Health Department OKs First Tests of Fluoridated Water

It's beginning to seem that the proposed 30 cent ad valorem tax to raise funds for road improvement in Cooke County is far from a dead issue. Plenty of pressure is being exerted to bring the subject back for another election.

And perhaps it's to the best interests of the county to have the issue re-considered. The other came up so quietly and on such short notice, and at a time when it was so much obscured by primary politicking, that it really did not have much of a chance to register on the public. The result was a light vote in which people simply did what comes naturally. They voted again. On principle practically everybody is against tax raises, unless and until they are convinced that the benefits to be derived are great enough to justify the tax. There's got to be a selling job before any such proposal can go over, and the people of Cooke County definitely were not sold on this.

Under the circumstances it seems quite proper that the subject should have more thought. Pros and cons ought to be discussed freely until taxpayers have had an opportunity to decide whether they will get their money's worth out of those extra dollars they will have to dig up. If they think then that the gain is worth the price they'll go for it. Otherwise the proposal deserves the same fate it received in the quickie election.

As of now this column is not ready to take a stand for or against the tax. First it wants to know a few things concerning the benefits in sight for this part of the county. It would also like to know what provisions are made allowing precincts to share lateral road funds in the same proportion that they pay in taxes.

Also, what provision is there to reduce the tax if and when the immediate and more urgent requirements are met? At this time the big incentive is to buy right of way so the county can qualify for a four lane road from Gainesville to the Grayson county line. When that's out of the way a project west seems likely. But what then? Will the entire fund be dumped suddenly into the road and bridge fund? Will the rate be reduced? Or what? After all, taxpayers don't want to write a blank check to the county. They'd like to have a detailed account of how their money is to be used and then decide whether or not they approve.

From what we have heard so far the tax doesn't offer a great deal to the west part of the county. The only thing emphasized is that super highway from Gainesville east, which certainly isn't the way to make votes and influence taxpayers out west. In fact, we might not be much more impressed if told that a similar project is on the books for our end of the county, because it isn't needed nearly as bad here. With fewer hills and curves, and a better road to boot, our highway can accommodate lots more traffic... and it has less.

Those are some of the considerations that come up on the "con" side of the issue. And, of course, there are others for the "pro" side, the very first being that \$900,000 four lane project. Anybody who's been over the present road knows it's urgently needed, and will also agree that the average person in this end of the county will use it enough to get his individual tax value out of it. Considering the population of the county, no one needs to have many dollars worth of use to break even on the deal. So even though others reap the big benefit we're still doing fairly well.

Then there's the provision for county roads. Experience of the past several years has convinced us that, with present limited funds, we'll wait a mighty long time for the better rural roads we need now. More money to supplement the state's expenditures in FM roads could do wonders for every precinct. Actually there is where the taxpayer will get the best return on his money.

Another point that could be mentioned is that this is the only poor-man's tax proposed in the county so far. The clause exempting the first \$3000 of homestead valuation will by-pass a lot of

Reports recently received from the state health department indicate that Muenster is off to a good start in its water fluoridation program. Water Superintendent Steve Mosler told the city council Monday night that each of four samples sent to Austin met the health department's recommended specifications.

The reports also agreed very closely with tests made by Mosler. An average of the four tests of Mosler's readings varied only one tenth part per million from the official test.

The recommended ratio of fluoridation is 1 to 1.5 parts of fluoride per million parts of water. Exhaustive surveys have shown that mixture to be the most desirable. Benefits decrease as the solution is weakened but they do not increase as it is strengthened, hence more than 1.5 per million becomes wasteful. All effects of a strong solution do not show up, however, until the ratio reaches 4 per million or higher. At that point the water will discolor teeth but will not cause any other damage.

Mosler also said the city has been praised by health department officials for installing efficient and precise equipment for its fluoridating. The feeder unit as well as testing apparatus meets the most rigid specifications recommended by the department.

The fluoride is mixed into the city water in the pump house. As booster pumps are running a slow trickle of 2 per cent solution is added to the water which is forced into city mains and the water tower and tests are run regularly to see that the ratio of mixture remains between 1 and 1.5 parts per million.

Local Scout Troop Off to Summer Camp

Twenty-five Muenster Boy Scouts, accompanied by Scoutmaster Rev. Patrick Hannon and Assistant Scoutmaster Roy Endres Jr., left Sunday at noon in a school bus for Camp Constantin at Possum Kingdom Lake to spend a week at Scout camp.

Boys making the trip are Jimmy Schumacher, Sammy Swirczynski, Donald Hennigan, Melvin Schoech, Lloyd Klement, Billy Ray Otto, Howard Mollenkopf, Clifford Endres, Jerry Endres, Tim and Kenny Fette, Rodney Walter, Jimmy Sicking, Clifford Pels, Tim Mosman, Herman Grewing, Eugene Hartman, Francis Fisher, Rodney Kathman, Donny Swirczynski, Tim Wimmer, Jimmy Owen, Jimmy Gehrig, Billy Joe Dangelmayr, Regi Bayer. They were accompanied by Andrew Hale of Corsicana.

After a get-acquainted party the boys entered into all the activities of camp... swimming, hiking, nature study, archery, marksmanship, canoeing, 49'er trek and boat trips. At night the gang gets around camp fires to sing and to listen to stories. Other interests seem to be the Order of the Arrow ceremonies and Indian lore.

Georgia Hartman Is Candidate for Farm Bureau Queen

Miss Georgia Ann Hartman has been chosen to represent the Muenster Farm Bureau in the queen's contest to select Miss Cooke County. She won the honor in competition with seven other local candidates.

Miss Hartman, 16, is five feet four inches tall, weighs 106 pounds and has brown eyes and hair. The daughter of Mr. and Mrs. Victor Hartman, she is active in 4-H club work and has held the offices of vice president and reporter of her club. She will be a senior in Sacred Heart High school when classes open in September. She is a member of the Tiger pep squad, prefect of the Blessed Virgin's Sodality and secretary of the Muenster CYC.

Farm Bureaus throughout Cooke County are selecting queen candidates for the run-off contest August 18 in the Muenster Parish Park.

Car Theft Report Was False Alarm

A simple mistake Tuesday morning had Muenster buzzing about a car theft and had officers alerted all over North Texas to be on the lookout for a car which was parked at the Tuggle garage all the while.

It all started when Aubrey Tuggle told Johnny Fette to get the garage's 1946 Ford from the Shamburger Lumber yard. What he and Johnny did not know was that the car had been returned and was at the back of the lot. So Johnny brought back a 1946 Ford which happened to belong to Ben Fleitman.

When Fleitman found his car gone he got in touch with Deputy Bill Morris, who immediately notified officers in other North Texas towns.

A little while later Tuggle started to service the car for a customer and noticed it was not his. About that time he heard about the "theft" and guessed he had the car. He tried to notify Morris or Fleitman but both were out looking for thieves.

Some 30 or 45 minutes after the "theft" Tuggle got word to Morris that the car was waiting for him.

Council Will Hire Engineer to Study Improvement Costs

Members of the city council Monday night took their first step toward submitting a general improvement bond issue proposal to the citizens of Muenster. In response to a petition signed by 73 citizens they decided to engage an engineer for a survey to estimate costs of the several improvements which are under consideration.

Mayor Endres said Wednesday that the engineer has not been hired to date. The council's action authorized hiring an engineer but did not name one.

The improvements to be estimated are extensions and expansions of water mains along with changes in the pumping system, extension of sewer lines and expansion of the disposal plant, additional pavement, and a swimming pool.

Water system projects include several extensions of six inch pipe and erection of fire plugs also replacement of the small booster pump with a larger unit and moving the small pump to the North Main reservoir to serve as a stand by. At the present time all is well unless one of the pumps fails, especially if it happens to

3 Flusche Sisters Among Jubilarians At Lady of Lake

Relatives and friends from this area joined hundreds of other persons in San Antonio for the recent celebration in connection with the diamond, golden, and silver jubilees observed at Our Lady of the Lake Convent.

Joseph Flusche's three sisters were among the jubilarians. They are Sisters Cordula, Constantia and Emerit, all observing golden jubilees, along with 39 other nuns including Rev. Mother Mary Angeliqne, superior of the convent. There were also three diamond jubilarians and 16 silver jubilarians.

Among relatives attending the ceremonies were Rev. Hubert Neu of Dallas and his mother, Mrs. Joe J. Neu and daughter Celia and Mrs. Raymond Zimmerer and daughter Patsy of Lindsay; the L. W. Flusches and daughters Della and Jo Ann of Decatur, the Andy Flusches and children Leon and LaVerne, Anna Marie Flusche and Mr. and Mrs. Martin Mueller all of Pilot Point; Mrs. Henry Koelzer of Fort Worth and Mr. and Mrs. Gus Lutkenhaus, Mrs. Henry Henscheid and Mrs. J. J. Haverkamp and daughter Rosebell of Muenster.

The Muenster group also visited Mrs. Haverkamp's sister, Sister Ann Theodore and her niece Sister Miriam Dorothy. After this they went sight-seeing to Houston, Texas City and Galveston. They saw the Battleship Texas, San Jacinto Monument, and took a ferry boat ride to Port Arthur. Enroute home they visited in Beaumont and Longview.

44-Block Pavement Project Nears End; Cost About \$30,000

The series of residential paving projects which started as an 8-block job and gradually developed to 44 blocks, is nearing an end, or at least an intermission, according to City Manager Steve Mosler. Three blocks now under construction completes all the work on order.

As far as the city administration is concerned the end, or intermission, is very welcome. Since work started last fall it has paid out a total of \$11,770 for its share in the pavement and is beginning to feel a financial pinch. The money along with sewer and water department expenditures has been paid entirely by the city's revenue from taxes and water department income. But funds are getting low, Mayor Endres said, and the city will have to borrow if street work continues. Otherwise it can carry on with its regular income.

The total cost of the pavement to city and property owners is slightly more than \$30,000. Property owners have paid \$18,128 and the city has paid \$6,970 for gravel and \$4,800 for surfacing intersections, alley crossings and streets fronting city property. Besides the city has furnished its maintainer for shaping the gravel base and the water for soaking and packing the base.

Work was done under an agreement by which the city furnished necessary base material, the water and its maintainer. That expense, along with surfacing intersections and alley crossings was estimated to run at about half the total cost. But good street maintenance in the past paid off on the job. In many places very little gravel was needed to build up the base to its recommended thickness.

Actually the total pavement amounts to considerably more than 44 blocks. Quite a number of locations have curb to curb width, adding the equivalent of several more blocks to the project. The whole job probably amounts to 50 blocks of 18 foot pavement.

Coach Bob Williams Quits MHS Faculty

Bob Williams, coach of baseball, track and girls basketball and assistant coach of football at Muenster High last year, will not be a member of the faculty this year. School Board President Arthur Hellman received his resignation Wednesday in a letter explaining that he has accepted a more attractive offer at Roscoe High School, in West Texas.

Hellman could not say at the time what will be done to fill the vacancy left by Williams. If the board has trouble finding a replacement in the short time that's left it may re-assign duties to operate with the remaining staff of teachers.

NEWS OF SICK AND INJURED

Wilfred Sicking entered Gainesville Sanitarium Tuesday for x-rays and observation and underwent surgery Thursday morning.

Patients dismissed from Gainesville Sanitarium during the weekend included Mrs. A. T. Dickerson of Muenster and Mrs. Cecil Aytes and A. J. Higgins of Myra.

Della Rose Fette was dismissed from M&S Hospital last Wednesday after receiving medical care. She is the daughter of Mr. and Mrs. Joe Fette.

Thomas McCulley of Myra was admitted to M&S Hospital Monday for medical care.

Enlists in Army
Donald Reiter, son of Mrs. Hilda Reiter and Frederick Knabe son of the Joe Knabes, volunteered for service in the Army last week and Donald was accepted. Frederick was not able to pass the physical examination at this time on account of his leg—broken in a football game

Auxiliary Sponsors Community Contest In Driving Safety

To encourage safe driving in the community, members of the VFW Auxiliary Monday night made arrangements to conduct a "Drive Safely" contest and award a cash prize to the safest driver under 22 years of age for three consecutive months, beginning in October.

A committee was appointed to work out details and further announcement will be made when plans are complete.

Honor roll activity for the month consists of a contribution to the Student Nurses Loan Fund. The local Auxiliary again earned an Honor Roll certificate for the past year being one of 15 organizations qualifying from among more than 200 Auxiliary groups. Other business consisted of plans for a weiner roast for members and their husbands with August 22 as the tentative date. It will be held on the parish picnic grounds.

Softballers Likely To Enter Playoff In County League

Whether or not Muenster's VFW softballers win or lose in their make-up games between now and next Tuesday will make no difference in their league standing. The boys are in fourth place with a 9-6 record and a big gap separating them from both the third and the fifth places. If they win all they can't move up in the standing and if they lose all they can't move down.

The league's double round robin schedule ended on July 30 and teams are using this week and next to make up games that were missed because of weather or other valid reasons. Muenster has three of those games ahead, with Schlumberger Thursday, National Guard Friday and Gainesville VFW next Tuesday. After that the four top teams enter a championship playoff with first place meeting fourth and second place meeting third in a three out of five semi-final series. Semi-final winners will then meet in a four out of seven series for the loop title.

Muenster closed its regular schedule last Friday by dropping a tight 4-3 decision to Cox-Hamon, and, incidentally losing to its own pitcher, Glenn Coffman.

Earlier in the season Muenster tried to list Coffman on the roster but failed to do so because of a misunderstanding on regulations. Shortly later Cox-Hamon invited him to join and got him on the official roster. With the mistake cleared Coffman was ready to transfer to the Muenster club but at Friday's game he was still on the other roster.

At the same time Muenster was over the barrel in another way. At game time they were two players short and in danger of forfeiting the game. So the Cox-Hamon manager made a proposition. He would loan Muenster two players if permitted to use Coffman as a pitcher.

After all the confusion the teams had a good game and fans got their money's worth but Muenster was nosed out by a point. Cox-Hamon collected eight hits off Hartman and Muenster got six off Coffman.

GROUP LEAVES TUESDAY FOR NEW HAVEN, CONN.

Misses Anita Fuhrmann, Florence Henscheid and Elfrieda Block left Tuesday for New Haven, Conn., to attend the 99th annual convention of the Catholic Central Verein of America and the 38th annual convention of the National Catholic Women's Union to be held there Aug. 7 to 11.

The three girls made the trip with other young people and adults from Nazareth, High Hill, Hallettsville and San Antonio, the group going in two cars. They plan sight-seeing at places of interest on their way home.

Mr. and Mrs. Alfons Koesler, their son, Alfons Jr., and their daughter, Mrs. Tony Hermes and her daughter Rosemary of Lindsay, returned Monday from a trip to San Antonio where they visited their daughters and sisters, Sister Mary Corrine and Sister Mary Lin, at Our Lady of the Lake Convent. They also visited the Bill Laux family and Fred Mosman.

Weekend Soaker Breaks Drought and Record Heat Wave

Rain during the past weekend, measuring 2.8 inches on the official city gauge, went a long way toward breaking the drought and dropped the temperature temporarily to the pleasant eighties and nineties from their former record breaking high of 105 and over.

The showers were divided almost evenly between July and August. Up to Sunday the reading was 1.34 bringing the month's total rainfall figure to 1.71 and year's total, through July, to 15.86. The year's moisture up to the present date is 17.32.

Almost all the rain fell in slow showers with plenty of time to soak in, and generally put local farmers back in the farming business. Plows that were idle for weeks because of hard soil have started again. Pastures are greening and hay crops are on the way to another cutting. The rain was too late, however, to help corn which had a good start in spring and early summer but did not get the moisture for good maturity. A few exceptions are late crops in sandy sub-irrigated bottom lands. They still got a lift from the showers.

Hooters Tie Series In League Playoff; Final Game Tuesday

The Little Hooters of Gainesville tied up the Summer baseball league playoff series Tuesday night by trimming the Muenster Schoolboys 6-4 on the Gainesville diamond.

This leaves the league championship hanging on the outcome of the final game which will be played next Tuesday in Gainesville. The place was decided by the flip of a coin which the Hooters won.

The game was close all the way with Muenster taking a 1 run lead in the second and falling behind by the same margin in the third... and threatening every inning thereafter to tie or regain the lead. Meanwhile the Hooters missed a few chances to widen the margin, especially in the fourth when three were left on base.

Gainesville started the scoring with 1 in the bottom of the first followed by one in the second. Muenster's 2 in the second and 2 in the third gave a temporary lead until the Hooter come-back for 3. Both teams went scoreless from then on, except in the sixth when Gainesville added 1 for good measure.

Neither Walterscheid nor Banks was quite up to his usual pitching form. Walterscheid allowed 7 hits and fanned 3. Banks gave up 6 hits and fanned 7. Team errors were equally divided at 4.

Keep Dogs at Home City Council Asks

The days are numbered for stray dogs in Muenster. Members of the city council at their meeting Monday night voted to take whatever steps are necessary to eliminate the nuisance of trespassing dogs within the city limits. They took the action in response to numerous complaints from residents about dogs that were digging in flower beds, molesting children and causing other disturbance.

Complaints about the strays are to be taken to Deputy Sheriff Bill Morris, who has been asked by the council to cooperate with citizens in getting the situation under control. Pets that remain pets are not in danger, but those that become pests are subject to disposal.

YARBOROUGH:

Thanks, Friends; Predicts Victory

AUSTIN, Aug. 5—Democratic gubernatorial candidate Ralph Yarborough said this week he will win the Aug. 28 second primary by a sweeping margin.

Said Yarborough, confidently: "678,000 Texans—a majority of Texans—can't be wrong.

"678,000 Texans have hammered home their belief that integrity in their government can be achieved only by a change.

"678,000 Texans have noted their distrust and disapproval of a third term for their governors.

"678,000 Texas Democrats have made it crystal-clear they want a leader whose loyalty is unquestioned, who will never betray them."

Yarborough thanked "each and every one of the brave Texans who voted for and with me" in the first primary. He said he was "especially and particularly grateful to the citizens of Cooke County who have joined our common fight to restore decency and honor to Texas government."

Yarborough said the campaign issues now are sharply drawn. He said: "Texans can now choose for or against a tradition-breaking third term, for or against straight-forward Democratic leadership and for or against integrity in their State Capital."

The Democratic candidate re-

peated his thanks to "his friends of Cooke County and urged their voting support—along with the votes of all other Texans—Aug. 28."

There's still a sense of humor among the residents of East Germany. A story making the rounds of the Soviet zone tells of three cellmates in a Red prison. The first laborer said he was accused of "absenteeism."

The second told how he was five minutes early for work and was charged with spying. The third one said:

"I came to work on time. They accused me of buying a western watch."

Roewe-Lindsay Vows Recited in Sherman

Of interest to Muenster relatives and friends is the wedding Wednesday, July 28, of a former local young man, Joe Edwin Roewe, son of Mrs. Ben Roewe of Sherman, to Miss Patricia Ann Lindsay of the city.

The couple exchanged vows during a nuptial mass at 7:30 p.m. with Rt. Rev. Monsignor Zachary of Fort Worth officiating, in St. Patrick's Cathedral.

Burt Hamric of Muenster and Leroy Billingsley of Ardmore were members of the wedding party which included five bridesmaids, a flower girl and a ring bearer. The bride wore a traditional white formal gown and her maids wore dresses in pastel shades of pink, blue, green, orchid and yellow.

After the wedding a reception was held at the home of the bride's mother for about 200 guests. When the couple returns from a wedding trip to Eureka Springs, Ark., they will make their home in Denison. St. Anne's Society Hears Reports and Plans New Activity

Meeting Sunday night members of Saint Anne's Society heard interesting, detailed reports on the 55th annual state convention of the Catholic State League at Nazareth.

Delegates Mrs. H. J. Fuhrman and Mrs. J. W. Hess gave excellent accounts of the three-day meeting, the former giving the all-over report and the latter telling about activity of the committee on recommendations of which she was a member. This committee turned its attention to such subjects as racial equality; the trend of modern youth; the importance of voting in all elections, and recommended all-out help to missions and missionaries especially those in red dominated countries and war torn areas.

Mrs. Victor Hartman, president, presided for the meeting and Father Louis Deuster lead the opening prayer.

During the business session members initiated plans for the dedication program of the new church and new high school to take place October 7. Still unsettled and incomplete are plans for a community dinner at noon and the selling of souvenir plates with pictures of the church. Members favored the souvenir sales as a fund raising project and named Mmes. H. J. Fuhrman, Victor Hartman and Lena Streng as a

committee to work our details.

Members also unanimously approved a thirty-nine cent contribution by each member to the Central Verein during its centennial year in 1955. At this time the Catholic Women's Union will be 39 years old. Money will go to the Central Bureau for use in its many worth-while projects.

In addressing the group briefly before adjournment Father Louis spoke on Christian Zeal pointing out that communists have zeal but no faith and that Christians have truth but no zeal... neither of which is right. He pleaded for zeal in parish activity, urged better attendance at society meetings, and asked members to begin now with plans for the state league convention to be held in Muenster next year pointing out that others are looking forward to that convention with great expectations, and as Father Frowin of blessed memory would say "Let's keep it Muenster uber alles."

A box of religious items was presented to Mrs. Herbert McDaniel to send to a missionary on Formosa. Shipping charges are expected to be shared equally by the St. Anne's Society, the Catholic Daughters of America and the Third Order of Saint Francis.

Thirty-one members attended and Mrs. Martin Bayer won the attendance prize, a crystal rosary.

The human heart beats between two and three billion times during the average lifetime.

The American Way

LET'S KICK 'EM OUT
 By DeWitt Emery

On May 13, 1954, Senator Jenner (Republican, Indiana) on his behalf and on behalf of Senator McCarran (Democrat, Nevada) introduced a resolution to sever diplomatic relations with Russia. This resolution (S. Res. 247) reads in part as follows:
 "Whereas it is morally wrong for the Government of the United States to maintain diplomatic relations with the band of Kremlin international outlaws who, by stealth and ruthless power, have enslaved one-third of the people of the world; and whereas, the

outposts and advance positions of this outlaw band, received and tolerated under the guise of 'diplomatic missions,' in the United States and other countries of the free world are in fact nests of espionage, seditious propaganda and sabotage; therefore, it is the sense of the Senate that the Government of the United States should sever diplomatic relations with the alleged Government of Soviet Russia . . ."

The communists have never made any secret of their plans to conquer the world. These plans are spelled out in details in the writings of Karl Marx and Nikolai Lenin; in Stalin's speeches and more recently, William Z. Foster, National Chairman of the Communist Party in the United States, put in his oar when he said,

"When a communist heads the government of the United States—and that day will come just as surely as the sun rises—the government will not be a capitalistic government but a soviet govern-

ment, and behind this government will stand the red army to enforce the dictatorship of the proletariat."

Roosevelt could not help knowing when he granted recognition that the Russian government had never been known to live up to the terms or spirit of any treaty or agreement it ever made. Therefore, he presumably was not surprised when Russia started in violating every promise made in the recognition agreement almost before the ink was dry on signing this agreement.

Our government has permitted these violations to go unchallenged for more than twenty years, during which time Russian agents have infiltrated practically every department of our government.

Russian spies have stolen the secrets of the atom bomb.

Russian agents have taken over some labor unions and infiltrated many others.

Communists have infiltrated our schools.

Russia has seized and imprisoned American citizens.

The Russian government has refused even to talk about working out a settlement of eleven billion dollars in lend-lease and for more than two years through a puppet government, Russia waged a shooting war against the United States in Korea.

What Russia has done and is doing to the United States on the diplomatic and every other front is known to everyone everywhere. Is it any wonder then that the prestige of the United States government has fallen to zero or below in capitals all over the world?

This situation must be corrected. The time for halfway measures has long since passed. The Jenner-McCarren resolution should be passed. Every American who has the best interests of this country at heart should immediately express his views on Senate Resolution 247 to both of the senators from his state and the congressman from his district.

A fellow was pretty sick and the doctor ordered him to take a long vacation in Arizona. He went there and at the end of two months he died. They brought the corpse back to Los Angeles and his wife and her brother were viewing the remains. She said, "Oh, Joe, doesn't he look nice?" And Joe replied, "He sure does. Those two months in Arizona did him a lot of good."

Then, illustrating the true spirit of brotherhood, there's this story: A man met a boy of 8 who was carrying another boy, 5, on his back. "But how can you carry him?" asked the man, amazed. "He's too heavy, isn't he?" To which the boy of 8 replied: "Oh, he's not too heavy. He's my brother."

Science Gives Much - - But Not Enough

By Thomas E. Murray, Member of the Atomic Energy Commission

AS A MEMBER of the Atomic Energy Commission, I have had the time to ponder about God and the atom, and how society and our individual lives ought to be ordered in this atomic age.

Science has made magnificent contributions to our way of living. The list of its benefactions are endless; and its progress has just begun. Scientists have placed in the hands of men power which beggars even the imagination that fashioned the story of Aladdin's lamp.

YET LIFE AND CULTURE are larger than this expanding universe of science. This is no reflection on science. It is another way of saying: science is for man, not man for science.

Science can give man mastery over matter. It can fail to give man control over himself. Science has its distinctive method; it involves experiment—with tools, machines and chemicals. But you cannot, without a kind of sacrilege, experiment with the souls, lives and honor of men.

HOWEVER USEFUL SCIENCE is to investigate the privacy of tiny chambers called atoms, it is

all but useless to investigate the inner and higher life of men. You cannot examine free will in a test tube. Yet, much of what man does for good or evil springs from this inner life of free choice. Nuclear energy can explode with uncontrollable force. But the occasion for its explosion is controlled by men—either by evil men or by good men.

Science cannot save men from themselves, any more than society can. Rather, it is individual men who must save science, society, and themselves. If men will not live by virtue, they may have to die by power.

ALL THINGS are made by God, and so man's attention must never be focused on science so as to neglect religion and philosophy which bring us to God. Only religion and philosophy can direct our lives according to right reason and charity.

Life and culture need modern science; but they need even more the qualities that make life genial and human. Times come for all of us when we must lift our thoughts not only above the swirl of matter, but even above plant life and animality. Man needs an appreciation of why he lives and loves. He must be brought into contact with an object to live and die for.

The object is found nowhere in science; it is found only in God.

† Paulist Feature Service, Washington 17, D. C.

Science is resourceful. It couldn't pry open a day-coach window, so it air-conditioned the train.

"Specs" Johnson, who thinks it's a real treat to spend an hour or so browsing in a bookshop found his idea of heaven up in Centerville last week.

"Just inside the door," Specs says, "there's a tray of bright blue buttons. If you want to look around without having someone suggest you buy the latest best-selling novel, or maybe a history of Africa, you pin a button on your coat lapel.

"You can poke around all you like. Then when you've found the book you want, take off the but-

ton, and someone's right there to take care of you."

From where I sit, everybody likes to make his own choice. It doesn't matter whether it's books, or preferences in clothing or makes of cars. And it's no surprise that folks have personal preferences in beverages, too. So if your neighbor orders a glass of beer while you're having coffee, remember he's entitled to his choice, too.

My kitchen stays degrees cooler since I started cooking electrically! The reasons: the oven of an electric range is heavily insulated to keep practically all heat inside where it should be. In surface cooking, the heat is in direct contact with the pan and is transferred right to the food. Summertime or any time, electric cooking's wonderful. So economical, too! This Little Piggy Went to Market
...Faster and at Lower Feeding Cost

Feed 'em and watch 'em grow! That's the word on **TEXO** Pig Starter. It's especially designed to give pigs all the nutrients and vitamins so essential to heavier weaning weights; and, in the long run, that means more efficient feed conversion and earlier marketing. Furthermore, **TEXO** Pig Starter fights off disease, because it's fortified with America's most effective antibiotic, aureomycin.

Believe me, we're really enthused about this new **TEXO** product; and, if you'll just stop in the store, we'd like nothing more than to tell you all about it.

Caution Urged in Use of Insecticides

AUSTIN—Walk into practically any home gardening supply store in the state and ask for an organic phosphate insecticide. Chances are the clerk will sell you a bottle or package without fuss or bother.

What's wrong with that? Just that organic phosphates happen to be among the most deadly of chemical compounds, for humans as well as insects.

Last year a Texas rancher accidentally killed 48 cows by spraying them with the potent insecticide. He wanted to kill their insect parasites, and didn't realize the chemical was highly toxic for all warm-blooded animals.

A six-year old Oregon boy found a bottle of TEPP, one of the organic phosphate insecticides, in a field near his home. Workmen presumably had left it after spraying an orchard. The curious lad spilled a cupfull on his pants and was dead in less than 24 hours.

Conscious of the same thing happening in Texas, State Health Officer, Henry A. Holle would like to make it hard for part-time gardeners to buy the compounds.

"Used as chemists intended, organic phosphates are a great help in fighting agricultural pests," says the health official. "Used indiscriminately without protective clothing, they're lethal."

Organic phosphates were developed in Germany after the last war. They are the chemists' answer to demands from agricultural men for a real bug killer to combat hordes of insects which do billions of dollars of damage to crops annually.

In the hands of professionals, trained in precautions to be taken in using them, chances of accidents are slight. But in recent years, bottles and packages have appeared on retail shelves for home gardening use. Since then, incidents of human poisoning have increased.

The three most important types are tetraethylpyrophosphate (TEPP), hexaethyltetraphosphate (HETP), and parathion. All are sold under various trade names.

Most manufacturers spell out in bold black or red letters the fact that the contents are highly hazardous for humans, and recommend wearing respirators, rubber gloves, coveralls, and a rubber cap or hat when using the sprays. But warning labels don't always help.

Dr. Holle thinks legislation regulating sale of organic phosphates for home use would help. But without legislation, he says, it's up to users to read warning labels and believe what they read.

5 YEARS AGO

August 5, 1949

Muenster was fogged with 100 gallons of DDT solution Monday afternoon to eradicate flies, mosquitoes and other insect pests which might carry polio and other hot weather infection. The recent consolidation of Muenster and Valley Creek school districts became official last Wednesday when the newly formed district had a special election on its tax and bond issue; voters took little interest polling only 46 votes for and six against. Coach Hood begins organizing MHS football boys. Miss Ruby Kelly is named to teaching staff at Muenster high. Community Lumber Company schedules formal opening for next Saturday. Cupid hits mark four times this week; exchanging vows are Elfreda Luke and R. N. Fette, Ida Mae Neu and Wilfred Bindel, Mary Jo Williams and Ray Tempel, and Johann Seyler and Lambert Bezner. Frank's Cafe has new owners and a new name this week; Smyrel Owens and Lyndal Dickerson bought the business from Frank Hoedebeck and changed its name to Main Cafe. The Bob Ryles moved to Saint Jo this week. New arrivals this week: a son for the Walter Klements and daughters for the

George Gehrigs, Rufus McElreaths, Joe Voths and Gene Giebs. Surgery patients this week: Eunice Knauf, Mrs. David Trachta and Mrs. August Friske. Muenster firemen and little fire fighter do good work in big prairie blaze that originated on the Hickman ranch.

Increasing Number Of Cattle Dying of Hardware Disease

COLLEGE STATION — Many Texas cattle this year will die from foreign-body penetration commonly called "hardware disease."

Farmers are advised to take care when chopped hay or silage is prepared to be sure pieces of metal are not mixed with the feed. Baling wire is perhaps the most common offender and is often found in the stomachs of animals, says Dr. C. M. Patterson, extension veterinarian.

All loose nails in feed bunks and mangers should be removed or driven in. In no case should animals be allowed in junk piles and scrap heaps where such items are readily found.

If cattle are provided the proper minerals, Dr. Patterson suggests that it will prevent them from licking and chewing posts and other objects.

Actually, hardware disease is not a disease at all. It is merely the ingestion of foreign bodies by cows, resulting in the penetration of these objects into the stomach walls or into other organs such as heart and liver.

Cows, mature animals especially, have a habit of licking and consequently swallowing objects such as nails, pieces of baling wire, glass and other metal objects. These pieces enter the stomach where they are churned about by the stomach walls. Here they become imbedded or even forced through the stomach.

Although symptoms vary from animal to animal, cows that go off-feed, are reluctant to move or move stiffly, exhibit diarrhea and show pain when moved suddenly should be suspected of the "disease."

Dr. Patterson says that in some animals the symptoms may come and go while in others it may become progressively worse. These also are symptoms of other diseases thus making diagnosis difficult.

In a good many cases where symptoms are noticed early, veterinarians may remove the objects by operating and searching for the object on the floor of the stomach.

Education pays—unless you're an educator.

TU Offers Tips on Washed-Air Cooler

AUSTIN—A washed-air cooler works best when enough windows and doors are open to exhaust its breeze properly and when it is in the shade, Associate Professor John R. Watt of the University of Texas asserts. Watt is testing evaporative coolers this summer to determine

their best possible performance. "When washed air flows through an area, it absorbs heat from the ceiling, walls, windows, furnishings and people," Watt explains. "Unless that heat is carried out of the area, it just makes things seem hotter and clammy because of increased humidity." Place an evaporative unit where prevailing breezes strike it if possible but keep it out of direct sunlight, Watt advises.

Dairy Situation Requires Culling

COLLEGE STATION — Improved production efficiency by heavier culling of cows producing milk at little or no profit will help dairymen through the present tough cost-price situation, says R. E. Burleson, extension dairy husbandman.

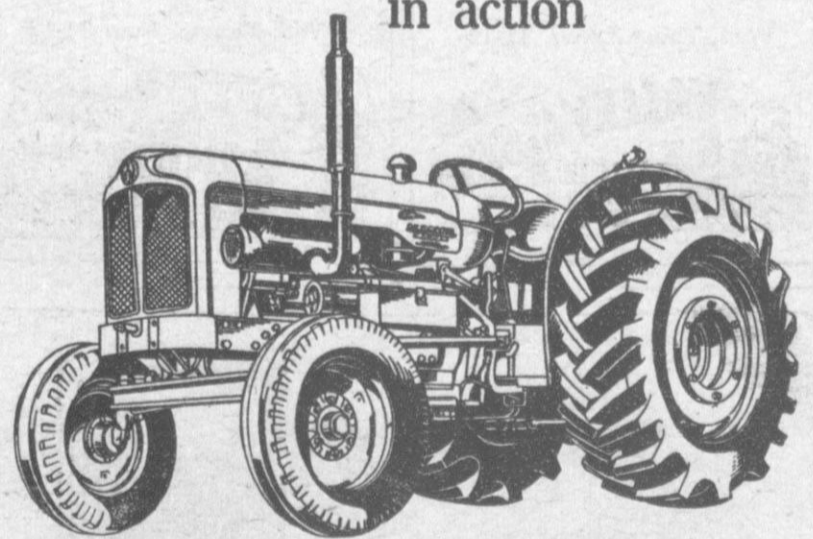

To be efficient, says the specialist, a dairy herd must be large enough to make good use of equipment, barn space, and labor and consist of cows that pay their way. A dairyman is better off without a cow that doesn't pay her keep even if a better replacement can't be had notwithstanding that total income will be less from the reduced herd.

Culling has slackened in recent years and cows have been kept in milking herds which might ordinarily have been culled. Many of them, because of the present cost-price situation, are not paying their way.

Burleson says there is no magic formula for culling but records are mighty important. To keep or not to keep is a decision which the dairyman must make and it pertains to every cow in the herd. Three questions are posed by the specialist and the answers involve an analysis of receipts and expenses. They are will it pay to remove cow X in favor of a higher producer; will it pay to remove cow X without replacing her and if cow X is removed, when is the best time? The feed supply, labor force, barn space and other particular circumstances on the individual farm should also be considered in a final decision. Aged cows, hard milkers, and slow breeders should be considered for culling says Burleson.

Since late 1952, milk supplies have been in excess of demand and in order to balance the two, production must be cut or consumption raised or as Burleson puts it, some of both. Lower prices should encourage consumption, however, they also call for more efficient production and culling, adds Burleson.

Lindsay News

Mrs. George Spaeth took her granddaughters, Dianne Felderhoff and Cheryl Reiter of Muenster and Ancilla Knepper of Gainesville, all four years old, with her to Norman, Okla., Saturday to spend through Monday visiting her sister, Mrs. Henry Strategier. They made the trip on the train both ways and it was exciting for the little girls who were riding a train for the first time.

Joan Friske enjoyed a surprise Thursday evening when four of her friends from Wichita Falls visited her at her home. The guests were Betty Russell, Jimmy Byman, Barbara Jean Fontana and Arthur Littiken. The three girls were classmates at AMI Academy in Wichita Falls during the past term.

Sister Frances, O.S.B., of Fort Smith, Ark., arrived Tuesday evening for a week's visit with her sisters, Mrs. J. C. Schmidtkofer and Mrs. Henry Stoffels here and with members of the Dankesreiter family at Muenster. From here she will go to Electra to visit another sister, Mrs. Barbara Potts and then to Slaton to see other relatives.

GOING UP FOR BRITAIN—Britain's latest jet, the Canberra PR-7, shoots for even higher altitudes as it reaches 30,000 feet during recent tests. A photo-reconnaissance ship, it is powered by two Rolls-Royce Avon engines, and has reached at least 40,000 feet. First production model of the craft, it was flown at least 300 hours in 25 days with only routine inspection and service, and stood up so well that an additional 100 hours was added before major take-down and inspection occurred.

RETURN FROM CANADA

Mr. and Mrs. Fred Luebbert and her brother, Frank Dudenhoeffer of Grandfield, Okla., have returned from a four-week trip that took them through Colorado, Wyoming and Montana and into Alberta, Canada, where they visited their brother Dan Dudenhoeffer and family who Mrs. Luebbert hadn't seen in 40 years. They live close to Calgary and while they were there they were visitors at the Annual Stampede in that city and were guests of the Val Fuhrmann family. Mr. Fuhrmann is a brother of Henry Fuhrmann of Muenster and Adolph Fuhrmann of Lindsay. Coming back they went through North and South Dakota and stopped in Saint Louis to visit relatives.

of their communities, are selected by committees in charge and their names and qualifications are presented to members of the Farm Bureau who cast their votes by mail to the county home demonstration agent.

Two other candidates have been named by their communities—Miss Joyce Hoberer of Era and Miss Janice Huneycutt of Callisburg.

Miss Hoberer, 16, is a junior at Sacred Heart High school in Muenster. She has light brown hair, blue eyes, and is five feet two inches tall. She is the daughter of Mr. and Mrs. John P. Hoberer of Era and has been a 4-H club member for five years and member of the pep squad for the Tigers since a freshman in high school.

Miss Huneycutt, 18, is a 1954 graduate of Gainesville High and will attend East Texas State College in Commerce this fall. She is an ash blond, five feet six inches tall, has blue eyes and fair complexion.

Gainesville College Sets September 1 For Opening Date

Dean J. H. Parker of Gainesville College announces the opening date of the 1954-1955 session as September 1 for the thirty-first annual session. The college is a municipal one, serving Cooke County and adjoining counties.

GC is affiliated with the American Association of Junior Colleges, the Texas Association of Junior Colleges, and the Texas Association of Colleges, with recognition by the Texas Education Agency as a two-year college of First Class. Through careful guidance and coordination with the four-year colleges to which she sends students, as well as through these affiliations, her students have been able to continue their studies beyond the two-year college level with no loss of credit.

Serving her pupils through a basic curricula of arts, sciences, pre-medical, pre-teaching, pre-business administration, pre-engineering, pre-music, and terminal courses, Gainesville numbers among her students three major types—full time, regular students working toward any of the above courses, a still considerable group of World War II, and Korean veterans, who do either full-time work or night classes, and adult students, continuing study in night classes or part time day work.

Gainesville College is doing her work on a campus of some twenty-five acres with six buildings, two of which house the business offices, library, student recreation room, and some classrooms. At present, Dean Parker is working with a committee re-writing for teaching this fall the courses aimed to meet elementary and secondary majors as well as pure arts and science majors.

Scholarships are available through the Mary Josephine Cox Foundation, and student services are being appreciably enlarged during the coming session through the addition of members of the coaching staff and organizational sponsors.

people completely and will leave lots more with a very low tax bill. The average person, if he'll take the time for a little figuring, will discover that the proposal is quite a bargain to him.

These and other factors all merit a lot of thought. Surely a proposal as important as the road tax should not be dismissed as lightly as this was. It is entitled to another chance, whether it passes or fails.

City Improvement -

be the larger one. In that case the one pump, supplemented by gravity flow from North Main could not maintain adequate pressure through heavy usage. The change would assure adequate pressure and also an adequate supply for a considerable gain in population.

The sewer problem is that it was built for a population of 1200 and the disposal plant is overloaded at times. It will need to be enlarged soon to keep up with city growth. At the same time extensions are needed to keep up with building progress.

Street improvement includes pavement that is contemplated as a result of operating under the regulations that apply to towns of 1000 or more. If the majority on a street wish the pavement the city has power to complete the job and charge a property owner's share against the property. Some such projects are expected to develop and require the city to do some pavement financing.

Estimated cost of the swimming pool will depend on specifications which remain to be decided.

The councilmen are confident that a bond issue to finance the proposed improvements can be retired without an increase in local taxes. After the projects are complete operating expenses will be reduced so much that the city can put aside money regularly from its current revenue and keep up easily with its schedule of payments.
