

MUENSTER ENTERPRISE

VOLUME XV

MUENSTER, COOKE COUNTY, TEXAS, JANUARY 26, 1951

NUMBER 10

Dr. Thayer, Dean Of County Medics, Claimed by Death

This week it is our displeasure to print two items, a news story and an ad, which are embarrassing and humiliating. Both are on F. E. Schmitz's dilemma over what to do about the Relax Theatre.

There are two reasons why this affair is unpleasant to us. One is that civic pride is outraged by the thought of a theatre, or any normal business venture for that matter, having a hard time in a community as prosperous as ours. Another is the thought that Muenster shows so little appreciation for an outstanding improvement to its town.

This situation isn't a matter of passing up something inferior to get a better deal elsewhere. When the standard of the theatre and the schedule of pictures compare with those of much larger towns, no one has reason to complain.

Apparently there is only one explanation. Too many people want to get out and drive, so they decide on out of town shows to sort of justify a lot of needless mileage.

It's their own affair, of course, but this column cannot help thinking that those very persons would be a little more pleased with themselves if they saw more shows at home. There's some satisfaction in patronizing the institutions which help make this a better town and probably a little more satisfaction in cutting down car expense.

At any rate this column fervently hopes that some of our movie fans will give this matter serious thought. Perhaps they too will agree that civic pride calls for a little more loyalty to home town institutions.

Frankie himself has a matter of fact attitude toward the situation. Says he does not intend to keep operating in the red, so if things do not improve soon the town just will not have a theatre.

That's something we should not permit to happen. We should not permit that kind of a blow to the town's prestige. We should not let down those who depend on the show for regular entertainment. We should not let down a man who has invested thousands of dollars for our benefit.

To an optimist like yours truly the best news out of Korea in many a moon is the statement by Maj. Robert Soule released the early part of this week to the effect that "We can stop the Chinese reds on this line or any other line they tell us to hold."

Reasons he gives is that the Chinese have already spent their best troops and the forces left are mostly riff-raff. They have few planes and artillery and don't know how to use them. Besides their supply lines are stretching out and getting more vulnerable. All in all he seems to be in hearty agreement with other top generals who said weeks ago that we can hold our own in Korea.

Then he airs what he considers another very favorable condition. Communism is extremely unpopular in Asia. He sees it in Korea now, he saw it in China when the commies there kept him under house arrest for six months prior to the Korean outbreak.

In fact he believes that communism in Asia today is practically a push-over for a good war of anti-red propaganda. That, he says, will not only check the continued spread of communism but weaken the menace where it already has a foothold.

Everything he says seems to be backed up by facts. We know from reports that the Chinese drive has slowed down, that Russian planes are losing fights to ours, that extended supply lines are taking a beating, that Korean civilians are fleeing in panic to keep on the American rather than the Chinese side of the battle line.

But what infuriates us is that men in Washington who should be aware of those conditions, are not doing the one

(Continued on Page 10)

Dr. C. B. Thayer, 72, dean of Cooke county physicians, died Monday at Gainesville Sanitarium, of which he had been the principal stockholder and president for many years.

He had been ill of a heart ailment for several weeks.

Including service with the Santa Fe Railway, he had been a practicing physician and surgeon in Gainesville for 45 years. Dr. Thayer was a past president of the Kiwanis Club, a Mason, and a long-time member of the official board of the First Christian church.

Funeral services were held Wednesday.

Farming was his hobby and he owned farms in Cooke county, at McAllen, and in Love County, Oklahoma.

Survivors are his wife and two daughters, Misses Rebecca Thayer, a Dallas school teacher, and Virginia Thayer of Gainesville.

WITH THE MEN IN SERVICE

Cpl. Leonard Hartman has arrived in the southern part of Japan, he has advised his wife and his parents. He said that he was not permanently located and would give more detailed information when he is settled and assigned to regular duty. His APO number has been changed to 41.

Muenster's eight air force volunteers who left here January 2 are still at Lackland AFB reception center, according to letters home this week. The octet recently moved from temporary quarters, tents, to the regular barracks and received their classifications. They are awaiting their orders to begin basic training in their assigned units. The group is composed of Julian Walterscheid, Wilbert Vogel, Ernest Sicking, Henry Pels, Mike Luke, Rupert Hoenig, Teddy Gremminger and Jerry Fette.

Cpl. Norbert Mages has advised his father, Joe Mages, that he is back in Japan after being on duty as an airplane mechanic in Korea since last October. The letter was written shortly after he arrived in Japan and was brief, but did mention that it was wonderful having fresh milk and butter on the menu again. Those were two items he didn't see all the time he was in Korea, he added. His address is the same with the exception of the APO number which is now 917.

Leo Becker received a promotion to private first class at Texarkana where he is on duty. Dean Shields, son of Mr. and Mrs. J. M. Shields, route 3, left Wednesday morning for Fort Worth to report for induction in the U. S. Marine Corps.

Harry Scoggins, on duty at Camp Chaffee, Ark., recently received a promotion and is now a corporal. He is the son of Mr. and Mrs. W. L. Scoggins.

POLL TAX MAY BE PAID BY MAIL

You can pay your poll tax by mail, if you wish.

For the convenience of persons who do not want to make a special trip to the courthouse, the Muenster State Bank announced this week that it has forms which can be used to pay the tax by mail.

The form calls for data such as age, voting precinct, etc., which the tax office needs to fill out the receipt. By mailing in the form with his remittance the taxpayer can get his receipt by return mail.

Another method of paying by mail is to send last year's receipt, or the data shown on it, with the remittance.

Any means by which the tax office gets the dollar seventy-five and the required information is okay.

Doris Hellman of Dallas spent Saturday to Monday with her parents, the Clarence Hellmans

Tom Donohoe Dies At Springfield, Mo.

Members of the Trachta families received word Monday of the death of Thomas Donohoe, 76, in Springfield, Mo., on Sunday. He had been ill two weeks. J. C. Trachta left Tuesday to attend the funeral services Wednesday morning.

Donohoe is survived by his wife, the former Mary Trachta of Muenster. He was well known locally having visited here on numerous occasions with his wife's relatives.

Schmitz Considers Theatre Shutdown

Whether or not the Relax Theatre will continue to operate will be decided soon by the people of this community.

F. E. Schmitz, owner, disclosed this week that as a last resort before closing the doors, he has decided to make a community survey to determine if possible whether the show has any prospects of getting out of the red. If the outlook then has not improved considerably, he intends to quit.

Schmitz was outspoken in expressing his disappointment with the local theatre venture. The Relax has lost an average of over \$300 per month since its opening date, he said, and that in spite of the fact that his local staff has cooperated by working for pitifully low pay. He says he cannot expect his staff to go on working for "peanuts" and the people of Muenster cannot expect him to go on paying out of his pocket to pro-

(Continued on Page 10)

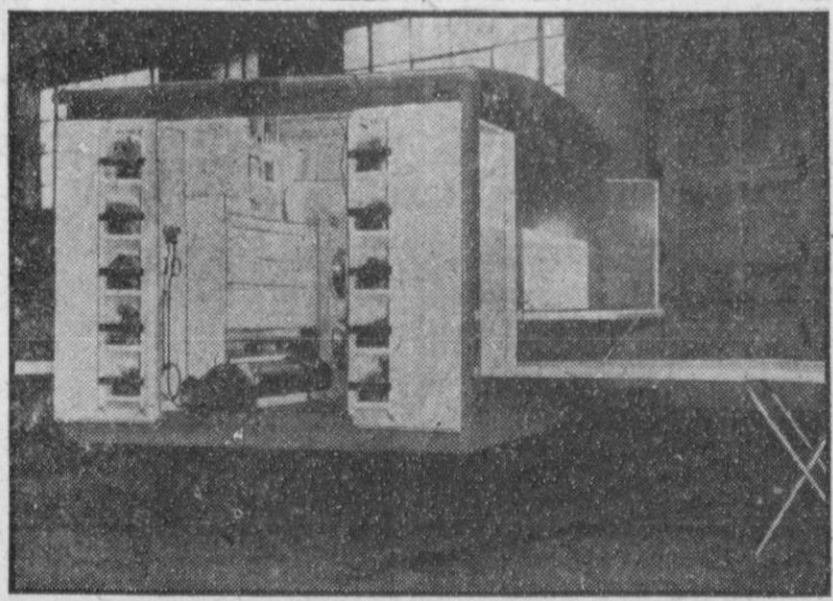

Committee Named For School Survey

Continuing with the district survey which will be used as the basis of a report to the State Department of Education, Superintendent Weldon Cowan this week announced that he has completed his committee of workers.

The group, chosen from all areas of the district, consists of Earl Robison, H. H. Richey, Herbert Meurer, Al Fleitman, Joe Vogel, Al Wiesman, Felix Becker, John Fisher, and Mesdames Jack Biffle, Jess Mitchell, Albert Reiter, T. S. Myrick, R. P. Cain, R. E. Hamric, Morris Milner. They expect to have their first meeting in about two weeks.

Also in connection with the survey a group of five persons, consisting of Superintendent Cowan, Herbert Meurer, Arthur Hellman, B. J. Sicking and Tony Walterscheid, met at Denton Wednesday with Frank Hubert of the state department of education to get more information on the purpose and scope of the report.

This local report is being prepared in compliance with a request sent to all state high schools of less than 100 enrollment. The state will study these reports to determine which districts have prospects of maintaining an adequate high school and which should be recommended for consolidation with other districts.

MOBILE A-BOMB HOSPITAL—A 12-foot, 2200-pound hospital trailer for treating A-bomb victims was recently displayed in Chicago. Featuring two operating tables that fold out from its sides, oxygen equipment that can handle 10 patients at a time, plasma and transfusion equipment, as well as water tanks for serving hot coffee and tea, the self-contained hospital on wheels can care for up to 100 patients when it rolls into a disaster area.

MIGHTY PEACE PIPE—U. S. Army personnel unveiled a jeep-mounted 105-mm. recoilless rifle during recent tests at the Aberdeen Proving Ground, Aberdeen, Md. Capable of knocking out any known tank, including Russia's famed 57-ton thick-armor model, the "stovepipe on wheels" ranks as the Army's mightiest tank-buster.

MR. AND MRS. GUS KNABE HONORED ON GOLDEN WEDDING ANNIVERSARY

Mr. and Mrs. August Knabe, pioneer residents of this community, observed their golden wedding anniversary on Sunday, Jan. 21, with an all-day celebration that included a religious service and a reunion of family and friends.

The day also marked the second birthday of the honor couple's first great grandson, Louis Henry Gieb, and the 45th birthday of Mrs. Knabe's youngest brother, Bill Derichsweller. It also brought together five of the Derichsweller family members for the first reunion in 20 years.

The program for the day began with an anniversary Mass in Sacred Heart church with Father Anthony officiating and two grandsons of the honor couple, Leo and Pat Hess, serving as acolytes.

The parish hall was the scene of the day's social activities.

A reception began at eleven o'clock with the honor couple welcoming guests and receiving

congratulations from relatives and friends. At noon a banquet menu was served buffet style to about 200 guests, some 30 of them being old timers who helped the honorees celebrate their wedding day 50 years ago. Other activities of the celebration included the taking of family and group pictures, the opening and display of many lovely gifts, visiting, talking over old times, recalling experiences in the early days of the colony, and supper.

Mrs. Knabe is the former Elizabeth Derichsweller, daughter of the William Derichswellers. She was born in Westphalia, Iowa, on August 26, 1882, and moved to Muenster with her family when she was seven years old.

Mr. Knabe is a native of Missouri. He was born in Bellinger county on March 26, 1877, a son of the Albert Knabes, who soon moved to Lehon, Neb., and

(Continued on Page 2)

News of Sick And Injured

Fred Hoedebeck was dismissed from Gainesville sanitarium Tuesday after eight days of treatment for flu and is convalescing nicely at his home.

Mrs. Willie Fuhrmann entered M&S hospital at Gainesville for surgery on Wednesday.

Michael Driever underwent dental surgery at Saint Jo Tuesday.

Gertrude Esker is recovering from a dental operation at Gainesville Tuesday.

Mrs. Ray Tempel underwent surgery at Gainesville sanitarium last Wednesday and is recovering nicely.

Mrs. Curtis Holland is recovering nicely from a hand injury received recently when her right hand was caught in a machine at the candy factory in Fort Worth where she is employed. The middle and ring finger were badly lacerated.

Electric Co-op to Go to Main Street

Within a few weeks the Cooke County Electric Co-operative Association will be located on Main Street. According to an agreement made last week the company will move its office and equipment to the building formerly shared by Albert Henschel's Electric Shop and the FMA.

Bruno Fleitman, one of the co-owners of the building is now supervising a remodeling job which will provide additional office space along with general building repairs. The co-op expects to move as soon as the work is finished.

Occupying the west half of the Enterprise building since its erection in 1939, the co-op is moving to get additional space. Besides a larger office the building provides sufficient warehouse space for all of the company's materials and supplies which are now kept in four smaller buildings.

Junior Class Play To Be Given Feb. 1

Juniors of Muenster High school are putting the finishing touches to rehearsals of their play, "Mama's Baby Boy," which they will present on February 1 in the school auditorium. Mrs. Jesse Mitchell and Miss Ruby Kelly are directing the production.

Larry Walterscheid is in the title role, and other characters are Margie Baumhardt, Roger Wolf, Marcelene Wimmer, Jeanette Fisher, Florence Henschel, Judy Long, Henry Weinzapfel, Anna Grace Fette, Jeanette Walter and Damian Hellman.

Tickets are on sale now for 20 and 40 cents. Admission charges at the door on Feb. 1 will be 25 and 50 cents.

Denton Cops Nab Teen-age Burglars After Humble Job

Early discovery and prompt reporting enabled Denton county officers early Saturday morning to solve a burglary in the Humble Station here only a few hours before. They nabbed four teen-age Dallas youths in a stolen car with all of the merchandise and some of the cash which had been taken from the Humble Station.

The burglary was discovered by Ben Voth about 12.45 Saturday morning when he returned from his night shift on a drilling rig. He noticed the door open as he was driving past and notified the owner, R. E. Hamric immediately. Hamric investigated and called the county sheriff's office. When the officers arrived a short time later they promptly turned in a report on their 2-way radio. Denton officers were aware of the burglary when they discovered four suspicious teen agers with a Dallas car stopping for eats and gas. A search of the car revealed candy, cigarettes, cigars, and lighters, the very items that had been reported missing from the Humble Station.

The youngsters were returned to the Cooke county jail and Hamric recovered all the merchandise and about \$15 of the \$23 of stolen cash. The rest of the cash apparently had been spent at the Denton cafe and filling station.

Ages of the boys were given at 12, 14, 14 and 16. They were driving a 1950 Mercury which had been stolen earlier that night from I. H. Miller, Dallas County deputy sheriff and brother-in-law of one of the boys. One of the 14 year old boys, who lives with the Dallas deputy admitted he had taken the keys from behind a door in the house. When arrested the boys admitted they had burglarized a filling station "near the Red River."

Community Invited To See Technicolor Film on Agriculture

All of the community was invited this week to be guests of Tractor Sales and Service at the first local showing of the Technicolor motion picture, "Waves of Green" which is being shown by Ford tractor and Dearborn implement dealers as a salute to American agriculture.

Hugh Jackson, manager of the local agency said this week that arrangements are complete for three separate showings of the picture next Tuesday, January 30. At 10 o'clock in the morning high school and upper elementary students of the parochial school will see it in the Relax theatre. At 2 o'clock all public school students will see it in the auditorium. The show for adults will be at 8 o'clock in the auditorium. Adults who find it inconvenient to see the night show are reminded that they will be welcome at either of the two showings for children.

"Waves of Green," Jackson explained, is the thrilling story of how farmers, farm industries farm scientists and farm educators have worked side by side to make this land of ours the greatest agricultural nation on earth.

Schedule of Coming Events

FRIDAY, Jan. 26, Benefit party sponsored by CDA court, the K of C hall, 8 p.m.

FRIDAY, Jan. 26, Basketball, Muenster Hi vs Saint Jo, here TUESDAY, Jan. 30, Agricultural movie, school auditorium, 8 p.m.

WEDNESDAY, Jan 31, Cooking demonstration, Homemaking room at the public school, 8 p.m.

THURSDAY, Feb. 1, Get-Together Club, Mrs. Al Eberhart hostess in her home, 2 p.m.

THURSDAY, Feb. 1, Comedy by Juniors of Muenster Hi, in the auditorium, 8 p.m.

Golden Wedding - - -

... was 18, came to Muenster to reside. The couple was married in ... church by Rev. ... on Jan. 29, 1901. They were attended by Minnie Knabe, late sister of the groom, and John Derichsweiler, brother of Mrs. Knabe, who now lives in Antioch, Cal. Muenster has been Mrs. Knabe's home for more than 60 years and Mr. Knabe has lived here for 56 years. Following their wedding and until about a year ago they engaged in farming. Mr. Knabe is one of the old time cotton raisers of the community. Since they retired from farm life they live in the northwest part of the city in a new home.

Mr. and Mrs. Knabe are the parents of 14 children, all of whom are living, and who with families, attended the celebration. They have 59 grandchildren and three great grandchildren.

Their eight sons and six daughters are Miss Anna Knabe, Mesdames Henry Sicking, Gusie Reiter, Albert Hess, Leonard Randals and Raymond Richardson of Muenster, Mrs. Frank Hellinger of Gainesville, and Mrs. Paul Hellinger of Lindsay; Joe, Bill, Ben, Robert and Albert Knabe of Muenster and Lawrence Knabe of Gainesville.

Mrs. Knabe has two sisters and four brothers. Four of the family were here for the anniversary, Mrs. Mary Match and Mathew Derichsweiler of McAlester, Okla., Ben Derichsweiler of Denison and Bill Derichsweiler of this city. A sister and a brother from California were unable to attend.

Mr. Knabe has three brothers and four sisters living who joined him for the wedding observance. They are John and Albert of Muenster, Frank Knabe of Hereford, Mmes John Eberhart, J. B. Klement, and Bill Becker of Muenster, and Mrs. Charles Meurer of Windthorst.

Carrying out the golden wedding theme, the parish hall stressed floral arrangements of yellow snapdragons, yellow asters and tinted carnations, and streamers of gold and lavender crepe paper.

The honor couple's table held a two-tier wedding cake in gold and white, topped with a miniature bridal figurine, used by their granddaughter, Mrs. Gene Gieb, at her wedding two years ago. Some of the table appointments were heirloom pieces including a unique butter dish almost 100 years old that belonged to Mrs. Knabe's grandmother. Directly behind and above the honoree's table was an enlarged picture of them made on their wedding day 50

Or at least that's the way it looks in this picture combining photographs of three new Russian planes with a view of New York City's recently-installed anti-aircraft battery at Fort Totten. The Russian planes, zooming over the Army's 120-millimeter guns, are: at upper left, a TU-4, the four-engine bomber closely resembling in performance and appearance America's B-29 Superfort; directly below it, a MIG-15, the jet job which has been taking a beating in Korean border fights with U. S. Shooting Stars; at left, a Lavochkin jet that is reported to be faster than Russia's Yak. Although the Red ships appear formidable, the cocky gunners guarding New York gave 100-to-1 odds that they could knock anything out of the sky with their radar-controlled weapons.

years ago. Gold candles, tinted carnations, gilded leaves and fern adorned the board.

A short after dinner program was introduced by Miss Bernice Reiter, granddaughter of the honor couple, who presented a congratulatory address and a humorous recitation and then called on several persons to give addresses. Principal speakers were Rev. Fathers Anthony and Cletus and County Attorney Carroll Sullivan. Both Mr. and Mrs. Knabe spoke briefly.

Mrs. Knabe wore a beige crepe dress and a corsage of gold tinted carnations. Mr. Knabe wore a tinted carnation boutonniere, and each of the 8 daughters wore a white carnation corsage tied with gold ribbon.

The day's program was planned and arranged by the honoree's sons and daughters, and the meal was prepared by Mmes. Joe Lehnertz, Al Kleiss, Frank Kathman and Felix Yosten. Six granddaughters, Bernice Reiter, Rose Mary Knabe, Clara Mae and Mary Ann Sicking, Anna Grace Fette and Frances Knabe, served. They wore gold organdy and lace tea aprons and gold headbands.

Mrs. Gene Gieb was in charge of the guest book. Among out of town guests registered were: Mrs. Mary Match and daughter, Miss Gerry, the Mathew Derichsweilers Sr. and the Mathew Derichsweilers Jr. and daughter Rita, all of McAlester; the Ben Derichsweilers, their daughter, Beatrice and her two sons of Denison; the Frank Knabes of Hereford and the Charley Meurers of Windthorst.

George Mollenkopf was in Breckenridge last week on business in connection with his oil lease and wells there.

School Receives Car For Driving Course

With the arrival of the instruction car this week Muenster High School is all set to begin its Driver Education course. The only lacking detail is installing the extra clutch and brake pedals for the instructor's use in emergency.

The car is being furnished as a courtesy by Endres Motor Company and, according to present plans is to be replaced with a new car at the beginning of each school year. Endres is also furnishing a car on a similar agreement for the Driver Education course of Saint Jo High School.

Superintendent Cowan revealed this week that 24 students have been enrolled in two classes for the course. Hood will teach one class and Coe the other. Prior to actual driving practice the students will have about a month or 6 weeks of theory on the care and general mechanics of a car, statistics on safety factors, driving regulations and driving courtesy.

Knights Announce Day of Recollection Here February 18

A men's day of recollection sponsored by the Muenster K of C Council will be held on Sunday, Feb. 18. Father R. A. Tynan, S. J., of Jesuit High School, Dallas, will conduct the conferences.

When making the announcement this week Joe Fisher said the program will be somewhat similar to that of last year's Day of Recollection. It will begin with 8 o'clock mass followed by breakfast in the lunch room. After that conferences until noon in the K of C hall, lunch in the lunch room and conferences until closing service at 4 or 4:30. Fisher also said that all men of the community, not just K of C members, are invited to attend.

Local NEWS Briefs

Omer Baumhardt of Waco spent Saturday night and Sunday with his mother and sister.

The Dick Cains spent last Thursday in Fort Worth visiting her brother, C. C. Hogan and wife.

Jack Fletcher and Miss Rheba McMinn of Wichita Falls spent the weekend with the former's parents, the J. W. Fletchers.

Mr. and Mrs. Melton Ramsey who lived here before they moved to Kamay were back Sunday for a visit with his father, V. M. Ramsey, and his sister, Mrs. Sam Sparkman and family.

The Arthur Felderhoffs and Pat Hennigans, Otto Walterscheid and Ann Huchton drove to Lufkin to attend the Mid-Winter Round-up Convention for Veterans of Foreign Wars on Saturday and Sunday.

Mrs. E. Newby has returned from a two-week visit with her daughter and family, the C. P. Rows in Denton. She helped nurse her granddaughter, Carla Ann, who was ill with mumps. E. Newby and Carl Rowe spent part of the time on a hunting trip at Throckmorton and stopped for a visit with the B. R. Dennis family.

New 1951 model Chevrolets in the community this week are the parish pastors' tudor black Styleline, Albert Schilling's four-door green Fleetline deluxe, Leo Haverkamp's two-tone gray Bell Air, and his one half ton pickup. Barney Wilde of Gainesville was here Tuesday for delivery of a three-fourth ton Chevrolet pickup.

SHOWBOAT FLAG — Lovely Lydia Agius, Greek employe of the ECA mission in Athens, Greece, displays the flag which flew from the "Showboat," a floating Marshall Plan exhibit. Some 500,000 persons became better acquainted with the Marshall Plan through the ship's six-month, 6000-mile tour of Greek islands and coastal areas.

The J. P. Janickis and two daughters of San Antonio returned to their home Wednesday morning after visiting here since Saturday with her parents, the Jake Pagels.

Guests of Jim Walker and his mother for a weekend visit were the Bunk Corleys and children and the B. A. Walkers and daughter all of Fort Worth, and the Bill Dunsworths and daughter of Cleburne.

45th Anniversary Surprise Greeted J. H. Ottos Tuesday

The 45th wedding anniversary of Mr. and Mrs. J. H. Otto provided the occasion for their children and grandchildren to give them a surprise party.

Observance of the anniversary is a treasured tradition with the family. Each year the children and grandchildren plan a surprise reunion sometime around the date. The surprise to the honorees comes in the actual observance. This year they were honored on the exact date, Tuesday, Jan. 23.

Visiting, games and refreshments brought by the guests furnished a pleasant evening.

All of the family were present except one daughter, Lorraine Otto of Amarillo, and one granddaughter, Florence Fette of Dallas.

Mr. and Mrs. Otto have resided here all of their married lives. She is the former Emma Seyler and a native Texan, born at Westphalia on Feb. 13, 1886. Mr. Otto hails from Saint Paul, Iowa, where he was born March 21, 1881. They were married here in 1906 and farmed north of town until October 1944 when he retired from active farm life and moved to town to reside in the east part of the city.

They have six children and 18 grandchildren.

Marilyn Gremminger of Wichita Falls was here for a week-end visit with her family, the Ted Gremmingers.

Mary Ann Felderhoff Heads Young Ladies Sodality As Prefect

Mary Ann Felderhoff was elected prefect of the parish Young Ladies Sodality when the annual election of officers was held Monday night during a regular monthly meeting. At the same time Kathryn Hartman was elected vice prefect and Jeanette Fisher was elected secretary-treasurer.

The sodality plans a reception of new members in the near future. There are about 15 candidates.

Father Cletus Post, spiritual director, led the opening prayer and gave a short inspiring address after the business session.

Some 30 members were present.

FORTY-TWO CLUB HAS FRIED CHICKEN SUPPER

Members of the Forty-Two club enjoyed a delicious fried chicken supper last Thursday night when Mr. and Mrs. Albert Fleitman entertained the group of 20 in their home.

In the progressive 42 series Victor Hartman won the high score award and Albert Schilling the consolation favor. Willard Hartman received the galloping prize.

Mrs. Sidney Cason and infant son, Michael Robert, are back at home here after spending several days with her mother, Mrs. Vernon Martin in Gainesville after leaving the sanitarium where the baby was born on Jan. 16.

Betty Davison And PFC Walterscheid Wed at Fort Sill

An impressive double ring ceremony in the Fort Sill Post chapel Saturday afternoon at three o'clock united Miss Betty Davison and PFC Leonard Walterscheid. The bride is the daughter of Mr. and Mrs. Aubrey Odom of Lawton and the groom is the son of Mr. and Mrs. August Walterscheid of this city.

Rev. Father Gallagher, chaplain, officiated at the service in the presence of relatives and friends of the young couple.

The bride wore a navy gabardine suit with a white felt hat and other accessories in navy. She carried a white prayer book topped with white camellias and valley lilies.

Mr. and Mrs. Norbert Koesler, brother-in-law and sister of the groom, attended the couple as best man and bride's matron. Mrs. Koesler wore an eggshell gabardine suit with brown accessories and a corsage of pink carnations.

A reception and buffet supper in the home of the bride's parents honored the couple at 6 p.m. Among guests were Mr. and Mrs. August Walterscheid parents of the groom.

The newlyweds are making their home at 308 Bell Avenue in Lawton.

The groom was graduated from Sacred Heart High school here with the class of 1948. The following January he volunteered for service in the army and spent a year at Camp Chaffey, Ark., and Fort Bliss, El Paso. He was called to duty again last October and has been at Fort Sill since that time.

BOOK REVIEW, SHOWER FEATURE BULCHER HD CLUB MEETING THURSDAY

A book review and a birthday observance were added attractions at the regular meeting of the Bulcher Home Demonstration Club on Thursday, Jan. 19 when the women gathered in the home of Mrs. Hazel West.

Mrs. Nomie Whitt reviewed Gaylord Hauser's "Look Younger, Live Longer" and Mrs. Mary Stadalman, who was 85 years old on Jan. 20, received a gift shower. She has been an active member of the club for many years.

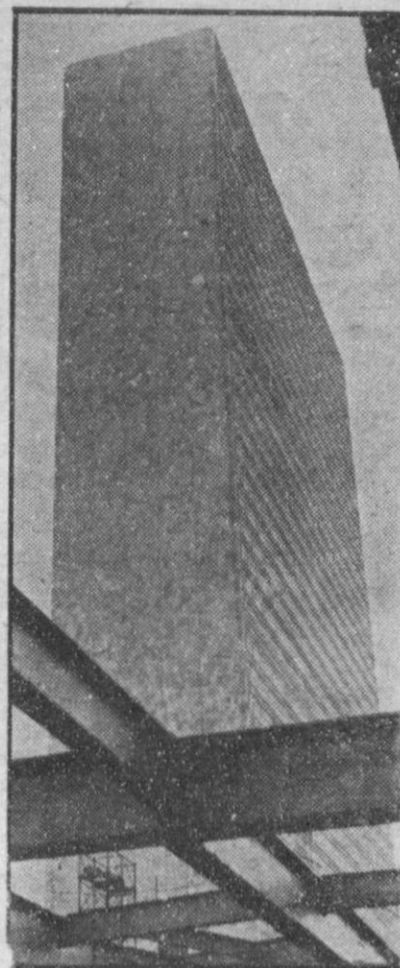

Other features of the recreational hour were a flower game and the exchange of Sunshine gifts.

During the business session at which Mrs. Verna Hyman presided the members voted to sponsor a drive to raise funds for the March of Dimes. Mmes. Jim Sharp, Frankye Shields and Marie Pollard composed the committee in charge.

Mrs. West served refreshments to 16 members.

The club will have its next meeting on the first Thursday in February with Mrs. Ann Prather as hostess.

Mr. and Mrs. John Zeller of St. Jo, Iowa, stopped here Monday to visit the H. J. Fuhrmans enroute to the Rio Grande Valley where they will spend the winter.

NEW UN SITE — Casting a knife-like shadow over Manhattan Island, the recently-completed UN building is now playing host to some 3400 members of the UN Secretariat who moved in with tons of office equipment from the UN's suburban Lake Success headquarters. Thousands of spacious windows on the rectangular skyscraper's widest sides offer the Secretariat workers a lofty view of the world whose fate they are helping to decide.

19 QUALIFY FOR HONOR ROLL AT SACRED HEART HI

The citizenship honor roll at Sacred Heart High school for the past six weeks' period lists 19 students, according to Sister Theresina, principal.

Seniors on the roster are Celina Felderhoff, Rita Hoinig, Anselma Knabe, Dorothy May Walterscheid. Juniors are Willard Hartman, Leoba Henscheid Irma Hofbauer and Anselma Kathman.

Sophomore honor students are Daniel Haverkamp and Rose Marie Walterscheid and freshmen qualifying are Mildred Fisher, Lorene Fleitman, Clara Flusche, Carrie Ann Gehrig, Alma Henscheid, Jerry Henscheid, Ray Luke, Alice Koelzer and Marilyn Miller.

TIM HELLMAN CELEBRATES BIRTHDAY WITH PARTY

Tim Hellman observed his birthday Saturday with a party for some 20 young friends. Gifts, games and refreshments of birthday cake and ice cream made it a gay affair for the youngsters.

Mary Nell and Doris Hellman and Carrie Ann Gehrig, hostesses supervised the afternoon's entertainment and served the refreshments.

WASHINGTON NEWSLETTER

By ED GOSSETT

Washington, D. C. Jan. 19.—This is our first weekly newsletter for this session of Congress. Henceforth, these letters will be prepared on Friday of each week and mailed to all papers in our District.

In many speeches and letters for many months, I have stated that our country was in grave peril; that to survive, we must maintain, (1) economic stability, and (2) military invincibility. The Communist program is clear. The Communists, both domestic and foreign, expect us to destroy ourselves. They hope we will bleed our country white through extended supply lines and guerrilla warfare in various parts of the earth. If this does not work, they hope and expect our country to collapse from within.

All good Americans, of course, are determined that such will not be our fate. However, we can destroy our democracy in our efforts to preserve it.

A case in point is the proposed Universal Service and Training Act submitted to the Congress on yesterday through the Secretary of Defense, Mr. Geo. C. Marshall. This is not only a universal draft-universal training bill, but it goes much further. It proposes registration at 17, draft at 18. Then it proposes a gigantic rehabilitation program for all young men who may be rejected for physical or mental reasons, such physical and mental rehabilitation to be done, of course, at government expense. The billions now spent on GI education would be but a drop in the bucket. It further proposes to draft and train in government schools annually, 75,000 doctors. This is socialized medicine in one package. Such complete regimentation of a country's manpower was never before proposed by anybody at any time within a democratic nation. Congress will not pass such a bill, the high brass notwithstanding.

Chief witness for the Department of Defense on this monstrous bill has been the foreign-born, controversial Mrs. Anna M. Rosenberg, Assistant Secretary of Defense in charge of manpower.

On November 10, when the nomination of Mrs. Rosenberg was announced, I made the following statement:

"The appointment of a foreign born female social worker to be an assistant secretary of Defense is preposterous. Politics, especially in a time of national peril, should be secondary, not primary. It is hoped that the Senate will exercise good judgment and refuse to confirm Mrs. Rosenberg. She doubtless is a very fine woman but we have at least 100,000 native-born American men better equipped for this job than is she."

While I do not know that Mrs. Rosenberg is the architect of this so-called Universal Ser-

vice and Training Act, it reads like the work of some visionary, impractical social worker, to say the least.

Congressman Olin Teague, of Texas, heads up a Subcommittee of the Veterans' Affairs Committee, investigating fraud in the GI Educational Training Program. When Congressman Teague's report is published, it will shock and startle the country. Even some of our leading educational institutions have been guilty of swindling the Veterans' Administration of many thousands of dollars.

The House today passed a Resolution calling on the United Nations to brand Red China as an aggressor nation. We should go much further than this. We should stop all trade with Red China and should compel some of our allies to stop their trade with Red China until she makes atonement for her unlawful and outrageous Korean campaign. Furthermore, if and when the issue of seating Red China as a member of the United Nations comes to a vote in the Security Council, America should certainly exercise her veto power. This would be our first veto. It's hard to imagine a more appropriate place in which to exercise this power. Secretary Acheson, sometime ago announced to the world, and has reiterated frequently, his intention of asking our Representatives not to exercise the veto on Red China, but simply to sit futilely by and abstain from voting. If we do not have the courage and intelligence to punish unconscionable enemies, when within our power to do so, we can hardly expect the respect of either friends or enemies.

INDUSTRY IS OUR STRENGTH

Communism cannot conquer the world unless it can first cripple American industry. Stalin knows this. He knows that six years ago, at the height of World War II, American industry was producing as much war material as all the other nations combined. In fact, American-made tanks and planes and guns flowing to Russia helped the Red Army hold Hitler at bay. When and if the Communist armies make an all-out assault against the free world we may be sure Stalin will give the signal to saboteurs already carefully placed in our country to seriously cripple our industrial might.

It's doubtful that Red planes at this time could reach much of our industry with air-borne atomic bombs. So Stalin's present strategy almost certainly includes a plan to sabotage our industrial production — through cunning internal assembly

Keep The Rats Out!

line sabotage and by paralyzing strikes fomented by Communists who have wormed into influential places within industrial employee groups. If the "war for survival" does come, a strike shutdown of length in one of our key industries could possibly mean the difference between victory or defeat.

Dangerous Concentrations

In every nation outside the

Iron Curtain the Communist Party membership, both open and secret, is concentrated in industrial employee groups. Probably they are strongest in France, Italy and England, where Communist-led strikes which have flared up many times in the last few years have revealed their power to cripple industry. But they are in strategic positions here too. Ac-

ording to the FBI, most of the 55,000 known Communist are deployed in the industrial unions. It is significant to note that when the Communists took over Russia in 1917 they did it with fewer party members in Russia than they have in the U. S. today.

J. Edgar Hoover, FBI chief, says: "The Communists, as a basic principle of infiltration, are interested in possessing strength in heavy industry; that is, coal, steel, rubber, automobiles, etc. It is here that, in event of an emergency, they can do their greatest harm. . . . Moreover, in these industries one Communist Party member located in a strategic job can wreak damage completely out of proportion to his own strength."

Insidious Power

"Through this heavy-industry concentration policy, the Communists are able to exercise a power far in excess of their numbers," the FBI chief said in an interview with the United States News. "In fact, one of the highest ranking leaders of Communism in the U. S. has openly admitted: The Communist Party bases its work directly upon the mills, mines and factories. Its principle is to make every shop a fortress for Communism. . . . It concentrates its work upon the heavy industries and those of a war character."

Recently I sat down in the general manager's office in a big plant whose products would be vital to a successful American war effort — a "heavy industry." "Will you have a problem with Communists if you get into full war production?" I inquired. "We're hoping not," he said. "We've got 34 known Commies among our

12,800 men and women employees. Enough of our people know them so they're watched closely. I don't think they'll get by with anything."

Hidden Reds

"What about the hidden Reds," I asked. "No doubt we've got some," he said. "If they try anything openly, we can handle them. But if they resort to assembly line sabotage they might be able to do some damage to the war effort, until caught." And what about the "sabotage" strike? "Well, I don't believe our men and women here could be pulled into anything like that, under any circumstances, if we get into full war production. They're good Americans and they've got as much at stake as anybody. There will be plenty of agitation elsewhere."

He mentioned an industry in another city. "That plant has got a bad situation," he said, "The Commies control the union. They'll try to make trouble." It is comforting to know that both the FBI and industrial management are alert to the danger and are preparing to cope with it. For our very existence as a nation depends on the unbroken production of great industries which have grown up in our private enterprise system.

Bob — "The touch of the nurse's hand cooled my fever instantly."

Warren — "Yeah, we heard the slap all over the ward."

Intoxicating Lady

"You bad, naughty boy," giggled the coy lady. "Don't you dare kiss me again."

"I won't, lady. I'm just trying to find out who has the bourbon at this party."

FORD STEP-AHEAD ENGINEERING ACHIEVES NEW TRUCK ECONOMY

Here they are!

New FORD TRUCKS for '51

New driving comfort for '51 Ford Truck models, like this F-8, offer a choice of two new 5-STAR Cabs! New massive-modern front-end appearance makes Ford, more than ever, the truck style favorite!

Yes... over 180 new models

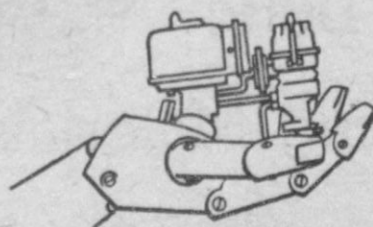

NEW Steering column gearshift in series F-1 for car-like shifting ease! NEW Grain-tight 6 1/2-ft. Pickup body has hardwood floor with steel skid strips! NEW Wider rear cab window — 50% more rear safety vision! NEW Two new cabs: The 5-STAR; and the 5-STAR EXTRA. Engineered for maximum driver comfort! 5-STAR EXTRA Cab has additional features at slight extra cost. NEW Chrome-plated top piston rings now standard in all four Ford engines, for longer cylinder life! NEW Autothermic pistons, high-lift camshafts for top performance! NEW Easier, quiet shifting with new 4-speed Synchro-Silent transmission available at extra cost on Ford Series F-4, F-5 and F-6 models!

New Ford Trucks for '51 offer you great new economy features... to do MORE per dollar.

There are more than 180 models, with new features throughout... from 95-h.p. Pickups to 145-h.p. Big Jobs! With a Ford Truck, and ONLY with a Ford Truck, you can choose a V-8 or Six, to match your power needs exactly.

Behind the new Ford front end are engine performance advancements like new autothermic pistons, new chrome-plated top rings, new high-lift camshafts... new transmissions, and axle for even longer truck life.

In the low-price field... Only Ford Trucks feature POWER PILOT ECONOMY

WORKS AND SAVES AUTOMATICALLY ALL THE TIME

1. The Ford Truck Power Pilot is a simpler, fully-proven way of getting the most power from the least gas!

2. It automatically meters and fires the right amount of gas, at precisely the right instant, to match constantly changing speed, load and power requirements.

3. Unlike conventional systems, the Power Pilot uses only one control instead of two, yet is designed to synchronize firing twice as accurately.

4. You can use regular gas... yet you get no-knock performance! Only Ford in the low-price field gives you Power Pilot Economy!

From where I sit... by Joe Marsh

Right Under Our Nose!

Sometime back, we got word from the Governor, asking if we wanted to use the State Fire Inspection Team—a group of experts they send around to communities to inspect public buildings.

We sent a letter saying: "Okay! Give us the once-over!" They came down, all right—last week.

After the inspection, we got their report. Came out pretty well, all told. Town Hall and the School were O.K. Post Office just needed more sandbuckets. In fact, everything got a clean bill of health, except—the Fire Station!

From where I sit, we volunteer firemen had just been too blamed busy keeping everyone else on the ball—and not realizing our own firehouse was not up to snuff. Like the man who worries so much about his neighbors—about whether they work hard enough, about whether they can really afford their new car, about their enjoying a temperate glass of beer—that he forgets to take a good critical look at himself now and then.

Joe Marsh

WESTBROOK REPORTS

by Representative

AUSTIN WESTBROOK

For the first time in the history of the House of Representatives standing committees were appointed on the first day of the legislative session. The Honorable Reuben Senterfitt had standing committees ready. When the committees were being read there was a lull in the House as probably never before in its history.

The two most important committees, Appropriations and Redistricting were handled, in my mind as fair as they could be. Anyone having a state-owned institution in his district could not be placed on the Appropriations committee. The members that were placed on the Redistricting committee were members of scattered points in the State of Texas. Their names were drawn by the speaker more or less at random.

Predictions on the length of the session before we got underway were that it would last from nine to ten months. Now it looks like 120 days will do it.

I worked during the first week on my committee appointments. The new speaker was very fair with me and the committees that I am appointed to for the 52nd legislative session are as follows:

Banks and Banking Committee — that handles the banking system of Texas.

Game, Fish and Oyster Committee — that has jurisdiction over all of the hunting and fishing industries and laws of the state.

Highways and Roads Com-

REPAYING A DEBT—One of the first New Yorkers to answer a Red Cross appeal for blood donors was 21-year-old Sgt. Martinez of Brooklyn. Wounded in the Korean fighting last September, Martinez told nurse Madge D'Alessandro, as she accepted his blood, "I got blood at the front and I saw how blood saved the lives of boys in Korea. I think I ought to give some back."

mittee — which has jurisdiction in the construction and maintenance of the highways and roads of the state.

Prison Committee — which has jurisdiction over the entire prison system of Texas.

Examiners of Comptrollers and Treasury Accounts Committee — which checks all of the expenditures and taxation that are handled through the state Comptrollers and Treasury Departments.

On the 3rd day of the Session I co-authored a constitutional amendment providing for THE EXPANSION OF VETERANS LAND PROGRAM. This bill, in general, provides for one hundred million dollars to be voted on by the people of Texas. The Veterans Land Program was enacted into law two years ago entitled: Senate Bill No. 21. This law provides for a twenty-five million dollar issuance of bonds through the Veterans Land Board.

The twenty-five million dollars was let through three different issues of five and ten million dollars apiece by the Veterans Land Board, and the bonds paid on an average of less than 1.75 per cent interest and netted 1.25 per cent interest to the State of Texas. This program as it is set up will actually save the people of the State of Texas money, and as Bascom Giles, Commissioner of the General Land Office said, "I can think of no finer gesture on the part of the State of Texas than assisting the veteran to acquire what he most deserves — a parcel of the land he fought for."

In the past, I had a personal

opportunity to work with the Land Board, and I know that every veteran of World War II living in Cooke county that has applied for land under this program, received the same. It can be said that Cooke County was the first county in the State of Texas that had all of its applications for land completed.

Since the twenty-five million dollars has been exhausted, there have been a number of veterans in the county to ask when they would be able to apply for land under this program. I have told them that as soon as more money was received by the Veterans Land Board, they would have the opportunity of getting the land of their choice if the Veteran's Land Board appraised the land at the price the owner was asking.

Until my next report,
Your State Representative,
Austin Westbrook

Gushers Washed Up

At one time considered a symbol of America's booming oil industry, the gusher which ran wild and flooded the countryside with oil is practically a thing of the past. By studying petroleum reservoirs and developing equipment to control nature's subterranean gas pressures, producers now regulate production from the moment a well is completed. Only through a mishap can a gusher occur today.

A visitor to Texas wrote home:
The sun has riz,
The sun has set,
But here we are
In Texas yet.

The American Way
Death to Capitalism

By George Peck

by Maurice R. Franks

One of my duties as an editor is to spend considerable time studying the public utterances of national leaders. This study has convinced me that the leaders of American Capitalism are doing a mighty poor job of selling this system to at least one large body of fellow capitalists — the American work-

ers. Millions upon millions of dollars are spent annually on advertising the products of Capitalism, and the accomplishments in this direction are truly stupendous. But little or nothing is being done to sell the economic system which makes possible this grand array of products.

Oh, yes, I know that no small amount of money is spent on what is known as "institutional advertising."

Hardly a magazine misses an issue without running several thousand dollars worth of such copy. But to read these ads is to come to the conclusion that the copywriters know little or nothing about the item they are trying to sell, that is, the package known as Americanism. The impression they convey is that they regard the average American as either an educated snob or an imbecile. They beat about the bush of what they are endeavoring to put across. They tell their story either in a language necessitating a Harvard degree to comprehend or in kindergarten terms that insult the intelligence of the reader.

What is needed, if we are to keep capitalism alive and functioning, is a straightforward down to earth informational campaign that will tell the American people all there is to know about capitalism — not simply as it affects our business leaders of the nation but

as it affects the workingmen as well. In fact, chief emphasis should be directed toward the latter.

What does the average worker care about capitalism if he believes that its benefits are reserved for the other fellow—the businessman? If he is to place a high value on this economic system, he must be shown in clear, unmistakable terms that he himself is proportionately as much a capitalist as the duPonts, the Fords and the Rockefeller's. He must be made to see that what benefits these people benefits him—and that what hurts them will likewise hurt him. He must be shown that the destruction of the capitalistic system by communism or socialism or any other form of collectivism will mean the loss of something pretty valuable to him — TO HIMSELF PERSONALLY. Never mind what the businessman, big or little, stands to lose. Consider the effect upon the individual worker.

The worker should be helped to realize that in communistic and socialistic countries he is deprived of the means of providing his own financial security. In Soviet Russia, for example, the worker does not own his own home or drive his own car. He is denied the right of free speech. He cannot pursue an occupation of his own choosing. He cannot quit an occupation when he himself sees fit. He is not allowed to voice his own opinion at the polls and last, but not least, he is not al-

lowed to belong to a church of his own choice.

These are the things that must be brought to the attention of American workingmen — the junior capitalists, mind you, of this United States. Unless these things are done, the time is not far distant when these same workingmen, because of their lack of understanding of capitalism as it affects THEM in their daily lives, may play an important part in bringing DEATH TO CAPITALISM.

Ladies Agree..

an Electric Range means better Cooking!

Ask your friends, your neighbors. They'll tell you what more women are saying every day . . . "an electric range is the modern way to better meals!"

Then, when you have an electric range in your own kitchen, you'll see roasts, pies, cakes, entire meals cooked to delicious perfection time after time. That's because an electric range's accurate temperature control cuts on and off automatically, maintaining the exact degree of heat the recipe calls for.

And how you'll love the cleanliness of electric cooking! There's nothing about an electric range to make dirt . . . heat comes to it by wire. It'll cut your kitchen clean-up time in half.

What's more, electric cooking is fast, safe and economical! No wonder electric ranges have made such a hit with the ladies!

TEXAS POWER & LIGHT COMPANY

Electric Industry Is Ready to Meet Emergency Needs

Ample electric power is available to meet fully the anticipated industrial and military expansion resulting from the present national emergency in addition to fulfilling civilian needs, in those parts of the state served by Texas Power & Light Company, it was announced by W. W. Lynch, president of Texas Power & Light Company. "Unless government limitations are imposed which would prevent the completion of the construction program under way since 1947, there is no danger of being short in the supply of electric power for any foreseeable loads within the area," he said.

At the present time, Mr. Lynch said, Texas Power & Light Company can supply more than twice as much electricity as it could just prior to World War II. "Today the Company has an available capacity of 328,900 kilowatts as compared to 155,940 kilowatts in 1941. Two major installations alone—at the main generating station at Trinidad and at the Waco plant—have accounted for some 85,000 kilowatts of the increase within the last two years.

"In addition," he said, "the Company is now installing a

6,000 kilowatt generating plant at Gainesville and has scheduled an 80,000 kilowatt station for completion during 1953. Still another plant of between 80,000 and 100,000 kilowatts capacity is planned for completion in 1954."

This increased generating capacity represents only a part of the Company's construction program. A new 132,000 volt substation went into operation at Stephenville in September and the capacity of several existing stations was increased substantially.

Similar attention has been given the Company's transmission system which has been substantially strengthened, particularly in areas subject to recurring ice storms, so as to withstand extreme weather conditions and heavy ice loadings.

The voltages of distribution systems in towns and cities served by the Company have been increased under methods which permit serving a greater power demand with the same wires, thus reducing the amount of new copper or aluminum wiring used.

"As a matter of fact," Mr. Lynch said, "our entire construction program has been carefully analyzed and screened to reduce to a minimum the use of critical materials which will be needed in the nation's defense program."

Spindletop

Early in January, the birthday of a new era of progress in America's industrial and economic history was celebrated in Beaumont, Texas. It was the golden anniversary of the famous Spindletop oil well, which was brought in in 1901.

Spindletop was not the first oil well. At the time there were producing oil fields in Texas and other states. However, Spindletop was the granddaddy of all the big wells that have been brought in since. When it came to life with an earth shaking roar that January morning, nothing like it had been seen or even imagined by oil men.

Oil blew 200 feet into the air for nine days before Spindletop was finally capped and tamed. When the well was brought under control, some 800,000 barrels of crude oil formed a lake measuring about 100 acres. Two months later, despite all precautions, sparks from a passing locomotive set the oil on fire, and it was lost in flames and thick smoke that mushroomed thousands of feet into the air. Nowadays the possibility of such a fire in modern oil fields is extremely remote. The engineers and the scientists have taken care of that.

The news of the incredible well brought 50,000 people to Beaumont, all bent on cashing in on this new Klondike. A quiet community with a population of 9,000 became a roaring boom-town almost overnight. Land values soared to fantastic figures. A year later there were 138 producing wells in the area, the boom was fading into history, and the oil men had set-

"WHERE DO WE GO FROM HERE"—Marines aboard a train at a South Korean port watched the landscape slip slowly past with mixed emotions. The Leathernecks were bound for a staging area up North to help embattled comrades stem a tidal wave of Chinese and North Korean Reds.

led down to the long-term job of efficient development and production. The vast Texas oil industry was well underway. Spindletop had started a great new era in America, and the oil industry of today is the well's monument.

—Industrial News Review
Three out of four wrecks happen in clear weather on dry roads.

The expression "Heeby-jeebies" comes from an American Indian word for a witch-doctor's dance.

Among the 48 states, Texas ranks high in the number of dairy cows, but very low on the basis of milk and butterfat production per cow. The artificial breeding program, if widely used, could materially assist in remedying the situation.

Flying through the corridors of the Pentagon, the little pigeon sat down on a windowsill to rest. Close behind came another pigeon who stopped and said:

"Where are you bound for?"
"Over to Section M to deliver an order," panted the first bird.
"What order is that?" asked the other.
"Number X-1234."
"Well, get moving," chirped the second bird, "I got the order that rescinds it."

Jack Moore of Phoenix, Ariz., spent Monday night and Tuesday here with the J. W. Fletchers. He is Mrs. Fletcher's cousin. It was their first get-together in 35 years.

Dr. F. R. Beaudette, poultry pathologist at Rutgers University, New Brunswick, N. J., has saved countless farm flocks from decimation through his development of a vaccine for Newcastle disease. He is one of the agricultural scientists to appear in the new Technicolor motion picture, "Waves of Green," which will be shown here soon as part of the "We Salute American Agriculture" program.

**Physical Reflexes
Are Often Amusing
Always Important**

Along with parlor tricks during the holiday season, the testing of reflexes frequently adds hilarity to gatherings. It is always amazing to find out that parts of your anatomy do things you're unaware of, when you think you have yourself quite under command.

Reflexes are those actions of muscles that respond to a stimulus without sending the message to the brain. While the testing of those reflexes at a party seems to add to the enjoyment, the testing in the doctor's office is sometimes a vital part of your physical examination.

Blinking the eyes when a piece of cotton is stuck in your eye, gagging when something touches the back of the mouth, and bending the big toe down when a finger or stick is stroked across the sole of the foot all come under the heading of superficial reflexes, reactions of the skin and mucous membranes.

Arm, leg and foot reflexes are tested not only for enough reaction but for exaggeration, too, which may be significant of nerve path disorder. The foot jumps out when you tap the knee just below the kneecap, the foot jerks down when you tap the back of the ankle, the forearm and hand jerk up when you hit the biceps muscle on top of the upper arm, and the forearm and hand pull down when the triceps muscle on the bottom of the arm is tapped. Those muscles all have to be nicely relaxed to give any medical information as to reflex.

One of the favorite "tricks" in sociable testing of reactions is standing with the arm and shoulder against the wall for a period and then stepping back from the wall and watching the arm float up.

The sense of pain, touch, and temperature are part of the skin sensations which may be tested if conditions suggest it advisable. The degree of pain may be important whether it be lacking entirely or unduly exaggerated. Numb parts of the skin where nothing is felt are always important, though they may be numb only to touch of normal objects and still react to pain and heat or cold.

Buttoning or unbuttoning your coat with your eyes closed may be a part of the deep sensation examination; it's really not as easy as it sounds. If you dress in the mornings before you get your eyes open real good, though, you have had lots of practice for that.

Standing with the feet and ankles close together is another of the deep sensation tests. Easy? You're supposed to close

your eyes while you do it. Not so easy, huh?

These deep sensation tests are all done with the eyes closed. Stretch your arms as far apart as you can and bring the forefingers together in a quick sweep or bring the forefinger in to your nose in a quick, eye-closed motion. With your eyes closed, no peeping, put the heel of one foot on the opposite kneecap and run it down the front of the leg.

Since relaxation is an important part of reflex and sensation testing in the physical examination, you aren't likely to be able to tell much about your own testing during the merriment and exhilaration of a party. In your doctor's hands, this testing may result in definite information as to whether the nerve path and mechanism is in proper order.

Fooled Him

"So you and Charlie are married. I thought all the time it was just going to be a flirtation."

"So did Charlie."

Hard to Handle

Kinsley — "I wonder why it is that people always refer to a canoe as 'she'."

Griffen — "Evidently you never tried to guide one."

MUESTER

Joe Otto observe their 40th wedding anniversary. Red Cross sewing assignment for local women is 50 print dresses. Work begins on new home for the Joe Knabe family. T. J. Hoffman and Arnold Swirczynski arrive in the states from overseas duty. The Ben Ottos observe 30th wedding anniversary. Announcement is made of the engagement of Leona Haverkamp and Anthony Luke. New arrivals this week: Wayne Trubenbach, August Fleitman, Agatha Noggler, and Clarence Fleitman. Sodality girls begin practice on a play, George In A Jam, to be directed by C. M. Walterscheid.

**Polio in Texas Sets
All Time Record in
1950 . . . 2778 Cases**

AUSTIN.— Texas wound up 1950 by setting a grim new record in polio incidence — 2778 cases for the year.

Never before in state history have so many cases been reported during a 12-month period. Eight cases occurred during the last week in December. That in itself is significant, for not a single week passed that didn't see at least one case of the so-called hot weather disease being diagnosed in some part of the State.

The total 1949 incidence of the dread disease reached 2355 cases, establishing a record up to that time.

203 counties out of the state's 254 were involved in the 1949 outbreak. That's comparable to the 201 counties which experienced polio in 1950.

The disease reached its peak on August 12, when 131 Texans fell ill. That marked the greatest single weekly incidence ever to be reported.

Twenty-eight counties had 20 or more cases; ten had more than 50 cases; six had more than 100 cases; and three counties — Dallas, Harris, and Tarrant — had more than 200 cases each. Those three areas represent the most populous regions in Texas.

Early in the polio season, Dr. Cox pledged the facilities "of the entire State Department of Health" to local communities in combatting polio. The health agency's laboratory and field personnel, working in cooperation with civic organizations and local health units, were credited with keeping the epidemic from reaching even greater proportions.

State health department death records show 201 polio deaths through the first 11 months of 1950, and 192 deaths from that cause during all of 1949. Complete death figures are not yet available for December.

Every career is now open to the women of Turkey. Side by side with men, Turkish women are building their country's future.

For the FIRST TIME in this Community!
WE PROUDLY PRESENT

"Waves of Green"

The Great Technicolor Motion Picture of the Story of
Farm Progress in America!

You and your friends are cordially invited to join with us as "We Salute American Agriculture" . . . and to be among our guests as we present the great Technicolor motion picture WAVES OF GREEN for the first time in this community. This is the thrilling story of how farmers, farm industries, farm scientists and farm educators in our Land-Grant Colleges have worked side-by-side to make this land of ours the greatest agricultural nation on earth!

Blessed Events

Mr. and Mrs. Ed Schneider announce the birth of twin boys at the local clinic on Friday, Jan. 19. The young men weighed in at 5½ and 6 pounds and are named Donald Gilbert and Ronald James, respectively. Their mother is the former Miss Virginia Walterscheid and the Al Walterscheids are grandparents for the first time. Father Anthony Schroeder officiated at the double baptism service Sunday afternoon. Assisting as sponsors were Mr. and Mrs. Al Walterscheid for Ronald and Miss Dorothy Walterscheid and Donald Endres for Donald. The boys also have a paternal grandfather, William Schneider of Subiaco, Ark., and a great-grandmother Mrs. Wm. Walterscheid of Muenster.

Mr. and Mrs. Ray Wilde are rejoicing over the arrival of a daughter, Janice Kay, on Monday, Jan. 22, at the local clinic at 4:40 p.m. Also welcoming the 8½ pound girl are her brother, Danny, the grandparents, Messrs. and Mmes. J. B. Wilde and John Schmitz, and the great grandparents, the John Eberharts. Jan's baptismal service is set for Sunday. Her uncle and aunt, Leonard Schmitz of Dallas and Mrs. Al Horn of Harlingen will be sponsors.

Mr. and Mrs. Eugene Klement announce the birth of a daughter, Kathryn, at Gainesville sanitarium on Monday, Jan. 22, at 5:10 a.m. She weighed 8 pounds and 6 ounces. The baby has two brothers and three grandparents, the Frank Klements of Muenster and Mrs. Joe Rawleigh of St. Paul, Minn.

Mr. and Mrs. Joe J. Bezner of Gainesville are the parents of an 8 pound 2 ounce son, Michael Ray, born on Jan. 20. He joins a family of two sisters and a brother. Mrs. Joe Bezner of Lindsay is the paternal grandmother.

Mr. and Mrs. Henry Stoffels, Jr. of Lindsay announce the arrival of a son on Jan. 20 at Gainesville sanitarium. The baby has two sisters and a brother. His grandparents are Messrs. and Mmes. Henry Stoffels and Joe Fuhrmann.

TP&L Names Man To Help Improve and Develop Rural Areas

Homer M. Gibbs, rural development specialist, has been employed by Texas Power & Light Company to assist its farm and rural customers and to work with existing agricultural agencies and other interested groups in improving farm practices.

"It has always been the policy of this Company to help develop the area it serves," said W. W. Lynch, president, "because the prosperity of Texas depends basically upon the prosperity of agriculture. Through the work of Mr. Gibbs and his staff, we hope to contribute to the long-range development of better farming practices which will assure Texas farmers of larger incomes and will conserve for future Texans the agricultural resources of the state."

Mr. Gibbs has served as vocational agricultural teacher in Galveston County, and as assistant and then county agricultural agent of Fort Bend County. In these positions he worked actively with both Future Farmer and 4-H Club groups.

Dog Eat Dog

A South African native was told he had to be taxed because the government, like a father, protected him from enemies, cared for him when he was hungry, gave him an education, and, for these reasons, needed money. The old native said:

"Yes, I understand. It is like this. I have a dog, and the dog is hungry. He comes to me and begs food. I say to him, 'My dear, faithful dog, I see you are very hungry. I am sorry for you. I give you meat,' then I take a knife, cut off the dog's tail, give it to him and say: Here, my faithful dog, be nourished by this nice piece of meat."

GOOD HEALTH

Answer to Question No. 1:

Children make up almost one-third of the United States' 150 million citizens. Thanks to a continued high birth rate and a steadily falling death-rate, the child population reached an all time high of 47.5 million in 1949. This is six million greater than in 1940.

Answer to Question No. 2:

They are probably more health conscious than any other people in the world. Foreign visitors often comment on the widespread interest of the average American in medical discoveries. Newspapers, magazines, radio and television have contributed to this education and there are 20,000 volun-

tary organizations in the United States interested in health. These are aside from the many federal or state organizations which deal with health.

Answer to Question No. 3:

The so-called "stenographer's breakfast" is a cup of coffee and a cigarette. The custom of eating skimpy breakfasts is blamed by doctors for mid-morning fatigue, frequent errors by workers and low grades by students. Breakfast should contain whole wheat bread or whole grain cereal, milk, fat in the form of butter or margarine, and protein, such as egg or meat. (Copyright 1950 by Health Information Foundation)

Discipline Deluxe

Little Claude's mother had reluctantly allowed her precious child to attend public school. She gave the teacher a long list of instructions.

"My Claude is so sensitive," she explained, "don't ever punish him. Just slap the boy next to him. That will frighten Claude."

In the Philippines, with practically all professions open to them, teaching is the most popular profession among women.

"Old Hickory" Jackson is said to be the originator of the popular expression "O.K." Being a poor speller, he marked official papers with those letters, abbreviations for his version of "Oll Kerect".

Wildcatters Drill for Oil on Mountain Top

The never-ending search for oil has carried wildcatters to the top of a 6,880-foot mountain in California. To bring equipment to their lofty drilling site, the company has constructed an 8½ mile road at a cost of \$80,000. Water for the operation will be pumped up through a six-mile pipe from a water well drilled 3,000 feet down the mountain. Because winter storms often close the roads in the mountainous territory, sleeping and cooking facilities are being installed at the rig.

HOW TO BE MISERABLE

1. Think about yourself.
 2. Talk about yourself.
 3. Use "I" as often as possible.
 4. Mirror yourself continually in the opinion of others.
 5. Listen greedily to what people say about you.
 6. Expect to be appreciated.
 7. Be suspicious.
 8. Be jealous and envious.
 9. Be sensitive to slights.
 10. Never forget a criticism.
 11. Trust nobody but yourself.
 12. Insist on consideration and respect.
 13. Demand agreement with your own views on everything.
 14. Sulk if people are not grateful to you for favors shown them.
 15. Never forget a service you may have rendered.
 16. Be on the lookout for a good time for yourself.
 17. Shirk your duties if you can.
 18. Do as little as possible for others.
 19. Love yourself supremely.
 20. Be selfish.
- This recipe is guaranteed to be infallible.

You can pay more... but you can't buy better

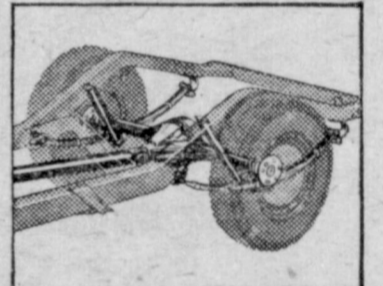

... than the '51 Ford with new FORDOMATIC* DRIVE and 43 "Look Ahead" features

Built with an eye to the future, this '51 Ford is the buy for the future... with 43 new "Look Ahead" features that will keep it looking, acting, and feeling young for years ahead. A few of those long-life features are explained at right.

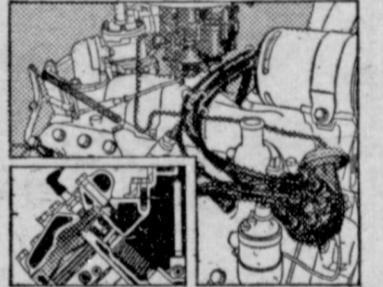

FORDOMATIC DRIVE

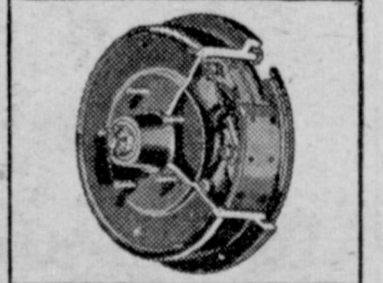

- The newest automatic drive
- The smoothest and most flexible
- Cuts 92% of your driving motions
- Takes off "like a jet"
- You're always boss!

AUTOMATIC RIDE CONTROL
It automatically irons out the bumps with Ford's new Variable-Rate Rear Spring Suspension, new "Viscous Control" Shock Absorbers, and Advanced "Hydra-Coil" Front Springs.

AUTOMATIC MILEAGE MAKER
It's a magic brain that gives you high compression performance with regular gas, better mileage with any gas. New Waterproof Ignition System.

NEW DOUBLE-SEAL KING-SIZE BRAKES
A touch of your toe, and you stop straight and sure. They're double sealed against the weather to prevent moisture-binding, too.

NEW AUTOMATIC POSTURE CONTROL
Front seat moves forward automatically at the touch of a lever. At the same time height and angle are adjusted for correct posture.

NEW "MAGIC LIFT" DECK LID
Just turn the key and the rear deck springs open. No effort required to lift it or close it. And for room, no other low-priced car can match Ford's deep-deck luggage locker.

1950 County Polio Victim Is Booster For Dimes Campaign

A 1950 Cooke county Polio victim, Coloyce (Red) Gordon of Gainesville, was at the two Muenster schools Thursday doing his bit to assist in the current March of Dimes campaign. His message in behalf of the polio fund drive is accompanied by an entertaining act including imitations of musical instruments and a mental act which he performs in spite of partial paralysis on the left side of his face.

Gordon was admitted to Baylor Hospital, Dallas, last summer as a serious polio victim. For 17 days he lay unconscious. Weights on his stomach kept his spine from drawing out of shape and packs so hot they had to be handled with tongs were used to ease muscle tension. He left the hospital in October and has been recovering slowly ever since.

Funds for Gordon's treatments, as well as for the brace he wears, were taken from last year's Cooke county March of Dimes fund.

During the current drive he is making a large number of appearances all over the county in the hope that "he will be able to do as much for the

TOURING EUROPE—Gen. Dwight D. Eisenhower, Supreme Commander of the proposed Atlantic Pact Army, is currently touring Europe in an effort to persuade Atlantic Pact countries to build their common defenses. "Ike" will return to Washington after flying visits to Spain, Italy, Luxembourg, Germany, France.

TEST ROAD FOR TRUCKS—U. S. highway engineers recently subjected a section of a heavily traveled state highway in Maryland to extensive tests in an effort to determine whether trucks damage the nation's roads. At left, an engineer measures a "typical crack pattern" caused by the multi-axled behemoths. After the equivalent of 98,000 trucks rumbled over the concrete test stretch, measurements (right) indicated the road had sunk almost three inches below its original level. As a result, highway officials recommended a maximum axle weight limit of 18,000 pounds for the cargo carriers.

Local Cagers Meet Saint Jo Friday Night In Conference Final

With the odds stacked against them the Muenster High basketball teams will take on Saint Jo here Friday night in their final contest of the current District 13-B round robin schedule. After losing all five of their games to date the local teams already have a cinch for bottom position on the conference list and the coming games offer little hope of breaking the losing streak.

Nevertheless prospects are fair for a couple of close games. Both teams have made notable improvements since the beginning of the season and can be expected to make the visitors hustle for a victory.

The special attraction Friday night will be the contest between faculty teams of Saint Jo and Muenster. Their first game at Saint Jo two weeks ago was a treat for the fans, and Muenster pedagogues have promised that the return match will be just as good. Incidentally they promised also to avenge the 21-15 defeat handed them by the Saint Jo pros.

Last Friday's games with Forestburg here were one sided victories for the visitors. The girls' score was 34-19 and the boys' score was 48-19.

H. J. Weinzapfel of Windthorst is here this week for a visit with his son and daughter, J. M. Weinzapfel and Mrs. Tony Gremminger. Accompanying him to Muenster and spending Sunday with relatives were his grandson, Arthur Weinzapfel and family of Windthorst.

The Henry Fettes have as guests since Wednesday night her cousin, Mrs. George Moore and husband of Lennox, S. D. It is the visitors' first return to Muenster in more than 30 years. They will also visit the R. R. and W. H. Endres families here and the Alex Pultes at Gainesville.

DOWN-TO-EARTH JEEP—Floating to the ground under its two parachutes is this French army's version of the jeep. The rugged little vehicle dropped 21 feet per second from an altitude of 1800 feet from a Bretagne cargo plane at Buc Airfield near Paris during a joint demonstration of parachuting tactics by the French army and air force. Landing shock was absorbed by balloons inflated automatically during the descent.

Mr. and Mrs. Lloyd Neal stopped here for a weekend visit with her sister, Mrs. John Herr and family, enroute home to Hereford after a visit in Mississippi. Mrs. Neal is the former Gertrude Koelzer.

The Montague and North Cooke county Singing Association met at the Shiloh Baptist church Sunday afternoon with a large crowd present for a pleasing program. Quartet numbers and solos highlighted the singing. The association will meet on the next third Sunday at the Spencer Baptist church in Montague County.

Mr. and Mrs. Clarence Erpelding and two children of Bode, Iowa, are visiting here as guests of her parents, the Joe Swirczynskis.

Citation by Publication THE STATE OF TEXAS

TO: Herman M. Upton, Defendant, Greeting:

You are hereby commanded to appear before the Honorable District Court of Cooke County at the Court House thereof, in Gainesville, Texas at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 5th day of March A. D. 1951, then and there to answer Plaintiff's Petition filed in said Court, on the 16th day of January A. D. 1951, in this cause, numbered 15835 on the docket of said court and styled Louetta Dell Upton Plaintiff, vs. Herman M. Upton Defendant.

A brief statement of the nature of this suit is as follows, to wit:

A suit for divorce from the bonds of matrimony for the reasons of harsh and cruel treatment on the part of defendant towards plaintiff, and for change of the name of plaintiff from Louetta Dell Upton to Louetta Dell Louis, and cost of

suit and for general and special relief, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Gainesville, Texas this 16th day of January A. D. 1951.

Teenager Gets Appetite Back; Thanks Hadacol

HADACOL Supplies Vitamins B₁, B₂, Niacin and Iron Which Her System Lacked.

According to Sara Loraine Beck, Box 253, Coker, Alabama, when a person is only 15 years old and feels terrible, can't eat or sleep the way they should, it's mighty bad. That is the way Loraine says she used to feel, but that was, of course, before she started taking HADACOL. Loraine found that taking HADACOL helped her system overcome deficiencies in Vitamins B₁, B₂, Niacin and iron, which HADACOL contains.

Here is Loraine Beck's own statement: "I was run-down, sick and skinny, and weighed only 90 pounds before I used HADACOL. I would not eat because I had no appetite. Now I weigh 123 pounds and have an appetite. I feel a lot better. I have been taking HADACOL 10 months and am still taking it. I am 15 years old. HADACOL has done me lots of good."

Lindsay News

John Bezner is at patient at M&S hospital since Wednesday of last week for medical treatment.

Alois Voth entered M&S hospital Tuesday for medical treatment.

Mrs. Ben Sandmann received medical treatment at Gainesville sanitarium during the week.

Albert Bezner has moved from his farm north of Lindsay to reside in the city. He recently bought the Kupper Estate place.

David Lutkenhaus, 11, son of Mr. and Mrs. Ben Lutkenhaus, entered Gainesville sanitarium during the weekend for medical treatment.

Sister Marcella, who was formerly in San Antonio, is now in Okmulgee, Okla., at St. Anthony school. Sister Marcella is the former Rose Hermes.

Mmes. C. Hoelker, John Bezner and Otto Flusche spent last Thursday in Muenster with Mrs. H. J. Fuhrman and helped her quilt. In the afternoon Mrs. Tony Otto of Muenster joined the quilting circle.

Frances and Georgia Spaeth of Dallas, joined by Anna Kempf and Mary Dedek, also of that city, spent the weekend visiting Mrs. George Spaeth here, and Mrs. Joe Kneupper and family in Gainesville.

The Adolph Fuhrmanns had as guests Monday the John Zellers of St. Jo, Iowa, who were enroute to the Rio Grande Valley to spend the winter. The temperature, when they left Iowa, was 8 below zero.

Members of the Lindsay church choir will sing for the High Mass at St. Mary's in Gainesville to be broadcast over Station KGAF on Feb. 4. The Gainesville-Lindsay council Knights of Columbus is sponsoring the program.

Adeline Dieter and Soldier Wed Sunday In Carswell Chapel

Miss Adeline Dieter and Cpl. Sylvester Reino exchanged marriage vows at Carswell Air Force Base chapel Sunday, January 14. The bride is the daughter of Mr. and Mrs. Mike Dieter of Lindsay and the groom is the son of Mr. and Mrs. Carmine Reino of Newark, N. J.

The ceremony was a double wedding service with two friends of the couple, Ray Miller and Arlene Avignon, also exchanging marriage vows.

Rev. Joseph Green, chaplain, preformed the double service in the presence of relatives and friends of the young people.

Miss Dieter wore a gold gabardine suit with black accessories and a corsage of white carnations. Miss Avignon wore a blue suit with black accessories. The men wore their blue air corps dress suits.

Cpl. Reino's home is in Newark, N. J., and he has been stationed at Carswell AFB for the past two years. His bride has been employed at St. Joseph's hospital in Fort Worth for two years.

After the wedding service, both couples, joined by relatives and friends were at Lindsay for a reception in the home of the bride's parents.

Among guests were Carmine Reino and son, Ray, of Newark, the Sammy Harrison of Grand Prairie, and the Al Bierschens of Fort Worth.

Schmitz Considers - -

vide shows for a few dozen. Why is it happening? That's what Schmitz wants to know. If the reason is a condition he can correct he certainly wants to make the necessary changes. If it's a condition beyond his control he wants to quit adding good money to a bad investment.

He is especially disappointed by the fact that attendance is much smaller in the new building than it was in the old theatre. Instead of drawing new patrons, he said, it seems that his \$40,000 investment has caused him to lose many of his old patrons.

Response to special shows has been another sharp disappointment. Every one of the several religious pictures recommended as especially appropriate for the local parish has been a box-office flop.

The same applies to regular feature pictures. Whether before or after their showing in neighboring theatres the pictures failed to draw an attendance here. One highly publicized picture in particular drew a gross of \$38 here. The following week at Saint Jo it netted \$300 and a week later at Nocona it netted \$900.

Even promotional deals have failed. Schmitz tried to put on a children's free Christmas show sponsored by merchants, similar to that held in Gainesville. Business men there paid \$25 each to put on the show. Muenster turned down a similar plan for \$10 each.

So the big problem is what to do to pull the Relax out of the red. If the answer to that isn't found soon Muenster will not have a show.

MRS. BILL SANDMANN HAS BIRTHDAY OBSERVANCE

Mrs. Bill Sandmann was honored with a party in her home Sunday night to observe her 50th birthday. Hostesses for the affair were her daughters, Mmes. Pat Hennigan and Herman Stoffels of Muenster and Misses Margie and Marcella Sandmann.

The guests presented gifts to the honoree and spent their time playing table games and visiting after which the hostesses served birthday cake and other refreshments.

About 30 guests were present.

Confetti - - -

thing to end the whole mess for keeps. Why haven't they made a deal with the Chinese Nationalists? As things look now this is a set-up for Chaing to end the red reign of terror in China . . . and to break the strangle hold that communists are trying to put on the rest of the world.

Or are we being too impatient? A few weeks ago this column remarked that if our country were lining up with the Nationalists it could not afford to say so until the big push took place. So maybe there is a purpose behind the apparent snub we are giving Chaing. Maybe the big news is actually in the making and we'll discover one of these days that we were unfair to the big brass during all these weeks of criticism. Anyway, there's one big reason to think it's going that way. Nothing else would make sense.

Tax Office Receives New License Plates

Car license plates for this year, 10,800 of them, have arrived at the Cooke county tax office and will go on sale Thursday, Feb. 1.

Texas motor vehicle license plates for 1951 reverse the present color scheme with the new plates having black figures on an orange-gold background. Letters preceding the numbers to define Cooke county motorists are DB and DC for passenger cars and MN for commercial trucks.

Deadline for having the licenses on vehicles is April 1.

Non-Porous Plastic Floor Defies Grit and Grime

There's a new miracle in flooring—Flor-Ever. Its colors have never been seen before. It will outwear standard linoleum—on a written guarantee. And wonderful news—it offers magical cleaning ease.

CHALLENGES EVEN GUMMY GREASE
Flor-Ever is NON-POROUS! Dirt and grime can't get a penetrating grip into this plastic. Result: Flor-Ever "sparkles ever" with less cleaning, less scrubbing, less waxing than

you ever dreamed possible.
HOUSEHOLD ACIDS, ALKALIS CAN'T STAIN
Flor-Ever dares you to stain or discolor it—even with harsh cleaners, lye or alkali. What's more, you'll never rub off Flor-Ever's brilliant colors—they're part of the Vinylite.

Come in today and see amazing new Flor-Ever. And see the countless patterns and color combines made possible by 6-foot widths and tiles!
