VOLUME XXXVII

MUENSTER, COOKE COUNTY, TEXAS 76252 DECEMBER 29, 1972

NUMBER 6

Without doubt, the greatest disappointment of this pre-Christmas season was the breakdown of negotiations for peace in Vietnam and the renewal of hostilities on both sides. People all over the world had been hoping for the good news for many months and especially at the approach of the feast of the Prince of Peace.

A second disappointment, applicable to us Americans, is the renewal of the same old political hostility that had prevailed so long before. Doves are raising a ruckus again, mean mouthing President Nixon for not accepting Hanoi's offer and also for ordering the bombers back on the job.

The critics say it is barbarous and inexcusable, but the president very correctly points out that the bombing was brought on entirely by the North Viets themselves. They were guilty of the worst kind of bad faith when they stalled endlessly in the peace talks while building up their military supplies for more fighting in the South. It was a typically sneaky and contemptible communist trick which deserves stern retaliation as a matter of principle and even more so as a matter of military expediency.

We are pleased to hear that majority opinion of our people supports the president. It means he will have less difficulty in standing by the South Viets in this very critical situation. At the same time we are amazed and distressed at the thought that many good people are on the other side of this issue. We can't understand how they can agree to proposals that only get us out of the mess when they know very well that all the offers to date clear the way for the Reds to begin a successful conquest as soon as we are gone.

Nor can we understand how they can object to our renewal of military activity when the enemy has been busy at it for weeks. Along with such reasoning we're still old fashioned enough to resent any aid and comfort to the enemy especially when it involves abandoning fellowmen to a sure take over by communism. Surely those people must know what happens to the loser.

Lots of people have wondered just what was the basis of determining how much the states and communities would receive in the revenue sharing program. Considering Muenster's good fortune it might be more discreet not to bring up the subject here, nevertheless we can't help feeling sorry for some other towns. For instance, Sanger, with more population than we have, is let down with only \$2,345, less than a fourth of our figure. Likewise Lake Dallas had to settle for \$3,270 while Celina, smaller than either of those towns, got \$3,580. Pilot Point, about Sanger's size, received almost three times as much, but got rooked in comparison with Muenster. The same applies to Archer City, which got \$5,576, and Bridgeport, which got \$6,598, and Henrietta with \$11,212.

Until someone reveals the method of computing, this column is going to assume that it is based on the amount of income tax paid in by the various counties and communities. It's conceivable that our thriving town, surrounded by a prosperous farming area and considerable oil production, is paying into the treasury by the same ratio that the treasury is paying out in the sharing program.

Regardless of the answer, we still question the wisdom (Continued on Page 8)

Sponsors Appeal For 'New Blood' in Local Blood Bank

Prospective donors to the local Red Cross blood bank are urgently reminded this week to mark their calendars on Wednesday, January 10, and make a special effort to meet the Bloodmobile.

The occasion is the semi-annual blood collection date for Muenster Hospital District, when the area stocks up for its requirements during the next six months. The blood, which is donated by volunteers on the collection date, is available without cost to all patients of Muenster Memorial Hospital and to residents of the hospital district. The only charge involved is for the several handling operations, such as collecting, packaging, transporting, storing, typing and transfusing. As a result the cost of a transfusion under this arrangement cost about half as much as when the blood is supplied by a commercial blood bank.

The local blood bank is sponsored jointly by the Knights of Columbus and the Veterans of Foreign Wars. J. W. Fisher is the program chairman and David Bright, hospital administrator, is local custodian. They point out that the quota, again, has been set at 80 units, which is slightly more than the community's total donation at the last bloodmobile visit.

A reason for the decline, they said, is the lack of new donors to replace those who gradually drop out of the list of old regulars. Accordingly they are sending out a special appeal for new donors. As a matter of community pride as well as need, they ask for new blood in the program.

The Bloodmobile is scheduled to set up in the K of C Hall basement at 3 p.m. and to accept donations until 6:15. Assisting the regular Red Cross staff from Wichita Falls blood center will be a number of volunteer nurses and members of the Hospital Auxiliary.

Doris Hits 67 as MHS Teams Take Three-Game Event

MHS basketball teams marked up a pair of important wins last Friday to end their pre-holiday activity in 14-A on a 50-50 basis. Now it's 2-2 for the girls and 1-1 for the boys.

Callisburg was the victim in both games, and to make the evening more complete the Muenster girls B team also trimmed the visiting second stringers.

The girls' main event was boringly one-sided as a game but a rare treat as an exhibition of individual scoring. Doris Felderhoff was red hot scorching the net for 67 points. It was a record for her and MHS and very probably for this area. Furthermore it was a three quarters achievement. Because of the long margin Coach Charles Cash substituted freely in the second half. The final score was 91-26. Other scorers were Debbie Schneider 14, Becky Fields 6, Joyce Swirczynski 4. And the fine guarding of Nora Fleitman, Kimberly Klement, Lisa Mollenkopf and Nanci Fisher accounts for Callisburg's low count.

The boys' game, ending 67-48, had the Hornets out front early and improving the margin in every period. Point makers for the Hornets were Tom Otto 28, Robert Johnson 12, Ronnie Felderhoff 8, Mark Lippe 8, Lyle Klement 5, Tom Hennigan 4, Joe Bright 2.

Opening the three-game program, Muenster B girls also led comfortably all the way for a final count of 37-23. Mary Lou Fleitman hit 16 points, Sandy Dittfurth 14 and Charlotte Johnson 6.

Hospital Auxiliary Plans Stork Derby

Muenster Hospital Auxiliary has completed plans for the Stork Derby by the organization sponsors each year to gift the first baby born in Muenster Hospital in the new year.

Heading the list of gifts for little Mr. or Miss 1973 are free nursery use from the hospital and a \$25 savings bond from the Auxiliary.

Other gifts for the new baby and parents will come from local business firms and will be published when the list is complete.

A&M Will Conduct 7 Night Sessions On Raising Beef

Cow Country Symposium, a seven night shortcourse on the specifics of modern beef cattle production and management, will be held starting Thursday, January 4, at the Texas A&M University Research and Extension Center at Dallas.

The series is planned primarily for residents of the Southwest Metroplex who own or operate land here or anywhere in the United States. Any livestock producer is invited to attend, however.

The symposium will be staged each Thursday from 7:00 to 9:30 p.m. through February 15 in the comfortable Field House at the Center (formerly Texas Research Foundation).

Dr. O. D. Butler, head of the Department of Animal Science at Texas A&M University, and a team of 13 commercial and Texas Agricultural Extension Service specialists will present a wide-range of topics dealing with profitable cow and calf production, including the latest research results.

"The symposium will cover such topics as how to set a solid fence corner and fencing costs, how to properly feed livestock and ways to best market beef cattle," said Dr. Richard P. McDonald, Extension area livestock specialist at the Center and symposium coordinator. Various authorities will discuss nutrition, reproduction, breeding, herd health, marketing and buildings and fencing during the seven evenings.

On opening night, January 4, Dr. John E. Hutchison of College Station, director of the Texas Agricultural Extension Service, will headline the event with a presentation entitled "The Potential for Livestock Production in Texas". Dr. Butler will discuss "The Industry of Beef Cattle".

W. S. (Bill) Allen, Extension agricultural engineer, will "Focus on Animal Handling Facilities", and Jack E. Jenkins, Extension area economist-management, will discuss "The Cost of Keeping a Cow".

To conclude the kick-off session, Dr. McDonald will tackle the subject that holds perhaps the greatest single interest in the livestock industry today — new cattle breeds. His topic will be "Let's Talk Exotic Breeds".

Other symposium topics and personalities will be announced at a later date.

The latest informative bulletins and research reports will be distributed to participants, McDonald added. The event is being sponsored by the Texas Agricultural Extension Service and Texas A&M University.

The Center is located 4.2 miles north of LBJ Freeway on Coit Road in northern Dallas County. There is no admission fee, and a Certificate of Completion will be presented to persons who attend as many as five of the seven sessions.

Local County Extension Agents have complete details on the symposium. Participants will have a chance to meet their local Extension agents from a 25 county area near Dallas-Fort Worth as part of the opening night activities.

Final Rites for James McCann, 61 Held Wednesday

Funeral Mass was held at 10 a.m. Wednesday in Sacred Heart Church for James McCann, 61, of Route 1, Muenster, who died at 5:30 p.m. Saturday in Muenster Hospital after suffering a heart attack at his home.

He was a native of New York State, born July 5, 1911, a veteran of World War II, and had resided at the former "Rock Station" about one year. Father Bede Mitchell officiated at Mass and at graveside rites in Sacred Heart Cemetery. Military services were conducted by Muenster VFW Post in the servicemen's section of the cemetery. Nick Miller Funeral Home was in charge of arrangements.

Rosary was recited at the Miller Chapel Tuesday at 4 and at 8 p.m.

Bearers were Leon Fuhrmann, Lee Parkhill, Jess Ramsey, Melvin Ramsey, Cecil Williams and Joe Hoenig.

McCann is survived by his wife Gloria; 10 daughters, Miss Rita McCann of the U.S. Air Force in California, Agnes, Patricia and Grace McCann of the home, and Mmes. McCann of the home; one brother and three sisters, all of New York; and 14 grandchildren.

All of the children attended the funeral except Mrs. Joy from Maine. Also attending was a sister, Mrs. Rita Sherwin and son of Chateaugay, N.Y.

Football Schedule For Tigers in 73 Has Eleven Games

A proposed split-up of Football District 7-B, along with an arrangement which would include Sacred Heart on one division's schedule but not qualify it to represent the district, failed to materialize as the district's eleven coaches met at Decatur last week.

Coach Bob Steele of the Sacred Heart Tigers was there, and said that the schools preferred to play out this second season of the present arrangement. It means that the anticipated schedule with near-by schools fell through for the Tigers and the 7-B members again face the hard grind of a full season of district games.

It also means that Sacred Heart's schedule in 1973 will have nine of last season's foes plus two new ones. Aubrey High fills a spot that was open last year and Cistercian replaces Whitesboro B.

The schedule is a delight for local fans. Seven of the eleven games will be at home. It was announced as follows by Coach Steele.

Sept. 14, Gunter, here
Sept. 21, Aubrey, here

The association is an organization of top officials of all federal law enforcement agencies of the Houston area.

Howard Mollenkopf Earns Doctorate

Howard Mollenkopf has earned his doctorate in solid state physics receiving his Ph. D. degree this December from Oklahoma State University at Stillwater, Okla. He is the son of Mrs. Elizabeth Mollenkopf and the late George Mollenkopf. His wife is the former Ruth Endres.

Dr. Mollenkopf's thesis is titled: A study of thermally stimulated charge emission and thermally stimulated luminescence from Magnesium Oxide single Crystals."

He will be on the faculty at OSU this spring, teaching physics and preparing publications developed from his doctoral research.

He will do a paper concerning research and will present it in March at the American Physical Society meeting at San Diego, Calif.

Dr. Mollenkopf, his wife and their children Jana, Greg, Matthew and Stephen returned to Stillwater Wednesday after spending Christmas holidays with their parents and other relatives.

Richardson Lists 73 Grid Schedules For Four Teams

Muenster High School's list of opponents for the 1973 football season is identically the same as it was last year, and the sequence of games is only slightly changed. And, of course, each game is at the location opposite to last year.

The schedule received this week from Coach Glenn Richardson starts with an open date, then lists Boyd, Whitesboro, Northwest, Lake Dallas and Newcastle for pre-conference action. Coming to the 14-A list it puts Pilot Point, last year's first opponent, at the end of the line and then names Frisco, Sanger, Nocona, Callisburg and Pilot Point. Kickoff time throughout the season will be 8 o'clock.

Assuming that he will have a larger roster than last year, Coach Richardson also drew up a B team schedule of eight games all starting at 7:30 o'clock. The opponents are Whitesboro, Northwest and Lake Dallas followed by the five B teams of 14-A. In each case the B game will be the night before the varsity game and at the opposite location.

In fact, the Thursday nights will offer lots of football. Coach Richardson also plans seventh and eighth grade junior teams who will do their thing before the B games — except in the case of Whitesboro. The junior teams play there on Tuesday whereas they play the rest of their schedules on Thursdays.

The schedule for the Hornets reads as follows.

Sept. 7, open
Sept. 14, Boyd, there
Sept. 21, Whitesboro, there
Sept. 28, Northwest, here
Oct. 5, Lake Dallas, there
Oct. 12, Newcastle, here
Oct. 19, Frisco, there
Oct. 26, Sanger, here
Nov. 2, Nocona, here
Nov. 9, Callisburg, there
Nov. 16, Pilot Point, here

The first games for the juniors will be here with Whitesboro on Sept. 18, and the first B game will be here with Whitesboro on September 20. Thereafter the B team and the two junior teams have identical schedules as follows.

Sept. 27, Northwest, there
Oct. 4, Lake Dallas, here
Oct. 11, open
Oct. 18, Frisco, here
Oct. 25, Sanger, there
Nov. 1, Nocona, there
Nov. 8, Callisburg, here
Nov. 15, Pilot Point, there

Leonard Endres Assumes Operation of Enterprise

Effective with next week's issue, a new arrangement of ownership and management will become effective at the Enterprise.

Leonard J. Endres will take over the operation, leasing the building and equipment from its owner, R. N. Fette, and Fette will remain on the staff

Applications for Substitute Rural Carrier Requested

Postmaster Arthur Endres announced this week that applications for a substitute rural carrier will be accepted until January 3, 1973.

The purpose is to establish a register of eligibles from which future substitute rural carriers of the local post office may be filled.

To become eligible for the job an applicant will have to take an examination which consists primarily of vocabulary and reading comprehension questions and computations. A grade of at least 70 is required in the test, and that grade will become the applicant's rating, except that additional points are given to veterans.

Other requirements are certain standards of physical fitness, a driver's license and a safe driving record. U.S. citizenship, a minimum age limit of 18 but no maximum age limit. A substitute rural carrier is required to provide and maintain his or her own vehicle.

New License Plate Renewal Forms Will Arrive Soon

Renewal applications for 1973 auto license plates will be in the mail soon from the Texas Highway Department's Motor Vehicle Division.

The entire application may be returned by mail to the tax assessor collector in counties of registration with an added \$1 fee for handling and mailing.

Highway Department representatives caution:

* Leave the three-part form intact. . . Don't separate the three cards.

* Mail it to the resident county office.

* Include money for the amount of the registration fee, plus the mail-handling fee.

Applications may be put in the mail any time after January 1, but no license plates will be sent out before February 1. About 30 days should be allowed for return of the plates after the application is received.

April 1 is deadline for displaying the 1973 plates. In-person registration starts at county tax offices and special substations February 1.

Bright Nominated For Appointment To AF Academy

Representative Omar Burleson has announced the names of 38 young men of the 17th Congressional District he is appointing to slates of nominees for the Military, Naval and Air Force Academies for admission in July 1973.

Included on the list for the Air Force Academy is Joe Bright, son of Mr. and Mrs. David Bright, a candidate for graduation at Muenster High School in May.

The Academies will now examine and appraise the nominees and select principals for admission and qualified alternates from each slate. Alternates may be given further consideration by the respective Academy, depending upon available vacancies.

on a part time basis.

This change, prompted by health considerations, has been overdue for some time but had to be delayed until a satisfactory opportunity presented itself. The agreement with Endres solved that problem. It means that the Enterprise will continue under direction of someone who is dedicated to the community's interests, also that Fette, after being on the job since Thanksgiving 1936, can be relieved of both responsibility and work load.

For Endres this undertaking is a matter of coming back home. He is a native son who has spent the past forty years in a number of jobs associated with the meat packing industry. He and his wife have purchased a building location here and will have a new home under way as soon as workers can get to the job.

Margaret Kralicke Is TCU Graduate

Margaret is qualified for a BS degree in speech pathology. She is a daughter of Dr. and Mrs. Martin Kralicke, a graduate of Sacred Heart High School.

Hail, Moon Men!

When Captain Eugene A. Cernan and Dr. Harrison H. Schmitt triumphantly landed on the moon they achieved the sixth manned lunar expedition for the United States of America, while Commander Ronald E. Evans kept the Apollo 17 spacecraft orbiting around the

earth's satellite for later link-up with the two other astronauts, and the dramatic return to Terra Firma. Apollo 17 was the 11th manned mission of the Project Apollo series.

The round-trip journey of 12½ days, with the moon visit by the naval astronaut Cernan and the geologist Schmitt turned astronaut and lunar explorer, was planned as the most ambitious and daring of all the six journeys to the barren globe 247,000 miles out in space. Devoid of vegetation and life it is, but vital and virile with an abundance of information locked in its dust and rocks, its craters and massifs, its airless days and ink-black nights, alternately extremely hot and deadly cold.

Scientists counted on Dr. Schmitt to use his well-trained geological eyes to bring home some data not hitherto known. He had been pondering for ten years about the most feasible things for man to do on the moon, and he got his chance to subject his ideas to the acid, on-the-spot test.

From the Sea of Tranquility, visited by Neil Armstrong and Edwin Aldrin for over 21 hours, through the Ocean of Storms, surveyed by Charles Conrad and Alan Bean, to the Fra Mauro region, explored by Alan Shepard and Edgar Mitchell, to the Sea of Serenity, where David Scott and James Irwin touched down, then to the Sea of Rains, where John Young and Charles Duke ventured, to the final Apollo 17 mission with Cernan and Schmitt in the moon buggy — that is the Apollo story. It has been a magnificent exhibition of discipline, knowledge, technological capability, great teamwork, and human daring and ingenuity to make all Americans proud, and all of mankind glad.

Funny Money

'Twas some time ago that the National Review Magazine published "The New Economics" by Mr. P. C. Beezeley. But now that Congress is about to gouge us taxpayers again, Beezeley's funny (?) lines bear repeating:-

THE NEW ECONOMICS
by P. C. Beezeley

Let's get everyone on the government payroll.

What's that? Did someone say it wouldn't work? Why not?

There wouldn't be anyone left to pay taxes?

Well — let the government pay the taxes.

What's that? The government wouldn't have any money if nobody paid taxes?

Well, let the government borrow the money to pay the taxes. Nothing to worry about! Remember, we owe it to ourselves.

Briscoe Organizes Staff and Program For Governor Job

Governor-elect Dolph Briscoe is moving to assemble his new gubernatorial staff and organize his initial recommendations to the legislature.

Three top aides to Briscoe were announced recently. They are administrative assistants George Lawrance of San Antonio and Ken Clapp of Killean and legislative liaison man Roy Coffee Jr. of Dallas.

Briscoe also is working on his "position papers" with aid of advisors.

High on the list of recommendations to the legislature after Briscoe takes office January 16 will be these:

Programs to curb crime, aid constitutional revision, control drug abuse, promote water conservation, set up a mess transit system and improve and expand vocational education.

Briscoe indicated earlier his "new team" would be selected by mid-December.

While the incoming governor made no early promises to keep any staff members of Gov. Preston Smith on the job, indications are that he will retain the bulk of clerical and secretarial employees and technical personnel who want to stay.

Coffee announced Briscoe will begin early meetings with

legislators.

Lawrance has been Briscoe's man-in-residence at the governor's office, gathering information for the next governor on staff organization and functions.

John Brunson, Houston attorney who has been close to Briscoe, has figured in speculation on who will be the next Texas Secretary of State.

Will End of War End War?

The end of the war!

It is always a great cry, and it will be a great one when the Vietnam War ends. But will it mean that we may then sit idle while the United States Navy crumbles into futility with fist fights and fires aboard its ships? Will the divisive elements among us fold their tents and quietly go away? Will the aggressive, territorial nations halt their expansion in the Far East, the Middle East, Africa and Latin America?

Without turning a page or even moving on to the next paragraph, the answers are all, no.

A healthier and more successful American approach to world affairs would be a more open, honest, direct attitude toward those who are the authors of most of the global troubles. We must recognize, without apology to anyone, that the Communists are the basic problem. They live by their own rules and defy all others. Since the end of World War II, most of the wars in the world, threatened and real, have been generated or aggravated by the Communists — in Greece, in the Middle East, in Korea, in Indochina (Vietnam, North and South; Laos and Cambodia). Once we win a war, clearly and spectacularly, we will be free of military conflicts for a while.

A compromise in Vietnam will be no compromise, for the Communists (that is, North Vietnam, North Korea, China and Soviet Russia) will then feel certain that they can immediately start a new war — whether in Vietnam, in Thailand, in the Middle East, in Korea, or even in South America. What is to prevent Dictator Allende, if he dares, and if American policy leads him to believe he can get away with it, announce that he is "threatened" by his neighbors and thereby "forced" to take "protective action?"

The Americans, as do all men of good will throughout the world, want peace; but not peace at any price, and especially not a peace that insures immediate new wars.

Englishman to American:

"What's the noise I hear this time of night?"

American: "Why, that's an owl."

Englishman: "Of course it is, but 'oos' 'owling'?"

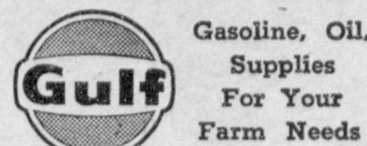

Environmental Tips

"If you smirk or shrug your shoulders when environment cleanup or pollution is mentioned, you're making a large mistake," according to "M News", published by Monongahela Power Company. "Authorities on environmental improvements agree that if most people would cooperate in following suggestions which have been proposed, major gains would result. Here are some tips you may wish to follow: Make your garbage compact. Flatten cans, boxes, etc. to conserve space, and cut down the volume of waste. Do not litter. This is the easiest pollution to stop. Wash and re-use plastic bags and containers. Conserve materials rather than throwing them away. Try to buy good quality, long-lasting toys. Broken toys add to disposal problems. Use ammonia, toilet-bowl cleaners and chlorine bleach with care. Mixing them can cause dangerous gases to escape. Con-

serve water. Run it only as you need it when brushing the teeth, shaving, washing hair or dishes."

Lynn Krah, Bride Of Spec. 4 Downey In Lindsay Rites

Miss Lynn Krah and Army Spec. 4 Michael Joseph Downey were given in marriage to each other by their respective parents.

Taking part in the 7 p.m. ceremony in St. Peter's Church at Lindsay December 21 were the bride's parents Mr. and Mrs. Martin Krah of Valley View and Mr. and Mrs. F. E. Downey of Denton.

Father Robert Sykora of Dallas celebrated the nuptial Mass and performed the double ring vows assisted by Father Joseph Schumacher of Denton.

The bride made her wedding gown and the gowns worn by bridal attendants. She chose an empire styled gown of white peau de soie overlaid with organza and accented with French embroidered lace and seed pearls. The delicate illusion yoke formed a high collar with Juliet styled sleeves and detachable train.

Scalloped lace outlined her veil of illusion cascading from a Camelot styled headpiece to floor length. White roses, stephanotis, and English ivy, centered with a large purple orchid composed the bridal bouquet.

Bride's attendants were Miss Rita Castillo of Ausin, maid of honor; Misses Ann Franks of Gainesville and Miss Elaine Krah, sister of the bride, bridesmaids; Misses Brenda and Stephanie Krah, sisters of the bride, junior bridesmaids.

Their gowns, identical in design to the bride's, were of sugar-beet velvet. Each carried a long-stemmed yellow rose.

Fred Arno of Denton was best man; Harley Downey of Denton and Grant Krah of Valley View, brothers of the couple, were groomsmen; Damian Krah, brother of the bride, was ring bearer; Gary Krah of Gainesville, another brother of the bride, and Mike Hurban of Denton were ushers.

Soloist Miss Anita Hall of Denton sang "The Wedding Song," "Hallelujah Chorus," "Make It With You," "We've Only Just Begun," "Ave Maria," and "Joy." Miss Susan Cunningham of Denton was organ accompanist.

At the reception in the Gainesville Knights of Columbus Hall, Miss Teresa Downey of Denton registered guests. Mums and candelabra were on the bride's table.

Punch and cake were served by Polly Kammerdiener, Mrs. Vernon Badgett, Mrs. Henry Voth Jr. and Mrs. Gary Krah.

The couple will reside in Germany where he is newly assigned following basic at Fort Leonard Wood, Mo., and advanced training at Fort Monmouth, N. J. She will join him when he is settled. She is a graduate of Lindsay High and CCJC, has attended North Texas State University in Denton and has been employed as a photographer by Marvin Loveless Studios in Denton. The groom is a graduate of Denton High and attended CCJC.

Sister Berenice Holiday Visitor

Sister Berenice Trachta returned to Our Lady of the Lake Convent in San Antonio Tuesday after a holiday visit with her mother, Mrs. Frank Trachta and family members. On her arrival last Thursday she was met at Gainesville by her sister Mrs. Orris Russell and spent overnight there.

Saturday she joined Mrs. Russell and another sister, Mrs. Leo Henscheid on a trip to Bonham to visit their brother Roman Trachta at the VA Hospital. They met his wife of Fort Worth and son and daughter-in-law Mr. and Mrs. Jimmy Trachta of Hurst there.

Monday Sister Berenice was the honoree at Christmas dinner in the Leo Henscheid home. The hosts' children and families came from out of town to make a reunion and gifts were exchanged. The Damian Hellman family and the Jerry Henscheid family came from Irving and the Lynton McClendons came from El Dorado, Ark.

Linn Home Scene Of Yule Reunion

Russ Linn and son Jack had all the rest of the family with them for Christmas holidaying and dinner and gift exchanging on the 25th.

Mr. and Mrs. Ray Smith and sons Craig Smith and Pick Hemphill arrived early Saturday from Fort Worth. Mr. and Mrs. Jim Minto and Michelle came Sunday evening from Dallas and Mr. and Mrs. Thomas Linn of Gainesville joined them on Christmas Day. All returned home late on the 25th.

Tuesday Russ and Jack Linn had surprise visitors when a nephew and cousin, Albert Williamson drove in from Oklahoma City with his brother and wife Mr. and Mrs. Joe Williamson, visitors from Salem, Oregon. Heroin Hotline

One of the greatest concerns
for law enforcement officials
has been the enormous in-
crease in illegal drug use —
or drug abuse — in the last
few years. The toll of human
life and health, especially
among the youth of our na-
tion, has been tragic. Every
American, in every walk of
life, should be concerned. The
battle against drug abuse is
everyone's business.

One program established by
the United States Drug Abuse
Law Enforcement Office has
been the "Heroin Hotline," a
toll-free national phone num-
ber that may be dialed any
time, day or night, by any
citizen who has information
that could lead to the appre-
hension of a drug pusher —
whether of heroin or any other
illegal drug. Experienced fed-
eral agents are on duty seven
days a week, around the clock
to receive the calls.

It used to be that the drug
racket was limited to the big
cities and slum areas. This is
no longer true. Today the
pusher can turn up any place,
in any town. It behooves
everyone, therefore, to know
the "heroin hotline" phone
number, and keep it handy —
just in case! The number is
800-368-5363.

We urge every reader of
this paper that if you should
come across evidence of drug
pushing, any time, any place,
don't hesitate — call the hot-
line number.

These three bulls, owned by Gary Hess, are among the top gaining Charolais bulls at the Cooke County Junior College beef cattle evaluation center. They have gained an average of 443 lbs. each during the first 112 days of an official 140 day feeding test being conducted at the Center. The average daily gain of the three bulls is 3.95 lbs. per bull. These and approximately 70 other bulls will be sold at auction on January 13 at 1 p.m. at the Gainesville Livestock Auction.

State Extends Billboard Permit

License and permit deadline
for signboards along inter-
state and primary highways
has been extended by the
Texas Highway Commission
from December 31 to June 30,
1973.

The extension was granted
on request of advertising in-
dustry and individual sign
owners because the previous
time was insufficient to com-
ply with the Highway Beauti-
fication Act.

The law requires a permit
for each sign, and those put-
ting up signs within 660 feet
of the major highways must
get a license to engage in out-
door advertising.

No further extension of the
deadline is contemplated, the
Highway Department said. The
license fee is \$25. Sign owners
must post \$2,500 bond in each
county where they have signs.
Maximum bonds of \$10,000
are required of owners with
signs in more than three
counties.

GRASS PLANTING — It won't be long until the grass spriggers begin to roll on those fields that are ready. If your land isn't ready you are behind, but not too late to get ready to plant grass. Prepare that seedbed as soon as possible. NOTE: if you intend to plant grass seed this spring like lovegrass or kleingrass, good seedbed preparation is doubly important. A person can at times get a stand of bermuda by sprigging on a poor seedbed, but putting out grass seed on a poor seedbed will end in failure most of the time. Competition from weeds and grass is nearly as bad as a poor seedbed. On open pastureland a moldboard plow is best. Plow early and deep. This buries your competition and gives your small grass a fighting chance. Lightly work the land just before seeding to eliminate all possible competition.

THE INFORMED CONSUMER

By Crawford C. Martin
Attorney General of Texas

The best advice and protection concerning automobile warranties is to buy from a dealer whose reputation you know and trust. It does not take much effort to determine how local auto dealers have handled warranty type work for your friends and acquaintances.

Many problems which arise concerning "warranty work" are caused because the automobile owner does not read the warranty he receives at the time of purchase. Until

1971 some automobile manufacturers gave a five year or 50,000 mile warranty on the power train. Now most automobile manufacturers provide a warranty of 12 months or 12,000 miles, whichever comes first. How do you go about seeing that you get all that is coming to you under the warranty that came with your automobile?

First, you should be convinced that the work to be done is covered by the warranty. Assuming that it is covered by the warranty, it must be within the time period and amount of mileage specified in the warranty. Next, you should take your automobile to an authorized dealer. It should be remembered that most automobile warranties are valid only if the repairs are made by authorized dealers. Therefore, be sure that the repair facilities you have taken your car to are factory approved.

If any authorized dealer or repair facility informs you that the repair is not covered by the warranty, ask why. If you don't receive a satisfactory reply, ask to speak to a factory representative. Don't be afraid to speak up. All automobile manufacturers have representatives in regional centers to receive and handle complaints from owners. These people are authorized to approve questionable warranty work. Many times this complaint to the factory representative is all that is needed to get the necessary repair work done under warranty.

It should be remembered that, on occasions, the dealer probably has experienced difficulty obtaining reimbursement from the manufacturer for previous warranty repairs. If there is any question in the dealer's mind as to whether the work to be done will be covered by the warranty and paid for by the manufacturer, he usually will insist that the work be approved by a representative of the manufacturer before commencing. If the factory representative and dealer both refuse to do the

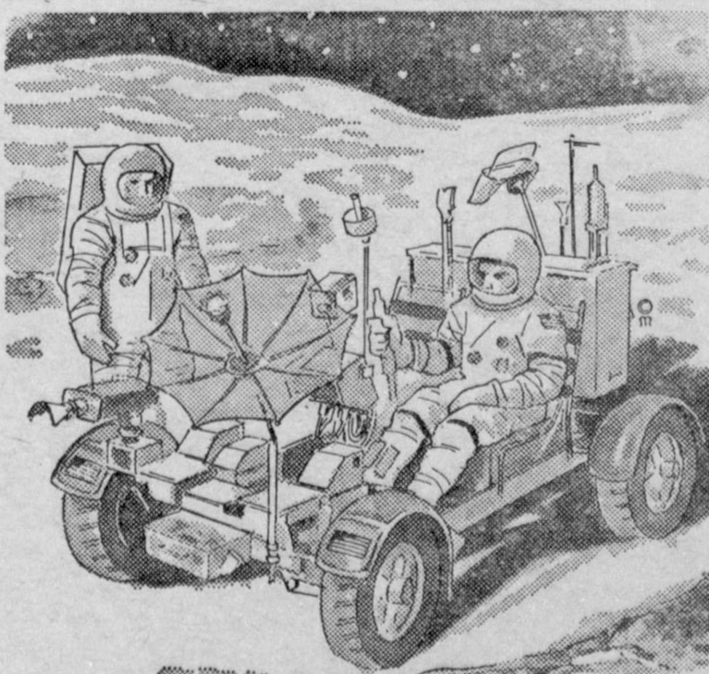

repairs under the terms of the warranty, ask for a written refusal setting forth the reasons the work will not be done.

Now is the time for a certified letter to the manufacturer's consumer relations department. Be specific and go into detail concerning your complaint. Give names and dates. Attach a copy of the written refusal by the dealer and factory representative. If you still do not get satisfaction, the 62nd Legislature passed an act creating the Texas Motor Vehicle Commission. The address of this agency is P. O. Box 13287, Capitol Station, Austin, Texas 78711. They are equipped to look into matters such as this.

The Texas Deceptive Trade Practices Act gives the Attorney General's office power only over false, misleading or deceptive acts or practices in the conduct of any trade or commerce. We generally do not have authority to act in cases of breach of contract, poor workmanship or defective products. However, you should probably write our office so that we can look into the matter to determine if there has been a violation of our Act and if legal action against the dealer or manufacturer is indicated. You should send your complaint to Attorney General Crawford C. Martin, Attention: Consumer Protection Division, P. O. Box 12548, Capitol Station, Austin, Texas 78711.

Disability Benefit Application Now Okay after Death

Application for disability benefits may be filed after a worker's death under new provisions of the social security law becoming effective in January, according to Gus Jones, social security district manager in Sherman.

"This change won't affect many people, but it can be important to some families. The provision will only apply in cases of deaths occurring after December 31, 1969. But there is a deadline for filing such applications," Jones said.

In the future, survivors will have 3 months after a disabled worker's death to file an application for his retroactive disability insurance benefits, he explained.

"But an application must be filed before February 1, 1973, if the worker died in October 1972 or earlier," Jones stated.

Previously, applications for disability benefits had to be filed while the disabled worker was still alive. The change in the law will provide benefits to the survivors of workers who were severely disabled for 6 months before their death but for some reason didn't apply for benefits.

"If it is found that the worker was eligible for disability payments, his survivors will be able to get retroactive disability payments as well as any survivors benefits that may be payable now or in the future," Jones said.

To get more information about payments for a period of disability before the disabled worker died, or to apply

for benefits, call, write, or visit the social security office at 810 N. Travis. A representative may also be contacted in Gainesville each Tuesday and Thursday from 9:30 a.m. to 12:00 noon at the Federal Building.

of revenue sharing. Even if a town gets a fair share of the original tax collections, it would seem more practical to just reduce the tax.

As it is, one thing is sure. Uncle Sam can't afford all this generosity. He's going far into the red and, one way or another, will have to get a lot more tax money.

In the process the fellows in Washington probably will be careful not to pick on us personally but increase the gig on big business. If so, just remember that corporations, to make ends meet, must regard tax as a cost of producing their products or services, and that becomes a part of the prices they charge. The bill for revenue sharing will come back to us either as a tax or as a cost of living.
