NUMBER 41

News reports a few days ago told about another anti-Vietnam crackpot — or criminal, call him what you wish — who was arrested for threatening the life of President Johnson. He said something to the effect that the only rifle he wants is one aimed at the president.

Very appropriately, he was promptly taken into custody. As any reasonable person will agree, the proper place for someone like that is an asylum or a prison — depending on whether he's judged a nut or a criminal. This column hasn't heard any more about him but sincerely hopes that he'll be in a safe place for a long time.

Contrasting sharply with that case are a couple of others concerning hate preaching by civil rights leaders during the past weekend. Both of them openly urged their crowds to murder, riot, arson and various other crimes of violence if their demands are not met. Their threats on the lives and property of white people were no less menacing than the individual's threat to LBJ, but they were not apprehended. Why? Is it because our national leaders have gone to such an extreme in the civil rights issue that they fail to recognize when it drifts into crime?

The whole sorry mess is alarming to the extreme. If it is allowed to go on and on it can eventually lead, as some black leaders have been preaching, to riots and mass murders that would make previous violence seem mild. Then why isn't something done to stop it?

Why, especially, isn't someone paying heed to FBI warnings that the ugly influence of communism is involved. J. Edgar Hoover's men have proof that many of the loud mouth agitators are reds, and the methods are typical of the communist conspiracy to wreck a country. We wonder how it's possible for men at the top, so well aware of FBI's thoroughness, integrity and dedication, to ignore the warning. The situation is especially frustrating because the solution is so simple. Just let Hoover's men round up the known reds and other criminals.

No doubt, there are people who would consider such action as an attempt to sabotage the entire civil rights effort, to deprive the Negroes of their leaders. That need not be the case. Rather the removal of subversives and criminals could help the civil rights movement by eliminating crime and violence. It would make room for Negro leaders of more discretion and fairness, men of less arrogance and more reasonable wants, whose ideas would provoke less hostility among the whites.

It is a fact that millions of Americans once sympathetic to the civil rights movement are getting sour on it. And millions of others reluctantly willing to accept some changes are getting bitter. And some who were bitter from the start are ready to accept the "black power" challenge. It's all understandable too. Arrogant blacks with federal backing have been overbearing and insulting. Besides, their demands as well as some accomplished gains have actually violated the civil rights of other people.

One example is the open housing demand. There are thousands of cases in which social and financial distress have resulted after Negroes moved into white neighborhoods. The immediate effect was a plunge of property values near by, because no white family was willing to rent or buy there. The condition was further aggravated by the fact that Negroes permitted the property to run down and generally were less desirable as neighbors. Eventually the whites sold at a terrific loss and moved away, and landlords had to accept less rent while watching their investment depreciate.

That isn't just a hateful accusation. It is something that has happened thousands of times, and every incident was a violation of someone's rights. So, who can blame the people of Chicago and Cicero for their counter demonstrations? Rightly they think that they too have civil rights. Rightly they feel that Negroes should develop their own neighborhoods rather than be neighbor in and take at their

Page Moves Into New Store, Grand Opening Delayed

Maurice Pagel is in business in his new store but his job of getting organized there is far from finished. Groceries were moved in during the past weekend and clothing and shoes are to be moved in during the coming weekend. Meanwhile air conditioning equipment and a walk-in refrigerator are being moved this week from the old store.

Even then the store will have to wait a while for its formal opening. Maurice said there will be a final clearance sale in the old store to dispose of items that will not be stocked, for instance piece goods.

After that the old building is to be moved away and the area paved for a parking lot. Then Maurice expects to be ready for a formal opening.

Meanwhile people are starting to register for a few dozen attendance prizes to be given at the formal opening. Visitors are invited to register as often as they come. No obligation, no purchase is necessary.

SH School Chosen To Pilot Diocesan Religion Project

The first grade teachers of Sacred Heart School are attending a workshop in New Jersey this week in order to pilot a religion program in the school. Father Meyers, the Diocesan Superintendent of Schools, has asked Sacred Heart to participate in the project for the Diocese of Dallas-Fort Worth.

Since Sister Angeline and Sister Henrietta are gone for the week, the first grade pupils have one more week at home before beginning classes. As originally planned, the first grade pupils were to attend only in the mornings during the first two weeks and were to be dismissed at their lunch hour, 11:30. Now however, the first graders will come to school on September 6 and will stay until one o'clock throughout the week. The teachers will then make home visits during the afternoons and evenings to make up the additional time.

Beginning Monday, September 12, the first grade pupils will have full day classes. The Metropolitan Readiness test will then be administered to all pupils after the home visits have been completed.

The new religion program to be introduced in the first grade this year will be explained at a later date.

BIRTHS

Dr. and Mrs. Larry Tisdale have welcomed a daughter, their second girl, Cindy Ann, born at Muenster Hospital Saturday, Aug. 27, 4:04 a.m. She's an eight pound 15½ ounce sister for 15-month-old Teena. The grandparents are Mrs. W. Roy Tisdale of Temple and Mr. and Mrs. Earl Chumley of Tomball. They were all here over the weekend to see the new baby. Also weekend visitors were Mrs. Tisdale's sisters, Betty, Ruby, Jerry Sue and Omalee Chumley, who accompanied their parents. Mrs. Tisdale remained for an extended visit with her son and family. Dr. Tisdale and family moved to Muenster in July. He's a veterinarian.

Proudly announcing a six pound five ounce son are S. Sgt. and Mrs. Don Wilson of Fort Hood. The little boy arrived Wednesday afternoon, Aug. 31. He's named Danny James and is a brother for Bobby. The grandparents are Messrs. and Mmes. John Herr and Nig Wilson. Mrs. Hattie Burk of Myra is the great-grandmother.

From Hereford comes announcement of the birth of a daughter to Mr. and Mrs. Leonard Walterscheid. The six pound eight ounce girl arrived August 24 and is a baby sister for four other girls and one boy in the family. Mr. and Mrs. Frank Walterscheid of Hereford, formerly of Muenster are the paternal grandparents. The maternal grandparents live in Amarillo.

The government statisticians show concern over the fact that 25% of American families live beyond their incomes. Look who's talking.

Hornets Tie Allen In First Practice

Coach Glenn Richardson was encouraged by his Muenster Hornets in their first encounter of the season last Friday night. The boys broke even with Allen High in a scrimmage session.

To start, Muenster marched 80 yards to a score, then Allen did likewise. After a while of other practice they got back to regular scrimmage and each team scored again.

During the other practice, the Hornets were convinced that their defense needs improving. Allen, trying its goal line offense, completed three drives from the 15.

The evening also assured Richardson that most positions are determined as the team shapes up nicely. Ken Stormer, only veteran back of last year has been joined by former linemen Wayne Klement and Chris Cain, the latter being quarterback. Two other seniors, Glenn Klement and Terry Cason were the stalwarts of the line and got lots of help from Don Hartman and Tommy Trachta.

The squad this year is the biggest ever at Muenster High, a total of 33 men. Two weeks ago the group started with 27 and eight more reported when classes started Monday. But two dropped out after the first day and the count now stands at 33.

Most of those are youngsters: 15 freshmen and 8 sophomores along with 5 juniors and 5 seniors.

This week the Hornets are handicapped in their practice by wet weather but are working on the weak spots they discovered last week, hoping to be considerably improved for their second practice scrimmage Friday night. It will be with Bowie B on the Hornet field starting at 7:30.

Zone 3 of Soil District to Elect New Supervisor

A new supervisor for Zone 3 of the Upper Elm-Red Soil and Water Conservation District, to succeed Tony Walterscheid, will be elected at a special meeting Tuesday, October 4, at 7:30 p.m., in the TP&L Community Room in Muenster.

Walterscheid announced that he is not a candidate for reelection. After serving on the board for ten years he is ready to step aside and let someone else have the position.

The selection concerns all of Zone 3, which includes Muenster, Myra, Lindsay, Era, Leo, Hood, Rosston, Bulcher, Marysville and Sivells Bend communities. All interested farmers of the area are urged to attend.

August Rain Sets 15 Year Record, Total Is 6.94 in.

The wettest August in Muenster since 1950 has just ended. The total on Steve Mosler's Weather Bureau records was 6.94. The 1950 record was over 10 inches. Next wettest August since then was last year's 5.29.

That record was topped by last week's rains measuring 1.83 and setting the total to then at 5.89. Since then 1.05 inch has been added, mostly the past Monday.

The year's rainfall to date now stands at 30.16, about four inches under the normal total for a full year. Average for the past ten years has been 34.17 inches.

Planning Starts On 4 Lane Road West of Town

A plan to make Highway 82 a four lane road to the Cooke-Montague county line is currently under consideration by the state Highway Department. Engineers L. B. Dean of Wichita Falls and Jack Simpson of Gainesville discussed the project last Friday in a special meeting with county commissioners and representatives of Gainesville Chamber of Commerce and the City of Gainesville.

They were planning for the first step of the project — securing right of way for two additional lanes from Muenster to the Cooke-Montague line. At this time all right of way is secured for the additional lanes east of Muenster and the project awaits construction.

Another project discussed at the meeting is a by-pass route east and south of Gainesville joining Highway 82 and Interstate 35.

Course Booked For Dairy Farmers

A dairy short course on milking machines and milk secretion will be held September 12 through 15 under sponsorship of Muenster High School vocational agriculture department, Edgar Dyer, ag teacher, announced this week. Anyone interested is welcome to attend.

Joel Hillin, dairy specialist with the Texas Education Agency and Texas A&M University will be the instructor. He conducted a course here two years ago and returns with materials on latest developments of the dairy industry.

The first meeting involves a discussion of milking machines and milking cows, especially in relation to avoiding injury. Management factors to prevent mastitis and screening tests to detect abnormal milk will also be discussed.

Persons wishing to attend are asked to notify Mr. Dyer. An entry fee of \$2.00 will be charged. Dairy short course certificates will be presented to those who attend all sessions.

Tigers Will Host Gainesville B in Practice Thursday

Joe Felderhoff's Sacred Heart Tigers will get their first test of this football season Thursday night when they meet Gainesville's B "Kats" on the local field. Kickoff time is 7 o'clock.

And it will likely be a tough one, according to Coach Felderhoff's guess. In a practice scrimmage the Kats mauled Valley View three touchdowns to one and had plenty of steam left at the end. The team has enough depth to wear down the average Class B outfit.

Nevertheless the Tiger boss is confident that his team will do all right. With eight of last year's starters and nine more experienced boys on the job, he thinks they are ready for their strongest start of recent years.

Heading the array of veterans will be Larry Hess at fullback and Leon Endres at quarterback and Robert Klement at halfback. To clear the way up front there will be Ted Endres, Joe Bayer, John Streng, Jerry Yosten and Andy Klement.

Up to now the Tigers have spent most of their time on offense and Felderhoff is confident they will be able to move the ball. This week they are concentrating on defense, hoping to get sufficiently organized for the Thursday scrimmage.

After that they have a week to correct mistakes before taking on one of the toughest foes of their schedule, the Saint Jo Panthers.

Elm-Red District Sets October 8 For Grass Judging

Members of the Upper Elm-Red Soil and Water Conservation District board of supervisors have set Oct. 8 as the date for the annual grass judging contest.

The contest, which is open to all Future Farmers of America Chapters and 4-H Clubs in the three-county Upper Elm Red District, will be held at Cooke County Junior College. Registration opens at 8 a.m., and the contest will get underway about 9 a.m.

Both junior and senior divisions will be held again this year. Junior division entries must be first-year students.

H. Strategier, of Oklahoma Dies

Henry Joseph Strategier, 88, of Norman, Okla., well known in Cooke County, died at his home last Wednesday, Aug. 24.

Funeral services with Requiem Mass were held at Norman in St. Joseph's Church at 10 a.m. Saturday and burial was in St. Joseph's Cemetery. Rosary services were conducted at Mays Funeral Home Friday at 7:30 p.m.

Strategier was born in Dubuque, Iowa, and moved to Norman from Cooke County in 1905. He was married at Lindsay to Miss Rose Sandmann. They returned frequently during the years, the last visit about a year and a half ago. He owned and operated the City Plumbing Co., in Norman, from 1921 to 1948 when he retired.

Surviving are his wife; two sons, Henry R. of Norman and Paul W. of Big Bear City, Calif.; two daughters, Mrs. Michael Letzo of Lawton and Mrs. Rosalie Cavanaugh of Norman; two brothers, Ben and John, both of Norman and four sisters including Mrs. Alois (Mary) Klement of Norman. Also 18 grandchildren and several great-grandchildren.

Andrew Schoech, Wilfred Reiter, Al Haverkamp, Tony Rohmer, Herman Stoffels and Pat Hennigan, and Dale Felderhoff, Pat Hennigan Jr., and Joe Fisher Sr., all of Muenster, accompanied by Mr. and Mrs. Herbert Pulte of Needles, Calif., who were visiting the Fisher relationship.

Messrs. and Mmes. Bill Sandmann, Julius Sandmann, Frankie Sandmann, and Virgil Neu, Mrs. Leon Neu and son, Miss Ethel Sandmann, Paul and Edward Sandmann, all of Lindsay; Mr. and Mrs. Henry Sandmann of Valley View, Miss Frances Spaeth of Denison, Mrs. Bob Davis of Hobbs, N. M., and Jeff Strategier of Big Bear, Calif.

Muenster Schools Gain 4 in Combined Count, Set New High of 762

Enrollment figures this year at the two Muenster schools indicate a gain of four in the combined count for a new record high of 762.

Another feature of the enrollment is a huge gain at the public school and a corresponding drop at the parochial school. Two factors account for the many transfers. Sacred Heart limited its classes to meet accreditation requirements of the Texas Education Agency and also increased its tuition charge. As a result some students had to be turned away and considerably more transferred to save money.

The gain at the public school is equivalent to the total enrollment of the high school department. The count last year was 184 — 97 in elementary — and 87 in high school. This year it is 305 — 184 in elementary and 121 in high school.

The big increase called for immediate changes in operation and schedules, all of which were accomplished during the weekend.

One was to build an additional class room in the elementary department. It was done by a partition cutting off about one third of the previous lunch room area. Though still needing finishing touches it was ready Monday morning for Mrs. Selby's sixth grade class of 28.

Also two more elementary teachers were needed. Whereas three used to teach the first six grades, the system now has one for the combined first and second and one each for the next four grades.

One of the additional classrooms in use is that used last year for the pre-school program. That means more space will have to be provided if and when money arrives for another pre school program.

The tentative plan, says Superintendent Bruns, is to give the band room to pre schoolers and use the auditorium for band practice.

Another problem is in the athletic department where 33 high school boys are jamming the dressing room. A white frame building behind school is considered for remodeling to provide locker and dressing room space for junior high.

Enrollment Gain Adds 2 Teachers At Public School

A boost of enrollment at the Muenster public school, with the count of the elementary department almost doubling that of last year, has required the addition of two teachers. They are Mrs. Edgar Dyer and Mrs. James Fisher, both in the grades, increasing the school's faculty to seventeen.

Their assignments were announced as follows by superintendent L. B. Bruns.

Mrs. Josephine English, grades 1 and 2.
Mrs. Carol Dyer, grade 3.
Mrs. Carol King, grade 4.
Mrs. Ina Fisher, grade 5.
Mrs. Prudence Selby, grade 6.

Junior high and senior high school are departmentalized with teacher assignments as follows.

Edgar Dyer, agriculture.
Mrs. Jane Weinzapfel, home-making.
Allen Harshburger, shop and mechanical drawing.
Mrs. Marie Mosman, science.
Miss Bettye Dodds, commercial.
Carl King, mathematics.
Mrs. Phyllis Coffey, English.
Garelo Payne, band and music theory.
Mrs. Patsy Sloan, library.
Glenn Richardson, coach and physical education.
George Petrus, principal and social studies.
L. B. Bruns, superintendent and driver education.

In addition there are two counselors assigned to the school one day a week by the county superintendent's office. Ben Hardy for grades 7-12 is here Thursdays. Tom Fluker for grades 1-6 is here Tuesdays.

Subiaco Alumni Sponsors Benefit

A general invitation is extended by the North Texas Chapter of Subiaco Alumni Association to come and have fun and help a worthy cause at the organization's annual benefit picnic. It will be held at the Muenster Parish Hall Sunday afternoon, starting at 2 o'clock.

Attractions are the usual picnic features — games, eats, and drinks and the opportunity to visit with friends.

At night, beginning at 9 o'clock, there will be a dance with music by The Imposters.

CALIFORNIA, HERE WE COME!

One thing is sure, in the next four months California will witness a migration unique in its experience. Political men and money will flow into the state as never before — for the battle in California.

States treasury is available, the administration will fight on with dollars as well as with promises for every vote.

Political expenditures can be masked in a thousand ways, all for the "uplift" of the voters.

Hundreds of experts in manipulating votes as well as administrators of government funds soon will be pouring into California, and all at the taxpayers' expense, under the guise of necessary federal cooperation at state and local levels.

California will be a testing ground of the effect of recent growth of federal power and authority.

RIGHT AND WRONG

In its day-to-day operations, law enforcement deals primarily with one of the most elemental concepts of mankind — the difference between right and wrong. Over the years the citizens of this country, through their representatives in Congress and State Legislature, have written our Nation's concept of this difference into our laws and statutes.

Unfortunately, the concept of right over wrong is not as clear and strong in the hearts and minds of present-day Americans as it was in the hearts and minds of our forefathers. Acts that are wrong, illegal, and immoral are condoned or ignored by much of our society. Many persons have no compunction about committing illegal acts because they feel secure in the knowledge that if detected, they stand an excellent chance of "beating the rap." To their way of thinking, even though guilty, "justice is served" if they can escape punishment through legal loopholes or technicalities.

The increasing number of youthful criminals on our streets leads to the inescapable conclusion that many of our young people are not being taught, by word or example, the simple difference between right and wrong. Permissive parents who pamper their children are in fact failing their children. In many homes, weak alibis and excuses are replacing the teachings of the Ten Commandments, and the Golden Rule is obsolete. Some young people who should be receiving moral training, discipline, and guidance in their homes, schools, and churches instead are left to the guiles of false leaders. The distinction between right and wrong becomes distorted and seemingly unimportant to these impressionable youth.

Our birthright of freedom and liberty would not have been gained had men of Valley Forge and Bunker Hill let their convictions lie listless in the bottom of their hearts. Neither will these precious rights be preserved unless we do more to uphold Lincoln's strong belief that "right makes might."

All citizens must earnestly rededicate their thoughts and actions to the principles on the Stone Tablets. Let every person, young and old, in his personal, business, and social life, proudly stand for what he believes to be morally right, lawabiding, and honorable. We live in a republic famed for its freedoms, including the freedom of choice. When it comes to choosing between right and wrong, let us be certain we perpetuate this freedom by making the right choice.

—John Edgar Hoover, Director

A FAMILY PROBLEM

Comparing a family budget to federal spending policies sheds much light on current economic conditions in the United States. A family that is living beyond its income and in debt up to its eyes should seek ways to cut spending to the bone. The head of the family should work to encourage economy by incentive measures; the mother should contribute by trimming the family budget; luxury purchases should be frowned upon.

Government is simply a collective family. There is one great difference. Government has the power to take money from its citizens by taxation and inflation-producing deficit spending. In this manner, it can survive living beyond its means for long periods. But, the ultimate end for a family or a government, if thrift is not encouraged, is trouble.

It is time to apply the breaks to free-wheeling spending by government. It is also time for the individual family to curb its demands for gifts and toys from government.

A recent survey attempts to divide women into two classes. The careless ones who lose their gloves and the careful ones who lose only one glove.

HOW LUCKY YOU ARE

You haven't by any chance had a recent experience, have you, that has left you a little shell-shocked from paperwork and form-filling-out?

You have? What a coincidence! Here's a morsel of comfort for you:

What good old Form 1040 did to you was practically a love pat. You ought to see what thousands, maybe millions, of folks are putting up with every day in the year!

For the frightening fact is that it is taking more and more red tape to wind up the main-spring of the Great Society.

Item: It takes a radio station about 89 hours, a congressional committee was told the other day, to fill out the necessary form to renew its license.

Item: It is not unusual for a big shot in a big company to read 150 documents a day.

Item: It is estimated that at this very moment there are 1.5 quadrillion — yes QUADRILLION — pieces of paper stored in the nations offices and store-rooms.

Item: The paperwork cost of running the U. S. economy is estimated at \$100 billion a year — one-seventh of the nation's annual output of goods and services.

Item: It is true that new-fangled computers can bat out these figure-filled forms 100 times faster than an expert typist, and that copying machines can make carbons like crazy. But this only means there will be more forms and more carbons for someone to read.

Item: Furthermore — but you now know that the little paperwork you did for the Internal Revenue Service was just a warm-up.

RETURN TO THE NATIVES

Included in the morning mail was a proclamation by a race of natives whose country was invaded by white men who took over their lands and excluded them from the new government.

The proclamation charges that the white imperialists "waged violent, unprovoked wars against us; burned our homes; massacred our women and children; overthrew our native forms of government; marched our people out of their homes to distant barren lands; stole every acre of our lands, every blade of grass, every drop of water; confined us at last in dirty slums in filth, poverty and degradation; perpetrated upon us the crime of genocide to destroy us utterly as a people."

Surely the appeal of the natives to be returned to power falls on sympathetic ears in Washington. We will not stand for such blatant white supremacy. Let us join in sanctions through the United Nations. Let us send food and supplies and advisors to help their cause. Let's offer them military support.

But wait. Who signs the proclamation?

They are people like Jim Charley, Issac Jim and Kenneth Jack — American Indians all!

He's back in the signal corps, and left Monday on the first leg of his trip to Viet Nam.

Since his retirement about two years ago the Richards family lived at Arlington where they bought a home. Mrs. Richards and the children will remain there while he is overseas.

Miss Meurer Sees The Old Country

Miss Martha Sue Meurer who has summered in England studying and being employed in London through the Affiliation of the Association of Colleges, has been sending glowing accounts of her trip to her parents, Mr. and Mrs. Herbert Meurer.

With three other students Martha Sue put in a lot of travel including Switzerland, Germany, Austria, Italy and France in addition to England.

The four rented a car for sight-seeing tours and since each of the group speaks some foreign languages there was no language barrier.

Miss Meurer plans to return to the states this week.

According to the National Geographic Society, the egg came before the chicken... Birds they say, are an offshoot of reptile stock that laid eggs millions of years before the first prehistoric bird flew.

There is this fellow who uses toothpaste flavored with brandy. He now has 40 per cent more cavities but claims he couldn't care less.

In a way studying the universe is a losing game, in that the more man learns about it, the more he finds out he doesn't know about it.

Trio Back After Florida Vacation And 5000 Mi. Trip

Reporting lots of fun and sight-seeing on a three-week 5,000 mile trip are Mrs. Margaret Sicking, her daughter, Miss Theresa Sicking, both of Gainesville, and Miss Barbara Laux of Lindsay.

It was a Florida vacation with sight-seeing going and returning and ending in San Antonio and a trip into Old Mexico.

They came back with souvenirs, over 100 colored kodak pictures, fresh oranges, sea shells, rocks for Mrs. Sicking's collection and cups and saucers for her cup and saucer collection which now numbers more than 200.

Mrs. Sicking made all the sight-seeing tours in her wheel chair. She's 85. Says she enjoyed every minute of it.

Some of the outstanding Florida attractions were the Citrus Drive and Citrus Tower at Tallahassee; the oldest church in the United States at St. Augustine; the Cypress Gardens in Winterhaven; water shows at Miami; the Orchid Jungles at Homestead; the overseas highway to Key West and a visit at that beautiful resort; the Everglades; the Sarasota Jungle Gardens where the colorful macaws perch on tourists' shoulders to have their pictures made; St. Petersburg, the Sunshine Skyway over 18 miles of water, and a scenic boat ride at Homosassa Springs.

Going, they stopped at Eldorado, Ark., to visit friends, the Ellenburgers and Mrs. Helm. Then visited the Hodges Gardens in Louisiana, saw lush cotton, tobacco and rice fields. At Mobile, Ala., they drove through the underwater tunnel and toured the battleship Alabama. At McComb, Miss., they ate at the famous "Dinner Bell."

Returning they took the coast drive to New Orleans, then the causeway over Lake Pontchartrain, saw the Astrodome in Houston, the Alamo and old missions in San Antonio, and made a pop call on Mrs. Sicking's niece Sister Berenice Trachta at Our Lady of the Lake Convent. Finally, to Eagle Pass, across the Rio Grande, and into Old Mexico.

Since they returned, Mrs. Sicking and Theresa and Tony Sicking had as guests one day, Lt. Carick Barry and four children of Bonita, Mo. He was stationed at Camp Howze during World War II. He and his wife lived on the Sicking farm, occupying a small house near the Sicking residence.

**DPS Expects
41 Traffic Deaths
As Labor Day Toll**

Department of Public Safety estimates that 41 persons will die in traffic accidents on Texas highways during the upcoming three-day Labor Day weekend. "The current traffic trend indicates that Texas is headed for its third straight record high in terms of fatal accidents," says Col. Homer Garrison Jr., DPS director. "At the present time, we are approximately 15 percent ahead of the same time in 1965, and we are still faced with the four months of the year which generally produce the most deaths." Garrison points out that "More people are killed in Texas each year in traffic than are killed in all the United States by murder, and the deaths are just as senseless, as needless and as tragic, but not nearly as well publicized." He analyzed the reasons citizens have failed to take

positive action in traffic safety: "Psychologists say that one reason... is a lack of personal identification with the problem. It might behoove each driver in our state to stop and consider that he has less than a 50-50 chance to go through his driving career without being involved in a traffic mishap."

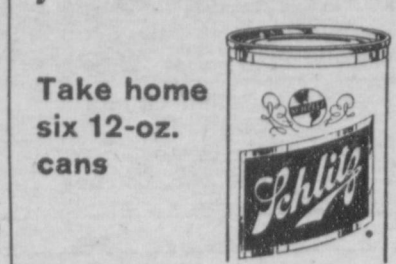

In an attempt to cut back on the number of accidents and deaths during the Labor Day weekend, the DPS will conduct its "Operation Motorcade." Approximately 150 uniformed officers from other DPS services will be on the road to supplement the Highway Patrol. To call public attention to the problem, each traffic death will be tabulated and the totals will be announced three times daily in Austin.

Texas Highway Department, Texas Safety Association, Texas Council of Safety Supervisors and Texas Motor Transportation Association are joining forces to help the DPS.

Two drunks wandered into a city zoo and as they staggered past a lion's cage, the king of beasts let out a terrific roar. "C'mon, let's get out of here," said the first drunk. "You go ahead if you want to," replied his more inebriated cohort. "I'm gonna stay for the movie!"

Good highways are the arteries of our economic system. Virtually everything that Texans buy or sell, make or use moves over the Texas highway system at some time.

LOVINGTON, N.M., DAILY LEADER: "Did you know there's a limit to how much the federal government can go into debt? Really, there are three limits. One is the legal limit. Congress decides that. The second might be called 'the sky' because it's up there somewhere out of the sight of all. The third limit is the economic limit, which unfortunately, no one can know we have reached until it is too late."

SOIL CONSERVATION DISTRICT NEWS

It's time to start preparation for waterway establishment, according to technicians of the local soil conservation service. Waterway planting follows the same pattern as pasture planting, they point out.

The first thing necessary is to prepare a good seedbed. Best results are obtained from those prepared in the Fall with equipment that will break the land deep and leave the surface rough. Before planting in the Spring, the seedbed should receive a good disking to destroy any competitive plants and level the area. This should put the seedbed in good condition for planting.

Good roots are essential, and once they are dug care should be taken so they do not dry out. It is best to plant them as soon as possible after digging.

Statistics show the exposed period and reduction in livability as follows: No exposure, no reduction; two hours, 9 to 11 a.m., six percent; four hours 9 a.m. to 1 p.m., 28 percent; two hours, noon to 2 p.m., 70 percent; four hours, noon

Texas Road Map Is Available in French, German

It's a sincere compliment when a person says of another, "He speaks my language."

The Texas Highway Department today issued two new, full-color travel folders in which Texas speaks the language of Germany and France.

Based upon the enthusiastic acceptance of a similar folder in Spanish, produced by the Highway Department last year, the new German and French folders should enjoy significant appeal.

French and German travelers, anticipating a visit to the United States, will find Texas travel literature in their own language at U.S. Travel Service offices, and on the racks of international travel agents, air and steamship lines.

Highway department surveys indicate that Texas is an increasingly popular destination for European travelers. The folders are designed to capitalize on that interest, and increase the flow of foreign visitors by speaking to them in their own language. In addition, the folders are expected to create good will for Texas in those lands.

The new publications will become part of some two million pieces of travel literature produced and distributed by the Highway Department each year. Copies may be obtained at the Department's eight Tourist Bureaus, or by writing the Texas Highway Department, Travel & Information Division, P. O. Box 5064, Austin, Texas 78703.

in high also presented a teaching problem. The 49 youngsters had to be split into two groups with separate schedules.

At Sacred Heart School the big drop in enrollment has reduced the number of teachers by one while reducing the load in most classes. There are twenty on the faculty — nine in the six elementary grades and eleven in high school and junior high. Enrollments at Sacred Heart are 354 through the eighth and 103 in high school.

Combining figures of the two schools reveals that the community this year has 224 high school students, a gain of 7, and 538 elementary students, a loss of 3.

Jim Krahl's Have Vacation in S. C.

Mr. and Mrs. James Krahl and daughters Brooke and Rochelle have returned from a vacation trip to Charleston, S. C., and sight-seeing on the round trip through seven states. They were away two weeks.

In Charleston they were guests of his sister Lydia and family, Tech. Sgt. and Mrs. Bill Gaines and five children and got acquainted with their new baby boy.

Sight-seeing included Boone Hall Plantation, Middleton Gardens, old downtown Charleston, Fort Sumpter of Civil War fame ... a boat ride took them there ... a moonlight cruise on the ocean, the harbor ships and polaris subs. They spent some time on the Isle of Palms sunning on the beach and swimming in the ocean.

Other states on the trip were Louisiana, Mississippi, Georgia, Alabama, Arkansas and Texas.

Recent visitors one day with the Paul Fetsch family were Mr. and Mrs. Johnny Fetsch of Liberal, Kansas. The men are cousins, hadn't seen each other in many years. The Kansas were on a vacation trip that took them through Muenster and he thought he had a relative here. Found him in the telephone directory.

Leslie Kuhn and Carol Strong Wed In Lindsay Rites

Miss Carol Jean Strong, daughter of Mr. and Mrs. Barney Strong of Gainesville, pledged wedding vows with Leslie Kuhn, son of Mr. and Mrs. Frank Kuhn of Lindsay, in St. Peter's Church at Lindsay in a 6 p.m. service Saturday.

Father John Walbe, pastor, celebrated the Nuptial Mass and performed the ring ceremony.

The bride, given in marriage by her father, wore a gown of white peau de soie with dome-shaped skirt accented with an overlay of Alencon lace. The chapel train was attached at the waist by a bow. A pillbox of lace embroidered with seed pearls held her fingertip veil. She carried a white orchid and feathered carnations with streamers of English ivy.

Mr. and Mrs. Bernard Kubis of Gainesville were honor attendants.

Miss Joan Kuhn, sister of the bridegroom, and Mrs. Burney Ray Morgan, Gainesville, bride's cousin, were bridesmaids. Melvin Kuhn, a cousin, and Leonard Zimmerer were groomsmen.

Lisa Mages, niece of the groom, and Benny Strong, brother of the bride, were flower girl and ring bearer.

Feminine attendants wore floor-length dresses of apricot peau de soie with domed skirts and veiled apricot headpieces. They carried white daisies.

Mrs. William Schmitz was organist and joined Mrs. Bruno Zimmerer in vocal duets before Mass, at the offertory and communion.

Ushers were Monte Johnson, Willard Kuhn and Billy Zimmerer.

Wedding reception was held in the Parish Hall where Mrs. Pat Wilkerson registered guests. Misses Jackie and Kathy Strong poured punch and Mrs. Jerry Morgan served the wedding cake.

After their honeymoon to Hot Springs, Ark., the newlyweds will be at home at 1207 Whaley Drive, Gainesville. For traveling she wore a wheat colored dress with three-quarter coat and yellow accessories.

Parents See Sons Settled for Term At Subiaco, Ark.

It was something like Old Home Week at Subiaco Academy over the weekend when Muenster parents took their sons to school and saw them settled for the term.

Mr. and Mrs. Al Kleiss and daughters Ruth and Mary Ann made the trip with their son and brother, Gene Kleiss who continues as a student. They spent time visiting the other member of their family, Frater Xavier Kleiss at the abbey. After leaving Subiaco, Mr. and Mrs. Kleiss and daughters went to Fort Smith where Ruth is enrolled at St. Scholastica's Academy as a freshman, and helped her get settled.

Mr. and Mrs. Arthur Felderhoff took their son Dale to Subiaco, visited there Satur-

day overnight and Sunday. Pat Hennigan Jr. accompanied them on the round trip to see former teachers and classmates.

Mr. and Mrs. Alois Rohmer made it a family trip taking their children Joanie and Neil along when they took their son Glenn to the Academy. He's a freshman.

Another freshman, Frank Luke, was there getting settled. His father, Anthony Luke, and his grandfather, Ben Luke, were there with him.

Mr. and Mrs. J. D. Caplinger took their son Bobby back to the academy where he is a sophomore. Going with them were their daughter Mary Kay and her brother Alfons Koesler Jr.

Leaving earlier to get in on football practice was Mike Stoffels, son of Mr. and Mrs. Meinrad Stoffels. Charles Sicking arrived there

Friday after a visit in Little Rock, Ark., with his sister, Sister Clare. Their parents are Mr. and Mrs. Leo Sicking.

Others they saw there included Mr. and Mrs. Marcus Rohmer of Gainesville who took her brother, Dennis Neu, to the academy. Their mother, Mrs. Ted Neu, went with them. And the James Bezners of Lindsay were there seeing their son Sammy get settled. He's a freshman.

Norbert Fuhrmann of Lindsay was there too. He went earlier to practice football. He's the son of Mr. and Mrs. Joe Paul Fuhrmann.

David and Ronnie Stockman left Sunday by train from Gainesville to return to their home in Oklahoma City after a three-week visit in Muenster with their grandmother, Mrs. R. M. Zipper.

own race what others have developed.

Another flagrant violation of civil rights is the already established policy of integration. In order to mix races to a degree that satisfies black extremists children are transported far out of their home districts. It's an imposition on children and parents, a burden on taxpayers. Millions of people have good reasons for their objections. It's amazing that people of Washington can't see the injustice in these clashes of civil rights.

Until a better solution is offered, this column contends that the first step to racial peace is to round up known subversives and criminals. With the scoundrels out of the way respectable Negro leaders will do a better job for their race and the whites — and for the country.
