Congressman Omar Burleson's recent newsletter takes note that ratification of the Equal Rights Amendment by the states has apparently reached a standstill and its supporters are starting to worry. The measure was passed by both houses of Congress and now awaits approval by three-fourths of the states before officially becoming an amendment to the Constitution.

When passed by Congress, ERA was accompanied by a resolution allowing seven years for the states to approve. The time limit will expire on March 22, 1979. Thus far there are three votes short of the three-fourths required to ratify, and to complicate the matter three states whose legislatures had adopted the amendment have voted to rescind their action, thereby bringing up a question of whether a state, once having approved, is allowed to reverse its action.

Burleson points out that since the Bill of Rights was passed in 1791, nearly 6,000 amendments have been introduced in Congress and only 22 of those were passed by a two-thirds vote of both houses and only 16 have been ratified by three-fourths of the states. Also ratification time varied from 4 months to 3 years and 11 1/2 months. The ERA amendment, has already had almost 6 years, and before the seven years expires its backers are trying for a time extension of seven more years.

Originally the Constitution specified a "reasonable time" for ratification. Since then the duration has been set at seven years, which seems more than reasonable and even generous compared with the time used to ratify other amendments. Adding another seven years to the limit amounts to giving supporters of ERA an advantage. This unfairness, along with the claim that ratification cannot be rescinded, is plainly an attempt to stack the deck. It's a one way arrangement allowing unlimited time for the states to be fenagled into an agreement but no opportunity to correct a mistake.

It violates the original intent of the ratification procedure which, according to James Madison, "guards equally against the extreme facility which might render the Constitution too easy to amend and the extreme difficulty which might perpetuate its discovered faults." The found-

Cindy Sangster Wins DAR Award

Area winners of the Daughters of the American Revolution "Good Citizenship" Awards were honored Saturday at a formal luncheon hosted by the sponsoring organization in Wichita Falls.

During the luncheon it was announced that winning third place in the Regional Division was Cindy Sangster, DAR "Good Citizenship" Award winner of Muenster High School. She competed with twenty other area winners surrounding Wichita Falls. First and second place winners were boys from Wichita Falls high schools and one of the boys was ultimately the first place winner at the State level.

On Saturday March 11 the awards were made at a formal luncheon at the Wichita Falls Country Club, by the Major Francis Grice Chapter of DAR. The luncheon took place of the George Washington Day Tea which was snowed out when heavy snows blocked roads.

The Good Citizenship Award recognizes the qualities of dependability, leadership, service and patriotism. Cindy was accompanied by her mother, Mrs. Tom Sangster. As each winner was presented and a brief summary of accomplishments of each candidate was read by the M. C., the candidate's mother pinned the award for her son or daughter.

Jett Wows 'Em at Chamber Banquet

Belly laughs came by the dozen at the Chamber of Commerce banquet Wednesday night as Robert Jett of Lone Star Gas carried on with an endless stream of antics and humor and thinly veiled barbs for the people who run the show in Washington. His presentation of the energy crisis was a hilarious account of negotiations with the Arab countries but implied clearly that politicians are getting nowhere and the nation's problems would be fewer if American oil people had the opportunity to do their thing.

His talk was preceded by anxious moments as speaking time neared and he had failed to appear. Emcee David Bright and Lone Star Gas Man Jake Lawson disputing who would

Dorothy Franklin Is Candidate for District Clerk

For those of you who are not acquainted with me, let me take this opportunity to introduce myself to you and to announce my candidacy for District Clerk of Cooke County.

For the past fifteen years, I have been a resident of Gainesville. My husband, Leslie Ralph Franklin, has lived in Gainesville for 35 years and has been employed at National Supply Company for 18 years. We have two daughters, Mrs. Cindi Blagg, and Valerie, who is a fourth grader at Lee School in Gainesville. We are members of Southside Baptist Church where I teach a children's Sunday School Class.

I am 39 years old and the daughter of Dr. and Mrs. F. D. Layman. I attended school in Sherman, Texas, and furthered my education by completing a secretarial course at Durham's Business College in Harlingen, Texas, and two years at Cooke County College.

My employment background is as a time standards clerk and secretary for 4 1/2 years at Weber Aircraft Company and as a deputy clerk for 2 years in the District Clerk's office. I am currently employed as secretary at Sears District Office where I have worked for the past 2 years.

I feel that my major qualification for the office of District Clerk is the experience and knowledge I acquired during the 2 years I worked as a deputy clerk in that office.

If elected, it is my intent and sincere desire to serve the Courts and people of Cooke County in an efficient and orderly manner. Your support in the coming May 6 Democratic Primary will be greatly appreciated.

have to substitute when the party was interrupted by a boisterous intruder gushing hillbilly lingo and wearing white coveralls and a hard hat. He identified himself as an oil rig worker out looking for a guy who got lost. He had the floor from then on. No one could turn him off nor wanted to.

Other aspects of the banquet were equally delightful. President John Pagel was casual and humorous about introducing visitors and current personnel of the chamber's board. Those are himself along with Vice President John Fisher, Secretary Doris Hamer, Treasurer Jane Monday and Directors Sam Endres, Jewel Otto, Alvin Fuhrman and Dennis Hess. He also presented certificates to outgoing directors Bertha Hamric David Bright, Albert Lippe and Pat Hennigan.

Pagel's principal presentations were a plaque to Alvin Fuhrman as outstanding project chairman, for his fine job in directing the Germanfest... also a corsage to his wife Gracie for inspiration and patience on the project; and the other was a plaque to Bertha Hamric as the outstanding member of the year.

The meal, fully worthy of the occasion was a charcoal sirloin dinner catered by Harriet Pagel of The Dairy Inn.

Also on the program, directed by Toastmaster David Bright, were Christi and Emily Klement in a Love Song Medley, Leonard Endres in the invocation and Jane Monday in the Benediction. A finale was a drawing for the floral centerpiece of the banquet, Carol Frost being the winner.

School Days Lost In Bad Weather Will Be Made Up

Six class days lost at Muenster Public School this year because of bad weather will be made up before the end of the year, according to a statement by Superintendent L. B. Bruns after last Thursday's meeting of the school board.

Brunns said that the Texas Education Agency requires the full schedule of 175 days but allows the local board some flexibility in choosing the make-up dates. It suggests using teacher in-service days if possible and using Saturdays or holidays for the remaining days, or even extending the school year a few days longer.

The latter suggestion had no appeal whatever to the board, considering that invitations and diplomas would all have to be redated, along with other problems.

The school board noted that one in-service date, on Feb. 20, has been used for make-up, and March 17 will also be used, then it chose the Easter vacation days, March 27 and 28 to be used for two more days. And the remaining two days will be made up on Saturdays, April 8 and April 22.

The Muenster High girls team was represented by two players on the 13-A all district first team selected by the loop coaches, but the Hornets did not fare as well. They had to settle for two places on the all-district second team.

Likewise the Hornettes did better in honorable mentions, receiving two whereas the Hornets received one.

More students participated in the election this year, with more contested races than in previous years. Interest increased as the students campaigned for their office including the display of posters in the halls.

That all people should think alike is not the democratic way — but it would help if everybody would think.

Bayer, Chairman, Board of Directors of the Upper Elm-Red Soil and Water Conservation District (SWCD), announced today that the local district would sponsor the 18th annual essay contest on the subject of soil and water conservation. The deadline for the contest is April 1, 1978 and the rules are very simple. Any boy or girl residing in the Upper Elm-Red SWCD who is not a high school graduate may enter the essay contest.

Returning home from Bowie Monday p.m. March 13 a big gasoline tank truck with the sign — "dangerous — Gas Inflammable" on its back passed

me as if I were going backwards. He was doing well over 70 and I was wishing for a State Trooper to get him — for many a time we have almost been sucked up the exhaust of these big trucks on the highway. A few minutes later I almost stopped to hug me a State Trooper — for there he was giving that trucker a ticket. Folks that 55 miles per is for everyone — you, me and the truckers too. Why not try driving the speed limit sometime — you might find it very enjoyable and easier on the pocket-book.

JOBS

Fike Godfrey's untiring efforts to create new and better jobs to build a healthy economy helped make West Texas the envy of the nation during the last recession because it had the lowest unemployment rate in the country. He has helped kill proposed federal and state legislation which would have cost the people of the 17th District jobs and bankrupted many. Fike has played a major role in helping to provide new jobs which have enabled many young people to stay in their communities instead of being forced to leave to find a job.

Kansas City Nuptial Units Jill Newman, Doug Hellings

Miss Jill A. Newman of Kansas City, Mo., became the bride of Doug A. Hellings on February 18 in St. Gabriel's Catholic Church with Father Tom Mulligan officiating. The bride is a daughter of Mr. and Mrs. C. J. Newman of Kansas City and a granddaughter of Mr. and Mrs. Clarence Hellman. Mrs. C. J. Newman is the former Mary Nell Hellman. The groom is a son of Mr.

and Mrs. Pat Hellings of Gore, Oklahoma.

The bride wore her aunt, Mrs. Larry Gobble's wedding gown, designed of white satin, with an empire waistline, lace bodice with high neckline defined with pearl embroidery and lace sleeves caught to slim lace cuffs, pointed at the wrist.

The cathedral length, triple tiered illusion veil was worn mantilla fashion banded with matching lace.

The bridal flowers were carried in a cascade arrangement of burgundy silk roses, fresh pink carnations and baby's breath.

Adding sentiment, the bride wore a lavalier given to her mother when she was an infant, by her great-aunt, the late Mrs. Frank Phillips of Portland, Oregon. Muenster friends will remember her as the former Nell Mertes, sister of the late Mrs. Ben Hellman, who was the bride's great-grandmother.

The bride gave her mother and the groom's mother each a long-stemmed burgundy silk rose.

Attendants

Penny Newman of Kansas City was her sister's maid of honor. Bridesmaids were Mrs. Bob Bailey, the bride's friend Debbie, and Susan Eichinger, cousin of the groom and Kellie Newman, sister of the bride, all of Kansas City. They were identically gowned in pink with burgundy trim and carried burgundy silk roses and white baby's breath tied with pink ribbons. They wore baby's breath in their hair.

Bill Johnson, a friend of the groom from Grove, Oklahoma, was best man.

Groomsmen were John Eichinger cousin of the groom, Bob Bailey, a friend and Duane Newman, brother of the bride, all of Kansas City.

The flower girl dressed as the bridesmaids was Lisa Eichinger, groom's cousin of Kansas City and the ring bearer was Michael Wayne

Gobble, bride's cousin of Muenster. Ushers were Gregg Newman, bride's brother and Michael Vandendale.

Man of Aubrey and Tim Hellman of Garland; also Rayford Newman and son, Brad of Gainesville. Mothers and grandmothers had silk carnation corsages and men in the wedding party and, fathers and grandfathers had burgundy rose boutonnieres.

Reception

Following the church service, a reception was held in the Sherwood Forest Country Club.

Guests were served a buffet of pick-up foods. The bride's table was centered with a three-tiered white wedding cake, which was decorated with a swirl of lighted pink candles ascending from the lower layer to the upper layer topped by a bridal couple figurine. Also gracing the bride's table was a pair of silver candelabra with pink candles, and the two punch services.

The bride is a graduate of Wennitonta High School and was employed at Western Insurance Co. The groom, a graduate of Grove, Okla., High School, is an employee of a cabinet company in Riverside, Mo. The couple will live in Grove, Oklahoma.

Among relatives attending were the bride's grandparents, Mr. and Mrs. Clarence Hellman and Mrs. Larry Gobble and son Michael, Deann Hell-

Soroptimist Club Honors Mrs. King

Mrs. Kitty King was the surprise honoree at the Soroptimist Club luncheon and business meeting Monday at noon in Friendship House, Gainesville.

A Soroptimist member for 7 years, Mrs. King was presented a gold necklace in recognition of her retirement after working at Endres Motor Company for 31 years.

President Mary Lou Osborne made the presentation and recounted incidents from the time Mrs. King started working there, supposedly for two months and eventually remaining for 31 years of continuous employment.

HD Club Hears Program on Crepes

Members of Muenster Home Demonstration Club were served a delightful French Luncheon at noon on Wednesday, March 8 with Mrs. Lucille Lutkenhaus in her home.

Mrs. Lutkenhaus prepared a program "Create a Crepe", which she presented prior to the luncheon. Also, she provided batter and an electric crepe maker for each member to try.

The luncheon menu included Elegant Crepes Divan, Sausage Crepes, Red Raspberry Crepes and Banana Crepes Flambe'.

In answering the question, "When do you serve crepes?" the answer was "Anytime", as crepe creations fit a multitude of serving situations. They can be made small for party appetizers, or spread with a meat filling as a main course, or have a vegetable or fruit filling as an accompaniment to a meal. They may also be served plain for a dessert or used as a flaming dessert as a grand finale to a sumptuous dinner.

The business meeting followed and included election of officers who will take office in September. Serving at that time will be Mmes. Armella Lutkenhaus president, Rose Rohmer vice-president, Dolores Miller secretary-treasurer, Alice Hellman council delegate, Lucille Lutkenhaus alternate delegate.

"Pennies for Friendship" were collected to be presented at the next Council meeting.

Three members presented a skit on "High Blood Pressure". They told that one in seven women in the U.S. is affected by this condition, putting a strain on heart and blood vessels, possibly leading to a stroke, heart disease or kidney diseases. High blood pressure is a silent killer but can be controlled by proper care.

Roll Call was answered by 17 members.

To the Citizens of Muenster

As a citizen's view from inside the Muenster City Council, I am going to make this report as I believe to be the facts. After reading this, if for any reason there is any doubt in your mind, I request you check the City Council Meeting Minutes and the Court Docket for the past two years.

For some season, our Police Department has been the target of some that would like to see it destroyed. With some help from inside the City Council this has been a rough two years for this department. If we are going to have a Police Department, I feel it should provide the same protection and corrections for every citizen and everyone who enters Muenster. No person, group or one's relatives should receive any special privilege. Regardless of what some council members think, this is my opinion, and I have no intention of thinking otherwise.

There have been citations issued by police which, after receiving complaints, I personally checked out and found the police were correct in their actions. However, this started the move to do away with the police department. This move has been going on for approximately two years. If the police issue citations to certain people we still have pressure put on the police department.

For the past few months things have changed from trying to discredit the Police Department to trying to gain control of it. There are tales out about who runs the Police Department. Regardless of these tales, this is how the City Council and each department operates. Each council member is assigned a commission in a department and the commissioner is to work with that department and make monthly reports to the council at the regular meetings, state the departments needs and problems, and make recommendations. Whatever decisions are made at that meeting is what the commissioner must work with. Between meetings, urgent problems that may arise are worked out by the Commissioner and the Mayor. No one councilman runs any position on his own.

I have heard on the streets and different places that Muenster had five policemen on the city payroll some time during the past two years. The truth is, Muenster has never had over two police on the city payroll at one time, except during vacation time when we had reserves that we filled in with and they were paid salaries during that time only. We have had several on training programs, but they were not on the city payroll. After graduation some left for better paying jobs as Deputy Sheriffs in different counties and some have left because of pressure from within the city council. As you see, all was not what some would like the citizens to believe.

As we all know, Muenster is growing

as business establishments are changing and they are drawing in a different type of people to these places. It is our responsibility to police them, and this requires us to have more policemen on duty. You cannot look back ten years and say, "We used to do this with one man." Check the Cooke County Sheriff's Department and the Gainesville Police Department and see what their increase in personnel has been. We can't just stop at one point. As the city grows, crime increases and police protection must increase. There are nights that require the police to patrol in pairs and sometime that is not enough. Without the support of the Sheriff's Department and the State Patrol, we would have been in trouble several times. With two men on duty for twelve to thirteen hours, the rest of the day is open.

This leaves one question in my mind. Would you take out insurance on your home for only twelve hours of each day and leave it uninsured the remaining twelve hours of the day?

Within the last two months I asked for a third policeman. After the Council discussed the request the answer was still only two. I was told Muenster needed only two policemen on call. The Council did give us permission to use students from the police training program as long as they were not on the city payroll. Now just let a break-in occur or some other violation take place and the first thing I hear is, "Where were the police? Why weren't they out?"

Within the last few weeks we have the best lineup for the police department that we have had for several months. We have Jim Eaves, Chief of Police, one other paid policeman and two on training programs. Unless some change is made after this training period is over, we will be back where we were.

I feel that if each department head had worked with the council and mayor as plans were intended, these problems would not have happened. When you have one man working with a group outside the council and not spending his time with the department assigned to him, but rather doing all he can to keep another one torn up, it's bad for the city. This has been the problem I have worked with for two years. I just cannot see why anyone would keep something like this going. When orders leave the council it should be left to that department head or commissioner to carry them out.

Next month it will be the responsibility of every citizen in Muenster to select what he wants for the next two years. All I am asking is that you think this problem over and make your decision, and if you feel as I do in this matter, I will appreciate your vote and support.

Spring is Here

Long awaited spring-like weather has arrived. Temperature during the past week has dipped below freezing only once and it has reached the seventies three times, according to the low-high readings on Steve Mosler's thermometer. The figures are: March 9th, 30 & 53; 10th, 33 & 72; 11th, 46 & 60; 12th 34 & 65; 13th, 46 & 77; 14th, 40 & 70; 15th, 32 & 62.
 Meanwhile moisture has not improved. The only reading was .01 inch on the 13th, and totals now are 1.61 for March and 6.85 for the year.

Phone Companies Have Seminar Here

Bookkeepers and managers of about 20 independent telephone companies and telephone co-ops are expected to be in Muenster Thursday and Friday for a bookkeeping conference.
 A great number of new reports and requirements have been placed on telephone companies recently and these will be discussed and reviewed. Speakers will include Jack Hankins, of the Texas Public Utility Commission, Dan Trampush of Ernst & Ernst, Tacoma, Washington, Jerry Jones of Grandview, and Gracie Fuhrman of Muenster. Alvin Fuhrman is general chairman of the meeting.

LET'S TALK ABOUT MEAT

Thin is in! Everyone is counting calories including today's new streamlined hog. The typically commercial hogs of the 1970's produce a fourth more lean pork per pound of feed than those raised in the 1950's. The average market weight of a hog today is only 240 pounds as compared with earlier hogs weighing about three times as much.

A lean hog produces lean pork. There are only about 70 calories per ounce in cooked lean pork—a figure low enough to be considered a good diet food by Weight Watchers International. Pork is a good source of B vitamins, especially Vitamin B1 (thiamin). Pork has about three times more thiamin than any other food. Pork also contains iron, riboflavin, niacin, phosphorus, and magnesium. It is a good source of complete protein and, with less fat, it is 96 to 98 percent digestible.

This year, pork will be a good buy. But, don't forget, there is more to the hog than just those expensive thick-cut pork chops. Pork can be processed and prepared in a variety of ways. Fresh pork can be cut into not only chops, but steaks, roasts, and ribs. Pork can be cured and smoked into hams, shoulders, sausages, and bacon. Many luncheon meats and canned meats are processed from pork.

Fresh pork roasts should be prepared in a moderate oven (about 325°F.) until the internal temperature of the roast reaches 170°F. Always place the roast with the fat side up. Do not baste. Chops may be broiled on a rack about 2 to 5 inches from the

heat. Broil for about 10 to 12 minutes per side. Partially cooked cured hams should be baked in a moderate oven until the internal temperature of the meat reaches 160°F. Fully-cooked cured hams may be heated at the same temperature, but need only reach an internal temperature of 140°F.

Pork also can be prepared successfully in microwave ovens. Most cuts require a medium to high temperature setting. Cover roasts and hams with waxed paper to prevent drying and spattering. After removing from the oven, the roast should sit for ten minutes in a "tent" of aluminum foil. The shiny side of the foil should be toward the meat. This allows the internal temperature to become more even throughout the roast before serving.

Pork and pork products should be stored in the refrigerator or the freezer. Fresh pork should be stored in your refrigerator's meat keeper for only two days before cooking. It also can be frozen at 0°F. for up to six months. Ground pork can be frozen for a maximum of three months. Smoked pork can be kept frozen for up to two months. Be sure to wrap and seal the meat tightly in moisture-proof material. Defrost pork in the refrigerator or during cooking.

So, if you're watching your weight, include some of today's lean pork on your menu. It's nutritious, good-tasting, and adds variety to any meal.

Remember, thin is in—not only for you, but for today's modern hog, too.

TIGER TALES

"OLIVER!"

Work on the musical "Oliver!" finally came to an end after playing to standing-room-only crowds Friday and Sunday. Well-presented, the musical this year was said to be one of the best ever at SHHS.

During the finale Sunday, Mrs. Joan Larson and Frank Luke were recognized for their hard work during the past 6 weeks and received gifts from the cast. Also receiving gifts, and their portrayals were Dan Walterscheid "Oliver", Carolyn Luke "Nancy", Bernie Fette "The Artful Dodger", Roger Haverkamp "Bill Sikes", Joe Bartush "Fagin", and Brenda Voth for outstanding work on props. Mary Grewing and Mary Luke for publicity, Mary Caplinger and Mary Margaret Rohmer for costuming and Cheryl Luke for art work.

Seniors

SHHS seniors will leave on April 6 for an overnight field trip to Oklahoma City. First stop will be for a picnic lunch at Turner Falls. In Oklahoma City the class will observe the state legislature in session. They will spend the night in Oklahoma City and on the return trip the seniors will visit the Cowboy Hall of Fame, the Oklahoma City Zoo and the Crossroads Mall. They are scheduled to return to Muenster about 9 p.m. on April 7.

Guest Speaker

Bishop Joseph Durick, Chaplain of the Federal Correctional Institution was guest speaker at the regular faculty meeting at SHHS on Tuesday, March 14. He told about his

three years of work as a chaplain in the federal correctional institutions and discussed the U. S. Penal System. He sought to acquaint the faculty with the need for reform in the U. S. Penal System; also to acquaint them with the apostolate of ministering to the prisoners.

Deano Bayer Is Birthday Honoree

Deano Bayer's 8th birthday was observed with a party at his home on Sunday when his parents, the Claude Bayers entertained.

Fifteen friends and his two sisters Amy and Vickie and his brother Kelly attended.

The birthday cake was decorated in a soccer theme, by his godmother, Mrs. Charles Bayer. Deano's parents directed games and the guests enjoyed playing outdoors in Sunday's beautiful weather.

The birthday cake was served with ice cream and everyone sang the birthday song and the honoree opened and displayed his gifts.

Congress must be held accountable for the laws it writes

Today, we're saddled with higher taxes than ever before and yet we get fewer services and benefits. Congress writes the tax laws.

Our Social Security payments are going up again, but the Social Security System is so mired in waste and inefficient management that many of our older citizens subsist on fatback and beans. Congress writes the Social Security laws.

Just about everybody you can think of has to fill out reports and forms in triplicate just to allow the government to meddle in your business. Congress writes the laws that require all these reports.

Thousands of people are out of work. And if you do have a job, inflation eats into your pay check before you ever see it. Congress writes the laws that make economic policy.

Congress writes the laws that govern our lives. And Congress must be held accountable when these laws don't work. BUT IS IT?

We need someone who will be accountable in Congress. As your Congressman, Dusty Rhodes will be accountable to you. We need Dusty Rhodes in Congress.

JIM SNOWDEN

Jim Snowden Has Statement For Voters

Jim Snowden of Tye, Democratic candidate for U. S. Representative, District 17, has authorized this newspaper to publish his statement to the voters as follows:

TO THE PEOPLE OF THE 17th CONGRESSIONAL DISTRICT:

Basically, I believe that government should be the embodiment of equality and not an instrument through which special and individual advantage can be gained.

I believe our government is determined to pauperize a segment of our society through maladministration of welfare programs.

I believe in the supreme worth of the individual and his right to life, liberty and the pursuit of happiness.

I believe every right implies a responsibility; every opportunity, an obligation; every possession, a duty.

I believe that the law was made for man and not man for the law; that the government is the servant of the people and not their master.

I believe in the dignity of labor, whether with head or hand, that the world owes no man a living but that it owes every man an opportunity to

make a living.

I believe that thrift is essential to well-ordered living and that economy is a prime requisite of a sound financial structure, whether in government, business or personal affairs.

I believe that truth and justice are fundamental to an enduring nation.

I believe in the sacredness of a promise, that a man's word should be as good as his bond; that character - not wealth or power or position - is of supreme worth.

I believe that the rendering of useful service is the common duty of mankind and that only in the purifying fire of sacrifice is the dross of selfishness consumed and the greatness of the human soul set free.

I believe in the all-wise and all-loving God, named by whatever name, and that the individuals highest fulfillment, greatest happiness and widest usefulness are to be found in living in harmony with his will.

I believe that love is the greatest thing on earth, that it alone can overcome hate; that right can and will triumph over might.

Sincerely yours,
Jim Snowden

Time Saving Tips
On Tax Returns
Offered by IRS

Taxpayers can prevent possible slower processing of their tax returns and delay in issuance of refund due by double checking their returns before filing, the Internal Revenue Service said.

Some of the most common taxpayer mistakes, according to the IRS, include arithmetic errors, use of the wrong filing status, failure to sign a joint return, and failure to sign the return and especially to provide two signatures in the case of a joint return, and failure to attach all necessary documents.

The IRS also urge taxpayers to use the peel-off label that comes with the tax package on their returns in order to avoid possible social security errors. Taxpayers can also save time and speed up processing by mailing their returns in the coded, pre-addressed envelope found in their tax packages, according to the IRS.

Taxpayers paying two federal taxes at the same time are also asked to use separate checks or money orders for the payments.

Judy Klement of Fort Worth was a guest of her parents, the Gene Klements for a week-long vacation and spent last weekend in Hot Springs, Arkansas and on Monday returned to Fort Worth, where she is a dental assistant.

Mrs. Herman Grewing and daughters Amber and Brandi and Mrs. H. A. Walterscheid spent Thursday afternoon in Jacksboro visiting Mr. and Mrs. Rainard Walterscheid.

Lynn Joe Klement is spending twelve weeks in the Nuclear Engineering School with Westinghouse Corporation in Pittsburgh, Pa. Following classes, he will return to Bay City, Texas, where he is employed.

YOU CAN BANK ON IT!

Organized crime has found a new bonanza! Stolen cars. Those which aren't sent abroad for the black market or peddled in "steal-to-order" circles are broken down and sold here for parts. Others are used for robberies or in illegal drug traffic.

The magnitude is frightening, too. Last year alone, a million cars were driven away by people who didn't own them. That's one-tenth as many as were bought. Oddly, 15% of the cars stolen had the keys in a very convenient place... the ignition.

The loss of your automobile could amount to a financial crisis. But if you carry an automobile loan through the bank, your vehicle is protected with insurance against loss or damage by collision, vandalism, fire, and other causes... including theft.

If you are considering the purchase of a new or used automobile, see any of our loan officers. When they advise you on protection of a financial investment... you can BANK on it!

It used to be the "light bill."

Now, it's the...

air conditioner, blanket, blender, can opener, clock, clothes dryer, clothes washer, dish washer, door bell, drill, fan, food freezer, hair dryer, heating, heat pad, hedge trimmer, iron, lawn edger, lawn mower, lights, sander, saw, sewing machine, shaver, stereo, television, toaster, vacuum cleaner, waffle iron, waste disposer, water heater, etc., bill.

Forty or fifty years ago, the electric bill was most often referred to as the "light bill." In thousands of homes, Mr. Edison's illuminating invention was not the only electrically operated device in use, but people associated its benefits with their costs for electricity.

Today, higher costs for electricity seem to overshadow the many benefits of electricity.

Whether you have 14 or 40 electric appliances, we believe that if you will compare their benefits with your costs of operating them, you'll agree that electricity is still a good buy... all over the house.

Blue ribbons in the fat lambs division were awarded to Bert Walterscheid, Bill Sicking and James Yosten, and red ribbons to Darell Sicking, Joe Yosten, Rusty Reid and Kevin Cler. ing fathers, while providing for changes wanted to guard against extremes or unnecessary amendments.

Our Congress would do well to keep that purpose in mind and apply it to the ERA Amendment. The seven year time limit is both ample and reasonable. If ERA is not approved by then, it does not deserve to be. This is especially true in relation to the very controversial claim that a state cannot rescind its ratification.

Observers of the political scene tell us that conservatism is gaining ground in this country, and the same applies to free enterprise. But unfortunately the two systems are still far short of the support they need. In spite of being able to see clearly what has happened to England under liberalism and socialism, our government insists on following the British way through one mistake after another. We hope of course that our country will come to its senses before we reach a point of no return.

As it is, US is in serious trouble but hopefully will be able to pull through by hard work and sacrifice. The outlook is not appealing after years of living it up on borrowed money, but it's what can be expected if the brakes are not applied soon.

With that problem in sight, it's high time that more people get back to the principles that made America great. More of them must be realizing that, "despite its flaws, our free enterprise way has been so successful that what we consider our poverty level is higher than the average income in the USSR. More than half of the economic activity in the entire history of man has taken place under American auspices . . . and most of that in this century," according to congressional candidate Fike Godfrey.

He further stated that "the Soviet Union is the most successful socialist country in the world, but to put America on the same level with the Soviets we would have to cut all the paychecks in the United States by 75 per cent, send 60,000,000 people back to the farm, tear down almost three fourths of the houses in America, rip up 14 of every 15 miles of paved road, tear out two thirds of our railroad tracks, junk 85 per cent of the automobiles, and eliminate nine out of every ten telephones."

This is what socialism has done for Russia, what America can expect if it abandons the American Way.

Love Fund Begun By Beta Kappa

Beta Kappa Chapter of Epsilon Sigma Alpha has announced its intention to start Beta Kappa's Love Fund to aid community members in need. The account was opened early this week at Muenster State Bank.

Beta Kappa is a service sorority composed of 13 area young women. The main purpose of all Epsilon Sigma Alpha chapters is aid to mankind. Each chapter selects its own projects to help those in their area or community. The two principal philanthropic projects are the Swim-a-thon to benefit the Child Development Center and the Miss Muenster Pageant to benefit the Love Fund.

Since its beginning in March of 1977, Beta Kappa has raised over \$800 for Cooke County Child Development Center and donated over \$1000 in items to be used at the center.

Beta Kappa's next project will be the Miss Muenster pageant on April 27 and the start of the Love Fund. All proceeds from the pageant will be put into a savings account to be used for anyone in need in the community.

The money will be available to help with medical expenses for serious illnesses, and repair or replacement of loss from fire or weather. Sometimes the help will be in the form of a lump sum payment and sometimes it will be used to start a fund.

Anyone needing help or knowing someone needing help can contact a Beta Kappa member for consideration of their case. Donations from other sources to the fund will be gratefully accepted as this will enable the fun to grow faster and will allow it to better help those who need it.

Anyone wishing additional information can contact Betty Fleitman, president at 736-2249 or Loretha Cash, service chairman, at 759-4105, or Lupe Evans, treasurer, at 759-2911.
