## State Deputy Meets With District K-C's

Five Councils Assemble Here Friday Night, Officers Installed By District Deputy

More than 100 Knights of Columbus from the Sixth District, comprising councils of Gainesville, Muenster Denison, Sherman and Pilot Point assembled at the Muenster K of C hall Friday night for a special district meeting with State Deputy F. J. Kinane and a group installation of officers of the five councils.

The state deputy, in his address to the meeting outlined a suggested program for the year and urged the members to greater efforts in their work against subversive activities as outlined by the supreme council. He stated that the work of the Knights of Columbus in the past has brought direct benefits to democracy and Christianity as well as to the Catholic church. Considering present conditions, he added, that work becomes more important than ever before.

The primary point is that the aims of all councils are identical-to instill a more profound feeling of Christianity and patriotism in a greater number of Catholic men. It makes little difference what kind of program is employed to achieve that end, Kinane stated, however the state council, aware of the difficulty councils have in originating successful programs, will be ready at all times to assist whenever called upon. He then outlined briefly some of the projects which had previously had the state council's consideration.

Herbert Meurer, district deputy presiding over the five councils, officiated at the ceremontal installing officers in their respective positions It was the first time officers in this district had participated jointly in

Others who spoke briefly were Fathers Deeney, McCullough, and Francis, chaplains of the Denison, Sherman and Muenster councils.

Father Deeney reminded the knights of the consolations offered by their faith and the liberties guar- farmer of Cooke county on problems anteed by their nation. you have a right to your viewpoint." "Unity" was Father Francis' subject. In these troubled times when Godlessness is seeking to undermine Christianity and civilization, he said. it becomes a duty to stick togetherto be united in living the kind of lives that thinking men should live, and in opposing any immoral or subversive tendency.

As chaplain of the host council Father Francis also expressed his appreciation to the state deputy and the many visiting knights for their appearance here.

After the business session the knights enjoyed refreshments and a

#### 34 MORE WPA MEN TRANSFERRED HERE FOR SEWER PROJECT

Progress on this city's WPA sewer project has practically doubled its pace during the past week. Thirtyfour additional men have been put on the job bringing the total number up to 76.

After completing their line in the southeast part of town the men are now working in the business section. Wednesday morning they started across Main street just south of Ben Sevler's. To avoid blocking traffic the line will be laid and covered to the middle of the street then completed the rest of the way across.

There is some hope that digging will soon become easier. Recalling how deep the bank had to dig to reach a solid foundation E. K. Whittaker, engineer, expects to find fairly easy work on the west side of Main. For the past several weeks the men have been having trouble

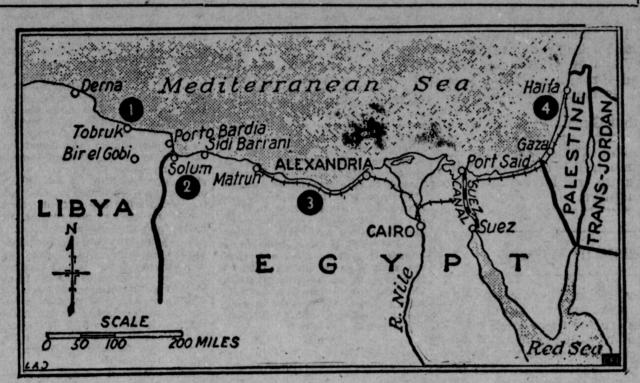

with rock formations and seepage. Excavation for the sewer disposal plant continues steadily.

will consider lease prospects. The leasing plan is submitted by Hutton and Mattson as a means o holding their equity in the plant rather than lose heavily through bankrupt proceedings. It is reported they have several clients who wis to lease the place.

#### Gainesville Offers **Escort For Muenster** Delegation To Fair

If Muenster people attending the Cooke county fair on Muenster day, Friday, August 23, will come to Gainesville in a group, a police pa-trol will be provided to meet them at the city limits and escort them to a specially reserved parking lot near the grounds, Cliff McMahon, manager of the Gainesville Chamber of Commerce stated this week. The escort is a courtesy offered by Gaines ville for all delegates to the fair.

At this time it is not definitely known how Muenster will respo to the invitation. In past years people have been in the habit of going when they found it convenient rather than forming a delegation. The uals' working hours here will probably determine, as formerly, when

City Councilman Andy Hofbauer was a guest speaker at the monthly meeting of the Civic League and Garden Club Friday afternoon. Speaking for the mayor and the council as a whole, he began by complimenting the women on their achievements, and then told them working along with the League and aiding them whenever possible.

He requested members of the club to meet with the city council when they have problems to discuss and work out, so that by cooperation more good may be accomplished.

He asked the women for any suggestions they might have in which the council could be of help, and was rewarded immediately by a spontaneous calling up of ideas which included among others, the mowing of weeds along Main street, in alleys and on vacant lots, the erection of a traffic light at the intersection at the church to be used on Sundays when traffic is especially heavy, and the disposal of gar-

#### Materials Arrive, Work Starts On New Bridge South of Town

WPA workmen under the direction of J. A. Sulling started work Wednesday on the new 80 foot bridge across Elm creek south of town. They began promptly after the last load of materials arrived.

The structure will be made entirely of creosoted timber and will be 22 feet wide providing generous space for two-way traffic. Sullins mentioned also that it will be especially strong to accommodate heavy oilfield loads.

He declined to estimate when the oridge can be open to traffic. "If we have good luck and no weather interruptions it will be ready in three weeks, otherwise it may require several weeks longer." One problem is to dig for piling base in the creek bed. There may be some delay in getting rid of all the water.

Following the completion of that bridge there will be little delay in was host to the same group at a completing the ten foot bridge across small branch. Thereafter a gravel surface on about 200 yards of road will complete the job. Practically all fill-in work has been finished.

During the six-day funfest, 40,000 persons are expected to visit the carnival midway, the agricultural and home demonstration exhibits, and the special features which are scheduled throughout the week.

The Bill H. Hames 35-railroad car carnival will be on the midway with 20 shows and 12 exciting rides, and the Gainesville Community circus will exhibit under its big top in all its mammoth entirety, Monday and Tuesday nights.

Bill Bonner's rip-roaring rodeo in which dozens of the toughest cow boys in the Southwest, and the wildest kind of Brahma steers and bucking brones, will participate, begins a three-day stand Thursday night.

One thousand dollars in prizes are expected to lure hundreds of exhibitors to show their wares, there will be a pet parade and contest Monday in captivity, will be presented free

All roads lead to Gainesville next week, and visitors from many distant points will mingle with North Texas and Southern Oklahoma citizens on the fair grounds.

# Attend Motor Races Sunday

More than 500 persons gathered Sunday under a blistering summer sun to witness the annual motorcycle races sponsored at Voth's ranch by the Muenster Motorcycle Club. Almost half the crowd consisted of motor riding enthusiasts from as far away as Fort Worth and Wichita Falls and scores of spec-

tators from other nearby towns. Though not the high point man of the day, Urban Endres, local amateur, was the crowd's favorite, placing in 5 out of 7 races and winning fourth place honors with 8 points. He won one event, took second in another and third in three

events. Those who led Endres were all classed as experts. J. B. Harrell and Les Myers of Wichita Falls had 15 and 13 points respectively and Pudge Woods of Fort Worth won 10 points. All of them were handicapped in open events by 50 yards at the start.

Tommy Weinzapfel was the only other Muenster entry to win a place in the races. He took second in Australian pursuit, the race in which riders are eliminated when passed by someone else.

The one person especially misse Sunday was genial Henry King of Fort Worth, last year's high point man. King died the preceding Wednesday from an infection that set in after he had his tonsils removed.

This year's choice of a track wo the approval of contestants and spectators alike. Though faster it was less dangerous than last year and more of it was visible to spectators. A few hairpin turns invited spills but there were no obstructions to cause crashes. No injuries of any kind were sustained.

Billy Finger of Wichita Falls added to the interest of the races by a clever job of announcing over the address system. Billy, once a contestant in most races of North Texas, confined his performance Sunday to a few exhibition rides on a

Following the races the Muenster club was host to all motorcy riders at a party near the race track. About 50 persons were there. At noon the Wichita Falls delegation chuck wagon dinner.

#### INTERNATIONAL REVENGE

When Colonel Lindbergh suggested a short time ago that this country reconcile itself to ultimate German victory and seek a basis of cooperation with Germany he made himself about the most unpopular man in the country. As he must have discovered, that idea just did not harmonize with our strong pro-British feeling. The way to get a big hand is to preach annihilation for Germany and unlimited support for England.

It is quite true that Lindy's idea of cooperating with the Nazi regime is hard to swallow. Having Hitler's word that he intends to be the big boss in all relations, we instinctively revolt. At the same time we are irked by the prediction that Germany will win. We are afraid of the consequences whereas we feel certain of greater harmony if England continues as the major power over there. In other words we are denouncing Lindy because he told us something we do not want to hear. We call him the chief of the IIIth columnists for ex pressing what he believes to be the truth and what he considers the most reasonable course for this nation.

In view of the present conditions many of us are still not willing to concede an ultimate Nazi victory. And we do not think it is necessary to accept Lindy's sugges-

tions on cooperation. However, there were some statements that every fair minded person will have to accept Basically this war is a struggle between the "have and have not" nations. Hitler is nothing more than a product of the times, an opportunist seizing and increasing his power in the national crisis. He has since become a Napoleon simply because his people were willing to avenge former injustice. Though we hope and pray that Hitler's drive for international dictatorship will be stopped, we have to concede that the German people, most of the people of Central Europe, are entitled to better conditions.

Our principal reason for favoring England is that we believe our own interests are safer with that nation in dominant power. We know we can get along with England because we have the axe. Taking Canada would be too easy in case we ever had to retaliate for some offense.

But still we have to admit that England and France are responsible for this war. Back in 1918 they inflicted hardships that were destined to lead to chaos, out of which grew Hitler's big opportunity. All of us realize that reasonable human beings will not favor Hitler's style of regimentation unless they are desperate. When England and France dictated the terms of Versailles they also sowed the seeds of re-

Regardless of the ultimate outcome we shudder to think of what is happening to Europe. Ill fed children are growing up as invalids—if they happen to survive — and husky young men are dying in battle. If the war should stop today all Europe would be pitifully handicapped in its reconstruction. The longer it continues the more Europe Forest near Cravens, La., with the will be handicapped. Recovery will require long, bitter years of hardship.

For us Americans there is one encouraging factor. The war is likely to be over before we have a chance to get in. The signs are that Hitler can't keep going much longer, that he will have to win or lose before ing, bedding, etc., by furling the we are prepared to do any fighting. Germany will need years to overcome the effects of this strain. By then we will be ready to meet a challenge. By then it is possible that European affairs will be readjusted and no one will have a desire to fight.

Such thoughts should not give us a false feeling of security, however. Our only safe course is to get ready and let the world know we are ready.

In the meantime we can think a little about relieving suffering over there. The Nazi machine is rapidly approaching a crisis. too, in a small way." The girls spent the day quietly upstairs and amused themselves very well with the papers, smirking over the photographs, which were surprisingly good. Limpy was not so well pleased with the verbatim report of her speech.

"I see what Aunt Olympia meant," she mused. "It doesn't pay to be too extemporaneous." Flowers came for the girls, telegrams, letters, small gifts; and for Limpy, a big ivory donkey, hand-somely autographed in green ink:

"Limpy for President in '58, "And for Campaign Manager, Your Old Pal,

Aunt Olympia, her weariness forgotten, her ill humor dissolved in contentment, was deliriously happy. She, too, received flowers, telegrams and gifts. She read the basketful of congratulations. She cooed into the telephone. She erooned over the girls. She almost felt satisfied with

the Senator. The Senator made his final appeal over the radio on Monday night and an effective job he made of it; speaking with quiet dignity, restraint and reasonableness, pointedly ignoring personal phases except for one paragraph, which the entire staff had a hand in preparing.

"My friends, I address you tonight on the issues of this campaign. speak only of the issues. The sad infringement of the sanctity of my nome is not one of these issues. My personal feelings in that tragic matter are relegated to the background at this time. But to those thousands of you, my friends, who have written, telephoned and wired socilitous inquiry as to the health of my young wards, and whether they have suffered serious ill effects from the physical and mental anguish of their tragic and deplorable experience. I am happy to relieve your fears. The children are young, but they are brave and high-spirited. In the safe serenity of my home at Maysville, in quiet seclusion, they are recovering from the brutal shock to their innocent trust and confidence which was even greater than their physical discomfort.
