**Lesson in Liberty**

Tales of torture and brutality brought home from North Vietnam by American prisoners of war should confirm, as nothing else could, that liberty is a fragile and privileged condition of life. It exists only for the strong. For nearly 200 years, U. S. citizens have been sheltered within a system of government and economic opportunity that have guaranteed a degree of both political and economic liberty such as no people on Earth have ever before enjoyed. Blood and treasure have been sacrificed to defend our shores and our system. Many in late years have questioned whether that sacrifice has been worthwhile.

The patriotism from which sacrifice springs has actually been held up to scorn.

The tales coming back from North Vietnam illustrate what can happen when men must bow in defenseless humility before the arrogant power of an enemy. It is a safe bet that those returning from Vietnam have no illusions about what could happen if America were to become weak in convictions and in physical strength. If returning American prisoners of war have one message to give that stands above all others, it is simply that America must be kept strong at all costs — that eternal vigilance remains the price of liberty.

**Environment Nuts**

Some of the 'nuts' who are pushing the environmental cleanup are the worst personal polluters you can imagine. Not all, I say, but some of the radical element, wouldn't even bother to clean up their own backyards, or their front yards for that matter. Garbage is piled all around their homes, and apartments. There are many sincere exponents of pollution control and I am with them, but let's be reasonable. Going to an extreme on these requirements for pollution control can put some industries out of business. I agree that many industries have been negligent in protecting the environment. But sometimes I wonder if these advocates, the extremists, are not out to kill industry and thus weaken our nation. They act like they want us to go back to the stone age, or at least the agricultural age of 100 years ago. Before you start following this crowd of radical so-called ecologists take a second look and see if they may not be out to destroy our country using anti-pollution campaigns as a subterfuge.

**No More Boys or Girls Schols?**

It is sad — and more than a little alarming — to read the Associated Press dispatch from Washington that "About 10 Predominantly or exclusively male and female colleges, including some of the most prestigious in the nation, must explain by early summer delays in totally eliminating

"sex discrimination" in admissions."

The dispatch went on to say that government "guidelines" (not orders) have been mailed to the educational institutions in 33 states by the U. S. Office of Education. Failure to comply invites loss of all Federal "aid."

What has happened in our land of freedom of choice? Exclusively boys, and exclusively girls schools have played a major and distinguished role in the building of our country. And now we are told that what we have been doing these past 200 years is all wrong? If it was wrong for parents to decide that their sons and daughters could achieve the most by study in an exclusively boys or girls school, why did it take so long to find it out?

This latest move by the Office of Education is a prime example that the power to tax is the power to destroy freedom of choice. Earnings and income which might have been used to pay for tuition is extracted by the government in the form of taxes. That money is then sent to the schools (in the form of "aid") by the government. But now the funds carry the taint of government control over what is to be taught, who is to teach, who can be taught, and who is to be allowed to sit in the same classroom. How much longer will it be before all income is controlled and no freedom of choice will remain?

**Poor Exhibit**

A sad commentary on the negative mood of the nation was reflected in the U. S. exhibit at the 1972 International Trade Fair in Bulgaria. With approximately \$300,000 at its disposal with which to depict the USA to the rest of the world, the United States Information Agency constructed a white geodesic plastic dome, featuring a slide show of pollution in this country. Illustrations of garbage heaps and smog were some of the sights greeting bewildered visitors passing through the exhibit. Expecting to find a representative array of America's technological achievements such as computers, washing machines and television sets as, indeed, they should have, visitors were given a tour of the country's sore sports instead.

America's concern over the many problems facing mankind is legitimate and necessary if we are to conquer them. However, twenty-four-hour-a-day negativism is a self-destructive force that can only lead to problems of greater magnitude. A little justified pride in the accomplishments of the United States is warranted and long overdue.

**Common Sense In Education**

Recently, speaking at Loraine County (Ohio) Community College, Dr. Max Rafferty, Ph.D., said that "Long before the end of the 20th century there is going to be a successful challenge to the arrogant assumption that teachers shouldn't be held responsible for the product they turn out." Rafferty advocates standardized testing as one measurement of children's performance.

"If we're still paying bad teachers the same amount we pay good teachers, then public education will be ready for the bonfire," declared Rafferty. "And unless we drastically modify the network of State laws currently giving ironclad tenure to teachers so that we can fire the senile, the stupid and the subversive, public education is going to be a dead duck."

Asked, in the question and answer period, "As an advocate of patriotism, how do you explain to students America's mistakes," Rafferty answered: "I tell them they love their mother, and their mother makes mistakes all the time; but that doesn't mean you can't love your mother." Dr. Rafferty is one expert in the field of education who doesn't mind saying what he thinks. Our hat is off to him.

**Smoke Less Live Longer**

A report compiled by a team of medical researchers and published in the Journal of the American Medical Association warns that increased smoking on the part of American women has caused a soaring increase in fatal heart attacks. The study found that although only 8 percent of all heart attack victims were women in the 1949-59 era, they now suffer about 20 percent of all massive, death-dealing heart attacks. And the researchers blame cigarette-smoking for the sharply increased rate.

When the medical research team probed the cause of death among women heart-attack victims, it was found that an overwhelming 62 percent of them had been heavy smokers; an additional 28 percent of the heart attack victims were light moderate smokers, and only 19 percent, whose heart attacks could be traced to other causes, were even light smokers.

Perhaps the most startling discovery was that the heart attack victims who died young (averaged age of 48) were the heavy smokers. Coronaries mowed down the light to moderate smokers at an average age of 55; but the non-smokers did not suffer a heart attack until age 67. The evidence indicates that women

who smoke heavily are chopping 19 years from their life span.

Moral to the survey: if you wish to live longer, smoke less. — U. S. Press Assn.

**Stalinism Without Stalin**

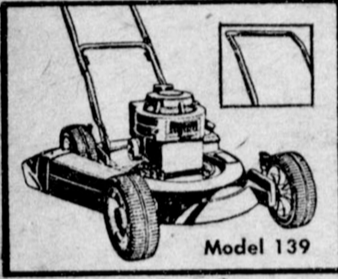

"I was amazed to discover when I left the Soviet Union in 1970 that most people in the free world — even well-informed people — appear to believe that the massive concentration camp system which existed in Stalin's day has for all practical purposes been abolished in the USSR. . . . But the sad fact is — and I shall document this in the course of my testimony — that there

are millions of political prisoners in the concentration camps and prisons of the Soviet Union today; that the camps, far from having disappeared, number into the thousands; and that the conditions are just as bestial as they were in the days of Stalin. . . . I am speaking about today. . . ."

From the sworn testimony of Avraham Shifrin, before the Senate Internal Security Subcommittee, Washington, D. C. February 1, 1973.

"You pay a small deposit," said the door-to-door salesman to a prospective customer, "and make no more payments for six months."

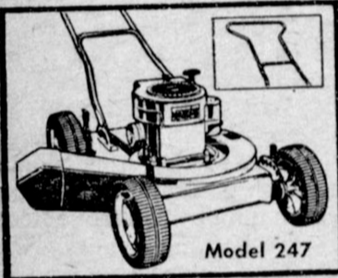

"Who's been telling you about us?" asked the housewife, sharply.

### Boating Safety

Before embarking on boating fun this summer, take time to check your craft for seaworthiness and the proper boating equipment. One of the most important rules to assure boating safety is knowing what to do in case of an emergency. Know how to call for help and obey the weather warnings. Make sure life saving devices are in good condition, operate at safe speeds, and familiarize yourself with small craft rules such as channel markers, buoys and lights. In addition, remember to never: fish in ship channels or swimming areas, venture into dangerous or restricted waters, mix alcohol with boating, or overload your craft.

### Sun Glasses

While pastel shades of sunglasses are very popular, authorities warn against their use. Wearing pink, yellow, orange, red or violet lenses as sunglasses can result in eyestrain, fatigue and inability to see clearly in bright sunlight. Instead, follow the advice of the National Society for the Prevention of Blindness and purchase smoke gray lenses which absorb harmful sun rays and affect color perception the least.

A woman was complaining to her doctor that his bill was unreasonably high. "Don't forget," he reminded her, "that I made eleven visits to your home while your son had the measles."  
"And don't you forget," she countered, "that he infected the whole school."

**CITATION BY PUBLICATION**

# Letters to the Editor . . .

A recent paper said the city council was anxious to settle the matter of city wide garbage pickup. I am in favor of this type of service, if it meets my needs.

Do you know that the council will probably settle the issue themselves without a public vote? This is fine, but let's let them know what we want. If adopted, this service would be mandatory to all. They are also considering an ordinance against burning in the city to coincide with garbage pickup. This means no bonfires at school, no burning of papers, tree limbs, leaves or grass trimmings.

All of these items will have to be picked up by the garbage service. A representative of one garbage removal firm suggested 4 bags a week as a maximum allowed each residence for all their refuse. Add together all you haul off now plus all you burn now. I can't get that much into 4 bags either.

That same man said he was currently picking up more than 6 bags a week from Irving residents. He also said he would pick up bulky items,

like tree limbs, every 5-6 weeks. Do you want tree limbs in your front yard for 6 weeks? Well, we could haul these items off, but the dump south of town will be closed, and we won't be able to burn them either. The dump to be used by the garbage company may not be open to the public and if it is, there will surely be a charge for each load.

We all know that many rural families are currently using the city dump, but when it closes what will they do? The laws covering dumping are tough, even if on your own land. Possibly a county wide garbage service would be best for all. Talk to your county commissioners about that.

The purpose of this letter is not to pick apart any garbage co., the city council or any one else. The point is that at any time our dump may be closed by the state and thereby force us into a quick decision on garbage service. Now, while we have time, let's voice our opinions and our needs to the council members before it's too late. Foresight will be more readily accepted by the council than hindsight.

To the Editor,

As you all well know when the Muenster paper came out on May 18th I was in St. Paul Hospital but when I returned and read the "Letter to the Editor" in May 25th paper I was very much interested in what had been said in the previous paper so I asked a friend for her copy and I was in agreement to a certain extent to Len's-Veiv. I would not have used the word "punk" because I firmly believe that if these children had discipline when they were youngsters they would know how to respect other people's rights and property.

While I was in the Hospital I met a lady who's daughter was in Ursuline Academy and the Seniors had damaged the building over \$500.00 but to punish them they took it out of the Senior fund to do the repairs. Of course it wasn't right to punish the innocent as well as the guilty but how can you do otherwise in a situation of this kind? The children are crying out for discipline and the parents are too weak to do it. May God Bless them!

You know it's not only senior citizens that need rest and sleep but also the working people. If only we had a curfew here and enforced it, it would help but there are little children 7, 8 and 10 years old out in the streets at midnight. Where are the parents?

There is nothing wrong with motor scooters and bikes. When I was a child I rode calves (yes and a pig too) because I wanted excitement but believe you me I wouldn't have gone down main street at midnight. I was in bed. There is a time and place for everything and we should teach our children to respect other peoples rights and property. If we don't do this, this will be a sorry world 10 years from now.

Over at Weber Aircraft at Gainesville they painted the rest room walls a beautiful white. The next morning some one had painted in black on the wall — Strike! Strike! Strike! Is this what we want our children to grow up to be? All we are asking is please keep the town quieter and more peaceful after 10 o'clock at night. Let there be peace and consideration of each other.

Ola Roberg

Dear Editor:

I wish to compliment you for referring to the grave abuse of continual annoyance and unhappiness which thoughtless and reckless owners of cars and motorcycles have imposed upon this city! Mayor David Bright must be praised for facing the situation bravely (in spite of some parental objections) and demanding this must be stopped! All was well explained in your recent paper — but how many of those guilty will read this? One out of four? And what parents will blindly assume that their children

cannot be offenders of wild driving and useless noise! A stiff fine could help convince them. There must be complete impartiality — with God there is no partiality!

Whoever is Sheriff must steel himself to insist upon order and peace, even though Dad and Mom might not like it! Maybe this new control will eliminate the grave injustices done on last Halloween night. The youngsters who threw the rotten eggs are known, yet how many of these irresponsible and immature youngsters were taken to the woodshed for a real "dusting out"? The persons who dusted the eggs to them are also known. Was it worth while to provide means of doing injustice to our fellowmen in Christ? Is cash the only standard of value? Surely not for Catholics! We are for peace and justice and harmony — is anybody against this worthwhile goal?

Sincerely, Father Bede OSB.

To the Editor:

In regard to the city hiring a lawman, there was a remark in the paper about the man being instructed to crack down on speeders and noisemakers. This is a joke.

Every time Muenster gets a new deputy there is a big spiel in the paper about cracking down. This is all fine until the lawman cracks down on the son of a councilman or some other big wheel of the city. Then he has to back off or get out. There is no use in spending money for someone to wear a badge unless we want him to use it.

We need a lawman that will not back off. If parents come howling throw them in jail and throw away the key especially if it is a councilman.

Any one connected with upholding the law whether it is the cop on the street or a judge who is lenient for money should be hung beside the one offering the money on main street and used for target practice. Until we do this we will not have a town that any decent, self-respecting person can be proud of.

These United States are as rotten as any country in the world and Muenster is no longer any exception.

Sometimes we hear people say Government needs cleaning up. I agree. Who is Government? You are the Government. To clean up the Government you have to first clean up your own home, second your home town. When everyone in the U.S.A. does this we will automatically have clean State and National Government. Until you do this you will not have clean Government at any level.

**Medical Insurance  
Now Automatic for  
SS Beneficiaries**

Any person who receives a social security check and attains age 65 in July 1973 or later will automatically be enrolled for both hospitalization and medical insurance under Medicare according to Gus Jones, Sherman Social Security District Manager.

Jones said this has always been true with respect to hospitalization coverage under Medicare. What is new is the automatic coverage for medical insurance... that part of Medicare which helps pay doctor bills, and, for which a monthly premium is paid by the beneficiary or deducted from his check if monthly benefits are being paid.

The change has been made to prevent an individual's loss or delay of entitlement to medical insurance coverage because of his failure to take timely, positive action.

Of course a person can still decline medical insurance coverage by filing notice prior to the beginning of his coverage period and he will be considered not to have enrolled.

A notice filed after the coverage period begins will be treated as a withdrawal under existing disenrollment rules.

Disability beneficiaries will be automatically enrolled for medical insurance coverage in the 24th consecutive month of receiving disability benefits unless a declination is filed prior to the 24th month. The first effective month for Medicare coverage for disability beneficiaries is July 1973. The same rules for withdrawal apply.

A representative may be contacted in Gainesville each Tuesday and Thursday from 9:30 a.m. to 12:00 noon at the Federal Building.

More than 27,000 gallons of water are needed to irrigate an acre of land to a depth of one inch.

**Valerie Voth and Douglas A. Gantt Say Vows at Mass**

Miss Valerie Sue Voth and Ensign Douglas Allen Gantt pledged wedding vows during nuptial Mass in Sacred Heart Church Saturday at 5 p.m. with Father Placidus Eckart, pastor, officiating.

Mr. and Mrs. Ray Voth of Muenster and Mr. and Mrs. Alfred Gantt of San Antonio are parents of the couple.

Presented by her father, the bride wore a formal gown of white nylon organza over taffeta. Alencon lace covered the closely fitted empire bodice with its victorian neckline and lace-cuffed bishop sleeves. The full gathered skirt was banded with lace above a wide flounce. Alencon lace bordered her cathedral-length veil and she carried a Colonial cluster of white daisies and stephanotis centered with a purple-throated orchid and surrounded with lilac satin leaves

scheid also played guitar accompaniment.

Musical numbers were "If and "The First Time" before Mass, "One Hand One Heart" for the bridal march. "Let It Be Me" at the offertory, "Wedding Song" at the communion, "Peace, Joy and Happiness" after Mass when the bride placed two long-stemmed orchid carnations on the Blessed Virgin's altar. The floral tribute was handed to her by her young brother Craig Voth. The recessional was "A Time for Us."

Wedding reception and dinner were held in the KC Hall where Misses Rosemarie Green of Justin and Emily Barth of Comfort registered guests.

Mrs. Charles Bayer presided at the wedding cake, served by Misses Brenda Voth sister of the bride, and Michele Bauer of San Antonio.

The couple's honeymoon trip will take them to Mare Island, Calif., to make their home. For traveling she wore a purple and white pantsuit with white accessories.

The bridegroom is a graduate of Robert E. Lee High School in San Antonio and from Texas A&M in December 1972. He has just graduated from Naval Candidate Officer School in Newport, R. I. His new assignment is attending Naval Nuclear Propulsion School at Mare Island.

The new Mrs. Gantt is a graduate of Sacred Heart High, attended Texas Woman's University in Denton, and had been employed at Texas A&M University at College Station.

**Wedding Guests**

Wedding guests in addition to those already mentioned from out of town included Mr. and Mrs. Alfred Gantt and Mrs. Malcolm Dennis of San Antonio, Mr. and Mrs. Albert L. Bauer Jr., Joey and Theresa of LaFeria, Mrs. Ron Hambric of Bryan, Mr. and Mrs. Ronald Rather of Tyler, Mr. and Mrs. Robert Dixon of El Cajon, Calif., Mr. and Mrs. Robert David of Pilot Point, Miss Sue Polansky and Dick Bowers of Caldwell.

### HDC Members Give Party for Group Of Senior Citizens

In observance of May as Senior Citizens Month, members of Muenster Home Demonstration Club entertained a group of local senior citizens at an afternoon party Thursday, May 24, in the home of Mrs. Alois Rohmer.

Honored guests were Mr. and Mrs. John Rohmer, Mrs. John Felderhoff, Mrs. Mathilda Wimmer, Joe Swirczynski, Mrs. Bob Yosten and Mrs. Felix Becker.

They enjoyed an old fashioned kaffee klatch with home made cinnamon rolls and coffee and games of bingo. Each won a prize.

Fifteen club members attended and other guests were Mrs. Charlie Fisher and Connie Lutkenhaus. Neil Rohmer helped his mother with serving.

### Time to Spray for Pecan Casebearer

Now is the time to control pecan nut casebearer in Cooke County, according to County Extension Agent Neil Tibbets. Judgments based on the hatch out of pupae of the pecan nut casebearer, time to apply insecticides for the control of this pest in the Dallas-Fort Worth area should be May 29-31.

In counties along the Red River spray should be applied from June 1-5. The time may vary in certain orchards and the growers are asked to watch for eggs and young larvae entering the young pecans.

According to Tibbets, Guthion, Zolone, Sevin, Malathion and Toxaphene can be used to control the pecan nut casebearer. People who have pecan trees in their backyard should consider using Malathion or Sevin. Read the label on the container and mix the insecticides according to the directions given on this label. For best control apply to the point of runoff.

A second application of spray should be applied seven to ten days after the first for maximum protection from the first generation of casebearers.

### MPS Faculty Fetes Mrs. English at Retirement Party

Mrs. S. W. (Josephine) English was a surprised honoree Thursday, May 17, when fellow faculty members of Muenster Public School, members of the school board and tax equalization board feted her at a retirement dinner. Spouses and dates also were present.

In an after-dinner talk Urban Endres, president of the board, presented Mrs. English a diamond retirement pin and Edgar Dyer, in the name of the hosting group, presented a silver tray. Other speakers included Dan Hamric, and Superintendent L. B. Brunts who asked Mrs. English to list schools she has taught in during the past 27 years. She spent the past ten years at Muenster Public School. At the close of the evening she gave the benediction.

At an earlier party Mrs. English was honored by her second grade students and their mothers.

### Five SH Students Are on National Outstanding List

Recognition of five Sacred Heart students in this year's annually published volume on Outstanding American High School Students was announced this week by Sister Mary John Seyler, principal of Sacred Heart High.

The students were chosen by the national society on recommendation by the local faculty for high scholastic achievement. They are Myron Hess, Christi Koesler, Susan Endres, Beverly Walterscheid and Kevin Pels.

The lady, recognized as a hypochondriac, called her doctor one night and exclaimed: "I know what's wrong with me. I've got a bad case of hyperinsulism."  
 "I know all about it, so don't worry," replied the Doc. "I just watched the same television program."

After giving what he considered a stirring, fact-filled campaign speech, the candidate looked out at his audience and confidently asked: "Now, are there any questions?"  
 "Yes," came a voice from the rear. "Who else is running?"

**Almost 1.3 Billion Barrels of Oil Produced in Texas in 1972**

DALLAS — In the face of unprecedented demand, Texas oil fields last year produced almost 1.3-billion barrels of crude oil, an all-time record for the state. This figure was tops among the nation's oil-producing states and represented some 38-percent of total U. S. production, according to statistics compiled by the Texas Mid-Continent Oil & Gas Association.

These figures show an increase of more than 67.8-million barrels over production in 1971. They reflect that during the last nine months of the year, the Texas Railroad Commission maintained a maximum efficient production rate for Texas fields. This marked the first time Texas wells had produced all-out since 1948.

Last year's crude oil production, recorded in 203 of the state's 254 counties, was valued at some \$4.5 billion.

In 83 years of recorded production, Texas has produced nearly 37-billion barrels of oil, about 36-percent of total U. S. production.

Cooke County, which has had recorded production since

1926, last year produced 9,804,973 barrels of oil at the rate of 26,790 barrels a day. Production in 1972 boosted Cooke County's production total through the end of the year to 274,166,611 barrels.

Some 32 counties last year produced more than 10-million barrels of crude oil. The top half-dozen, all with production in excess of 50-million barrels, include:

Scurry, 85.4-million bbl.  
 Ector, 71.4-million bbl.  
 Andrews, 65.2-million bbl.  
 Yoakum, 55.2-million bbl.  
 Gregg, 53.4-million bbl.  
 Gaines, 52.5-million bbl.  
 Gregg County, the only Texas county to produce more than two-billion barrels of oil in the history of recorded production, remains the all-time leader with a cumulative production total of over 2.3-billion barrels. Others with over one-billion barrels of production include:

Ector, 1.8-billion bbl.  
 Andrews, 1.6-billion bbl.  
 Rusk, 1.5-billion bbl.  
 Harris, 1.0-billion bbl.  
 Crane, 1.0-billion bbl.  
 Scurry, 1.0-billion bbl.

No key was needed with the American latchstring lock of pioneer days, that is still in use today. Pulling a string that had been threaded through a small door hole lifted the latch bar. Withdrawing the string locked the door from the inside.

## Forestburg News

By Myrt Denham

**FORESTBURG** — The Forestburg branch of the Linda Jo shoe factory opened on schedule May 21. A lot of "hurry-up" work and some "jury-rigging" was involved but the schedule was kept. Eighteen women started work and approximately again that many will be employed as things progress.

They may have to beat the bushes around these parts to find that many more employees. They flushed Bennett Reynolds out of his little "hide-away" for the maintenance man. However Bennett may just have changed his hiding place.

Seems the more women that the shoe factory employs the more men we see sitting on the bench in front of Wylie's General Store. Owner "Red" Wylie is going to have to put up another bench — the present one is really crowded these days.

Friday, May 25, there was an open house of sorts held at the factory. We were told there was ribbon cutting, picture taking and that refreshments were served.

Doesn't miss job — till Fridays (pay day). One of our local gents recently resigned from his job of many years. He is now devoting full time to ranching. When he was asked how he liked being free he replied "Just wonderful until Friday." Yes, those weekly checks are nice as a farmer's and rancher's pay-checks are few and far between. That is why most are "part-time" farmers or ranchers.

Mrs. Juanita Bailey returned home Thursday, May 21, after spending a few days in Lubbock visiting with sons Ronald and Larry and their families. Juanita's dog Pal made the trip with her. On her trip home she had two more passengers — two ducks — pets for one of her grandchildren. Juanita said the homebound trip was not dull — dog Pal in front seat and two quacking ducks in the back seat.

There has been much written and said about the gasoline shortage, hike in its price and rationing, etc. One Forestburg lady commenting on the situation said if it all came to pass her husband might have to stay off the roads

some. Seems he keeps his pickup and the highway to Burg busier than his tractor, plows, drills.

Joe Hunt, out New Harp way, has joined the fishing fleet. He has retired after 30 years as a county employee in Precinct 1. We will miss "Ole Joe." He was one of the more cheerful hands. He never griped about "charity work" such as graveling our driveways, etc. Now Joe don't be like an old "fire horse" and hang around the county barn harassing the working employees. Good fishing, Joe, a well deserved retirement.

Thursday, May 24, was the scene of an automobile accident in front of our local cafe. This involved a local youth and a lady from Alford. We were told the police were called to the scene. No one was seriously injured but the vehicles involved were damaged to some extent. Looks like our "city dads" may have to hire a traffic cop before long.

Mrs. Robert Ensey, Dewey, celebrated her birthday Friday, May 18. This writer stopped by to give my best wishes. Robert told me that their children and families were coming over to help Juanita celebrate. We were later told a very pleasant evening was had by all. Many happy returns of the day, Juanita.

Baccalaureate services were held at the Forestburg school for our graduating seniors on Sunday evening, May 21. Rev. Jim Riddle was the speaker. Following the services a reception for the seniors, their parents and friends was held in the annex of the United Methodist Church. Refreshments were served to 69 guests.

Monday night, May 22, commencement exercises took place at the school. Mrs. Lynn Rainwater, Montague County Home Demonstration Agent, was the guest speaker.

Friday, May 25, the seniors left on their trip for Florida. They were accompanied by Mrs. Barney Brogdon and Lester W. Boyd Jr.

Recent visitors with Mr. and Mrs. Homer Shears were Mr. and Mrs. Homer Leonards of Paramount, California and Mrs. Inez Butts of Nocena. Mrs. Leonards and Mrs. Butts are cousins of Mrs. Shears. All these folks motored up to Harding City, Okla., to visit their aunt Mrs. Pearl Blevens.

While talking with a friend one day this past week she told me about a salesman of sorts being in and around the Burg. Seems he used some rather strange and odd approaches to try to gain entrance into homes. Anyway he frightened several women. One lady came home to find him in her house talking to her young daughter. One woman finally called the law and the last we heard he was resting in jail in a neighboring town. Ladies, young and old, please do be careful about allowing a person like that to come into

### Judy Kay Pittman Roger Dale Brown Plan July Wedding

Mr. and Mrs. Tom Pitman of Rt. 2, Muenster announce the engagement and approaching marriage of their daughter, Miss Judy Kay Pittman to Roger Dale Brown, son of Mr. and Mrs. Glenn Brown of 214 McClain, Gainesville.

The bride-to-be is a 1969 graduate of Era High, attended East Texas State University for two years receiving a secretarial certificate, and is employed at the County Extension Office. The prospective groom is a 1967 graduate of Gainesville High, served in the United States Marine Corp, is employed by Johnson's Oldsmobile, and attends Cooke County Junior College.

The couple plans to be married on July 14 at 7:00 p.m. in the First Baptist Church at Saint Jo by former pastor Bro. Paul Burleson of Borger. They will reside in Gainesville.

your homes. As you well know, it could be most dangerous.

Folks don't forget the Dewey Homecoming Sunday, June 3. Dinner under the shade trees by our little church in the woods.

### At Band Concert In Wichita Falls

The John Fishers had their son-in-law Mike Lardner of Landisville, Pa., with them over the weekend. They met him at Oklahoma City where he was on business and Clyde Fisher took him to Dalls Monday to continue business and fly back to Baltimore. Mrs. Lardner was unable to join her husband on this trip because she was still in the classroom teaching.

While here Mike accompanied the Fishers and their granddaughter Kathie Fisher to Wichita Falls to attend a concert by the Royal Blue Concert Band of Notre Dame School. The Fishers' granddaughter JonAnn Galloway plays the baritone. The band has won first place twice in the TCIL state contest. This was the last performance under direction of Brother Michael Jacobs who terminates six years as director as he leaves Wichita Falls.

### Weekend Guests in Cain Home Join in Class Breakfast

Memorial weekend guests in the home of Mrs. Dick Cain joined in a class reunion breakfast there after the dance in the VFW Hall. Hosts for the meal were Mrs. Gene Hartman of Denton and Jim Myrick of Gainesville and their spouses. Also attending were the Cherry Rhone band and a number of guests from Dallas for about 40 present.

Weekending with Mrs. Cain were children and grandchildren, Mr. and Mrs. Bill McCollum, Kelley and Tracy of Dallas, Mrs. Wendell Richey, Robynn, Todd, Stephanie, and Melanie of Gainesville, Mr. and Mrs. Dickie Cain, and Mr. and Mrs. Gene Hartman, Jeanna, Pam and Doug, of Denton, Mr. and Mrs. Jimmy Christian, Richey, Kevin and Chad of Lewisville, Mr and Mrs. Wayne Trachta and DeAnn of New Braunfels, Mr. and Mrs. Chris Cain of Muenster.

Visiting the Wilfred Sickness Tuesday were her sister Mrs. Aubrey Chapman, Charles, Valerie, Ann and Trey of Dallas. They remained to spend until Sunday on the farm.

Mr. and Mrs. Alfred Kuhn and daughter Lori spent the holiday weekend with her parents the Ben Lukes here and his parents the Jake Kuhns at Lindsay and made calls on other relatives.

### Lens-View

The shortage of houses available for rent is curtailing Muenster's growth. Every week we have calls by persons wanting to move here but unable to find suitable accommodations.

Several weeks ago in this column we remarked about the noise of some cars and cycles. Several people have since remarked that it appeared we were against all motor cycles. We have always been prone to ride rather than walk except on the golf course and dance floor. First it's the tri-cycle, then bicycle, later a car or motor cycle. We have owned and enjoyed them all. The motor cycle is a safe and economical means of transportation when used with judgment. It is rather tiring riding long distance especially without a windshield but on short rides, feeling all that power at ones finger tips just airing out is very relaxing. The power and speed available makes it easy to exceed the speed limit and there-in is the danger. While riding, one is very close to the pavement, often not seen by motorists and the slightest misjudgement can cause the loss of a lot of skin.

Trail riding is a pleasure and quickly shows the difference between a beginner and an experienced operator. Many families have taken up the sport and you'll notice cycles for Dad, Mom and the children loaded on a pickup or trailer going to the country where riding the paths of smooth or rough terrain can be fun.

### Swim Season To Start Friday

Friday is Splash Day at Muenster. That's when the local swimming pool will open its 1973 season under management of Dan Hamric and operation similar to that of last year.

Hours are 2-9 p.m. daily except Monday and the charges are 25 cents for children under 13 and 50 cents for all who are 13 or over. Cold drinks and snacks are available at vending machines.

Also the pool may again be leased for private parties on Mondays or on other days before or after the regular hours. Along with Hamric on the job are June Stoffels as assistant manager, and Debbie Reynolds, Janice Fisher, Gerrie Knabe and Terry Walterscheid.

The annual Red Cross swimming classes are scheduled from July 9 to 20.

### Schedule, Rosters Listed in Jaycees Baseball Program

Summer baseball sponsored by the Muenster Jaycees will begin Monday night, June 4, and end its season on Friday night, July 13 — unless the season is extended by postponed games. Starting time each night is 7 o'clock.

Wayne Klement, chairman said this week that rained out games, if any will be added on after July 13. Also, there's a probability that the Budweiser team of older boys, who are in a Gainesville league, will play a game or two here on Wednesday night. In that case, too, the local league play will be postponed.

The schedule includes both leagues alternating their Monday, Wednesday and Friday dates. So each loop will have two games one week but only one the next week. They are listed here separately as follows. In each case the team named second is the home team.

### Charlotte Wolf's Dance Recital to Be Staged June 2

Annual recital of Miss Charlotte Wolf's School of Dance will be staged Saturday, June 2, in Gainesville High School Auditorium. Curtain time is 8:15 p.m.

The public is invited. There is no admission charge.

This year's program is planned around the theme, "All the World's a Stage" with student dancers from Gainesville, Muenster, Sanger, Valley View and Saint Jo. Dancers' ages vary from three years through high school. Numbers will include ballet, tap, jazz, and some baton demonstrations.

During the evening the audience will "visit" Russia, Scotland, Switzerland, Lebanon,

China, Hawaii, and Brazil. Scenes and costumes as well as dance numbers will be in those countries' traditions. Dancers will also feature numbers bringing out the World of Tradition, the World of Fantasy, a World of Love and Peace, and a Mad, Marvelous, Mod World.

Miss Wolf will do a solo number and will appear as a member of a sextette group.

Students from Muenster participating in the recital will be Amber Grewing, Jeanne Pagel, Dolle Pagel, Penni Hess, Charla Bayer, Renee Wimmer, JoEll Hellman, Jenny Hellman, and Dea Swirczynski.

Mr. and Mrs. Jake Bezner, Mr. and Mrs. Weldon Bezner and Norbert Fuhrmann all of Lindsay attended the annual Subiaco Alumni Reunion during the weekend.

is the greatest economic injustice of our time — the inflation system whereby real value is stolen from people's savings. A half century ago thrift was praised as a virtue. So people saved only to find that the buying power of their savings keeps getting smaller.

We wonder when far seeing statesmen will take up this phase of the country's economy. As a matter of justice it's long overdue, because the victims of inflation most certainly deserve relief. As a matter of sound financing it is at least advisable and possibly urgent. History has shown a number of times that inflation tends to get out of control. And who knows how near we are to serious trouble? As a matter of good business it is equally advisable. People can buy with more confidence if they don't have to worry about how much longer their savings will last. People who advocate reform in government ought to be pushing for this kind of reform.

Another note relative to U.S. blessings concerns telephones. A current pamphlet says that the differences in phone service here and elsewhere are cost, quality and availability. In Russia telephones are scarce, only 45 per 1000 people, and directories there are said to be 19 years old. In Brazil exchanges are so overloaded that a long wait to make a call is commonplace. Business men hire 'noise boys' to sit at their phones and listen for the dial tone. When it's heard the boss quickly makes his call.

Elaine Krahl (right) valedictorian, and Phyllis Schad, salutatorian, are Lindsay High School's top students for 1973.

Daughter of Mr. and Mrs. Martin Krahl of Valley View, Elaine has been active in all school functions and was a member of the basketball and track teams. She was named to the all-district basketball team during her junior and senior years and was captain for the district champion team this year.

Academically she has won many awards. She was named outstanding student this year as well as girl athlete. She also received the DAR award.

She was on the Annual staff, student council, pep club, and was class president in her junior and senior years. She participated in UIL competition all four years and advanced to state two years.

She plans to attend North Texas State University in the fall, majoring in journalism. Presently she is employed at The Voice in Lindsay doing newspaper work.

Phyllis Schad, daughter of Mr. and Mrs. Ed Schad, has been on the honor roll all through high school. She participated in track two years and lettered once.

Academically she participated in UIL competition. She won the Betty Crocker Homemaker award this year and was a competitor in the regional science fair as a junior. She won the World Geography award as a freshman and the American History award as a sophomore.

She plans to work at Jr. Elite this summer and further her education later by attending Cooke County Junior College.
