MUENSTER, COOKE COUNTY, TEXAS

NUMBER 35

**New Frontiersmen were unhappy Tuesday afternoon but millions of people already fed up with bureaucratic interference and extravagance were pleased when the Medicare bill was defeated in the US Senate.** The count was close, 52 to 48, but it serves to show that the conservative coalition of Southern Democrats and Republicans is still able to cope, in spite of terrific administration pressure, with the socialist inclined do-gooders who are obsessed with the notion that they will take care of us whether we like it or not.

In case you did not notice, Texas broke even in its voting on the bill. Tower voted with his party, the South and conservatism. Yarborough voted with the liberals. In doing that our senior senator was consistent with his political philosophy. He's famous for his generosity with taxpayers' money, always ready to support a giveaway to the dear constituents whether or not the federal budget can afford it.

**A good example of Yarborough's inconsistency was his proposal this week before the Texas AFL-CIO convention to reduce individual income tax by increasing exemptions from \$600 to \$800.** Such political talk is music to many ears, but by his own standards it does not make sense. Tax can never be reduced as long as eager spenders like Ralph continue to dish it out.

Nevertheless the proposed income tax cut has its merit. The \$200 additional exemption would mean a real saving of at least \$40 a year to every man, woman and child in the country... a substantial increase to everyone's net income. The man could have added that such increased income reduces the nation's need for handouts, hence the over all tax saving could be offset by reduction in public spending. But his thinking does not flow in that channel. His object is not to solve the economic problems but to endear himself to voters who do not bother to see the economic clash in his proposals.

**Departing a little from the Yarborough standard, this column says let's first eliminate some unnecessary spending, then, by all means let's have the extra \$200 of exemption.** It offers a simple and fair method of bringing tax relief to everybody.

And while we're in the notion let's push on the Liberty Amendment, which is meant to eliminate personal income tax altogether. A little known fact is that the cost of operating federally owned business is equal to the revenue from all personal income tax. If the businesses were sold their operating expenses would be eliminated and the government could eliminate that much tax. Furthermore, funds realized by the sale of federal properties could be used to reduce the national debt. And firms formerly operating as tax eaters would become tax payers. There's lots of merit in the proposal, and it is receiving more attention daily.

**Since the recent change in the state's safe driving law all Texas drivers will be equal again as far as insurance rates are concerned.** Those with the perfect driving record will no

## County FB Urges Wheat Growers To Vote July 24

The Cooke County Farm Bureau is urging all eligible wheat producers in the county to cast their ballots in the July 24 wheat referendum.

"Only by exercising their right to vote in this referendum can wheat growers actually have a voice in their farming operations," J. T. Cole, president of the Cooke County Farm Bureau said. He emphasized that the organization is not attempting to tell farmers how to vote.

"The Farm Bureau believes that all producers should know the facts, then vote their own convictions," the county farm leader said. "Basically, the choice in the referendum is between continued government controls and more freedom in individual farming operations."

Mr. Cole said that only a small percentage of eligible growers had voted in past referendums. Across the nation, only 20.2 percent of those eligible voted in 1960, and only 26.7 percent last year.

In Cooke County, only 17.5

## Catholic League Will Hold State Convention Here

Elaborate preparations are shaping up this week for the 64th annual convention of the Catholic State League of Texas which will be hosted by the Sacred Heart Parish during the weekend of July 27-30.

Under the general chairmanship of Dan Haverkamp, practically all public facilities of the community are being readied to accommodate an estimated attendance of 500 persons in the four branches of the League. Meetings will be held in the parish hall, parochial school and public school. Meals will be served in the parish and public school lunch rooms.

The convention will open officially at 10:30 Saturday with welcoming talks by Father Alcuin Kubis and Mayor Herbert Meurer and heads of the local parish societies followed by response of the State League president, Ben C. Reininger of San Antonio. For the insurance branch of the organization it begins a day earlier. Delegates of that section will start their meetings Friday.

The four sections of the organization... men, ladies, youth and insurance... will hold separate meetings for their delegations, and all delegates, as well as the general public, is invited to some of the events.

The first such meeting is a youth rally starting Saturday at 8 p.m. It will feature three talks and presentation of awards in last year's Rural Life contest and will end with a dance. All young folks of the Sherman Deary are invited to attend.

Another open meeting is the Catholic Day program starting at 8 Sunday night. For that also a general invitation is extended to all parishes of North Texas.

Likewise general invitations are extended for the pontifical high mass Sunday morning and the dinner Sunday noon.

## Watermelon and Swimming Party Ends Kids League

A grand closing awaits members of the kids' baseball league and all who cooperated with it in any way. It will be a watermelon and swimming party Monday night at 7 in the city park.

William Walterscheid, league supervisor, announced it Wednesday and said the party is open to all league personnel, children and adults. There will be free swimming and plenty of free watermelon.

## 10 Local Men Will Return August 9 From 49th Division

Ten members of the 49th Armored Division will return home to Muenster on August 9 after a 10 months tour of active duty with the Lone Star unit at Fort Polk, Louisiana.

All are assigned to Troop C, 5th Reconnaissance Squadron, 112 Armor: 1st Lt. Donald J. Bayer, Sp4's Jimmy K. Harris, Harvey B. Schmitt, James Voth, Pfc's William J. Dangelmayr, Donald C. Trubenbach, William D. Fisher, Clifford J. Swirczynski, Roger D. Taylor and Jimmy J. Biffle.

The 5th Recon was recalled to active Federal service last October 15 in the face of steadily mounting international pressures and tensions.

While at Fort Polk the Muenster soldiers participated in Exercise Iron Dragoon, the Army's largest scheduled maneuver exercise for the fiscal year 1962. More than 20,000 reservists and National Guardsmen were involved in this gigantic exercise.

Troop C has its headquarters in Gainesville. The 49th Armored Division was the first armored division to be organized by the National Guard, the armored unit to be ordered to active duty in peacetime, the first NG unit to be named a STRAC unit, joining the Strategic Army Corps as a ready, trained and effective striking force.

## Both Hospitals Of Gainesville Bought by City

The two hospitals of Gainesville are under common ownership and management. In a transaction completed last Friday the Gainesville Hospital Authority purchased Medical and Surgical Hospital from J. B. Ferguson for \$250,000 and also purchased Gainesville Sanitarium from its stockholders for \$150,000. Ferguson's home was included in the M&S deal.

This purchase, which has been developing about six months, since the hospital authority was formed, marked the beginning of a hospital improvement program at Gainesville.

In the plan is a 38 bed addition to M&S and hopes of expanding the plan to 68 beds. The building has 33 beds now and the addition would enlarge it to 101 beds.

Another deal that day was receipt of a check for \$876,531.25 by the hospital authority from a Dallas firm, which raised the amount by selling revenue bonds. The balance of the check after purchase of the two hospitals is for improvements, exclusive of the 30 beds not assured at M&S. That part of the project would require another \$100,000, to be raised by public subscription.

When those additions are complete the Sanitarium, according to plans, will be converted into a nursing and convalescent home.

Meanwhile both hospitals will continue to operate separately, but cooperatively and under the same management. The administrator is Mrs. Louis Holden, formerly at the Sanitarium.

Both hospitals will be known as Gainesville Memorial Hospital, the former Sanitarium as Lindsay Street Division, the former M&S as Richey Street Division.

Members of the Gainesville Hospital authority are Ed Wright, J. Robert Evans, Ralph Snuggs, Ray Kilgore, Edwin Alexander, Lambert Bezner and Virgil Taylor.

## Trash Dumping Hours Changed

Responding to requests for more convenient hours at the dumping ground members of the city council in their meeting Monday night decided to open the place twice a week instead of once.

The new hours are Friday from 10 to 2 and Saturday from 2 to 6. A city employee will be there then to direct unloading. The place is locked at all other times.

The council also emphasized that its lease has expired on the old location north of town and dumping trash without permission of the owner is trespassing.

Hall, superintendent of construction at the Muenster Memorial Hospital, was helping clear the site to start building when the accident occurred. He was taken to a Gainesville hospital and transferred to a Fort Worth hospital after doctors decided that his serious injury required the attention of specialists.

## Standing Knotted In Kids League Senior Division

Standing in the senior division of the kids' baseball is about as close as it can get since last Friday, and the season's winner will have to be determined in this week's pair of games.

In their double header last week the Giants tripped the leading Dodgers 12-6, making a three way tie of 3-3 for the teams at that point of the season. Next the Giants and Yanks tied 7-7... no play-off because time ran out. So the record now stands at Dodgers 3-3 Yanks 3-3-1, Giants 3-3-1.

Next the Dodgers will have the double header. Winning both will put them on top and losing both will put them on the bottom and in either case Yanks and Giants will need a playoff to break their tie standing. By splitting the double header the Dodgers would still lose, ending a half game behind the team that beat them.

## Rain Postpones Ground Breaking, Reset for Sunday

Rain or shine, the ground breaking ceremony for the Muenster Hospital will be held next Sunday at 6 p.m. Original plans for the ceremony had to be postponed last Sunday when a shower arrived shortly before time for the event.

In setting the new date the hospital directors are assuming that the same kind of trouble isn't likely to happen twice. But just in case it does, folks are reminded there will not be another postponement. If the weather is wet people are asked to come in their raincoats.

Time for the ceremony is also changed. That's because the program probably would have been crowded in order to end early enough for people to get to the 7 p.m. mass. So the ceremony now is set for 6 o'clock, a half hour earlier than originally planned.

The program will be the same as previously announced. Father Alcuin Kubis will bless the site, turn a shovelful of dirt and talk briefly. Mayor Herbert Meurer will talk as the representative of the City of Muenster.

## Sunday Rainfall Measures 1.12 in.

A fine rain last Sunday afternoon and night, measuring 1.12 inches came at a fine time to add the finishing touch to corn and feed crops besides brightening hay fields and pastures.

In spite of the wettest June on record vegetation was showing the effect of hot weather and the moisture was most welcome.

Total rainfall for last month was the record breaking 8.76 inches making a total of 19.09 through June. The year's measure to now is 20.21 inches.

## Earlier Delivery On Rural Routes Begins Saturday

Rural mail deliveries will be 15 minutes earlier Saturday and thereafter. Postmaster Arthur Endres disclosed this week that facilities in the new post office have shortened mail handling time so the rural carriers will be able to make an earlier start.

The change of schedule is announced for the benefit of any who want to meet the rural carrier or crowd their deadline in sending a letter. Remember, he'll be there 15 minutes earlier.

## City Water Tank Service Restored After Fix-up Job

Water service is back to normal in the city. Since completion of inside work, the water tower is back in use even though outside painting will require a few more days.

The important part of the job consisted of sand blasting the entire interior to remove rust and scale, then welding to repair pitted spots. Then, while the metal was bright as new, it was covered with a plastic coating. This coating is much more durable than paint and will give longer and better protection to the metal.

Remaining job is to finish the outside paint, which is light green, and also to paint the names "Muenster Hornets" and "Muenster Tigers".

Another improvement on the tank will help preserve the appearance of that paint. A seven inch overflow pipe will permit run-over without streaking the sides. The same applies to surface flushing which is periodically required to get rid of floating matter on the water.

Water Superintendent Steve Moster said the entire operation went smoothly, thanks to the patience and cooperation of the customers. There were a few mentions of low pressure and hard water, but no complaints.

Service was maintained by running booster pumps at the reservoir almost constantly. This kept up adequate pressure except in some areas during peak periods. From about 10 p.m. to 6 a.m. each day pumps were stopped and given a rest and water was provided by gravity flow from the North Main storage tank. That water is hard, so a small percentage of water supplied daily was hard.

During the three weeks of tank servicing the booster pumps did a big job, the equivalent of 3 months of normal use.

## Scouts and Dads Prep for Outing At Lake Texoma

The annual overnight camp-out and field mass for Muenster Boy Scouts and their dads will be held Saturday and Sunday at the Walnut Creek resort of Lake Texoma.

The program as revealed by the planning committee is for dads and sons to leave in a group from the K of C hall Saturday afternoon at 2 o'clock in transportation that has been provided. Recreation will consist of fishing, swimming and boating, and scouts and dads will team up for preparation of Saturday supper and Sunday breakfast. All are reminded to bring food and cooking equipment for those meals... also bedding for the night.

Father Alcuin Kubis will be celebrant of the field mass, which begins at 11 o'clock. Anyone who wishes to attend that mass is welcome, and families of the scouts are especially invited.

After mass scouts and dads will be joined by the rest of their families for a picnic dinner, the food to be brought by the mothers.

That will be the end of the scout program. Afterward families are on their own, to go home or spend more time at the lake.

For those who don't know the way to Walnut Creek the following directions are offered. Follow the highway north from Whitesboro to Gordonville. At Gordonville turn left on the pavement and proceed about two miles to the right turn which is marked as the road to Walnut Creek. All of the road is paved... from Muenster to Walnut Creek.

## Polio Vaccine Offered July 28 To Entire County

Doctors and Jaycees of Cooke County are going all out to immunize the county against polio, also joining doctors of Dallas and many other North Texas cities in an effort to immunize this entire part of the state.

The Junior Chamber of Commerce, with the approval of doctors, is sponsoring a county wide immunization day on Saturday, July 28, starting at 1 p.m. in the Community Center at Gainesville.

Dr. L. O. Laughlin of Gainesville disclosed Wednesday that treatment to be given is the Sabin oral vaccine and it is recommended whether or not a person has had the Salk polio shots. Also, it is recommended for every person over six weeks old, including old timers who think they are past the danger age. They can still be carriers.

Treatment will take only a few seconds. The Sabin vaccine is a liquid, which will be given on a lump of sugar, except to infants. The sponsors have ordered 15,000 doses and hope they will run short.

Two more immunization days will be set later to complete the three-dose series. Intervals between doses should be about six weeks.

## Final Rites Held At Pilot Point for Mrs. Wm. Pels, 81

Mrs. William Pels, 81, of Pilot Point, a resident of Muenster for 26 years, died in a Gainesville hospital Monday at 6 p.m. She had been admitted there several days earlier for treatment of a broken hip.

Funeral services were held Wednesday morning at 9:30 in St. Thomas Church, Pilot Point, with the pastor, Father James Gillespie, celebrating the requiem mass and also officiating at the burial in St. Thomas Cemetery. Rosary was recited Tuesday night at 8 in the Beck Funeral Home chapel.

### A NECESSARY EVIL

A new and infinitely dangerous concept of taxation has been gaining currency, and it has its enthusiasts in high places.

It holds that taxation should be used as a social instrument, to bring about some desired result other than the raising of government revenue — and that, also, a tax is and should be an effective weapon for regulating the economy.

The Wall Street Journal has printed a letter from a reader, in which this attitude is vigorously assailed, and in which an admirable statement of principle is made: "Taxes . . . are not properly a control measure. They are not a price to pay for civilization or a privilege of freedom or any of these high-sounding terms. They are necessary to raise revenues with which to run the Government — that is all they are. They are a necessary evil but nonetheless evil."

To use the taxing power to direct and to control our energies and our rights is to lay the foundation of dictatorship.

When a rifle is aimed, the barrel is above the line of the target.

### TOO GOOD TO BELIEVE

"Glad to oblige," says the New York Daily News, America's largest newspaper, in reply to a reader who asked the editor to explain the proposed 24th Amendment — which would put a stop to the waste of all the billions paid out by individual citizens in income tax — by outlawing this insidious tax! The News explained:

"The so-called Liberty Amendment has now been approved by six states — Georgia, Louisiana, Nevada, South Carolina, Texas, Wyoming — and if 28 more of the 50 states approve it, Congress will be legally obligated to call a constitutional convention for the purpose of submitting the proposed change to the state legislatures. Ratification by 3/4, or 38, of these, would nail the amendment into the Constitution.

"The Liberty Amendment requires that the US government get out of competition with any kind of private enterprise . . . that no laws or treaties shall weaken the amendment . . . and that three years after the change's ratification the 16th (Federal income tax) Amendment shall stand repealed and the government shall cease to levy taxes on personal incomes, estates and/or gifts.

"As anyone can see, this is a very drastic proposal. Whether it has a ghost of a chance of ever being adopted, we don't know. But it is being talked about more and more as time goes by and tax gouges take more and more money from the people for politicians to spend.

"In publicizing the Liberty Amendment, we consider that the News is performing a needed public service."

We applaud The News for its "public service" and would like to add this is our dish, too, and we'd like to see a report on the Liberty Amendment published in every newspaper in America. Too many people still refuse to believe there is such a thing — or that it is slowly making progress in acceptance by the states. This fundamental tax reform will move a lot faster as soon as everyone who gripes about his return realizes that it can be done!

### TIRED OF WASTE

There is increasing evidence that the letter writers of the grass-roots are finally getting into the thick heads of some of our Congressmen, that we are tired of the waste and extravagance of the Liberal spenders. Instead of evading the issues when answering a letter from a constituent by referring to past small personal favors granted, and to references to the new babies in the families, the people are now expecting a direct yes or no to questions vitally concerning the welfare of the country. Those who heed the signs of the times, may avoid loss of their jobs by remembering the best interests of the folks they represent, rather than following the Liberal party line, for there is a new day dawning.

Ordinary folks who do the voting are sick and tired of heavy taxes, reckless spending aid to Communist enemies, and above all the sickening un-American policy of backing down from every affront by foreign nations. They are tired of being the laughing stock of the countries which have sworn our destruction. Our representatives had better open their eyes and ears to reality, or soon they won't be representing us.

### THESE ARE DAYS FOR GOLF

We had hoped that the day after the Inaugural General Eisenhower would quietly "fade away" as old soldiers are said to do — fade away, that is, from the political scene, back in the Gettysburg sun and the warmth of his public esteem and revel in the freedom to play as much golf as he wished.

Instead, it is distressing to see him attempting to direct the Republican Party one day and endorsing New Frontier policies the next — and succeeding only in further dividing the GOP by throwing prestige (that may disintegrate into sympathy) on the side of the me-too liberals.

If there are to be political contests worthy of the name, and if the voters of conservative views are to have a party to represent them, it must obviously be the Republican Party. In 1952 Ike campaigned as a conservative ("Time for a Change") — but turned out not to be. It is time for a tried and proven conservative Republican leader. And every American knows who he is!

### THERE IS POISON IN YOUR HOME!

How are you fixed for poisons in your home?

That is far from an idle question. For, says the American Medical Association, there are 250,000 products in home use which contain some form of poison. These serve necessary and desirable functions. But, on the debit side, 600,000 children manage to poison themselves each year, about 500 fatally.

These poisons include cleaning and polishing agents, detergents, cosmetics, paint, and a next-to-endless list of other items. The best of all safety precautions is to keep them under lock and key. But that is not practical in many cases — so the AMA offers a number of precautions that should be kept eternally in mind:

If your child takes something that is possibly poisonous, call a doctor at once — don't wait for developments. Never transfer poisons from their original, marked containers. Never leave a child alone when you're working with cleaners, polishers and other poisons — and wash contaminated utensils immediately. Give medicines only in a lighted room and discard old medicines no longer in use. When you get rid of hazardous materials, put them where children can't reach and rummage into them.

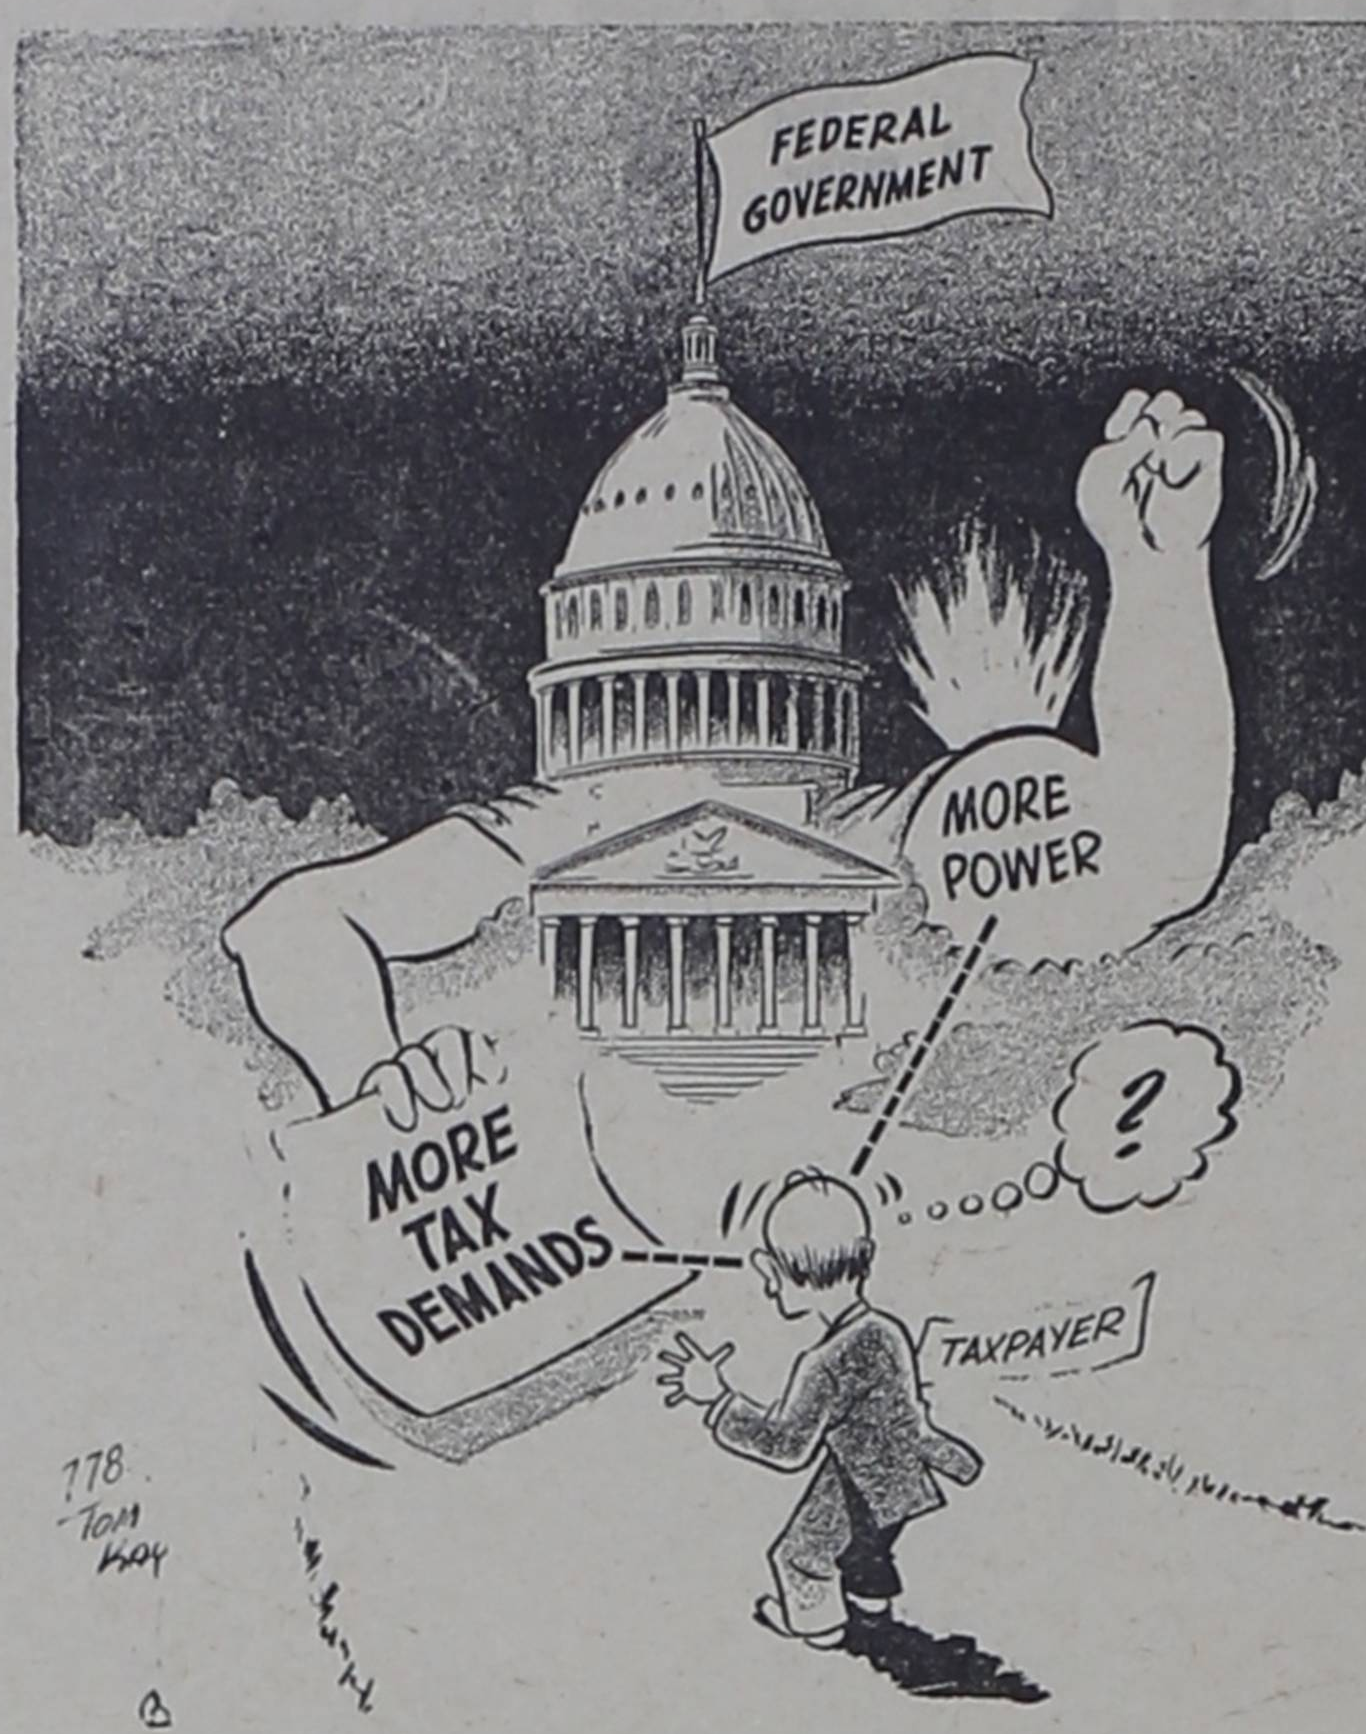

These rules are simple. They may prevent a terrible illness — and even death.

### The Decline of Moral Standards

A Southwestern editor, employing phrases as colorful as his territory, has taken a two-fisted swing at sin — and the chips are still falling in 50 states.

Jenkin L. Jones, editor of the Tulsa (Okla.) Tribune, aimed his hammer blows at the welfare state, at TV, the theater, Hollywood, and modern literature, then warned:

"It's time we revived the idea that there's such a thing as old fashioned, willful sin, if America is to continue as the world's leader of free men."

Said Jones: "Our welfare state philosophy, immoral movies, theater and

TV, and our lewd novels are weakening our moral fiber and are making us appear, in the eyes of idealistic youth in many countries, as being in the last stages of decay — while the fraud of communism appears synonymous with morality."

Jones on the state of our TV: "We are drowning our youngsters in violence, cynicism and sadism piped into the living room. The grandchildren of the people who used to weep because the Little Match Girl froze to death, now feel cheated if she isn't slugged, raped and thrown into a Bessemer converter."

And on literature: "The old eyepoppers of the past which tourists used to smuggle back from Paris under

## If you take your truck for granted

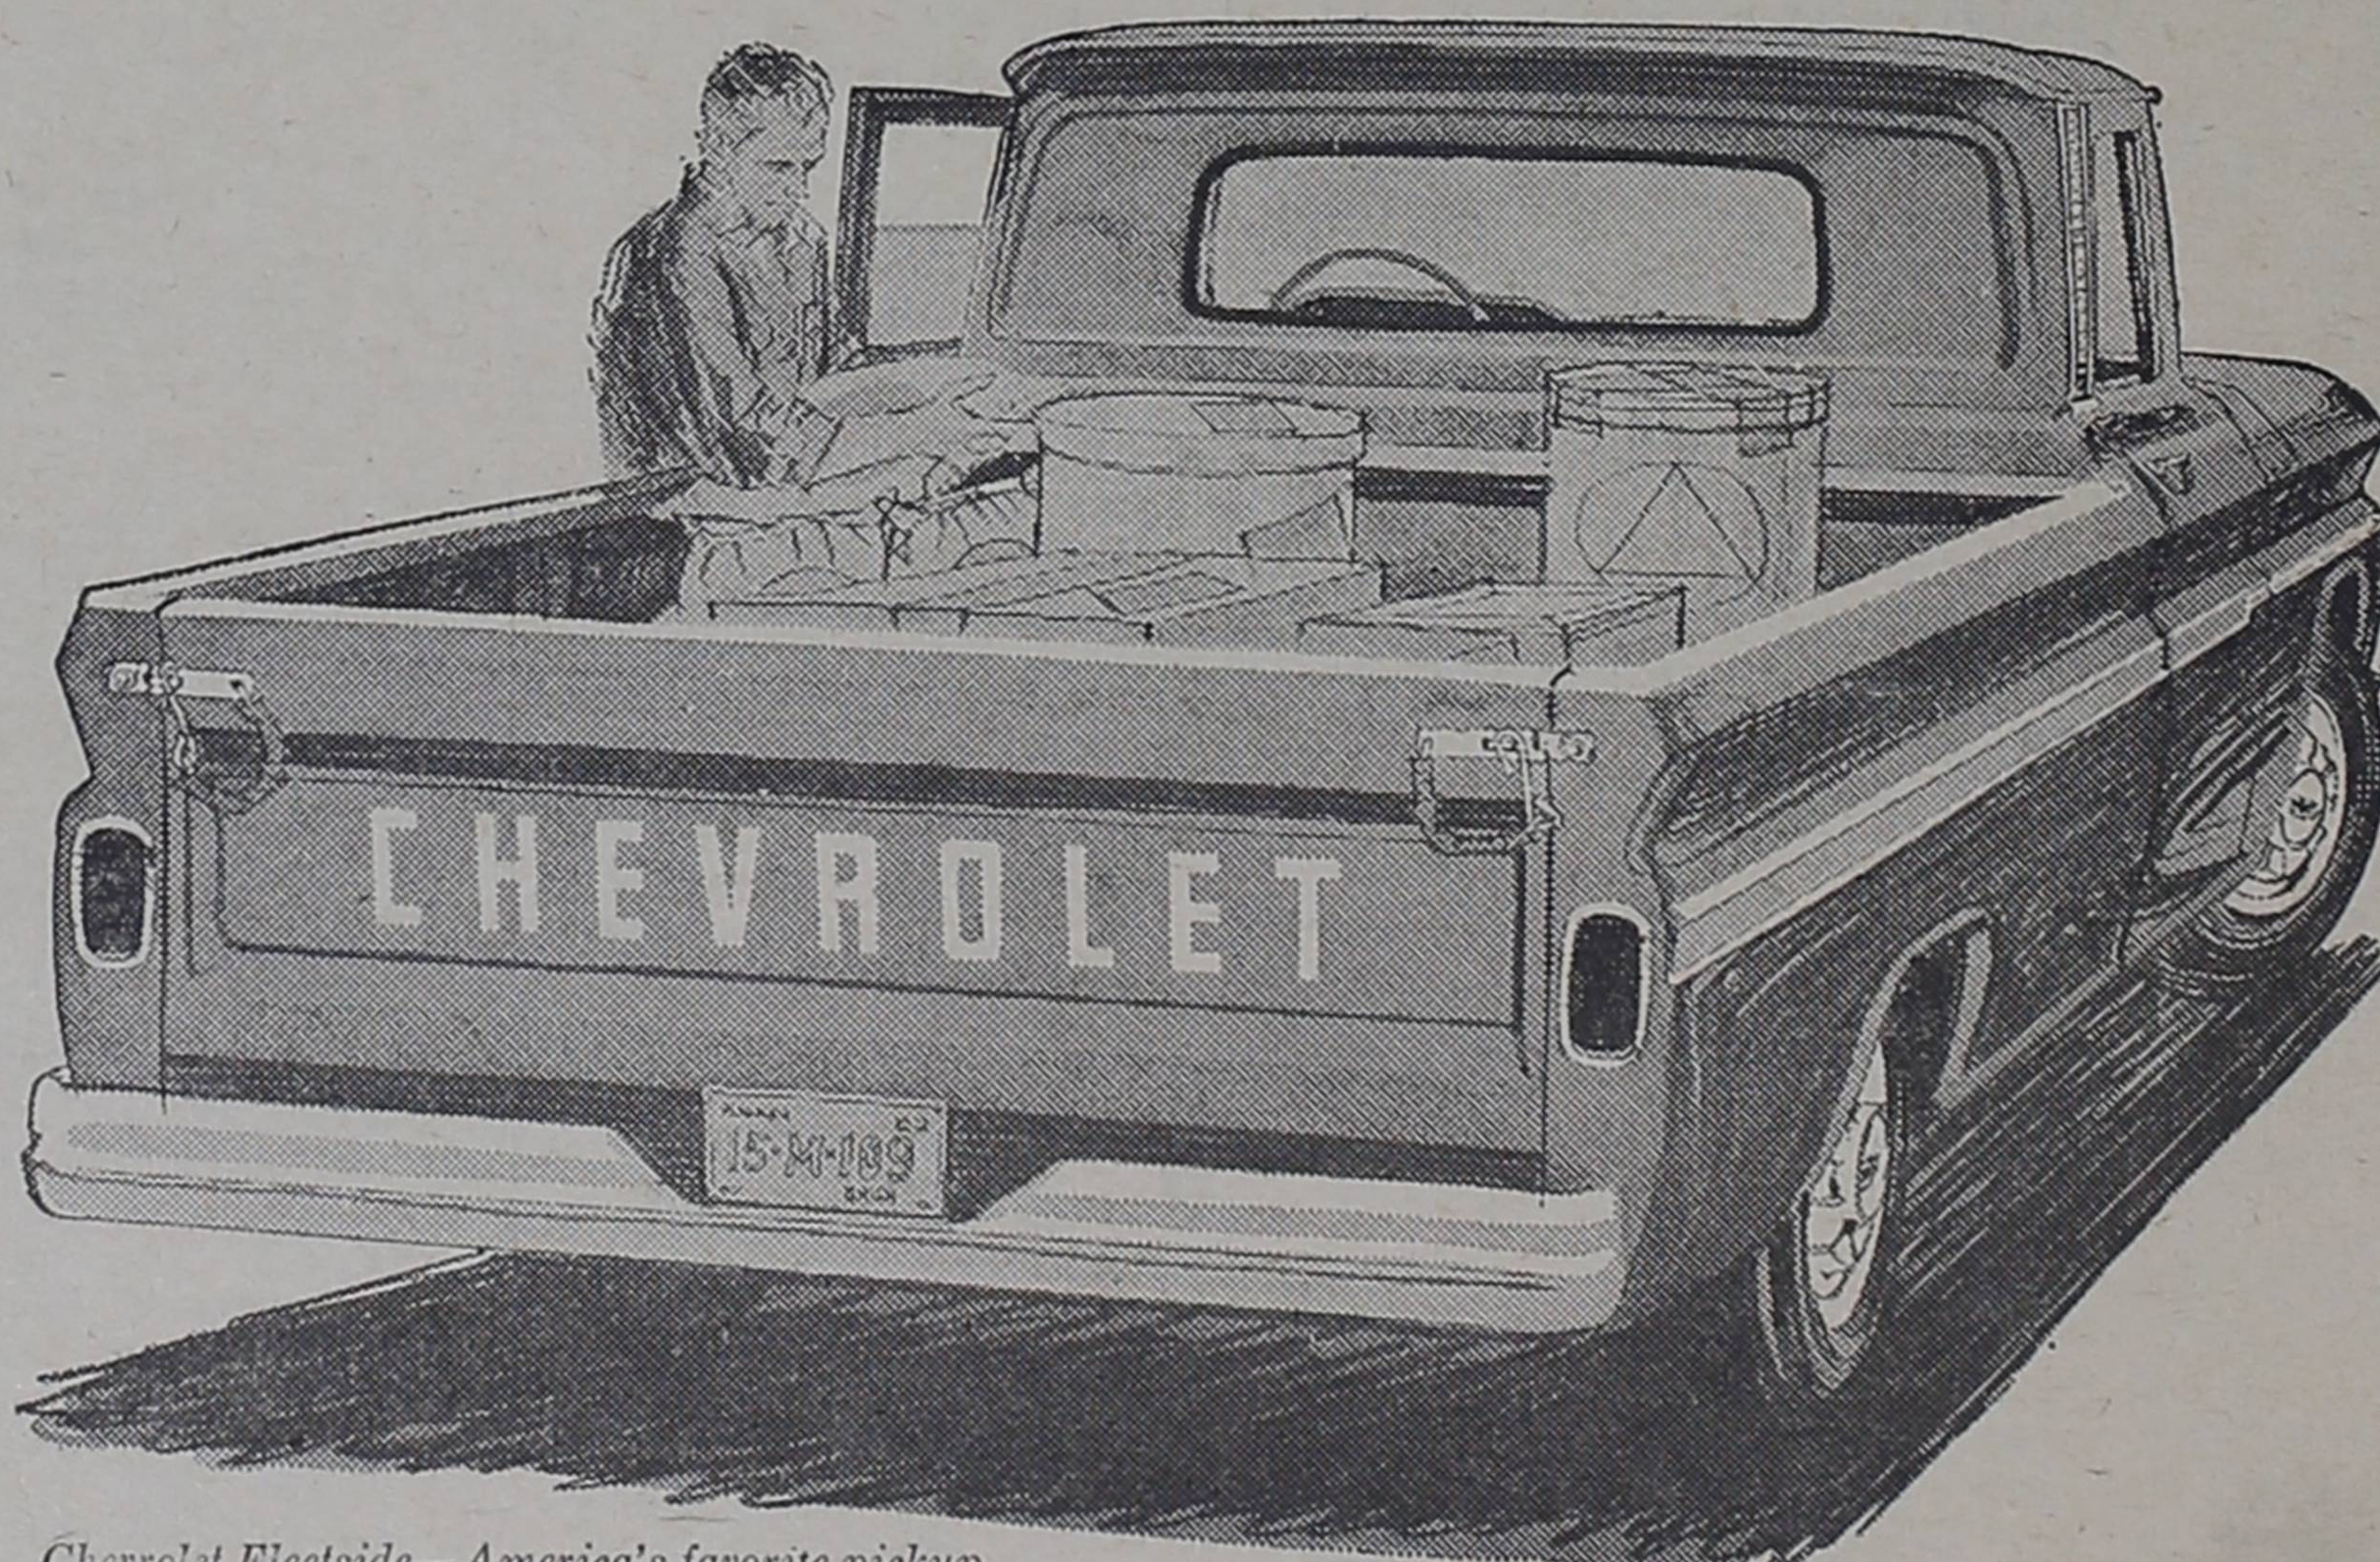

...it's a good one!

A truck that doesn't call for a lot of attention, that just does its job every day, is a great asset. This is the thing most users tell us they like about Chevrolet trucks—their reliability. And this, of course, comes from quality.

Sound engines, strong frames, double-wall construction, insulated cabs, separated bodies

and cabs, tight tailgates . . . are some of the features that help Chevrolet trucks work longer and bring back more of your investment at trade-in.

If you wish you had a truck that cost you less thought and attention, put your money on quality. Make your next buy a dependable Chevrolet truck.

**Back from Week's  
Trip to Colorado**

Colorado was the vacation spot this year for Mr. and Mrs. Joe Hoenig who returned Monday reporting a grand time the week they were away.

In Colorado Springs they saw the Royal Gorge, Garden of the Gods, top of Pike's Peak and viewed the Seven Falls at night. In Idaho Springs they stopped to see Mr. and Mrs. Frank Wiese of Gainesville who are there for the summer and the two couples went sight-seeing. In Central City, the famous old mining town, they went down into a once productive gold mine. They visited Mother Cabrini's Shrine outside Denver and went through Coors' Brewery. Weather was unusually warm for Colorado with a prevailing 90 degree temperature. However, atop Pike's Peak it was 30 degrees.

On the way going the Hoenigs stopped in Hereford to spend the night with Theresia Koelzer. They also visited the John Noggiers and saw Father Louis Koelzer, newly ordained priest.

On the way home they stopped in Amarillo to see the John Furbachs and their son Johnny and his family. Last stop was at Rhineland to see the Leo Fetsch family but they weren't at home so they missed seeing them.

The same colors were also noted in a daisy corsage for the honoree from the hostesses.

A stick bride and groom held a vantage spot in the party room and snapshots and movies were made. Miss Hess and Mr. Berend will be married here August 4.

### Silver Jubilee of Nun Observed at Family Gatherings

The silver anniversary of Sister Emma Marie Herr who made her vows as a Franciscan nun 25 years ago was occasion for reunioning of the Herr families here during the weekend.

Sister Emma Marie's jubilee year vacation permitted visiting with all her family and most of the relationship gathered here to honor her Saturday and Sunday. She is the daughter of Emil Herr of Hereford.

Mr. and Mrs. Ben Luke were hosts in their home Saturday night for a gathering of their children and Mrs. Luke's sisters and brothers.

Mrs. Dan Luke baked the anniversary cake and it was served with punch. Home movies were shown including those taken here at the first mass of Father Eugene Luke, cousin of Sister Emma Marie.

Sunday, Mr. and Mrs. Joe Luke entertained with a noon dinner for the Friske relationship. And Sunday evening all the kinfolk were together in the parish hall for a covered dish supper.

Among out of town relatives here for one or more of the events were Emil Herr of Hereford, Mr. and Mrs. Wilfred Herr of Houston, the Harold Lukes and children of Arlington, the Norman Lukes and children of Shreveport, La., and the Carl Herrs of Pilot Point.

After visiting in Hereford Sister Emma Marie will return to Oregon.

### Visit in Germany With Son, Family

Bubbling over with enthusiasm and relating many happy experiences of her vacation in Germany is Mrs. Louis Roberg who adds that seeing her granddaughter was the highlight of it all and it was a wonderful reunion with her son and daughter-in-law.

Mrs. Roberg was in Kitzingen two weeks with Lt. Kenneth L. King, his wife Janet and their daughter Kimberly Ann. She made the round trip by jet airliner, the Kings meeting her at Frankfurt and seeing her off there again.

The army post is just like "another America" but old world history was reviewed in side trips.

The Kings and his mother visited in Nuremberg and in the resort city of Bad Kissingen. In Rothenburg they saw the Shepherd Dance which is presented once a year and here Mrs. Roberg secured paintings and etchings. In Wurzburg the antique shops were fascinating and the Roberg home will be adorned with a number of pieces when they arrive. Included in Mrs. Roberg's purchases are a clock a hundred years old, a mug 90 year old and a pewter pitcher dated 1546.

### Valley View Lady Has Letter From President Kennedy

Thrilled over a thank-you note from the White House is Mrs. Ben Luttmner of Valley View. The message from President Kennedy is in appreciation of a birthday greeting and spiritual bouquet from Mrs. Luttmner.

The Valley View resident is a native of Germany and one of her proudest and happiest times was when she became a naturalized citizen in Cooke County in 1949. She is also proud that her nine-year-old son Bernard is a native Texan. He is an A student in Valley View school and an altar boy at St. John's Church.

Mrs. Luttmner has learned to speak and write English well. She has a sister who is a nun, still in Dusseldorf, Germany, and there were two boys in her family. Both were priests and both were victims of World War II. One was killed in an air raid in the Pacific, the other in Germany.

During the July Fourth holidays the Ben Luttmner family was all together. Mr. Luttmner's other four sons and his two daughters were at the family home, together for the first time in 21 years. They are Walter of Canute, Okla., Clarence of Sweet Home, Oregon, Edwin of Lebanon, Oregon, and Albert Luttmner of Valley View, and Mrs. Aloys Voth of Lindsay and Mrs. Andrew La Bauve of Lake Charles, La.

Mrs. Luttmner has learned to speak and write English well. She has a sister who is a nun, still in Dusseldorf, Germany, and there were two boys in her family. Both were priests and both were victims of World War II. One was killed in an air raid in the Pacific, the other in Germany.

### Baptism Service

Mr. and Mrs. William L. (Bill) Birden of Milwaukee, Wis., have named their baby son William Lowell III. He was christened July 8 with proxy sponsors for Mr. and Mrs. P. W. Hellman of Tulsa, Okla., who are their nephew's godparents. A phone visit Mrs. Birden had with her parents, the J. M. Weinzapfels told about the baptism, and they exchanged other family happenings. A tradition was carried out in the baby's baptism . . . he wore the christening dress his grandpa Weinzapfel wore and which has since been worn by every second generation infant in the family at baptism.

 By Mrs. John Richey

Mr. and Mrs. Joe Doughty went to Burneyville, Okla., Monday to visit her parents, the J. S. Hodges, and check on her mother. Mrs. Hodges has been ill.

Wayne Doughty is back at home after making a tour of Kansas and Colorado with a harvesting crew.

Visiting the Paul Hickmans — coming Monday for a vacation visit — were her sister and husband, the Ernest Guytons and son Jeffrey of Dallas.

Mr. and Mrs. J. T. Cole have been entertaining their grandchildren Nancy and Michael Ray Cole of Gainesville this week while their parents, Dr. and Mrs. James Cole are on vacation in New Mexico. Other visitors with the Coles Saturday were his brother and wife, the Clem Coles of Fort Worth.

Donna Barnes returned to her home at Hood Saturday after a three-week vacation with her uncle and aunt, the John Richeys.

Lloyd Barnhart was in Okemah, Okla., during the weekend to visit his father.

Mr. and Mrs. Eddie Collins and family of Lewisville and the Ray Winchesters and children of Arlington spent the weekend with their parents, the Charlie Winchesters who went back home with them for a week.

Mr. and Mrs. Sheldon Doughty came to spend Sunday with his parents, the Joe Doughtys and took their children Melinda and Kenneth back home after a week's vacation. Sheldon Doughty of Valley View also spent the day with his parents.

Accident victims over the weekend were Mrs. Jim Shiflet and Mrs. Nathan Whitt. Mrs. Shiflet cut two fingers on her right hand as she reached for an electric fan to keep it from falling off the table and had to have several stitches to close the cuts, along with tetanus shots. Mrs. Whitt slipped and fell, and while X-rays showed no broken bones she suffered considerable pain.

Mr. and Mrs. Robert Porath and daughter Sandra of Dallas visited Sunday with her parents, the Jim Shiflets.

Rev. and Mrs. Jerry Baker and children of Dallas were dinner guests of Mr. and Mrs. Grady McElreath after Baptist Church service Sunday.

Mr. and Mrs. John Richey visited Sunday with the Fred Richeys at Sivel's Bend. Other guests there were the Raymond Reeds and children Scott and Jana of Gainesville.

"By jove," said a stranger at a dance, "what a long and lanky woman that is over there!"

"Hush," his host whispered. "She used to be long and lanky but now she's tall and stately. She just inherited a million dollars."

Hickmans, Tammie Sue Hickman and her granddaddy were the honorees having birthdays together. Coming with the Paul Hickmans were Mr. and Mrs. Barry Joffron of Irving.

Becky, Barby, Mike and Pat Davidson are having a vacation this week with their uncle and aunt, the Bill Roes and daughters Elizabeth and Reba at Callisburg. Elizabeth and Reba spent several days with their grandparents, the W. F. Davidsons, and then their parents took all the youngsters home with them. Mr. and Mrs. Roe were Friday and Saturday visitors. Joining them Saturday were Mr. and Mrs. Bo Snow of Greenville, making all of Mr. and Mrs. Davidson's children and grandchildren together with them for the evening meal Saturday.

Arthur Reeves and daughter Linda of Odessa spent Sunday and Monday with his niece, Mrs. Sam Sparkman and family and V. M. Ramsey. Additional dinner guests in the Sparkman home Sunday were Rev. and Mrs. L. A. LaMance and two sons of Bonham. Rev. LaMance conducted services at Shiloh Baptist Church.

Mr. and Mrs. Ambrose Baker and sons of Wilson, Okla., were Sunday visitors with his brother-in-law and sister, the W. F. Davidsons.

Mrs. Vivian Maupin of San Antonio visited her mother, Mrs. B. G. Lyons and other relatives during a two-day stop before leaving Sunday afternoon from Dallas on a train with 30 other women for a trip to Chicago. Mrs. Maupin also visited her sister, Mrs. Marie Stiles at Gainesville and the Bill Paces and two daughters and the Beverly Eastins and daughter of Ardmore in taking Mrs. Maupin to Dallas Saturday for a UBA business meeting. While she attended that session the rest of the family visited a park and zoo. Sunday they all saw Mrs. Maupin off on the train.

**Binford Kin Have Annual Reunion**

The Clem Binford children and kin held their annual reunion at the old Binford home place at Marysville over the weekend . . . starting Friday night and continuing through Sunday.

**The story of**

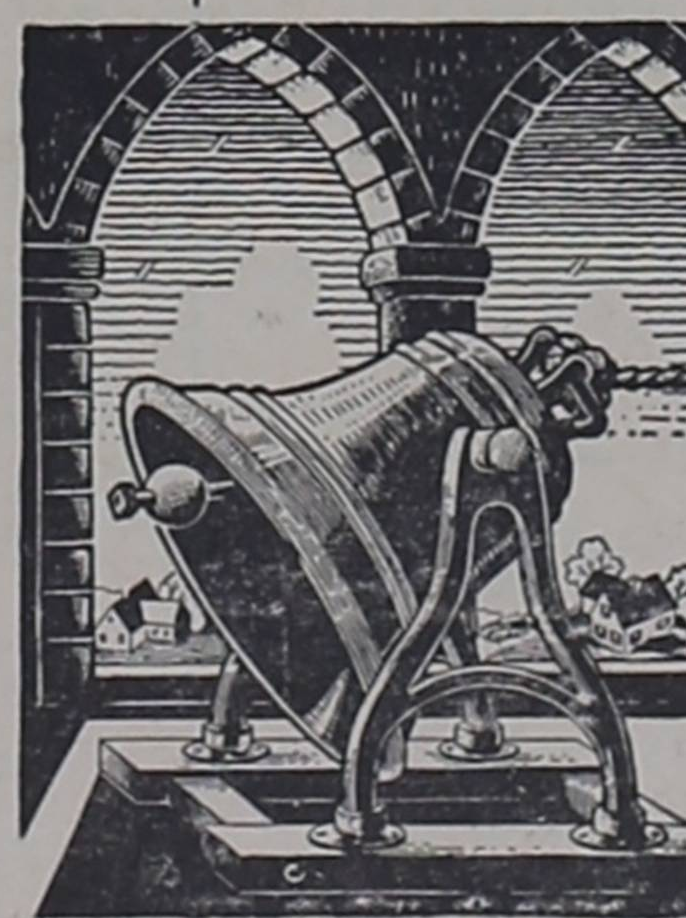

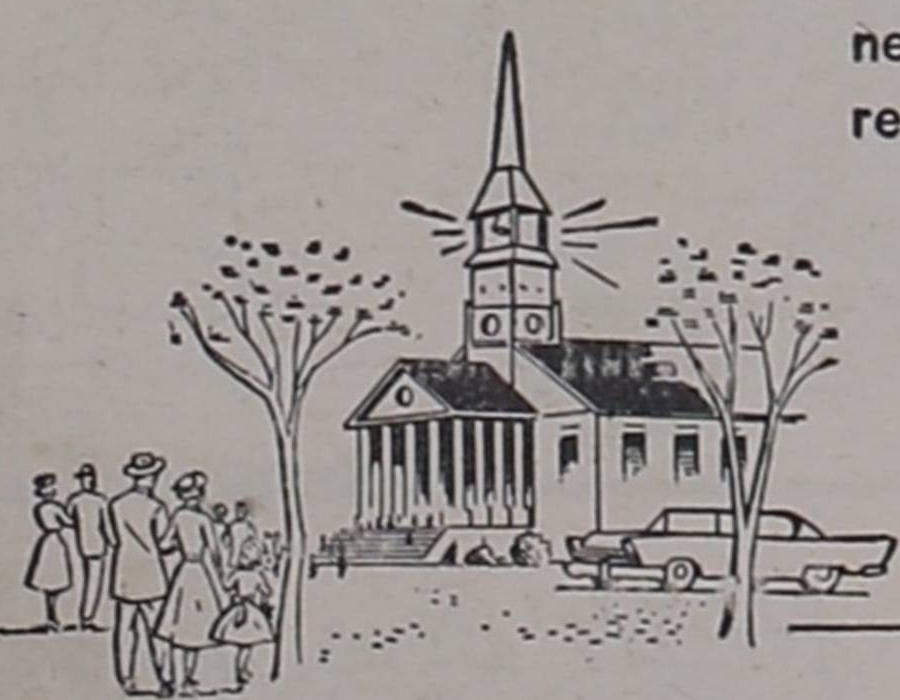

**WILLIAM ALLEN WHITE and The Church Bell**

"I don't need to advertise," an established merchant in Kansas once told William Allen White, renowned publisher of The Emporia Gazette. "Everybody knows me and knows what I sell."

"In that event," replied the thoughtful publisher, "we can dispense with the oldest advertising medium for the oldest institution in the world. See that church down the street," continued Mr. White, pointing to one of Emporia's oldest and most beautiful structures, "That church has been established here for many years. Everyone knows what it is and what it does. In the tower of the church is a bell and every Sunday it rings out to remind folks to come to church.

"Shoppers go where they are invited and stay where they are well treated," concluded the publisher.

"Regardless of how well established a firm may be, newspaper advertising is a repeated invitation and a reminder to come and do business with that store."

### Facts About Social Security

When a person files for his social security retirement benefits, his monthly amount is related to the amount of his earnings in past years. Frequently one will retire and file for his social security and then go back to work. If a beneficiary returns to work in employment covered by social security, he must continue to pay social security tax.

Gus Jones, District Manager of Social Security, says that many beneficiaries are wondering if they will get any credit for earnings received after they file their original application. Jones said that it was possible that these earnings would increase the monthly rate; however, in order to receive this increase one must request by application that the Social Security Administration recompute the amount.

If you are one who has had substantial earnings since filing for your social security, the Social Security Administration suggests that you contact their local representative. He is in the Gainesville Post Office on each Tuesday and Thursday from 9:30 a.m. until noon.

**Program on Crafts Is Presented at HD Club Meeting**

A demonstration of crafts — mosaic tile trivets and pebble craft pictures — was an interesting program for members of Muenster Home Demonstration Club at their July meeting. Fourteen members and two guests watched as Mrs. Albert Fleitman gave instructions and Mrs. Al Fleitman made a trivet and Mrs. Albert Schilling made a picture as she gave instructions in pebble craft. The meeting was held in the home of Mrs. Clyde Fisher with Mrs. Paul Fisher as hostess. Mrs. Albert Fleitman conducted the business session. Members filled out achievement forms listing their activities including canning, freezing landscaping, home repairs and improvements. The group discussed the family picnic and decided to have it some time in August. They also discussed their entries in the County Fair. They'll arrange TV trays and these must be in place July 24 for judging. After adjournment, there was a social period with a game in which Mrs. Charley Hellman won the prize. The hostess served refreshments and members were reminded that Mrs. Alois Rohmer will be hostess for next month's meeting. The two visitors were Mrs. Arthur Williams who signed up as a member and Mrs. Bernadine Keyser of Mt. Carmel, Ill., who is vacationing with relatives of Wieler families and attended with Mrs. Norbert Walterscheid.

**SOIL CONSERVATION DISTRICT NEWS**

**OUR SOIL ★ OUR STRENGTH**

"Did ditches appear in your cropland fields and did silt collect at the bottom of the slopes as a result of the hard June rains?" That is a question being asked by Soil Conservation Service personnel. June rains caused soil loss on many un-terraced fields in the Muenster-Saint Jo area of the Upper Elm-Red District and serve as a reminder that sloping fields need the protection that terraces can give them. Terraces break up long slopes into short slopes and "walk" the water slowly across the fields. Terraces in combination with rotations of soil building crops and proper use of crop residues can stop expensive losses of soil and water.

This year landowners can build terraces for \$1.00 per hundred feet plus 30 per cent of the cost of fills under the ACP cost-sharing program. Soil Conservation Service technicians staked nearly 4000 feet of channel type terraces on the C. O. Taylor farm last week. These wide, easy-to-cross structures will outlet onto a Bermuda grass waterway that was sodded to provide a safe disposal area for runoff water. Ponds have been built recently on the farms of Paul and Urban Endres, Wilfred Reiter, J. M. Shiflet and Victor Sicking. These ponds will enable the landowners to improve their grasses by providing water so that a system of rotation or deferred grazing can be carried out to give the grasses a rest during a part of the growing season. The following quote from Renner Research Station is worth pondering: "When a farmer burns a 100-acre stubble field he literally and figuratively burns \$1000 in cash!" How many farmers can afford to do that?

 A group of 25 young people got together Friday night to celebrate the sixteenth birthdays of Patsy Streng and Donna Tuggle. Patsy's birthday was July 13, Donna's was July 17. Party scene was City Park. East is west and west is east on the 180th meridian.

**Facts About Social Security**  
 This month marks the fifth anniversary of the payment of social security disability insurance benefits according to Gus Jones, District Manager of the Sherman Social Security Office. "Now over a million persons, disabled workers and their dependents, receive monthly cash benefits of nearly \$75 million monthly under the social security disability insurance program," Jones explained. "Beginning with July, 1957," Jones noted, "benefits became payable to severely disabled workers between the ages of 50 to 65. Amendments in 1958 made benefits payable to the dependents of these workers. Then in 1960, a further change in the law removed the 50-year age requirement. Benefits are now payable to disabled workers of any age and to their dependents." The local Social Security District Office is located at 300 East Houston, Sherman. Noel Wall, field representative from that office, visits Gainesville in the basement of the post office each Tuesday and Wednesday morning from 9:30 a.m. until noon.

**Two Sisters Share Birthday Honors**  
 Sisters Karla and Rita Sue Owen celebrated their birthdays together with a party Saturday afternoon at the home of their parents, the Ray Owens. **County FB Sends Two Delegates to State Institute**

Cooke County Farm Bureau will send two students to the 14th Annual Texas Farm Bureau Institute July 24-27 at the Robert Driscoll Hotel in Corpus Christi, according to J. T. Cole of Sivel's Bend, president.

Those who plan to attend are R. F. Hassenpflug of Valley View in the adult division and Steve McElreath of Sivel's Bend in the youth division.

"The state-wide institute is held each year to provide training for county Farm Bureau leaders so that they can be more effective in fulfilling their responsibilities," president Cole said. In addition to specific training for leadership in Farm Bureau, there will be general assembly sessions on citizenship and economics.

Special assembly sessions will be conducted by Dr. Harry M. Love, Department of Economics, Virginia Polytechnic Institute, who will lead a discussion on "opportunity versus security," and Dr. C. L. Kay, vice-president for Public Services, Lubbock Christian College, who will speak on "Challenge of the Sixties," dealing with citizenship.

Guest instructors include Dr. Earl H. Knebel, head of Department of Agricultural Education, Texas A. and M. College, and Warren Newberry, American Farm Bureau Federation field representative. Other instructors include Texas Farm Bureau staff members and officers.

**Gainesville Sends 25 Car Caravan On Booster Trip**

A 25-car caravan of ballyhooing Gainesville boosters is due to invade Muenster next Tuesday morning in the interests of a sales spectacular promoted by service clubs and 58 participating business firms.

The promotion, to be held on Thursday, Friday and Saturday of next week will be a combined carnival and sidewalk sales carrying out the Gay Nineties theme. Participants will be dressed accordingly on the caravan trip and for the duration of the event.

The three day sales spree will end with a Saturday night show on the courthouse square featuring an old fiddlers' contest, an ugliest man contest, hog calling and husband calling contests, and music by Red Gordon's band.

percent of eligible voters participated last year in the 1962 crop wheat referendum. Out of an estimated 1231 eligible voters 94 voted in favor of marketing quotas and allotments while 121 voted against.

The Farm Bureau leader urged wheat growers to consider the following facts before casting their votes:

1. Quotas have not prevented surpluses. After nine crops have been produced under marketing quotas, the wheat carryover is about 1.3 billion bushels and total supply about 2.4 billion bushels. The surplus has increased because the price support for wheat encouraged increased production and the acreage allotment program has not been effective in curbing production.

2. Wheat is in trouble with taxpayers. Some 34 percent of the \$7.2 billion in CCC stocks is invested in wheat. The wheat export program, costing an export subsidy of 57 cents per bushel, is the most expensive feature of entire farm program. Cost of the wheat program has become a serious public relations problem for all of agriculture.

3. Controls lead to ever-increasing restrictions. In the past many growers have been willing to go along with the wheat quota program because acreage cuts were limited by the 55-million-acre minimum provision, and also because diverted acres could be used for feed grain production. If the 1963 allotment had been set according to the supply formula in the law — that is, without the 55-million-acre minimum — it would have been 10 million acres. In the bill just rejected by the House were provisions to eliminate the 55-million-acre allotment so that allotments could be cut 20, 30, 40 percent or more, and to require producers to idle land with rental payments made at a declining rate.

4. Producers need to look ahead. The alternatives facing producers in the forthcoming referendum are heavily weighted on the side of a "yes" vote, if producers think only of the 1963 crop. But, there is a need to look ahead because the vote in this year's referendum can affect future programs, not only for wheat, but also for feed grains and livestock.

longer receive a credit and those with a record of traffic violations will no longer be penalized. It's plain to see who is pleased and who is displeased by the change. And at first glance it seems that there is good reason for the sentiment on both sides. In relation to the policy that has been in effect, this comes as a concession to the undeserving and a penalty to the deserving.

Still, it must be admitted that the former regulation was needlessly harsh in many cases. Lots of traffic violation tickets resulted from unfortunate circumstances rather than recklessness, hence lots of penalties on insurance premiums were not really deserved.

There was also the element of double jeopardy. After being fined for the traffic violation people were also fined on their insurance. As often pointed out, that was a severe penalty, especially on persons who had no intentions of violating the law or were not habitually bad drivers. So, it seems that the change is justified.

However, the big question now is whether the change will be reflected in a higher accident record. The safe driving law is credited with lowering state traffic deaths about 345 a year. Will the legislature now find another way of putting the fear of the law into drivers? Something, it seems, is needed to produce the good effect that we got from our bad regulation.
