Deposits Decline Loans Increase At Muenster Bank

A publication of the furniture industry warns wholesalers and retailers not to ignore the possibility of Federal regulations controlling the flammability of upholstered furniture. This is in line with existing regulations barring flammable materials in bedding, with the obvious purpose of avoiding fires by people who smoke in bed.

Of course, no one complains about the effort to prevent such fires, but the furniture people think it isn't fair to hold them responsible for guarding the public against other people's mistakes. With good reason they insist that cigarette smokers are starting the fires, so the cigarette industry should take on the job of preventing them.

Needless to say, the suggested legislation would be a low blow to the furniture industry. Not only will it raise the cost of upholstering fabrics, but an estimated 65 percent of those in existence could not be used. The regulation could force many small manufacturers out of business.

Another victim is the buying public, which will eventually have to absorb the increased cost in the final selling price. In that respect the article points out that about 35 percent of adult America smokes and only a small percentage of those can be regarded as careless smokers. Nevertheless, all of the upholstered furniture buyers of the country are asked to pay extra for protection against those relatively few careless people.

The logic of the furniture people's position seems clear when we consider the ratio of homes that never have a fire to those that are burned by cigarettes. When such a fire occurs it is usually in the news, but we know just the same that the odds are many thousands to one. Now doesn't it seem unfair that the very many should be required to pay extra for protection when so few are involved.

And that's not all. As a matter of principle one would think that the people who cause the trouble ought to be held responsible for eliminating it, that smokers, not furniture makers, should make the changes needed to stop cigarette fires in furniture. They could do it either by quitting the habit or using self-extinguishing cigarettes, which go out when not puffed on.

The idea of this kind of cigarette is brand new to this column, but it sounds great. It makes sense in that it prevents fire at the source instead of treating everything for resistance against fire. This refers to draperies, blankets, carpets, clothing, tents, sleeping bags and whole forests. If we have to have protective regulations this surely seems the most reasonable to adopt.

Actually a small number of furniture people have been pushing that idea but the Consumer Product Safety Commission will not listen. Apparently they think there are lots more smokers than furniture makers, so they will get less beefing this way.

But somehow we get around to realizing that this is really everybody's problem. The extra cost of fire protection ultimately comes to us, and we pay it because of careless smokers. Common sense demands that the federal busy bodies treat the source of this problem rather than the many things that are vulnerable to it.

We get a clearer idea of the existing predicament when we think of the forest fires caused by careless smokers. In this case, what solution would the federal protectors prefer: self-extinguishing cigarettes or fire protective treatment for the forests?

The whole situation points up bureaucracy's bungling way of doing things. It's like all this agitation for gun control laws and gun confiscation because of the crimes committed with guns. The mistake is in blaming the weapons instead of the criminal, and the only way to get at the crime problem is to crack down on the criminal instead of the weapon.

C of C Meeting

Members of the Muenster Chamber of Commerce will have their regular luncheon meeting next Tuesday at noon in the lounge of the Center.

Sacred Heart and Saint Jo Divide Pair of Contests

Sacred Heart and Saint Jo teams shared the honors in a pair of contests Tuesday night in the SH gym. The visiting girls took the first contest 27-17 after which the Tigers came on strong for a 75-58 victory.

The SH boys were going great in outscoring the Panthers in each of the first three periods and breaking even in the fourth. Scores ending the quarters were 18-12, 40-26, 61-44 and 75-58, and it could have been better if they had hit the free shots. They made only 5 of 17.

Rick Walterscheid led the way with 24 big points. Roger Endres made 19, Mark Hess 15, Joe Hoedebeck 11 and Pat Endres 6.

Tigerettes also made a good start, leading 8-4 at the first quarter, but they had trouble the rest of the way, scoring only 9 in three periods. They trailed 14-12 at the half, and 21-12 and 27-17 the next two periods. Their free throw record of 3 out of 32 was a big factor.

Those who scored are Gloria Hess 8, Mary Hess 4, Laura Kralicke 2, Marlene Pagel 2, Sharlene Pagel 1. Guards were Linda Miller, Janet Bayer, Liz Kralicke and Cindy Bar-tush.

Revenue Sharing Check Is \$4,579

The city of Muenster has just received another revenue sharing remittance from the federal government. The amount is \$4,579, according to City Secretary Celine Ditt-furth, and is the second installment of the current fiscal year's appropriation to the city. Similar checks are due for the first two quarters of this year.

Principal use of the revenue sharing receipts is for street work, a large part of it designated for Ash Street improvement plus a bridge over Elm Creek when the legal blockade to that project is eventually removed.

13 Week TV Series On Do It Yourself Starts Saturday

There is hope for 'do-it-yourselfers' in Cooke County. The Texas Agricultural Extension Service with the Home and Family Living Committee locally will sponsor a television series on home repairs and maintenance beginning this week on January 11. It will be on Saturday mornings at 10 and will run for 13 consecutive weeks on Channel 11 T.V. This series is designed especially for the 'unhandy' homeowner who wants to do some of the repair and maintenance jobs himself.

During the 13 week series, lessons will cover the basics of emergency plumbing repairs, weather stripping, repair of wall damage, electrical repairs, painting and other home maintenance practices.

Extension bulletins have been prepared in a meaningful easy to follow manner giving complete instructions on all the "You Can Do It" hints shown on the programs.

In order to receive the free bulletins you can enroll in the series by calling the Cooke County Extension Office at 665-4931 and ask that your name be put on the list. You will receive the bulletins as programs are shown beginning in January.

Church Service and Reunion Observe 35th Anniversary of Lawrence Vogels

Mr. and Mrs. Lawrence Vogel who were married here on January 3 thirty five years ago, observed their anniversary with a special Mass on Saturday, January 4 in Sacred Heart Church at 4:00 p.m. The evening before, their children and grandchildren surprised them with a rehearsal dinner in the family home at 7:00 p.m. and presented a joint gift. The bridesmaid and best man thirty five years ago, Mr. and Mrs. Ray Vogel attended both events.

The church service Saturday began with an entrance procession led by Father Placidus and two acolytes Mark and Bert Miller, followed by the best man and bridesmaid, Mr. and Mrs. Ray Vogel and the honor couple. Father Stephen was in the sanctuary. The entrance hymn was: "Always" sung by Mrs. Norbert Walterscheid accompanied by Anthony Luke at the organ. Father Placidus led the renewal of vows and the Scripture reading was given by the Vogels' daughter, Sr. Gemma. A son, Gene, read the petitions. A hymn: "Ave Maria" was sung during the offertory procession when the Vogels' granddaughters Carolyn Tischler, carrying the anniversary candle and Joyce Tischler, with a red rose to be placed on the altar were followed by Sister Gemma carrying a Bible, the Vogels' son David and daughter Irma with the water and wine, daughter Shirley and son Larry with the ciborium and host, son Gene carrying the chalice, and daughter Karla with the Mass book. Communion hymns were: "O Lord, I am not worthy," and "Away in a Manger". After Mass, a framed certificate noting a blessing from Pope Paul VI, a gift from the children was presented to the couple by Sr. Gemma. The recessional hymn was: "Joy, Peace and Happiness".

Traditional Christmas trees, red poinsettias and candles decorated the altar and sanctuary. The 35 year bride wore

Next Blood Bank Collection Date Is January 22

Sponsoring organizations of the Muenster blood bank, with an eye on the increased quota for their next collection date, have started recruiting donors for their collection on Wednesday, January 22, when the Bloodmobile from the Red Cross Blood Center of Wichita Falls makes its semi annual visit here. As usual, it will be set up in the KC hall.

The quota hike is a result of increasing demand on the blood bank. David Bright, hospital administrator, said that use of blood in the local hospital plus that used in other hospitals by residents of the Muenster Hospital District has been going up steadily, and the local bank is now in debt to the Wichita Falls center. Accordingly the quota is raised from 80 to 100 pints.

To meet the goal, and hopefully to top it, the sponsors are contacting their regular donors and also urging prospective new donors including students from both high schools. Sixteen year olds may be accepted if they have parental permission. Those 17 and over do not need special permission.

The local blood bank program is strongly recommended because of substantial savings to the blood users and the hospital. Since blood is given by the donors, patients do not have to buy it, as from a commercial blood bank. The only charge is for collecting, packaging, storing, transporting, transfusing, etc., which amounts to about half the cost of a transfusion using blood from a commercial bank. At the same time the hospital eliminates storage fees.

This arrangement is available to all patients in the Muenster Hospital as well as to residents of the hospital district receiving transfusions in other hospitals.

Sponsors of the blood bank are the KC Council, the VFW Post and the Hospital Auxiliary. All of them will welcome volunteer donors and will make appointments for their convenience. The appointments are recommended because they tend to level off rush and slack periods.

Reception

A reception and dinner followed in the Community Center where the guest registry held the anniversary candle, the couple's wedding picture, family picture and also the wedding pictures of their parents, the late Emil Vogels and Nick Stoffels. Miss Lu Vogel, a sister and Mrs. Herman Stoffels, a sister-in-law registered 150 guests. The anniversary table was decorated with holly, fern and red candles and held a three tiered anniversary cake made by Mrs. Jerry Walterscheid. The colors of red and white were carried out on the cake with seven red roses for seven children — a cross on one rose for the nun — and six rosebuds for six grandchildren and the numeral 35 atop the cake. After dinner there was dancing to Doug Martin's band.

The couple's children are: Sister Gemma O.S.B. of Little Rock, Arkansas, Mrs. Ivan Koelzer, David Vogel, Mrs. Martin Tischler of Southmayd, Larry Vogel of Myra and Gene and Karla of the home. Out of town guests were: Wilbert Vogel of Houston, the Don Vogels of Dallas, the Kenneth Sherrills of Euless, Mrs. Dorothy Beyer of Gainesville the Danny Hoenigs of Denton the Aloys C. Fuhrmans of Gainesville, the Henry Grewings of Lindsay, the Bill Leubers and Pat and Larry, the Charlie Cox family with Billy, Kathy and Sharon and the Marvin Tischlers with Carol and Joyce of Southmayd.

Local Teams Will Meet Petrolia in 13-A Loop Openers

They will play here, the girls first, starting at 6:30.

Next action will be with Callisburg Tuesday night in the MHS gym. That program starts with a junior varsity girls game at 6 p.m. and the other two will follow.

Activity Program Adopted by MAP

Plans for entertainment, development of hobbies and proposed activities were presented to more than 60 men and women who attended Tuesday's weekly meeting of MAP at the new Community Center in Muenster. A program of square dancing and songs by second graders under the direction of Sister Genevieve and Mrs. Willie Mae Dodson highlighted the afternoon.

A temporary steering committee with Mrs. Henry Pick chairman and Mrs. Hilda Self and Mrs. Arthur Endres had prepared questionnaires listing proposed entertainment, with space provided for members' write-in suggestions, to distribute at the meeting. The group voted and found these ideas acceptable for future meetings.

1. A monthly covered dish luncheon with birthday cake honoring those having birthdays that month.

2. A sing-a-long, or travel films presented by members, made by them on trips — old movies, commercial films of wild life, hobbies, peoples of the world and their cultures, etc.

3. Field trips to special places of interest — day trips only with transportation available.

4. Overnight trips to places such as the Texas Pageant at Palo Duro Canyon and Cherokee Drama at Tahlequah, Oklahoma.

5. Dinner/theater, possibly Dallas or Fort Worth.

6. Book reviews, humorous and others of interest to the group.

7. Crafts new to group and possibly a craft fair in the Fall.

8. Speakers on timely subjects of interest to the group.

It was proposed to have the first hour for the program, leaving the remaining time for social activity. The committee emphasized that this is a community-wide program and not a function of Sacred Heart Church. All members of this community and people in surrounding communities, ages 55 and up are invited and urged to come. Those not having transportation may contact Mrs. Joe Hoenig, phone 759-2946.

Next Tuesday January 14 there will be a covered dish luncheon at 12:00 noon honoring those having birthdays during January. Invitation from the committee states: "Come! Bring your dish and a friend or friends." There will be a short program and remaining time will be free for visiting, card playing or other chosen activity. "Will there be enough electric power this winter in the area served by TP&L?"

Texas Power & Light has the generating plants, the personnel and the lines to produce and deliver all the power its customers will need. One more "ingredient" is essential. Fuel.

All but one of TP&L's plants now in operation were designed and built to use natural gas as a fuel. If it should become necessary for TP&L's suppliers of gas to curtail deliveries, these plants would continue to operate with fuel oil stored at the plants for just such a condition.

A very large generating plant located near Fairfield, Texas uses lignite-coal as a fuel. This plant is supplied with lignite on a continuous basis from deposits near the plant. In addition, there is a reserve stockpile of lignite sufficient to operate the plant at maximum capacity for approximately two weeks.

Seven other lignite-fueled generating units are now under construction. A nuclear-fueled plant is scheduled to begin supplying power in 1980.

TP&L expects to provide adequate electric power to all its customers throughout this winter... and in the future... but we ask your wise use of electricity to help assure that there will be no shortage for anyone.

Roger Harrison and Doris Hundt Wed In Double Ring Ceremony at Lindsay

Mr. and Mrs. Roger Harrison are at home in Gainesville, following a wedding trip to Hot Springs, Arkansas. The bride is the former Miss Doris Hundt, daughter of Mr. and Mrs. Gregory Hundt of Lindsay and the groom is the son of Mr. and Mrs. James Harrison of Muenster. They were married in St. Peter's Church, Lindsay in a double ring ceremony by Father Bede Mitchel on Saturday, December 28 at 5:00 p.m. before an altar banked with traditional Christmas trees, red poinsettias and candles with votive lights on the altar rail.

Given in marriage by her father, the bride was wearing an original gown of peau-de-soie with re-embroidered hand beaded lace created by Mrs. Julius Hermes, Jr. The gown, in A-line silhouette featured an Empire bodice, high neck and long fitted sleeves enhanced with appliques of lace. A border of scalloped beaded lace encircled the entire gown.

The bouffant veil of illusion fell in tiers to chapel length from a Camelot crown of lace and pearls. Bridal bouquet was a cascade of carnations, stephanotis and baby breath.

Attendants

The bridegroom's sister Mrs. Brenda Hughes was matron of honor, the bride's sister Miss Jeanette Hundt was bridesmaid and Mrs. Michael Bengfort was bridesmatron. They were dressed identically in magenta princess gowns with cream lace yokes and wore flowers with magenta bows in their hair. They carried pink carnations tied with ribbons.

Weston Powell of Muenster was best man. Groomsmen were Roger Hundt, bride's brother of Dallas and Michael Bengfort of Gainesville. Ushers were Ricky Swirczynski and Dick Bowden both of Denton. Altar boys were Paul and John Hundt and Dan Schad.

Wedding music was by Pat Hennigan Jr. at the organ and Jim Lawson who sang "Wedding Song", "Color My World", "One Hand, One Heart" and "Mother Dearest".

The bride's parents hosted the reception following in the Knights of Columbus Hall where decor of greenery and candles in the Christmas theme was carried out. Miss Nancy Hundt was at the guest book and Mrs. Henry Voth of Lindsay served the wedding cake.

When the couple left on their wedding trip the bride was wearing a royal blue ensemble with black accessories.

The bride graduated from Lindsay High School and is employed at Tom Thumb. The groom graduated from Muenster High School, attended Cooke County College and is employed at Weber Aircraft.

In addition to guests from Cooke County, out of town guests included Mr. and Mrs. Billy Sangster of Mesquite, Ollie Nichols of Mesquite, Mr. and Mrs. Herbert Hundt, Sr. and Mr. and Mrs. Herbert Hundt, Jr. all of Dallas, Mr. and Mrs. David Hundt of Irving and Mr. and Mrs. David Strittmatter of Pilot Point.

Rutherford of Salem, Indiana, who is a war-time friend. Later in the day she received an orchid corsage from her children Theresa and Tony and in the evening Mr. and Mrs. Steve Moster and sons Frank and Chris came to bring greetings and gifts to their Granny. There were over 25 cards from friends — truly a happy and memorable time for a lovely lady.

Some people get to the top just by being stuck in the back of the elevator.

'74 Farm Census Forms Mailed to Nation's Farmers

The 1974 Census of Agriculture got underway the week of December 29th with the mailing of approximately four million report forms to farms and ranches in the 50 states according to Vincent P. Barabba, Director of the Bureau of the Census. The Bureau is part of the Department of Commerce's Social and Economic Statistics Administration.

Farmers and ranchers are being asked to report on their agricultural operations during 1974. This 1974 census, the Nation's 20th farm census in a series that started in 1840, will update data most recently obtained in 1970 for 1969 operations. Primary emphasis will be on obtaining information about farms and ranches with sales of \$2,500 or more annually. Such operations accounted for 98 percent of the total value of all agricultural products sold in 1969.

To avoid undue burden on small farmers and to reduce processing costs, a short version of the census report form is being mailed to the over one million addressees estimated to have had both farm receipts and expenses of less than \$2,000 in 1973. All other addressees are receiving the standard form.

Forms are being mailed to a list of the following: persons who filled out Schedule F of the 1973 individual income tax return, persons listed with other Federal agencies as associated with agricultural operations, and those reporting large or unusual farm operations in the 1969 census (such as institutional farms, farms on Indian reservations, etc.). This combined list of addressees forms a pool of potential respondents in the census. The final total of farms counted is expected to be well under three million, as it was in 1969.

Completed forms are to be mailed back as soon as possible. Census by mail allows operators to fill out their reports at their convenience and use their farm business records. Estimates are acceptable and should be reported in the absence of records.

Recipients of census report forms are cautioned not to discard them. Follow-up mailings costing additional postage will be required until all forms are received. Even if the recipient is not farming, the form should be returned with that fact noted.

The five-year censuses are the only source of statistics on agriculture that are comparable county by county for the entire Nation. They are the sole source of comprehensive agricultural data tabulated for

each State and for the U. S. as a whole for farms classified by size, tenure, type of organization, market value of products sold, and type of farm organization.

Response to the census is required by law (Total 13, United States Code). By the same law, information furnished on report forms is kept confidential. It may be seen only by sworn Census employees and may be used only for statistical purposes. Even other government agencies cannot obtain or use the report made by any operator. The law also provides that copies retained by the operator are immune from legal process.

They are called "Personal Loans" because if you miss a payment, they sure do get personal.

As a starter the girls lost theirs 25-17, after which the boys were wiped out 34-7.

The SH girls dropped back 17-5 the first half, broke even in the third and gained in the fourth, but not enough. They went down by 8. Their scorers were Laurie Walterscheid 8, Sharon Grewing 5, Rhonda Endres 4.

Next game was a disaster as Lindsay, in complete control, just ran up the score 34-7. Gene Luttmr, Mark Felderhoff and Jeff Hess each scored 2 and Kenny Hartman 1.

When Australia adopted the metric system a few years ago, the changeover was not without its unexpected pitfalls. This clearly shows that (chickens) cannot adjust to laying different-size eggs. We tamper with nature at our peril."

Are Natural Gas Curtailments Going To Affect Me?

During cold days in the winter, when the demand for natural gas is really high, some industrial users are asked to cut back their consumption of natural gas. But we want to assure our residential and other high priority customers that it's highly unlikely their natural gas service will be interrupted.

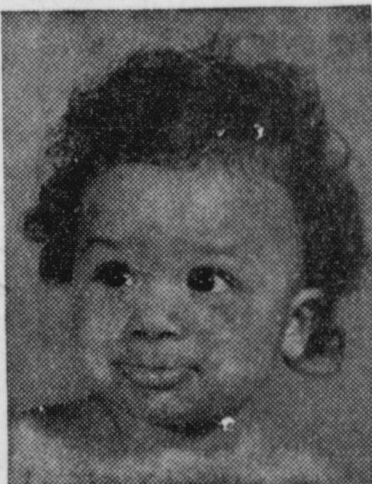

The pipelines used to deliver natural gas can only hold so much gas. And during extremely cold winter days, there's sometimes more demand than we can supply. Some people ask, "Why not build bigger pipelines?" But that would be like building a church for the Easter or Christmas attendance, rather than the weekly congregation. The cost would be tremendous and gas rates would be much higher.

Instead we developed a "curtailment" program many years ago. Our industrial customers have signed contracts agreeing to "curtail" their use of natural gas during these peak times.

If you were considering replacing an existing gas appliance or purchasing a new one, be assured that Lone Star can provide the energy. We have the natural gas, and our residential and other high priority customers may continue to rely on Lone Star's dependable service now as in the past.

Janelle Janicki and William Rutledge United in Ceremony in San Antonio

The Academy of Health Science Chapel, Fort Sam Houston, Texas, was the scene of the marriage of Miss Janelle Yvonne Janicki and William Corlas Rutledge on Dec-

ember 23 at 12 o'clock noon. The bride is the daughter of Lieutenant Colonel (Retired) and Mrs. J. P. Janicki of San Antonio, and the groom is the son of Mr. and

Mrs. Max L. Hagen, Lake Jackson, Texas. The late Mr. and Mrs. Jacob Pagel are grandparents of the bride.

Celebrant of the double ring Nuptial Mass was Father Felix Lombardi.

As the bride proceeded to the altar on the arm of her father she presented a long-stemmed red rose to her mother.

The bridal gown was of champagne silk organza with heavily embroidered bodice and sleeves, a repeat of the embroidery fell from the back of the waist in a long flowing train. A starched lace bonnet held the shoulder length champagne tulle veil.

The bride carried a nosegay of white rosebuds, baby breath, and holly. Her only jewelry was diamond earrings, a gift from the groom.

Miss Starla Michele Janicki was maid of honor. Her dress was of deep red velvet and her hairpiece was white baby breath. She carried a nosegay of red rosebuds and holly. Mr. Sydney Eugene Rutledge of San Marcos attended his brother as best man. Ushers were Edward Badough, Jr. of New Braunfels and Bill Radford of Austin.

As the bridal couple left the chapel, the bride presented the groom's mother with a single long-stemmed red rose.

The wedding reception was held in the Fort Sam Houston Officers' Club. Miss Renee Janicki and Mrs. Sydney Eugene Rutledge of San Marcos cut and served the three tiered wedding cake which was baked and decorated by the bride's father. Mrs. H. B. Falck, aunt of the bride, served at the punch bowl. Miss

Cindy Granger registered the guests.

The bride is a graduate of Roosevelt High School, San Antonio, Texas, and Southwest Texas State University, San Marcos, Texas. She was a member of the Strutters Drill Team and a member of the Delta Zeta Sorority. She is currently employed with the Northeast Independent School District as a secondary English teacher and heads the Journalism Department at Edward H. White Middle School.

The groom attended Brazoswood High School, Lake Jackson and Southwest Texas State University San Marcos. After a honeymoon to Steamboat Springs, Colorado, they will make their home in New Braunfels, where the groom is Office Manager at Town and Country Realty.

sisters of Mrs. Lester Harris, Mrs. Alma Sloan of Tullahoma, Tenn. and Mrs. Henry Millsat and her husband of Gainesville were also Christmas day guests. Visitors on December 22 were a nephew and wife, Mr. and Mrs. Kenneth Sloan of Tullahoma, Tenn.

Muenster Teams Win Four of Five With Alvord High

Muenster High basketball teams won four out of five games with Alvord during the past week, and their only loss was by a margin of only 1 point.

That one was the girls' game last Friday night in which a shot just before the final buzzer was close but bounced away.

In those Friday games the girls were nudged out 50-49 and the boys won a 64-19 scoring spree. Monday night the Junior Varsity boys won 25-18, the girls 54-38 and the boys 59-26.

The girls in their first game seemed to have it made as they led 12-10, 32-24 and 43-36 ending three periods, then hit a cold streak and let Alvord take the 50-49 seconds before the end. Even so they had a final chance but missed it.

Scorers were Tracey Klement 29, Becky Fields 8, Sandy Dittfurth 7, Deb Schneider 5.

In the second game, at Alvord Tuesday night, it was different as Deb Schneider moved up from low to high

scorer. She poured in 29 points, Tracey Klement added 18 and Becky Fields 7 as MHS gained all the way with scores of 18-10, 31-16, 42-29 and 54-38 at the quarters. Meanwhile the guards, Mary Lou Fleitman, Lisa Mollenkopf and Kim Klement kept Alvord well under control.

The Hornets found the Bulldogs considerably under par for the first game, and ran away with scores of 21-4, 35-9 and 53-14 the first three quarters. After reserves played all of the fourth the final count was 64-19.

The point makers were Danny Endres 12, Terry Walterscheid 11, Randy Wolf 10, Bobby Endres 10, Tim Felderhoff 9, Mark Stoffels 2, Mike Davidson 2, Tim Wolf 2, John Eckart 2, Kim Walterscheid 2, Nick Walterscheid 2.

Next game started close with the Hornets ahead 13-12 at the quarter, then it was about like the other as MHS gained to scores of 32-14, 52-17 and 59-26 ending the next three periods.

Randy Wolf scorched the net with 28 points, Tim Felderhoff added 11, Mike Davidson 6, Bobby Endres 5, Dan Endres 4, Terry Walterscheid 4 and Kirk Johnson 1.

The junior varsity game was more of a contest with the future Hornets leading by fairly close scores all the way. Counts at the quarters were 8-4, 12-10, 20-16 and 25-18. Boys who made them were Nick Walterscheid 7, Neil Walterscheid 4, Tim Wolf 4, Kenny Koelzer 4, Lenzy Dyer 2, Terry Lewis 2, Kim Walterscheid 2.

This and That In Conservation

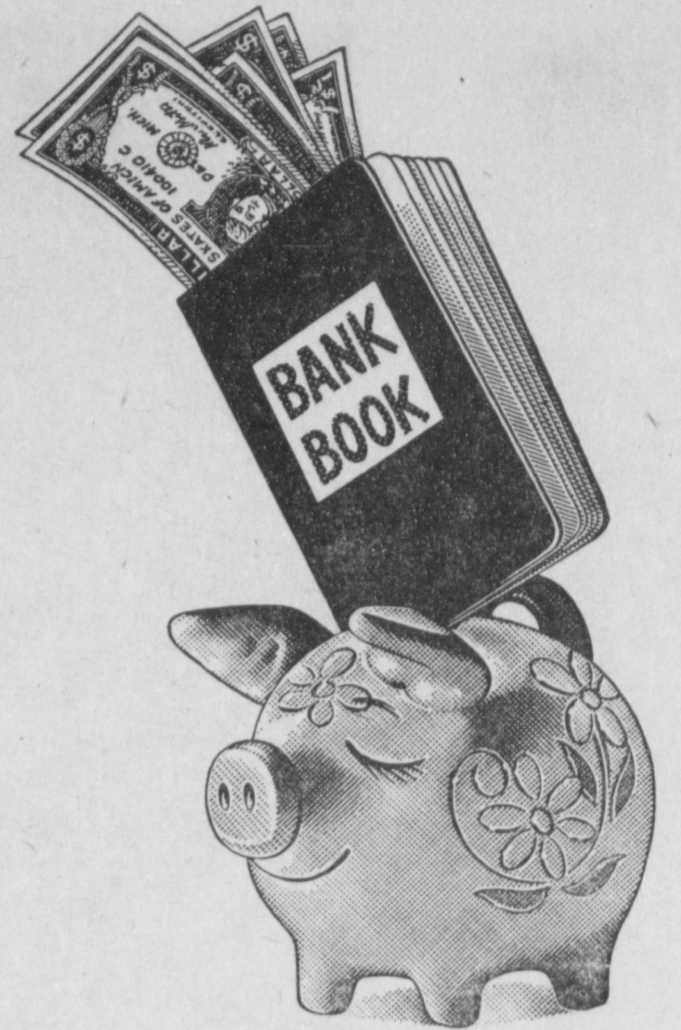

It has been estimated that by the year of 2000, the land and water resources we use today will have to provide double the food output, double the water for municipal use; quadruple the amount of water for manufacturing use; double the land for homes, schools, factories and urban uses; double the production of wood products, and fifty percent more irrigation water. Creative conservation policies and programs can meet this need while upgrading the quality of the environment and strengthening the economy and standard of living in communities of tomorrow.

Throughout history we have depended heavily on plants for food, shelter, fuel, medicine, paper and many other necessities. Scientists are still finding ways to change and improve plants and make more efficient use of natural resources. Plants help make the soil in which they grow. Organic matter from decaying plants is an essential part of good soil. Plants improve the soil in which they grow, they protect it from eroding and they reduce water pollution.

Did you know that the first soil and water conservation district in Texas was organized in 1940. Today we have over 190 of these local districts covering most of the land in the state. A soil and water conservation district is a unit of state government much like the school district. They are governed by five locally elected land owners who serve five year terms without salary. The Upper Elm-Red Soil and Water Conservation District was organized in 1941 and has made an enviable record in the field of soil, water and plant conservation.

No experienced camper would pitch a tent without studying the soil for smoothness, drainage, rocks and ditches. And he makes sure it is close to a wood and water supply if he plans to stay more than a day. Shade and shelter from wind are important too. Sounds simple, doesn't it? Yet did you know that people often spend less time studying the soil before buying a home than they do before pitching a tent? Yet an unlucky choice of homesites can result in high maintenance costs and other problems.

Every time the government shifts a little to the left, the decimal point in taxes and national debt shifts to the right. Those pioneers who once fought taxation without representation should see it with representation.
