## Hoedebeck, Otto Return to Council By Decisive Vote

All of which is quite a departure from the spirit expressed by Candidate Kennedy in his campaign of 1960. His dream as pictured then was to see the Cuban people rid themselves of red tyranny. His promise given then was to help the Cuban patriots do the job.

But actions do not substantiate the words. The promise fell flat at the Bay of Pigs invasion. It fell flat again last October in our failure to follow up a brave ultimatum. It fell flat again last month when no apparent results followed the red agreement to demobilize. It falls flat now as we restrain raiders trying in their small way to do the job we failed to do on several occasions.

Instead of restraining and criticizing the Cuban patriots we ought to be cheering them publicly on every attack, and giving every possible aid. The important point is that their fight is also our fight. They deserve our encouragement and appreciation for at least trying to do what we ought to be doing.

Recent good news on the domestic front is the growing tendency to whack a big chunk off of the president's foreign aid budget. The trend has gone so far that even JFK himself sought to get into the act by suggesting a reduction of several hundred million. His action was referred to as smart politics, that is, suggesting a stopping place to avoid a more drastic budget slash.

But lots of congressional leaders do not fall for the trick. They see more ways in which money can be saved and they are determined to exhaust all possibilities. At the same time they are paying less heed to the well worn claim that we can fight communism with money. Our give away program has already failed miserably in many areas. Reds took over after we pumped in billions.

Time has also proved that communism does not necessarily result from poverty. Cuba with a standard of living second only to ours, became a victim — not because of national misery but because of the greed and treachery of a few men along with help of Russia.

The shocking fact is that very much of our aid program has helped the spread of world communism rather than retarded it. We give to the satellites and they give to the Kremlin. Or we give to the small struggling nations, then reds move in and take over our gifts. It would be an interesting study, if one could accurately list all of the plus and minus values, to determine to what extent our foreign give-away policy has succeeded in its professed purpose of checking communism. Have we hindered as much as we helped?

How Khrushchev must chuckle when our shortsighted politicians try to spend more money in fighting communism! He knows that eventually a lot of that money will come to his pockets. It's frustrating to think how much of our "anti-communist" spending has back fired.

And besides, foreign aid is only global socialism. Welfare state programs go far toward taking from the haves and giving to the have-nots of our own country. But then comes foreign aid, extending the program to international scope. Since commies are complete flops in their own economic achievements they are in line

## Sister Claude, 88, Dies at Convent in San Antonio

A former Muenster resident who left as a young girl in the early days of the community to enter the convent died Friday in San Antonio. She was Sister St. Claude Roberg who made her profession as a member of the Sisters of Divine Providence in San Antonio on Aug. 23, 1900. She was 88 at the time of her death.

Funeral services were held at the convent Monday morning and were attended by a niece and her husband, Mr. and Mrs. Jerome Pagel of Muenster, and their daughter Miss Kathy Pagel of Fort Worth. Sister St. Claude was the last member of the Roberg family. A sister-in-law, Mrs. Katie Roberg of Muenster and nieces and nephews are the only survivors.

## Local 4-H'er in District Contest

Linda Rohmer of Sacred Heart 4-H Club will be among Cooke County's 4-H clubbers going to Dallas Saturday to compete in the third annual Favorite Foods Show of District 4. She will be one of 60 4-H'ers from a 19-county district demonstrating in the four major food divisions. Winners will be eligible to compete at the annual 4-H Roundup in June at College Station.

Linda is the daughter of Mr. and Mrs. Arnold Rohmer. She earned the Dallas trip by competing successfully in the county contests in Gainesville the past February.

## 3 Month Rainfall Measures 1.69 but Moisture Is Fair

It's been a long dry spell, but the moisture condition in this community is still surprisingly good and crops have a good color.

Total rainfall for March was only 1.19 inch and the total for the year to date is 1.69. In two other years of the past 10 moisture for March was lower, but the three month total sets a record. Also significant is a lower than average total of 1.34 last December. That makes just over 3 inches for the past four months.

In spite of the scarcity, subsoil remains in good shape. Grain crops, and any others with roots reaching down a few inches, are getting along fine.

Two factors help to explain good on so little rainfall. Evaporation was limited by lots of cold and damp weather during the winter. And frequent heavy dew brought moisture benefits that did not register on rain gauges.

Even surface moisture is fair since last weekend. Friday's .65 inch was fine, though not quite ample for planting corn and sorghums.

Seven other rain recordings for the month added to only .54 inch.

## 2 Trustees To Be Elected Saturday

Voting in Saturday's school trustee election will be about as simple as it can get. Not a scratch is needed on the ballot, just a signature on the stub.

The reason is that the ballot shows one candidate only for each of the positions. Ed Cler is a candidate for re-election and Joe Galloway is a candidate to succeed J. J. Wimmer on the Muenster school board.

The same applies to candidates for precinct representatives on the county school board. A. T. Strader and Joe B. Hundt, of Precincts 3 & 4 respectively, are both unopposed for re-election.

Separate ballots await the voters of the two precincts. Strader is on one ballot and Hundt on the other, and Cler and Galloway are on both.

The election will be held in the public school from 8 a.m. to 7 p.m.

## NEWS OF THE SICK

Bill Derichsweiler entered Baylor Hospital in Dallas Wednesday for knee surgery Thursday.

Wayne Klement has been dismissed from Gainesville Hospital after an appendicitis operation last week Thursday. He's 13, the son of Mr. and Mrs. Walter Klement.

Mrs. Gus Livingston of Saint Jo was due to be dismissed from Bethania Hospital in Wichita Falls this week after being a medical patient.

Mrs. Nig DeBorde came home Saturday evening from Dallas where she had major surgery at Medical Arts Hospital March 20. She's up and around the house but will have to take it easy for a few weeks. It will be some time before she is able to return to her work at the Ben Franklin Store.

Mrs. Mathilda Wimmer entered Gainesville's Lindsay Street Hospital last Friday for medical care and X-rays. She was to be a patient about a week.

## MHS Track Team Takes Third Place in District Meet

Muenster's Hornets, nudging ahead of Callisburg for third place, did better than expected last Saturday in the district track and field meet at Saint Jo. Nevertheless they were swamped by Era and Valley View.

Team points for the meet were as follows: Era 175, Valley View 120, Muenster 87, Callisburg 71, Saint Jo 43.

The big scorer of the meet was Billy Hudspeth who won 4 of Era's 7 blue ribbons. Valley View won five ribbons and Muenster two.

Scorers for Muenster and their events were as follows. Shot Put: Donny Vogel 1st, Weldon Vogel 5th, Dale Klement 6th.

Discus: Roy Hartman 1st, 440 Dash: Tommy Mosman 2nd, 220 Dash: Mosman 2nd, 100 Yard Dash: Weldon Vogel 3rd.

Broad Jump: Weldon Vogel tie for 3rd, Mosman 5th. Mile Relay: Muenster (W. Vogel, D. Vogel, T. Mosman and Roy Monday) 3rd.

440 Yard Relay: Muenster (R. Wimmer, D. Vogel, W. Vogel, R. Monday) 4th.

880 Yard Run: Monday 4th, Dale Klement 6th. Mile Run: Walter Lutkenhaus 4th.

Low Hurdles: Jimmy Don Robison 6th.

Radar Systems that "see" 180 miles, 30 miles farther than previous airborne weather radars, and give better weather pictures will soon be installed in some U. S. medium-range passenger jets. Benefit: three more minutes of decision-making time for in-flight weather evaluation.

## Pastors Announce Slate of Services For Holy Week

The schedule for Holy Week services in Muenster's Sacred Heart Church will be very similar to those of recent years, Father Alcuin Kubis announced today.

Palm Sunday service, beginning at 9 a.m., will consist of blessing of palms and solemn procession preceding high mass. Other masses of the day will be the usual Sunday masses.

Holy Thursday will have separate services for adults and school children, by special orders of the bishop. The mass for children only is at 11:30 a.m. The mass for adults is at 7:30 p.m.

One service will be held on Good Friday, beginning at 3 p.m. In keeping with a long standing custom here the mayor has issued a proclamation designating the day as one of special devotion and asking all business houses to remain closed between the hours of 2 and 4 p.m.

Holy Saturday services will be held at 7:30 p.m. Easter Sunday masses will follow the regular Sunday Schedule.

Both schools will be closed Friday and Monday for Easter.

## Flower Program for Garden Club Apr. 9

A program on Flower Arrangements will feature the April meeting of the Muenster Civic League and Garden Club to be held Monday night. Miss Doris Vavra will present the demonstration.

The meeting will be in the home of Mrs. Ted Gremminger with Mrs. Earl Fisher as co-hostess. Starting time is 8 o'clock.

At roll call members will answer the question: "What can you bring from your garden this month?"

## Council Demands Orderly Parking

The city council's determination to keep traffic more orderly in Muenster is reflected by newly painted diagonal stripes at the post office, repainted stripes at the church, and instructions to Bill Pratt, city policeman, to issue tickets for improper parking.

Discussion at the council meeting indicated that traffic disorder is worst at church before and after principal services and at the post office early in the morning. Frequently cars are blocked by the improper parking of others, sometimes the remaining space for traffic is badly cramped. The situation causes inconvenience to all who encounter it.

The council's intention is to keep streets open, passable and safe. It asks all drivers to cooperate and warns that those who do not cooperate are subject to the city's traffic regulation penalties.

## Practice Teachers Assigned to MHS

Two students of East Texas State College, one a former student of Muenster Public School, will spend the rest of this school year as practice teachers at Muenster High.

Sammy Biffle and Jackie Hutchens, majoring in vocational agriculture, will teach agriculture under supervision of Edgar Dyer. They will also be visited periodically by supervisors from ETSC. On a previous assignment they spent a week here as observers in Mr. Dyer's class.

Biffle was recently named to the Dean's List at ETSC because of high grades during the fall semester.

Practice teaching is a requirement for teacher certification. ETSC this year has 336 students assigned to schools of north and east Texas.

## MHS Sophs Slate Car Wash Saturday

"Calling all cars," that's the cry from MHS sophomore class members who will be in the car washing business this Saturday. The venture will be a class benefit. City Park will be wash headquarters. Time will be 8:30 and to 6 p.m.

In announcing the car wash class members said they will pick up and deliver cars if the owner wishes. Phone 78-J-2. Price will be one dollar a car.

## County Members Hear FB View on Wheat Program

Martin Bayer was one of three Cooke County Farm Bureau members attending a special meeting in Wichita Falls last Friday on the issues of the 1963 wheat referendum to be held this spring. The meeting was sponsored by the National Farm Bureau Federation, which opposes the federal farm program as a threat to the freedom of farmers.

One of the speakers was Charles Shuman, president of the national Farm Bureau. Others were C. H. DeVaney, W. C. Wedemeyer, Bill Hoover and T. J. Richards, regional and state officers of the Texas Farm Bureau.

A special meeting for directors and committeemen of the Cooke County Farm Bureau has been called in the headquarters building next Monday night at 7:30.

## Albert Wilde, 55 Dies at Corpus; Burial at LaSara

Albert Wilde, 55, formerly of Muenster, died Sunday of a heart ailment in Corpus Christi where he had been residing in recent years. He had heart trouble for some time but was hospitalized only two days.

He was a son of the late Mr. and Mrs. John Wilde of LaSara and the body was taken there for requiem mass and burial.

Among survivors are his wife Inez, three children by a former marriage; four brothers Herman, Edward, Norbert and Tony Wilde; four sisters Mrs. Lester Nash, Mrs. Jesse Kelly, Mrs. Joe Siparski and Mrs. Ed Walterscheid, all of the LaSara-Harlingen area; his step-mother, Mrs. Christine Wilde of Muenster, uncles including J. B. Wilde and Herman Luttmir of Muenster, H. S. Wilde of Gainesville and Ben Luttmir of Valley View; an aunt, Mrs. Herbert McDaniel of Muenster; two step-sisters Mrs. Frank Wiesman of Harlingen and Mrs. Henry Zimmerer of Lindsay, and three step-brothers, Tony and Paul Walterscheid of Muenster and Ed Walterscheid of Harlingen.

## Parish Class for Confirmation Will Have Over 300

About 300 school age children and an undetermined number of adults will be confirmed next Sunday in Sacred Heart Church. The Most Rev. Thomas J. Drury, bishop of San Angelo, will administer the sacrament, starting at 7 p.m.

The confirmation class is probably the largest in the history of the parish, representing an accumulation of candidates from more than 3 years. Last time the sacrament was administered here was on December 6, 1959.

An oversight in the diocesan office last year is responsible for a year of delay in the local confirmation schedule. Father Alcuin Kubis explained that by the time the mistake was discovered it was too late to correct it.

Bishop Drury will confirm in Valley View, Gainesville and Sherman next Monday. The Lindsay parish will not have confirmation this year.

## Ferd Albers, 67 Of Lindsay, Dies; Funeral Friday

Ferd Albers, 67, of Lindsay, died Wednesday afternoon at 3:15 in Gainesville Hospital after suffering a stroke Tuesday afternoon. He had been a resident of Muenster and Lindsay for 51 years.

Funeral services will be held Friday morning at 9:30 in St. Peter's Church at Lindsay followed by burial in Lindsay Cemetery. Father John Walbe will officiate and George J. Carroll and Son Funeral Home will direct arrangements. Rosary was set for 8 p.m. Thursday in Carroll Chapel.

Albers was born July 21, 1895 in Lillyville, Ill., and moved to Muenster with his parents, Mr. and Mrs. Henry Albers in 1912. They farmed south of town. Later they moved to a farm in the Wolf Ridge community, then to Lindsay. He operated a recreation hall there for some years. In recent years he had been a school bus driver.

When he failed to arrive at the school at the usual time Tuesday, Bill Roberg went to his home and found him unconscious in the garage. He never regained consciousness.

Survivors include four sisters, Mrs. Nick Mosman, Mrs. Albert Mosser and Mrs. Joe Nichols of Gainesville and Mrs. Herman Luttmir of Muenster; and three brothers, John Albers of Muenster, Clarence Albers of Dallas and Joe Albers of Hollyoke, Colo.

### YOUR DOLLARS FOR WORLD ARSON

Large metropolitan cities have what is known as fire commissions. Serving on these commissions are men who assist the fire department in planning fire prevention measures.

It would be beyond the wildest stretch of imagination for a city fire commission to accept a known arsonist as a

commissioner. The arsonist's views on fire prevention would hardly be compatible with those of the other commissioners.

Yet that is exactly the situation existing in the United Nations ostensibly organized for the purpose of maintaining peace in the world, the UN has been dominated from its inception, by the Soviet Union whose avowed purpose it is to inflame the world with violent revolution, disorder and eventual subjugation to Red rule.

Along with its like-minded satellites, all serving on this world fire commission, the arsonist loudly and frequently professes his interest in fire prevention — while boldly placing his gasoline-soaked rags and torches in every area of the globe.

To add to the incredibility of the situation, the chairman of this world fire commission is one whose stated views have, at times, paralleled

You Can't Do Business With Communism!

State in which, ultimately, the masses of people become faceless numbers.

One thing can be said for the Soviets—at least, for those Soviets whose policies and decisions count. They are supremely dedicated men and women. They regard their system with a religious zeal. They know what they want — which is world domination — and they are convinced they know how to get it. They are willing to change tactics and strategy and timing when risks and situations make that necessary, but they never lose sight of the goal.

The American goal is supposed to be freedom, individualism, the dignity and worth of man. Are we worthy of it, and are we pursuing it?

### REASON FOR HIGH BILLS

In his message on Medicare, President Kennedy places the cost of hospital treatment at \$35 a day and notes this is nearly four times as much as in 1946.

Part of this increase is due to more efficient, and more costly, methods of treatment. Part is due to payment of something more resembling a living wage for hospital workers.

But a substantial chunk of this added cost is due to inflation. The dollar has declined more than a third in purchasing power since 1946. In terms of 1946 dollars that \$35 would be less than \$23.

Inflation is just another term for high cost of everything, including hospital care. Social Security payments which once promised something close to minimum comfort now often hardly suffice to pay the rent.

Inflation, which has destroyed the value of small savings, is measurably responsible for big demands on public aid, which the President listed in his message.

Ex-President Eisenhower, and many others, are fond of saying the public debt, now near \$305 billion, is an imposition on our grandchildren. This is true. But it is an even crueler imposition upon our grandparents who see the buying power of their hard earned dollars trickle away at a time in life when they can't go back to work to recoup their losses. — Fort Worth Press.

## Business Restrictions

HOUSTON, TEX. — In his recently released 1962 annual report to management A. G. McNeese, Jr., President of Bank of the Southwest, Houston, made some timely comments on our government's role in affecting the lives of its citizens. Mr. McNeese stated:

"There is a dedication among some government policy-makers — local, state, and national — perhaps sincere but nonetheless un-economic, to direct the lives and fortunes of individual Americans far beyond authorized limits."

"As a consequence, a giant share of the profits generated by your investment in this — or any other — corporation is absorbed through taxation. You are aware of many of these taxes; you are not aware of a great many more which seriously deplete your profits. Further, and even less recognized, is your net profit being reduced by \$24. Similarly, each employee in this pay range will take home \$24 less wages. This amount equals the current dividend paid to you on 13.33 shares of Bank stock. For the employee, it equals the premium on a sizable amount of life insurance."

"At these staggering rates, one might assume a thoroughly solvent reserve from which adequate old-age benefits are to be paid. In fact, unlike procedures demanded of private insurance companies by laws of both man and economics, the Social Security agency has mushroomed without economic restrictions and faces deficits in the tens of millions of dollars."

"It is ironic that much of our profit must be paid to finance the increased regulations under which we perform our operations. There is consequently a usurpation of the judgment and evaluation rights of private business managers just as

other high-cost government programs supersede your rights and powers of self-government."

"On this subject, all businessmen now face the harshest and most unduly penetrating interference with business conduct in the history of our nation. Unrealistic limits and qualifications are set arbitrarily by the Internal Revenue Service on what and how much a businessman may spend in the conduct of his business. Moreover, the accounting and bookkeeping involved in meeting the new IRS regulations may well spell the difference between profit and loss for small-margin firms."

"Of even more direct concern to you, the stockholder, is the tightening of tax collections from corporate dividend payments. Every publicly-owned corporation in America must report in detail all dividends of \$10 or more paid to all stockholders. This is despite the fact that stockholders are required by law to report such dividends and are subject to prosecution for failure to do so. The costs of accounting, bookkeeping, printing, records-keeping, added equipment and space, and postage involved in this new regulation are monumental. Yet, since they benefit no one, since they take from rather than contribute to productivity, these costs represent a net loss to every stockholder."

"In short, many Americans may conclude that it costs more than it is worth to invest in business. Rather than increasing tax revenues by closing so-called loopholes, the total revenues more probably will decrease — advancing still further the monumental national debt."

"Unless you, as a taxpayer, citizen, parent, and stockholder, exert your intellect and your energy to develop sound government policies through rational, effective political activity, you may find precious few profits returning from your corporate and business investments."

"Too many of us seem to have forgotten that you and I and our neighbors compose the government of the United States. Those who write, adjudicate, and execute the laws governing our lives and fortunes are our servants, not our masters. To preserve this relationship, we will do well to select these servants with careful evaluation of their abilities to serve us loyally and capably — and to dismiss those whose performance does not meet reasonable standards of competence and integrity."

### Birthday Honors Given Mrs. Cooke On Ft. Worth Visit

Back from a weekend visit in Fort Worth, Mr. and Mrs. Don C. Cooke report a happy time visiting relatives and friends and celebrating two birthdays, Mrs. Cooke's and her daughter-in-law, Mrs. Harold Cooke's, with all four generations of the family together.

The birthday dinner was Sunday in the home of Mr. and Mrs. Gene Alexander and daughter Dana, where Mrs.

Alexander entertained for her mother and grandmother. The Cookes left Friday and were houseguests of their son and family, the Harold Cookes. Saturday the men went fishing and came back from the Brazos River with a big catch of bass for a fish fry at night. While the men fished Mrs. Cooke visited her sister, Mrs. H. G. Andrews who is sick.

She also enjoyed visits with Mrs. T. F. Beall, formerly of Wolf Ridge, also with Mrs. S. M. Duffey and Mrs. W. A. Brooks. Sunday the Cooks attended services at Connell

Baptist Church where they heard Missionary Hancock of India preach. Before returning home Sunday afternoon they visited again at the Andrews home where they got to see General Beall, formerly of Wolf Ridge. They returned Sunday evening in time to attend services at Muenster Baptist Church.

While in Fort Worth Mrs. Cooke enjoyed telephone visits with Mrs. Vernon Waggoner, Mrs. Jap Reeves and Mrs. Byron Sears. The latter sent best regards to all her Muenster friends.

### Leaflet Issued on Precautions when Tornado Threatens

"If spring comes, can tornadoes be far behind?" Texans can appreciate the paraphrase of Shelley's poem. In the past two years, the U.S. Weather Bureau tallied 253 tornadoes and 383 other severe storms which resulted in millions of dollars of property damage, 85 deaths and 668 injuries.

With tornado season soon to be in full swing, the Office of Defense and Disaster Relief of the Texas Department of Public Safety has issued a special leaflet containing safety information for coping with these destructive storms. Titled "Tornado Precautions," the leaflet details procedures to follow when tornadoes threaten, whether in open country, in cities and towns, schools, factories or industrial plants. Knowing a few basic rules of what to do when a tornado is approaching may mean the difference between life and death.

The leaflet also contains descriptive material on occurrence, frequency and weather conditions most apt to produce tornadoes.

Free copies of the special leaflet can be obtained from the Office of Defense and Disaster Relief, Texas Department of Public Safety, in Austin.

One of the hardships our pioneer ancestors escaped was the problem of disposing of today's "disposable" containers.

## Farm Facts

Kentucky statesman Henry Clay imported the first Herefords to America in 1817. In 1840, the first breeding herd of Whitefaces was established near Albany, N. Y.

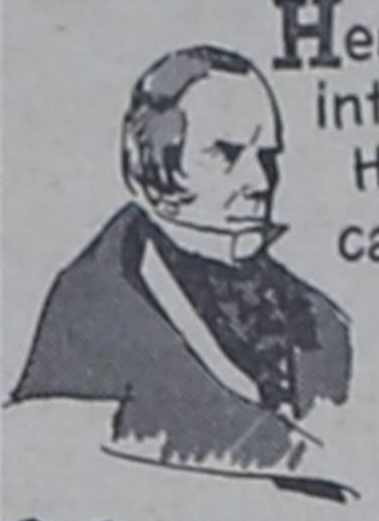

The Hereford line began with a white-faced cow named Silver in the county of Herefordshire, England. Silver was given to Benjamin Tomkins at the time of his father's death.

Several years later, one of Silver's sons was bred to two cows, Pigeon and Mottle. From this union the Hereford breed emerged in 1742.

The Hereford fame for easy fleshing and early maturity spread to the United States where cattlemen were looking for a beef animal that would rustle for itself on America's plains, hills, and mountains.

In the hard winters of 1885-86, the Hereford became known because of its ability to withstand such weather and survive to replenish the

According to the American Hereford Association, Herefords, or cattle carrying Hereford blood, provide more than 75% of our beef supply.

### Students to Take Charge Tuesday at Forestburg School

A complete change of administrative and teaching personnel will take charge at the Forestburg school next Tuesday, April 9. The new faculty and board of trustees will have the responsibility of running the school for a single day of student teaching and management.

Details of the arrangement were worked out last week Friday when the students held an election to select their school board. Promptly thereafter the new board met to elect its officers and to prepare application blanks for teaching jobs. At night the board met again to consider applications and select its teachers.

The special school day is being planned as a big event at Forestburg. Student body, faculty (regular faculty, that is) and the community are eagerly looking forward to the day of student responsibility. Visitors are invited to attend.

Elected as board officers were Kay Johnson, Danny Williams and Dale Hudspeth. The faculty includes Edelvis Massie, Jo Ann Greenwood, Teresa Huddleston, Lloyd Bewley, Sharon Dill, Jerry Ray Barnett, Dalton White, Max Brogdon, Gary Perryman, Glenn Romine and Johnny Muller.

This situation makes a guy wonder whether Khrushchev actually isn't silly in his boasts to bury us. Suppose he succeeded in eliminating US. With our foreign aid program also eliminated, how would he finagle for money to keep his feeble economy going?
