Detroit Man Dies Of Crash Injuries

For a long time this column has complained about the high cost of living. It has deplored extravagant government spending and high taxes. It has wondered why the big shot economists and industrialists and union bosses keep herding the country around and around the spiral of inflation instead of trying to restore some of the dollar's old time value. It has wondered why the American public goes on seeking higher pay when every apparent gain is more than offset by shrinkage in savings and then overtaken by another increase in prices.

It's possible, of course, that much of the column's past beefing could have been inspired by selfish motives as much as plain horse sense. This newspaper has faced the problem of meeting rising costs without benefit of corresponding increases in revenue. But instead of doing something about it, it has simply hoped, rather impatiently at times, for the country to come to its senses and undo some of the economic follies that have been imposed on us during the past several years.

Well, it's been a long and futile wait. And the Enterprise now finds itself in a predicament somewhat similar to that of Mohammed who, when he finally realized that the mountain would not come to him, reluctantly decided he'd better go to the mountain. If this cost of living won't adjust itself to our income, we'll try to adjust our income.

Without beating the devil around the bush any more . . . we're getting ready to raise this paper's advertising and subscription rates. Beginning September 1 our price on display ads will increase from 30 to 40 cents per column inch. Beginning October 1 our subscription rate will increase 50 cents a year, making it \$2.00 in Cooke County and \$2.50 outside the county.

As mentioned before, we have been reluctant to make the changes. Maybe one of the reasons was our pride in the fact that we were giving our customer lots of value for his money. Actually we were giving much more than we did back in the late thirties. What's more, under our new rates, we are still giving a better deal than we did then.

We base this statement on a comparison of the dollar's purchasing value then and now. According to the economic experts our dollar has shrunk to 53 cents as compared to the 1939 dollar. By that standard the real price of our subscription is now 6 cents more than in '39, but it's also a bigger paper. Incidentally, it was cheap at that time. Comparable papers usually were 50 cents or a dollar higher.

The comparison likewise applies to advertising rates. Just figure our increase from 25 to 40 cents against the dollar's depreciation from 100 to 53 cents. Along with that consider an increase of a few hundred in our number of subscribers. Ads are reaching lots more people. It's apparent that we're giving our advertisers a much better deal now than then.

In spite of being lower than present conditions would justify, we sincerely hope this is the last increase we will ever have to make. We're quite confident we'll be able to make the grade unless crackpot economists keep on fizzling away the value of the dollar . . . and we do hope that we've reached the end of that foolishness.

If we're to judge by rumors of the past few days, however, this may be only the beginning of the high cost of living. There's talk of a 30 hour week coming up. The idea is ridiculous, of course, but don't ignore it on that account. Lots of dumb things have happened in this country in the past several years.

Just imagine what would happen if the 30 hour week went into effect. Industrial workers complain now that they need more pay, so it's a sure bet that there would be no drop in weekly wage. That means at least a

J. W. O'Callaghan, 42, of Detroit, Mich., became Cooke County's seventh traffic victim of 1952 early Monday morning when he died of injuries received in a crash on slick pavement two miles west of here late Tuesday, Aug. 12.

He was the only occupant of a Chevrolet sedan which collided with a GMC pick-up occupied by Mr. and Mrs. Arthur Musgrave of Ballinger. The Musgraves were removed from Gainesville to a Dallas hospital last Saturday.

The accident occurred when Musgrave attempted to start his windshield wiper and lost control of his pickup. The machine went into a spin and crashed into the left side of the Chevrolet. Both vehicles were badly damaged.

SCRATCHED MY TUMMY, MUMMY—Seated comfortably in his mother's lap in photo at right, two-year-old Bobby Wayne Savage shows his mother a slight scratch on his tummy. It was the only injury he sustained when he fell from a fifth floor window of the Plaza Hotel in Indianapolis. On the way down (see photo at left) Bobby struck and bent an air vent pipe, arrow, which broke his 30-foot fall. The black eye is the result of a previous bump.

Miss Florence Fette, who was stricken with polio on July 8, continues showing improvement at St. Paul's Hospital in Dallas. Paralysis in her throat has relaxed considerably during the past week and she is able to swallow light nourishment.

Illness confined Mrs. Luke Tempel to bed several days this week.

Weldon Mathews of Myra received treatment at the Muenster Clinic Sunday for a broken left arm. The bone is fractured below the elbow.

Mmes. Ray Evans and Ervin Hamric spent Sunday and Monday in Dallas and Fort Worth.

Friday, August 29, is Registration Day At Both Schools; Classes Start Sept. 2

Friday, Aug. 29, will be registration day at both Muenster schools.

Sister Canisia of Sacred Heart School said children in both elementary and high school departments will register on that day and be ready to start their regular class schedules on Sept. 2.

At the public school only high school students will be expected to register on the 29th. Superintendent Weldon Cowan said that grade school pupils needn't bother to come early because the limited enrollment in that department can be registered conveniently on the first class day.

As students return to classes, the day after Labor Day, they will find a number of changes at each school. At the parochial school the section of the basement formerly used as a chapel has been made into a classroom. The eighth grade, in the high school building before, will occupy that room and the high school faculty has been increased from three to four.

Another change at the school is a textbook rental system. Contributions of old textbooks and \$10 by each family has provided the book bank which the school expects to maintain on rental fees of \$1.50 per student per year. Previously children had to buy their own textbooks.

An exterior improvement at the school is lawn work in front of the main building. Dirt washed away in previous years has been replaced and sodded to bermuda. A new curb will prevent future loss of soil.

Principal changes at the public school are the recently organized band and several new faces on the faculty. New teachers are Bill Searcy, music and band; Miss Patsy Scott, home-making; George Letson, English and Speech; J. C. Embry, Jr., math and assistant coach; Mrs.

Alice Brooks, commercial and librarian; Troy Stewart, history and coach; Miss Betty Cole, first and second grades; and Weldon Howard, fifth and sixth grades. Former faculty members back on the job are Superintendent Cowan, Miss Waldine Midgett, Mrs. Marie Mosman, L. B. Bruns and Ralph Maglaughlin.

Teachers not returning are Doyle Hood, now coach at Henrietta, and his wife; C. R. Coe, now coach at Turkey, and his wife; Mrs. Gladys Ashlock, who has joined her husband at an army post; Mrs. Frances Mitchell, whose husband was appointed manager of a telephone co-op at Olney; and Mrs. Johann Bezner, who quit teaching.

Improvements at the school include refinishing the gym floor and replacing equipment in the homemaking department. George Gehrig installed a new model Maytag range and Leach Brothers installed a new Laundromat automatic washer.

The schedule of classes announced by Mr. Cowan is as follows. PERIOD 1; Bible and Hobby. PERIOD 2; English 2, Shop 3, General Math, Shorthand, American History. PERIOD 3; Homemaking 2, English 3, Shop 1, Agriculture 1, Typing. PERIOD 4; Homemaking 1, English 4, Shop 2 and 3, Algebra 1, Civics, Agriculture 1. PERIOD 5; Home-making 3, English 1, Agriculture 2, Typing 1, Chemistry. PERIOD 6; Mechanical Drawing, Algebra 2, Bookkeeping, Agriculture 4. PERIOD 7; Physical Education, Band. PERIOD 8; Homemaking 4, Speech, Driver Education, General Science, Physical Education, Band.

Cowan urges students to study the schedule to determine if there are any conflicts in the courses they plan, and if so to consider what changes they prefer.

Town Country Game Postponed to Monday

That Town and Country ball game has been postponed from this week Friday to next Monday. Members of the Lions club at their regular noon session Tuesday decided on the change to avoid conflict with other events . . . a VFW dance here and an all-star football game at Wichita Falls.

Since the meeting a committee headed by J. P. Flusche selected next Monday as the best substitute date and has also completed plans for the event. Admission charge will be 50 cents for adults and 10 cents for children under high school age. The Lions will ask the city council for permission to block streets around the ball park.

The game, to start at 8 o'clock, is a benefit affair sponsored by the Lions to raise funds for instruments for the recently organized community band. A concession stand at the game will also be run by the Lions.

Members of the County roster, to be managed by Walter Becker, are Bally Walterscheid, Alphonse Hoenig, Bruno Fleitman, Skinner Wiesman, Arthur Hellman, Buck Owens, Pat Fisher, Ray Voth, Henry Pick, Claude Cannon, Joe Wimmer and Frank Hoedebeck.

The city roster, managed by Dick Cain, includes Father Louis, J. C. Trachta, Gus Stelzer, J. M. Weinzapfel, Al Walterscheid, J. P. Flusche, J. B. Klement, Doc Myrick, John Fisher and Jake Pagel. Both sides expect to recruit additional players for frequent substitutions.

AT ST. LOUIS CONVENTION

Mr. and Mrs. J. W. Fisher and children, Jimmy, Therese and Joann, left Saturday night for Saint Louis, Mo., where Mrs. Fisher will be a Texas delegate at the national convention of the Catholic State League. She was state treasurer for the past two years. Enroute home the family will visit relatives and go sight-seeing in several cities.

In spite of the heat work continues steadily on two new houses in the community. Framework is almost completed on the new 3-bedroom house being built for Al Kleiss. Roofing is finished and siding being installed for Mrs. Joe Fleitman.

Sheriff's Race Is Only Local Issue In Saturday Voting

Whether Horn or Whisnand will be the next sheriff of Cooke County will be decided in the run off Saturday. And whether Muenster voters are very much concerned about a choice between the two will determine how many will come to the polls.

Both candidates have made a strong bid for local support but to date there is little indication of strong enthusiasm for either man.

The local elections will be held in the usual places. Paul Fisher will be judge at the south box, at the elevator scale house, and Joe Luke will be judge of the north box, at the public school.

LIBERTY BAPTIST CHURCH BEGINS REVIVAL SUNDAY

The Liberty Baptist church at Hays will open a revival next Sunday, August 24. Services will continue through the week, ending Sunday, August 31.

Rev. Barrington of Fort Worth will be in charge of the preaching and guest singers have been invited to attend.

Brother Lee Livingston of Myra will be the musical director and Mrs. Livingston will be pianist.

Betty Cole Gets B. S. Degree

Miss Betty Lou Cole, daughter of Mr. and Mrs. Earl Cole and recently appointed teacher of the first and second grade in the Muenster public school for the coming scholastic year, will receive her Bachelor of Science degree at Commencement exercises at NTSC, Denton, Friday night.

THE EGG AND THE ENGLISHMAN

When an egg falls and breaks, and its white and yolk run together, all the King's horses and all the King's men cannot put it together again. Events in England today seem to be proving that a way of life built upon the structure of private property, private enterprise and the profit system cannot be reconstructed once its foundation is destroyed and its substance wasted away by Socialism.

It was a year ago that the Churchill government took over

When the Welfare State was being formed step by step Winston Churchill opposed every step with all the great power of his leadership. But after six years the Welfare State was so deeply entrenched and the private enterprise system so critically injured that in last year's elections the Conservatives did not promise to abolish the Welfare State. They were as helpless as a man would be trying to put the white and the yolk of the egg back together.

Continued Welfare State

The Conservative Party's principal anti-Socialist proposal was to turn the steel and iron industry back to private ownership. The Labor-Socialist government had operated the industry only a short time, and the Churchill group thought it could be desocialized without too much difficulty. But after almost

a year the steel and iron industry still is owned and operated by the government. England remains a Welfare State. Its Welfare State functions go on, and its once great wealth continues to flow away. Here is a striking fact for the world to see: no matter who operates it, the Welfare State takes its people down, down, down, and when halfway down the hill, it may be too late to turn back.

Six years of Socialism have so far proved to be too damaging. The egg white and yolk are too scrambled. The structure and the substance of a broken private enterprise system have not been back together by the new government. On my desk is a late report on conditions in England. When Churchill took over, Britain's gold and dollar reserve was \$3.5-billion, considered alarmingly low. Today it is less than half that amount. In the first quarter of 1951, the national budget produced a \$47-million surplus; but the first quarter budget in 1952 found a \$546-million deficit.

Reluctant Quitters

The Churchill government hasn't operated the Welfare State any better than the Socialists did. As a result the nation's electorate gives every indication of turning again to the Labor-Socialist Party, the creator of the Welfare State. One of London's most conservative publications foresees the crumbling of the Churchill party. "As a party of half-hearted planners and only rather more reluctant quitters, it has no future," the London TABLET says.

The Labor-Socialist have won all recent election tests. If they are returned to power, the way of life founded upon private property and individual freedom will not likely return to England in the lifetime of any of us. The London TABLET says that if defeated in the next general election, the Conservative Party "will never again hold office."

The Fatal Pattern

The most foreboding fact is that an English population which was blinded six years ago by the glitter of the Labor-Socialist promises of "fair shares" and government guaranteed "security," now is giving signs of choosing as its "Deliverer" the extremely radical Laborite, Aneurin Bevan seems gradually to be gaining power in the Labor-Socialist Party. He hates capitalism (and America) to a degree matched only by the Communists. If he should become Prime Minister of Britain under a radical Socialist government he would be the Strong-Man type like those heading the dictatorships.

In England we see the historic pattern of the Welfare State. First there was Socialism disguised as government "doles" and aids; then the Labor-Socialist government won and began

and other economic handouts gradually abolishing private property. The Socialist economy went from bad to worse under first one party and then the other. The last step in the pattern would be for the people to turn, in desperation, to a totalitarian "Leader" who would sooner or later establish an iron dictatorship.

But could such a thing happen in England before our very eyes? Yes, it could. And it could happen in America—in the bog of a Welfare State.

Is Child Physically Ready for School?

Dr. Geo. W. Cox, State Health Officer, urges the parents of all children who will respond to the school bell for the first time in September to be sure the child is physically ready for school duties.

"First and foremost is the need for vaccination against smallpox. Parents should see that children are vaccinated before they are one year of age; however if not done previously, at school age vaccination becomes absolutely necessary," Dr. Cox said. "If your child has not been vaccinated, have it done immediately for his own protection and that of others."

Immunization against diphtheria is also highly important, Dr. Cox declares. This disease which causes serious illness and deaths among young children can be prevented with toxoid. The child who has never been protected should be given this safeguard against a dreaded killing disease. Even though he may have been immunized as a baby, doctors and health officers usually recommend an additional dose of toxoid to strengthen immunity before entrance into school.

"In addition, before you send your child to school you are urged to take him to your family physician and dentist for a thorough examination," Dr. Cox adds. "You will want to know that he is in good physical condition and can compete with the other children on equal terms. If the check-up reveals any weakness or defects they should be corrected at once. Don't let your child start his school life with any avoidable handicap."

Birthday Party Is Farewell Tribute For Miss Irma Hesse

A birthday party that was also a farewell tribute complimented Miss Irma Hesse on August 14. The party was given in the home of Mr. and Mrs. Ed Wolf at Gainesville with Mrs. Wolf and Miss Betty Jean Heitzman as co-hostesses. Gifts for the honoree, and games and refreshments for 40 young people made it an enjoyable affair.

Miss Hesse will leave soon to attend classes in Jonesboro, Ark., when the school term opens.

Six tenderfoot boy scouts received their badges in an investiture ceremony conducted by Scoutmaster Nick Miller in the K of C hall.

The new scouts are Melvin Wilde, Billy Joe Dangelmayr, Melvin Kaiser, John Henry Fette, Giles Trubenbach and Tim Mosman.

Regular weekly meetings have been resumed after a summer recess. The troop meets each Monday night at 8 in the K of C hall.

MRS. JOE TEMPEL HONORED AT PARTY IN GAINESVILLE

A gift party complimented Mrs. Joe Tempel last Wednesday night when Mrs. Ray Tempel and Mrs. Bill Thomas of Gainesville were co-hostesses in the former's home.

The hostesses presented Mrs. Tempel with a pink tinted daisy corsage upon her arrival and directed games for diversion. Game winners were Mrs. John Huchton, Miss Dorothy Pierce and Miss Angeline Grewing, who gave their awards to the honoree.

Pink and blue tinted daisies helped carry out the decorative theme at the refreshment table. The hostesses served dainty pink and blue sandwiches and iced lemonade. Plate favors were nut cups in the pastel shades.

Present were Meses. C. L. Williams, John Huchton, Richard Grewing, and Henry Huchton and Angeline Grewing of Muenster, Meses. Al Seibert and David Biffle and Dorothy Pierce of Gainesville. Unable to attend but sending gifts were Meses. Luke and John Tempel, Bill Hunt, Steve Grewing, Meinrad Stoffels and Miss Anna Markowitz.

AIRMAN PELS HONORED WITH FAREWELL TRIBUTE

Airman Second Class Henry Pels, who was at home on overseas leave, was honored with a farewell tribute before he left for the west coast.

The party was held on the church picnic grounds where food, cold drinks, outdoor games and visiting were enjoyed.

Present were members of the Henry Pels and Albert Henscheid families and Father Louis. Out of town guests visiting here at the time included the Henry Weskes and children of Akron, Colo., and Mr. and Mrs. John Pels and son, Louis of Carroll, Iowa.

At Yosten Reunion In Nebraska

Nick Yosten and his nephews, Larry Yosten and Andrew Yosten, returned early Tuesday morning from Schuyler, Neb., where on Sunday they attended a reunion of the Yosten families. More than 100 people attended the all day affair in Schuyler Park. The Muenster trio also visited in the home of relatives during their stay in Nebraska. They left here Friday.

Mr. Yosten reported that that area has had plenty of rain and the corn crop, now in the roasting ear stage, is good for 80 to 100 bushels per acre. Temperature was around 70 degrees while they were there.

25 per cent increase in labor cost on manufactured goods. When prices rise accordingly workers would clamor for more pay. And there you have the beginning of a real inflation spiral.

What we old fashioned people can't understand is where those crackpots get the notion that any human being is entitled to a decent living for only thirty hours of work. When we see farmers and business men putting in twice as many hours, and more, to earn an ordinary standard of living we can't help thinking that something is out of balance.

Another thing to consider is that these farmers and small business operators have an investment of several thousand dollars. Yet the combined earning on their investment and time does not net them as much as many a laborer's wage on a short week.

It does seem off balance, doesn't it? And did you ever happen to think what the small business man or farmer could make if he earned as much per hour as the industrial worker plus the earning on his investment that labor racketeers accuse the nasty old capitalists of making?

Of course you and I know why our farmers and merchants get along in spite of it all. They spend more time working and less time goofing off money. Organized labor could get along better if it did likewise.

Blessed Events

Mr. and Mrs. Wilfred Bindel are the parents of a son born at 5:15 a.m. August 19 at Gainesville Sanitarium. The eight pound four ounce boy, who has a sister, Cynthia, 2, is the grandson of Mr. and Mrs. Frank Bindel of Muenster and Mr. and Mrs. Joe J. Neu of Lindsay.
