The inevitable round of remedial proposals that follows a great tragedy...

Joe Felderhoff Is Appointed as New Tiger Coach

Correction: Joe Felderhoff, not Virgil Henschel, will be this year's coach of the Sacred Heart Tigers.

Since his previous appointment last week, Father Alcuin Kubis, superintendent, had to make the change because Henschel could not qualify under Interscholastic League regulations.

One fact stands out in the Austin tragedy. If there is to be a firearms law for potential killers it will have to apply to everyone.

And still, that would not solve the problem. Guns are not the only lethal weapons.

The answer is self evident. It is unthinkable that items of normal usefulness should be outlawed just because some of them occasionally become death dealing weapons.

Joe Felderhoff, a member of the Sacred Heart faculty for six years, can qualify as a coach and has agreed to accept the job.

Felderhoff is a native of Muenster and a former player for the Sacred Heart Tigers.

Practice for the Tigers will follow Interscholastic League rules. The first week consists of conditioning work with the boys wearing shorts and gym shoes and practice in uniform starts the next week.

First session for the Tigers is Monday at 7 p.m. At that time Coach Felderhoff will check with the boys to determine the most convenient hour for future practice.

Commissioners Organize Rural Planning Group

Opportunities for rural towns of Cooke County to get federal help in planning their improvement programs was sought by the County Commissioners Monday.

Its principal job will be to appoint an engineering firm to study area towns and to make recommendations for development of water and sewer systems.

The do gooders may as well admit that tragedies like Austin's cannot be prevented without absurd limitations on the rights and freedoms of everybody.

In that respect the recommendation of Governor Connally seems to be the best of all. He asks for mandatory life imprisonment for insane killers.

Though his idea would not apply to cases like Whitman's, whose apparent intention was to be killed rather than captured, it would be a strong deterrent to other murderers.

And there's additional merit in the fact that such people would not have the opportunity to kill again. Too often in the past "insane" killers, apparently recovered, have returned to crime after being paroled.

The idea most certainly seems good and deserves the serious consideration of our legislature. Unless serious flaws can be found it ought to go into the books.

Along with effectiveness such a law has the added feature of punishing only the guilty. As all of us know, it isn't right to deprive everyone just so criminals can be checked. The better way is to put more teeth in the law so that more criminals will have to pay for their crimes.

College Budget Tops \$1.4 Million

Cooke County Junior College will operate on a budget of \$1,447,487 for the next school year.

Soil Engineer of Turkey Observes Local Practices

A conservation engineer from Turkey is spending this week with members of the Muenster SCS work unit to study construction and maintenance of flood control structures as well as the use of vegetation for erosion control.

He is currently spending a year in the United States studying methods of soil conservation and soil building.

State SCS Men See Clear Creek Erosion Controls

Head conservation men of the state selected the area served by Muenster's Work Unit for a study of erosion control methods this week.

They were looking over sites on the Clear Creek watershed where former gullied fields were reshaped and seeded to native grass in 1963.

Purpose of the treatment was to stop serious erosion of the gullied area above a floodwater retarding structure. The gullies were filled in and the area leveled before grass was planted.

The party of conservationists also looked at gullies on J. C. Donnell's and Bill Jones' farms.

In the visiting group were H. N. Smith, state conservationist; Clyde Graham, assistant state conservationist; P. M. Price, assistant state conservation engineer; W. L. Smith, state agronomist; J. J. Coyle, SCS engineer from Washington D.C.; Dolph Craig, regional agronomist; Jack Adair, SCS technician; John W. Tippie, area conservationist; and Kikmet Galioglu, a conservation engineer from Turkey.

Little Leaguers Return Uniforms

The season is officially over for the Little League of Muenster, including the Pee Wee all-stars who had a bid of post season action.

Youngsters who still have uniforms are asked to check them in immediately with their team managers, and the team managers will be expected to check them in at Willie's Mobil Station Saturday morning.

Glenn Richardson Signed as Coach of MHS Hornets

Glenn Richardson, coach of the Muenster Hornets in the school years of 1961-62 and 1962-63 will be back at MHS this year.

He told Superintendent Bruns over the phone Tuesday night that he accepts the position here, would be here Thursday to look at houses and hopes to move Saturday.

An announcement this week by Superintendent Bruns says that the Hornet squad will have its first meeting Monday morning at 8 o'clock.

During his previous two years with the Hornets Richardson started with rough season record of a win, a tie and eight losses.

The following year, Richardson went to the Valley View Eagles as coach, remained for two seasons, and decided last year to try another kind of work.

Auxiliary to VFW Gives Donation to Muenster Library

Muenster VFW Auxiliary fulfilled its August honor roll requirement to participate in an Americanism program by donating ten dollars to Muenster Public Library.

On night meeting members made plans to meet Sunday, Aug. 14, at 2 p.m. to organize names and dates to be listed on the birthday calendar they are sponsoring as a benefit for the organization's treasury.

Volunteers agreed to get together in the Post Home for the job. Mrs. Joe Hoening and Mrs. Jerry Hoening volunteered to be refreshment hostesses for the next three months.

Two Showers Measure .95 Inch

Muenster got almost an inch of very welcome moisture in quickie thundershowers Monday and Wednesday afternoons, but not as much as the community wanted.

Monday's measure was .74 inch, which is about the average of the area. Some reports got as high as 1.5 inch, others a mere drizzle.

Wednesday's measure on Steve Moster's Weather Bureau gauge was .21 inch.

Rest Home Staff Sees Safety Films

The sixteen staff members of Golden Years Rest Home were called together Monday night to view films shown by Muenster Volunteer Fire Department at the home at 8 p.m.

Titles of the talks were "Fire and Your Hospital," and "Fire Safety in Hospitals and Sanitariums." Discussions followed each film.

Others there were City Fire Marshal Steve Moster, Fire Chief Alvin Hartman, Harvey Schmitt, Jack Hogan and Frank Moster.

Then there's the church in Arizona with these words on its bulletin board: "You Think It's Hot Here?"

Public Invited to Public School's Budget Hearing

A public hearing of the budget for the coming school year at the Muenster Public School has been scheduled for next Monday night, August 15 in the superintendent's office at 8 o'clock.

Trustees of the district will consider the budget at that time in their regular monthly meeting and all interested persons are invited to attend for the report as well as the board's decision.

Work Begins on Medical-Dental-Pharmacy Center

The Muenster Medical Center, a combine of medical and dental offices and a pharmacy, is on the way, expected to be ready for occupancy in a few months.

Actual date of the completion will depend on how steady the workmen can stay with the job. Dick Trachta of Shamburger Lumber Company said that the project will have to share laborers with other scheduled work of the community.

The building will be located on North Maple Street about a block south of the front entrance of Muenster Memorial Hospital.

Nearness to the hospital is regarded as a special asset that will be helpful to patients, doctors and the hospital. Patients will find it convenient to go only a block for X-Rays and laboratory work and doctors as well as the hospital will find the arrangement a convenience and time saver especially appreciated in emergencies.

Because of it the Medical Center will have no laboratory or X-Ray. Space and investment are saved there while enabling the hospital to get more use out of its facilities.

Another special convenience is the pharmacy in the building. Patients can have prescriptions filled a moment after leaving the doctor's office, before going to their cars.

The building will have central heat and cooling, sheet-rock and textured interior walls and vinyl floors.

The building will have central heat and cooling, sheet-rock and textured interior walls and vinyl floors.

The Lindsay project comes under the jurisdiction of the County Planning Commission organized Monday by the commissioners court. County FHA Supervisor John Cunningham said that the commission must be in operation before the funds can be granted.

Local Herds Are Listed Among Top

Muenster herds are listed among top producers in the monthly report last week released by Cooke County Dairy Herd Improvement Association.

Leon Fleitman's herd was second in both milk and butterfat production and Paul Fisher's herd claimed third in both categories. Vernon Friedrich's cows topped the list.

Figures show Friedrich's herd with 1680 pounds of milk and 54 of BF. Fleitman's cows chalked up 1350 pounds of milk and 46 of BF. Fisher's herd produced 1260 pounds of milk and 43 of BF.

Pete Prescher had the champion individual milk producer. The cow logged a total of 3030 pounds of milk.

A cow owned by F&M Dairy was high in test pounds at 6.3 and a cow in the Richard Frasher herd led in butterfat production with 125 pounds.

A total of 332 cows in eight herds were tested during the month. Eighty-eight produced 50 or more pounds of butterfat. Milk average per cow was 1115 pounds with average pounds of butterfat at 40.

SOIL CONSERVATION DISTRICT NEWS

Upper Elm-Red Soil and Water Conservation District cooperators are encouraged by district supervisors to take a new look at their conservation plan. Same plans that are a few years old need to be updated and revised. Some conservation practices such as terraces, are being constructed different than they were a few years ago.

Now many cooperators with SCS technicians assistance, are planning and constructing parallel terraces. These terraces are the same distance apart and sometimes straight. Parallel terraces are easier to farm and many point rows are eliminated.

A few years ago, waterways were planned and designed for regular gradient terraces. In some cases, additional waterways are needed for parallel terraces. No one can tell by just looking at a field where

parallel terraces can be constructed, according to Cecil Chaney, soil Conservationist at Muenster. The SCS technicians will be glad to work with any cooperator who is interested in parallel terraces. If suitable outlets for the terraces have not been established, then additional waterways can be planned.

Some district cooperators who have recently constructed parallel terraces in the Muenster Work Unit area are: Klement Brothers, Matt Muller, Kleiss Brothers, Arthur Hellman and Martin Trubenbach.

District Supervisors state that gradient terraces may be adequate for the cropping system that is being carried out now, but no one knows what crops will be planted in a few years. A terrace system properly constructed and maintained should last for many years. Therefore, parallel terraces should be considered when planning a terrace system.

Mrs. Thim Honored At Party Before Return to Germany

Returned to Germany to her home near Wittenberg is Mrs. Wilfred Koelzer's mother, Mrs. Rosina Thim. She left Saturday by jet from Dallas after a three-month visit in Muenster... her first trip to America and she said she loved it.

A farewell party was given for her Wednesday by Mrs. H. J. Fuhrman who entertained in her home with an

afternoon Kaffe Klatch. Others there were Mrs. Alfons Koelzer Sr. Mrs. August Walter-scheid and Mrs. Joe Sturm, all German speakers. Mrs. Thim speaks no English. Her visit brought mother and daughter together for the first time in five years — since Paulina Thim came to the U.S. to marry her fiancé. They were engaged while he was with the army in Germany.

In 1965 Texas lumber mills produced approximately a billion feet of lumber — enough to build at least 120,000 homes.

Children and grandchildren from Muenster joined the visitors in a surprise birthday celebration for Mrs. Endres on July 29. It was a family gathering with gifts, birthday cake and other party refreshments.

Mrs. David Endres and children divided time with her parents, the H. N. Fuhrmans.

Salvation Army to Send Truck Aug 16

Household discards are of value to the Salvation Army, notes Major Byron A. Freeman, commanding officer of the Men's Rehabilitation Center for North Texas.

"Summer or winter clothing, bedding, repairable appliances and furniture, and many other household items are always needed. We invite our friends in Muenster to call 759-4311 and a Salvation Army truck will pick up these discards from their home August 15 and 16," he added.

The Salvation Army cleans and rebuilds household items. This process supports the rehabilitation of over 1100 men each year. Through working in Salvation Army shops men seeking rehabilitation learn skills which will help them become self-supporting after graduation from the center.

Household discards are tax deductible, notes Major Freeman. "We furnish receipts which may be used in determining a fair value for deduction on an income tax return," he added. The Salvation Army Men's Rehabilitation Center is completely self-supporting. This branch of Salvation Army work does not receive funds from community drives or governmental agencies.

Proposed CONSTITUTIONAL AMENDMENT NUMBER ELEVEN ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 8, 1966.
SENATE JOINT RESOLUTION NO. 19 proposing an Amendment to Section 49-d, Article III of the Constitution of the State of Texas, declaring state policy regarding optimum development of water reservoirs; providing for the use of the Texas Water Development Fund under such conditions as the Legislature may prescribe by General Law in the acquisition and development of storage facilities and any system of works properly appurtenant thereto; providing for the sale, lease or transfer of such facilities under General Laws; providing for long-term contracts for water storage facilities; authorizing the issuance of an additional \$200,000,000 in bonds by the Texas Water Development Board upon a two-thirds (2/3) vote of the elected members of each house; providing that anticipatory legislation shall not be invalid because of its anticipatory character; providing for the necessary election, form of ballot; and proclamation and publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 49-d of Article III of the Constitution of the State of Texas be amended to read as follows:
"Section 49-d. It is hereby declared to be the policy of the State of Texas to encourage the optimum development of the limited number of feasible sites available for the construction or enlargement of dams and reservoirs for conservation of the public waters of the state, which waters are held in trust for the use and benefit of the public. The proceeds from the sale of the additional bonds authorized hereunder deposited in the Texas Water Development Fund and the proceeds of bonds previously authorized by Article III, Section 49-c of this Constitution, may be used by the Texas Water Development Board, under such provisions as the Legislature may prescribe by General

Law, including the requirement of a permit for storage or beneficial use, for the additional purposes of acquiring and developing storage facilities, and any system or works necessary for the filtration, treatment and transportation of water from storage to points of treatment, filtration and/or distribution, including facilities for transporting water therefrom to wholesale purchasers, or for any one or more of such purposes or methods; provided, however, the Texas Water Development Fund or any other state fund provided for water development, transmission, transfer or filtration shall not be used to finance any project which contemplates or results in the removal from the basin of origin of any surface water necessary to supply the reasonably foreseeable future water requirements for the next ensuing fifty-year period within the river basin of origin, except on a temporary, interim basis.

"Under such provisions as the Legislature may prescribe by General Law the Texas Water Development Fund may be used for the conservation and development of water for useful purposes by construction or reconstruction or enlargement of reservoirs constructed or to be constructed or enlarged within the State of Texas or on any stream constituting a boundary of the State of Texas, together with any system or works necessary for the filtration, treatment and/or transportation of water, by any one or more of the following governmental agencies: by the United States of America or any agency, department or instrumentality thereof; by the State of Texas or any agency, department or instrumentality thereof; by political subdivisions or bodies politic and corporate of the state; by interstate compact commissions to which the State of Texas is a party; and by municipal corporations. The Legislature shall provide terms and conditions under which the Texas Water Development Board may sell, transfer or lease, in whole or in part, any reservoir and associated system or works

which the Texas Water Development Board has financed in whole or in part.

"Under such provisions as the Legislature may prescribe by General Law, the Texas Water Development Board may also execute long-term contracts with the United States or any of its agencies for the acquisition and development of storage facilities in reservoirs constructed or to be constructed by the Federal Government. Such contracts when executed shall constitute general obligations of the State of Texas in the same manner and with the same effect as state bonds issued under the authority of the preceding Section 49-c of this Constitution, and the provisions in said Section 49-c with respect to payment of principal and interest on state bonds issued shall likewise apply with respect to payment of principal and interest required to be paid by such contracts. If storage facilities are acquired for a term of years, such contracts shall contain provisions for renewal that will protect the state's investment.

"The aggregate of the bonds authorized hereunder shall not exceed \$200,000,000 and shall be in addition to the aggregate of the bonds previously authorized by said Section 49-c of Article III of this Constitution. The Legislature upon two-thirds (2/3) vote of the elected members of each House, may authorize the Board to issue all or any portion of such \$200,000,000 in additional bonds herein authorized.

"The Legislature shall provide terms and conditions for the Texas Water Development Board to sell, transfer or lease, in whole or in part, any acquired storage facilities or the right to use such storage facilities together with any associated system or works necessary for the filtration, treatment or transportation of water at a price not less than the direct cost of the Board in acquiring same; and the Legislature may provide terms and conditions for the Board to sell any unappropriated public waters of the state that might be stored in such facilities. As a prerequisite to the purchase of such storage or water, the applicant therefor shall have secured a valid permit from the Texas Water Commission or its successor authorizing the

acquisition of such storage facilities or the water impounded therein. The money received from any sale, transfer or lease of storage facilities or associated system or works shall be used to pay principal and interest on state bonds issued or contractual obligations incurred by the Texas Water Development Board, provided that when moneys are sufficient to pay the full amount of indebtedness then outstanding and the full amount of interest to accrue thereon, any further sums received from the sale, transfer or lease of such storage facilities or associated system or works may be used for the acquisition of additional storage facilities or associated system or works or for providing financial assistance as authorized by said Section 49-c. Money received from the sale of water, which shall include standby service, may be used for the operation and maintenance of acquired facilities, and for the payment of principal and interest on debt incurred.

"Should the Legislature enact enabling laws in anticipation of the adoption of this Amendment, such Acts shall not be void by reason of their anticipatory character."

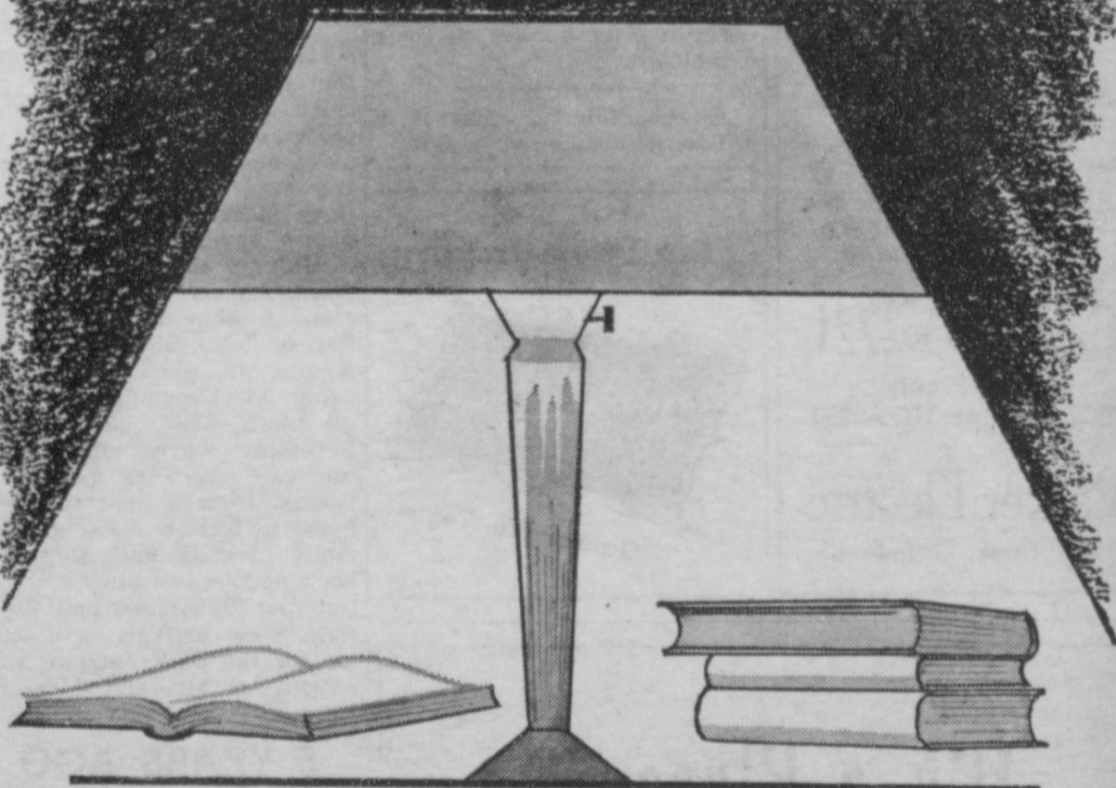

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the first Tuesday after the vote of the elected members of each House, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment authorizing the issuance of an additional \$200,000,000 in Texas Water Development Bonds and providing for further investment of the Texas Water Development Fund in reservoirs and associated facilities."

"AGAINST the Constitutional Amendment authorizing the issuance of an additional \$200,000,000 in Texas Water Development Bonds and providing for further investment of the Texas Water Development Fund in reservoirs and associated facilities."

Sec. 3. The Governor of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this state.

NEW LIGHT ON HOMEWORK...

The school year will soon be under way again and young eyes will be working at one of the most important tasks they'll have in a lifetime... studying.

If there are school children in your family, take a good look at the lighting used for home study. Lamps should provide evenly distributed, glare-free, shadow-free light over the work area. The light source should be close to books and papers, but not so close to cause direct or indirect glare.

You can be sure of adequate and good quality study lighting with specially-designed, economically-priced lamps which are available at electric appliance dealers.

St. Anne's Society Hears Address by Spiritual Director

Members of St. Anne's Society heard a timely and thought-provoking address from their spiritual director, Father Andrew Wewer, who spoke to them at their August meeting Sunday night.

He emphasized "observe, judge and act," and explained: "observe what goes on in your parish and community; judge whether it is good or bad and then act. If good lend encouragement. If bad, strive to eliminate it."

Mrs. Al Walterscheid, president, conducted the business meeting during which Mrs. Wilfred Bindel gave a report on the Catholic League's 68th state convention she attended in New Braunfels. Mrs. Walterscheid added comment. She said Andy Roewe of Windthorst, state president of the League, had mimeographed copies made of all addresses given at the convention and mailed a copy to each parish society president. Hers is available to anyone who wants to read it.

It was announced that the organization is now accepting as members unmarried women of the parish. It is no longer a "mothers' society only."

In other discussions members were asked to write to their congressman expressing thanks for the Madonna and Child postage stamp which will be issued. And the group voted to send a note of thanks to Radio Station KGAF for banning Beatle records.

It was also announced that Mother Love prayerbooks have arrived and may be picked up at Mrs. Al Walterscheid's home. The price is \$3.10.

Mrs. Leo Henschel read a short sermonette on early dating from the organization's official publication.

Twenty-two members were present and Mrs. Bob Knabe won the door prize. Afterward the women joined members of St. Joseph's Society for a social hour and refreshments.

At Iowa Jubilee

Mrs. Ben Seyler, joined by her daughter Mrs. Lambert Bezner and son Jacob of Gainesville, and grandchildren Paul and Aggie Lou Adams of Midland, left Thursday this week for Saint Paul, Iowa, to attend ceremonies in which Mrs. Seyler's three cousins will celebrate their golden jubilees in religious life — 50 years as Franciscan nuns. They are nieces of Mrs. John Fette and are Sisters Aurelia, Adrian and Laudesia of St. Joseph's Convent, Milwaukee. They are observing the jubilee in their hometown.

Are there really any sound reasons for buying a Chevrolet in August?

In a word: Six

1. Have you ever known the instant delight of selecting a new Impala Super Sport in the color you want, slipping into its Strato-bucket seats, and driving it home from the showroom the same day? Now's your chance. Your Chevrolet dealer has a big choice of models on hand with small August price tags.
2. More than likely, your present car will never be worth as much in trade as it is right now. Money—another good reason to buy a Chevrolet this month.
3. Read those articles about when to buy a new car and they'll tell you that August is one of the best months. And your Chevrolet dealer is ready to show you why . . . with buys that are better than ever.
4. If you think winter's tough on an old car, believe us, so is summer. There's added strain on the engine because of vacation driving. Greater tire wear. The cooling system has to work extra hard. A new Chevrolet can save you a lot of trouble.
5. You do a lot of driving for pleasure so why not ride on Chevrolet's Full Coil suspension. Let your feet feel that deep-twist Chevrolet carpeting. August is to enjoy.
6. Make your summer driving safer driving by taking advantage of the eight standard safety features built into every new Chevrolet. If your present car doesn't have seat belts, back-up lights, outside rearview mirror, padded instrument panel, look into a new Chevrolet.

Staffers at Muenster Public Library report a successful summer reading program again this year.

During July the library loaned 1,761 books, requiring 284 hours of volunteer labor, according to Mrs. Joe Luke, librarian.

The reading program will end on August 18 and on that date reading certificates will be presented to children who finished 12 or more books during the summer.

Mrs. Hartman Is Program Leader at Garden Club Meet

Muenster Civic League and Garden Club members heard an interesting discussion on successful cutting of geraniums at their August meeting Monday night.

Mrs. Victor Hartman was in charge of the program and detailed worthwhile information on the subject, including summer and winter care of geraniums. She had on display several of the plants in various stages of growth.

Mrs. Earl Fisher, newly elected president, conducted her first meeting. She asked for a volunteer to head the organization's sanitation committee from which she resigned as she became president, and Mrs. Arnold Rohmer accepted the chairmanship.

A round table discussion on the new year books, which will be compiled for distribution in September, followed. Mrs. Dan Luke is in charge as year book chairman.

Members met at the home of Mrs. Ben Luke with Mrs. Dan Luke as co-hostess. After adjournment they served punch and cookies to 16 members and one guest, Mrs. Anthony Luke.

Centerpiece for the refreshment table was a handsome arrangement of yellow fruits and flowers in a green container which adorned the Lukes' table at their golden wedding anniversary celebration. Members also admired the tiered flower and candle arrangement, created by Mrs. Dan Luke for the anniversary observance. The tall ornament graced the buffet table there. It was on the floor in front of the fireplace in the Luke home.

Reason to fear the consequence. The same principle applies to various other forms of law violation. To all kinds of thievery — grand larceny, burglary, robbery, looting and even hot check writing — to rioting, to vandalism, to civil disobedience, to subversive activity. All of those offenses are criminal to a greater or lesser degree. All deserve adequate punishment, and all of them would be happening less frequently if society had a better record of prosecution and punishment.

Crime prevention that restrains law abiding people along with criminals, or potential criminals, is not the way of a free society. It's better to enforce the laws we have and let the criminals beware.

Lindsay News

Mrs. Alfred Morisak entertained last Wednesday afternoon at her home in Gainesville with an open house honoring her sister, Mother Perpetua of Jonesboro, Ark., who had time only for a short visit. The open house gave the honoree and her relatives and friends an opportunity to be together. Refreshments were served.

When 4-H record books went through the annual judging recently seven Lindsay club members won ribbons on their entries. Ribbon awards went to Carolyn Block, blue in clothing, Betty Mae and Barbara Rohmer and Alice Schad, red in clothing. In food and nutrition Christine Bengfort won a red ribbon and Mary Schad a white ribbon and Dwayne Hellman was a red ribbon winner in sheep.

Miss Janie Benenate returned home Sunday after a week's visit with relatives. Cousins Kenny and Kathy Bezner went back to Dallas with her for a week's vacation.
