VOLUME XXXIV

MUENSTER, COOKE COUNTY, TEXAS 76252 JULY 31, 1970

NUMBER 38

Lots of people who have found cans or shattered bottles on the streets or beside their curbs have been heard to remark that there ought to be a law against selling beer, or soft drinks, in throw away containers. And their opinion receives wholehearted support from the general public.

Well, all those people now have their hopes lifted somewhat by the report that one city has passed such a law. Bowie, Maryland has banned the sale of both soft drinks and beer in non returnable containers and has set a penalty of \$100 a day against a store which violates the law. Enforcement date has been delayed to April 1, 1971, in the hope that the state of Maryland can be persuaded to make the law state wide early next year. That would be fine, and it might be added that a nation wide ban would be much better.

**This column's gripe on this issue applies especially to the bottles.** When they are intact they share with cans in being accountable for the ugly look. When broken they become hazardous and much worse to clean up. Ask the lady whose child has gashed a foot on it, or who has swept up the pieces from the street in front of her house. Ask anyone who has hit a bottle with a power mower, the frustrated feeling of having been booby trapped by a nincompoop to mess up one's own lawn, being forced to tell his kids that it's unsafe to play there any more.

**A special merit in the ban against one-way containers,** according to ecology experts, is that consumers "could have their cake and eat it, too." While improving the environment they could reap a handsome bonus on returnable money-back containers. They estimate that nation wide the returned soft drink containers would bring refunds of over \$700 million a year and returned beer containers would be worth over \$800 million. That's \$1.5 billion, which figures to \$25 for each of the country's 60 million families. In addition there would be a tremendous saving in our present cost of picking up litter.

**The idea is most appealing.** Everybody is in favor of the two way savings and better environment. However there is still a problem with people who are more concerned with getting rid of empties than keeping them for refund. Those are the people who drink in cars and throw empties out of the windows. They would still be smashing bottles.

**A better solution, it seems,** is banning the use of bottles altogether and adding a deposit price on cans for the sole purpose of making it worth while for people to return them. Under that arrangement fewer empties would be discarded. Doubtless some would still throw empties from cars rather than permit them to be found in the cars, but at least the hazard of broken glass would be eliminated. And then, if the salvage price is worth while, the empties would not remain out long. Enterprising kids would gladly pick them up and redeem them.

Use of cans would also solve the expense of transporting bottles back to the bottlers. Thousands of cans could be compressed into a fairly small bulk which could be shipped economically to a smelter.

**We definitely hope the Maryland city** has started an idea that will snowball. We hate the clutter and hazard of discarded bottles and cans. We think regulations are possible which will induce the public to eliminate both from our environment.

**This mention of the effort to do something about physical pollution suggests an urgent need to do something also about moral pollution.** That applies especially to the present preoccupation with sex and nudity under the guise of freedom of expression.

About ten years ago a song writer, Sy Miller, and his wife wrote a letter expressing their disapproval of the deteriorating public attitude to sex. The letter did not get much notice then but it has received widespread attention in the past year. Newspapers and magazines, both religious and secular, are re-printing it. And private citizens are copying it to send on to their friends.

## School Kids Near End of Vacation

The count-down has begun for launching the 1970-71 school year at Muenster. Only 12 days remain before registration at the public school and 14 days at the parochial school.

L. B. Bruns and Father Placidus, superintendents of the two schools announced the dates this week. Public school will enroll on Wednesday, the 12th, and start classes on the 17th. Sacred Heart will enroll on Friday, the 14th, and start classes on the 20th.

Both schools have scheduled longer school years than

before, in keeping with the Texas Education Agency's new requirement for accreditation. Minimum time, formerly 175 days, is now 180 days. Likewise both schools are on the new schedule, which allows finishing the first semester before Christmas.

Beginning of football practice at both schools will be on Monday, the 17th. That is the date set by the Interscholastic League for the participating Muenster High Hornets. Sacred Heart Tigers, members of the TISC, do not have a specified date but chose the 17th.

Tom Joy and Glenn Richardson continue as coaches of the Tigers and Hornets respectively, however both have new assistants. Ronnie Fuhrmann will help at Sacred Heart and C. O. Cash at Muenster High. All of the coaches except Fuhrmann will attend the annual Texas Coaching School at Houston next week.

Staffs of both schools are complete, according to reports this week from the two superintendents.

The public school duty roster includes Superintendent L. B. Bruns, Principal C. O. Cash, Prudence Selby, Carol Dyer, Juanita Walterscheid, Josie Christian, Josephine English, Loretha Cash, Patsy Sloan, Marie Mosman, Virginia Sims, Bettye Dodds, Judy Flowers, Barbara Robison, Juanita Bright, Ronald Lee Smith, Gary Chisam, Bobby Chisam, Robert McDaniel, Edgar Dyer, and Glenn Richardson.

Seventh and eighth grade band members will meet at 4 p.m. All high school band members will meet at 6 p.m.

This will be the start of a series of summer rehearsals.

Monday's meetings will consist of plans for the school year, and rehearsals of new music and formations to be used throughout the football season.

All students are reminded to take their instruments with them and to report promptly at the scheduled time in the band hall.

## 27 Scouts Spend Week at Texoma

Twenty seven of Muenster's Boy Scouts and their scoutmaster, Willie Walterscheid, are having a big time this week at the Scout's Lake Texoma camp.

Walterscheid called home Tuesday night to report that the youngsters are living it up and doing fine on their merit badge work.

He also sent word that Order of the Arrow Ceremonies are booked Thursday night starting at 7:30. Parents, or families, who would like to visit their Scouts can choose no better evening. It is suggested that the visitors come early enough to do the visiting before 7:30. They'll be out of contact during the ceremony and out of time afterward.

## Father Andrew Goes to Rhineland

Father Andrew Wewer, O.S.B., assistant pastor of Sacred Heart Parish for the past six years, will leave here next week Tuesday to begin his new assignment in the St. Joseph Parish of Rhineland. He will be assistant pastor of the parish and will also have charge of a mission parish in Knox City.

Successor to Father Andrew here is Father Leonard Wangler, O.S.B., a Fort Worth native who was ordained this year at Subiaco. At this time he is completing a summer course in christian doctrine. One of his assignments will be to teach religion in Sacred Heart High.

Father Andrew leaves the parish with many remembrances. He is an expert in fine woodwork and used his talent generously in building items for the church, school and rectory. He was also shop instructor of Sacred Heart High.

Father Andrew replaces Father Marion Whitfield, O.S.B., who is returning to Subiaco Academy, Ark., as a chemistry teacher.

Presently the Rhineland parish has no pastor. Father Andrew said Tuesday that no one had been named up to then to serve as successor to Father Raymond Smith, O.S.B., who died in Missouri on July 20 and was buried at Subiaco Abbey on July 23.

## Crash Is Fatal to New Mexico Man

A two-car collision about 10 a.m. Tuesday on South Int. 35 at Valley View resulted in the death of William A. Gabbert, 35, of New Mexico who was residing in Muenster while serving as relief radio operator for the Santa Fe Railroad at Gainesville. He died at about 11:30 a.m. in Gainesville Hospital.

Driver of the other car was Mrs. Joyce Harris Bierschenk of Valley View who was unhurt.

Gabbert's body is being shipped to New Mexico for burial. His survivors include his wife and one son.

## CCJC Receives Fund for Course in Law Enforcement

Cooke County Junior College has received an award of \$8,000 from the United States Department of Justice. The funds will be available for the Fall Semester and may be used to offer financial aid to students in the new two-year Law Enforcement Program at the College. The money may be used for either loans or grants.

Grants, which do not have to be repaid, will pay the cost of tuition for officers who are presently employed by public law enforcement agencies and who attend the College on either a full or part-time basis.

Loans, covering all expenses, may be made to full-time students who are preparing themselves for employment in law enforcement work. These loans are cancelled at the rate of 25% per year of service in law enforcement.

Persons interested in either a grant or loan, should contact Mr. DeLany at the College.

Injuries received in a high-way accident July 21 proved fatal Sunday to Miss Gloria Jean Mayer, 17, daughter of Mr. and Mrs. Robert Mayer of Pilot Point and granddaughter of Mrs. Tony Gremminger of Muenster.

The end came at 10 p.m. Sunday in St. Paul's Hospital, Dallas, where she was a patient since the accident at the Junction Int. 24 and Hwy 377. Gloria was enroute from Pilot Point to Denton to get a girl friend who was to spend overnight with the Mayer family. ## Mrs. Lawrence Moster Body Found in Debris of Fire

Cooke County authorities Wednesday afternoon definitely identified the remains of a human body found Tuesday afternoon in the ashes of the burned out farm home of Bill Streng five and one half miles south of Muenster.

The victim was Mrs. Lawrence Moster, identified through dental X-rays in Denton.

The Streng home went up in flames Sunday morning about 6:30. All furnishings and clothing were lost. Streng was not at home at the time. His wife was visiting in Colorado. Cause of the fire has not been determined. Muenster Volunteer Fire Department rushed to the scene but found the place completely engulfed in flames.

Remains of a body were

found in the ashes Tuesday afternoon when Streng and two of the Lawrence Mosters' teen-aged sons were cleaning up the debris. The Mosters reside in a nearby house.

Deputy Sheriff Don King said, upon finding the remains, that it could be those of Mrs. Moster who had been reported missing since Saturday night. No positive connection was made between the fire victim and the missing woman until verification by dental X-rays taken in 1953.

Remains found are a leg bone, several vertebrae, portion of the skull, and the jawbones. It was thought identification might be established through dental examination of the teeth in the upper and lower jawbones of the victim. The remains were found in what officers believe to have been the living room of the house.

The discovery was reported to Deputy Sheriff George Davis. After a preliminary investigation, Davis summoned other county officers and a Muenster physician.

The remains were taken to Verne Keel Funeral Home pending further investigation. Oldtimers recall that this is the second house on the site that has been destroyed by fire.

Funeral services with requiem Mass will be at 5 p.m. today (Thursday) in Sacred Heart Church with burial following in Sacred Heart Cemetery. Father Bede Mitchel will officiate. Nick Miller Funeral Home is in charge of arrangements.

Mrs. Moster, the former Violet Paine, was born March 28, 1930, in Nebraska.

She is survived by her husband, three daughters, Mrs. David Reiter of Muenster, Donna and Rhonda of the home; five sons, Mark, Robert, Michael, Wayne and Ronnie of the home; three grandchildren; her parents Mr. and Mrs. A. Paine of Choctaw, Okla.; two sisters and one brother, also of Okla.

## Teachers Will Be Students 10 Days During Next Year

Teachers of Muenster Public School will spend ten days this scholastic year going to school before and during the regular school term. New school laws of the state require students to attend a minimum of 180 days and teachers to be on the job at least 190 days.

School starts for the local staff on Monday, August 10. A letter from Principal C. O. Cash calls for teachers to meet at 2:30 that date in MHS auditorium chiefly for briefing on the in-service training classes in days to follow.

On Tuesday at 9 a.m. all county teachers will attend a general meeting in Gainesville High auditorium after which they will go to Cooke County Junior College for their respective classes.

Teachers will remain here Wednesday for student registration starting at 9 and will have in-service training 1 to 3 p.m. relative to the Muenster school policy and student handbooks.

Thursday and Friday they will be back at CCJC for more in-service training before starting the new school year on Monday the 17th.

Some subjects for study in the in-service training program are visual aids, drugs and narcotics, first aid, preparing courses of study, special education, adoption of textbooks, recognizing special student problems and ways to help, interpreting test scores.

## AMPI Expects 1500 Dairymen at Annual Meeting

Congressman W. R. Poage (D-Waco) will address an expected 1,500 dairymen and guests from four states in Arlington, August 1, according to an announcement by J. G. Anderson, manager of the Northern Texas-New Mexico Division of Associated Milk Producers, Inc. (AMPI). Mr. Poage is Chairman of the Agriculture Committee of the U. S. House of Representatives.

Meeting in the auditorium of the University of Texas at Arlington at 10:00 A.M., the dairymen will confer a Man of the Year in Texas Agriculture Award on an individual to be named at the meeting, Anderson said.

A panel of distinguished dairy marketing leaders will discuss corporate growth in milk marketing cooperatives. Burdette Fisher, Louisville, Ky., manager of the Kyana Division of Dairymen, Inc., will be moderator for the panel.

A business meeting and drawing for door prizes, including 3 television sets, will follow a barbecue lunch in the air-conditioned auditorium.

Associated Milk Producers, Inc. is a milk organization of dairy farmers in 20 central states which is the result of the consolidation in 1969 of regional and smaller marketing associations. The Northern Texas-New Mexico Division is headquartered in Arlington and last year marketed over 1.5 billion pounds of milk for its 2,000 division members in Texas, New Mexico, Oklahoma, and Colorado.

## Technical Classes May Be Offered to County Seniors

Vocational technical training in subjects that can not be provided in the Muenster school system may be available this year to local students.

Superintendent L. B. Bruns announced this week that ways and means are under consideration for setting up vocational training courses especially for students who are likely to get a job instead of going to college. Such a course could be helpful in developing general knowledge and skill for industrial or commercial jobs. It might also appeal to the prospective college student who is interested in acquiring the skills.

Subjects considered are machine shop work, auto mechanics and office occupations.

If the program is adopted it will be taught at Cooke County Junior College, will be available to high school seniors and will be worth two elective credits toward graduation.

Principal problem with the course is the length of class time. It will require a daily 2-hour period, probably 12:30 to 2:20, plus a night class 6 to 10:10 probably on Thursday.

## Public Hearing On School Budget Next Thursday

A public hearing on the Muenster School District's amended budget for the past school year and its proposed budget for the coming school year will be held next Thursday night, August 6, at 8 o'clock in the Muenster school building.

Superintendent L. B. Bruns announced the meeting this week, saying that everyone interested in the financial side of the school's operation is urged to attend.

Fifty years ago, minding one's children did not mean obeying them.

## "Tribute" to Herbert Hoover

Life is full of ironies, little and big. During the last season of campus disorders, one of the targets of the pro-Soviet "new left" was the Hoover Institution on War, Peace and Revolution at Stanford University. The extremists engaged in a frenzy of hatred and vitriol leveled at the research foundation established by the late Herbert Clark Hoover, 32nd President of the United States. Since very little history seems to be taught to college students these days, it is quite likely that they didn't know that Mr. Hoover was once lavishly praised by their communist friends in the USSR, for helping to save hundreds of thousands of Russian lives during the great famine after World War I.

In July, 1923, the "People's Commissars" of the USSR expressed their gratitude that "in a period of a disastrous national catastrophe, the people of the United States... readily responded to the needs of the population in famine stricken parts of Russia."

"Due to the boundless and entirely unselfish efforts of the American Relief Administration (ARA), millions of people of all ages were saved

from death, and entire localities, including many towns, escaped a threatening fearful calamity," said the Reds.

"Be it resolved by the Council of the People's Commissars... before the whole world, to this organization, to its leader, Mr. Herbert Hoover... to express the most deeply felt sentiments of gratitude, and to state that all the peoples inhabiting the USSR never will forget the aid rendered to them by the American people, through the agency of the ARA..."

Why is the hatred against Hoover held by the "new left" today? Because they disagree with the old left? Not at all. The communist line changed. The "Great Soviet Encyclopedia" now attacks Hoover as an "American reactionary politician... through speculation and engagement in various shady affairs, Hoover won an enormous fortune and became a millionaire... he took active part in the organization of anti-Soviet interventions. In 1919 he headed the American Relief Administration (ARA) that engaged in espionage, diversions and plots against Soviet Power."

The people behind the Iron Curtain who are fed controlled "news," may be forgiven for any confusion in their minds as to the human-

itarian role played by Mr. Hoover in helping to save millions of lives. But it is discouraging to observe the youthful puppets of the "New Left" in free America allowing themselves to be led around by their noses by cleverly contrived communist propaganda. A little time on their part checking old newspaper files would be of great value — providing, of course, that they desire to learn something rather than claiming to know it all. But then, it is easier to "know it all," isn't it? No need to study, or to use words more than four letters long — just sit around and let the Vietcong flag wavers tell you all about the evils of imperialist, capitalist America.

— U. S. Press Assn.

## Dangerous "Its"

It is just possible the Communists may bury us after all.

That fate, publicly predicted for us by former Soviet Premier Khrushchev, COULD come true:

\* IF the leftist forces in our midst succeed in their continuing, many-faceted programming for undermining the national stability;

\* IF the lure of violent confrontation with authority, much of it engineered by the leftists, continues to attract more of our young people;

\* IF minority groups, similarly influenced, continue to push their demands for justice by methods that make the administration of justice difficult, if not impossible;

\* IF certain elements in Congress, the press and the intellectual community continue their policy of invariable criticism rather than cooperation;

\* IF crime, drugs, pornography, and other poisonous fruit of our all too permissive society continue to flourish;

\* IF our elected leader, in a time of the greatest crisis, can fail to get the solid support necessary for national honor because it entails sacrifice and suffering;

\* IF, in sum, individual interests begin to eclipse the need for national values and resolve — then the Khrushchev prediction begins to come true.

It hasn't happened yet. We certainly don't believe it WILL happen. But it COULD happen, and many are those who are working to that end.

The dreadful irony is that their efforts are made possible by the very freedom Khrushchev and his kind would never permit.

Our greatest strength — liberty — can become our greatest weakness.

## Why Insurance Cost Is High

If you are wondering why automobile liability insurance continues to cost more each year, read the following:

"Five insurers will share payment of a landmark \$2.25 million damage award made by a Dade County Circuit Court after a Jury trial to a 21-year-old former junior college student injured in a 1968 auto accident which left him mentally undamaged but voiceless and paralyzed from the waist down. At week's end, a joint motion by the defendants for a new trial was denied. The defendants have 30 days to file an appeal. The plaintiff's attorney received a fee of \$900,000, or 40% of the award, an agreement stipulated in the pre-trial contract

between the lawyer and court-authorized personal representative of the plaintiff. The contract also provides for a fee of 50% of the award should either side appeal."

When a jury takes the attitude of "socking it to the insurance companies" they neglect to realize that these same companies have only one place to get the money, and that it is from you and me. And you are kidding yourself if you think that the cost is not passed on to the rest of us.

We don't know the answer, we only know that liability insurance has already nearly reached the point where the average man can hardly afford to carry it. Perhaps a solution can be worked out similar to Workman's Compensation where a set amount

for a settlement is mandatory. Something is going to have to be done, and soon, or the average driver and insurance company is going to priced out of this type of coverage.

## Well, What Do You Know? fun, games and knowledge

by MARTHA GLAUBER SHAPP, Editor, The New Book of Knowledge

### How fast does heat travel through metal?

The speed at which a metal conducts heat varies in different metals. You can demonstrate this using metal rods, thumbtacks, Vaseline and a source of heat (light bulb). Dip the heads of the thumbtacks in Vaseline and hold them against the side of one of the metal rods so that the tacks will stick to the rod. Stick several tacks along the rod, and measure the distance between them. The tacks should be the same distance apart on

aluminum, steel, brass), but of the same thickness. What material conducts heat the fastest?

### How can you make an invisible ink?

Carefully squeeze the juice out of a large onion. Add a little water to it. This is your ink. When you have written your message and the ink has dried, hold the paper over a steady flame. The letters will show. Be careful not to hold the paper too close to the flame, or it will catch fire!

### Why do animals migrate?

As a rule animals travel over short distances mainly in search of food. They migrate on longer journeys usually for one of two reasons. They may migrate to breed in a more suitable place than where they feed. Or they may migrate because change of season causes food supplies or temperatures to fall too low. The return migration occurs when breeding is over or when the season has changed again.

### Can a person get warts from handling a toad?

No, toads do not cause warts. Some people think that toads are covered with warts, which people can catch. But this is not so. The "warts" on a toad are really glands in the skin. They give off poison that protects the toad against its enemies. Human warts are probably caused by a virus.

every metal rod you test. Place one end of the rod on the bulb. As heat travels along the rod it will melt the Vaseline and the tacks will drop off. Note the time that each tack drops off. Repeat the experiment using rods of different metals (copper,

## ON DRAG RACING

### A SAFETY MESSAGE

from Dodge's TV "Sheriff" JOE HIGGINS

Now, most of ya done seen me in TV commercials makin' fun about "racin' machines," but I'd like to get serious here for a minute.

Drivin' your own car can be a heap of fun but it carries a big responsibility as a citizen, too.

Kids drive kiddie cars. If you're big enough to have a license and drive a car, then you gotta be big enough to think and act mature. That's no toy you're drivin'. It's two tons of unthinkin' metal. It's somethin' like one of those computers. You gotta program it. You gotta give it the information—when to start, stop, turn. A car can't think. That's up to you.

Racin' another car at a traffic light is kid's stuff. It's like a baby throwin' a tantrum—"my toy's better'n your toy."

Drag racin's a great sport but it ought to be done at the drag strip under safe rules and regulations. That's where the professionals go. Ya'll drive careful now, heah!

## Two Years for "One More"

American legislators might give some thought to this:

In Japan, their counterparts are considering a nationwide law that would provide a maximum prison sentence of two years for an automobile driver involved in an accident after having one or more drinks.

And what's more, the same penalty would apply to the person who provided the motorist with the drinks.

Extreme? Somewhat. Unworkable? Perhaps. Effective? Maybe. But America's toll in human life and injury caused by drunk drivers — much higher than Vietnam war battle figures — suggests we need stronger federal legislation than we now have in state laws.

The possibility to drive and bartender alike of a two-year prison term just might inhibit that "one-more-for-the-road" syndrome.

According to "The Trumpeter," publication of Acme Markets, Inc., "As late as 1929 (the first year the USDA issued official figures), 23.4 percent of our take-home pay would have been required to feed our family. Today, thanks to modern production methods, and innovations in food distribution and merchandising, our food tab is only 16.5 percent of our spendable income."

**Kaye Klement and Raymond Wimmer Say Vows at Mass**

Miss Kaye Klement and Raymond Wimmer pledged wedding vows Saturday in a double ring ceremony at 5 p.m. nuptial Mass in Sacred Heart Church with the pastor, Father Placidus Eckart, officiating.

Parents of the couple are Mr. and Mrs. Eugene Klement and Mr. and Mrs. Lawrence Wimmer.

Anthony Luke, organist, and Mrs. Dave Walterscheid and Dr. Martin Kralicke, vocalists, presented wedding music.

Given in marriage by her father, the bride wore an A-line gown of acetate peau with soutache and seed pearls encircling the scalloped lace wedding ring collar of the Chantilace bodice. Pearled lace motifs enhanced the skirt and the removable Watteau cathedral-length train. A headpiece of lace and seed pearls held her shoulder-length veil and her flowers were a bridal cascade of glamelias.

For something old and borrowed she carried a hand em-

broidered silk handkerchief that her mother carried at her wedding. It formerly belonged to the bride's maternal grand-aunt.

Bride's attendants were her sister Miss Judy Klement and the bridegroom's sister Miss Laurie Wimmer.

They wore lavender organza gowns over lavender taffeta with deep lavender velvet ribbon accenting the Empire waistlines, and elbow-length puffed sleeves. Their headpieces were deep lavender bows and their flowers were small replicas of the bride's bouquet.

Rudy Koesler was best man, Melvin Bayer, cousin of the bride, was groomsman, and Paul Bayer and Robin Wimmer, cousins of the couple, ushered.

After Mass the newlyweds went to the Blessed Virgin's shrine where the bride placed an arm bouquet of lavender gladioli on the altar. The flowers were presented to the bride by her sister Miss Lynda Klement at the foot of the altar where the couple exchanged vows. Gladioli in the bride's chosen colors also adorned this altar and the sanctuary space.

Wedding reception with buffet dinner was held in the Parish Hall where Miss Mary Bayer, bride's cousin, and Miss Lynda Klement registered guests. A dance in the VFW Hall concluded festivities.

When the couple left on their honeymoon trip she was wearing a one-piece knit in American Beauty rose trimmed in white and white accessories.

They will make their home at 202 Highland Street in Sherman.

Both are graduates of Sacred Heart High School and she is a nursing major at Grayson County Junior College, working this summer at Wilson N. Jones Hospital in Sherman.

He was graduated from North Texas State University in June with a BS in Industrial Arts and is employed by General Motors in Dallas.

For her daughter's wedding Mrs. Klement wore a blue knit dress with white accessories and a pink gladioli corsage. Mrs. Wimmer, the bridegroom's mother, wore a pink knit dress with white accessories and an orchid gladioli corsage.

Wedding guests included the bridegroom's grandparents, Mr. and Mrs. C. J. Wimmer and the bride's aunt Mrs. George Casey and daughter Miss Abby Casey of St. Paul, Minn.

Others attending from a distance included Mr. and Mrs. Ed Conrady and children Teddy and Renee of Windthorst and Miss Emily Conrady of Denton, Miss Mary Jo Miller of Chicago, Messrs. and Mmes. Tommy and Ernest Gressett and Mrs. Louise Newell of Dallas, Messrs. and Mmes. Marshall Germany, Jack Campbell and Tom Dupree of Sherman.

Messrs. and Mmes. Duane Davis of Hart, Andy Schumacher and children Randy and Glenn of Dimmitt, Danny Yosten and B. J. Hanna of Dallas, Frank Walterscheid and daughters and Mrs. C. J. Berend of Hereford, Miss Dolores Sicking and Eileen Hesse and Mr. and Mrs. C. J. Hellman of Fort Worth, Air Force Sgt. and Mrs. Tom Swirczynski of Oklahoma City.

#### Boys, Girls Split Softball Games In Season Finale

The local baseball and softball programs came to an end Thursday and Friday nights as boys and girls divided honors on a pair of boy-girl games and the champion Kandy Kisses of the big girls league walloped the pick of the other two teams.

All Star boys of the junior division, who had dropped one to the champ Grewing team Wednesday night, were embarrassed 18-17 by the all stars of the three junior girls teams.

A big factor to the boys was that the game was softball, whereas they had been playing baseball. The result was that Lenzy Dyer and Robert Grewing allowed considerably more walks than Tracy Klement and Debbie Schneider.

Nevertheless it was a good hot contest. Boys led 3-2 at the end of the first and girls went ahead 7-3 in the second for their best lead of the game. After that the boys trimmed down the lead but they weren't quite able to catch up. Scores ending the last four innings were 7-6, 12-9, 16-14 and 18-17.

The big kids game was won by the boys, by the rather one sided score of 14-8. In that one the boys overcame the handicap of underhand pitching and broke even in hits and walks while doing a good job in the field. Randy Wolf, Gary Endres and Mark Lippe allowed 9 hits. Janet Swirczynski and Pam Schneider allowed 10, including a homer by Mark Lippe. Other boys hitters were Monte Barnhill, Randy Wolf and Joe Walterscheid. Girls hitters were Janet Swirczynski, Doris Felderhoff, Joyce Swirczynski, Nancy Fuhrman and Darlene Wolf.

#### Hartmans Return From 3000 Mile Vacation Car Trip

Mr. and Mrs. Victor Hartman are back from a 3000 mile vacation trip through seven states and Canada visiting relatives and sight-seeing. They traveled with their son-in-law and daughter Mr. and Mrs. Teddy Gremminger of Garland.

In Indiana and Michigan they visited Mr. Hartman's brothers and cousins by the dozens. Relatives took them on side trips. While visiting Mr. and Mrs. Leonard Risch in Detroit the couple took them into Canada. In Dearborn they were guests of a brother and wife, the Albert Hartmans.

Another brother and family, the George Hartmans, entertained for them at Fort Wayne, Ind. Other relatives they visited there were the Andy Mudracks and the Hoffman, Busher and Trabel families.

In Cincinnati they visited cousins of the Metz families and were entertained with movies by Father Earl Metz who had returned the week before from a trip to Europe.

At St. Peter, Ind., they visited the birthplace of Mr. Hartman's father and in St. Leon they visited at the home in which his mother was born. Both places are in good condition.

The highlight of Pesotum, Ill., was a visit to St. Mary's Church where Victor Hartman was baptized. The church is a duplicate of Muenster's old Sacred Heart Church with the towering steeple and is in use.

Sight-seeing states included Tennessee and Kentucky.

After returning to Muenster Wednesday Mr. and Mrs. Hartman joined Mr. and Mrs. Harvey Schmitt and son Stephen on a weekend visit in Killeen with the Willard Hartman family.

NUMBER FIVE ON THE BALLOT (HJR28)  
General Election Nov. 3, 1970

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Section 52, Article III, Constitution of the State of Texas, be amended to read as follows:

"Section 52. (a) Except as otherwise provided by this section, the Legislature shall have no power to authorize any county, city, town or other political corporation or subdivision of the State to lend its credit or to grant public money or thing of value in aid of, or to become a stockholder in such corporation, association or company.

"(b) Under Legislative provision, any county, any political subdivision of a county, any number of adjoining counties, or any political subdivision of the State, or any defined district now or hereafter to be described and defined within the State of Texas, and which may or may not include, towns, villages or municipal corporations, upon a vote of two-thirds majority of the resident property taxpayers voting thereon who are qualified electors of such dis-

trict or territory to be affected thereby, in addition to all other debts, may issue bonds or otherwise lend its credit in any amount not to exceed one-fourth of the assessed valuation of the real property of such district or territory, except that the total bonded indebtedness of any city or town shall never exceed the limits imposed by other provisions of this Constitution, and levy and collect taxes to pay the interest thereon and provide a sinking fund for the redemption thereof, as the Legislature may authorize, and in such manner as it may authorize the same, for the following purposes to wit:

"(1) The improvement of rivers, creeks, and streams to prevent overflows, and to permit of navigation thereof, or irrigation thereof, or in aid of such purposes.

### PUBLIC NOTICE

#### Proposed CONSTITUTIONAL AMENDMENT NUMBER ONE ON THE BALLOT (HJR30) General Election Nov. 3, 1970

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Subsections (5), (6), (7), (8), (9), (11), (12), and (13), Section 1-a, Article V, Constitution of the State of Texas, be amended to read as follows:

(5) The Commission may hold its meetings, hearings and other proceedings at such times and places as it shall determine but shall meet at Austin at least once each year. It shall annually select one of its members as Chairman. A quorum shall consist of five (5) members. Proceedings shall be by majority vote of those present, except that recommendations for retirement, censure, or removal of any person holding an office named in Paragraph A of Subsection (6) of this Section shall be by affirmative vote of at least five (5) members.

(6) A. Any Justice or Judge of the Appellate Courts and District and Criminal District Courts, any County Judge, and any Judge of a County Court at Law, a Court of Domestic Relations, a Juvenile Court, a Probate Court, or a Corporation or Municipal Court, and any Justice of the Peace, and any Judge or presiding officer of any special court created by the Legislature as provided in Section 1, Article V, of this Constitution, may, subject to the other provisions hereof, be removed from office for willful or persistent conduct, which is clearly inconsistent with the proper performance of his said duties or casts public discredit upon the judiciary or administration of justice; or any person holding such office may be censured, in lieu of removal from office, under procedures provided for by the Legislature.

"B. Any person holding an office named in Paragraph A of this subsection who is eligible for retirement benefits under the laws of this state providing for judicial retirement may be involuntarily retired, and any person holding an office named in that paragraph who is not eligible for retirement benefits under such laws may be removed from office, for disability seriously interfering with the perform-

ance of his duties; which is, or is likely to become, permanent in nature.

(7) The Commission shall keep itself informed as fully as may be of circumstances relating to the misconduct or disability of particular persons holding an office named in Paragraph A of Subsection (6) of this Section, receive complaints or reports, formal or informal, from any source in this behalf and make such preliminary investigations as it may determine. Its orders for the attendance or testimony of witnesses or for the production of documents at any hearing or investigation shall be enforceable by contempt proceedings in the District Court.

(8) After such investigation as it deems necessary, the Commission may in its discretion issue a private reprimand, or if the Commission determines that the situation merits such action, it may order a hearing to be held before it concerning the removal, or retirement of a person holding an office named in Paragraph A of Subsection (6) of this Section, or it may in its discretion request the Supreme Court to appoint an active or retired District Judge or Justice of a Court of Civil Appeals as a Master to hear and take evidence in any such matter, and to report thereon to the Commission. If, after hearing, or after considering the record and report of a Master, the Commission finds good cause therefor, it shall issue an order of public censure or it shall recommend to the Supreme Court the removal, or retirement, as the case may be, of the person in question holding an office named in Paragraph A of Subsection (6) of this Section and shall thereupon file with the Clerk of the Supreme Court the entire record before the Commission.

(9) The Supreme Court shall review the record of the proceedings on the law and facts and in its discretion may, for good cause shown, permit the introduction of additional evidence and shall order public censure, retirement or removal, as it finds just and proper, or wholly reject the

recommendation. Upon an order for involuntary retirement for disability or an order for removal, the office in question shall become vacant. The rights of an incumbent so retired to retirement benefits shall be the same as if his retirement had been voluntary."

(11) The Supreme Court shall by rule provide for the procedure before the Commission, Masters and the Supreme Court. Such rule shall afford to any person holding an office named in Paragraph A of Subsection (6) of this Section, against whom a proceeding is instituted to cause his retirement or removal, due process of law for the procedure before the Commission, Masters and the Supreme Court in the same manner that any person whose property rights are in jeopardy in an adjudicatory proceeding is entitled to due process of law, regardless of whether or not the interest of the person holding an office named in Paragraph A of Subsection (6) of this Section in remaining in active status is considered to be a right or a privilege. Due process shall include the right to notice, counsel, hearing, confrontation of his accusers, and all such other incidents of due process as are ordinarily available in proceedings whether or not misfeasance is charged, upon proof of which a penalty may be imposed.

(12) No person holding an office named in Paragraph A of Subsection (6) of this Section shall sit as a member of the Commission or Supreme Court in any proceeding involving his own retirement or removal.

(13) This Section 1-a is alternative to and cumulative of, the methods of removal of persons holding an office named in Paragraph A of Subsection (6) of this Section provided elsewhere in this Constitution."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the first Monday in November, 1970, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment relating to the removal, retirement, or censure of Justices, Judges, and Justices of Peace under prescribed circumstances."

Under the title "Open Letter to Man," here it is.

"I am a woman. I am your wife, your sweetheart, your mother, your daughter, your sister, your friend. I NEED YOUR HELP."

"I was created to give the world GENTLENESS, UNDERSTANDING, SERENITY, BEAUTY and LOVE. I am finding it increasingly difficult to fulfill my purpose."

"Many people in advertising, motion pictures, television and radio have ignored my inner qualities and have repeatedly used me ONLY as a symbol of SEX."

"This humiliates me; it destroys my dignity; it prevents me from being what YOU want me to be — an example of beauty, inspiration and love — love for my children, love for my husband, love of

my God and country. "I need your help to restore me to my true position . . . to ALLOW me to fulfill the PURPOSE FOR WHICH I WAS CREATED."
