Chicago police has stirred up

Our own impression is similar to that voiced by Senator Muskie, he who was nominated for the Vice-President spot on the Democratic ticket. The Senator said that he observed the troublemakers from his 7th floor window, and that they very carefully maneuvered innocent onlookers between themselves and the police before opening up with barrages of missles. And the police had to pass through the innocents to get to the perpetrators.

Do peaceful demonstrators usually carry bottles, cans, rocks and assorted containers filled with excrement? Certainly these were not predominantly residents of Chicago. They were imported troublemakers who openly trained for the engagements with the police while TV cameras filmed the exercises. Good entertainment, that.

Probably before the typesetter can finish with this copy they'll be pulling that "col-lective guilt" business again. In anticipation of that drivel we'll hoist a couple of culprits for the investigators to interrogate. First there is President Lyndon Johnson who, on August 3, 1965, greeted some college students as "fellow revolutionaries," and who told Americans four years ago that he was going to take money "away from the 'haves' and give it to the have-nots' who need it so much." The law defines that procedure as stealing, and we presume the Chicago hoodlums felt it didn't make much difference in the Great Society which laws they broke.

Another culprit is Hubert Humphrey who orated in July, 1966, that if he lived in the slums, "I think you'd have more trouble than you have already, because I've got enough spark in me to lead a mighty good revolt ..

We submit the following as the first question to be asked by the investigators who look into the Chicago happenings; "Would you have preferred that the police not be there?" -U. S. Press Assn.

### HANDLE MANURE AS A LIQUID --Quickly, Easily,

At a low cost!

The new Clay Honey Wagon liquid manure spreader allows one man to load and spread 5,000 gallons per hour. It's the first real answer to getting valuable manure (liquid, solids and bedding) out of pits or livestock areas and spreading it on your fields. Easy loading is provided by Honey Wagon's dual purpose PTO-powered pump which produces a vacuum in the big 800 and 1,475 gallon tanks. Tank fills in 4 minutes or less. Reverse process and pump produces pressure to force manure out in exceptionally even, 25-foot-wide spray pattern. Agitator in tank homogenizes solids and liquids to keep tank from ever clogging. Isn't it time you started handling your manure the logical way ... in a liquid? See us today for complete details ... or better yet ...

#### Lindsay Knights Meet Callisburg In Season Opener

Friday night will be the beginning of what looks like a long hard season for the Lindsay Knights. That is when they square off against Callisburg, the first of a full schedule of teams which are rated to take the Knights.

1968 happens to be a lean year for Coach Henry Schroeder. As happens sooner or later at most schools, this is the year when size, speed and experience are in short supply at Lindsay. Besides this is the year of change over from 8

man to 11 man play.

The Schedule
Sept. 13, Callisburg, here Sept. 20, Gunter, there Sept. 27, Collinsville, there Oct. 4, Anna, here 11, Open

Oct. 17, Gainesville B, here Oct. 25, Era, there Nov. 1, Muenster, here Nov. 8, Windthorst, here Nov. 15, Valley View, here Nov. 22, Saint Jo, there.
