The Missing Millions

The electronic eyes of government computers rarely fail to collect the last dime possible from the taxpayer. However, on the spending side, the story is somewhat different.

According to a press dispatch, New York City's anti-poverty agencies have failed to account for nearly 25 percent of the \$35 million advanced to them in the three years that ended September 30, 1968. Some \$8 million in

poverty funds have simply disappeared, and city officials concede that they may never know how at least \$4 million of the \$8 million was actually spent. Independent auditors have been employed in an effort to account for the missing millions. Many of the agencies that expended the funds no longer exist.

One can imagine what would happen to a private firm that was unable to account for the expenditure of 25 per cent of its revenues. The management would either go to jail for tax evasion or embezzlement. Few private concerns could stand the financial strain of an unexplained disappearance of \$8 million. Public enterprises always have the taxpayer to fall back on, which is one good reason for keeping government out of any business undertakings that can be performed by taxing, private enterprise.

115,000 Killed by Accidents in 1969

The annual statistical bulletin from the U.S. Safety Council shows 115,000 persons died in accidents of various kinds in 1969.

Motor vehicle accidents killed 56,400, accidents in the home 27,000, accidents at work 14,200 and public accidents 21,000.

Falls killed 19,000, drownings 7,300, fires, burns and other fire-associated deaths totaled 7,100, and firearms caused 2,600 accidental deaths.

Another 11 million persons suffered bed-disabling injuries.

The economic loss to the nation for all accidents last year is estimated at \$25 billion!

Of all persons who died in 1969 in the U.S., one in each 16 died in an accident.

The accident toll for the decade of the 1960s — 1,050,000 persons.

Register Vehicles Early Is Advice Of Highway Dept.

Now is the time for all good motor vehicle owners in Texas to come to their own aid by registering their vehicles early.

The "season" runs through February and March, although the wise motorist will save time and trouble by registering his vehicle early and by using the handy three-part form he received in the mail from the Texas Highway Department.

All one needs to do is to take the three-part renewal application — being careful not to separate the three parts of the form — to the county tax office or sub-station.

Using the new form, it takes the clerk only a fraction of the time that it used to process the form, collect the fee and send the motorist on the way with his 1971 license plates. For that reason, waiting time is trimmed drastically.

Human nature being what it is, however, many will wait until the last minute to secure their license plates. Texas motorists can count on longer lines toward the end of the season — even though they may be moving faster.

There is an even less painful method. If the vehicle owner desires, he may order his license plates by mail.

All that is required is to send the renewal application, the fee plus \$1 for each vehicle to be registered to the local county tax office prior to March 1. This allows 30 days for delivery of the plates in time for the April 1 deadline.

Records of the Highway Department's Motor Vehicle Division reveal that 65 per cent of the registrations handled last year were speeded by using the computerized renewal forms.

The outlook for this year is that the public will save even more time in the second year of operation under the new system.

Register now and display your new plates. This will remind your neighbor it is time for him to do the same.

Plastic Bottle Use Reaches New High

Industry use of blow-molded plastic bottles in 1970 reached a new high of 5.4 billion units, according to James M. Costello, consumer research manager for the Monsanto Company's Packaging Division. The figure represents an increase of 9 percent over 1969.

Mr. Costello predicted 6 billion units will be used in 1971 to package a wide variety of food, household, industrial, toiletry, pharmaceutical, automotive and marine products.

Heritage of Freedom

Mr. Charles B. Shuman, recently retired head of the nation's largest farm organization, the American Farm Bureau Federation, has been a lifelong advocate of the free market and private enterprise in agriculture. Under his leadership, the American Farm Bureau and its nearly two million members steadfastly supported proposals for the gradual dismantling of the bureaucratic and costly agricultural programs of government supply management. Mr. Shuman called them "payments, permits and peasantry." He left a heritage of independence in agriculture that will make itself felt in years to come.

As U.S. taxpayers, which include millions of farmers, grow tired of seeing the government pour billions of dollars down the rathole of unworkable government farm programs, a simple truth expressed by Mr. Shuman must eventually be recognized. He said, "The future of agriculture lies in producing the things for which consumers indicate a preference by the way they spend their money. This means that the price system must be allowed to guide changes in production and consumption."

Whenever we drive we gamble that the other drivers we share the road with will always do the right thing at the right moment. We gamble that our car, the road and pedestrians will all do their part. The Bureau of Highway Safety points out that the stakes are higher in this gamble — human lives."

Hospital with Liquor Cabinet Now Open in Fort Worth

FORT WORTH — Probably the only hospital in the Southwest with a well stocked liquor cabinet is in operation in North Richland Hills, a suburb of Fort Worth.

It is Schick Hospital, a half-million-dollar, 42-bed center for the treatment of alcoholism.

Schick employs the "conditioned reflex aversion" technique which develops within the patient a dislike for the taste, smell and sight of alcohol while bringing his anxiety problems and sleep patterns toward normal through deep sleep and relaxation therapy.

Schick Hospital is owned by Frawley Enterprises, Inc., owners of Schick Electric and several other companies in addition to Shadel Hospital in

Seattle, Wash. Some 17,000 men and women have been treated at Shadel since it opened in 1935.

One of the patients was Patrick J. Frawley, Jr., the multimillionaire who at 26, successfully marketed the ballpoint pen. When Frawley visited Shadel, he was so impressed with the treatment technique that he bought the hospital and plans to open several others regionally in the future.

Like Shadel and Schick, all the hospitals will employ the conditioned reflex aversion technique. With this approach, the patient develops an aversion to the taste, smell and sight of his favorite drink and other alcoholic beverages.

A four-year follow-up study of patients from Shadel Hos-

pital reveals that more than 60 per cent remain permanently abstinent from alcohol after their initial treatment period.

Director at Schick Hospital is Robert B. Dunn, M.D., who has done extensive research in alcoholism at Schick Pharmaceutical. He and his staff of 35, including registered nurses, anesthetists, medical doctors and a psychiatrist agree that alcoholism is not a personality disorder, but an addiction.

The conditioned reflex aversion treatment attempts to break the alcoholic's addiction to alcohol. It makes it possible for him not to drink.

In addition to the medical team, several counselors who are themselves recovered alcoholics, work closely with patients and their families.

LIQUOR IN A HOSPITAL? Yes — at Schick Hospital in Fort Worth, Texas, a new facility exclusively for the treatment of alcoholism. A nurse checks the well-stocked liquor cabinet where beverages are stored for use in the conditioned reflex aversion technique which develops within the patient a dislike for the taste, smell and sight of alcohol. Treatment period at the 42-bed, half-million-dollar facility is 10 days.

B Teams Blanked
By Lindsay, Nocona

Muenster High's B teams were blanked in their four encounters during the past week. Playing at Nocona last Thursday the girls lost 29-19 and the boys were edged out by a 39-36 count. Likewise playing Lindsay the girls dropped a 29-20 decision after which the boys lost theirs 39-29.

A strong fourth quarter almost did it for MHS boys at Nocona. Starting the period with a 8 point deficit, they were only two points shy near the end and finished with the 29-36 count. In the first quarter Nocona took a 14-8 lead and continued in front by scores of 24-18 and 31-23 in the next two quarters. Scorers were Ronnie Felderhoff and Lonnie Hellman 10 each, Jerry Eckart 7, Lyle Klement 4, J. D. Rumley 3, Tom Hennigan 2.

MHS girls had a miserable

first half, trailing by 23-7, and gained slightly in the second half for the 29-19 final score. Their point makers were Joyce Swirczynski 6, Janet Swirczynski 6, Paula Sicking 3, Becky Jaska 3.

Playing Lindsay the girls had trouble in the second half. After a 13-13 tie at intermission they lost their range of the basket while Lindsay kept going for a 29-20 win. Janet Swirczynski hit 18 for Muenster, Carol Zimmerer made 9, Betty Rohmer 6 and Jane Fuhrmann 6 for Lindsay.

Muenster boys lost the game in the third quarter after a 15-13 lead-at the half. In the next period they scored 3 and Lindsay 14, and the visitors gained still another point in the fourth for the final count of 39-29. Leading scorers were Jerry Eckart 9, Ronnie Felderhoff 7 and Lonnie Hellman 6 for MHS. Glenn Beyer made 8 for Lindsay.

Students to Have Program Feb. 17 On Health Careers

The Texas Health Careers Program will stage an assembly program for Sacred Heart High School at 2:30 p.m. on Wednesday, February 17.

A unique presentation, this assembly is designed to introduce students to the exciting opportunities which await the health-care professional of tomorrow. Speaker for the Health Careers Assembly will be Gerald Spraggins, R.N., Field Director of the Texas Health Careers Program. A veteran of Vietnam and first male graduate of Methodist Hospital School of Nursing in Dallas, Mr. Spraggins will speak of "You-Health Careers — and the Future," the mighty message of exciting, rewarding careers in health care.

The Texas Health Careers Program is affiliated with the Texas Hospital Association.

Jim Smoot is the newly elected president of Gainesville National Bank succeeding his late father Ancil Smoot who recently died of a heart attack.

He has been associated with the bank since 1956, served as vice president and cashier for the past two years.

His promotion and three others were approved Tuesday in a meeting of the bank's directors.

William Smoot, another son of the late Ancil Smoot, was named vice president and cashier. Billy Hudspeth was named assistant vice president and Ray Nichols became assistant cashier.

Other bank officers are LeRoy Robison, senior vice president, Edwin Alexander, executive vice president, Mrs. Omie F. Sherrill, assistant vice president, Miss Elizabeth Hays and Mrs. Mary Ellen Gibbs, assistant cashiers.

Mr. and Mrs. Bill Kathman had as guests Saturday their daughter Mrs. Stan Wylie and children Jeanette, Jimmy and Johnny of Grand Prairie. Jeanette played on the basketball team for Immaculate Conception School. After the game she took seven schoolmates over to meet her grandparents.

Tigerettes Nudged By 1 Point, Junior SH Girls Win Two

Sacred Heart's girls were the winners in two out of three basketball games here Saturday afternoon with Immaculate Conception Academy of Grand Prairie.

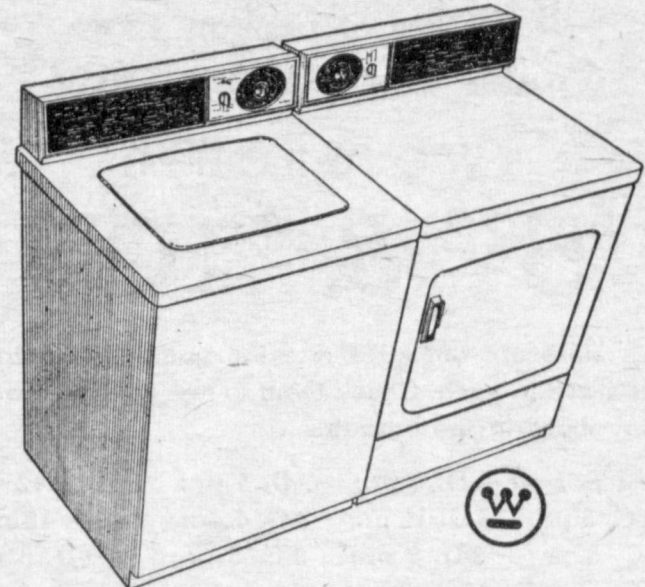

In the curtain raiser the Junior High's B string came out as 9-7 winner over the visiting second team. Karen Luttmeyer scored 4, Linda Hess 3 and Janet Sicking 2.

Next game had more action as the junior regulars rolled up a win of 23-12. Laura Kralicke scored 13, Mary Hess 6 and Linda Klement 4.

For the finale it was a hotly contested encounter of the two

high school teams. After trailing 9-6 at the first quarter Sacred Heart moved up to a 16-16 tie at half time. They dropped behind again for a third quarter count of 26-22 and gained again, but not enough, for the final score of 31-30. Nancy Fuhrmann and Peggy Sicking each scored 13 and Donna Endres 4.

The Sacred Heart High teams will end their season Friday night at Fort Worth Christian. For the Tigers it's just another game. They are out of the title race. However it's a big one for the Tigerettes who can tie for the TISC title with a win. At this time they have a 4-1 record. A win would give them a 5-1 record and a tie with Greenhill for top honor.

Hard Work, Determination Pay Off For Tom Hess on NTSU Track Team

By Curtis Kleven in the Denton Record Chronicle

The fall Sunday afternoon was cloudy and windy, threatening rain, as Tom Hess and two other runners ran into the stadium parking lot. After a brief conference, they decided to add three more miles to the ten they had just completed. It was now raining, but Hess didn't seem to notice.

Beginning his third year as a middle and long distance runner for North Texas track squad, the 20-year-old junior has already set the pace for what could prove to be his "coming-out" year.

Running in the first intra-squad time-trial of the cross-country season last September, Hess led the Eagle pack around a rain-soaked track, finishing first with an impressive 4:24.5 mile time. His best effort last spring was only two seconds faster.

And, in the season's finale four weeks ago, Hess placed eighth at the Missouri Valley Cross Country meet in Wichita, Kan. His time of 20:29 for the four-mile run was a mere 47 seconds behind first place. As a team, the Eagles finished third, behind Drake and Wichita State.

Though track season is on the other side of the year, Hess doesn't hide his enthusiasm for what's coming up.

His primary goal is to improve a disappointing performance record from last year, openly admitting that he is after the MVC six-mile crown next spring, with a time of under 30 minutes. He placed fifth in the event last spring with a 33:04.

Hess also expressed new found confidence concerning the Olympics.

"This year I think I have realized it's possible," he said, adding, "I used to think I could never make it there, I know '72 is too close, but I'm going through the trials because I'll probably shoot for the marathon and just get some experience."

During the Thanksgiving holidays, Hess traveled to Abilene to participate in the 26.22 mile race. Completing the course with an overall time of 2:59, he was able to keep his mile times under seven minutes — and for the first 15 miles, under 5:45.

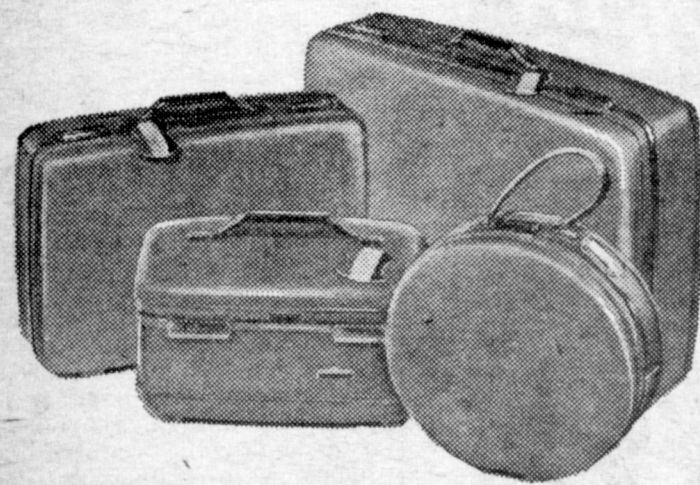

A calendar year for Hess is divided into three seasons. During the fall months, while in training for the almost weekly 3 to 6-mile cross-country races or the 7 to 15-mile road races, Hess covers 75 to 100 miles a week, doing primarily road work.

About mid-November and continuing through the spring months, he adds speedwork to his schedule and averages 70 miles weekly. Following the spring track season Hess begins his summer training, doing up to 100 miles per week.

Despite working evenings and nights on the freight docks in Dallas last summer, he managed to exceed the 1,000 total mileage mark for the second straight summer. Many of these miles were run in soaring afternoon temperatures.

Several times last summer he ran to Lake Dallas and Lewisville, stopping at service stations along the way for drinks of water.

Once he ran 40 of the 45 miles to his hometown of Muenster. Running along in-

**SS Beneficiaries
Were Paid Almost
\$32 Billion in '70**

Elderly, disabled and widowed Americans and their families received nearly \$32 billion in social security checks in 1970, or \$5 billion more than in 1969, Gus Jones social security district manager in Sherman, said today. An estimated \$114 million was being paid monthly to social security beneficiaries in Texas at the end of 1970.

The number of men, women and children on the social security benefit rolls nationally rose to 26 million in 1970. While the majority are older people, about one out of every four is under 60, Mr. Jones said. Some 1,300,000 residents of Texas were receiving benefits at the close of 1970, Jones said.

He noted that nationally 2.7 million people under 65 — disabled workers and their families — received checks amounting to \$242 million a month.

About 6.5 million widows, children and aged dependent parents of workers who died received \$597 million a month at the close of the year. This was in addition to the 17.1 million retired workers and dependents who were paid 1.8

billion a month.

In Texas, an estimated 133,000 people under 65 — disabled workers and their families — were receiving about \$11,134,000 a month at the end of 1970. About 337,000 widows, children and aged dependent parents of workers who had died were getting about \$29 million a month. Some 1,245,000 retired workers and dependents were receiving benefits at the rate of about \$73,125,000 a month.

Since the first monthly checks were paid to 22,000 people in January 1940, Mr. Jones said, social security has grown not only in the number of people drawing benefits, but in terms of protection provided to families.

Today, 95 out of 100 mothers and children would receive monthly checks in case of the death of the family breadwinner, he said.

Four out of five men and women between 21 and 65 can count on monthly benefits under social security if the breadwinner has a disability that keeps him out of work for a year or more. And 93 percent of the people who reached 65 in 1970 are receiving checks or could receive payments if they stopped working, he added.

Practically everyone 65 and over, working or not, has hospital insurance under Medi-

care, and 95 percent of them have also enrolled for voluntary medical insurance that helps pay their doctor bills and other medical expenses, Mr. Jones said.

To file any type of social security claim, simply telephone your Sherman social security office at 893-4301. They are located at 810 North Travis Street, and they are open from 8:30 until 4:45 p.m., Monday through Friday, except national holidays.

A representative may be contacted in Gainesville each Tuesday and Thursday from 9:30 a.m. to 12:00 noon at the Federal Building.

"Let's take the deadbeats and the moochers off the relief rolls — let's demand that every able-bodied person be required to get off his derriere and earn his keep; there are too many of them (we were wont, in my youth, to call them bums) who find it more profitable to relax and 'let George do it' than to pump themselves at honest work — for their ilk, 'labor' is demeaning. But what about George? That poor guy and his contemporaries are going to fold one of these days, then what is going to happen to the army of idlers who have been living high on the hog at the expense of George's labors?" — Metairie, La., Times

Mary Jean Schad has won the Homemaker of Tomorrow honor at Lindsay High School in the 1971 Betty Crocker quiz administered to senior girls in December. She was selected for her score in a written knowledge and attitude examination and will receive a special award from General Mills, sponsor of the annual educational program. She is now eligible for state and national honors.

Mr. and Mrs. Damond Fuhrmann were pleasantly surprised Sunday night when a group of relatives and friends gathered to help them celebrate their 21st wedding anniversary. After a gift display and picture taking there were table games and refreshments. The party was hosted by the honor couple's children Lynn Jim, Carol, Peggy, Jo Ann and Lu Ella.

Confetti - - - enemy sanctuaries and supply lines destroys much of the enemy's fighting potential. Military men think this is smarter than conceding all the advantage to the enemy like we used to. Furthermore, it's effective. Our casualties are fewer. The program of South Vietnam's take-over and our withdrawal is proceeding according to schedule.
