## Group Backs Plan To Make Bid for Local Industries

We've got to hand it to the two major veterans organizations for their fine efforts at increasing a patriotic spirit in this fair land. Through the years they have been out in front with lots of good ideas, and this year each has done particularly well with its own patriotic project.

Remember the VFW promotion of Loyalty Day, which is observed on May 1? The object is to put on a nation wide display of loyalty that more than counteracts the ugly spectacle of disloyalty by communists in their May Day demonstrations. They're already far ahead of the reds, and getting better every year . . . and needless to say, the effect of the red show is fizzling accordingly.

The American Legion likewise merits nation wide appreciation for its efforts in promoting a bigger and better Flag Day. Come June 14, the country will see Old Glory on display more than ever before in history. That movement, like the other, is gaining momentum and promises an ever increasing display of the Stars and Stripes on Flag Days of the future.

The project has not been pushed around here, probably because we have no American Legion post to make the rounds urging people. But actually the idea is so good that it should not need urging. So why not get in on the act even though we've had no special invitation? It would make a beautiful and inspiring sight if every American flag in the community were put on display next Monday. If you happen to have one, even though it is moth-eaten, wrinkled or soiled, remember, it's still Old Glory. Get it out and let it proudly proclaim your devotion to the country and ideals it represents.

And if, very appropriately, you should feel inspired to pledge allegiance to the flag, don't fail to include the two recently added words of homage to Almighty God. As revised the Pledge now reads: "I pledge allegiance to the flag of the United States of America and to the Republic for which it stands; one nation, UNDER GOD, indivisible, with liberty and justice for all."

For those who are interested in knowing, this change has been unanimously approved by the U S Senate on a resolution sponsored by Homer Ferguson of Michigan. It was introduced into the House of Representatives by Rep. Louis Rabaut of Michigan who is also the author of another bill authorizing the Post Office Department to use a postal stamp cancellation mark with the slogan "Pray for Peace."

There's encouragement in the fact that, little by little, this country is getting around to more frequent expression of its awareness of dependence on God. That's most gratifying. Now we hope to see that spirit carried over to international relations, especially in the U.N. When that organization started we agreed to snub God rather than offend the communists. Maybe the right people will realize soon that it's better to snub the reds rather than offend God.

All of us have heard it said that communists are determined to take over the world, but it isn't often that we get a detailed plan of action. Such a document is discussed in Congressman Frank Icard's report from Congress this week. From here on the column quotes Icard's article:

"One of the most interesting things that has come to light recently dealing with what the Communists intend to do in the world is the message that was sent last year by Mao Tse-Tung, Ruler of Communist China, to the heads of the Russian Government in Moscow. This message, according to the information that is available to us, was carried to Russia by Chou En-Lai, the man who is now representing Communist China at the Geneva Conference. This message or letter was an outline for the world revolution of Communism.

"In this message Mao Tse-Tung said that the time had come when the Communists must look upon Asia as their immediate goal for conquest. His reason for this conclusion was that there was a better chance for revolution in Asia and that the time for collapse in Europe was not yet at

Efforts to secure industrial pay-rolls for Muenster got under way Wednesday night when about 30 business people of the city got together for a pow-wow in the city hall.

The meeting developed from recent reports that there is a possibility of interesting a manufacturer of ladies wear to locate a small factory here.

Whether or not that possibility materializes the group agreed that it would be wise to start working on the various factors that might induce an industry to consider Muenster favorably. Their opinion was to present the community's present merits and potentials and make all feasible improvements while keeping alert to any opportunity that might come along.

The first step suggested is that already approved by the city council . . . to take a census along with a survey that will show various kinds of data pertaining to the city and community. From such information a prospect can form a definite opinion of his possibilities of succeeding here.

Another suggestion was to continue trying to make the town a more pleasant place to live in by working on civic improvements and recreational facilities.

## Benefits of Rain More Than Offset Delay in Harvest

The community has had more wonderful weather this week . . . featuring a fine rain which put the ground in excellent shape for growing crops and caused little if any damage to the season's exceptionally good harvest.

Combining has been delayed, but in general the break amounted only to a couple of days of letup from the harvesting grind and practically no crop deterioration. Ideal drying weather after the rain permitted machines south of town to get back into the field early Wednesday afternoon, and work was due to start in other areas on Thursday.

In Muenster the moisture measured 1.8, according to Steve Moster's weather bureau gauge. Reports south varied from 1 to 1.5, and north and west some reached as high as 3 inches.

Emmitt Yoder of the SCS work unit says the soil condition is the best in many months. Finally, he points out, the moisture is down where the deep roots of legumes can get some benefit from it.

The official rain record here shows a total of 2.59 inches so far for the month of June, following 5.14 for May. Those two figures add to considerably more than the community has had in the preceding four months. Total moisture through April was 5.81 inches.

## NEWS OF SICK AND INJURED

Mrs. Mike Kleiss was dismissed from St. Paul's Hospital in Dallas Saturday and is convalescing nicely at her home where she is up and around a part of each day. She was hospitalized a week for observation and treatment. Her daughter, Sister Aloysia, stayed with her at the hospital and left Saturday to return to Jonesboro, Ark.

Harriet Otto has had the cast removed from her left leg, broken the latter part of April, and walked to town with the help of crutches Tuesday. She says many thanks to everyone who has remembered her with get-well wishes and other kindnesses since her accident.

J. F. Brown was dismissed from Gainesville Sanitarium Saturday and is convalescing at his home, 1003 Witherspoon Street in Gainesville.

The Johnny Strengs and children spent the weekend in Temple with his uncle, Sylvester Streng.

## New Wheat Program Announced by ASC

Farmers on land on which no wheat was seeded for grain for all of the years 1952, 1953 and 1954 may apply for a 1955 wheat acreage allotment, according to G. L. Campbell, Chairman of the Cooke County Agricultural Stabilization and Conservation Committee.

To be considered for an allotment on a farm which had no wheat seeded for grain for any of those years, the farmer must apply in writing to his county ASC committee by June 30, 1954.

Blank application forms are available at the county ASC office for use in filing requests for allotments.

## Local Schoolboys Wallop Sanger 5-1 In League Opener

More success in getting hits at the right time was the big factor in the 5 to 1 defeat inflicted on Sanger by the Muenster lads in the opener of the Summer Baseball League here Sunday afternoon.

The boys outperformed their visitors only 5 to 3 in the number of hits but they delivered when it counted whereas two of the Sanger singles died on base. Dickie Cain took the lead in that department, pushing in 3 runs with a double and a single. Others who banged out safeties were Gilbert Knabe, Henscheid and Hess.

Munday banged a homer over the left fence to account for Sanger's only tally.

Alvin Fleitman, handling the local pitching assignment held a close check on Sanger all the way through.

The win puts Muenster in a tie for the lead with Gainesville and the winner of the Krum-Justin game. The Little Hooters lambasted Pilot Point for a humiliating 19-0 decision, but the result of the other league contest has not been reported here to date.

## City Council OKs Census and Survey

A combined census and survey in the city is due to be under way here in the near future. Members of the city council at their meeting Monday night approved a proposal to take an official count of the population and at the same time gather information pertaining to the local labor potential and the city's expenditures for dental care.

The census and labor potential is desired as data which might be helpful in getting an industry for Muenster. In case someone is interested the council wishes to quote definite figures on the size of the town and the number of men and women workers. The council would also like to have figures as official evidence of the city's growth. The official US census taken in 1950 shows a population of 900. Since then, it is believed, the figure has increased to 1,000 or more.

Data on dental bills is wanted in connection with the city's water fluoridation plans. The city wants to be able later to make a fairly accurate estimate on its improvements in dental health.

Possibly one or two additional surveys may be made in connection with the census. Mayor Urban Endres said that by the time the count gets under way several questions may be added.

## Wheat Reports at Mid-Harvest Time Top Early Estimate

With the community harvest practically half finished it now becomes apparent that early estimates of 15 to 20 bushels of wheat per acre were too conservative and the average is likely to be over 20.

Oats, however, seems to be both good and bad. Fall oats, which was too far along to be helped by last month's rain, is generally reported to be lagging along at about 20 bushels per acre. Spring oats looks good, but it isn't being harvested yet and no reports are available.

On a community wide basis the yields seem to bear out predictions of a few weeks ago. Grain this year is better than average but not as good as last year's bumper crop.

The best report so far is that of O. G. Reed from a 4-acre field five miles west of town. He harvested just over 200 bushels of wheat . . . and he claims his acres were measured by Uncle Sam's ASC boys.

Joe Fleitman says one of his fields made 33. Al Trubenbach averaged 25 on his 100 acre crop. And Arthur Felderhoff says he does not remember any of his customers reporting less than 20. He also said that the test is holding up well, most of it being over 60.

Moisture tests have been mostly under 13 per cent qualifying the grain for storage under the government's crop loan program.

At first some farmers did not bother with storing their grain. The 3 cent price advantage was not enough inducement to put up with the red tape. But the market has dropped since to 1.90 leaving a 13 cent spread between the market and the loan figure. Now all wheat is going into storage, unless it is too moist or the owner hasn't the allotments to qualify for the program.

## City Council Renews Firemen's Insurance

Renewal of the insurance policy for the Muenster volunteer firemen was approved Monday night at the regular monthly session of the city council.

Under provisions of the policy all members of volunteer firemen's organization are covered by hospitalization, compensation and death benefits in case of injury or death occurring in line of duty. Hospitalization is limited to a total bill of \$1,000, compensation is limited to two years and the death benefit payment is \$2,000.

Mayor Endres pointed out that the insurance coverage applies only to the firemen. Others who help at a fire do so at their own risk.

## Mollenkopf's Car Damaged by Fire

All the interior and parts of the motor of George Mollenkopf's 1952 Lincoln sedan were destroyed early Friday morning by a fire which apparently originated under the dash board of the car.

Fortunately the fire caused a short in the horn wires and started a constant honking which aroused the family in time to save the garage and house.

When firemen arrived on the job, about 2:30 a.m., Mr. Mollenkopf and his son, James, had pushed the blazing car out of the garage, but flames had already caught on the garage walls. The firemen got all the fire under control in a few minutes.

## National Guard and VFW Lick Muenster In Softball League

Gainesville VFW batters and base runners made the most of every opportunity Wednesday night to mark up 6 runs while hot shot hurler Sid Felker held the Muenster boys scoreless, and practically helpless for the full stretch.

The defeat bumps Muenster to the lower bracket in Cooke County Softball League standing with one win and two losses. Bezner Chicks are still leading the loop with three victories out of three.

A few walks and errors combined with some 8 or 10 hits accounted for the VFW tallies. Muenster's three hits were scattered and died on base.

Another defeat for the local boys was that of last Friday night when the Gainesville National Guard put on a seventh inning rally for three runs and the 6 to 5 decision.

Reynold Reiter pitched both of the games for Muenster.

Next games on schedule for the local boys are with Bezner Friday, TP&L Sunday and Schlumberger the following Thursday. Reports at this time are that the official league diamond on the VFW grounds at Gainesville will be ready by Friday, hence all of Muenster's future games are to be played there.

A non-league game is that with Bowie, to be played here next Tuesday night.

## Post Office Hikes Rates on Box Rent

Effective July 1, post office box rental rates at Muenster will be increased to comply with both the official rate schedule of the post office department and the local classification based on annual receipts.

As explained by Postmaster Arthur Endres, the present increase is the second of a double jump which was applicable a year ago but was not put into effect because of an official ruling against making a double increase in rental rates.

Last year the post office department made its first increase in basic rates since 1907. In accordance with that directive quarterly rates here were raised as follows:

- 45c boxes raised to 65c
- 60c boxes raised to 90c
- 75c boxes raised to \$1.10

At the same time boxes were subject to another increase which is determined by the local office's receipts bracket. In 1952 receipts here exceeded \$10,000, advancing the office from the former \$5,000 to \$10,000 bracket to its present bracket of \$10,000 to \$40,000. The increase due to the higher bracket normally would have been made July 1, 1953 but it was dropped then because of the regulation against a double increase. Now, however, the higher rate applying to the higher receipts bracket becomes effective.

The new quarterly rental rates effective on July 1 are as follows: Present 65c boxes to be 90c Present 90c boxes to be \$1.10 Present \$1.10 boxes to be \$1.50 That appears to be the last increase here for a long time, Endres said. Since previous basic rates were in effect for 46 years the next increase should not be expected soon. Likewise the local post office is not expected to grow out of the \$10,000 to \$40,000 receipts bracket in the near future.

## Pouring Gasoline On Fire Is Fatal to Douglas Fleitman

Burns received when flaming gasoline splashed on his clothing were fatal to Douglas Doyle Fleitman, 8, son of Mr. and Mrs. Albert Fleitman. He died at 3:30 Saturday in a Gainesville hospital twenty four hours after receiving the injury at the family's home northwest of Muenster.

Douglas and his two brothers, Roger and Glenn, were killing bugs which they had gathered from potato plants. They poured gasoline on the ground, lit it and dumped on the can of bugs. Not satisfied with the fire Douglas poured on more gasoline and the flame jumped to the gas can. In getting rid of the can he threw it against a strong breeze and some of the flaming liquid splashed back on his clothing.

Screaming and running in panic the boy attracted his mother's attention. She met him outside and rolled him on the ground until the flames were smothered. By that time most of his clothing was gone and about eighty per cent of his body was covered with burns.

He was rushed to the Muenster Clinic for emergency treatment then transferred to the Gainesville hospital.

Funeral services were held at 2:30 Monday at Shiloh Baptist Church with Rev. Roy Cooke of Saint Jo and Rev. Lee Morris of Bulcher officiating. Burial followed in the Shiloh cemetery under direction of George J. Carroll & Son Funeral Home.

Bearers were five of the boy's schoolmates; Clarence Hudspeth, Dick Embry, Dolphy Joe Hellman, Jimmy Ray Cain and Billy Owens, and a cousin, Larry Foster of Fort Worth.

Douglas, born on August 4, 1945, was a pupil at the Muenster elementary school, being promoted to the fourth grade at the end of the past school year.

Survivors are his parents, two brothers, Roger and Glenn, and his maternal grandparents, Mr. and Mrs. M. S. Thetford of Big Spring.

## OUT OF TOWN RELATIVES AT FLEITMAN FUNERAL

Among out of town relatives and friends attending Douglas Fleitman's funeral Monday afternoon were the grandparents, Mr. and Mrs. M. S. Thetford, and the J. C. Elders and family all of Big Spring, the E. D. Thetfords of Odessa, the M. A. Thetford family of Seminole, the J. E. Thetfords and the Bud Rodens and family of Cleburne, Messrs. and Mmes. To qualify for a full curb-to-curb width for Highway 82 through the city, members of the city council decided at their meeting Monday night to encourage early installation of curbs at both sides of the street from the Main Street intersection to the city limits.

Mayor Endres explained that the highway department will build the full width pavement if property owners will put in the curbs. ### Two Share Honors Sunday at Reunion Of Pels Families

A reunion that brought members of the Pels families together for the first time in several years was held Sunday at the Henry Pels home. The event honored their daughter, Sister Imelda of Jonesboro, Ark., on her silver anniversary as a nun, and Mr. Pels' sister, Sister Eleanore of Our Lady of the Lake Convent on her golden jubilee.

Dinner was served at noon, and during the afternoon home movies and slides were shown, and flash pictures and movies were taken. At five p.m. a plate supper was served.

Present for the occasion were the parents of Sister Imelda and all six of her brothers and sisters, and 19 nieces and nephews. Coming from Denver, Colo., was a sister and her family Mr. and Mrs. Henry Weske and children Edmund and Arlene, and from Tennessee, a brother, Al C. Curley

Pels of Sewart AFB. Those living in Muenster are Ed Pels, Mrs. Lawrence Martin, Mrs. Joe Knauf and Mrs. Paul Walterscheid who were present with their families.

Also present were five brothers and sisters of Sister Eleanore. They are Mrs. Harold Kolsa of Los Angeles, Calif., Mrs. Henry Walterscheid of Muenster, Joe Pels of Madison, Minn., Mr and Mrs. Bill Pels of Pilot Point, and the hosts. Unable to attend but sending telephone congratulations was the John Pels family of Carroll, Iowa. Also present were Mr. and Mrs. Bill Pels of Pilot Point. She is Sister Eleanore's niece.

Decorations throughout the home carried out the gold and silver theme honoring the two jubilarians. The refreshment table held two three-tiered cakes, one with an accent on silver, the other on gold, and topped with miniature sister dolls dressed in robes in the order of the honorees. Arrangements of gladioli were at vantage points throughout the house.

### Fred Hoedebecks Complimented on 54th Anniversary

Mr. and Mrs. Fred Hoedebeck celebrated their 54th wedding anniversary Sunday in their home with an all-day reunion for which more than fifty family members were present. The event was a surprise arranged by their children and grandchildren who brought gifts for the honorees and covered dishes for the noon meal.

Mr. Hoedebeck is 79 years old and his wife is 73. She was observing her birthday Sunday.

Both Mr. and Mrs. Hoedebeck are natives of Illinois. He was born in Teutopolis on March 20, 1875, a son of pioneer residents of that area. Mrs. Hoedebeck, the former Miss Anna Schumacher, was born in Lilyville, four miles from Teutopolis, on June 6, 1881.

They were married on June 5, 1900, in Teutopolis and moved to Texas in 1909 settling in Muenster on a farm two miles south of town. In 1930 they moved to Tishomingo, Okla., where they farmed for ten years. For the next five years they farmed at Denison. Returning to Muenster in 1945 they continued farming until they retired two years ago. Both enjoy good health and are active in church work and community affairs.

Twelve of eighteen children born to Mr. and Mrs. Hoedebeck are living, and they have 41 grandchildren and eight great-grandchildren. During world war II five of their sons were in the armed forces at the same time, four of them overseas.

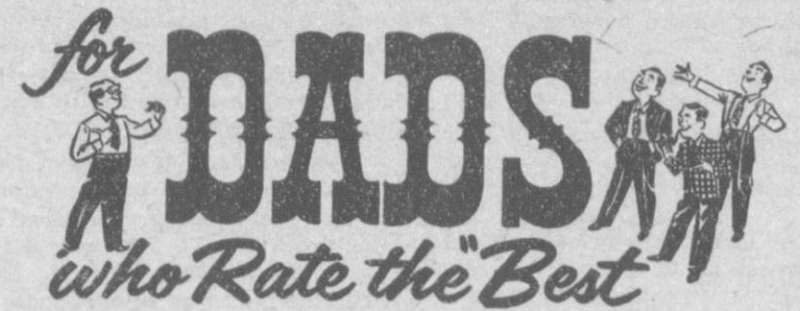

The children are: Mrs. Clem Reiter, Frank, Eugene and Norbert Hoedebeck of Muenster, Leo Hoedebeck of Gainesville, Ray

and Alfred Hoedebeck of Denison, Mrs. J. M. Howell of Ennis, Joe Hoedebeck of San Diego, Calif., Cletus Hoedebeck of Dallas, Bob Hoedebeck of Ada, Okla., and Rev. Paul Hoedebeck of Subiaco, Ark.

## The American Way

### OVERWHELMING SUPERIORITY

By George Peck

What the citizens of different nations have been able to accumulate by and for themselves and to store away against a rainy day, is a mighty good barometer of their comparative standards of living. At the outbreak of World War II, here is how Uncle Sam's nephews and nieces stood on life insurance holdings in comparison with the peoples of the leading totalitarian countries of that time. Life insurance per capita was as follows:

United States	\$841
Germany	105
Japan	77
Italy	37
Russia—Only government insurance	

As to deposits in savings banks per capita, at the start of World War II, the United States was also very far in the lead, as the following statistics demonstrate:

United States	\$578
Germany	114
Japan	37
Italy	62
Russia—No figures available	

Another indication of America's overwhelming superiority is that the average American regards so many things as commonplace that the peoples of Fascist and Communist countries consider luxuries, because in these latter nations they are only available to the very wealthy. For example, millions of American working-men own automobiles, a thing unheard of in totalitarian countries. At the outbreak of World War II, for every 1 million population, there were the following automobile owners:

United States	226,068
Germany	24,800
Italy	11,328
Japan	2,582

For Russia, even then behind the Iron Curtain, no figures were available, but it is common knowledge that workers in the Soviet Union, now as then, do not own automobiles. Only a few of the top Russian bureaucrats possess a car which the average American considers part and parcel of his way of life.

One could go on and on comparing ownership of refrigerators, vacuum cleaners, radio sets, television sets, in fact, with practically all of the semi-luxuries and luxuries. The fact is that we Americans possess so many more

## The Family That Prays Together Stays Together

By Clare Boothe Luce, Ambassador to Italy

IF PRAYER IS "the sword of the saints," it is also the anchor of the family. All love between human beings — husband and wife, parent and child, brother and sister—is a process of growing and grafting. Each person in a family has his own roots in self and soul. But, in time, the nerves, mind, heart and spirit of each member mingle and intertwine with those of the others. In the end, the family seems to be one great plant.

SOME TIMES DIVERGENT interests and loyalties loosen these intertwining selves. Jealousies and hatreds rip one grafted heart from the rest. Or, divorce tears the whole growth apart and up-roots each member from one another. Nasty wounds are left. Seldom do the scars heal.

Each member in the thousands of broken American homes suffers the pains of domestic lesions for a lifetime. And there are not enough good doctors and psychiatrists to repair or patch up the

mental and physical wreckage of the shattered home. SELDOM IS THERE a lasting cure for the spiritual distress that follows when grafted hearts are torn loose from one another in anger, in selfishness, in pride, in folly, in whim or in sin.

Most of these miserable home-wreckers were never told one simple yet sublime truth: "The family that prays together stays together." God has instituted the cure to prevent the ripping away of heart from heart and flesh from flesh that follows the family crack-up. God's cure is family prayer.

THE FAMILY THAT PRAYS together will never be down-hearted. Not that prayer will spare a family all pain and suffering. That is the lot of man.

But a praying family will be prepared to meet all the unavoidable troubles that come their way. And it will be spared the worst trials of all: those that members inflict on one another.

HUSBAND AND WIFE, parent and child, should never forget that it takes three to stay in love — oneself, the other, and God.

Those who love one another stay in God's love by prayer. And God's answer to their prayer is to keep them always in love.

## ALL-OUT WAR IS BEING WAGED ON PRINTED FILTH

WASHINGTON — The Chairman of the Senate Juvenile Delinquency subcommittee reports that scores of letters have arrived at his office since hearings began on the impact of horror comic strips on young people. Even news dealers have sent letters of complaint against the horror comic books which jam U. S. newsstands.

In Stanley, Wisconsin Thomas A. Gisvold, the owner of the Gisvold Rexall Drug Stores, declared that in the eyes of the public "the drug store is becoming the purveyor of filth." He bemoaned the fact that druggists in Minneapolis had to appeal to the Governor for help in action against magazine distributors who force this filth

upon those who will not sell it.

Mr. Gisvold continued, "The sale of all filth in drug stores should be stopped now, voluntarily or by law, but our organizations should be in back of such a movement so that we who do not want such junk have a 'strong arm' to use when the same is used against us."

In Worcester, Massachusetts, former Communist leader Dr. Bella Dodd told 3500 women at the fourth annual congress of the League of Catholic Women that 85% of the comic books printed in the United States are financed by Communist interests. "The Communists want children to read what is gruesome," she charged, adding that the Communists prefer minds attuned to violence and evil.

THE ATOM CAN AID AMERICA LOUISVILLE, Ky.—Thomas E. Murray, a member of the Atomic Energy Commission, reminded the graduating class of Bellarmine College that there is nothing essentially evil in the atom, that God's creation is good, and it is "silly to charge the scientist with

guilt for having opened these doors of discovery.

"There is no reason in the nature of things," he said, "why the atom may not aid in finding peace and improving man's terrestrial condition, facilitating the life of virtue and grace and bettering man's environment."

## Wise Stepmother

Have you heard about young Skeeter Roberts' unusual pet, the tame owl "Blinky"? He's had her about three years.

I say "her" because up to a couple of weeks ago nobody was quite sure. But now "Blinky's" a mother—of two chicks!

Seems "Blinky" had been acting kind of strange—so on a hunch, Skeeter put a couple of hen's eggs in her nest. Darn if "Blinky" didn't set on them for 5 days! Last Friday they hatched, and now "Blinky's" as proud as a mother hen! (So's Skeeter.)

From where I sit, there's a lesson for all of us. Guess you'd call it "tolerance." Birds and animals often seem to do better in that respect than humans. If I like a glass of temperate beer with supper and you'd rather have cider—it should be okay with both of us. Neither of us should give a "hoot" what the other fellow likes, says, or does, as long as he follows the law of the land. Right?

Mr. and Mrs. Guy Giles of Wichita Falls visited her sister and husband, the August Hymans, Tuesday.

Jane Norman of Caps Corner spent the week as the guest of Linda Ann Dennis.

Mr. and Mrs. Charles Dickerman and children of Fort Worth spent the weekend with her parents, Mr. and Mrs. J. M. Shields.

Cleta Sue Cannon was in Dallas for a weekend visit with Twila McCoy and attended the annual North Texas Conference at the First Methodist church in Dallas.

Mr. and Mrs. C. V. Crabtree and Charles left Saturday on a two week vacation, most of which will be spent in West Virginia.

Most of the residents of this community attended the funeral of Douglas Fleitman Monday afternoon at Shiloh Baptist church.

E. M. Crabtree of Las Vegas, Nev., was a recent guest in the home of his brother, C. V. Crabtree. Other guests at the same time were Mrs. Crabtree's brother and wife, Mr. and Mrs. C. W. Leaf of Oklahoma City.

The Calip Cannons made a business trip to Dallas Monday.

Wind and rain Monday night sent most families of this community to their cellars. Kewanee Oil company's garages were blown from their foundations and torn up but cars and trucks were left standing undamaged. Trees were blown down and limbs fell across electric power lines, putting several homes in darkness and left them without current until repairs were made. There were no reports of injury to persons or livestock.

**Ma & Pa Kettle at Home**

To live in the presence of great truths and eternal laws—that is what keeps a man patient when the world ignores him, and calm and unspooled when the world praises him.

**Soil Conservation Notes**

Weedy pastures and waterways in the Muenster area are getting clipped.

These weeds are in direct competition with the grasses for light, moisture, and nutrients, the three things which make plant growth possible. Plant physiologists have found through experiments and tests that some weeds require 10 or more times as much water to produce one pound of plant dry matter as does grass. The weeds rob the grass of moisture and sunlight by shading them so they become silent robbers of pastures.

Throughout their life, the weeds, like the grasses, continue to produce energy in the form of plant food. Only a small part of this energy is used for its own growth. Any food that the plant doesn't need to use right away is stored in the seed, roots, stems, or other parts for future use. The stored materials, which the plant has built up with the aid of energy from sunlight and simple substances from the soil and air is what is taken away that might have been used by the grasses. This part that is taken away from the grasses is in turn taken away from the cow—from the farmer—from his profit, by these silent robbers of the pastures.

Cooperators of the Upper Elm-Red Soil Conservation District are mowing waterways and pastures to control weeds and promote increased growth and vigor of their grasses.

Meinrad Hesse has mowed 40 acres of his pasture to control the weeds and Tony Klement has

mowed 15 acres of his pasture. Frank Needham has mowed 2 waterways on his farm to control the weeds on 12 acres of sodded Bermuda grass. Alfonse Koesler has mowed his Bermuda grass waterway for weed control.

J. B. Schmitz has mowed his K. R. waterway, that was sown this spring. He has a good stand of grass. Bill Lutkenhaus has mowed his K. R. waterway to control the weeds. Ollie Trubebach has mowed his K. R. waterway to promote better growth of his grass and Leo Mosman of Myra is grazing his Bermuda grass waterway by using an electric fence to keep the stock on the waterway and out of his fields.

J. W. Fleitman has planted 8 acres of Blue Panic grass that he will use for soil improvement, and supplemental pasture to take part of the load off his pastures.

Blue Panic is an introduced tall growing grass. It comes up year after year from the old root stock. It is a very drought-resistant grass and is being used to replace sudan in many fields. It produces more forage than sudan and will last several years without the expense of replanting. Personnel of the local Soil Conservation Service aided in the seeding of the grass on the J. W. Fleitman farm.

**Use More Milk Is Dairy Month Slogan**  
COLLEGE STATION—"How about another glass of milk, Mom. June is Dairy Month."

Ten thousand dairy herds furnish Grade A milk for Texans, both young and old, and dairying adds \$200,000,000 annually to the state's farm income.

Dairy month coincides with the period of highest milk produc-

tion and surpluses are causing problems for producers. If consumers would step up their purchases of milk and other dairy products, these surpluses would soon disappear, says R. E. Burleson, extension dairy husbandman.

The extra milk is being made into ice cream, cheese, butter and evaporated, condensed and powdered milk. Dairy products are hailed as nature's most perfect food.

Burleson says milk production is several billion pounds above the national average, but consumption per capita is down about 17 percent. From a dairyman's

standpoint, this accentuates the importance of efficient marketing.

This month everyone is urged to "have an extra glass" and to eat more ice cream, cheese and other wholesome products from the dairy farm.

Dairy products help build stronger Texans!

"How would you like your egg served, sir?"

"Is there any difference in price?"

"None whatever, sir."

"Then serve it on a thick slice of ham."

### St. Anne's Society Names Delegates And Plans Social

Meeting Sunday afternoon members of Saint Anne's Society elected delegates to represent the organization at the state convention in Nazareth next month and arranged plans for a joint social with members of St. Joseph's Society.

Convention delegates are Mrs. J. W. Hess and Mrs. R. R. Endres. The 55th annual convention will be held July 19-21. Date for the social is July 25 on the eve of the feast of St. Anne, patron of the society. The affair will feature a covered dish supper after the evening mass.

Other business included the treasurer's report by Mrs. Lena Streng and a fiscal year report, June to June, on society activity.

#### ANNUAL REPORT

The report read by Mrs. Streng revealed present membership is 180. Reception was held for 28

new members and breakfast was served to 75 members this year. Members assisted in the parish clothing drive for Korean relief in which 2600 pounds was collected and shipped to Korea and 600 pounds to Dallas missions.

The society sponsored a drive for funds for the Sisters' mangel and a subscription drive for the Texas Catholic, prepared and served the meal on the day of Father Joseph Weinzapfel's first mass, sent quilts to missions, contributed \$5 to the Red Cross, had a mass read once a month for the boys in service and took care of laundering church altar linens.

#### NCCW MEETING

Mrs. Paul Fisher, local president of NCCW, announced that the quarterly deanery meeting in August will be held here and tentative arrangements were outlined. Mrs. Joe Fisher, Sr., deanery chairman of war relief for NCCW, spoke briefly on food parcels being solicited for Korean relief and members voted to purchase two \$5 parcels.

#### STUDY CLUB ACTIVE

Mrs. M. J. Endres gave a short report on study club activity advising that the club meets every Wednesday night in her home and is nearing the end of the series with only three more meetings scheduled. She invited everyone to attend.

#### LETTER OF THANKS

Mrs. Herbert McDaniel's letter of thanks from a missionary in Taiwan, Formosa, was read. The Rev. Louis J. Dowd, S. J., expressed sincerest thanks for a box of spiritual articles including

rosaries, medals, scapulars and holy cards that reached him at a time when he needed them most. The mission needs more of these articles he said and members were asked to bring any they can spare for this purpose to the next meeting. Items will be boxed and shipped after that.

Mrs. Victor Hartman, president, conducted the meeting, twenty-six members attended and Mrs. W. M. Trubenbach won the attendance prize.

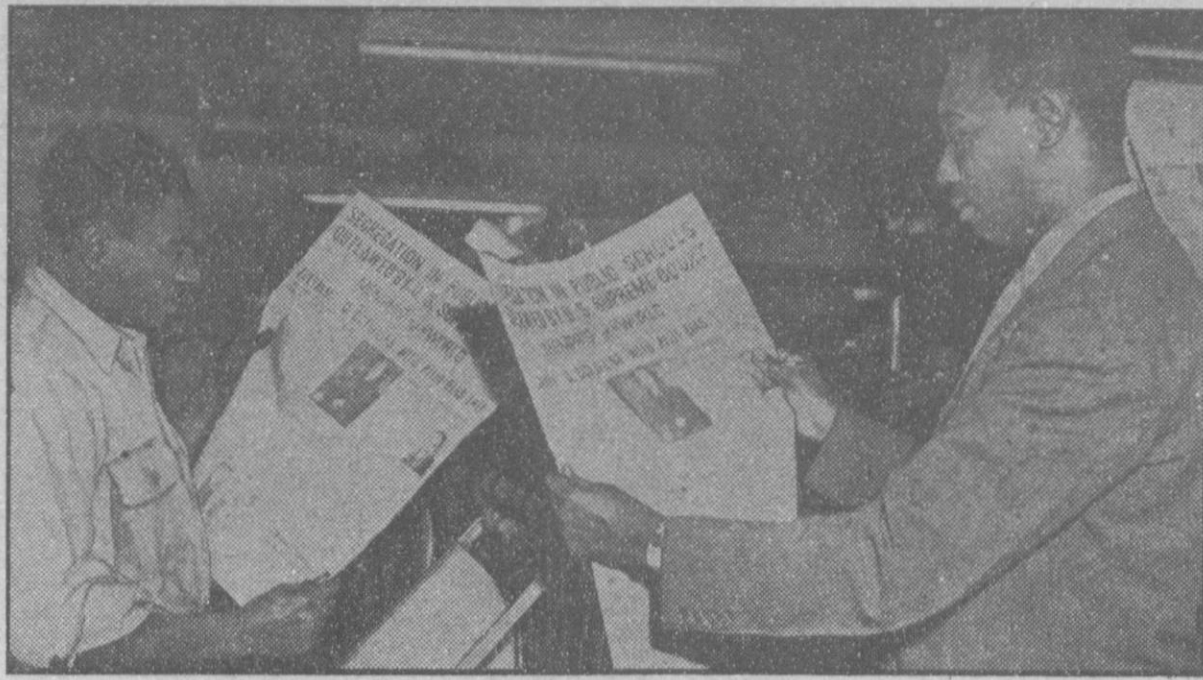

#### DANNY JOE YOSTEN HAS BIRTHDAY OBSERVANCE

Danny Joe Yosten celebrated his seventh birthday with a party for 19 little guests at the home of his parents, Mr. and Mrs. Werner Yosten.

Gifts, games and refreshments of ice cream, birthday cake and soda pop made it a gay affair for the children.

A children's play pen, due to be finished before the weekend, is a new feature at Holland's amusement park.

Weldon Holland disclosed Wednesday that he's building the addition with a two fold purpose of entertaining the kiddies and also providing an opportunity for parents to play a round of miniature golf without being hampered by the tiny tots.

He also said that he has plans for a miniature golf tournament in the near future.

### Lions Have Next Meeting at Noon

Members of the Muenster Lions Club are reminded this week that the place and time of their next luncheon meeting has been changed.

Dr. T. S. Myrick, Lion president, said that the meeting will be held at noon next Tuesday in the Main Cafe. The change was made because it was believed more members will find it convenient to attend at that hour. Attendance at meetings has been poor lately and interest and activity have slumped proportionately.

The principal purpose of next Tuesday's meeting, Myrick said, is to revive enthusiasm and get a program going. As a starter, each member who has been attending regularly has been asked to bring another member to the meeting.

Other guests in the Grewing. Other guests in the Grewing home were the Joe Fuhrmanns and the Henry Stoffels and family. The two priests went to Subiaco with Father Conrad who spent this week attending the annual retreat for Benedictine Fathers at the abbey.

hand; further, that forceful means applied in Europe might bring on war which the Communists did not want at this time.

"The message went on to say that the United States must be isolated, and the plan laid out the blueprint for driving a wedge between the United States and her Allies. It specified that Britain must be convinced that there is a possibility of settling the differences between the East and the West and that the Capitalist Countries can live in peace. To give world trade, according to Mao Tse-Tung, was to be used as a bait for the British. In the case of France, her historical fear of Germany was to be thoroughly exploited, and France was to be made, by Communistic propaganda, to feel that her greatest security would lie in full cooperation with the countries behind the Iron Curtain rather than with the Free World. According to this Communist document, Japan is to be convinced that her rearmament endangers, rather than guarantees, her national security.

"Mao Tse-Tung said that there must be 25,000,000 well trained troops in Southeast Asia for immediate mobilization. These troops were to be used in such a way that they would force the free countries to keep increasing their defense expenditures until economic collapse overtakes them.

"The Chinese Leader's advice to the Russian Rulers in the Kremlin was that they should agree to an armistice in Korea until such time as a navy could be developed because of the fact that lack of a navy was now the Communists' greatest weakness in the Far East. He further stated

that the Chinese Communists must take Formosa, and he said that the war in Indochina, could be successfully concluded by the Communists in about two years. After Indochina, the Communists would then move to Burma, Thailand, and Indonesia which would complete a circle around the Malay Peninsula held by the British. When this is accomplished, the Chinese Leader said that the British would realize the hopelessness of putting up a fight and would withdraw and that this whole process should be completed by 1960. In concluding his letter, Mao Tse-Tung scheduled the fall of Japan and India also by 1960, after which he predicted the Philippines and the Arab Countries of the Middle East would collapse. After this, their next goal would be Africa, and then Western Europe. At this point, North and South America

will be helpless and defenseless, he said, and that twenty years from now the Communist world revolution would have been completed.

"Historically, we have received other blueprints and warnings about plans of dictators and totalitarian states. In the past we have not always believed them. We could not believe what Hitler said in "Mein Kampf", and not many people take warning from Karl Marx's "Das Kapital". I hope that this warning of the Ruler of Red China will serve to alert us to the dangers of world revolution and that we will be more alert to the threat that we face."
