BOOKKEEPING SLAVE

One of our pet peeves landed on our desk the other day in the form of a notice from the Internal Revenue Department that we had missed a date for turning in withholding taxes that had been collected from our employees, and as a result of this miss, we had ten days to pay a rather substantial penalty.

Here we are, in business, and having plenty of trouble keeping our own books and records in good enough shape to figure our own problems, among which Uncle Sam is one of the greatest, and just because we are a few days late — unavoidably so — in turning in funds that we have collected for Uncle Sam, a penalty is tossed our way. Many firms larger than ours have to hire extra help to just keep the records for Uncle Sam, and what do they get for their trouble? A penalty if

they are late, that's what, plus the meeting of extra paychecks each month. It just does not make sense to us.

Certainly, this picking taxes off payrolls is one of the greatest ways of making sure that these taxes are paid, but every single employer is doing it as a favor. We would like to see the employees get all of the money they earn and then toss the burden on them to pay the taxes. It would make every individual much more tax conscious, because then they would see the sizeable chunk of cash that goes for taxes every month, instead of cussing an employer for a paycheck that has half a dozen deductions taken from it and looks inadequate because of those deductions. It just does not make sense to us, any way you look at it.

—Hartford (Wisc.) Times-Press

Not too many years ago, we actually had integrated audiences in Mississippi — and thought nothing of it. At many white athletic events, special sections were reserved for Negro spectators . . . and at many Negro events, special sections were reserved for white friends. We can personally recall local Negro groups presenting programs in our local Churches, and this writer has personally conducted worship services in several local Negro Churches. But today these things are not done. And we humbly suggest that Negro citizens should ask themselves, "Why?"

RIGHTS — OR RULE?

One simple fact stands out starkly from all the ramifications and involvements and highly suspect legality of the House-passed omnibus "Civil Rights" bill.

And that is that the Senate, in whose hands this inflammatory legislation rests, has been badly shaken by the wave of organized violence that erupted in Cleveland, Ohio, San Francisco, Calif., Chester, Pa.; that threatened the safety not only of New Yorkers and World's Fair visitors in subways and on the highways, but that of the President of the United States at the ceremonies officially opening this vast projection of the "American image."

In view of their preoccupation with the legislation that has inspired these ugly and even bodily incidents, and threatens further outbreaks, it is only natural that more and more Senators are coming to regard this lawlessness as an organized effort to intimidate the upper house of the US Legislature.

Furthermore, it should now be dawning on the ardent supporters of this reckless, legalistic deformation of the Constitution that what the demonstrators and their inflammatory mentors really want is not "rights," but rule — mob rule; and that they, at least, regard the Civil Rights Act as an instrument to that end!

Clearly, there will be amendment by the Senate that will send the bill back to the House for stormy reconsideration. There will be a jury trial amendment — whether it is that of Senator Talmadge, calling for juries in all criminal contempt trials under the Act, or whether the bipartisan, Mansfield-Dirksen amendment requiring jury trial only where penalties exceed 30 days or \$300. Defection of Senator Albert Gore of Tennessee from the ranks of the bill's supporters suggests further amendments. He has discovered to his dismay, the opportunities for "political reprisal" that lurk in Title VI.

But, after all, Senator Russell's description of the compromise jury trial amendment as "a mustard plaster on a cancer," may well apply to any and all amendments that may be brought up. A fundamentally bad bill cannot be cured by amendments. And the behavior of its militant supporters should by now have convinced even Congress of just how bad the "Civil Rights" bill is.

In plain simple words — GROW UP; quit being a cry-baby. Get out of your dream world and develop a backbone, not a wishbone, and start acting like a man or a lady.

You're supposed to be mature enough to accept some of the responsibilities your parents have carried for years. They have nursed, protected, helped, appealed, begged, excused, tolerated, and denied themselves needed comforts so that you could have every benefit.

ECONOMY?

It appears that there are those who are not impressed with President Johnson's frugality. Despite the proudfest claim of paring White House kilowatts, Chairman Harry F. Byrd of the Senate Finance Committee is on the fiscal warpath.

In an interview with Willard Edwards of the Chicago Tribune, the Senator says that at the halfway point in his analysis of the first Johnson budget, he has found \$4.8 billion in wasteful spending. He also said: "The danger of inflation has been enhanced by the tax cut. People are going to wake up to the fact that, instead of income tax refunds next year, they're going to owe the government more money."

And US News and World Report advises that government spending in the first three Johnson months, \$24.3 billion exceeded that of the same period in any year in US history.

Ocean going tankers frequently carry thousands of gallons of crude black oil on one leg of a trip and edible oil on return. The speedy transformation is made possible by a white powder called Planisol. It is soluble in hot water and can emulsify any known oil, according to Northwest Chemical.

GROW UP AND GO HOME!

Some mighty practical advice to teenagers was voiced recently by Judge Phillip G. Gilliam of Denver. And what he said might help a lot of us adults do a better job of living, too. Here it is:

Always we hear the plaintive cry of the teenager: "What can we do? Where can we go?" The answer is, GO HOME! — Hang the storm windows, paint the woodwork, rake the leaves, mow the lawn, shovel the walk, wash the car, learn to cook, scrub some floors, repair the sink, build a boat, get a job.

Help the minister, bishop, priest or rabbi, the Red Cross, the Salvation Army, visit the sick, assist the poor, study your lessons. And, when you are through — and not too tired — read a book.

Mustang leads the stampede the big Ford started. This has been the hottest sales year in Ford Division history. We have a winner in the Super Torque Ford, a car so well built, so predictably tough, that competition-modified Fords took eleven of the last twelve NASCAR 500-mile races. Ford sales are up 17% this year. We have a luxury car that's taken off like a skyrocket: Thunderbird, with sales up 68%. Falcon is selling almost as many cars as Valiant and Chevy II combined. Fairlane continues to be a favorite in its own field. Now comes Mustang . . . turning the trend to Ford into a downright stampede. Mustang, by any measure of sales or excitement, is the most successful new car ever introduced in America—ever. When you see a stampede, it makes sense to find out what started it. **NOTES FROM
CITY LIBRARY**

A new volume has been added to the books at Muenster City Library. It is "The Shepherd of Mankind," donated by the Cooke County Tuberculosis Association in memory of Lawrence (Butch) Bruns.

"The Shepherd of Mankind" is a biography of Pope Paul VI by William E. Barrett.

Here are intimate glimpses of the early years of the boy who was to become Pope, his family and friends, the places he lived and the schools he attended. As a young priest, his intellectual prowess led him early into the diplomatic corps of the Church where he served in the Vatican State Department under Pope Pius XII.

In time, Msgr. Montini became Pro Secretary of state for Ordinary Affairs and the Pope's closest and most trusted confidant. In 1954 he was made Archbishop of Milan a hot-bed of Communist activity, where he courageously faced open hostility to spread the teachings of the Church among the workers.

He became an intimate friend and advisor to Pope John XXIII (he was the first Cardinal appointed by that beloved pontiff) and was one of the principal architects of the renowned Ecumenical Council which he was destined to direct as Pope.

Writing in the popular, readable style for which he is so justly famed, William Barrett captures the full stature of this extraordinary man, as he tells Pope Paul's life story against the background of momentous world events which affect his life and the roll of the Church in modern times. The result is an inspiring biography of a man who is fulfilling his manifest destiny as a great spiritual leader. —E. T.

year at Muenster in the following list of projects.

LITTLE LEAGUE BASEBALL, the first job undertaken by the newly organized Jaycees. Cooperation was complete as members coached, officiated, cared for equipment, operated the concession stand. Multiple benefits, were realized. 130 boys, 9 through 14, had wholesome and supervised recreation in 72 games.

COMPLETED BASEBALL STADIUM, which also included improvements and repairs. Result is a durable concrete and masonry job that Muenster can be proud of. City furnished cement, all members pitched in, furnished other materials and did the work. The concession stand included in the job, was a welcome addition for kiddies.

FISH FRY was a big event in two ways. A pleasant community party with good attendance of out of town visitors, and a financial success netting \$460 for materials for the ball park project. Appreciation for fine cooperation is due all members and Rohmer's Catering Service and the Center Coffee Shop.

TENNIS COURTS. This project was the biggest in money and man hours and the organization acknowledges generous help from VFW, KC's, St. Joseph's Club, Colonial Acres Farm, County Commissioners, and Bayer Brothers. The double court is asphalt surfaced, has 12 ft. backstops of chain link fencing, permanent nets, a steel cable to keep cars off. Before completion the courts were used by some eager players. Since then they get heavy use by youngsters and oldsters. Their popularity indicates that the project was a very good one.

MISS MUESTER PAGEANT is which a large group of local young ladies competed to represent the city on Muenster Day at the State Fair. Miss Jo Ann Fisher was the winner. Enthusiasm of a capacity crowd in the auditorium encouraged the decision to sponsor a Miss Muenster Pageant in the Miss America contest.

MUESTER DAY at the State Fair developed into a big event and did wonders in creating a good impression for the city. The official party got the customary special day red carpet treatment from Fair of-

ficials. Muenster's booth drew good crowds and lots of complimentary remarks. A big delegation wearing labels "I'm from Muenster" likewise got favorable notice. In general, a pleasant and effective good will promotion for Muenster. Special credit for cooperation is due NTPA, Muenster Dress Factory, Colonial Acres, Soil Conservation Service, Flusche Mfg.

MUESTER - NOCONA RIVALRY in baseball, football and basketball provided fun for members of both towns also added a few dollars to the treasury of each. Jaycees also brought kids of Muenster and Nocona together for baseball games.

MORE BASEBALL JC wives and Little League Mothers had a series of games.

COMMUNITY HELP. Jaycees operated a concession at last year's homecoming picnic.

INSTALLATION BANQUET, to which public was invited, gave the community its first notion of aims and ideals of the Jaycees.

HOUSE NUMBERS sponsored by Jaycees identified many additional homes. Most houses now have numbers.

JAYCEE RADIO DAYS in cooperation with Gainesville Jaycees. Members took over the station for two days of broadcasting commercials news, etc. and their treasury profited from commissions on ads they sold.

SANTA CLAUS came by plane, visited kids and distributed goodies. Crowd was good in spite of bad weather. Jaycees also erected a community Christmas tree.

POLL TAX SALES here were best ever as result of Jaycee efforts in stores several days in January. Reflected in biggest vote ever in May primary.

AIR PORT PROJECT. Jaycee effort and cooperation of Bruno Fleitman has resulted in official designation of Muenster as a landing field on nation's air maps. The place is Fleitman's pasture just east of town.

OTHER PROJECTS include: Football schedule board, with cooperation of Grewing Brothers. Welcome signs at city limits. Donation by members of 20 pints of blood. Sponsored a circus in town. Sponsored kids trip to Nocona carnival.

"Beauty Is Not A Gift . . . It's A Habit"

WHICH NICKEL IS BIGGER?

No need to get out a ruler. The nickels are exactly the same size. If one appears bigger than the other, it's just an optical illusion.

It's no illusion though that the "size" of what a nickel will buy today is about half that of 25 years ago. That is for most things! But for residential electricity, it's twice as big . . . it will buy twice as much as 25 years ago.

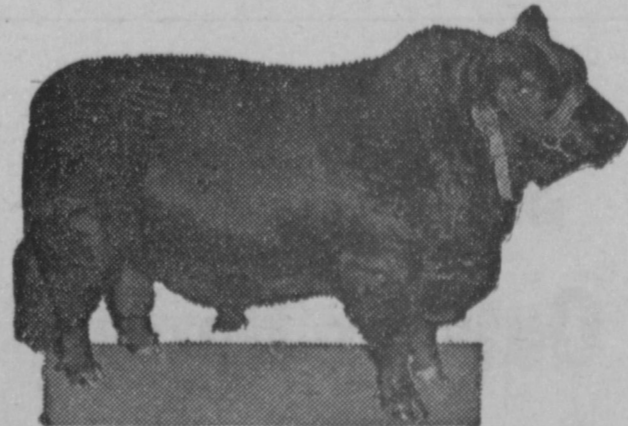

Your electric bill may be larger than it used to be. That's because electricity is now doing so many more things for you. Many of the things you enjoy most today weren't available then.

Yes . . . the nickels you pay for electric service are a bargain in better living. Texas Power & Light Company pledges its efforts to keep this service economical, adequate and dependable in the years ahead.

TP&L Dismisses Suit Against GE

W. W. Lynch, president of Texas Power & Light Company, announced that TP&L has agreed to dismiss a law suit filed in January of 1962 against General Electric.

Texas Power & Light Company, along with other utilities in the United States, filed action against the General Electric Company, claiming overcharges on purchases of heavy electrical equipment as a result of violation of Federal antitrust laws.

General Electric Company in April made an offer to Texas Power & Light Company to dispose of this litigation, and this offer has been accepted by the Company. It results in price adjustments aggregating approximately \$1 million, plus reimbursement of certain expenses relating to the litigation.

The offer by General Electric Company is based on a formula arrived at by that Company and applied equally to all companies who made purchases from General Electric. It is reported that about 90% of the claims against General Electric have been disposed of in this manner.

"This price adjustment comes at a fortunate time," said Mr. Lynch, "in view of the fact that the Company is planning to spend in excess of \$50 million this year for expansion of its plant facilities."

8th Graders Have End of School Tea

Colonial Manor was the scene of a tea-dance Thursday afternoon when Miss Cathy Medders entertained her classmates of the eighth grade Sacred Heart School with an end-of-school party.

Cathy and her mother, Mrs. Ernest Medders, welcomed guests at the door and presided at the beautifully appointed refreshment table. Mrs. Medders poured punch. An assortment of tea cakes and finger foods were on the board.

Afterward the group of 38 boys and girls danced to recordings.

Pat Hermes, student at St. Bernard's Seminary in Cullman, Ala., is at home for the summer with his parents, Mr. and Mrs. Julius Hermes Sr. He made the trip with his schoolmate Robert Fetsch and his parents, Mr. and Mrs. Paul Fetsch of Muenster.

The Gene Pelzels got in the news last Wednesday when their three and a half month old son Matt got his first barber's hair cut. At that age a professional hair cut is some sort of record. Matt's mother said his hair had been "trimmed" at home. The baby and his daddy and the barber, Benny Milburn, had their picture in Saturday's Gainesville Register.

A family night on the town observed Gene Pelzel's birthday May 16 when Gene and Polly and their youngsters Michelle and Matt went to Gainesville to see and hear the Lightcrust Doughboys who were performing at one of the stores. It was a treat for Gene when they asked him to sing. He used to sing and play with a western band and he did several songs to the Doughboys' music. After that the family ate out, just the four of them for a birthday supper.

Mrs. H. L. Herron of Denison visited Saturday with her daughter and family, the Bernard Giebs.

The Joe Schmidkofers had as guests in their home last weekend her parents, the C. M. Flusches and son Jerry and her sister Evelyn Hurley and son Michael, all of Decatur. After Sunday dinner together they visited Mrs. Flusche's mother, Mrs. John P. Neu and her sister from California, Mrs. Frank Schmidkofer of Downey who is staying indefinitely with her mother. Mrs. Neu has improved some since her recent illness. She and her family thank everyone for many kind remembrances during that time.

Anthony and Steve Felderhoff were in the confirmation class at St. Peter's Church Sunday afternoon and were honorees at supper afterwards in the home of their parents, the A. J. Felderhoffs. Special guests were the grandparents and the godparents.

Dolores Laux and Paula Owen who were in the confirmation class Sunday, and Barbara Laux who was in eighth grade graduation exercises were honorees afterward at a family picnic supper in Lindsay Park. Among guests at the chicken barbecue were Mr. and Mrs. Alphonse Pautler of Muenster and the Willie Romos of Fort Worth. The Laux family and the Owen relationship are planning a surprise reunion for Billy Owen at the VFW Club in Gainesville Saturday night when Billy returns with his band. He's due to report for army training soon.

Mr. and Mrs. Henry Hess and daughters Margie and Clare Elizabeth attended graduation exercises at Gee High School in Pilot Point Sunday to see their nephew and cousin, Alvin Evans, receive his diploma. He is the son of Mr. and Mrs. Frank Evans.

Mr. and Mrs. Gene Pelzel were in Pilot Point Sunday night at graduation exercises in Gee High School to see his brother Harold Pelzel and his cousins Kenneth Blumberg and Gerald Pelzel receive their diplomas. Others attending included Gene's sister and husband, the Donald Walterscheids and son Craig of Muenster.

In Sherman Sunday to get acquainted with the new baby in the family were Mr. and Mrs. Tony Hermes, Rosemary Hermes and Tommy Dankesreiter. They visited Mr. and Mrs. Cyril Hermes and their two-day old daughter. They also went to see Mr. and Mrs. Cecil Hermes and daughter Jo Ann.

Gieb Clan Has 70 At Annual Reunion

Annual reunion of the Gieb clan was marked by a full attendance Sunday when the ten brothers and sisters and their families gathered at the home of Mr. and Mrs. Walter Nortman at Lindsay.

A covered dish dinner and picture taking were highlights of the gathering. Each year the family gets together in August but the reunion was early this year because the relationship was already together for attendance at the wedding of Barbara Heitzman and J. C. Davis in Gainesville Saturday evening.

Reuniting at both events were Messrs. and Mmes. Robert Gieb and Ed Heitzman of Gainesville, Walter Nortman and Bernard Gieb of Lindsay, Ben Tubb of Oklahoma City, C. D. Fallon of Sherman, Julius Gieb of Victoria, H. B. Seals of Dallas and Joe Trubenbach and Gene Gieb of Muenster, and their families.

Tom: "It'll be 10 years in March."

V. M. Ramsey, 87 Marysville Native Birthday Honoree

Eighty-seventh birthday of V. M. Ramsey was celebrated with a party for him at his home Saturday night. Fifty-three relatives got together for the occasion.

Guests brought a shower of gifts, enjoyed visiting, birthday cake and other party refreshments and made pictures.

Mr. Ramsey is a native of Marysville and has spent his entire lifetime in the area. When Camp Howze absorbed his farm he and his wife moved to Valley Creek community. Mrs. Ramsey, the former Miss Jessie Pearl Reeves passed away in January 1947. He "batched" for about a year, then accepted the invitation to live with his daughter and family, the Sam Sparkmans at Marysville. About a year ago they moved back into home at Valley Creek.

Mr. Ramsey has two daughters, Mrs. Sparkman, and Mrs. Willis Robison of Gainesville and two sons, Melton of Whitesboro and Roy Ramsey of Dallas, 11 grandchildren and six great-grandchildren. A daughter, Mrs. Herschell Coffman, died in Fort Worth last October.

The son-in-law, Herschell Coffman and three of his children and their families who couldn't attend the Saturday night party came Sunday with gifts and greetings and it was another celebration marking Mr. Ramsey's 87th.

Those attending the Sunday party came from Dallas, Whitesboro, Gainesville, Valley View, Sivelles Bend, Muenster and Marysville.

another enrollment period in the Texas 65 Health Insurance Plan, which got tremendous response when it was introduced last October. Eligible people who missed the opportunity then can do themselves a big favor by investigating its benefits without delay. Most of them will agree it is the very thing they have been looking for.

It's no secret that the group of over 60 insurance companies cooperating in the program are trying hard to prevent adoption of Medicare by offering a voluntary deal which is much better. In doing that they worked out a deal that ought to appeal to all oldsters. We hope so. We also hope that it will cover the whole nation and stop Medicare for keeps.

Relative to the controversial beef imports from Australia and New Zealand, Congressman Purcell offered a word of caution in his newsletter last week, and also recommended that the meat should be plainly labeled so that shoppers can know what they are buying.

He points out that 90 percent of the imported meat is sent in frozen blocks of lean cheap grade beef which is usually thawed and ground into hamburger. So far that's all right. The hamburger isn't likely to taste as good as from American beef, but it presents

no health hazard if it is eaten promptly. However, a health hazard is created if the hamburger is frozen for storage in a home freezer. USDA food experts point out, says Purcell, that beef should not be refrozen after it has been thawed.

The moral is, don't stock your freezer with hamburger unless you know about its source. And the time to become wary is when the price is hottest. Food stores could do their customers a nice service by identifying imported meat with proper labels.

The point that especially irks us about this situation is the fact that this cheap meat is causing the current big trouble in the American meat industry. It sells because it is cheap and the demand shrinks accordingly for American beef. Naturally then, the livestock market shrinks too.

Quite a few problems could be solved by stopping beef imports, or at least cutting them sharply. Lots of people would eat better and stockmen would worry less.
