The best news yet in relation to the Civil Rights movement appears in this week's issue of U. S. News and World Report. Negro leaders envision a change from integration to a form of segregation which they refer to as a "black society." The essence of their plan is to seek progress more by their own achievements and less by demands on white people.

Their idea has definite merit. They want to improve their standing in American society by a power which is based on political, economic and social stability. They look forward to acquiring all possible power in local governments, to cooperative effort in establishing their own stores and factories and various other kinds of business, along with greater emphasis on creating jobs for the members of their own race.

In doing so they are shifting away from the old emphasis on civil rights and integration. They favor a new concept of self help and segregation. It's a healthy and praiseworthy change from "gimme" to "I'd rather do it myself."

Here at last we have some fresh air to dispel the stagnation of our country's racial problem. This represents a brand new and highly commendable attitude, a new application of "ask not what your country can do for you but what you can do for your country." It implies awareness of responsibility as well as right, a proper start toward the solution of many problems.

So far this is only the dream of a few colored leaders, but a welcome change from some of the other dreams that have been voiced. It is based on the success of several other well known minorities. There were times when Irish, Germans, Italians, Polish and others were underprivileged groups. They attained equality and a better life by working for it, not by making demands. Real leaders of the Negroes have that same method in mind and they hope to sell it to their people.

To accomplish that they admit that they must work together, one result of which will be to emphasize segregation rather than integration. That too, is a change which many of them are eager to see. They are becoming unhappy with integration. In some colleges Negroes have demanded their own dormitories. Negro parents in general dislike the noble experiment as much as the whites. Preferred companions for their children are the children of their own race.

Let's hope this will be the beginning of a movement. It is the first real effort so far to bring the two most essential ingredients, responsibility and mutual respect, into the civil rights movement.

Odds seem to be stacking against Senate approval of Fortas and Thornberry for the Supreme Court jobs to which they have been named by President Johnson. That was indicated early this week as several Southern Democrats lined up with the Republican opposition.

Some of the senators oppose the appointees as men whose political philosophy is harmful to the country. Some are opposed strictly on principle claiming that the retiring president is out of line in trying to extend his influence into the future by naming men of his political leaning to the all important judicial positions.

That point is particularly significant now when it seems that the country is fed up with extreme liberalism, and apparently is headed for a change in the coming election. It is frustrating to think that the people would be hampered in advance by the appointment of ultra liberals on the Supreme Court.

Fairness in this matter demands a wait and see attitude. Let the nation choose its next president, then let him reflect the public's wish by making the Court appointments. A growing number of Senators appears to be coming around to that way of thinking. Whether they have the strength to outvote LBJ's supporters is doubtful. But they probably have the strength to filibuster successfully and keep the issue from coming to a vote.

Strictly speaking, there is doubt that a vacancy actually exists on the Court. Warren's resignation is conditional, not actual. He said it applies only if LBJ's appointments are approved. Otherwise he intends

City Council Wants Overpass to Stay

Although Muenster expects to lose its railroad it does not expect to lose its overpass. Members of the city council in session Monday night decided to ask the State Highway Department to arrange so that the present safe crossing under the highway can be continued.

Mayor Earl Fisher said that councilmen all agreed the overpass is generally regarded by local parents as a valuable safety feature. Ninety percent or more of the local children on their way to the swimming pool go via Maple Street under the overpass. It is a way of avoiding the hazard of crossing the highway.

In relation to the Katy Railroad's announced intention to abandon its tracks through here, it is understood that Highway Department may possibly prefer a surface road to an overpass when it builds a four lane highway leading west out of town.

Councilmen pointed out, however, that in recent years the structure has become more

Council Requests County Ban on Selling Fireworks

The Muenster City Council went on record Monday night as favoring a county wide ban on fireworks and asked Mayor Fisher to ask for cooperation of the County commissioners.

The councilmen responded to complaints that the holiday season just past was more noisy than usual and many people are getting tired of it. They also said that sale of fireworks is banned in both Muenster and Gainesville, but the ban has little meaning as long as sales remain unrestricted outside the two cities.

Accordingly they have asked the county commissioners to close down the stands within the county which are outside jurisdiction of Gainesville and Muenster city governments.

Complaints about the fireworks state that the noise is not confined to one holiday. It goes on for several days before and after, and the noises are heard long after midnight.

The council is also concerned about fire hazards. Fireworks are known to have set some fires here, but fortunately, none became serious.

Mill Is Champ

Boys Little League

A big fifth inning Wednesday night decided the title in the senior division of the Little League, and the honors go to Muenster Mill Electric Co-op started the game with 2 runs and it seemed for a while as if that would be enough. But a lucky grouping of hits and errors brought in three for the Mill in the fifth. That was all for both sides as Jim Endres and Ricky Walterscheid did good jobs on the pitching mound.

The win gives the Mill a strong lead in loop standing whereas a Co-op win would have barely nudged ahead. Final records are Mill 8-1, Electric Co-op 6-2-1, Center 3-5-1, Endres 0-9.

League Champions Bow to All Stars

Wilde Chevrolet went winless for a record of 0-7-2.

Colonial Acres' winning streak did not survive the post season test, however. All stars selected from the three other teams dumped them 7-4 in Monday night's special attraction.

Sister Agnes Voth Celebrates Golden Jubilee as Nun

Sister Agnes Voth, Muenster native and daughter of pioneer residents, has celebrated the golden jubilee of her profession as a member of the Olivetan Benedictine Sister of Jonesboro, Ark. — a nun for fifty years.

Ceremonies in connection with the anniversary were held July 11 at Holy Angels Convent, highlighted by a celebrated Mass followed by a noon luncheon.

Bishop Fletcher of Little Rock was one of the eight co-celebrants, including Msgr. Thomas Weinzapfel, Dallas, a former student of the jubilarian, and Father Louis Deuster of Jonesboro, former Muenster pastor.

Among those attending were Mr. and Mrs. Ted Voth from here, Mr. and Mrs. John Voth of Lindsay, Mr. and Mrs. Andrew Zimmerer of Gainesville, brothers and sister of Sister Agnes and their spouses, and Mr. and Mrs. J. M. Weinzapfel who made the flying trip with their son, Msgr. Weinzapfel.

In her teaching career Sister Agnes has a combined total of 14 years in Sacred Heart School in three different assignments: the first 1930-36, the next 1938-41, and again in the 1950s.

She entered the convent July 24, 1916, was invested July 2, 1917, made her first vows on the same date in 1918 and final vows on July 2, 1921.

She earned her BS degree from Mount St. Scholastica College in Atchison, Kansas, and her Master's from Creighton University, Omaha, Neb., with her major in English and minor in Education.

After the celebration Sister Agnes accompanied her brothers and their wives to Muenster for a vacation visit with her mother, Mrs. Barney Voth, and other family members until next Monday. The Zimmerers continued traveling with plans for sight-seeing through Tennessee and Mississippi and stops with relatives along the way.

Sister Agnes will return to Jonesboro in company of Sister Anselma Haverkamp and Sister Thomasine Walterscheid who are here until Monday with relatives.

Klements to Get Caribbean Cruise

Mr. and Mrs. Marty Klement are looking forward to a luxury cruise in the Caribbean Sea as guests of Ford Motor Co. Marty won the six-day all expense paid trip for two by taking first place in the Dallas district in a Ford sales contest. Endres Motor Co. was the leader in its classification.

Marty and Edna will start their trip on Sunday, August 18, at Love Field boarding a chartered air liner for New York. From there they will be aboard a luxury ship visiting the principal Caribbean ports. They will be back at Love Field the following Saturday afternoon.

The counts by precinct after the changes, according to County Judge William Carroll, were as follows, Precinct No. 1, 2503 voters; No. 2, 2618; No. 3, 2610; No. 4, 2600. Before the re-districting the precinct counts were, No. 1, 4610, No. 2, 1986; No. 3, 1937; No. 4, 1798.

No changes were made in the rural areas of the precincts. The redistricting, Judge Carroll said, is in line with the Supreme Court's ruling on one man one vote. It will become effective after Feb. 1, 1969, and will have no bearing on the general election of November.

The equalization was achieved by making two changes in boundary lines of the Gainesville wards and also by changes in assignment of the wards to commissioner precincts.

The area between Pecan Creek and North Grand was taken from Ward 4 and added to Ward 2. Also an area north of Highway 82 was taken from Ward 3 and added to Ward 2.

The newly designated wards were assigned to the commissioner precincts as follows. Precinct No. 1 has the reduced Ward 4, which is the northeast part of Gainesville. Precinct 2 has Ward 5, the southeast part of Gainesville. Precinct 3 has Wards 1 and 3, the southwest and west parts of town. Precinct 4 has Ward 2, roughly the area bounded by Grand, Gribble, Commerce and Summit plus all of the area north of Summit in northwest Gainesville.

Formerly Precinct 1 included both Ward 4 and Ward 5, all of the east part of Gainesville, the area which has had most of the city's development during the past two decades. Those wards plus the northeast part of the county contained 46 per cent of the county vote. Precinct 2 included Ward 1, Precinct 3 included Ward 3 and Precinct 4 included Ward 2.

ANNIVERSARY

The flood of world comment on the political assassinations in the United States is beginning to echo a bit and the very fact that we see and hear so much of it suggests that those who print and repeat it are being selective in the reporting.

We'll tell you why. There was a political kidnapping a years ago this month. A distinguished Negro named Moise Tshombe was aboard a charter plane on a short flight to an island in the Mediterranean. A passenger with a revolver forced the pilot to fly Tshombe to Algiers, where he was delivered into the hands of Algerian strongman Houari Boumediene.

That stalwart friend of Moscow prepared to turn Tshombe over to his arch enemies in

the Congo as "a common criminal." It's widely believed that Charles de Gaulle persuaded him otherwise. If so, he was almost alone in interceding in Tshombe's behalf.

Have you heard our State Department speaking out for release of the prisoner Tshombe, who now has spent a year in Boumediene's custody?

Have you heard of Secretary General of the United Nations calling for sanctions against Boumediene's regime?

Have you heard the very vocal spokesman for the Negro community in the United States calling for his release?

You have not, of course. Do you wonder why?

Perhaps it is because Moise Tshombe was a dedicated enemy of the Communist in the Congo, and contended with the late Patrice Lumumba,

since martyred by the Communist-supported forces in his country and brought order and hope to his troubled people. Perhaps it is because Tshombe rejected dictatorship and sought to build a western-oriented society founded on the free enterprise system which Tshombe and his family had employed in Katanga province. Perhaps it is because Tshombe wrote a book which was published first in France and later in this country, in which he outlined the kind of democratic process which could frustrate Moscow and build an ordered society in emerging nations.

Perhaps it is all of these in combination. In any event, the noisy agitators, the impassioned Negro spokesmen, the soul-searching commentators and all officials of the UN are still strangely silent, one year later. Remember the Christian Moise Tshombe — in your prayers, at least.

RED, GREEN AND BLUE

In New York State the Commissioner of Motor Vehicles has come up with an idea that seems to have merit. We pass it along with the thought that his plan, or one like it, should be considered here, and throughout the country.

The plan is to standardize the signals which occupants of a stalled automobile would use to call for assistance. The signals are three balloons which can be tucked in a corner of the glove compartment, and inflated as needed.

If emergency assistance is needed, medical attention of any kind, the driver inflates the RED balloon and flies it from the door handle or the radio aerial.

If police assistance is needed, the driver or an occupant of the car inflates the GREEN balloon and flies it above the automobile.

If the need is mechanical help — if the car is out of fuel, or water, or has broken down for any reason — then the BLUE balloon is used.

Of course such signals aren't needed on highways in most communities across the country; there's always a friendly neighbor or truck driver or fellow motorist who will stop and help — or get help.

But on the nation's freeways and turnpikes such a signalling system is overdue. Most of these are patrolled by radio-equipped police cars and

helicopters these days. Indeed a high percentage of the trucks which roll these roadways are radio equipped, and the reporting of balloons flying from stalled vehicles along the roadside would be greatly speeded in many, many instances. Some lives would be saved.

A RED balloon flying from a car would be an S.O.S. to which any passing motorist could and would respond.

Perhaps some enterprising oil company or automobile manufacturer will wish to generate good will by making a gift of the balloons to motorists, if the idea catches on. But the cost of three dine-store balloons can't be beyond the means of any motorist who warms to the idea.

For our part, we like it; we're not wedded to the color scheme which New York is proposing, particularly since the green may tend to blend with surroundings in certain areas of the country. But the basic idea strikes us as a good one and we hope it comes into common usage.

NOT DOING ENOUGH!

While planners and politicians talk of the government rebuilding cities, guaranteeing jobs, underwriting medical care, education, social security, housing, cheap electricity, and Lord knows what else, a few facts about taxes are pertinent.

Total taxes estimated to be collected in fiscal 1968 by all levels of government in the U. S. will equal about \$3,550 per American family, up \$134 from last year. Twelve years ago, taxes collected by federal, state and local governments combined were equivalent to \$1,897 per family. Total tax receipts in fiscal 1968 will exceed 1967 receipts by about \$10 billion. They will be over \$100 billion higher than a dozen years ago. The collections in 1968 will provide \$148 billion for the federal government and \$69 billion for state and local governments.

There are still those who say that taxpayers are not doing enough! There are millions more of us raising families and running businesses under mounting pressure of taxes and inflation who say that government is doing too much — much more than even the wealthiest nation on earth can afford!

PARTNERS

We thought we were becoming shock-proof as crisis piled upon crisis and we concentrated on doing our daily chores as usual. Then we chanced upon a report of a speech delivered by Walter Knott, head of the famous Knott's Berry Farm in California; he was speaking to the Commonwealth Club of California, in San Francisco. Here is part of what he said — the shocking part:

"Mrs. Knott and I started as tenant farmers 46 years ago on a piece of land that had never raised enough to pay any income taxes or had never made employment for as many as 10 people. Today it furnishes employment for more than 1,000 and besides all the city taxes, county taxes, state taxes, franchise taxes, and sales taxes we are able to make enough to pay the federal government more than \$1 million a year in income taxes. We felt we knew how to run the place and even... take a little pride in ownership.

"When the government agent moved into my office for six months I found out that we really did not own the place. We were running it for the government. This man looked into every aspect of our business, spoke to all our employees, and when he found one that was doing any anti-Communist work, any free enterprise work, such as making talks like I am making today, he told me to take them off the payroll. When I asked if I could not hire whom I pleased, he replied, 'Don't you know that you are in a tax bracket above 70 percent; don't you know that when you spend money on what you call education and we call propaganda, that you are spending 70 cents of our money for every 30 cents of yours. We are not going to have our money spent like that.'"

"And he took these people off the payroll and charged them back to me personally. This is one more example which shows that as government gets bigger, controls get tighter and yet freedom was the basis on which our whole system worked..."

Over the years, Walter Knott has been one of that breed of businessmen, too rare, who has dared to "put his money where his mouth is." He has sought to preserve for others, and succeeding generations,

the freedom which permitted him to labor, save, invest and prosper. Thousands upon thousands of Americans can attest to that; they have visited the patriotic exhibits at the famed Knott's Berry Farm.

Too late, we may all wake up to find that someone has

killed the goose that laid the golden egg. Only paper gold will remain.

Two men were sitting in the bar when one nudged the other and said: "Tell me, Sam, after you drink a lot, does your tongue burn?"

"Listen, Captain," said the perspiring police officer, "we've been giving that ventriloquist the third degree for an hour and a half, and a plain clothesman, three cops, and a detective have confessed to the crime. Shall we go on?"

Girls Softball League

GIRLS JUNIOR LEAGUE
It's a race all the way to the finish line in the Junior League of girls softball with a possibility for a four way tie. As the record stands now Buttercups are slightly in front with a 3-2 count, Rainbows are 3-3, Doodlebugs are 2-2 and Lollypops are 2-3. A win for each by the Doodlebugs and Lollypops would make the count 3-3 for all. One of those games, Doodlebugs vs Buttercups is coming up Thursday night. Buttercups can take the title by winning it, however, a Doodlebug win would leave the way open for the 4-way tie. However again, there is a question whether a Doodlebug-Lollypop game not played should count as a forfeit to the Doodlebugs. So, if Doodlebugs or Buttercups don't win it, nobody will.

Results of the past week were
Rainbows 20, Doodlebugs 16
Lollypops 12, Rainbows 8.

GIRLS LITTLE LEAGUE
In the girls Little League Loop the Pixies had more than enough wins for the title after ending their season with a win over the Redbirds. They finished with a count of 6-1-1 while the Redbirds stand at 2-5-1 and the Bluejays at 1-3-2. The schedule will end Thursday with the Bluejays meeting the Redbirds.

Scores for last week were:
Redbirds 18, Bluejays 18
Pixies 24, Redbirds 19.

CCJC Announces Advisory Service On Free Tuition

Cooke County Junior College has initiated an advisory service to inform students from low-income families of their legal free tuition rights, student advisor Paul Thomas announced Wednesday.

Under the Connally-Carrillo Act passed by the Texas Legislature in 1967, Thomas said, a graduate of a Texas-accredited high school can attend a Texas state-supported college with tuition and fees paid by the state if the student was in the top quarter of his class and if his family's total income does not exceed \$4,800.

"We estimate that only about 1 per cent of the general public knows about this and we want to inform them," Thomas said.

The junior college has set up an information office to explain the law to prospective enrollees of state colleges. Thomas encouraged students who might be eligible to write or call the scholarship advisory, Cooke County Junior College, Gainesville.

Remember when?

Remember when there was no electric air conditioning to make those sweltering summer days...and nights...more bearable? Ice boxes didn't make ice cubes. The phonograph was wound by hand. Hundreds of electric appliances were yet to be invented. Today, dozens of conveniences, comforts and pleasures in your home are made possible by electricity, and the per-unit cost of TP&L residential electric service is about one-fourth as much as it was 40 years ago.

Margie Hess and David Huchton Set Sept. 7 Wedding

Mr. and Mrs. Henry Hess of Lindsay have announced the engagement and approaching marriage of their daughter Margie and David Huchton, son of Mr. and Mrs. John Huchton of Muenster.

Their wedding is planned for September 7, 4 p.m. in St. Peter's Church at Lindsay with Father John Walbe as officiant.

The bride-elect is a graduate of Lindsay High and is employed at Jr. Elite in Muenster. The future groom is a graduate of Muenster High and is employed by Cooke County Electric Cooperative in Muenster. He has completed a tour of duty in the Army with overseas service in Germany.

A man in a brand new, extra large Cadillac drove to the front of a Dallas hotel. He handed the doorman a five-dollar bill and asked him to be very careful when parking the car.

"Yes, sir, I know just how you feel," answered the doorman. "I have one at home just like it."

Center Divides Pair of Games in County Softball

Muenster's entry in the Cooke County Softball League won and lost in their two games of the past week for a present standing of 4-6.

They lost a close one 4-3 to First State Bank and they trimmed Texas Perforating 10-4.

Playing the bankers Friday night they put on a sixth inning rally that fell short by a single run. Virgil Henscheid and Willie Walterscheid each singled and came home on Adam Wolf's triple, and Wolf scored on Glenn Richardson's sacrifice. Before that First State had made 2 in the third on a hit and 2 errors, and two more the next inning on a double followed by a homer.

Hartman pitched for the Center giving up 4 hits and no walks and fanning two. Muenster hitters were Adam Wolf a triple and a single; Joe Felderhoff, Virgil Henscheid, Willie Walterscheid, Glenn Richardson and Alvin Hartman each a single.

Tuesday night the Center fellows jumped to a 2 point lead in the third and added scores the next four innings. Texas Perforating got 2 in the first and 2 in the sixth. The final count was 10-4. Even so, the Center allowed almost as many scores to die on base. They were working on 12 hits, 2 walks and 5 errors. The opposition got 6 hits and one walk off Hartman's pitching and the team errored once.

Muenster hitters were Willie Walterscheid a homer and a single; Len Reiter a triple and a single; Alvin Hartman and Lee Roy Hess, each two singles; Adam Wolf and Glenn Richardson each a double; Joe Felderhoff and Roy Monday each a single.

History is being made faster today than we can afford it.

to stay in the job. Heretofore a Supreme Court judge has been appointed only when a real vacancy existed. Who can say under this circumstance if a vacancy actually exists? Who can say that the president's appointment was valid?

Warren's conditional resignation, moreover, presents a new concept of government procedure. He is, in effect, trying to name his successor—a direct violation of both the letter and intent of the constitution, which specifies that the successor is appointed by the president with the consent of the Senate. Without question, Warren is assuming a power he does not have. At the same time LBJ and the

Senate are unconstitutional in considering his proposition.

This brings up an interesting hypothetical question. Suppose the appointments were approved under the Warren conditions. Would they be rejected as unconstitutional by other members of the Supreme Court? Simple logic tells us they should be, but some of the twisted interpretations of recent years prompts us to wonder. This column believes that the Senate should not depend on the Court for a constitutional ruling. The safest thing is to decline approval of the nominations.

Two women who had not seen each other for a long while met on the street. Said the first: "Gracious, Susie, I haven't seen you for seven years. You look a lot older."

"You too, Faye," replied the other. "I would never have recognized you, dear, if it hadn't been for that dress and hat."

With modern medicine doing so well at increasing our life expectancy, we'd better be careful about adding to the national debt... we might have to pay it ourselves instead of passing it along.
