Playing Games With Calories

Makers of dry breakfast cereals have been subjected to a kind of consumer protectors' numbers game. It seems that most of the dry cereals measured by an ambiguous rating system are found wanting in nutrition. It is claimed they contain "empty calories". However, as a spokesman for a large food processing concern points out, the rating of the cereals was done in a way that would make a lot of food fall into the empty calorie category — including eggs and bacon.

If, as the investigators infer, every cereal should be fortified to the maximum with nutrients, it is doubtful people would eat them. Noted the food concern spokesman, "Obviously, to load up the breakfast meal with all the nutrients for the day without regard to those that will be consumed at other meals would be illogical. . . . Our view is that we should fortify only to the level that is consistent with the meal occasion and not attempt to solve the whole day's diet problem with one dish at one meal. Our point of view is supported by many nutritionists."

The investigators of breakfast cereals, like the investi-

gators of most products, can never quite come to grips with the real world. They overlook what should be a primary consideration. Consumers purchase dry cereals because they like them. In doing so, they exercise their right of free choice. If they wish, they can turn to other food products. It is just that simple.

A New Mood

The hate-America element has had its hey-day in recent years, and is now on the verge of being repulsed by aroused citizens who are recognizing the abuse of freedom of speech for what it has become: license to bring about the destruction of the nation. We sense a new mood in the air. Frustration and dismay is giving way to anger and determination. There are going to be some changes made . . . but not exactly of the type that the hate preachers expect. . . . We feel that the vast majority of American people have about had it . . . with insults and all types of defamation against their country. Admiring and defending it in no way is covering up for its inadequacies and errors, and tearing it down in no way solves the problems alluded to by its unreasonable critics.

Sound Legislation

Fiscal responsibility — this simple phrase holds the ultimate rainbow of hope for the taxpayer, if only the government will take these two words literally and seriously.

The only federal budget in the last ten years registering a surplus — fiscal year 1969 — was accomplished under a rigid spending limitation. Such a limitation, applied without exception, offers the way to secure fiscal responsibility — the only chance of relief for the overburdened taxpayer.

If the Congress really wants to control federal spending, rather than continue on its present course of increasing Presidential budget requests, it now has the vehicle to reach the goal. The Fiscal Responsibility Act of 1970 (H.R. 18676) has been introduced by Rep. Bow (R-Ohio) to set strict limits on spending.

This measure would prohibit Congress from increasing expenditures above Presidential requests. Tight reins would be provided to hold government agencies in line.

Every citizen, every taxpayer, who is concerned about the cost of government should work for enactment of this legislation. The federal budget outlook is indeed bleak, and the situation is becoming increasingly gloomy for the economic well-being of the nation and the taxpayer.

The brakes must be put on federal spending now!!

Party Platforms Of 1970 Presented To Texas Voters

State Republican and Democratic parties have put their appeals to Texas voters in writing via the platforms drafted at their separate conventions last week.

Democrats, party veterans said repeatedly, "wrote the most progressive planks ever."

Republicans put the emphasis on attacking crime, campus disorders and drug use.

Highlights of the Democratic statement of party goals

include:
 * A far-reaching vocational-technical education program, repeal of annual voter registration requirements and substitution of "registration by voting" every four years, opposition to a tax on groceries, a minimum foundation program for policemen with state standards of qualification and pay, state civil service, expansion of unemployment insurance benefits.
 * Increase in workmen's compensation benefits, creation of a public utilities regulatory commission, establishment of an office of consumer protection, elimination of the

\$80 million a year welfare outlay ceiling, an increase in minimum wage, sweeping insurance reforms and creation of a state management research commission to promote governmental efficiency.

Republican platform highlights are:

* Legislation to end discrimination in state governmental employment and to insure equal pay for equal work, creation of single-member legislative districts, realistic technical and vocational courses commencing at junior high school level and offered in nearly all high schools, condemnation of forced busing of students to achieve racial balance;

* Opposition to a tax on groceries, later voter registration deadlines, inclusion of all insurance company income in calculating auto insurance rates, admission of oral confessions in trials, and life sentence without parole for murdering a policeman.

Cut the Ties That Bind

Chief Justice Warren E. Burger tells the American Bar Association that trials are overly long. He asks for quick action by Congress, state legislatures and municipalities to adopt modern business procedures for the court system itself and to reduce the need for unnecessary appeals and the overall burden on the courts.

Each year Congress and state legislatures pass thousands of new laws. Thousands of municipal ordinance and administrative rules of regulatory agencies add to the chaos.

An example of the legal jungle, which is familiar to all, confronts each citizen once a year when he tries to understand the obscure and often contradictory wording of his income tax form.

Individuals and companies involved in court cases often are faced with months of uncertainty as they await trial. Regardless of the outcome, justice is impeded when it is impossible to obtain a reasonably quick decision.

Respect for law and order is essential to a free society. Those in authority should do everything possible to simplify legal procedures to reduce the burdens on the courts and the public. Making laws understandable, improving procedures, and reducing the number of laws and regulations should be given top priority.

Speak Up

It is unfortunate American industry and business do not devote more of their talents and promotion to the basics of free enterprise — the system which has made this the number one country of the world. The average American as he or she goes through the various stages of education has little if any exposure to costs and profits. Consequently, most share a distorted picture. . . . American industry and business have a wonderful story to tell. We are missing the opportunity of talking about free enterprise in our school system. It is a subject which we have been taking for granted.

Well Paid

We note so many high school graduates who plan four to six years in college at a cost of \$20,000 to \$30,000 for the span. It seems a waste of time. We suggest that they hire out here to a local plumber (for nothing if necessary) then after a year go to Miami where the plumbers' new contract calls for \$11.70 per hour. Which is \$470 for a forty hour week — and you get sunshine too. Why waste four to six years at college when you can be a plumber in far less time and still make a salary better than many bank presidents.

Worth seeing. Worth owning. Worth waiting for.

Vega. Not just another little car, but one little car that does everything well. You get more room, more weight and more power than most little cars give you, yet the gas mileage is right in the same neighborhood with the best of them. Vegas come dressed up, too, not stripped to the bone so you have to add a lot to make them liveable. Drive one. You'll see.

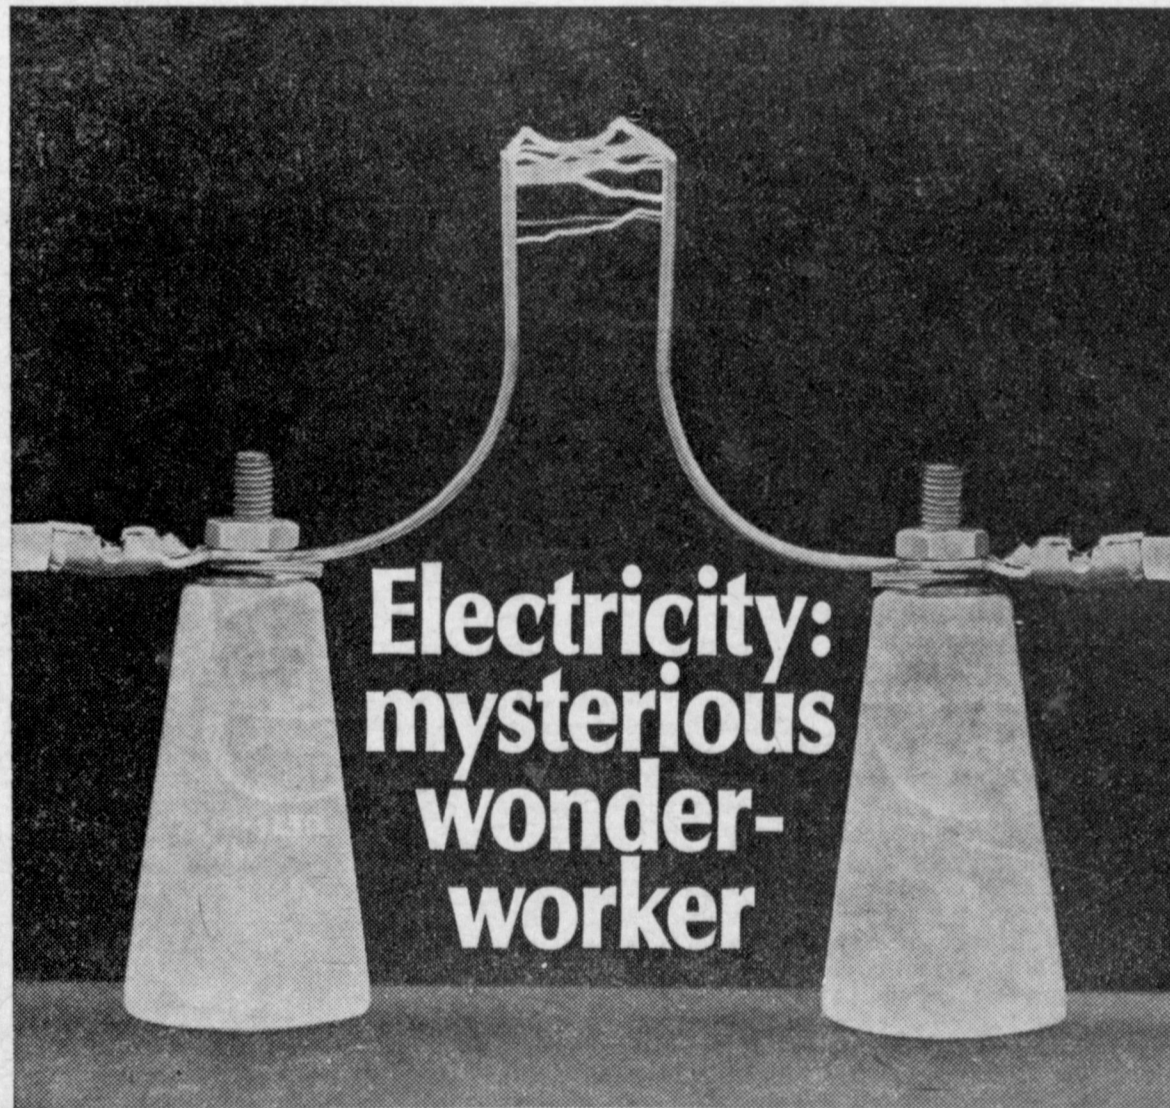

Caprice. There's a double layer of steel in the roof, a steel guard beam in each door, power disc brakes up front, a new power ventilation system inside, a wheelbase two and one-half inches longer. You get the looks and comfort of a six- or seven-thousand-dollar car, but at Chevrolet prices. And that's the kind of change during these tight-money times that all of us can appreciate.

Vanishing tailgate. A big change in our big wagon. The window goes up into the roof, the Glide-Away tailgate vanishes beneath the floor. Out of sight. Out of your way for easy loading even in a closed garage or when you have a trailer hooked on.

And TP&L brings you all the electric power you need to work these wonders! With plenty more power coming up for the future. More than 1,500,000 kilowatts are due from new generating units within the next three years.

Bride's sister Mary Nell, Mrs. C. J. Newman, flew in from Kansas City, Mo., to be matron of honor and Miss Linda Fisher of Dallas was bridesmaid.

Quartet Back from Flying Trip to Foreign Countries

Mr. and Mrs. John Fisher, Joe Hoening and Charlie Schmitt, four in a group of tourists seeing Europe, returned home this week with never to be forgotten memories of the old world, and with pictures and souvenirs.

Also in the group were Mr. and Mrs. Joe Walter of Gainesville who left the group in New York Monday to continue vacationing and Abbot Alfred Hoening of Corpus Christi who was tour director. He remained in Rome to attend ecclesiastical conferences.

Highlights of the flying trip which began in New York on Sept. 4 included London, England; Munich and Oberammergau in Germany; Israel; Athens, Greece; and Rome, Italy.

In London they visited the Houses of Parliament and Commons, witnessed the changing of the guards, toured Westminster Abbey, St. Paul's Cathedral, the Tower of London, saw the Crown Jewels, London Bridge and other places of interest.

At Munich the Joe Walters

especially enjoyed a visit with their nephew Paul Hesse, a civilian army employee. In Oberammergau it was the famed Passion Play, and a sky lift to the top of the Bavarian Alps.

They spent seven days in the Holy Land where Bible history came alive and they walked where the ancients walked and lived and followed the footsteps of Jesus and the Holy Family.

They visited the place of the Cana wedding, went wading in the Sea of Galilee and in the Dead Sea, saw the ancient ruins, the scene of the loaves and fishes miracle, and Mount Tabor. They attended Mass on the site of the Crucifixion, in the Garden of Gethsemane, and in Bethlehem at the birthplace of Jesus.

In Athens they visited the Acropolis and other sights and toured Old Corinth.

Rome highlight was seeing the Holy Father from St. Peter's Square and receiving his general blessing among the throngs. And there were tours of the Vatican, Catacombs, cathedrals and other sight-seeing, for two and a half days.

Scenery in Israel included cotton fields white with the harvest — and machines to pick — olive and fig trees, sheep herds on the hills of Judea. Most homes in Israel have solar heat for water and the system works efficiently.

While at Oberammergau Joe Hoening visited by telephone with his wife's cousin at Ostentland where Mr. and Mrs. Hoening visited two years ago.

SCS Will Show Grasses Sept. 30 In Knox City Tour

Plans for the field day at the Soil Conservation Service plant materials center at Knox City on September 30 were announced this week by SCS State Conservationist Clyde W. Graham.

Guided tours will be conducted through the 60-acre center which is located on FM 1292, 2 miles north and 2½ miles west of Knox City, Graham said. Tours will run from 9:00 a.m. to 3:00 p.m. Sandwiches will be on sale by the Knox City FFA Chapter for those who wish to eat lunch at the center.

Grass seed growers, seed dealers, conservation district directors, research workers, sportsmen, and others interested in the search for better plants are invited to attend. The center serves both Texas and Oklahoma.

Seed or rootstock from plants that show promise for solving specific soil and water conservation problems are collected, then grown and evaluated at the Knox City center. The more promising ones are then grown under field conditions on farms of conservation district cooperators under a wide variety of conditions. Selections that prove superior to other strains available are then released by conservation districts to commercial seed growers. These producers then grow seed and sell it to the public.

Some 675 strains of 164 different grasses, forbs, legumes and woody plants are being grown at Knox City. Grass strains proven and put into use by SCS include Selection 75 Kleingrass, El Reno, Uvalde, and Vaughn sideoats grama; King Ranch bluestem; green sprangletop; and Grenville switchgrass.

SCS plant materials work also developed ways to profitably grow, harvest and plant most of the range grasses now being planted in Texas.

Eual Davis of the Muenster SCS work unit has hopes of a carload of persons from this area attending the field day. Interested persons are invited to call him at 759-2515 in Muenster or at 995-2760 in Saint Jo after 5 p.m.

Governor Urges Immunization Law

Gov. Preston Smith says he'll ask the 62nd Legislature, which convenes in January, to pass legislation requiring immunization against several communicable diseases before a child may enter Texas schools.

Governor proposes compulsory immunization against measles, polio, whooping cough, tetanus and — in the wake of the epidemic in San Antonio — protection against diphtheria.

Smith said figures available to him for 1968, the latest year for which complete data is available, indicate that Texas has the highest incidence rate in the nation for measles and polio, the second highest for diphtheria and the fourth highest for whooping cough. Tetanus is not an epidemic disease, but a single injection generally immunizes against diphtheria, whooping cough and tetanus.

Health Hints FROM BLUE SHIELD

Motion Sickness

Don't allow motion sickness to start your vacation on the wrong foot. Begin your trip well rested and avoid overeating and excessive alcoholic intake. However, never travel on an empty stomach. Sit in the front seat of the car, or as close to amidship in a boat or plane as possible. Keep fresh air circulating at all times and divert attention by reading or other amusements.

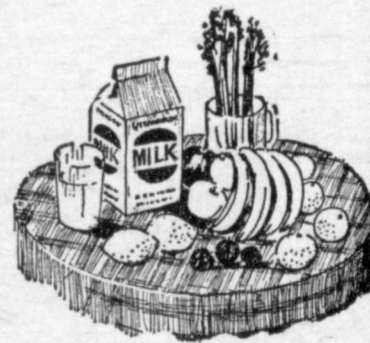

Cancer's Warnings

In addition to a yearly physical examination by your doctor, familiarize yourself with cancer's seven danger signals which include: unusual bleeding or discharge, a lump or thickening in the breast or elsewhere, a sore that does not heal, a change in bowel or bladder habits, hoarseness or cough, indigestion or difficulty swallowing, and a change in the size or color of a wart or mole. If a signal lasts longer than two weeks, see your physician without delay.

Good Nutrition

Poor diet can often be the cause of poor health. Leading nutritionists recommend a balanced diet which includes: two glasses of milk a day; enriched bread with riboflavin and wheat germ; broiled liver twice a month; broiled — rather than fried — meats, fowl, and fish; raw fruits; and green and yellow vegetables. Avoid candy, cake, fatty meats, crunchy snacks, and convenience foods. For between meal hunger, eat fruits and vegetables.

Rites for Mother Of Carl Mullins Held at Tom Bean

Funeral services were held Sunday at Tom Bean for Mrs. A. E. Mullins, 81, of 1509 30th Street in Lubbock who died at 6 a.m. Thursday in Methodist Hospital at Lubbock after an extended illness. She was the mother of Carl Mullins of Muenster.

Services in the Baptist Church were followed by burial in Vittoto Cemetery under direction of Waldo Funeral Home of Sherman.

A service was conducted in Lubbock at 2 p.m. Friday in Sanders Memorial Chapel with the Rev. Claude Cone, pastor of Calvary Baptist Church, officiating.

Mrs. Mullins was born in Cove Springs, Tenn., and moved to Grayson County with her family when she was three years old. She married A. E. Mullins Feb. 10, 1907, in Tom Bean. They had lived in Lubbock since 1929. For 18 years she worked in the alteration department of a Lubbock department store.

Surviving are her husband; two sons Carl of Muenster and J. D. of Lubbock, three grandsons, Carl R. of Lubbock, Tommy of Grand Prairie and Jackie Dale Mullins of Dallas, and five great-grandchildren.

Tiger Cubs Nudge Cowtown Kids 12-8

Third time was charm for the Tiger Cubs of Sacred Heart, and they put away their first win of the short 1970 grid season. Their victims, by a score of 12-8, were the junior high kids of Trinity Valley, Fort Worth.

The first touchdown started shaping up near the end of the first quarter when Melvin Hess covered a fumble and the Cubs put on a nice 30 yard drive to the goal. Terry Hess finished the drive with a two yard romp around end, and a try for extra points failed.

Near the end of the second quarter they did the rest of their scoring on two big plays. Kenny Walterscheid blocked a kick at the 40 and then Gary Endres hit Karl Koessler on a pass play that went all the way.

Early in the third period the visitors got their touchdown in the same way. A blocked punt followed by a 30 yard gallop to the goal line. A run for extra points was good and the score was 12-8 favoring the Cubs.

The guests threatened again in the fourth quarter after blocking a Sacred Heart punt at the 25. Three tries lost ground but a roughing penalty on the kick gave Trinity Valley a first down on the 15. Three plays gained 9 1/2 yards and the Cubs were in trouble. The visitors had a fat chance for a touchdown or a first down inside the 5.

That's when Mark Stoffels crashed through and spilled the quarterback for a 5 yard loss. Sacred Heart got the ball on downs and held it for the rest of the game.

It has been computed that of every 100,000 persons examined for their intelligence, about 6,750 would be rated very superior, 13,000 better-than-average, 66,500 average, 13,000 below average, and 750 morons.

Five from County In Galveston for THDA State Meet

Five from Cooke County attended the state convention of Texas Home Demonstration Clubs in Galveston last Wednesday and Thursday. The delegation consisted of Mrs. Bill Lutkenhaus of Muenster, Mrs. Harvey McCabe, Mrs. Charlie Kammerdiener and Mr. and Mrs. Lonnie Thurman of Gainesville. Some 670 attended the sessions. Mrs. Thurman attended as agent for District 4.

Entertainment featured a unique fashion show, traditional of the island city, a bathing beauty review... swim fashions dating back to the 1900 era; Hostesses greeted guests in fashions of the 1900 to 1920 era.

Members also enjoyed a book review, "I've Got Two Hands and I'm Busy Wringing Them," by Mrs. Leslie D. Scott of Brenham.

Of special interest to the county group was the planning of a three and a half million dollar 4-H facility on Lake Brownwood. This will be on 76 acres which the state headquarters has under 99-year lease. This will accommodate 450 people and will have chapel, swimming pool, horsemanship area and permanent facilities for a manager and his family. It will be available for district 4-H gatherings, extension programs and also will be offered to business and industry for educational programs.

Home Demonstration Clubs were asked for long-term help in financing the new facility. There are now 74,000 4-H members in 2400 clubs in the state and 14,000 leaders are helping.

Next year's meeting will probably coincide with the National meeting to be held in Dallas.

Joining Mrs. Lutkenhaus in Galveston Friday were her husband and daughters Judy and Connie. Together they spent the weekend vacationing at Galveston.

for 9 to Schneider, and passes of 31 and 10 to Lippe, the latter being the touchdown play.

During the third quarter the Panther defense was at its best and penalties also helped to stymie the Hornets. However the first play of the fourth quarter broke the stalemate. Earl Koelzer with an escort of three blockers breezed around right end and went 27 yards to pay dirt.

After that reserves got a good part of the action and managed to put over two more touchdowns. One was set up by Mike Jaska's fumble recovery on the Panther 14. Three tries were good for a first down on the 1 and Henry Knabe crashed into the end zone.

The next one was set up by Saint Jo's failure to get off a kick — because of a bad pass from center. On the next play Ricky Swirczynski passed to John Schneider for a 30 yard touchdown play.

With reserves still there for Muenster, the Panthers made their best gains of the night. Six plays advanced 37 yards and three first downs to the Hornet 45. Then the drive bogged down as the next four tries advanced only 3 yards.

Cubs Drop 16-0 Game at Lindsay

Sacred Heart's Cubs lost a heartbreaker at Lindsay Tuesday night. Despite a fine defensive game and despite leading the Squires 5-3 in first downs, they went down by a score of 16-0.

A big play in the Cubs first series of downs gave the host team a good start. Ronnie Hermes intercepted a pass and returned it 45 yards for a touchdown. A pass from Harold Owens to Joe Geray added bouns points, and Lindsay was in front 8-0.

From then until the closing minutes it was plain defensive football. The Squires allowed the Cubs two first downs in a row and three scattered first downs, most of the action being in midfield or in the Cubs area. And the Cubs did not permit any first downs.

That changed near the end, however. After the Cubs lost a fourth down gamble the Squires started from the 36 and put together their only three first downs of the night. Geray scored from the 2 and Owens followed over for extra points.

Next game for the Cubs will be here next Tuesday night with the junior high kids of Era.

The name "police dog" is not applicable to any particular breed of dog. There are dogs of all kinds — shepherd, cross-breeds, and even mongrels — that have been trained in police work. The breed of dog most commonly referred to as "police dog" is the German shepherd.

the third kick the Trojans were on their 18 and two vicious plays paid off for Sacred Heart. First one set the visitors back 10 yards. Next one was a setback across the goal ending in a fumble recovered by Alan Hess for the second Tiger TD. Fuhrmann's run added 2. Half time score was 16-0.

The Trojans went to the air in the third period to make their best showing of the game. Their start was delayed by Fuhrmann's interception on the first series but after holding Sacred Heart in the next series they completed two passes for first downs. Four more tries fell short but interception of a Tiger pass allowed the drive to resume.

Then came a screen pass and two interference rulings advancing the Trojans to the 20 before Fuhrmann's interception ended the threat and a good return started Sacred Heart's final scoring drive on the Tiger 35.

Nine plays plus 15 yards of penalty distance reached the goal and Fuhrmann made the last 4 yards. Swirczynski went through the middle for bonus points.

The final minutes included two fourth down gambles lost by the visitors a Sacred Heart fumble, and Sacred Heart inside the 25 as time ran out.

We need a national awakening. People in a position to do something about it need to realize that our global enemy, communism, is very busy in this country. It's agents are directly causing much of our trouble and they are prodding many of our other trouble makers.
