Farm Production Reported for 1969 In 5 State Area

Farm production in Texas, Louisiana, New Mexico, Arizona and Oklahoma for 1969 probably will fall a little short of last year's levels. So reports the 11th Federal Reserve District.

Livestock production, with more cattle on feed, will be up about six per cent, but crop production, hurt by the adverse weather, will experience a 10-per-cent drop.

Nonetheless, the estimated farm gross of \$6.1 billion and net of \$2 billion will be slightly higher than last year.

The Benedictine Way

During a recent discussion in the House of the various methods of handling campus dissenters, Rep. Samuel Devine of Ohio read what purportedly were St. Benedict's instructions several centuries ago on the methods of handling trouble-makers:

"If any pilgrim monk come from distant parts, with wish as a guest to dwell within the monastery, and will be content with the customs which he finds in the place, he shall be received for as long a time as he desires.

"If, indeed, he find fault with anything, or expose it, reasonably, and with the humility of charity, the abbot shall discuss it prudently, lest perchance God had sent him for this very thing.

"But, if he has been found gossipy and contumacious in the time of his sojourn as guest, not only should he not be joined to the body of the monastery, but also it shall be said to him, honestly, that he must depart.

"If he does not go, let two stout monks, in the name of God, explain the matter to him."

Worried About America?

In 1914 an American worker had to work six hours and 44 minutes to earn enough to buy a shirt. Today he earns a better shirt in 1 hour and 49 minutes.

In 1914 he worked one hour 37 minutes for a pound of butter; today, 19 minutes.

In 1914 one hour 14 minutes for a pound of bacon; today 22 minutes.

In 1914 12 hours 52 minutes for a good pair of men's shoes; today 6 hours 54 minutes.

List everything you eat, wear, use—the story is much the same. Better machines bought with savings, and better used, produce more at lower cost, and so give everyone a higher standard of living.

And what do we do with our leisure time? In spite of the filth peddlers we read more good books, attend more concerts of serious music, spend more time in museums, donate more time as well as money to charity and education.

Beatniks and rioters may get the headlines (unfortunately) but the decent hard-working Americans go quietly on their way, making this country the envy of the world.

Texas Regulations For Registration Listed by Official

Secretary of State Martin Dies Jr. urged all eligible adult Texans to exercise their constitutional rights by registering. Dies is the state's chief election officer. January 31 is the registration deadline. Dies issued these reminders:

Any citizen 21 years of age or older on the day of an election, who has been a resident of the state for at least one year and a resident of his home county for six months immediately preceding the election, is qualified to register for voting.

Eligible persons may register by personal appearance at the main office, branch office or authorized substitution of the home county tax assessor-collector. Written applications may also be made to the tax assessor-collector.

The husband, wife, mother, father, son or daughter of a voter may act as his agent in registering if the agent is a qualified voter.

A person who moves to Texas after October 1 may register during the regular period or afterward but must have been registered for 30 days before voting.

Any person who will meet qualifications before Feb. 28, 1971, may register during the regular period. Those who will become 21 after January 31 may register during the regular period or afterward.

How about a moratorium asking the Communists to quit killing, maiming and torturing in Vietnam? Or are the leftists who organize moratoria under the impression that when Communists kill, maim and torture it doesn't hurt—or it doesn't make any difference?

Czechoslovakia won't let its Boy Scouts associate with the international scout movement because it might interfere with Marxist-Leninist indoctrination.

—Dallas (Tex.) Times Herald

Farmers and ranchers throughout the United States will receive 1969 Census of Agriculture forms in the mail during January of 1970 and, for the first time, will be asked to fill them out and mail them back, preferably before February 15. The all-mail system assures greater privacy, economy and efficiency, according to officials of the U. S. Bureau of the Census. The results, released only in statistical form with no clue to the identity of any individual operator, provide the yardstick by which American agricultural advancement is measured each five years.

What Kind of People Are We?

Without waiting for conclusive proof that some American soldiers were guilty of atrocities at My Lai, pundits and psychiatrists are discoursing pretentiously about the brutalizing effect of war on the soul of the nation, asking:

"What kind of people are we, anyway?" Well, here is an example of the kind of people we are.

A Viet Cong prisoner of war was brought to the army clinic at Tuy Hoa, Vietnam, with a grenade launched by an M-79, about 1½ inches in diameter, embedded in the side of his face. Air Force ordnance personnel had examined X-ray pictures of the grenade and determined that it was armed ready to be detonated. The clinic at Tuy Hoa had no surgeon skilled enough to remove the highly sensitive projectile, so the prisoner was flown in a helicopter to Qui Nhon, 30 minutes away.

Maj. Alfred B. Watson Jr., commander of the clinic, went along to keep the patient quiet while breathing thru an incision that had been made in his throat. Every precaution was taken during the flight to prevent any pressure which might ignite the fuse of the grenade.

At Qui Nhon, Lt. Col. Thomas H. Witschi, a surgeon, and M-Sgt. Lee R. Miller, a demolition man, took over. It was considered too risky to move the prisoner into the army hospital so the helicopter was used as an operating room. While Sgt. Miller held the man's head, Dr. Witschi, using a pen knife for a scalpel, enlarged the hole in the cheek and delicately pushed the grenade out with his fingers.

The man is alive and well, thanks to the humanitarian instincts of Americans who risked their own lives to save the life of an enemy who would have killed all of them if he had had a chance.

Traders of America will sav, of course, that this was only an isolated incident of war, from which no generalizations can be made about the character of the American people. They do not hesitate,

however, to impute guilt and an essentially barbarous character to the American people as a whole on the basis of an isolated atrocity—if there was an atrocity.

Black Studies Not So Popular

The fiery controversy that raged around the implementation of "black studies programs" in many of the nation's colleges and high schools apparently has burned itself out. At least as far as Negro students in the District of Columbia are concerned, and the black studies kick is a flop.

Recently defeated in a reelection bid for the Washington school board, a black militant bragged that he had forced the board of education to introduce Swahili into D. C. high schools by getting "50 students to come down and raise hell."

But as the old saying goes, the proof is in the pudding. Out of more than 50,000 Negro students enrolled in junior and senior high schools, only 150—that is one-third of one percent—have signed up for the course. Additionally, less than five percent of the Capital's black students are enrolled in black studies programs of any kind.

Obviously, the business of getting an education that will be of value later on in life is far more important than pursuing ridiculous ideological tangents. And Washington's black students know it.

UN, Spy Beehive

The Federal Bureau of Investigation says the United States is the prime espionage target of the Russian KGB (committee for state security) and GRU (soviet military intelligence). And the United Nations headquarters in New York teems with members of these two spy agencies . . . along with other espionage experts from the Communist satellite nations in Europe and elsewhere.

A Soviet defector, quoted by the FBI, said 70% to 80% of all personnel assigned to a Soviet diplomatic establishment work in the intelligence field. Last year the total of Soviet officials in this country reached 573.

Nor are Russian spies all in their diplomatic establishment. Many are actually employed in the U. N. secretariat itself.

Good reason, all told, not only for getting the U. S. out of the U. N., but also for getting the U. N. out of the U. S. Politics

Red Enterprise

Some people say capitalists are greedy individuals who look out for themselves first and pay no mind to their fellows. In fact that's one of the reasons some of the intelligentsia around the colleges and universities say they want to destroy the capitalist system and replace it with socialism.

We thought of that when we read the following from U. S. News and World Report:

"Swiss banking sources report a noticeable rise in the amounts of money being deposited in secret, numbered accounts owned by East European Communists. This is taken as a sign of declining confidence in the present leaders of the Soviet Union."

No fewer than three Chicago churches, it was discovered recently, were found to be providing facilities for the militant Black Panther Party to hold classes on guerilla warfare tactics and the teachings of Communist leader Mao Tse-tung.

2200 Scholarships Available

A happy and rewarding college life is available to 1,200 young men entering college this year through the Army ROTC scholarship program. This program enables students to earn a college degree and an officer's commission at the same time.

There is still time for high school seniors to apply for one of the 1,200 four-year scholarships offered at 280 colleges and universities by the Army ROTC program. The awards, which pay full tuition, textbooks and lab fees, plus a \$50 per month subsistence allowance, are available on a competitive basis to outstanding high school graduates entering college for the first time in the fall of 1970. Applicants must be at least 17 years old by October 1, 1970.

An additional 1,000 scholarships, 600 two- and 400 three-year scholarships, are also available to college students already enrolled in the Army ROTC program. These awards also pay for tuition, textbooks and lab fees, and also provide the \$50 per month allowance for the duration of the scholarship.

The ROTC scholarships enable students to earn a college degree and an officer's commission at the same time. After graduation, these young officers are assigned to positions of responsibility which take advantage of the man's individual education and skills. Young officers receive more responsibility—for the management of men, the nation's security, and for hundreds of thousands of

dollars worth of equipment—than most college graduates. Many graduates, especially those with scientific or technical educations, can qualify for graduate study at government expense after they enter active service. All graduates have opportunities to continue their education in Army schools throughout their military service.

Deadline for requesting application packets for the four-year scholarship awards is December 31, 1969. The completed applications must be received by the Army by January 15, 1970. Since scores from the Scholastic Aptitude Tests or the American College Testing Program are considered in the selection process, young men interested in these scholarships are urged to take one of these examinations before December 6, 1969, so that the scores will be available to selection boards.

Detailed information on applications for the four-year scholarships are available by writing: Army ROTC, Fort Monroe, Virginia 23351. Information about the three- and two-year scholarships may be obtained from the professor of military science on college campuses with Army ROTC

Health Department Inspectors Visit Meat Processors

Even though the State of Texas has been given a year's reprieve by the federal government, and the new meat plant inspection law will not become effective here until Dec. 15, 1970, State Department of Health inspectors are making visits to all plants which process meat and poultry.

Since October they have contacted 2,200 plants, including locker plants. Report is that only 916 of those had ever seen a health inspector before.

Each plant operator is advised of the basic cleanliness standards which must be met before a meat plant even can be inspected. Rules range from "keeping all pets and loose livestock out of the plant" to "remove all insecticides, pesticides or rodenticides" from the areas in which food products are stored, processed or retained.

Next year, the processing plants will have to pass inspections or be closed. So far, no plant has been put out of business, but some have folded up voluntarily when they saw the sanitary requirements they will have to meet.

So, if your favorite locker plant operator told you he couldn't process your deer this year because of the State Health Department, he was wrong. But he may be right in the future.

"You think so much of your old golf game," complained the wife, "that you don't even remember when we got married."

"Of course I do, honey," he assured her. "It was the day I sank that forty-foot putt."

Market Soaring In Mobile Homes

With rising building costs putting conventional homes out of the reach of many families, sales of low-cost mobile homes are skyrocketing.

According to the Mobile Homes Manufacturers Association, one out of every six new housing units of all kinds, including single-family houses and apartments are mobile homes. One mobile home was shipped for each three single family house on which construction was begun in 1968.

The modern mobile home is vastly different from the "house trailers" of World War II vintage. They were generally eight feet wide and 30 feet long. This size unit is still being built, but it accounts for less than one-half of 1 per cent of sales, while the 12-foot-wide unit accounts for 88 per cent of industry sales at present. These units

range in length from 40 to 70 feet; the 60-foot unit is most popular. The balance of industry sales consists of "double-wides" which consists of two units joined lengthwise. The mobile trailer industry dominates the budget-priced home market (under \$15,000).

City Sets Hearing On Annexation

A public hearing on annexation of the site on which the Wilfred Koelzers are building a new home will be held Monday, January 19, at 7:30 p.m. in the city hall.

A special notice of the hearing was issued at the city council's regular meeting Monday night in response to a request by Koelzer when he discovered that his location is just outside the city limits. Municipal law requires that the opportunity for a hearing must be provided for persons interested in the annexation.

The area concerned is described as "Lot No. 5 of the Herb Miller Addition," which is in the northwest part of town.

It's a tough world for the American businessman. Every time he comes up with something new, the Russians invent it a week later and the Japanese make it cheaper.

Californians Are Honored on Visit

A New Year reunion with dinner in the home of Mr. and Mrs. Albert Zimmerer was the last of several that honored Mr. and Mrs. Robert Billner of Cupertino, Calif., during their visit with her parents, Mr. and Mrs. John F. Zimmerer at Lindsay. Mrs. Billner is the former Dorothy Zimmerer.

The Californians arrived on Dec. 25 by air after visiting his parents in Detroit, Mich. Meeting them at Love Field were the Zimmerers and their other daughter Mrs. Frank Novacek of Fort Worth.

All the family was together on Christmas evening in the family home for dinner and a gift exchange, including Mr. and Mrs. Albert Zimmerer and children, Mr. and Mrs. Frank Novacek and son of Fort Worth and Mr. and Mrs. Ernest Wolf and sons. Mr. and Mrs. Billner entertained by showing their colored slides.

On Dec. 26 the family was together at the home of Mr. and Mrs. Ernest Wolf and on Sunday there was another reunion in the home of Mr. and Mrs. Novacek in Fort Worth.

"I need a job, Senator," insisted the voter from the lawmaker's home constituency. The Senator thought a moment.

"Well, I'll tell you," he said, "there aren't any jobs available. But here's what I'll do. I'll get up a committee to investigate why there aren't any jobs. And you can head that committee."

One way to be sure that crime won't pay would be to let the government run it.

Muenster High Teams Trimmed In Games at Krum

Muenster High's Hornets have a 30-B standing of 2-1 and the girls have a standing of 1-3 since their pair of losses at Krum Tuesday night. The girls went down in a tight 27-21 contest whereas the boys were clobbered 77-33.

The Hornets took a lead of 11-6 in the first quarter and played second best the next three periods. They still led 14-11 at half time but were tied 19-19 in the third period and trailed by 6 points at the end. Scorers for MHS were Debbie Yosten 12, Doris Felderhoff 6, Sue Flusche 3.

The other game was a case of extra hot and extra cold as the hosts piled up the points with a 60 to 70 percent record of hits while the Hornets got less than 25 per cent. Coach Charles Cash said they made 16 out of 65 field goal tries and 1 out of 11 free throws. Krum made 11 of 14 free throws and well over half of the field goals. Hornet scorers were John Monday 9, Gerry Cash 8, Tom Henscheid 6, Bobby Bruns 4, Jim Endres 4, John Schneider 2.

Last Saturday night on the Muenster High court the Hornets and Valley View's Eagles made up the game which had been missed on December 9 because of Hornet participation in post season football. The program was a double header of A and B boys teams with Muenster winning the main event 69-56 and losing the other 51-23.

The Hornets gained in the first two periods for scores of 17-12 and 38-24. In the third Valley View trimmed 5 points off the Hornet lead, and in

the fourth Muenster improved its lead by four. Scorers for the Hornets were John Monday 22, Gerry Cash 13, Robert Bruns 12, Jim Endres 11, Tom Henscheid 7, John Schneider 4.

The B game was an exhibition of good shooting and slick ball handling by the undersized visitors while Muenster reserves had a miserable shooting record. They hit 10 out of 60 field goal attempts and 3 out of 18 free throws. The young Eagles' percentage was about 50 on both the single and double point shots. Point makers for MHS were Carl Endres 10, Lynn Joe Klement 4, Hank Trachta 4, Allen Fleitman 2, Eddie Knabe 2, Ricky Swirczynski 1.

Next games for the Muenster High teams are at Lindsay Friday night and at Slidell next Tuesday night.

Confetti - - -
that our national debt is greater than the combined debt of all the other nations. We are tired of being told we have the duty to pay more but a pipsqueak country has a right to vote as big as we do.

To our way of thinking this country can do something about the situation if it wants to. Furthermore, it can do so in good conscience. The fact that we were originally suckered into a bad deal does not obligate us to keep on paying through the nose. We have a right to say that henceforth we'll pay only our rightful share and the UN will not remain here. Whatever answer the UN gives would be a welcome reduction in our budget. Incidentally the change would likely bring also an improvement in the country's prestige. Nations, like people, get more respect when they demand it.

Regarding the other budget trimming to fit the tax reduc-

tion, one can see some possibility in the fact that the government has 10.7 million persons on its payroll. We wonder, are they all needed? Does the country really benefit from some dozens of appropriations which serve only to create jobs for unneeded employees? Is it necessary for federal employees to receive higher average pay than us other people?

There's little doubt that resourceful congressmen can find ways to justify the recent tax cut.

A research director of a major agency was ordered to prepare a study about fleas. He put a flea on his desk and trained it to jump over his fingers at his command. Then he pulled out two of the flea's legs. "Jump," he ordered and the flea still jumped. Two more legs came off. Again the flea jumped. Finally, he pulled off the last two. "Jump," he commanded. The flea did not move. With that, the director wrote his report: "When a flea loses all six legs, it becomes deaf."

City Sets Hearing On Annexation

A public hearing on annexation of the site on which the Wilfred Koelzers are building a new home will be held Monday, January 19, at 7:30 p.m. in the city hall.

A special notice of the hearing was issued at the city council's regular meeting Monday night in response to a request by Koelzer when he discovered that his location is just outside the city limits. Municipal law requires that the opportunity for a hearing must be provided for persons interested in the annexation.

The area concerned is described as "Lot No. 5 of the Herb Miller Addition," which is in the northwest part of town.

It's a tough world for the American businessman. Every time he comes up with something new, the Russians invent it a week later and the Japanese make it cheaper.

Californians Are Honored on Visit

A New Year reunion with dinner in the home of Mr. and Mrs. Albert Zimmerer was the last of several that honored Mr. and Mrs. Robert Billner of Cupertino, Calif., during their visit with her parents, Mr. and Mrs. John F. Zimmerer at Lindsay. Mrs. Billner is the former Dorothy Zimmerer.

The Californians arrived on Dec. 25 by air after visiting his parents in Detroit, Mich. Meeting them at Love Field were the Zimmerers and their other daughter Mrs. Frank Novacek of Fort Worth.

All the family was together on Christmas evening in the family home for dinner and a gift exchange, including Mr. and Mrs. Albert Zimmerer and children, Mr. and Mrs. Frank Novacek and son of Fort Worth and Mr. and Mrs. Ernest Wolf and sons. Mr. and Mrs. Billner entertained by showing their colored slides.

On Dec. 26 the family was together at the home of Mr. and Mrs. Ernest Wolf and on Sunday there was another reunion in the home of Mr. and Mrs. Novacek in Fort Worth.

"I need a job, Senator," insisted the voter from the lawmaker's home constituency. The Senator thought a moment.

"Well, I'll tell you," he said, "there aren't any jobs available. But here's what I'll do. I'll get up a committee to investigate why there aren't any jobs. And you can head that committee."
