CONFETTI
CORNFETTE

Of all the American statesmen who have died in recent years, none have been eulogized nor honored so highly as the man who became known over the nation as Mr. Republican. Senator Taft was not only the spark plug of the Republican party but, with the possible exception of President Eisenhower, also the most influential man in the country. The president had the greater power. At the same time we must remember that the use of his power was frequently guided by Taft's counsel.

Likewise in legislative circles, Senator Taft was the undisputed leader. His integrity, ability, and devotion to his country were never questioned. Even his political enemies, while disagreeing with him on various issues, always had the highest respect for his motives. He spent the greater part of his life in one continuous effort to make our country a better place in which to live.

His greatness was never more apparent than in his willingness to help the man who defeated him in the nomination for the presidency. He did not permit personal defeat to stand in the way of his devotion to party and country. He helped Eisenhower win the election and later helped him both in making decisions and in securing the support of the legislature.

Taft was truly a big man. He deserves to be remembered as one of the greatest statesmen in American history. Not an indispensable man, but truly irreplaceable. His clear judgment and extraordinary knowledge of government will be sorely missed in Washington for a long time.

This column seems to make a habit of indulging in wishful thinking, so it is only being consistent in rejoicing over the recent developments in Germany. News of hunger, rioting and strikes provides abundant reason to believe that the mighty Soviet empire has reached its peak and started slipping. When people by the thousands defy the brutality of red police, risking their lives to crash across the border for a parcel of food, they leave no doubt concerning the extent of their destitution and misery. They could not possibly choose a more eloquent way to reveal that the reds' highly glorified workers paradise is an empty boast and a cruel hoax.

Meanwhile the communist leaders are intensifying their own troubles by their sour attitude. It's not smart in the long run to use violence in order to keep men from eating. Nor is it smart to confiscate thousands of parcels and distribute them as their own. It isn't likely that a single beneficiary is fooled. Average people are not fools. When they sit down to partake of that food people will still thank Almighty God for sending them help through the kindness of people who had the good fortune to go on living as they themselves would like to live. No amount of red propaganda will ever offset what American aid is doing in Germany today. The downfall of the Soviet empire has started.

That applies not only in Europe but in the Orient as well. Secretary of State Dulles, now conferring with President Rhee in Korea has more reason than ever before to anticipate a final favorable solution. There is less chance than ever before that Russia can be counted as an ally if and when the Asiatic reds should be unreasonable. With that possibility looming they should be easier to deal with.

This column has a feeling that Ike and Dulles and other policy makers of this country are thinking along the same line and that they will apply more and more diplomatic pressure. This is the time to start giving Russia the same kind of treatment it has given us for the past several years . . . to take advantage of her weakness and consolidate a few gains without cost in men or materials. If we can have a few years of that we can worry less about future wars.

Mr. and Mrs. Steve Moster left Wednesday for a week's vacation tour to New Mexico and Colorado. During their absence I. A. Schoech is pinch hitting as water and sewer supervisor.

Well Looks Good; 150 Gallons of Soft Water Per Minute

Judging by just a few days' performance members of the city council are confident that the water well just completed is Muenster's best.

Mayor Urban Endres stated Wednesday that the well has been producing 150 gallons a minute since Monday morning, also that the water is free of sand and appears to be very soft. The council is now awaiting an analysis report on a sample sent to the state health department to get exact data on the water's quality. Meanwhile they are pleased by local reports that city water has improved since Monday when the No. 2 well was cut off and the new well was started. Several people have said that soap lathers better.

City officials were surprised last Thursday when initial tests following installation of the pump indicated 150 gallons a minute. The pump is rated at only 110, and they have decided since that the figure refers to minimum rated capacity rather than maximum.

During the weekend the flow line to the reservoir was treated with a chlorine solution. Monday it was flushed out for an hour before it was connected to the reservoir.

Using the submerged type of motor and pump council men know they have eliminated shaft and bearing troubles on their new well. Meanwhile they are keeping fingers crossed hoping the new type unit is not subject to another kind of failure which would cause as much trouble. Even if that should happen the city has the advantage of saving a great deal of time in taking out the pump to work on it. It also saves about 8 gallons a minute which have to be run back into the old wells while they are idle to keep the shaft bearings lubricated.

Not all bills on the new well have been received, but enough are in to indicate that the total cost of the well and the line to the reservoir will remain under \$8,000.

VFW Auxiliary Wins Honor Roll Certificate

For the fourth consecutive year the Muenster VFW Auxiliary has won an honor roll certificate for completing 100 per cent of projects required for this distinction. The local club was one of 24 clubs of the 217 organizations in Texas to merit the award.

Mrs. F. A. Kathman received the certificate at the state convention in June and presented it to the local group Monday night during a regular meeting which featured her report on convention proceedings.

During the business session members voted to send a contribution to the Texas Cottage fund for an additional building to be erected at the Eaton Rapids, Mich., home for veterans' widows and orphans.

The ladies also completed plans for a party to cheer patients at the veterans hospital in Bonham. The members will take the party to Bonham on Thursday, Aug. 13. Hostesses in charge of the affair are Mes. Pat Hennigan, F. A. Kathman, M. H. King and John Huchton.

As an added feature of the meeting, Mrs. Francis Wiese, Americanism chairman, Mrs. Richard Swirczynski, civil defense chairman, and Mrs. John Huchton, radio and publicity chairman, gave reports on outstanding articles taken from the current National Auxiliary Bulletin.

After adjournment, Mrs. Alois Rohmer and Mrs. Arthur Felderhoff, hostesses for the evening, served cold drinks to those present.

FFA Boys Attend Outing at Texoma

About 15 members of the Muenster FFA chapter spent Friday and Saturday of last week on the chapter's annual outing at the FFA campsite on Lake Texoma. Boys from several other chapters of the Denton district had their annual outing there at the same time.

Killed in Korea 2 Days Before Truce

Word was received here Friday of the death of Paul Himmels, 23-year-old Windthorst youth. He was killed in Korea two days before the signing of the truce. His father, the late Paul Himmels, a rural mail carrier for many years, was well known locally.

Young Himmels, with the First Marine Division, was engaged to marry a Scotland, Tex., girl, JaNe Ann Morath, in late August or early September. He was to have returned to the states this month, but his unit was recalled to combat duty. He was a native of Windthorst, had been in the service about a year, and had been overseas seven months.

His mother and seven sisters survive.

Father Christopher Joins Parish Staff

The staff of pastors at the Sacred Heart Rectory was completed Wednesday night of last week when Father Christopher Paladino O.S.B. of Subiaco Abbey, Ark., arrived to join Father Patrick Hannon as assistant to Father Louis Deuster. Father Patrick arrived about two weeks earlier, shortly before Father Cletus Post left here to take up his new duties at Laneri High School in Fort Worth.

Father Christopher was ordained in 1939 and has been at Subiaco Academy ever since. He was assistant prefect of discipline for two years and head prefect from 1941 until the close of the past school year.

Pvt. Gilbert Yosten wrote from Korea on July 25, two days before the signing of the truce, saying he was "in the thick of it" on Christmas Hill with the 45th Infantry Division. His parents, the N. J. Yostens, are anxiously awaiting a letter from him written since the shooting stopped. The John Knabes also heard from their son, Pvt. Tommy Knabe, Monday. His letter was dated July 23. At that time Tommy was four miles behind the front, setting up tents part of the time and training part of the time. They, too, are awaiting additional word from him. Mrs. Charles Taylor and Mrs. Jack Janicki have heard from their husbands since July 27. Warrant Officer Janicki is spending this week in Japan, his probable next station where his wife and daughters plan to join him.

Pvt. Wilfred Hess was released from the station hospital at Fort Bliss the latter part of last week after being a patient a week receiving treatment for a badly infected finger.

Has 30 Day Leave

Lt. Rita Voth, a nurse at the U. S. Naval Hospital in San Diego, Calif., arrived Monday to spend a 30-day leave with her mother, Mrs. Barney Voth and family members. She came here with her brother, Ray, and Paul Arendt of Lindsay who drove to California to bring her home. On their way back they stopped at Douglas, Ariz., to visit the Emmet Fette family.

Ends Visit In Texas

Seabee Floyd Lehnertz, who spent a week here with his parents and then went to Houston to visit his brother, Gene, left there Tuesday to return to California where he will take additional training. He had been on duty in the Philippine Islands before being rotated back to the states.

RUPERT HOENIG, airman first class, is at Eglin AFB, Florida, serving as a B-29 mechanic. He volunteered for duty with the air force and left on Jan. 2, 1951, for basic training at Lackland AFB, San Antonio. He was then sent to Sheppard AFB where he attended mechanics school for six months and was assigned to Barksdale AFB, La. From there he went to Chanute AFB, Ill., and then overseas. He was a mechanic on Okinawa for six months, May-Dec. 1952. He was re-assigned to Barksdale, his home base, and was later transferred to Eglin for a special project. His parents are Mr. and Mrs. Joe Hoenic and his present address is: A1c Rupert Hoenic; 376th Spec. Proj. Det.; Eglin AFB, Florida.

Lunch Programs at Schools Shaping up

Lunch programs at both of the Muenster schools are shaping up this week as the parochial school is progressing nicely in furnishing and equipping the church basement and the public school plans construction of a new cafeteria.

Tables and benches have been completed at the parochial lunch room and are being painted now. Kitchen equipment has been ordered and is expected in ample time for completion before the opening of school on Sept. 1.

Trustees of the public school have approved a new cafeteria building for their school and expect to start building in the next week or two. Thursday morning several of them went on a tour of several lunch rooms in North Texas schools looking for designs and features to include in the new building.

They plan a combined cafeteria and band hall in a separate building, not an addition to the present structure. The size has not been determined yet but it will be adequate for ample kitchen space and dining room space to serve more than 100 persons at a time. Since children eat as soon as served it is believed that no more than 100 will be seated at any time. The trustees also intend to make the place available to the community for banquets, wedding receptions and other gatherings.

F. E. Schmitz Buys Coca Cola Bottling Plant in Gainesville

F. E. Schmitz became the owner of the Gainesville Coca Cola Bottling Company last Saturday in one of two transactions in which the Community Public Service Company of Gainesville sold its business to local citizens.

The second deal was the sale of Crystal Dairy Products Company and the Gainesville Ice Company to Roy Stamps and several other persons formerly associated with the former company.

Schmitz said he will incorporate the bottling company with himself as president, Roland Wilson as vice-president and manager and Mrs. Schmitz as secretary. Included in his purchase are the building, equipment, and the Coca Cola franchise for Gainesville. He will retain the plant's former operating personnel.

A similar arrangement applies to the dairy products and ice plants. Stamps and his partners will form their business organizations retaining employees who worked in the plants before.

Lights Ready, Work To Begin Soon on Hornet Grandstand

Installation of lights on the Muenster High football field was completed Wednesday and work is due to begin on the grandstand in the next few days.

The lighting system consists of thirty six 1500 watt lamps mounted on 8 poles. Poles at the four corners of the field have clusters of 4 lamps each and the four lighting midfields have 5 lamps each. They are about 40 feet off the ground, on 50 foot poles set 7 feet into the ground.

Much of the grandstand work will be done at night under the new lights. It will be located at the west side of the field just a short distance from the school building and will follow the slope from the building to the field level. Seating capacity will be about 800 and seats will be of wood supported by a steel framework in concrete foundation. A great deal of the steel is discarded oil field pipe and rods donated for the grandstand.

Auctioneers Trim Marysville Twice

Muenster's Auctioneers salted away both games in their double encounter with Marysville during the past weekend. Playing here Friday night they won 12-5 and at Marysville Sunday they won 10-2.

The visitors did all their scoring in the second inning Friday night, getting to Mollenkopf for 3 hits and 2 walks and also taking advantage of an error. Henschel had better luck however, and held them scoreless the rest of the time. Muenster scored 1 in the first, 4 in the second and 7 in the fourth. Cole relieved Benford after that and kept the game under control.

Henschel was the Auctioneer standout again Sunday, pitching a 3 hit game and banging out the only homer. Muenster scored 2 in the second, 5 in the fourth and 3 in the seventh. Marysville got one each in the fourth and fifth.

Next games on the Auctioneers schedule are with the Little Hooters this Thursday night at 8 in Gainesville, and with Windthorst there Sunday, 2:30 p.m.

NEWS OF SICK AND INJURED

Mrs. John Rohmer was admitted to Gainesville Sanitarium Monday and underwent surgery Tuesday morning.

Little Jane Hess is back at home since last Wednesday evening, still confined to bed but recovering nicely from an operation performed at Baylor Hospital in Dallas. Her father, Al Hess, went to Dallas to bring her and her mother home. Mrs. Hess had remained at her daughter's bedside. Janie says thanks to everyone who remembered her with get-well wishes.

Mrs. John Grewing underwent a major operation at Gainesville Sanitarium Monday and is recovering satisfactorily.

Little Dale Wilde is reported recovering normally after undergoing an operation on his right ankle last week Wednesday. He was in surgery for three hours and 45 minutes. His mother, Mrs. Richard Wilde is staying with him at Methodist Hospital in Dallas and his father and brother Melvin, were with him for a weekend visit. He will be in the hospital until the middle of next week and derives much pleasure from greeting cards from his friends. His room number is 260.

Mrs. Joe Swingler entered Gainesville Sanitarium Saturday for observation and treatment.

Mrs. Emmet Fette of Douglas, Ariz., underwent major surgery there Sunday. Her father, Paul Arendt of Lindsay, returning from a trip to California, was in Douglas Sunday and remained at the hospital until after the operation. Herman Grewing received anti-tetanus serum at the local clinic Saturday after stepping on a nail at the home of his parents, the John Grewings.

Steeple Finished; Outside Work on Church Nears End

Mounting the cross on the steeple last Friday practically marked the completion of outside work on Muenster's new half-million dollar Sacred Heart Church.

Most of the activity now is inside, and that consists chiefly in installing oak trimming on the ceiling and parts of the walls. Some of the oak conceals steel beams and other structural features and the rest is strictly ornamental. After it has been finished the ceiling will be completed by installation of acoustical tile.

The top of the cross rises 114 feet and 6 inches above the ground level. Made of aluminum and measuring 10 feet 6 inches in height it surmounts a 34 foot stone steeple resting on a 70 foot tower.

The last of the cut stone work, consisting of trimming above the front entrance, was under way Wednesday. At the same time work continued inside the tower and got under way on the long job of spraying all exposed stone with a water proofing transparent paint to preserve the color of the stone.

KC State Committee Urges Attendance In Catholic Colleges

During the coming school year high school students in all areas of the state will have an opportunity to discuss higher education with faculty members of the state's Catholic colleges and universities. The series of meetings is being arranged and sponsored by the Catholic higher education committee of the K of C state council which met in Port Arthur during the past weekend with other committees and officers of the state council.

J. W. Fisher is a member of the higher education committee. He was accompanied to Port Arthur by his wife and daughters, Teresa and Joann.

Another service to Catholic youths was indicated in a report of the state student loan committee that its fund has \$15,000 available for scholarship loans to deserving students.

Other reports revealed plans to establish several new councils in the state and also to organize new units of the Columbian Squires, a Catholic youth organization affiliated with the Knights of Columbus.

Lions Plan 2 Events For Band Uniforms

Two Lions Club promotions are coming up soon to raise funds for the Muenster Band uniform fund. Both were decided in the club's regular meeting Tuesday night.

The first event is a softball game between the Lions of Muenster and Gainesville . . . one of those farce affairs in which most participants are anything but ball players, and will dress in women's clothes to make themselves even more ridiculous.

The second is a Lion sponsored program at the Relax Theatre Friday and Saturday nights, August 28 and 29. Their deal with Manager George Letson is to try to pack the house by advance ticket sales and publicity and split the receipts with him on a 50-50 basis. A short concert by the band will be an added attraction at the theatre both nights. The feature picture for those nights has not been booked to date and Letson said he will make every effort to get a highly rated picture.

Mrs. Frank Walterscheid is recovering normally from back surgery performed at St. Anthony's Hospital in Hereford last week, according to word received by local relatives this week.

A look at the new directory shows that many new names have been added. Actually we are serving about 50 homes more than we did a year ago.

You will also notice that many patrons have had their numbers changed. That's because new and better lines have been added in practically every area served by the system to relieve overcrowding on previous lines. Every changed number represents an improvement.

Still another improvement is another long distance line from our office... enabling us to handle our increasing number of long distance calls with fewer delays.

profit be taken away from him? Should he be told that from now on he must limit his 'profit' to say, 6 per cent? To legislate against profits is as silly as to legislate against things growing."

Security Available

"Want security? Throw a brick through a window—you'll get it fast. Three meals a day, free. No taxes. Free housing, free clothing, free medical care. No worry about your future. But obey orders, or else! Stand up to be counted! March in line! No back talk; Do what you're told! Jail. Socialism. Communism. The Welfare State. They're all the same—same 'benefits,' same obligations; same 'rewards,' same payments."

"There's a law against corporations becoming too big. It is the law of supply and demand. The minute a company makes too much money, competitors rush into the business. The minute a company stops giving you sound values, the most for your money, you buy somewhere else or do without. And that trims that company down to size in a hurry. Of course, if a company does give you the most for your money, and does grow as a result, that's all right, isn't it? Or would you rather see the big concerns cut down and penalized? You're the one that's penalized in the long run. Growth is what built America. Growth is the only thing that can make more and better jobs and values."

A NATIONAL SERVICE

In recent years thousands of our businesses, industries and organizations have devoted considerable time and thought to bringing about a better understanding of the difference between private enterprise and Socialism. Some have started economic education programs among their employees, some have produced motion pictures spotlighting the advantages of the American system and the truth about Socialism, some have sponsored Americanism radio programs. The Warner & Swasey Company, of Cleveland, which manufactures machine tools, has distinguished itself with a national newspaper and magazine advertising program.

The Warner & Swasey ads use a few simple words and examples to get across vitally important comparisons between our private enterprise system and various forms of Socialism. From the scores of ads published in the past five years, I've selected a few excerpts each of which dramatizes a fact Americans should know and never forget.

Potato Profiteer!

"Somebody ought to speak sharply to Nature.

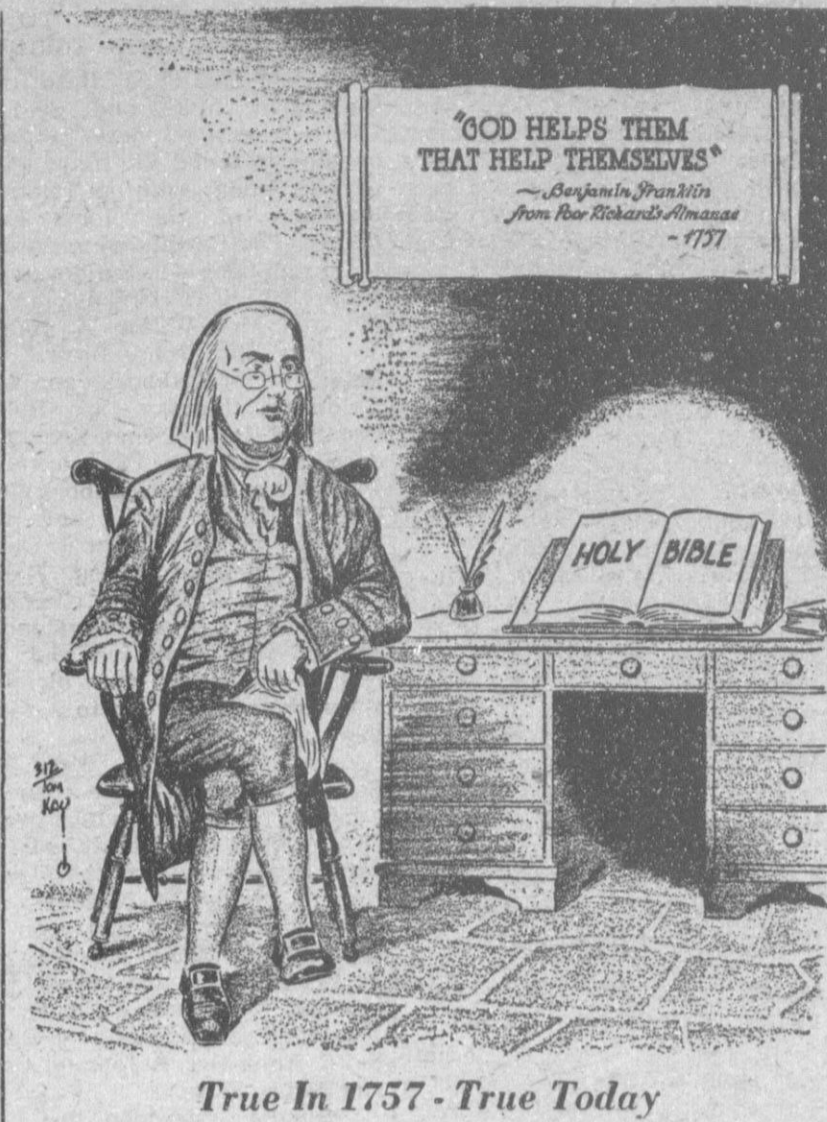

"There's a lot of loose talk these days about profits, attacking them as though they were evil. The very existence of the world depends on profits; the improvement of the world depends on big profits. A farmer plants one potato and usually gets back 15. Even allowing for all his costs, that's more than 1,000 per cent profit! He plants one pound of corn and gets back 336 pounds — that's 33,600 per cent profit. These are big profits. Is that bad?

"Should the farmer be scorned as anti-social? Should his 'excess'

Sapping Our Strength

"America's muscle is getting old. Machines make a nation strong — machines that produce weapons for protection and the things people need for living. America's machines are getting old; 43 per cent of all machine tools are at least 10 years old. For years, obsolete tax laws have made it impossible for most companies to set aside enough out of earnings, to keep their machines modern. Flabby muscles can turn a champ into a has-been. Don't let it happen here."

"Under Communism (after 21 years of it, and even before war-time scarcities) a worker has to work 30 days to earn one pair

True In 1757 - True Today

of shoes. In America, a worker earns a better pair of shoes with 8½ hours of work. There is the whole truth about the two systems. Yet the communists say they want to bring communism here to benefit the worker."

The American people will forever need to be reminded of facts like these; it is all the more necessary today when the twin epidemics—Socialism and Communism—seek, by trickery, to infect the world.

The best way to break a bad habit is to drop it. In youth we learn . . . In age we understand.

NOTICE CHILDREN!

We want every kid in this community to see HANS CHRISTIAN ANDERSEN, but we think that 35c admission is too high even for an outstanding picture like this. We can't change that but we CAN do something about it.

Each child (under 12) buying a 35c ticket to see HANS CHRISTIAN ANDERSEN will receive FREE one ticket good for either "Annie Oakley" on Wed.-Thurs. or "Seminole" on Fri.-Sat.

So, come on kids! See HANS CHRISTIAN ANDERSEN and be our guest at another show during the week.

Knock Out those "REJECTS"

Warm, cloudy weather such as we have had lately is ideal for bacteria. They multiply faster than ever... and spoil more milk.

Don't let them knock out your profits. If any of your utensils have broken seams or rusted spots, which provide perfect hiding places for the bugs, replace them now. And give special attention to washing and sterilizing.
