MUENSTER, COOKE COUNTY, TEXAS, JANUARY 12, 1951

NUMBER 8

Architect Visits to Discuss Plans for New Parish Church

Of all reasons for objecting to the rebuilding of an army camp, the one advanced by the group of Brownwood people is probably the most original... and perhaps also the least persuasive. We can just imagine how much the army big brass will be impressed by the plea not to make Brownwood an atom bomb target. If that is the basis upon which camp sites are to be selected it begins to appear that Uncle Sam will not be able to locate in any populated area, which leaves only the desert for future camps.

Of course the Brownwood people probably realize that all camps cannot be isolated, so their petition amounts only to a request to invite atomic attack somewhere else, not on them. Their attitude is understandable, but somewhat lacking in validity. There is no reason why they should be spared a risk which millions of other Americans will have to take.

Considered in another way, the petition seems even a little absurd. We can hardly imagine an enemy carrying bombs a couple of thousand miles inland when more important targets are near our boundaries. Brownwood's chances of being hit by the bomb are actually remote. If the enemy ever gets that far he probably won't need to bomb. He'll have the country under control anyway.

So it seems the atom bomb is only a weak excuse to conceal other reasons. Maybe the people don't want to give up land again. Maybe they don't want more of the confusion and inconvenience they experienced before. On the other side there are people hoping the camp will return. They want more business booms and high rentals.

Thank goodness Cooke County has not been waiting about atom bombs in connection with the possibility of re-activating Camp Howze. Lots of talking has been done, but all of it boils down mostly to personal considerations... the full list of reasons pro and con which are prompted by memories of a few years ago.

From what yours truly has heard on the subject it seems that contrary sentiment at this time carries a little more weight. From the viewpoints of both soldiers and civilian Howze is a less desirable campsite. And the reason in a nutshell is that no city is able to absorb the overflow from a camp which is four times its own size.

One can easily understand why soldiers used to call it Camp Lousy. When they flooded the town they found a pitiful shortage of the diversions, conveniences and necessities they craved. They lived in a constant state of disappointment. If they brought wives or children to town they found it most difficult to get living quarters. All in all, Gainesville was not able to do much for soldier morale.

Civilians, too, had a rather rough time. Facilities geared to their population were swarmed by soldiers. Stores, movies, churches, busses, service stations... everything... were crowded far beyond their intended capacity. Gainesville was far more uncomfortable because of the camp than a large city would have been. So, for the sake of all concerned, lots of people are hoping that Uncle Sam will by-pass Gainesville this time in his search for campsites.

As regards the airfield, however, the case is different. In the first place it seems Uncle Sam should find a way to make use of the tremendous investment he already has there. Why let that lie idle and gig us taxpayers to spend millions somewhere else. Furthermore the small number of trainers that could be accommodated would not be too much for the city to absorb. That number of soldiers could be comfortable and happy and they would not place a burden on the normal population. Enough men to make

(Continued on Page 8)

Muenster's new Sacred Heart Church project got another new start last Friday when Edward J. Schulte, architect of Cincinnati, Ohio, met here briefly with members of the building committee, inspected the building site, and agreed to draw the plans and specifications and supervise construction.

Another development came Tuesday when a representative of the county surveyor's office surveyed the site and prepared an elevation map for the architect. Next on schedule are soil tests to determine formations and depths.

No time was set for the beginning of actual construction on the new church.

Prairie Valley and Forestburg Humble Muenster Hi Teams

In their only conference games to date both Muenster high school basketball teams have discovered that they are completely outclassed this season. Prairie Valley girls here Tuesday night trimmed the local sextet 44 to 23 and the Prairie Valley boys handed Muenster a near shut-out of 46 to 6.

The previous Friday night at Forestburg scores were about the same. Both of the Forestburg teams won by top heavy scores.

Though it is obvious that neither of the teams have a chance in this year's district competition, Coaches Hood and Coe are pleased with the progress being made. Both teams are improving nicely in their ball handling and can be expected to improve their marksmanship as they go along. As regards the present weak record, they consider it is a normal outcome when an inexperienced team meets exceptionally good teams. Their principal hope is to teach game fundamentals this season and develop stronger teams next year.

Games scheduled for the coming week are with Saint Jo there Friday night and Forestburg here next Tuesday night.

Pat Hennigan Heads Firemen For 1951

Pat Hennigan heads the Muenster Volunteer Fire Department as fire chief for the coming year as the result of the annual election of officers Monday night. Another new officer is Earl Fisher, assistant chief. J. C. Trachta was reelected secretary-treasurer.

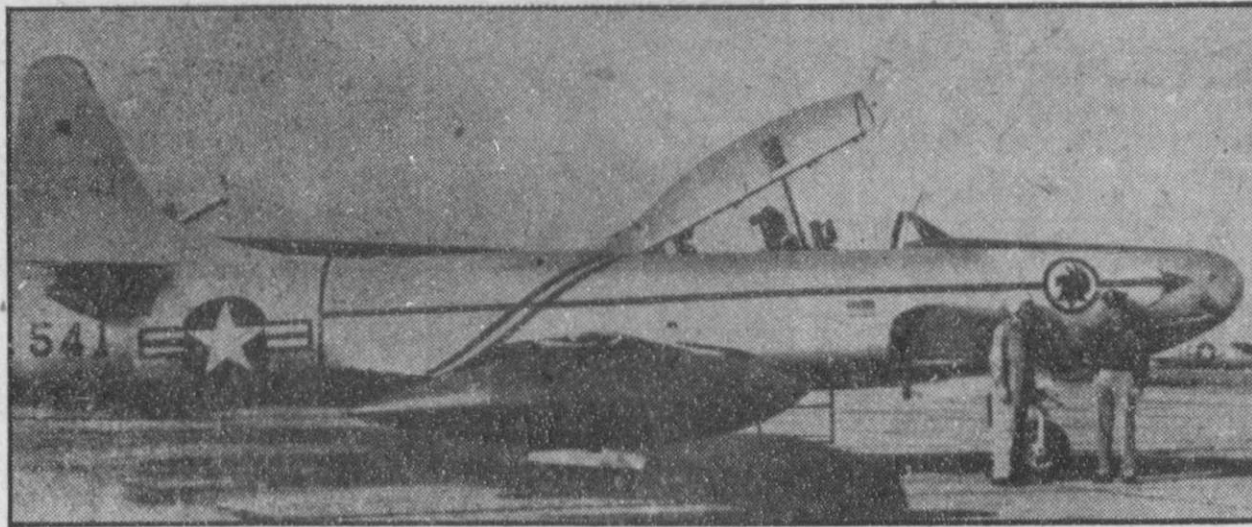

Retiring Chief Herman Fette gave a report on the department's activity during the past year and members agreed to continue practice session on the fourth Monday and hold their business meetings on the second Monday of each month. The department has 20 members.

Eugene Hoedebeck Joins Wilde Staff

Eugene Hoedebeck, a former Muenster boy, is back here since Monday when he joined the mechanical department of the J. B. Wilde Garage. His wife and young son and daughter will join him here to make their home as soon as he secures living quarters.

Hoedebeck, a factory certified Chevrolet mechanic, spent the past four and a half years in the mechanical department of the Chevrolet agency in Denison. Prior to that time he was in the army 28 months and served with an anti-aircraft battalion in the Pacific theatre. He is the son of Mr. and Mrs. Fred Hoedebeck.

The Al Yostens drove to Celina Saturday to be overnight guests of her parents, the Joe Tischlers, and on Sunday they all went to Dallas to visit Sue Tischler who is a patient at Baylor Hospital recovering from an appendicitis operation.

JETS GUARD NEW YORK—The U. S. Air Force announced recently that all-weather jets—Lockheed F-94 Interceptors like the one above, photographed at McGuire Air Force Base, Ft. Dix, N. J.—are guarding the East Coast and New York City. The F-94 is the nation's first jet to be equipped with radar for night fighting and afterburning for faster speed and climb.

City Adds Thirteen New Street Lights

Street illumination in Muenster will be doubled this week. TP&L linemen are now installing 13 additional street lights and expect to finish the job before the end of the week.

The 13 new installations will give the city a total of 25 well scattered lights which are expected to provide adequate general illumination all over town. All are being mounted on 16 foot brackets, 10 feet longer than the old installations.

Cowan Will Report On School Trends At Next PTA Meet

Signs of what to expect in Texas educational developments will be presented to members of the Parent-Teachers Association at its January meeting next Tuesday night.

Superintendent Weldon Cowan will make a report on high points of the mid-winter administrators conference of Texas school superintendents held in Austin on Thursday, Friday and Saturday of last week... especially those parts of the conference which have a bearing on the local school system.

Cowan attended the Austin meeting with County Superintendent Moss and superintendents of the Gainesville, Valley View and Era schools.

News of Sick And Injured

Fred Hoedebeck was up and around and attended church services for the first time Sunday following a several weeks' illness and major surgery.

Albert Bauer is receiving medical treatment at Gainesville sanitarium. Formerly of this city he now makes his home south of Gainesville.

13 New GIs Sweat Out Transfers to Training Stations

To date the eight Muenster youths who got into the Army Air Force last week just ahead of the enlistment freeze are still together at the Lackland Air Force Base reception center in San Antonio.

Letters to home folks this week say that all are in the same flight and living in the tents that have been set up to accommodate the sudden flood of volunteers. After about two weeks of processing they are due to receive assignments to their training bases.

Four of the boys, Ted Gremminger, Mike Luke, Ernest Sicking and Rupert Hoenig are tent mates. Near them Wilbert Vogel and Julian Walterscheid are together and a little farther down the line Jerry Fette and Henry Pels also are tent mates.

A similar report comes from the five who left on Jan. 5 for selective service induction. Paul Luke, Alfons Koesler, Virgil Streng, Leo Hesse and Herbert Yosten are together at the Camp Chaffee, Ark., reception center awaiting assignment to their training camps. Like the others they expect to be transferred in about two weeks.

Annual Meeting of FMA To Be Held In Auditorium Friday

Notices sent out during the past week end advised members of the Farmers Marketing Association that they will have their annual general meeting Friday, Jan. 12, at 1 o'clock in the auditorium of the Muenster High School.

The meeting will consist principally of the regular election of a president and directors, a report on the past year's business and distribution of about \$74,000 in patronage dividend checks.

WITH THE MEN IN SERVICE

Robert Bayer is settled at Fort Riley, Kansas, for 15 weeks of training with the infantry. His address is: Rct. Robert J. Bayer, US 54035744, Co. D, 85th Inf. Regt., 10th Inf. Div., Fort Riley, Kansas.

Cpl. Kenneth Wiesman has completed a 30-day leave with his parents, the Al Wiesmans and is enroute back to Fairbanks, Alaska.

Alois Sicking and Leonard Walterscheid of Fort Sill, Okla., spent the weekend with home-folks. Alois has completed basic training with a Field Artillery Observation Battalion and will continue training there. Leonard reported that for him it looks like an overseas assignment soon.

Gussie Felderhoff, who is training at Fort Riley, Kansas, has the following address: Rct. August J. Felderhoff, US 5403-5739, H&S Co. 66nd Hv. Tk. Bn. 10th Inf. Div., Fort Riley, Kan.

Sgt. and Mrs. John Durbin and three sons of Japan arrived here Wednesday for a surprise visit with members of her family, the Frank Yostens. They made the entire trip by plane in three days to Dallas where they were met Tuesday night by the Ferd Yostens of Fort Worth and spent the night there. Sgt. Durbin has a 30-day leave.

Clifford Otto who is training at Fort Benning, Ga., was recently transferred from a headquarters company in an infantry regiment to a tank company and has a new address: Rct. Eugene C. Otto, US 54020477 Co. A, 40th Tank Bn., 4th Div., Fort Benning, Ga.

Capt. and Mrs. Charles Taylor and three children arrived here Friday from Dayton, Ohio, to visit her folks, members of the Joe Fisher families. They have a ten day delay enroute to Oklahoma City where Capt. Taylor has been transferred by the army air forces. Capt. and Mrs. Taylor left Monday to look for living quarters in Oklahoma City. They will be back here for another visit before they move.

Bus Shed Moves To New School Ground

The final move in the Muenster public school's change from its old to new location will be made next week when the sheet iron bus shed and maintenance shop will be moved to a location directly north of the new building.

Superintendent Weldon Cowan said Wednesday that the site was ready for pouring the concrete foundation Thursday. The work is to be done by members of the Veterans Agriculture class as a project in their class work. The veterans have their shop classes in the building.

The moving job will be handled by house movers. They intend to cut the building in 2 sections move them separately, and put them together on the new foundation.

Mr. and Mrs. Orville Malone and three children of Fort Worth spent the weekend with her mother, Mrs. Katy Roberg and family.

Steady Work Pays Big Dividends In Street Program

Little by little Muenster is acquiring a good system of streets. Constant grading along with a generous addition of surface gravel is gradually shaping them for smooth driving and proper drainage.

On a program adopted by the City Council some months ago all streets are getting a general repair job. Work consists of clearing grader ditches, shaping the surface, filling in low spots, cutting dips and adding gravel. The intention is to continue the work steadily as weather and the budget permit until all streets have been put in good condition.

Though most of the work is being done now the finishing touches in many places will have to wait for the next rain. Until the ground soaks sufficiently to keep it from coming out in clods the grader will not be able to put the final trim along the property side of grader ditches. Another detail in the unfinished look is the scattering of rocks at the edge of some people's lawns. The rocks were thrown there to get them off the road while work was in progress and city workers will be along soon to haul them away. Property owners who find them on their lawn are asked to bear with the city a while and not throw them back on the road.

Special pains are being taken to provide adequate drainage. A surveying instrument is used to determine the direction of natural flow and ditches are being cut to follow that as closely as possible. Where water previously crossed the street fill-ins will lift the road surface to a higher level.

About 1000 yards of gravel figures in the job. Resurfacing on Oak, Hickory, Walnut, Sycamore and Elm will add to a total of about 9½ blocks. About 7 of that is complete now.

School Will Offer Course in Driving

Beginning with the next semester Muenster High School will offer a course in driver education.

Superintendent Weldon Cowan announced this week that Endres Motor Company has ordered a special dual control car which is to be used in the course. The extra set of controls enables the instructor to take over any time a student fails to handle the car properly.

The course will be conducted somewhat on the order of a science class, consisting of classroom as well as laboratory work. Classroom work will teach driving regulations, courtesy, safety rules, and the principles of correct operation and maintenance where practical driving will apply the classroom theories. The course will be a regular elective subject and the student can earn a regular credit in it.

Coach Doyle Hood will be the instructor. He has completed a 3-hour college course as a driving teacher.

Schedule of Coming Events

FRIDAY, Jan. 12, FMA General Meeting, school auditorium 1 p.m.

FRIDAY, Jan. 12, Catholic Daughters of America meeting in church basement, preceded by group attendance at rosary devotions.

FRIDAY, Jan. 12, Basketball, Muenster Hi vs Saint Jo, there MONDAY, Jan. 15, Artificial Breeders Association meeting, the county agent's office, court house, Gainesville, 8 p.m.

TUESDAY, Jan. 16, Public School P-TA meeting, 7 p.m.

TUESDAY, Jan. 16, Basketball, Muenster Hi vs Forestburg here.

C. H. Woolfolk Is Guest Speaker At Garden Club Meet

C. H. Woolfolk of Proffer and Woolfolk Nursery in Gainesville was a guest speaker Thursday night at the regular meeting of the Civic League and Garden Club. His subject was "Holly" which the club chose as one of its horticultural projects for 1951.

The speaker mentioned that there are one hundred and eighty varieties of holly in the United States and that of these four are best known. They are the Chinese, American, English and Burford varieties. He explained the characteristics of these four varieties and gave important information on their care and culture.

He displayed plants of the Chinese and Burford holly and cuttings of the American holly. He presented the plants to the club and Mrs. Miller planted them at Memorial Park.

The club's regular business with President Mrs. Nick Miller presiding, followed the lecture. Mrs. Joe Luke told about Saint Jo's Christmas lighting contest for which she was a judge and members heard a letter inviting them to a Garden Conference in Denton at Texas State College for Women Jan. 24, 25 and 26.

After the business, Mrs. Steve Moster, in whose home the meeting was held served home made date cake, salted nuts, mints and coffee to 14 members and one guest, Mrs. Felix Yosten.

LOCAL NEWS BRIEFS

Sunday guests of Mrs. H. M. King were her aunt, Mrs. John Trew, and Mrs. Dan Flint, both of Valley View.

Visiting Mrs. Carrá Pagel are her daughter, Mrs. T. W. Cole and little son, Ronald, of Farmington, N. M.

Donald Endres and Daniel Starke of Fort Worth were home to visit their parents and families during the weekend.

Floyd Lehnertz and Hugh Endres spent the weekend in Houston visiting the former's brothers, Gene and David Lehnertz.

Mr. and Mrs. C. H. Pollard of Bulcher have returned from Tulsa where they were the guests of friends. They made the trip by plane.

SEA-GOING STRETCHER BEARER — The crewman above, holding a boathook with both hands, just stepped off the back of the U. S. Air Force's new Rescue Boat Mark I to haul in a survivor. The water is plenty deep but a hinged tailgate (inset) provides crew members with a working platform and protects the survivor from the propeller. After slipping a wire stretcher under the victim and easing him aboard the 40-foot, twin-engine craft, the crew will administer emergency medical treatment. This demonstration took place near Washington, D. C.

There are beautiful new lines in the new 1951 Plymouth cars. A new grille, redesigned front fenders and hood, and a wider windshield provide an appearance of massiveness combined with smart streamlining. The cars feature unprecedented roadability and riding qualities, and numerous mechanical improvements.

Sunday guests of the Needhams were Mrs. Dave Chadwell and Mr. and Mrs. Samuel Enderby and Mary Jane of Gainesville.

Emma Lou Gehrig of Dallas was here Sunday to Tuesday morning visiting her mother, Mrs. Catherine Gehrig and other relatives.

Joe Weinzapfel left Saturday to return to San Antonio and classes at St. John's Seminary after spending the recent holidays here with homefolks.

Barney Yosten of Wisner, Neb., and Matt Yosten of West Point, Neb., are here to visit

relatives of the Yosten and Swirczynski families.

Guests of the Needham families Wednesday and Thursday were Mrs. Corah McMacken of Wichita Falls and Nancy Williams of Electra.

Sunday dinner guests in the Buford Whitt home were Rev. and Mrs. C. C. Richardson of Dallas and the Hubert Dennises and daughter of Saint Jo.

Ethel Mae Bayer has joined the clerking personnel at the FMA Store, filling a vacancy that occurred when Mike Luke entered the army air forces.

Jack Fletcher of Wichita Falls spent the weekend with his parents, the J. W. Fletchers, and grandmother, Mrs. F. M. Shiflet. The latter part of this month Jack will leave Wichita Falls to attend school in Austin.

Visiting the J. W. Fletchers Monday night and part of Tuesday were his sister, Mrs. Joe Cochran and niece, Katie Cochran of Fort Worth. From here the visitors went to Era to see their brother and uncle Paul Cochran.

Marian Starke, Daniel Starke and their mother, Mrs. Joe Starke, visited in Oklahoma City Sunday and until Monday noon with their sister and daughter, LaVerna Starke, a student at Saint Anthony's hospital, who is a hospital patient on account of illness and is recovering nicely.

Youngsters who wear loafers and sneakers all day long are endangering their feet according to a chiropodist at the opening of "Foot Health Week".

10th Anniversary Observed Sunday By Walter Klements

Mr. and Mrs. Walter Klement observed their tenth wedding anniversary Sunday with a family gathering in their home in the evening.

Guests presented a shower of gifts to the honor couple in keeping with the occasion and enjoyed 42 games, music, visiting and refreshments. In the 42 series Rody Klement won the high score award and Norbert Klement secured the galloping award, while Bill Henscheid received the consolation favor.

Present were Messrs. and Mmes. J. B. Klement, Norbert, Johnny, Ray, Edgar and Albert Klement and members of their families, Buddy Reiter and children, Bill Henscheid, Messrs. and Mmes. Marty Klement, Al Fleitman and Ed Endres, and Rody Klement.

Mr. and Mrs. Klement were married here ten years ago and have resided here all of their lives. They farm northwest of Muenster. Mrs. Klement is the former Eleanor Henscheid. They have three children, Jeanette, Sharon and Wayne.

When Eleanor and Walter were married in Sacred Heart church on Jan. 7, 1941, his brother, Rody, and her cousin, Clara Henscheid (Mrs. Ed Endres) were the attendants. The ceremony was performed by Rev. Father Frowin.

WEST OF THE BORDER—Though the threat of World War III is hanging over Europe and the world, there seems to be little evidence of tension along the West German-Russian zone border-line in such towns as Setzelbach, Germany, where this farmer plows his fields only 300 yards from the Russian zone. Other farmers, who have farmland in the Russian zone, require special passes to cultivate fields over the boundary. All are complacently resigned to the fact that tomorrow dreadnaughts of war may rumble over their crops.

Mrs. Jud Boyles Hostess To Get-Together Club

Members of the Get-Together Club gathered for their regular meeting on the first Wednesday of the month in the home of Mrs. Ben Hellman with Mrs. Jud Boyles as hostess.

During the business session preceding a progressive 42 series Mrs. J. B. Wilde, president, presided and members changed their February meeting date to Thursday, Feb. 1, as the regular meeting date falls on Ash Wednesday. Mrs. Al Eberhart will be hostess in her home.

Three tables were arranged for the 42 series and the hostess presented prizes to Mrs. Joe Horn for high score, and to Mrs. W. H. Endres for the low tally. Mrs. J. B. Wilde secured the galloping award.

The hostess and Mrs. Hellman served a delicious dessert course and hot coffee to close the afternoon.

Auxiliary Plans Supper And Instruction Class

Meeting Monday night in regular monthly session members of the VFW Auxiliary made plans for a covered dish supper to honor their husbands and decided to sponsor a school of instructions to better acquaint themselves with the organization's rituals and floor work.

Tentative date for the supper is Feb. 4 and date for the instruction school is February 15. Denison and Gainesville Auxiliary members will be invited to attend the instruction classes.

Other business consisted of voting a donation of twenty dollars for the maintenance of the City Park and a donation for the cancer fund.

Mrs. Arthur Felderhoff was admitted as a new member and Mrs. Earle Otto was appointed musician for the organization.

After business, Mmes. Vincent Felderhoff and Larry Yosten, hostesses for the social hour, served refreshments of barbecue sandwiches and coffee and Mrs. Pat Hennigan received the jack pot award.

The Bob Swirczynskis and children of Ardmore spent Sunday here with their parents.

St. Anne's Society Plans Reception of New Members

Members of the Saint Anne's Society, meeting Sunday afternoon made plans for the reception of new members and set Easter Sunday, March 25, as the date for reception ceremonies.

All married women of the parish, who are not already members, whether or not they have children, are invited to join at that time. Officers of the society pointed out that membership in the organization is not confined to women with children. Prospective members are asked to leave their names with society officers or with Father Anthony.

Mrs. Frank Herr, newly elected president, took office and presided at the meeting which Father Anthony opened with prayer.

Mrs. Herman Fette, president of the Muenster unit NCCW, thanked members for their help in the December clothing drive sponsored by the NCCW as the last Holy Year drive. Clothing in this drive amounted to 687 pounds.

Members decided to have a magazine exchange at meetings, beginning next month. Mrs. Leo Henscheid won the attendance prize. Sixty five members were present.

WANTED OLD CHRISTMAS CARDS

Old Christmas cards serve a useful purpose, according to Mrs. Ben Hellman, who this week stated that she will accept any cards people still have on hand and are planning to discard. Mrs. Hellman, speaking for the NCCW, said that members of that organization will make scrap books using the cards and will ship them to orphanages, missions and children's hospitals. Anyone wishing to contribute to the scrap books is asked to leave the cards with Mrs. Hellman.

Mr. and Mrs. Herman Wilde of Raymondville visited here Friday to Wednesday with relatives of the Wilde and Luttmir families. They were enroute to New Orleans for a vacation.

FRANK SCHILLINGS HOSTS TO FORTY-TWO CLUB

Members of the 42 Club gathered at the Frank Schilling home Thursday night for a regular session of progressive 42.

Victor Hartman won the high score prize, Albert Schilling received the consolation favor and Alfons Hoenig secured the galloping award.

After the games Mrs. Schilling served refreshments to the 20 members and four guests, Messrs. and Mmes. Gary Hess and Alois Haverkamp.

Charles Pagel came in Saturday from Farmington, N. M., where he was employed in oil field work. He hasn't decided whether he'll return to New Mexico or remain here.

Guests of the Dick Cains Friday night and Saturday were her mother, Mrs. J. S. Hogan, and daughter Bobbie, and the Frank Hogans and children all of Amarillo. The visitors went from here to Fort Worth for a visit with their son and brother, C. C. Hogan and family. The C. C. Hogans had word last week that their son, Charles, 17, who was with an infantry division in Korea, is missing.

The American Way Speaking of Sacrifices

By George Peck

The President has declared a national emergency. He has called on the American people to make sacrifices. Any sacrifice essential to giving this nation the strength to win a third world war, the American people will cheerfully make. Their performances in the past make that a certainty.

But controls and rationings not necessary, such as many that were imposed during World War II, they are not prepared to take. They have an unpleasant recollection of the non-bread slicing, no-cuffs-on-trousers and other asinine regulations of the last war. The Administration will do well to bear in mind that controls just for the sake of pushing people around will never again be tolerated.

Unfortunately, the President made no mention of any sacrifices to be made by the Administration. Perhaps he has some in mind but just forgot to mention them. Could it be that he plans to give up a yacht or so, an airplane, perhaps even an automobile or two? Maybe he has even highly resolved, in the emergency, to write no more nasty notes to Congressmen and critics.

If the President is planning to give up his luxurious notion of foisting the Welfare State upon us, he overlooked mentioning it. Surely, he must know that this definitely is not the time to increase governmental expenditures by one single penny except for actual defense requirements.

Is the President willing to abandon the idea sown by the Socialists, the Planned Economists and the Anti-Business Group that anyone who earns his way honestly and by thrift achieves more worldly success than his less industrious and less provident neighbor, must have done so by thieving and to the detriment of his fellows?

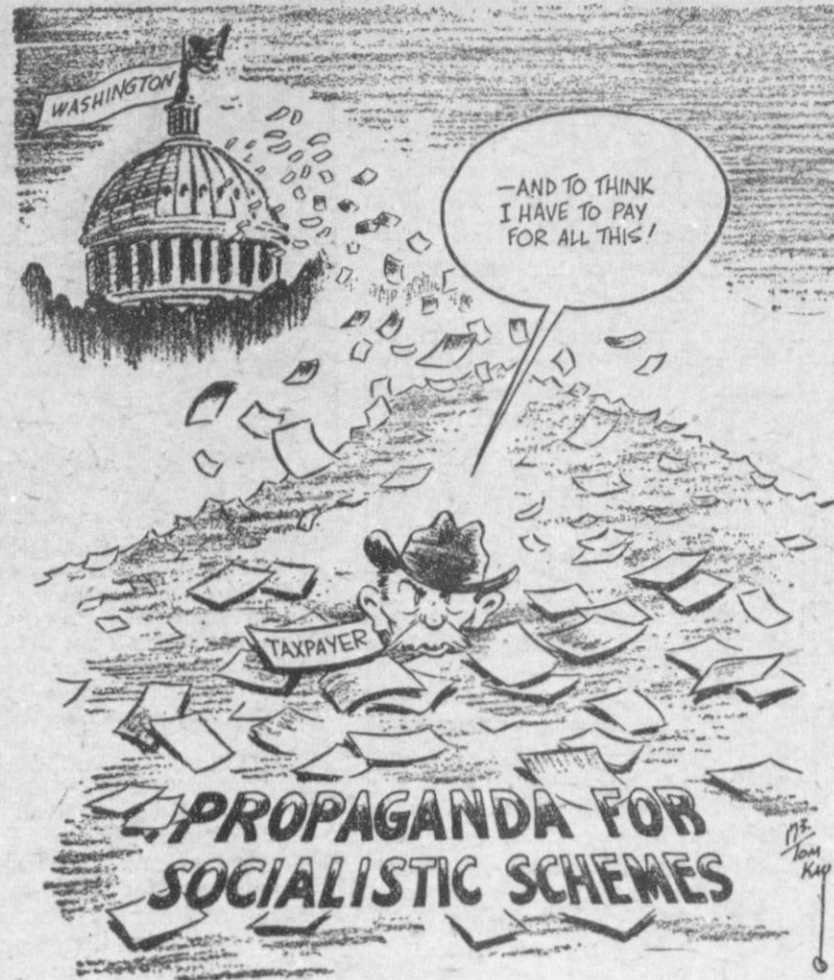

Is the President figuring on clearing the industrial atmosphere by having the Department of Justice withdraw its unwarranted suits against cer-

men are drafted into the armed services.

Is the President as long last willing to risk the embarrassment of chopping off a few heads, by encouraging rather than discouraging a sweeping investigation to get rid of the communist rats that he and everyone know infest our government departments? Surely, he must realize that this is no time to have communist sympathizers in key government positions where they can sabotage the defense effort.

The foregoing are just a few of the sacrifices the Administration can make and thereby set a shining example to the rest of the nation. Here is a golden opportunity for the Administration to exercise real leadership, a leadership that has been woefully lacking for much too long, a leadership that we must have if we are to prevail against the forces that seek to destroy America.

Muenster relatives attended a birthday party in Gainesville Friday for Paula Rosenberg, daughter of Mr. and Mrs. Charles Rosenberg in their home at 1213 Hillcrest. Paula was five years old and in addition to family members had her little friends over for games and refreshments.

CRATE
 OR
 CARLOAD

NEW 1951 Chevrolet

AMERICA'S LARGEST AND FINEST LOW-PRICED CAR!

It has that longer, lower, wider big-car look!

NEW! **AMERICAN BEAUTY DESIGN**
 Brilliant new styling . . . featuring entirely new grille, parking lights, fender rear-end design . . . imparting that longer, lower, wider big-car look which sets Chevrolet above and apart from all other motor cars in its field.

NEW! **AMERICA-PREFERRED BODIES BY FISHER**—With new and even more strikingly beautiful lines, contours and colors . . . with extra sturdy Fisher Unisteel construction . . . Curved Windshield and Panoramic Visibility . . . the smartest, safest, most comfortable edition of Chevrolet's America-Preferred Bodies by Fisher.

NEW! **MODERN-MODE INTERIORS**
 —With upholstery and appointments of outstanding quality, in beautiful two-tone color harmonies . . . with an even more attractive steering wheel embodying a new full-circle horn ring (in De Luxe models) . . . and with extra generous head, leg and elbow room for driver and all passengers.

NEW! **MORE POWERFUL JUMBO-DRUM BRAKES (with Dubl-Life rivetless brake linings)**—Largest entire low-price field . . . extra-safe, extra-smooth, extra-durable . . . with both brake shoes on each wheel self-energizing for forward and reverse operation of car . . . providing maximum stopping-power with up to 25% less driver effort.

NEW! **SAFETY-SIGHT INSTRUMENT PANEL**—Safer, more convenient, more efficient . . . having an over-shield from instrument lights, and lower edge of panel recessed to provide a safe, convenient location for control knobs . . . with plain, easy-to-read instruments in two large clusters directly in front of driver.

NEW! **IMPROVED CENTER-POINT STEERING (and Center-Point Design)**—Making steering even easier at low speeds and while parking . . . just as Chevrolet's famous Unitized Knee-Action Gliding Ride is comfortable beyond comparison in its price range . . . additional reasons why more people buy Chevrolets than any other car.

Here's America's largest and finest low-priced car—the newest of all new automobiles—as trustworthy as it is thrifty to buy, operate and maintain.

New with that longer, lower, wider big-car look! New in its strikingly smarter Fisher Body styling and beautifully tailored Modern-Mode interiors! New in safety, new in steering ease, new in feature after feature!

Moreover, it's thoroughly proved in all things, from the finer no-shift driving of its Powerglide Automatic Transmission,* or the finer standard driving of its Synchro-Mesh Transmission to the fleet, frugal performance of its Valve-in-Head engine.

Come in—see and drive America's largest and finest low-priced car—Chevrolet for '51—the only car that brings you so many big-car advantages at such low cost!

PLUS TIME-PROVED POWER *Glide*

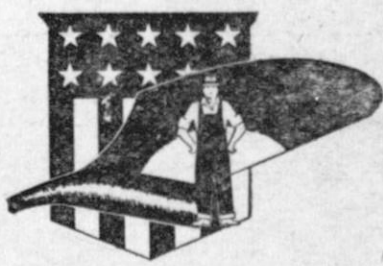

AUTOMATIC TRANSMISSION
 —proved by more than a billion miles of performance in the hands of hundreds of thousands of owners.

*Combination of Powerglide Automatic Transmission and 105-h.p. Engine optional on De Luxe models at extra cost.

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!

Survival at Stake

If Communist Russia should unleash its full-tide of war against the Western non-Communist nations in 1951, as some military observers expect it to do, the world would see for the first time the full devastating effect of a perfectly trained and strategically developed Fifth Column in warfare. A strong sabotage or guerrilla apparatus, well-organized and skillfully commanded exists in every non-Communist country and with only a few possible exceptions they would be able to work with terrible effectiveness as tactical arms of the Red Army.

The Communist Fifth Column in America wasn't quite ready 10 years ago when the free world was struggling to arm itself against a Berlin-Rome-Tokyo Axis that had suddenly gained Soviet Russia as an ally. But even then it was

The first successful transfer of the rust resistant qualities of feed wheat to the bread wheats was accomplished by Prof. E. S. McFadden, agronomist at the Texas Agricultural Experiment Station. The development of his Hope wheat halted wheat rust which threatened much of the crop in the nation's bread basket, the Middle West. Prof. McFadden appears in the new motion picture, "Waves of Green," which is to be shown here soon as part of the "We Salute American Agriculture" program.

strong enough to have seriously hampered our armament production, had not Hitler's sudden attack on Russia switched the American Communists from saboteurs to frenzied war workers overnight. Today Moscow's worldwide Fifth Column is fully ready to strike at the heart of every nation outside the Iron Curtain on a given signal.

"Sabotage" Strike
During the Hitler-Stalin partnership of 1941 Communist officials of Local 248 UAW-CIO struck the sprawling Allis-Chalmers plant in Milwaukee, and in spite of the fact that the local's members were predominantly loyal Americans, production of vitally important machines for our Army was shut down for 76 days. FBI men cal-

led the strike "sabotage" by a Fifth Column and pointed to Harold Christoffel, the local's president, as instigator and leader. Christoffel was a Communist, taking orders from Moscow, and nine years later the government got around to sending him to Federal prison for perjury.

Since 1941 the American Communists have enjoyed a heyday. And their progress here has even been exceeded in 15 or 20 other nations. In France and Italy, toward which one prong of the Red Army would presumably strike its first blow, the Communists are probably strong enough in number and strategic development to be an immediate decisive factor. Their control reaches into top army posts, the government, labor unions, various institutions, and vital communications and transportation facilities.

"Civil Rights!"
In Socialist France, England and Italy very little has been done to "neutralize" the dormant menace of the Communist Fifth Column. In Australia, where Socialists were voted out, the new government is tackling the problem but it is being hamstrung every step of the way by those labor unions which are controlled by Communists, and an assorted array of sympathizers and dupes who cry "civil rights!"

In the U.S. eight unions which the CIO has branded Communist controlled and has kicked out of its organization, hold power in vital industries — electrical equipment, shipping, metals, etc. In event of full-scale war their leadership could conceivably use them to seriously cripple our armament production and possibly paralyze the nation. They are well embedded in every phase of our national life. The FBI says there are 55,000 known Communists and 550,000 fellow travelers who will carry out Moscow orders. Yet another authority says seven out of eight Communists work undercover, their identity carefully guarded.

A Starter Law
Congress last fall moved to cope with the Fifth Column by enacting the McCarran law but the Communists have defied it. With their puppets and

dupes they've kept up a constant barrage against it, charging it infringes on the Communists' "civil rights!" The law is neither perfect nor adequate but its intent is sound and it gives the Justice Department for the first time something with teeth in it with which to protect our nation from a deadly internal force.

The DAILY WORKER, official Communist publication published in its Christmas issue a petition to President Truman signed by 63 clergymen in 25 states denouncing the government's intention to deport alien Communists, as permitted in the McCarran law. If these clergymen are sincere people, they are dangerously ignorant of the real character of Communism. J. Edgar Hoover, FBI chief warned recently that every Communist "is working against American democracy and for the benefit of international Communism's chief leader Soviet Russia." As a safeguard to our very existence, every citizen must be made aware of this truth about these enemies in our midst.

Birthday Surprise Greet Mrs. Robison At Bulcher

Mrs. Earnest Robison was honored on her birthday recently with a surprise dinner in her home when relatives and friends gathered with covered dishes for the meal and gifts for the honoree.

Present were Messrs. and Mrs. O. A. Huggins, Tillman Bridges and children, Earnest Huggins and daughter, Travis Whitt, William Yancy and children of Fort Worth, and Earnest Robison and Barbara Brown of Gainesville.

Charlie Clayton Jr. has a new '51 gray and blue two-tone Bel Air Chevrolet since Tuesday.

The Earl Robisons had as weekend guests Mr. and Mrs. Joe Johnson and daughter of Iowa Park, Dr. and Mrs. John Hart and son of Palacios, and the C. B. Davidsons and son of Fort Worth.

From where I sit ... by Joe Marsh

Friendship—Four Thousand Miles Apart

Never quite got the hang of how to play chess myself, but I'll say this for the game—it started one of the strongest friendships I know of: between Dad Wilson in our town and a fellow in Sudbury, England.

The two of them have never met or seen each other—but for eight or nine years they've been playing chess by mail together. Dad puzzles over the Englishman's latest letter, takes a couple of days to think it over, and then airmails a chart of his next move.

Dad always thinks best with a mellow glass of beer beside his chessboard. And the fellow in England writes that he does the same. "Almost as if we were in the same room," says Dad contentedly.

From where I sit, you can talk about diplomacy and foreign policy, but it's often little friendly things—like a game of chess or a glass of beer—that can make for tolerance and understanding . . . between people of different nations, between folks here at home!

**It Happened
10 Years Ago**

January 10, 1941

Sewer is now ready to use; city authorizes connections; is available to 90 per cent of the city homes and business houses. Billy Nell Cole, 8, dies after brief illness. Andrew Wimmer, 88, dies after long illness. Flu epidemic hits scores of local people. Burglars take cash and gun at Jimmy's Service Station. Herman Danglmayr's eye is okay after serious injury. Ray Wilde and Thomas Weinzapfel return to classes at San Antonio after the holidays. Virgilla Schilling is first baby born here in 1941. Eleanor Henscheid and Walter Klement marry Tuesday.

5 YEARS AGO

January 11, 1946

Leo Moster, 56, dies at his home here Sunday after six-month illness. Holy Name Society marks feast day with special services. Membership drive for local hospital makes progress. Valley View's new Catholic church is dedicated Jan. 3. Al Walterscheid sells his machine shop to Louis and Lawrence Roberg and Jerome Pagel. Dinner and open house honor John Fette on 73rd birthday. Paula Ann Rosenberg is Muenster's first 1946 baby. Three inch rain brings welcome moisture to this area. Since Monday Marty Klement is back at his old pre-war job at the FMA Store. Pfc. Meinrad Stoffels is spending a re-enlistment furlough here. Loretta Rohmer and Joe Spaeth marry here Thursday. Wiedman-Moster rites announced for January 15. Lindsay Sodality elects Louise Hermes prefect. Marcella Knabe and Paul Hellinger marry Tuesday. Mary Fuhrmann and Henry Stoffels Jr. marry at Lindsay on Jan. 3. John Klement, formerly with Shamburger Lumber company has joined the staff at Waples Painter company. The Linn brothers, Jeff and Robert, write from overseas telling about Christmas in Manila, P. I., and in Honshu, Japan, respectively.

JOE SWIRCZYNSKI HAS BIRTHDAY PARTY SUNDAY
Mrs. Joe Swirczynski entertained Sunday with a dinner and a party honoring her husband on his 70th birthday, and also complimenting her two brothers, Matt and Barney Yosten, visiting here from Nebraska.
Mr. Swirczynski was 70 years old and received birthday gifts from the guests. The dinner table held a decorated cake.
During the afternoon a larger group of relatives and friends gathered for card games and refreshments.
Mrs. Eddie Green and little Buster Bezner of Gainesville spent the day Friday with the Needham families.

MY SON, MY SON—After a 42-year separation, 83-year-old Isaac Neubart was reunited with his only surviving son, Leon, who arrived in New York with his wife and child aboard the Gen. Blatchford. Leon was located in Germany by the Hebrew Immigrant Aid Society. He was six months old when last seen by his father and the only member of the German clan to survive World War II.

**Bulcher Club Has
Demonstration On
Textile Painting**

Textile painting was demonstrated to members of the Bulcher Home Demonstration Club at their regular meeting Saturday with Mmes. Marie Pollard and Daisy Crabtree giving the demonstration. As they worked they explained about the kinds of paint, brushes, thinner and conditioner, etc. to use. After the demonstration several members tried their skill at the art.
Mrs. Vernie Hyman, president, conducted the business session and members agreed to attend the next council meeting on Jan. 13 in a group.
Mrs. Jim Sharp, in whose home the meeting was held, served refreshments to 13 members. The next meeting will be on January 20 in the home of Mrs. Johnnie West.

**MRS. WEINZAPFEL ATTENDS
DIOCESAN NCCW MEETING**

Mrs. J. M. Weinzapfel spent Monday in Dallas where she attended a diocesan board meeting of the National Council of Catholic Women. She is president of the Sherman deanery. The meeting was held in the Adolphus Hotel and opened with a luncheon. Rt. Rev. Msgr. Bender, diocesan moderator, presided at the session during which yearly reports were presented and plans were made for the coming year's program.
A report on war relief clothing shipped in the Holy Father's drive revealed that during 1950 there were 5,870 pounds of clothing shipped overseas from the Sherman deanery.
Mrs. Weinzapfel remained in Dallas to hear Father Keller's address in the Fair Park Auditorium and returned home on Tuesday.

A wise old man once said: "A chip on de shoulder is about de heavies' load a body carries."

Happiness is that peculiar sensation you acquire when you are too busy to be miserable.

**New Type of Motor
Uses Cheaper Fuel,
Gives More Mileage**

New cars are coming off the assembly lines with higher compression ratios for their motors. Manufacturers are demanding higher octane gasoline from the oil refineries. The oil companies wince at the cost of \$270 million to \$300 million to up gasoline even by so much as one octane.

So Texaco researchers took off their oil aprons and went to work to invent or improve a motor that would satisfactorily boost the compression ratio and miles per gallon with gasoline as it now is.

According to a recent magazine article, the engineers have achieved their goal. A diagram illustrates the technique. A whirlpool of fresh air valved into the combustion chamber apparently snaps up the ignition. The fuel is concentrated in a small segment of the whirling air. The mixture is so lean it would not fire at all in the conventional combustion chamber.

Here are the predictions for the new engine: It will use 30 per cent less fuel and function without knocking on a 10- or 12- to 1 ratio of compression; the fuel can be any kind of liquid that will pass through the injector nozzle, including alcohol or kerosene.

This invention by an oil company refutes the claims sometimes made against oil companies that they suppress inventions that would seem to reduce their sales. Automobiles may be able to operate at a lower consumption of gasoline but the oil company estimates that in the long run there will be other gains. For one thing, they believe, for this type of engine, they will be able to get 20 per cent more motor fuel out of a barrel of crude.

Guests Monday in the Needham home were Mr. and Mrs. L. Dyer and Bill Sullenger of Duncan, Okla.

Upper Elm-Red Soil Conservation District News

DISTRICT SUPERVISORS

J. W. Hess, Muenster V. W. Redman, Saint Jo
John Rice, Collinsville Ed Blackmon, Bowie
Willard Kemplin, Valley View

Cooperators of the Upper Elm-Red Soil Conservation District are realizing more each year that grass is a paying crop and more and more of them are planting grass each year and setting up grazing rotations and other grass improving practices to insure maximum production from their grass crop.

Grass is the forgiveness of nature — her constant benediction. Grass swiftly moves in to cover man's failures. It takes over old fields that have been abandoned by man as worthless and in time produce grass that can be converted into livestock products.

But nature is slow and spends years in getting desirable grasses back on land that has felt the effects of the plow and crops that have mined the soil, and man is seeking to speed up her work by planting soil improving crops, adding commercial fertilizers and planting seed of desirable grasses.

The time has come to plant

grasses. As usual old Mother Nature is ahead of us. She has already put the seed of our native grasses on the ground so that it will have plenty of time to become covered and seasoned before time to germinate.

Farmers and ranchers are taking a tip from nature and are putting native grass on old field areas and on rangeland that needs better grass cover.

In the Forestburg area W. L. Blankenship is using the district owned grass seed drill to sow a native grass mixture of Big and Little Bluestem, Indiangrass, and Switchgrass on 20 acres of old field areas that is being turned into pasture. The area was seeded to vetch and treated with 200 pounds of phosphate per acre earlier this fall. The vetch will act as a nurse crop and as a soil improving crop to aid in the establishment and growth of the native grass seedlings. Also in the Forestburg area Kenny Thurman and Louis Penton are planting native grass seed on old field areas that have been treated with vetch and an application of commercial fertilizer. Mr. Thurman is also using a press wheel cotton planter to seed some Indian grass in rows. He harvested the Indian grass seed

GOOD HEALTH

Answer to Question No. 1:

1. Contrary to popular belief, young women in their 20's are not the principal victims of tuberculosis. That was true in 1900, but is no longer. Today tuberculosis is most serious in older men from the age of 40 on. In 1944 the greatest number of tuberculosis deaths occurred among white males between the ages of 50 and 54.

Answer to Question No. 2:

2. The first voluntary insurance plan in the United States, by which dental care is given on a premium basis to 25,000 per-

sons, has been started in New York City. Operating on very much the same principle as surgical, medical and hospital insurance plans now in operation, the plan will be tested for an experimental period of two years.

Answer to Question No. 3:

3. Two out of three babies in America are on breast feeding at the time they leave the hospitals where they were born. The milk of a healthy mother is the best possible food for the infant.

(Copyright 1950 by Health Information Foundation)

NEW DEFENSE BOSS—Millard F. Caldwell, Jr., the new federal Civil Defense Administrator, checks over some work in his Washington office. Caldwell, who pledged himself to quickly speed up this nation's civilian preparedness, was formerly Governor of Florida.

FOOT-CUFFED—Seven-year-old Dick Perry of Detroit stuck his foot in it—his left and right—when he discovered his policeman father had forgotten his handcuffs. The "playthings" remained shackled on Dick's ankles until his father was located on his beat and rushed home to unlock his son.

Barnhart Quits ABA Because of Injury

The Cooke County Artificial Breeders Association will meet next Monday night for the purpose of selecting a technician to be trained for the association's program. Men interested in applying for the work are asked to be present at the meeting. It will be held in the county agent's office at the court house at 8 p.m. Hugh Barnhart who has been technician for the group, recently lacerated several fingers on his left hand and has been forced to discontinue his services.

by hand stripping last fall. J. R. Winstead has completed construction of a mile and a half of ridge type terraces on his farm 5 miles northeast of Muenster. The terraces empty onto a Bermuda grass waterway that was sodded two years ago. The waterway borders the county road and will carry the terrace water safely to a natural drain.

Bruno Fleitman of Muenster is taking advantage of the prolonged dry weather to put bermuda grass sod into a waterway that is usually too wet to plow.

They're VITAMIN-RICH!

Spring Pasture Benefits in Ful-O-Pep promote easy calving...big calf crops!

Only Ful-O-Pep is fortified with Concentrated Spring Range* —scientifically processed from tender, young forage plants. Like green grass itself, this Vitamin Boost promotes herd health, fast calf growth, and top bloom and condition. At the same time it stimulates the growth and multiplication of bacteria in the rumen—enabling cattle to assimilate grain and roughage efficiently. You'll find Ful-O-Pep Range Cubes a great feed for your herd. Come in soon!

Lindsay News

Mrs. J. C. Schmidkofer who underwent surgery at Gainesville sanitarium is back at home since last Wednesday and is convalescing nicely.

Frank Mages Jr., of Gainesville, son of Mr. and Mrs. Frank Mages of this city sustained a badly lacerated right hand when he caught it in an electric saw last Friday. He received treatment at Gainesville's sanitarium.

Mr. and Mrs. Joe Kneupper of Gainesville are the parents of a son, Gregory William, born on Dec. 30. Mrs. Kneupper is the former Agnes Spaeth of Lindsay. The baby has two grandparents, Mrs. Geo. Spaeth of Lindsay and Mr. Kneupper of New Braunfels.

MRS. RICHARD HOBERER DIES IN ALGONA, IOWA

Relatives received word Wednesday morning of the death of Mrs. Richard Hoberer in Algona, Iowa. The former Zita Thill, Mrs. Hoberer was the niece of H. J. Fuhrman of Muenster and Adolph Fuhrman of Lindsay. Her husband's parents are Mr. and Mrs. John Hoberer of Lindsay. She was well known in Muenster and Lindsay having visited both towns frequently.

Survivors include a daughter and her mother in addition to her husband. She had been seriously ill since Dec. 25.

Funeral arrangements were incomplete awaiting word from relatives.

Doris Hellman of Dallas spent the weekend with her parents, the Clarence Hellmans.

What Do You Know About Your Heart?

AUSTIN.— What do you know about your heart? Do you know that the three major kinds of heart disease are: Rheumatic heart disease, high blood pressure, and coronary heart disease?

One of childhood's most dangerous foes is rheumatic fever, declares Dr. Geo. W. Cox, State Health Officer. A child is most likely to develop rheumatic fever when he is less than 10 years of age. However, the disease is not confined to children. "In World War II, about 40,000 men in the American forces developed attacks of rheumatic fever." This disease may damage the heart valves and muscle. Any child who has rheumatic fever should have the best of medical care, plenty of rest, a special diet, and be free from anxiety or worry. Just because a person has rheumatic fever, is no sign he will have rheumatic heart trouble. But it's important to keep in close check with the family physician.

Coronary heart disease strikes those from middle age groups and up, more than other forms of heart trouble. And, it strikes men more often than women. Moderation in daily living is very important, for if a person worries too much, works too hard, exercises too frequently and hard, and eats too much his heart is overworked. Yes, one of the best checks against overburdening the heart, . . . is moderation in all things . . . and plenty of rest.

High blood pressure is another important cause of death. Naturally, the heart has to work harder to pump the blood, when blood pressure is high. An over-

HIS MERCHANDISE MOVES NICELY—Business went on as usual in Howard Benson's market in Lancaster, N. Y., as workmen moved the entire building to make way for an underpass. Benson can be seen on the doorstep of his store, handing down parcels to a faithful woman shopper.

er worked heart needs the care of a physician.

Sometimes symptoms of heart trouble aren't so noticeable; that is why a regular physical examination is so important.

Heart disease caused by syphilis, congenital heart disease, and heart trouble resulting from an overactive thyroid gland, are a few other forms of heart disease.

Stop and think about it for a moment. Do you give your heart enough rest?

Melany Grace Moster who was one year old Wednesday observed her birthday with a family party at the home of her grandparents, the John Tempels. A cake with one candle and gifts were features of the affair.

Mrs. Frank Seyler joined her son-in-law and daughter, the T. L. Andersons of Gainesville, on a trip to Petrolia and Wichita Falls Friday to visit friends.

Confetti ---

good use of the air field would be a good deal. But another Camp Howze would be another rat race.

Once again President Truman gave the nation a fine pep talk on the urgent need of going all out to prepare for what may prove to be our struggle for survival. Again he told us to expect higher taxes and more sacrifices, and again he failed to assure us that the administration is willing to share some of the sacrifice with us.

Instead of saying that he will help out by weeding out surplus government man power

and suspending extravagant socialistic programs he insists on carrying on the so-called social reforms and simply fails to mention dead-heads on the payroll.

Next we hear the government big boys recommending that we handle the emergency on a pay-as-we-go basis. And we naturally wonder how it will be done . . . under the Truman plan.

There is a way, of course, but it calls for a return to something more closely resembling traditional Americanism. The first thing is to transfer about a million non essential government workers to production channels. Next adopt a longer work week. With more workers, and more work per worker, the nation can go far toward meeting both civilian and military needs. And rigid government economy can give the cause another boost.

It's time for the big boys to

realize that personal standards of economy can be applied to government. When an individual gets into a strain he works harder and squanders less. Government should do the same.
