

# MUENSTER ENTERPRISE

VOLUME XXXV

MUENSTER, COOKE COUNTY, TEXAS 76252 NOVEMBER 27, 1970

NUMBER 1

This week it's a pleasure again to call attention to this paper's birthday. As indicated by the volume and number of this issue, the Enterprise is beginning its thirty fifth year, so it has something special to be thankful for on this Thanksgiving Day of 1970.

This column could not let the occasion pass without repeating what has been said many times in the past. The Enterprise is most grateful. It appreciates its subscribers, including a number of old faithfuls who have been on the mailing list since the start. It appreciates the business people who have used these advertising columns to convey their sales messages. It appreciates all the cooperative friends who have reported items of interest to help us fill the news columns.

Likewise it appreciates its patrons of the commercial printing department. The Enterprise, like most other weeklies, could not make ends meet strictly by publishing. It needs the additional business to keep going, and it is grateful to all who have their printing done here.

Another big reason for gratitude is our good fortune in being part of a thriving community. For many years Muenster has been considerably ahead of most other towns its size in business activity and progress, and, we admit thankfully, some of its success has rubbed off on us.

That thought suggests another reason which ought to register on every American this Thanksgiving Day. We have the good fortune of living in the United States, the land of freedom and opportunity. We are living the good life, enjoying higher standards of comfort, luxury and health than any other people on earth. That's because we have the free enterprise system in which each individual is able to do as he pleases and to achieve as much as his ability permits. It is the system which produced our abundance, a blessing to consumers as well as producers.

Americanism is also the system of personal freedom, where people can come and go as they please, work where they please, worship as they please, and vote as they please. This is the country in which subversives and nitwits make long and loud complaints about the establishment but do not exercise their freedom to leave it. The situation suggests a contrast for which we can be thankful. Discontented people over here don't leave even though they are not detained. Discontented people over there are risking their lives to get away.

While thanking Almighty God for all those blessings, we are probably more aware this Thanksgiving than ever before that it's an occasion to ask God for continued blessing. We are dangerously close to losing our way of living and we desperately need to understand that our only hope is to restore the values which made our country great. We need to ask God for the guidance and character and perseverance to work our way out of the mess we have made in the past generation or two.

So very much has to be done to get our system back on its original course. In the field of crime there must be a realization that permissiveness and over-solicitude for a criminal's rights are contributing to crime. Society is not improved by the present wave of misguided humanitarianism. It is only mocked. Everyone knows that conditions were better when criminals had to pay for their crimes. Well, why don't we restore those old standards?

Concerning the alien isms, we have a serious threat that has already gone too far for comfort. When subversives and subversive literature are allowed to circulate freely, especially on the campuses, when mobs are allowed to assemble and defy the law and burn and loot and preach treason, when the people who advocate such treason are allowed on the faculties or in government or in vital industrial positions, isn't it time to notice that we are headed for serious trouble?

The economic confusion is another indication of the country's departure from traditional standards of fairness and justice. Inflation and recession are both haunting us and (Continued on page 8)

## A Meaningful Holiday

The Spirit of Thanksgiving encompasses many principles and ideas which deserve daily as well as annual tribute. Certainly, Thanksgiving Day is a meaningful and cherished holiday, and it is right that we have set aside a special occasion to count our blessings and good fortune. In so doing, let us be continually grateful that we live in a land where people can still laugh, dream, hope, and speak their minds and worship as they please.

Our Founding Fathers had great vision. They saw for the future of our country a promise of hope, right, justice, freedom, and equality for men and women who braved the dangers to enjoy these blessings from God. And all but the most cynical would have to admit that our Nation has made extraordinary progress in striving for these goals. No other country has ever done more to promote the spiritual and material needs of its citizens.

A noted American author and editor once stated, "There never was a land that better deserved the love of her people than America, for there never was a mother-country kinder to her children. She has given to them all that she could give. . . Millions upon millions of men have lived here with more comfort, with less fear, than any such numbers elsewhere in any age have lived. Countless multitudes, whose forefathers from the beginning of human life on earth have spent weary lives in unrewarded toil, in anxiety, in helplessness, in ignorance, have risen here, in the course of even a single generation, to the full and secure enjoyment of the fruits of their labor, to confident hope, to intelligent possession of their own faculties. Is not the land to be dearly loved in which this is possible, in which this has been achieved?" Truly, this American was imbued with the spirit of Thanksgiving.

Our Nation does possess a heritage which is unique in the history of man. But today this heritage with its religious ideals and moral principles means practically nothing to many Americans. They do not seem to recognize nor appreciate the rewards of self-government. To them, duty, individual responsibility, enterprise, self-respect, and obedience of the law are tenets of oppression.

They demand and expect "the good life," but without personal sacrifice or effort. The true meaning of Thanksgiving, as experienced in the humble and devout tribute by the early settlers, is lost on them.

Let us earnestly join in the observance of Thanksgiving. But let the spirit of Thanksgiving not be a scheduled sentiment which we turn on once a year. Rather, let it be an abiding testimony, a recognizable symbol of our daily faith — and faith in ourselves, our faith in our country, and our faith in God.

## 16 Boys, 26 Girls Report for SHHS Basketball Teams

Sixteen boys and twenty girls reported to Tom Joy last week as candidates for the Tiger and Tigerette basketball teams at Sacred Heart High.

For the boys especially it's going to be a busy season including a number of games and tournaments with area teams along with a double round robin schedule with the other six schools of the Texas Independent Schools Conference.

The girls list is somewhat shorter. Only three of the six TISC opponents have girls teams. They are Greenhill, Fort Worth Day School and Fort Worth Christian. However the Tigerettes share the area schedule with the Tigers and have a few additional games.

First action for Sacred Heart's teams will be with Lindsay Wednesday night on the SH court. Next week they'll host the Callisburg teams Tuesday night and play in a weekend tournament at Callisburg.

The boys roster is headed by four of last year's lettermen: Gary Endres, Tim Bindel, Ross Felderhoff and Bill Bartush. The others, mostly freshmen, are Kevin Pels, Kenny Hess, Melvin Luke, David Krah, Jeff Fette, Phil Endres, John Bartush, Mike Luttmer, Ernie Martin, Larry Bayer, Steve Taylor and Cletus Bayer.

Ten lettermen top the list of Tigerettes. They are Teresa Hoedebeck, Linda Voth, Denise Walterscheid, Nancy Endres, Nanci Fuhrmann, Donna Kay Endres, Donna Marie Rohmer, Peachie Schoech, Darlene Walterscheid and Peggy Sicking.

Others are Gayle Sicking, Yvonne Gehrig, Flo Hess, Ann Bartush, Sue Endres, Mary Bartush, Peggy Hoedebeck, Darlene Wolf, Christi Koessler, Estelle Martin, Shirley Becker, Donna Knabe, Margie Hesse, Karla Yosten, Alanie Yosten and Barbara Knabe.

## Gets Bronze Star Medal

Army Specialist Four Herbert D. Nance, son of Mr. and Mrs. Arnold Schilling, recently received the Bronze Star Medal in Vietnam. The medal recognizes outstanding achievement and was presented to the 20-year-old soldier for meritorious service in connection with military operations in Vietnam against hostile forces. Spec. 4 Nance received the award while assigned as a helicopter crewchief with Battery A, 377th Artillery of the 101st Airborne Division (Airmobile). He is a graduate of Saint Jo High with the class of 1969, entered the Army in May 1969, took basic at Fort Bliss and was later stationed at Fort Rucker, Ala. He also holds the Air Medal for valor.

## Dr. Graham Talks At JETS Meeting

Dr. Gerald Graham, Muenster dentist, told members of the Junior Engineering Technical Society that a college education is an important foundation for their future, and a student should attend even though he or she has not chosen a career.

He was guest speaker at the regular JETS meeting held Wednesday night of last week in the TP&L building, explaining the educational background, internship, and equipment requirements necessary to begin the practice of dentistry.

A student report on noise pollution was presented by Debbie Sicking stressing the damage done to ears by present noises. Unless the noise level is drastically reduced, she said, people will communicate by sign language within three decades.

A field trip to Weber Aircraft was planned for December. Twenty five members were present.

## First Communion Received Sunday By 39 Children

Thirty-nine second graders of Sacred Heart School carried lighted candles in a procession as they entered the sanctuary of Sacred Heart Church Sunday at the 9 a.m. Mass and renewed their baptismal vows before they received their First Communion. It was the feast of Christ the King.

Entrance hymn by the Junior High Choir, directed by Sister Yvonne was "All The Earth Proclaim The Lord." Mary Lou Kralicke was organist.

Father Placidus, pastor, witnessed the renewal of baptismal vows and celebrated the Mass in the presence of parents, relatives and friends of the communicants.

At the offertory while the choir sang "Of My Hands" gifts were taken to the altar by Communicants Benji Luke, Janet Dangelmayr, Brian Grewing, Jill Walterscheid, Monte Endres and Sherie Felderhoff. John Zimmerman carried the Christ Candle.

When the children went into the sanctuary to receive Communion for the first time, the choir sang "Wisdom Has Built Herself a House." The recessional was "Praise the Lord."

Mass servers were Danny Sicking, Kevin Sicking, Myron Hess, Gary Endres and Danny Endres.

Members of the communion class are Marceline Bartel, Angela and Virginia Bartush, Craig Bayer, Diann Caplinger, Sherie Felderhoff, Colleen Fette, Brian Grewing, John Hartman, Floyd Haverkamp, Stephen Hennigan, Donna Hess.

Kellye Kim Klement, Margie Knabe, Benji Luke, Troy Lutkenhaus, Betty Luttmer, Jamie Moser, Anita Reiter, Greg Rohmer, Denise Sicking, Nancy Sicking, Dean Swirczynski, Giles Wayne Truebenbach, Jill Walterscheid, John Walterscheid, Shellie Walterscheid, Teddy Walterscheid, John Zimmerman.

Janet Dangelmayr, Monte Endres, Lisa Hennigan, Brenda Henschel, Tammy Henschel, Sammy Hess, Gina Hofbauer, Kirk Mollenkopf, Jon Stephens, Troy Wolf.

## KCs Will Have Memorial Service Sunday, 2 o'clock

Deceased members of the Muenster Knights of Columbus Council will be honored next Sunday at the organization's annual memorial service starting at 2 o'clock in the K of C hall.

Father Bede Mitchel, chaplain, reminds all council members of the event and urges them to be there and join in prayers for their departed brothers. Members are also reminded that their wives will be welcome.

Specially invited are wives and children of the deceased members.

## Use of Feed and Soil Testing Lab Gains at CCJC

Tommy Davidson, chairman of the Cooke County Junior College agriculture department, states that more and more farmers and ranchers are utilizing the CCJC soil and forage testing laboratory so that they may realize maximum return on each dollar invested in feed and fertilizer.

Davidson emphasized the value of testing by relating that the protein content of legume hays may vary from 17% or higher to as low as 6%. For grass, the protein content may vary from 12% or higher to as low as 3% depending on fertilization program and the stage of maturity of the forage at the time of harvest.

Bruce Baker, who heads the college's testing lab, says that the best procedure for a person to follow if he would like a protein-content test on his hay is to bring one to three representative bales of hay to the college between 8:00 a.m. and 4:00 p.m. Monday through Friday.

It takes about ten minutes to take a core sample and the results will be available in 36 hours. The lab charges \$2.50 for a test of one-type forage or seed for protein content.

Baker stated that the new lab has run 64 forage and feed tests and 94 soil tests. Soil testing is expected to increase as the time for spring planting nears.

If the going seems easy, you just might be going downhill.

## Red River Bridge Project Revived

The long dormant project of a Red River bridge to accommodate this area was suddenly awakened during the past weekend by a news report from Oklahoma City stating that the proposed crossing has been given priority status by the Oklahoma Highway Department.

According to the report, the Highway Department has decided that the next bridge it builds across Red River should be located in Love County west of IH 35 and east of US 81. The exact location was not specified.

The news is welcome to people of Muenster, Saint Jo and Nocona, all of which are a convenient distance from the crossing. For all of them it will eliminate more than two thirds of the present mileage to communities north of them across the rivers. It also has possibilities of serving heavy future traffic between Oklahoma City and Fort Worth. It is on the bee-line between those two cities.

The report pointed out the direct distance between IH 35 and US 81 bridges on the river is 47 miles, and a bridge in Love County is needed to better serve the area between them. Estimated cost of construction, including six miles of connecting roadway, is \$2,187,000.

Another project, given second high priority in the Oklahoma plans, calls for a bridge across Red River east of the bridge serving Paris, Texas, and Hugo, Okla.

Both projects are included in an Oklahoma program which has been approved for the next five years. However both still have to be coordinated with the Texas Highway Department with regard to sharing cost and assuring road connections on both sides of the river.

The report states that in more than 300 miles, not counting curves, of Oklahoma's southern border, there are 14 river crossings and the 47 mile

gap between IH 35 and US 81 is one of the larger ones. It estimates that savings in time and money to road users and new sources of revenue that will become possible will more than offset construction costs.

Factors considered in setting the priorities were distance between existing crossings, traffic desires, area population, connections with local trade centers, recreational potential, adequacy of present crossings and integration into the state highway system.

## Jimmy Robison Is A&M Graduate

Jimmy Don Robison is among 1166 students applying for mid-term graduation at Texas A&M University on December 12. He is seeking a BS degree in agricultural education.

Jimmy is a son of Mrs. Earl Robison and a graduate of Muenster High School. In recent months he was a student teacher at Whitesboro.

## Boy Scout Banquet Set for December 8 At County College

At recent District Committee Meeting plans were announced for a Scout Leaders Recognition and Parents Banquet on Tuesday, December 8, at Cooke County Junior College. All Cub Scouts, Boy Scouts, Explorers, their parents and leaders are invited.

The program is being held particularly to recognize the dedicated efforts being made by leaders in training boys in citizenship according to Troy Idiam, Chairman of the banquet. Features of the program will be a report by Bob Pirtle on the Idaho National Jambooree, and a talk by an Eagle Scout in the Borean International Fellowship Troop at Dallas. This young man credits Scouting as being the only security he had in his life for many years.

## Highway 82 Plans Revealed at Hearing

About sixty persons from Muenster, Saint Jo, Nocona and Gainesville were here Tuesday to hear about plans for expanding Highway 82 between Muenster and Saint Jo into a four lane divided highway.

The occasion was an official hearing sponsored by the Texas Highway Department at 2 p.m. in the auditorium of Muenster High School.

Frank S. Craig, district construction engineer of Wichita Falls, opened the meeting explaining that the road will extend from the creek just west of Muenster to the southeast corner of Saint Jo following the course of the present road. The plan is to build an additional road of two lanes with a median between the roads. For 1.1 mile west of the Muenster creek the new road will be north of the present road. For the rest of the distance to Saint Jo it will be south of the present road.

The group's attention was directed to a series of maps and drawings indicating where right of way will be required. Craig said that Cooke and Montague counties are responsible for acquiring the right of way and that the state shares the cost with the county. Construction cost will be shared

## SH Thespians to Present Drama on Nov. 29 and Dec. 1

Sacred Heart High School's National Thespian Chapter will stage its first production of the current term Sunday, Nov. 29, with curtain time at 8 p.m. in the Parish Hall.

The play is John Brown's Body, an adaptation of Stephen Vincent Benet's epic poem. It is drama with a high quality of excitement.

Only three students portray all the characters in the cast. They are known as Actor A, Actor B and Actress C and are Kevin Swirczynski who plays three roles, Bill Bartush who enacts three roles including John Brown and Donna Rohmer who plays all the feminine characters.

Also included is a chorus which provides background music, sound effects and short audio parts.

Peggy Endres, senior, is directing with Mary Lou Kralicke, junior, music director, and Doris Schmitt, junior and Myron Schmitt, sophomore, in charge of lighting. Cletus Bayer, junior, is stage manager.

The thespians will give a repeat performance on Tuesday, Dec. 1, also in the Parish Hall at 8 p.m.

## Artist Evangelist To be at Baptist Church Here Dec. 5

Muenster Baptist Church will have as a guest Saturday, Dec. 5, Larry Lorenz, artist evangelist who literally "draws" men to Christ with his chalk talks.

The service will begin at 7 p.m. and the local congregation invites everyone to attend. With a deft blending of artistic ability, unusual lighting, and dramatic sound effects, the young evangelist presents the Gospel in a manner to capture the attention and imagination of twentieth century audiences.

He has traveled extensively in city-wide and church crusades throughout the U.S. and Cuba and the British Isles. He and his wife Ruth hope to go to the foreign mission field after his graduation from Southwestern Baptist Theological Seminary in the spring.

## 15 from SHH Get Essays Published

Certificates of Acceptance for essays to be published in the semi-annual Anthology Young American Speaks, were presented to fifteen Sacred Heart students November 24 at a general assembly. These certificates were awarded for essays submitted in the National Essay Contest.

The National Essay Press Awards were received by Bill Bartush, Donna Endres, Myron Hess, Darlene Wolf, Wayne Grewing, Teresa Hoedebeck, Mary Bayer, Denise Walterscheid, Karolyn Schoech, Joanie Rohmer, Alan Hess, Peggy Sicking, Gloria Stoffels, Donna Rohmer, and Mary Lou Kralicke.

equally by the state and the federal government.

Another speaker was Roy Lanford, district right of way engineer of Wichita Falls. He asked interested persons to study the maps and drawings during a recess period and bring up problems, if any, at a question period later. He also explained relocation policies of the Highway Department, as required by law, then added no one will be relocated on this project, so the policies will not concern anyone.

Questions and answers were recorded for sending to the State Highway Department. Persons were also told that questions or comments in writing will be accepted for ten days after the hearing.

The overpass in Muenster, principal concern of most local people, is not a part of the project. It was pointed out that planning could not be definite until MK&T decided what to do about its tracks and the rest of the planning could not wait.

Nevertheless a report on local wishes was submitted and recorded. Mayor Mike Sloan told the highway officials of the city council's resolution to request a provision for passage of children under the highway when going to the city park. He said the city is not particular about the kind of structure, whether a widening of the present overpass or only a crossing over Maple Street, just so the children have a safe passage.

Sloan also said that as mayor he was pleased to welcome the group to Muenster and he was happy to see that the important area improvement was about to begin.

Other Highway Department personnel at the meeting were Joe Maxey, district relocation agent of Wichita Falls, John Simpson, supervising resident engineer of the Gainesville office and Judy Lutkenhaus, secretary of the Gainesville office.

## Edd McGannon's Brother Dies in Kansas on Nov. 23

Mr. and Mrs. Edd McGannon learned of the death Monday night of his brother Patrick McGannon, 75, of Overland Park, Kansas, in St. Joseph's Hospital at Kansas City. He had a heart attack a year ago from which he never fully recovered.

Survivors include his wife; three sons Eugene, Dr. Paul McGannon and the Rev. Barry McGannon, SJ, dean of arts and sciences at St. Louis University.

Funeral services were held Wednesday at Overland Park. The local couple were unable to attend on account of health reasons.

## MHS Teams Divide Pair of Contests With Whitesboro

Muenster High's basketball teams opened their 70-71 season Tuesday night by dividing a pair of games at Whitesboro. The girls dropped the first one 53-18, the boys won the second 57-47.

Coach Charles Cash was very pleased with the Hornets as they seemed to be in mid-season form. After a slow start they trailed 16-11 at the first quarter, then started hitting their stride and gained steadily. At half time they led 33-22 and at the third quarter it was 50-29. With 2 minutes to go and a 17 point lead the MHS youngsters went in and Whitesboro narrowed the margin.

Hornets scorers were Gerry Cash 22, Jim Endres 20, John Schneider 9, Glenn Felderhoff 3, Mark Lippe 2, J. D. Rumley 1.

Muenster girls were about three quarters late in getting organized, and even then they were only playing on fairly even terms with the home team. Scores for the first three periods were 17-6, 27-7 and 43-10 as MHS was poor at floor work and worse at shooting. Their evening's record was 5 field goals out of 27 tries and 8 hits out of 34 free throws. The scorers were Doris Felderhoff 15 and Joan Monday 3.

Next action for the teams will be with the always potent Prairie Valley teams next Tuesday night on the Muenster court. The following weekend they are entered in a tournament at Whitesboro.

### FWCC Announces Awards Program On Conservation and Anti Pollution

The Fort Worth Chamber of Commerce launched what may be the largest state conservation and anti-pollution campaign in the nation when it began work on a greatly enlarged Texas Conservation Awards Program.

This state-wide program, now in its 28th year, was assumed by the Fort Worth organization last year and five new environmental improvement programs were added for the first time this year.

Under the direction of a committee headed by Walter R. Humphrey, new categories for competitive awards added this year include air pollution control, water pollution control, waste disposal, beautification and environmental improvement — industry or plant.

In all, awards are presented

in 25 categories to individuals, firms, cities, schools, and clubs such as FFA or 4-H. A special essay contest for high school students is also conducted and this year's theme will be "Our National Environment — Preserve and Protect It."

All entries in all contest divisions must be submitted by February 15, 1971, when the Fort Worth Chamber and the Texas State Soil & Water Conservation Board begin judging programs.

This week the Chamber sent out more than 3,000 programs and an equal number of entry forms to the 188 soil and water conservation districts in Texas. Originally founded by Humphrey, who was the editor of the Fort Worth Press, the contest was primarily aimed at recognizing efforts to save Texas soil.

The 1971 awards dinner to crown the new champions will be held in the Student Center Ballroom of Texas Christian University for the second year, with TCU joining the Chamber as host. The state dinner is planned for May 1, and five regional dinners will follow.

### The Foundation Of America

It was 350 years ago, on a cold November 11, 1620, when the Pilgrims set their hands and seal to a document with words etched into the rock of history:

"Having undertaken for the glory of God, and advancement of the Christian Faith, and honour of our King and Country, a voyage to plant the first colony in the Northern parts of Virginia, do by these presents solemnly and mutually in the presence of God and one another, covenant, and combine ourselves together into a civil body politic, for our better ordering and preservation, and furtherance of the ends aforesaid; and by virtue hereof to enact, constitute, and frame such just and equal laws, ordinances, acts, constitutions, and offices, from time to time, as shall be thought most meet and convenient for the general good of the colony, unto which we promise all due submission and obedience."

This was not just a "covenant," or agreement, between the colonists; it was a covenant with God himself, the architect, builder, and ruler of the universe.

The idea of covenanting was nothing new to the Pilgrims; it had been a practice of long standing, and it was to continue all throughout the founding of America. All through the early documents, leading to the American Revolution, the Declaration of Independence, and the Constitution of the United States, one finds frequent reference to the "laws of God," or the "laws of Nature," or the "laws of the Universe," terms which seemed to be used interchangeably. We read that the founding fathers "searched the scriptures" to seek out the guidelines whereby the laws of the land would be in conformity with, in tune with, and in accord with the Laws of God. The theory was that a nation so tuned into, or geared with, the inexorable and perfect laws of God, would be a successful nation, a functioning society.

Fifty years before the Mayflower Compact, we find, in the year 1570, a pronouncement of faith which reads: "We believe the Word of God, contained in the Old and New Testament, to be a perfect rule of faith and manners. . . ." And nearly five generations later, in 1772, Samuel Adams was to write:

"The right to freedom being the gift of God Almighty . . . may best be understood by reading and carefully studying the institutes of the Great Law Giver . . . which are to be found clearly written and promulgated in the New Testament."

These were the ideas which constitute the foundation of America.

### A Thanksgiving Prayer

We give thanks that thirty-five decades ago the Pilgrims landed in the new world.

We give thanks that they persevered and established principles of liberty and opportunity which formed the basis of our society.

We give thanks that they solved the monumental problems of their day in what must have seemed a cruel and hostile land.

We give thanks that they saw their problems, not as barriers, but as opportunities to build a better life for themselves and for future generations.

We pray that we of this generation will have as great courage and resourcefulness as our Pilgrim forefathers to solve the problems of today.

### Revised Program For Home Builders Announced by FHA

The supply of modern housing in Cooke and Montague Counties may be expanded by a new cooperative effort with private industry announced today by John D. Cunningham, county supervisor for the Farmers Home Administration, rural credit services of the U. S. Department of Agriculture.

"From now on, builders, developers and others in the home buildings and financing fields can work directly with prospective borrowers to 'package' applications for rural housing loans," Cunningham said.

"Participation in the packaging program," he added, "will be limited to those who can provide all the necessary information about the home, assure its delivery at a specified price, and can work directly with the applicant family."

He explained that the packager will assemble reliable information on the applicant and the home he wants to buy, build or improve. They will submit the data on forms supplied through the local Farmers Home Administration office at Room 215, Federal Building, in Gainesville, Texas. When the information about the building and applicant is complete, the loan can be approved and funds made available by the FHA.

Families residing in communities of 5,500 population or under are eligible to apply for FHA loans. They must be unable to obtain adequate credit from private sources. Approved borrowers receive direct financing through FHA.

"The first step for a prospective packager is to meet with the FHA county supervisor to obtain detailed information about eligibility requirements for a loan and the type and cost of homes the agency can appropriately finance," Cunningham said.

In general, he explained, the family must lack decent, safe and sanitary housing, must be unable to obtain credit from other sources and must

### Hitting Where It Hurts

The item didn't get a very big play in the nation's press, but it's dollars to doughnuts that the administrators of colleges and universities will not let it pass unnoticed. We refer to a New York City small-claims court ruling that New York University had violated its contract by closing the school for nine days of student riots, and thus owed a \$277 tuition refund to Roger Paynter, a city fire department employee, who's son had been prevented from attending classes.

This, of course, has been the point made by Young Americans For Freedom right along; that a school catalog describing the courses of study to be offered, the semester hours earned, and the fees charged for the enrollment in said courses constitutes a valid contract, or agreement, between the parties concerned, and that failure on the part of the school to provide the courses of study, as described, is an out-and-out breach of contract.

Studies have revealed that the ringleaders and instigators of campus riots have been composed largely of off-campus, non-students "professional revolutionaries," combined with neighborhood punks and punks with only a tiny handful — not more than one to two per cent — of legitimate student participants. And many of that tiny student minority have been revealed as free-loaders or "rich kids" who appeared to be in school for no serious purpose, other than to avoid working for a living or ducking military service.

In the meantime, the vast majority of hard-working students, many of them attending school only because of genuine sacrifice on the part of responsible parents, have been the victims of administrative permissiveness.

We hope that the decision of the small-claims court in New York will signal a return to sanity, and responsibility, in the academic community.

In 1968, the farmer received 39 cents of the dollar the consumer spent for food produced in the United States, one cent more than in 1967. In the past ten years, the farmer's share ranged from 37 to 40 cents.

### Soviet Supermarket

In the Intelligence Report section of Parade magazine, Mr. Lloyd Shearer reports on the efforts of the Soviet Union to develop U. S.-style supermarkets. He observes, "... the Soviet Union is introducing American-style supermarkets with shopping carts and check-out stands. The first one in downtown Moscow . . . is exclusively for the use of foreigners with hard currency. . . . The Soviets, of course, do not reveal that the supermarket is an American development." But, it's no secret, according to Mr. Shearer, that most of the supermarket equipment now finding its way into Russia is manufactured under licenses from the Americans, because they "... are the ones with the original know-how. . . ."

It will probably be a long time before the average Soviet housewife will be able to enjoy the benefits of a genuine U. S.-style supermarket, and perhaps she may never have that opportunity. Meanwhile, she must continue to wait in line interminably to buy the necessities of life at the local "gastronome". In contrast to the U. S. shopper, she cannot take her patronage to a competitor across the street. There is no free market in the Soviet Union.

**Drunk Driver Is Primary Target of Proposed New Law**

AUSTIN — State officials, headed by Gov. Preston Smith himself, came down hard on the need for significant changes in the law as it applies to traffic safety here this week during the Second Annual Governor's Public Support Conference on Traffic Safety.

Traffic safety "is a problem which outranks crimes such as murder, rape, assault, and civil disorder by at least ten to one in the number of victims," Governor Smith told the group.

"It is time now for us and our fellow Texans to demand the legislation necessary to eliminate the bloodshed, the heartbreak and the tragedy caused by careless and irresponsible driving."

The Governor's appeal was re-emphasized by two other officials, Col. Wilson Speir, director of the Department of Public Safety, and Ross Rommel, the state's traffic safety administrator. Both also pointed to the convening of the 62nd Legislature in January, and the need for positive legislative action.

The Governor indicated he would recommend several positive law changes when the Legislature meets. "I am dedicated to getting drunk drivers, problem drinkers and chronic violators off the streets and highways of Texas," he said.

He expressed doubt, however, that the Legislature would pass needed laws unless the citizens make representatives aware of their concern. "Nothing can be done," the Governor said, "unless citizens like you join together and demand that our Legislature enact needed and proven legislation."

The primary target of the Governor's traffic safety legislative recommendations appear to be the drunk driver, who the Governor said is responsible for one-half the traffic fatalities in Texas. But he was quick to point out that the drunk driver he wants removed from the highway is the problem drinker.

The best analyses information available indicates that less than seven per cent of the more than six million licensed drivers in Texas are responsible for the human toll laid to drunk drivers.

Col. Speir, the state's top law enforcement official, also expressed his concern about the drunk driver. "Of cardinal importance is a change in the laws that relate to drunk drivers," Col. Speir said. "Enforcement officers in Texas are frustrated by provisions of the current law which enable drunk drivers to keep on driving."

Tarantulas have no sense of hearing.

**Wedding Reception**

Following the ceremony, the bride's parents entertained with a reception at the Catholic Hall. The bride's table was covered with white net and taffeta and draped with garlands of Southern smilax and white satin bows. Centering the table was a large silver candelabra on which the bridesmaids placed their bouquets. The three-tier wedding cake and punch were served from this refreshment table.

Arranged on the groom's table were autumn flowers and foliage and dark cake and

Leo Herr of Oklahoma City, former Muenster resident, was back in town Tuesday visiting relatives and making pop calls on old friends.

Dennis J. Hess, a representative of Aetna Life & Casualty at Dallas, has been awarded a certificate upon completing Aetna's 27-part career course for life insurance representatives. The course includes a study of increasing the effectiveness of personal life insurance programs and the business life insurance plan. Dennis is a son of Mr. and Mrs. Al Hess, a graduate of North Texas State University, and lives in Richardson.

Mrs. Ruth Schlaudroff, chairman of the Science Department, stated the new equipment would be used primarily in the Wildlife Conservation and Environmental Biology Courses, and would make possible the broadening of potential offerings in other courses.

It pays to advertise with the Muenster Enterprise.

**Do you know how hurricanes start?**  
Hurricanes are born over tropical seas, usually during late summer and early fall. They need two "fuels" to start them and keep them going. One is moist air, the other is heat.

**Do you know what a mint is?**  
A mint is a place where money is manufactured under government authority and supervision. The foundations of modern minting were laid by the Romans. They minted silver coins in the Temple of Juno Moneta as far back as 269 B.C. Moneta became the Latin word for "mint," or "coin," and the source for the English word "money."

**What do you know about homonyms?**  
Have you ever heard a person talking about a large stake and wondered whether he meant a steak dinner? Have you ever written "sum" when you really meant "some"? Or have you heard a proud mother boast of her son as the sun of her life? Words that sound alike but are spelled differently are called homonyms. The term comes from two ancient Greek words: *homos* ("same") and *onyma* ("name").

**NEW TECHNOLOGY**

In order to continue to provide reliable electric service to all customers, TP&L is constantly seeking ways to improve construction techniques. New methods help improve service and help TP&L keep electric rates at the lowest possible level.

However, like its customers, TP&L is feeling the money pinch, too. Increases in the cost of borrowing money for expansion, increased costs of materials, increased fuel costs for generating electricity, increased taxes and TP&L wage increases have placed a heavy burden on the Company to maintain electric rates at the level of the 1950's.

Nevertheless, in the future the Company pledges to provide an ample supply of electric power for all customers - at a continued reasonable cost.

**Oil-Gas Production in Cooke County Exceeded \$29 Million During 1969**

Cooke County's petroleum industry produces 9,005,498 barrels of crude oil valued at \$28,900,848 and 3,074,240 thousand cubic feet of natural gas valued at \$421,171 for an annual economic value of \$29,322,019. These figures, just released by the Texas Mid-Continent Oil and Gas Association, show the county ranked 47th among state counties in oil and gas production during 1969. Texas production which has registered an increase over each previous year during the past decade hit another all-time high in 1969 with 1,151,775,000 barrels, according to U.S. Bureau of Mines statistics. This is a production increase of 24.2% since 1960. "Production from Cooke County helped meet this record demand," says Kenneth E. Montague, Association President. "We are now calling on it and the rest of Texas to meet an even greater demand as events in the Middle East have again forced us to dip

into our declining reserves. Unfortunately, the price for Texas oil is inadequate to stimulate enough exploratory drilling to replace reserves." Cooke County landowners and others with mineral interests received \$3,665,252 in royalty payments last year. Texas received \$1,329,439 from crude oil production taxes and \$29,903 from natural gas production taxes.

Estimated drilling expenditures totaled \$3,010,674 with \$1,308,435 of that amount spent on dry holes yielding nothing for the driller. Ira Rinehart's Yearbook showed drillers completed 77 oil wells and 57 dry holes. Twentytwo wildcats were drilled with 20 of them dry.

The county's oil and gas processing plants also added to the economy. The Oil and Gas Journal listed 3 natural gasoline plants with a capacity of 35.0 million cubic feet daily.

Reports from the Texas Employment Commission show some 561 persons were directly employed by the oil and gas industry in the county with an annual payroll of \$3,532,120.

K. King.

Mr. and Mrs. Carl Hoffman of Iowa Park stopped by for a visit with their aunt at the home in the morning.

Mrs. Blanton the former Ora Pryor, was born on Nov. 23, 1880 and married Mr. Blanton in 1912. He operated a hardware store at Myra and she worked as a bookkeeper-cashier at the Myra bank for a number of years. They had one child who died at birth. After the Myra cyclone destroyed their home they moved to Valley View. Both later were residents at the Gainesville nursing home and he died in June 1969.

Other highlights of the 90th birthday party were gifts including a large potted mum and picture taking of the honoree and party scenes.

Sacred Heart High physics class heard an interesting report, along with demonstrations, presented by Donna Rohmer bringing back to her class knowledge she gained at a physics conference in Denton.

Among facts and demonstrations she presented to her classmates was a demonstration on vertigo which the students themselves did in class. It showed how a person can lose his sense of direction and position.

This was proven by having a blindfolded student sit in a revolving chair with no contact of anything around him while two other students moved the chair round and round without stopping it. The blindfolded student, indicating with his hands, lost his sense of direction and could not tell if the chair was stopped or moving.

Donna also reported on some lectures from the conference, which included a review of the NASA program, use of natural gas as a remedy for pollution, and a lecture on sin waves. Also included was some lab work with laser beams and crystals which cause refraction of light.

About One Year Delay Expected in Liquor by Drink

Half a dozen new amendments have been added to the Texas Constitution, including one authorizing sale of liquor-by-the-drink. Passage of Amendment 2, however, does not mean automatic mixed drink dispensing. Amendment merely repeals the ban on open saloons and empowers the legislature to pass a law regulating liquor-by-the-drink.

Starting next January, lawmakers must first act to establish procedures, licensing requirements and regulations. Then, local option elections must be held to determine where mixed drink sales are wanted by voters.

Many observers feel there actually will be no legal sales of booze over the bar in public establishments before the end of 1971. Others think preliminaries will be disposed of in some areas by mid-year, but that would mean passage of the bill by a two-thirds majority to place it in immediate effect. More likely effective date of legislation is next September, with elections to follow.

Other constitutional changes would provide for:
\* Disciplinary action, including censure, of all judges.
\* Appointed (by governor) three-man State Building Commission.

\* County issue of road bonds up to one-month of assessed value of all local real property, on majority vote of property taxpayers.
\* Increase from \$5,000 to \$10,000 in value of homestead which is exempt from forced sale.

\* Laws permitting all counties to consolidate certain services and offices.
Amendment to permit farm land assessment on the basis of crop yield was defeated.

American consumers spent \$104 billion for food in 1969.

CCJC Displays Travel Mementos From Miss Hicks

Making a continuing contribution to education, Miss Layuna Hicks is sharing mementos of her travels with students and faculty at Cooke County Junior College. The English department has featured two displays of items from Miss Hick's travels in the glass showcases south of the entrance to the college library.

Currently, crystal, china, pewter, cloth, and knitwear from the Scandinavian countries are featured. Some are antique items. The display for the previous fortnight dealt with Germany and countries behind the Iron Curtain.

Miss Hicks, former chairman of the English department at the local college, has often lectured to literature classes since her retirement, showing colored slides and collector's items. During the spring semester she will show slides of the Oberammergau Passion plays to an audience of students and local citizens.

In commenting upon Miss Hick's generosity in lending the items on display, Dean Walt DeLany said, "Miss Hicks has touched many lives, not only through her teaching career, but also through her encouragement of students and educators and her willingness to share her experiences with the community."

Confetti

both are evils brought on by some sort of unfair practice. Deficit government spending is a big offender. When more money is put into circulation to absorb the deficit it causes all money to lose some value. So, inflation is a legalized way of stealing from people who have saved. Unjustified wage and price raises are other forms of stealing. And so is living on welfare when a person can earn his own way. These evils and more are threatening to wipe out the blessings for which we are thankful on this Thanksgiving. Let's keep that in mind as we say thanks for past favors, and ask for the Divine guidance that will help our leaders restore the standards that used to prevail in this country.

Lindsay CYC Is Sponsoring Drive For Used Clothing

CYC members are going to form a choir and all interested members are reminded to meet with Sister Imelda on December 2. The program was a film, "Phoebe," shown by Sister Imelda, spiritual director, who led a discussion on it afterward. Refreshments were served after adjournment. G. Williams, Gainesville, John Otto.
