy Roewe of Windthorst was reelected secretary-treasurer. Al Hess of Muenster is the new Rural Life chairman succeeding Robert Wolf of Windthorst.

Another feature of the meeting was presentation of awards to district winners in the annual rural life essay contest. Receiving awards were Alvin Haacker of Muenster and Marilyn Berend of Windthorst, first in the senior division, and Ricky Endres and Norma Lutkenhaus in the junior division. Janice Vogel was listed as honorable mention. Ricky Endres read his prize-winning essay.

Among state officers present was Nick Block of Lindsay, state president. Parish societies read their annual reports and remarks came from representatives of the various sections: Men's, Women's, Youth and Insurance.

Entertainment was by Sacred Heart School students, boys and girls who won honors in the recent 4-H Share-the-Fun contests.

The meeting was held in Muenster High Auditorium. Benediction of the Blessed Sacrament was in Sacred Heart Church and a social hour with refreshments was in the Parish Hall.

4 MHS Students In State Literary And Track Finals

Four Muenster High students will be in Austin the coming weekend to compete in state finals of Interscholastic League Class B athletic and literary events.

Coach Bob Gay will leave here Thursday with three boys who have qualified as entries in the track meet. Larry Wimmer will be in the broad jump and the 180 yard hurdles. He was first in both events at the recent regional meet. Milton Fette will be in the 220 yard dash and Clyde Walterscheid will be in the discus throw. Fette was first and Walterscheid second in the regional.

Jo Ann Fisher, accompanied by her instructor, Mrs. Marie Mosman, will go to Austin Friday to enter the science contest of the literary meet. She was second at the regional meet.

Dryest April on Record Follows Wettest March

Official weather reports explain why people of this area have been anxiously waiting for rain. The past month, with only .26 inch, was the dryest on record here. Next dryest was .76 in 1956.

By an odd coincidence the dryest follows the wettest month. The 5.23 of March set a new high on the local record.

Total for the year through April was 9.73. Since then it has been raised to 10.15. Sunday night's blustery weather, which reached storm intensity at Denton, spilled .42 inch in the city. Going south the rain got heavier, measuring about 3 inches at Rosston. North the rain was lighter. Practically none fell in spots near Red River.

Crop prospects at this time are fine for wheat but rapidly getting bad for practically everything else. Wheat seems amply supplied to pull through for an abundant yield. Oats is fine at this time and can develop into a record breaker if it gets more rain soon. Otherwise just a fair yield seems likely.

Spring plantings, such as corn, sorghums, etc., are hurting. They need a good soaker soon. Pastures, too, are showing the need of rain.

200 Children Get Tuberculin Tests

About 150 children from Grades 1, 7 and 12 of the two Muenster schools participated Tuesday in the current county wide program to check for tuberculosis among school children. All received the standard tuberculin skin tests under supervision of Dr. Kenneth Dobbs. Afterward some 50 more from other grades volunteered for tests to use up the remaining testing liquid.

A check of the tests is scheduled for Friday. Positive reactors, if any will then receive X-Rays as follow-up tests.

Assisting Dr. Dobbs Tuesday were Mmes. Joe Nichols, Rankin Hardy, Dick Trachta, and Paul Harvey. They will also assist in the checkup.

Letter Confirms Aim to Continue Hospital Project

The results of the Cooke County hospital bond election have been determined. Rumors exist that plans are in the making to circulate petitions requesting another bond election for the county.

A question prevails; Will Muenster actually build their Hospital? It is necessary to inform the people of Cooke County that the Muenster Hospital Authority, will proceed with their plans and will never relax in the normal activity to accomplish the final goal, in due time. The architects are preparing the program for the project, also the plans and specifications are developing to make formal application, for approval by the State Department.

By the time our formal application will be ready to present to the State Department of Health, we will have acquired the necessary subscriptions, and will have our finances in order to achieve the final goal.

We are convinced there is a definite need for the hospital. We have the administrative personnel, the site, Hill Burton grant and subscriptions to provide the necessary facilities for the Eastern half of Montague County and the Western half of Cooke County.

The voters in Cooke County have shown their objection to a plan of taxation as a double burden. There is a trend of thought developing, especially in the rural areas, that some people in Gainesville do not realize, how much business Gainesville enjoys from the rural area. The imposition of a tax liability would be proof of the lack of appreciation for such business. This loss of good-will would certainly affect future favorable business relations.

These remarks are made to confirm our plans for the hospital project in Muenster. We have the assurance of prominent physicians and surgeons now in the area and others planning to come to Muenster and neighboring cities and towns to sufficiently staff our hospital.

The many compliments, loyalty expressed, The State Department of Health approval of the grant, the administrative personnel and subscriptions made, give us confidence and assurance for success.

J. M. Weinzapfel, President, Muenster Hospital Authority

Boy Scouts Learn Winners in Bird House Building

Muenster Boy Scouts, at their meeting this week, learned the winners in the recent bird house building contest. There were 20 entries. First prize went to Robert Miller, second to Dwayne Pagel and third to Willie Wimmer. They receive cash awards of \$2.50, \$1.50 and \$1.00, respectively. Competition was tight, said Judges Wilfred Bindel and Anthony Klement.

As a treat for the boys who made bird houses, Scoutmaster Nick Miller has arranged bowling for Sunday at Gainesville's 77 Bowl, one o'clock.

In other activity at Monday night's meeting the troop enjoyed a round table discussion on Nature Study. It included birds, poisonous snakes and fish.

Announcement was made that the Fish-o-Ree for Scouts and dads has been re-set for Saturday, May 20.

Banquet Honors Champ Farmers Of Soil District

Conservation champions of 1960 in the Upper Elm-Red Soil Conservation District were honored Tuesday night at Nocona in the twelfth annual awards banquet sponsored by banks, newspapers and radio stations of the area.

Receiving silver trays as winners of the five zones were L. B. Clement of Sunset, Leo Newland of Bonita, Martin Trubenbach of Muenster, Ed Hacker of Valley View and R. J. Block of Gunter. Block was also named outstanding farmer of the district.

Kenneth Rivoire of Gainesville was selected for the best job of reclaiming a worn out farm. Joe Cobler of Whitesboro and George Light of Collinsville made up the outstanding landlord-tenant conservation team. Each of the three received a hand carved wooden plaque as his award.

Special recognition also went to Tony Walterscheid and Claude Jones. As last year's selection for outstanding supervisor, Walterscheid received a certificate from Texas Bank and Trust Co. of Dallas along with a brochure reviewing his long service to conservation. Jones received a brochure of letters from dozens of friends and conservation leaders in recognition of his conservation efforts. He has been general chairman of the awards program since its beginning and at this time has the distinction of being one of the state's three honorary conservation supervisors.

About 600 persons attended and were served as they arrived. W. J. Stone of Nocona opened the program with his city's welcome and Rev. W. D. Craig of Nocona gave the invocation. Gene Foster, vocational agriculture teacher of Whitesboro then took over as master of ceremonies. As each award winner was named colored pictures of his work were flashed on the screen while Earl Sargent of Radio Station KWFT narrated.

Among special guests introduced at the program were Paul Walsler, former state conservationist, and Clyde Wells, former district conservationist. Both were present at the meeting originating the awards program twelve years ago.

An added attraction for the banquet this year was the presentation of "Let Freedom Ring" by the Lampasas FFA chapter. It consists of a declamation accompanied by scenes symbolizing belief in God, importance of the individual, dignity of work and private ownership of property as principles upon which Americanism is founded.

Beginning with the Pilgrims' search for religious and personal liberty, the message relates the story of America's struggle for freedom and then presents the four principles as the basis of this country's personal freedom and dignity. Frequent references to communism point out how it clashes with the nature of man and the law of God, and results in a life of fear and slavery.

Two Advance in Junior Olympics

Two Muenster youngsters, Milton Fette and Clyde Walterscheid scored in the junior olympics district track meet in Gainesville Tuesday and qualified to enter the regional meet in Fort Worth on May 13. Both competed in the 16-17 age bracket. Walterscheid was first in discus with a heave of 130 feet.

Fette was first in the broad jump with 20 feet, first in the 440 yard dash with 52.2 seconds, and second in the 220 yard-dash. Both boys will be eligible for those events at Cowtown. Fette also placed fourth in the 100 yard dash, but that was not good enough to qualify him.

Another MHS lad scored in the 14-15 age bracket. Wayne Doughty leaped 17 ft. 2 in. for fourth in the broad jump.

ANYBODY LISTENING?
 While our legislators in Austin were busy hunting ways to finance our state government, the House Ways and Means Committee in

Congress last week adopted a policy that will cost Texans about \$38 million a year if congressmen approve it when it comes up for a floor vote. The tax committee decided that the "temporary" 1c a gallon federal gasoline tax, which was supposed to end July 1, would be extended to pay for the federal highway construction program. Meanwhile, the committee decided to continue diverting millions of dollars in other taxes paid

FAT FOR SLAUGHTER

A growing realization is rapidly developing in this country that all is not well. Many of us have the feeling that we are being fattened for the slaughter! While we are standing in the middle of the road, wondering which way to go, the communists are on the march. They set their time table many years ago, and are going ahead on schedule.

Back in the days when communism was beginning to take hold in Russia, Lenin told his followers that the first step would be to take all of Eastern Europe. That phase of the conquest has been completed. Eastern Europe is now fully under the communist yoke. Asia was next on Lenin's schedule. That part of the schedule has been completed with success. Today almost all of Asia is under communism. "Then we will encircle the United States, which will be the last bastion of capitalism," Lenin said. "We will not have to attack. It will fall like an overripe fruit into our hands."

The first step in this part has been taken. Cuba became the stepping stone. The second step was the fall of San-Salvador only a few days ago into communist hands. Other nations in Central and Latin America are weakening. There have been riots in Venezuela, and Castro's stock in Brazil is going up.

One of the most advanced countries in Latin America, Argentina, is ripening for the communists. They have already won the first phase in this battle of ideology for that country by driving out Christianity.

Argentina has many churches, but few churchgoers. It has developed the greatest percentage of atheists outside of the Iron Curtain. Argentina is supposed to be a Catholic country, but last year only six priests were ordained in the entire nation, and even fewer Protestant ministers.

Other Latin American countries, including Brazil, have become equally indifferent to Christianity. The communists have done their job well in this country, and have succeeded in clearing the road of one of the greatest obstacles before moving in and taking over.

A little more that a year ago Krushchev said that the children of present day Americans would live under communism. A little later a prominent communist, who visited in this country, a man named Kozlov, had this to say:

"My trip to America has only confirmed what I thought of this country before I arrived. I repeat the words of Mr. Krushchev who asserted that the children of present day Americans will live in a communist society." Many people in this country naturally wonder what we as

Although the terms "million" and "billion" seem commonplace today when speaking of public fund expenditures, they are astronomical in scope. Christ was born 20 centuries ago, but a million days have not yet passed since His birth. In fact, not until the year 2738 will a million days have been recorded since the birth of Christ. Right now only a little more than one billion minutes have passed since Christ was born. The indebtedness of the United States government now totals 290.5 billion dollars.

Capital punishment is when the government taxes you to get capital in order to go into business in competition with you, and then taxes the profits on your business in order to pay its losses.

Major crime in Texas increased 13.1 per cent in 1960 over 1959, led by hikes of some 25 per cent in robbery and burglary, according to the Texas Department of Public Safety. The total number of estimated offenses in 1960 was 57 per cent greater than the 1955 total. Those involving murder and homicide, rape, robbery, aggravated assault, theft and auto theft during 1960 totalled 198,956, or a rate of 2,157 per 100,000 population for an increase of 13.1 per cent over 1959.

Class Decides to See Texas First On Senior Trip

Münster High seniors and their chaperones returned Sunday from a six-day class trip reporting a great time. Deciding to see Texas first, they changed their plans about going to New Orleans and spent their time in Austin, San Antonio, Galveston and Houston and came home through the Piney Woods.

Major spots of interest were visited at each place, they went swimming every day, and had an exciting time being in the middle of the riot at Galveston, though not a part of it.

At Austin the highlight was the state capital. In San Antonio time was spent at Whitt Museum, educational tours, Brackenridge Park and Zoo, Sunken Gardens, the Alamo, Long Horn Museum and San Jose Mission.

The Pacific Ocean and the beach were the prime spots at Galveston, where their motel was on the seawall. They rode the ferry, made an excursion on a pleasure boat and sight seeing tours.

—Boyd and Breeding Photo

The marriage of Miss Juanita Wieler and First Lieutenant John M. Broome was solemnized here Saturday, April 29, at 5:30 p.m. in Sacred Heart Church with the Rev. Alcuin Kubis reading the double ring ceremony.

The bride is the daughter of Mr. and Mrs. John J. Wieler and the groom is the son of Mr. and Mrs. Paul W. Broome of Hopkinsville, Ky.

It was an all-white wedding with touches of lavender. The bride's lovely gown of Chantilly lace was designed with a Sabrina neckline embroidered with iridescent sequins and long fitted sleeves. The aisle-wide skirt was accented at the back with tiers of ruffles simulating a bustle and swept into a chapel train. A pearl tiara held her waist-length veil and she carried a cascade of white fuji mums. Her father presented her in marriage.

Bride's attendants were her sister, Mrs. Mike Newbill, matron of honor, and her aunt, Mrs. J. C. Trachta, bridesmatron. Their dresses, identically fashioned, were of silk organza, street length with bouffant skirts. They wore open-crowned picture hats ornamented with a cluster of lavender flowers and carried lavender fuji mums in a cascade.

The groom was attended by his father as best man and the bride's cousin, Burt Hamric, as groomsman. Mike Newbill ushered.

White gladiolas, greenery and candles adorned the altar and Donald Rohmer and Daniel Hoening were candle lighters.

Nuptial music was by Anthony Luke, organist, and Mrs. Norbert Walterscheid, vocalist. She sang "On This Day" before the service and "Mother at Your Feet" afterwards as the bride placed white gladiolas on the Blessed Virgin's Altar.

For her daughter's wedding Mrs. Wieler wore a blue lace dress with matching accessories and Mrs. Broome, mother of the groom, wore dusty rose lace with beige accessories.

The wedding reception and buffet were held in the public school dining room where guests were registered by Miss Linda Davis of Decatur.

When the newlyweds left on their honeymoon trip Mrs. Broome was wearing a beige silk shantung sheath and

black patent accessories. They will live at Fort Knox, Ky., where he is on duty with the army.

Money Order and Special Delivery Rates are Upped

Proposed increases in money order and special delivery fees starting July 1, 1961, were announced today by Postmaster General J. Edward Day.

No changes in special delivery fees for first class mail are planned.

Special delivery fees for second, third and fourth class matter will be increased by 10c in each of the non-first class fee brackets as follows:

CURRENT FEES	
1st class other	
Up to 2 pounds	30c 45c
Over 2 to 10 pounds	45c 55c
Over 10 pounds	60c 70c

PROPOSED FEES	
1st class other	
Up to 2 pounds	30c 55c
Over 2 to 10 pounds	45c 65c
Over 10 pounds	60c 80c

The increases for this service are expected to yield about \$2.5 million in additional postal revenues, based on current special delivery volume.

Money orders up to \$5 and over \$50 will be increased by 5 cents. The new money order schedule will combine the present 15-cent and 20-cent fee brackets into one at 20 cents. It also splits the present 30-cent bracket at the \$50 level, raising to 35 cents the fee for denominations up to \$100. These changes will affect over 100 million money order transactions. Based on this volume, new revenues would total about \$5 million.

PRESENT SCHEDULE	
Money Order Value	Fee
\$0.01 to \$5	15c
\$5.01 to \$10	20c
\$10.01 to \$100	30c

NEW SCHEDULE	
Money Order Value	Fee
\$0.01 to \$10	20c
\$10.01 to \$50	30c
\$50.01 to \$100	35c

These proposed changes can be put into effect by Postmaster General Day under his existing administrative authority. Similar action was taken recently to adjust postal rates for mail going to foreign countries.

These actions are part of the Post Office Department's program to place the Postal Service in a more favorable fiscal position, in accordance with the Postal Policy Act of 1958.

The Postmaster General is also requesting the Congress to take legislative action with regard to first, second and third class mail to eliminate the revenue deficiency gap of \$741 million.

Farm Facts

The toil worn farmer striving mightily to eke out a bare existence on a heavily mortgaged plot of worn out land while a grasping money lender gloats gleefully has provided a plot for more than one fanciful novelist. The novelist today, however, would have a hard time proving his point.

The Balance Sheet of Agriculture, 1960, published by the U. S. Department of Agriculture, explains that the rate of voluntary and distress transfers in the year ended March 1, 1960, remained low despite the continued decline in numbers of farms.

"Although many farm liquidation sales have occurred, rising market prices and the strong demand for land have enabled owners to recover their original equities and often to realize capital appreciation.

"The rate of voluntary sales in 1959-60—at 30.7 farms per 1,000—was 2% below that of the previous year and near a record low."

Farm mortgage debt was lowest since 1939-40. Farm foreclosures and distress transfers in 1959-60 totaled about 6,500—100 less than in the previous year and near a record low. Farm mortgage debt was about \$12.3 billion. Value of farm real estate totaled \$129.1 billion, and of all assets—\$203.6 billion.

Farm-mortgage debt is less than 10% of the value of farm real estate.

Seventh Inning Rally Wins 7-6 For Tiger Crew

Still making up for the season's poor start, Sacred Heart Tigers snatched a game out of the fire last Thursday with a thrilling last inning rally. They edged Callisburg 7-6 after going into the lower half of the seventh with a 6-4 deficit.

Sacred Heart made the most of its opportunity as the visiting hurler lost his steam and two replacements failed to do better. Two runs tied the score and Jerome Fuhrman's single with bases loaded ended the game.

Starting the contest Sacred Heart took a 4-3 first inning lead and fell behind as Callisburg scored 2 in the second. The Wildcats' extra run in the sixth seemed to settle matters but then came the big inning.

Wolf pitched all the way giving up 4 hits while walk-four and fanning 7. Fuhrman got two of the Tigers' five hits.

Charlotte Wolf Is Third in District

Charlotte Wolf learned Wednesday that she placed third in the district dairy foods contest for 4-H girls in Denton. As such she is the alternate to attend the Roundup at A&M College this summer.

Mrs. Evelyn Yeatts, assistant home demonstration agent, revealed Charlotte's standing after receiving that information from the board of judges.

The Denton Experiment Station is part of Texas A&M College's vast research network consisting of 20 substations, 9 field laboratories and 15 cooperating units of other agencies, in addition to the main experiment station at College Station.

TP&L Organizes Division to Help Rural Programs

A rural development division has been organized within Texas Power & Light Company to help increase farm income in the area served by the company, W. W. Lynch, president of Texas Power & Light Company reported.

The division will work closely with agricultural committees of chambers of commerce, county extension agents and other groups which include business and agricultural leaders in the 52-county TP&L service area.

Long range planning calls for the new division to assist rural communities and to continue to help farm communities to organize their efforts toward a program that will improve local living conditions and add to community income, Lynch said.

George McKinney, formerly TP&L's Central Division supervisor of farm service, has been named a rural development specialist in the new division and he will help organize programs on soil fertility, beef cattle improvement and dairy improvement. The new division will be a part of TP&L's agricultural development department headed by Homer Gibbs.

Texas Power & Light Company and 11 other investor-owned electric utility companies in Texas are co-sponsoring yearly with the Texas Agricultural Extension Service a Community Development Program. Awards in the program are given each year to rural communities showing the most progress in making farm and ranch life more desirable and satisfying, as well as more profitable and stable for farm families.

Lynch said the newly organized TP&L rural development program will supplement work already done by the Company on the Community Development Program. "The new program will be designed to produce monetary returns for the farmers," he said.

"Technical assistance will be given agricultural committees,

Father Cyril to Mark Jubilee in Nazareth May 11

Father Cyril Lange, pastor of St. Mary's Parish in Windthorst and former assistant in Sacred Heart Parish here, will be twice honored this month on reaching a silver milestone in his priestly life. He will be observing the twenty-fifth anniversary of his ordination.

For a hometown boy, back after 25 years in the priesthood, Nazareth's Holy Family congregation will turn out en masse on Ascension Thursday, May 11, to help in the celebration.

The anniversary mass by Father Cyril will begin at 10 a.m. in Holy Family Church. Among those there to receive his blessing will be his two sisters and a cousin who are Benedictine nuns, four other sisters, two brothers, and clergy, relatives and friends from a wide area.

The social observance will include a family gathering with dinner at noon and an afternoon reception in which the entire community will join.

Father Cyril was born at Nazareth, a son of the late John and Louise Lange, sixth in a family of 12, attended grade school there and entered high school at Subiaco, Ark., in 1925. Four years later he was ready for the novitiate and on June 6, 1936, was ordained a Benedictine monk.

His parishioners of St. Mary's congregation will stage a repeat performance of the Nazareth celebration on May 30 doing him honor commemorating his quarter century in the priesthood.
