

Two Local Entries Named Champs in 4-H Stock Show

Two of this community's 4-H members received champion ribbons and sixteen others received blue, red or white ribbons at the annual Cooke County 4-H Livestock Show held in Gainesville last Saturday.

Billy Felderhoff's Hereford steer was rated reserve champion and Billy Bayer's beef heifer was the champ in its class.

The grand champion steer, a Hereford-Angus, was shown by Denise Beal of Era. Champ swines honor was won by Tommy Davidson of Era and reserve champ swine by Pam West of Gainesville. Danny Nortman of Lindsay had both grand and reserve champion lambs.

Sixty eight county 4-H members exhibited 88 prize animals at the show which is a prelude to the annual 4-H and FFA Stock Show and Sale to be held March 18 and 19 at the county fair grounds in Gainesville.

Other Muenster members winning ribbons in the steer division were as follows: Blue: Leon Bayer, Tommy Felderhoff and Chris Felderhoff. Red: Jack Dangelmayr, Sandy Reiter, Dale Wolf, Chris Felderhoff, Albert Zimmerman, Dean Sicking and Kent Wolf. White: Lloyd Reiter, Paul Reiter, Kenny Fleitman, Lyle Klement.

Other blue ribbons on beef heifers were won by Leon Bayer, Larry Bayer and Allen Fleitman.

In the swine division Ricky Walterscheid got a blue and a white ribbon, Kenny Fleitman got a red ribbon.

It seems like only a few years ago when the champions of modern education were telling the public to teach the subject frankly and objectively, give students an opportunity to hear it presented properly instead of as a topic of dirty talk. They said, tell the students so they'll be able to avoid the mistakes that so many have made.

Well, it begins to seem now that the program isn't quite all it was meant to be. We have sex education and we also have the problems it was supposed to eliminate or reduce. We have all time high records in venereal disease, un-wed pregnancies, rape, promiscuity and pornography.

It's hard to put a finger on the reason for the theory's failure. Perhaps it's because the subject is too delicate for average teaching and in spite of good intentions students get the impressions they were hearing dirty talk. Perhaps bringing sex that far into the open overcame some of the old inhibitions and encouraged liberal thinking along with liberal behavior. The plain fact is that sex education seems to have done more harm than good.

The Houston legislator seems to have a good idea, that the subject is for the parents. He also seems to imply that, if parents neglected to tell, the old way of conveying birds and bees information had no more ill effects than the classroom method.

Two of the nation's top Republican leaders appear to have come to the parting of the way as far as the Welfare issue is concerned. President Nixon and Governor Reagan are the authors of two opposite methods of dealing with the problem in achieving a sound national economy.

Nixon proposes the Family Assistance Plan, which amounts to a guaranteed annual wage for everyone whose income is below a specified figure. It would not make a lot of difference whether the person is unable or unwilling to do more for himself. Our big benevolent government would see that he lives in dignity and comfort.

It's hard to see how the President can reconcile this plan with the basic principles of this country. Besides imposing on taxpayers to subsidize tax eaters, this would encourage millions of the low income people to do less than ever. It might induce exasperated taxpayers to get off the treadmill and get on the gravel train. It would kill incentive while bankrupting the country.

Reagan's idea sounds like a much better solution. He suggests that deserving welfare recipients be designated as such and provided for with the least possible administrative cost and red tape. He also insists that able bodied recipients of welfare work for what they receive and that the "cloak of secrecy" around welfare cases be removed.

Reagan's way obviously makes welfare less appealing. It induces able bodied people to do more for themselves and get off the relief rolls as soon as possible. It reduces the taxpayer's load and results in a larger percentage of citizens to help carry the remaining tax load.

This column hopes very much that President Nixon and the national legislature will take a close look at the Reagan idea before adopting the socialist family assistance plan. Possibly he also needs to tune in on public opinion a bit.

American sentiment still goes along with the basic

4 MHS Students Are Outstanding Teenagers of US

Four students of Muenster High School have been selected as Outstanding Teenagers of America for 1971, according to a report received by Principal Charles O. Cash.

They are Gerald R. Cash, Patricia K. Felderhoff, Glenn H. Felderhoff and Debra L. Yosten. The selection automatically qualifies them for further state and national scholarships and honors.

Nominated by their principals, the Outstanding Teenagers of America are chosen from schools across the country for excellence in community service and academic achievement. The local students will now compete for the Outstanding Teenager trophy of the state to be presented by the governor.

From among the 50 state winners, one boy and one girl will be chosen for the national scholarship prize of \$1,000 to attend the college or university of their choice.

In recognizing the special talents of Outstanding Teenagers, Astronaut Neil Armstrong said these youths "have the ability to face the difficult problems of our time and the obligation to accept the challenge".

President Nixon in a congratulatory message said they have "the opportunity to become great national leaders and doers."

Blast of Winter Saved Fruit Crop

MONTAGUE, TEXAS — Snow, cold temperatures, and accompanying moisture possibly saved the early fruit crop in North Central Texas, according to Bobby D. Reeder, research horticulturist in charge at the Texas A&M University Fruit Research-Demonstration Station at Montague.

"Our early fruit crop here was in danger of being killed by the freezing temperatures," Reeder explained last week. "A few more days of warm temperatures would have resulted in bloom. Then a killing freeze would have written 'the end' to this year's early fruit."

Standard — Elberta, Loring, Coronet, and Sentinel peach varieties are early "bloomers" in North Texas, Reeder continued. All these varieties were near "blooming stage" at the Fruit Station near Montague. One variety in the test orchard, Earlred, bloomed early last week and the blooms were still standing when the snow fell Tuesday afternoon and night. This variety is not a potential for North Central Texas, Reeder commented, because it does bloom so early. It would not be commercially profitable to plant here in this area.

"If we can escape a killing freeze and obtain adequate moisture this year, prospects are good for a heavy fruit crop in North Texas," Reeder predicted.

Election Will Have 1 Race on 4 Ballots

With the passing of deadlines for filing candidacies, the community has only one contest in its three upcoming local elections and one county election.

Following Monday's deadline for hospital board candidacy. Rufus Henschel, secretary, said that Al Felderhoff has filed for the place vacated by John Bayer, making a slate of four candidates for the four positions available on that ballot. The list of candidates for the city council and local and county school board elections had been determined by a March 3 deadline.

The only race in the four elections is on the city council ballot where incumbent Herbert Miller is challenged by Earl Walterscheid. Otherwise there are ten candidates, mostly incumbents, for ten positions.

Also on the city ballot are Arthur Felderhoff and Albert Herr, both unopposed as successors of Mayor Mike Sloan and Gene Heodebeck, who had declined to seek re-election.

Along with Al Felderhoff on the hospital board ballot are incumbents Al Trubenbach, J. J. Biffle and Paul Fetsch.

And four unopposed incumbents are seeking re-election on the two school ballots. Ray Wilde and Robert Bayer are on the local ticket. Doyle Selby and Al Felderhoff are Precinct 3 and 4 candidates for the county board.

All of the elections will be held on April 3 at the public school. Clive Goble will have charge of the city election. Charles Cash will have charge of the other three.

Ronnie Hess Wins First in Mile at Red River Relays

Ronnie Hess of the Sacred Heart Tigers track team took first place in the mile run at the Red River Relays in Saint Jo last Saturday, earning most of the points which gave the Tigers ninth place in the field of 23 schools. His time was 5:04.9.

Others who placed in the meet's scoring were John Barthush, who took fourth in the mile with 5:16.4 and David Krahl who was fourth in the 100 yard dash with 10.6.

Coach Tom Joy was also pleased with some of the boys who took sixth and seventh in several events. It indicates improvement, he said, and a definite achievement considering the array of schools competing. Those who came close were Gary Endres, Tim Bindel, Fred Fuhrmann, Ronnie Hess and Allen Trubenbach.

Next on the Tiger schedule is the Possum Kingdom Relays at Graham Saturday. Competition will be rugged there as Sacred Heart runs in the division including B, A and 2-A schools.

The team will include Bill Bartush, John Barthush, Ronnie Hess, Tommy Felderhoff, David Krahl, Kevin Swirczynski, Fred Fuhrmann, Melvin Luke, Kenny Hess, Karl Hess, Mark Schmitt, Allen Trubenbach, Danny Voth, Wayne Grewing, Gary Endres and Tim Bindel.

Parish Observes St. Joseph's Day

In keeping with a pioneer tradition in Muenster, Saint Joseph's day, March 19, is annually a special day in Sacred Heart Parish.

This year's observance will include an evening Mass at 7:30 p.m. and a full holiday for students of both schools.

After the church service members of St. Joseph's Society will have their March business session with election of officers and a social hour with supper.

Observance dates back to the early days of the parish when two churches were destroyed by storms. It was then the pioneers vowed special observance of March 19 in honor of St. Joseph who is the patron of builders, having been a carpenter himself. Since then no destructive storms have pledged the community.

Refreshing Change

It was refreshing and encouraging recently when Dr. Joseph H. Jackson, president of the National Baptist Convention, came out flatly against forced mixing of races in public schools on a percentage basis such as has been done in several Southern states by court order.

Dr. Jackson is a black minister.

"Our educational system should accept the scientific tests approved by educational psychology," the leader of 6.3 million American Negroes told the church's 90th annual meeting in New Orleans.

"Students should be classified according to their in-

telligence quotients, and promoted according to their educational achievements," Dr. Jackson added.

He hit to the heart of the controversy which has divided this nation and has spearheaded civil rights legislation that is designed to force one to love the other. It just can't be done.

It can be likened to a girl being pursued by a good guy but in turn pursuing a bad guy. Regardless of the logic as to what her choice should be, you can't force her to love the good guy, nor can you force a Negro to love a white nor vice versa. Laws can force the two groups to eat together, work together, live in the same neighborhoods, and what-have-you, but the law can never make one love the other.

Of course no one race deserves better treatment than another and all should receive equal treatment under the law, but no law passed by whomsoever can change the way a man feels in his heart. Until that feeling changes, there will be no change in the continued controversy and there will be no improvement in race relations.

We have many politicians who would pass laws that are designed to force the White to love the Black or the Brown or the Yellow, but they can pass all the laws they want — there are now many already on the books — but they will not accomplish what they are meant to accomplish.

Awards of \$290 Offered in CCJC Writing Contests

Writing awards totaling \$290 in three contests are available to area residents and Cooke County Junior College students, the CCJC English department announced today. The Layuna Hicks Creative Writing and the Lan and Willie Davis Research contests are open only to CCJC students of the fall or spring semester. The CCJC Creative Writing Awards are available to anyone who has not been a student during the 1970-71 academic year.

Both the Layuna Hicks and the CCJC Creative Writing contests are divided into short story and poetry divisions with prizes of \$30 for 1st place, \$20 for 2nd, and \$10 for 3rd. The \$25 Research Awards are given to the best freshman and sophomore research paper.

Deadline for manuscripts in any of the contests is April 2, according to English instructor Mrs. Mary Dell McCrory. Complete rules for the contest, she adds, will be published in the March 15, HILLTOP NEWS, campus publication, or they may be obtained from her office in room 812 at the college.

The Layuna Hicks Contest, in its third year, is offered by the school in honor of a retired, former chairman of the English Department, Miss Layuna Hicks of Gainesville, who continues her educational activities through displays and guest lectures at the college. The Lan and Willie Davis Research Award is offered by another former CCJC English in-

structor, Jeff Davis of Little Rock, Arkansas, in memory of his father and mother, for whom the contest is named. This year marks the second for the research contest, though Mr. Davis has offered writing awards of some type continuously for the past several years.

\$50,000 Grant for Planetarium Given To CCJC by HEW

Dr. Shasteen, President of Cooke County Junior College, received word today from Congressman Graham Purcell's office that Cooke County Junior College has been awarded an additional \$50,000.00 grant, effective March 1, 1971, from the Department of Health, Education and Welfare, under Title I of the Higher Education Facilities Act.

This brings the total amount to \$150,000.00 that the College has received for the construction of the new John H. Parker Planetarium building. The remainder of the cost of the building will be paid for from student tuitions. The college has been able to provide this modern facility at no additional cost to the local taxpayers.

Included in this building are classrooms, science labs, and offices for the Math-Physics and Social Science Departments.

Paleolithic drawings of archers indicate that bows and arrows are an invention of at least 20,000 years ago.

There is some talk about freezing prices and wages. This perhaps should have been done sometime ago before prices went so wild including interest rates. From Washington comes the word — 'Hold the line'. This is good advice and until this is done... inflation is going to keep rolling upward. The part that doesn't fit the picture very well is the fact Congress raised their own salaries from \$30,000 to \$42,500

per year or about 42 percent. All of us would like a 42 percent salary increase, but try and get it, while operating a small business! — Menville, Ia., Record.

Carol Mosman and William J. Hopfer Say Vows at Mass

Sacred Heart Church was the scene of the wedding of Miss Carolyn Ann Mosman and Spec. 4 William Joe Hopfer at 3 p.m. Saturday.

Parents of the couple are Mr. and Mrs. John Mosman of Muenster and Mr. and Mrs. Walter Hopfer of Gainesville.

The bride's uncle, Msgr. Fred Mosman of Dallas, celebrated the Nuptial Mass and her brother, the Rev. Mr. Jerry Mosman of Holy Trinity Seminary, Irving, directed the exchange of vows in a double ring ceremony. The Rev. Mr. Mosman is a newly ordained deacon and it was his first time to officiate at a wedding.

The bride, given in marriage by her father, wore a gown of white peau de soie overlaid with nylon organza which formed the long cuffed sleeves. Cotton-nylon lace formed a floral pattern at the high neckline, on the Empire bodice, and down the front of the A-line skirt. The lace also edged the aisle-wide circular detachable train. Her veil was elbow length and her flowers were a white orchid and feathered carnations.

Mrs. John McDonnell of Denton, was her sister's matron of honor and little Miss Nora Ann McDonnell was flower girl for her aunt. Their dresses of sky blue organza over taffeta with accents of white lace were similar to the bride's. They wore matching velvet bows with streamers in their hair and each carried a long-stemmed yellow rose.

Walter Hopfer attended his son as best man.

Tommy McDonnell, bride's nephew, was ring bearer. Ushers were the bride's brothers Capt. Tim Mosman of Fort Hood and Tom Mosman of College Station, and the groom's friend Marcus Edwards of West Virginia.

Candle lighters and Mass servers were another nephew of the bride, Bobby McDonnell, and Charles Hess and Frank Moster.

Mrs. Mosman attended her daughter's wedding in a dusty rose knit dress and Mrs. Hopfer mother of the bridegroom was in yellow. They wore velvet ribbon and net hats and had orchid corsages.

Tenth Anniversary

SIX FLAGS ANNOUNCES DATE FOR OPENING

SIX FLAGS Over Texas will begin its tenth anniversary season with a special week-long celebration starting April 3. The popular theme park at Arlington, midway between Dallas and Fort Worth, will be open on a daily basis during the week before Easter. After Easter Sunday, SIX FLAGS will be open on weekends only until daily, summer operation begins June 1.

Officials of the Park also revealed that a major, new ride is under construction at plants in Switzerland and West Germany. To be known as the Jet Racer, the new ride travels on tubular rails at a speed about ten miles per hour faster than SIX FLAGS' well-known Runaway Mine Train.

In addition, the Park will inaugurate a new type of show in its Texas section pavilion. The production will feature Country and Western music performed by talented collegians.

A new show is also slated for Sid and Marty Krofft's Puppet Theater. Called "Puffstuf" it will feature the star of the Kroffts' popular television series H. R. Puffstuf.

Scheduled for the Southern Palace Music Hall is a show which Producer-Director David Blackburn calls, "The most ambitious production we have attempted, particularly from a technical standpoint." It will make use of motion pictures and

color slides which form a constantly changing backdrop for the musical performance.

SIX FLAGS Over Texas Vice-President and General Manager, Charles E. Pafford, said, "We are expecting close to two million people during the 1971 season. All indications are that we will be playing host to more

vacationers from outside Texas than ever before in our history." He noted that the new Seven Seas oceanarium will be opening this summer on a site just west of SIX FLAGS and predicted that the dual attractions will lead to at least a two day stay in the area for many out-of-state visitors.

The dinner table held the decorated cake shaped in a figure 5, and gifts were opened.

Attending the evening party were Doug's grandparents Mr. and Mrs. Julius Hermes Sr. of Lindsay and Mr. and Mrs. Bruno Fleitman, also the honoree's uncle Jerry Fleitman and his brother Sammy.

Preston Joy, 2, Has Birthday Parties

Preston Joy, son of Mr. and Mrs. Tom Joy, had two celebrations in observance of his birthday. He was two years old March 4.

His parents were hosts in their home for a party Sunday, March 7, from 4 to 6 p.m. His godmother Mrs. Andy Schoech entertained with a dinner party in the Schoech home on March 4.

Guests in the Joy home were the honoree's grandparents Mr. and Mrs. E. M. Bond of Arlington, Mr. and Mrs. Andy Schoech, Mr. and Mrs. Lawrence Martin and Ernie and Estelle, Mr. and Mrs. Alvin Hartman and Monica, Robert and Kenneth, Mr. and Mrs. Joe Felderhoff and Christie, Jennie, Ann and Rose, and Preston's sister Mary Elizabeth.

Mr. and Mrs. Bond had just returned from two months' trip to the South Pacific and told about their travels.

The refreshment table delighted the children with its train birthday cake carrying two candles and its cargo of all day suckers which were distributed to guests. The train tracks were fashioned of licorice sticks. The cake was served with individual ice cream cups and cherry punch to the youngsters while the adults had coffee and cake in the living room, and Preston with the help of friends opened his birthday presents there.

Sharing honors with Preston at the party in the Schoech home was Father Placidus Eckart who observed his birthday on March 3. Places were laid at the dinner table for the honorees, Mr. and Mrs. Joy, Miss Carolyn Schoech and the hosts.

NOTES FROM THE LIBRARY

By Bettie Luke

A very interesting book, "Famous Trees of Texas," is new at Muenster Library, presented by the Texas Forest Service of College Station.

The book memorializes those trees which have been a witness to some of the exciting periods and events in Texas Frontier History.

As the book points out, Texans are fortunate to have such a rich and colorful historic heritage. Many of the state's historic trees are lost forever. Inadequate records of their location, death by disease or neglect, and man's thoughtlessness in removal of those that stood in the way of progress have been the cause of loss.

The book describes some Texas trees that are not famous for historical reasons but because they have been certified by the American Forestry Association as the largest of their kind in the United States.

The book points up that all Texas trees should be marked, protected, and made accessible for visits by this and future generations.

Districts to Pay \$245 Million of State School Bill

Local school districts' share of the state's public education system cost in 1971-72 will be \$245.1 million.

State Board of Education set the local fund assignment for the next school year at a meeting in Austin, March 1.

Assignment includes 20 percent of the foundation school program cost (\$215.1 million), plus another \$30 million in special credits earned by the districts during the past year.

Total cost — both state and local share — of the foundation school program for the 1970-71 school year is estimated at \$1,075,534,247 (billion).

Professional and teacher aide salaries this year will cost \$26.7 million, maintenance and operation of schools, \$76.8 million; transportation, \$26.8 million; Texas Education Agency administration, \$2,093,000 and special programs, \$7,082,000.

Many local school districts pay for additional services with local tax money and support salaries for their teachers higher than the minimum scale.

"The Legislature may prescribe such other eligibility requirements for participation in these programs as it deems appropriate.

"The Legislature shall have authority to enact appropriate legislation which will enable the State of Texas to cooperate with the Government of the United States in providing assistance to and/or medical care on behalf of needy persons, in providing rehabilitation and any other services included in the federal laws making matching funds available to help such families and individuals attain or retain capability for independence or self-care, to accept and expend funds from the Government of the United States for such purposes in accordance with the laws of the United States as they now are or as they may hereafter be amended, and to make appropriations out of State funds for such purposes; provided that the maximum amount paid out of State funds to or on behalf of any needy person shall not exceed the amount that is matchable out of federal funds; provided that the total amount of State funds paid for assistance grants for needy dependent children and the caretakers of the children shall not exceed Fifty-Five Million Dollars (\$55,000,000) during any fiscal year.

"Provided further, that if the limitations and restrictions herein contained are found to be in conflict with the provisions of appropriate federal statutes, as they now are or as they may be amended to the extent that federal matching money is not available to the State for these purposes, then and in that event the Legislature is specifically authorized and empowered to prescribe such limitations and restrictions and enact such laws as may be necessary in order that such federal matching money will be available for assistance and/or medical care for or on behalf of needy persons.

"Nothing in this section shall be construed to amend, modify or repeal Section 31 of Article XVI of this Constitution; provided further, however, that such medical care, services or assistance shall also include the employment of objective or subjective means, without the use of drugs, for the purpose of ascertaining and measuring the powers of vision of the human eye, and fitting lenses or prisms to correct or remedy any defect or abnormal condition of vision. Nothing herein shall be construed to permit optometrists to treat the eyes for any defect whatsoever in any manner nor to administer nor to prescribe any drug or physical treatment whatsoever, unless such optometrist is a regularly licensed physician or surgeon under the laws of this State."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on May 18, 1971, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment removing the limitation on the total State appropriations for assistance grants for the needy aged, the needy disabled, and the needy blind, and setting a limitation on total State appropriations during any fiscal year for assistance grants for needy dependent children and the caretakers of such children."

American ideas of justice and self reliance. Most of us are the kind who make the country tick, and we resent being handicapped by drones.

For an idea of how the pub-

lic feels on the Nixon and Reagan recommendations, it might be a good idea for the president to have a survey. It could reveal that taxpayers are still in the majority and getting very tired of the shabby treatment they get.
