

The news nowadays from South Vietnam and Cambodia is most distressing...

As far as Washington is concerned, this tragedy comes at an opportune time...

Many of us felt like the president. We believed as we did several years ago...

Now we can look back at the long years of war with full conviction that it was a waste...

Just now, however, the great tragedy is what is happening to the people of Southeast Asia...

This is the ugly picture that ought to haunt some people in Washington...

As we accept the bad news from Southeast Asia in a matter of fact way...

People who wish to be brought up to date on the abortion issue will have that opportunity on Tuesday night...

Those who advocate abortion have a number of social and economic views to justify their stand...

But they disregard the most important point of the issue, the commandment of God which says 'Thou shalt not kill'...

Nocona Will Host on May 8 For Conservation Banquet

The 26th annual awards banquet honoring conservation farmers of the Upper Elm Red Soil and Water Conservation District will be held in the Nocona High School gymnasium on May 8, beginning at 7:30 p.m.

Preliminary plans for the event were made last Thursday night in a meeting of sponsors in the Professional Building of Gainesville...

The group re-elected William A. Claunch Jr. of First State Bank, Gainesville, as chairman of the awards program. It also decided to continue the custom of presenting hand carved wooden plaques from Muenster's Bavarian Wood Carving Studio to the past year's outstanding conservation farmers...

Principals of the program are Gene Foster of Grayson County College, who will be master of ceremonies, and Ollie Carricker of the Bowie radio station, who will be narrator while colored slides of conservation scenes from the winners' farms are projected on a screen.

Following the narration each winner will receive his award from a sponsor of his area.

Tickets to the program, priced at \$4.50 each, will be available at all banks of the district.

After the meeting the planners were guests of First State Bank at the traditional charcoal steak supper at Motel Lodge adjoining Leeper Lake across the River.

MHS Homettes Win District 13-A Volleyball Trophy

The Muenster High Homettes, coached by Robert McDaniel, are the volleyball champs of District 13-A. They won the trophy last Thursday in a district tournament at Petrolia as Windthorst, Callisburg and the host team came away with second, third and fourth places.

The MHS girls met Callisburg in their opening contest and won by scores of 15-11 and 15-4, thereby advancing to the final with Windthorst, which had beaten Petrolia. That contest had to go into the third game after Muenster won 15-1 and lost 7-15. That third game was a decisive 15-2 sweep for MHS.

A combination of steady serving, good ball handling and effective spiking did the job for MHS. Their best arrangement of positions in both contests was during the serving of Thelma Lewis, which resulted in 13 points against Callisburg and 14 against Windthorst.

Members of the team are Sandy Dittfurth, Diane Klement, Nancie Lippe, Becky Fields, Sheila Grewing, Kim Klement, Deb Schneider, Connie Walterscheid, Margie Wolf, Darlene Klement, Clara Knabe and Thelma Lewis.

In practice for the tournament MHS girls played Nocona twice. First time they failed to win a game and the next time they broke even, 2 and 2.

Get High Grades In National Spanish Exam at Denton

Two students of Muenster High School, Diane Yosten and Lisa Mollenkopf were fifth and sixth respectively and Charlotte Johnson was tied for seventh among 42 Level II participants in the National Spanish Examination given at NTSU on March 15.

The examination, sponsored by the American Association of Teachers of Spanish and Portuguese, is open to outstanding high school students of Spanish throughout the nation. North Texas State University is one of many regional testing centers.

Level II designates the competition among students in their second year of study of Spanish. There are separate categories for those currently in their first, second, third, fourth and fifth years of study of the language; and at each level students having had significant outside-of-class experience with Spanish (for example, those who speak it in their homes) compete separately from others.

Scholarships and numerous other prizes and forms of recognition are awarded to participants making the highest scores in the national competition, the results of which will not be available for some time.

Participating MHS students were accompanied to Denton by their teacher, Robert McDaniel.

Junior Stockmen Had Good Show and Sale

FFA and 4-H members of Cooke County had a good show and a good sale last Thursday and Friday. The show had a long list of entries which rated a high percentage of blue ribbons, which were awarded on the basis of merit rather than competition, and the auction Friday netted the members handsome premiums for their project animals.

Usual procedure at the auction was to pay a bonus for the animal after which the buyer re-sold it on the open market. However a number of the animals were kept by the original buyers to be processed for freezers.

Edgar Dyer of the Muenster FFA said the chapter was well pleased with the support it received from local businesses and friends.

Muenster buyers were Muenster Livestock Auction, Muenster Mill, Tony's Seed & Feed, Stockmen's Feed Store, Muenster State Bank, Electric Co-op, Fisher's Market, H & W Meat Co., TP&L, Jimmy Jack Biffle, Hesperian, Endres Motor and Cooke County Distributing.

The Coons took the lead in the second with a homer and the Hornets tied it in the sixth. Finally in an extra inning Frisco combed a walk and a hit with an error to bring in the winning run.

In Tuesday's game the Bearcats scored one in the second and took a comfortable lead by adding 4 in the fifth, then another in the sixth. New Benedictine Abbey Dedicated in South Texas

For almost 48 years, Muenster relatives and friends of Benedictine Fathers and Brothers of Corpus Christi Abbey were accustomed to the address at 1200 Lantana Street in Corpus Christi. Now, however, the monks are moving to a new monastery — home in the Arrowhead Subdivision near Lagarto and about 22 miles from Mathis, Texas, on the western banks of Lake Corpus Christi.

A cluster of nine beautiful new white buildings on a hill, overlook the lake on about 22 acres of land cleared in June, 1974. Construction was completed in almost 170 working days.

The monastery complex consists of an imposing "Chapel by the Lake," whose stained glass windows quote from the Rule of Saint Benedict, an office building; a guest house; three living quarters buildings where each monk has a private room and bath; a kitchen — dining room — workshop; recreation building and garage, with future construction planned, beginning with a library. Cost of the complex is over \$400,000.

All the structures except the garage are made of fiberglass material with interiors sprayed with liquid polyurethane insulation to a thickness of an inch. When sprayed on, the liquid expands 32 times its size immediately.

Buildings, whose distinctive feature is their surprising and unusual quonset-type appearance, have rounded outside walls, formed by bolting fiberglass panels four feet wide by fourteen and a half feet long. Joints between panels are covered with black plastic pipe. The slab foundations are conventional style.

No supports are used in the buildings. The dome at the top reinforces the self supporting fiberglass structures which will withstand 200 mile per hour winds. Thermopane windows are attached to the fiberglass panels and interior walls are cut into the polyurethane.

Some of the advantages of this type of construction are lower construction cost, fractional cost of heating and cooling, ease of interior repair, no maintenance or upkeep needed on the outside of buildings that are completely fireproof.

Hilda Self Takes 3 Day Guided Tour

Mrs. Hilda Self was a member of a group from Dallas enjoying a three day guided bus tour of Vicksburg and Natchez, Mississippi last week.

Leaving from Dallas, they arrived the same day in Vicksburg and the next day toured the Civil War Battleground and the National Cemetery; they visited Natchez and saw five antebellum homes and marveled at the wide vistas of azaleas.

Returning, they toured the magnificent Hodges Gardens in Louisiana, but also passed the depressing sight of acres of cotton left hanging in the fields where it had deteriorated from excessive rains.

Back in Texas, they stopped in Nacogdoches for sightseeing that completed their guided tour.

position of an abbey, Father Alfred was elected by the monks the first Abbot of the only Benedictine Abbey in Texas, in September 1961.

Dedication

On Saturday, March 15, the new Abbey and Monastery-home was blessed and dedicated. There were five Bishops of Texas, ten Benedictine Abbots from other states, local civic leaders, nine members of Abbot Alfred's family and a number of friends present. On Sunday afternoon the public was invited to an Open House.

Attending the dedication and open house were brothers and sisters of Abbot Alfred, including Mr. and Mrs. Alphonse Hoenig, Mr. and Mrs. Joe Hoenig, Tony Hoenig of Muenster; and Mr. and Mrs. Leo

Fetsch of Rhineland; and Mr. and Mrs. Ray Stanley of Seagraves. Mrs. Fetsch and Mrs. Stanley are sisters of Abbot Alfred. His relatives spent from Friday through Tuesday visiting in Corpus Christi and after the ceremonies had time for boating and fishing on the Lake.

Among friends also attending were Mrs. Charles Denny and John Denny of San Antonio.

Trucker Arrested For Manipulation Of Grain Weight

TEXARKANA — James Dean Fox of Paris was arrested here today on charges of theft of over \$200 in the sale of grain to Elkhart Farmers Co-Operative Association in Elkhart, according to Agriculture Commissioner, John C. White.
Fox was placed in the Anderson County Jail in Palestine. Bond has been set at \$20,000. The specific sale stated in the charge was made February 19, 1975.
The alleged theft was be-

lieved to have been accomplished by the manipulation of the truck's weight by the use of a complex air system, which could be utilized in both the purchase of grain from the farmer and the sale to the Co-Operative, Commissioner White stated.

Teams from the Texas Department of Agriculture personnel, the Texas Department of Public Safety, the Department of Public Safety License and Weight Service, a Texas Ranger and the district attorney and sheriff of Anderson County participated in the surveillance and arrest.

Be Careful About Final Rush Report On Tax Return

Dallas Texas — With less than three weeks remaining until April 15, the annual deadline for filing individual income tax returns, the Internal Revenue Service (IRS) is cautioning taxpayers to watch out for the last-minute mistakes that can delay refunds or, worse, cost money.

A. W. McCannless, district director of the IRS for North Texas, said today that a disproportionately large number of taxpayers traditionally wait until the final days of the filing season to send in their returns. One result of this, he said, is that thousands of returns come in with simple mistakes that can only be attributed to haste.

"We can't do much with a return that shows up without a taxpayer's name on it, which is not as uncommon as you might think," McCannless said. "The same goes for unsigned returns and those on which there are no social security numbers. But these things and the frequent math errors that crop up mainly just cause delays in processing. The sadder thing is the money taxpayers lose because of rushing."

The tax official said that when people are hurried and trying to get the return in the mail by the deadline they frequently overlook legitimate deductions which could save them tax. They may forget that trip to the dentist or doctor that the insurance did not cover, or the interest paid out all year on their revolving charge accounts.

If you're working up your return now and want some advice, the IRS has experts answering phone calls in Dallas at 742-2440 and in Fort Worth at 334-3811. Those outside these areas can call 800-492-4830, toll-free.

Time Spent In Housework — 1920s vs. 1970s

Have you ever wondered what happens to all that time that your time-saving appliances save you?

Well, relax, homemaker. You're not inefficient; you're using appliances and other modern conveniences to do more than ever for your family.

Time Use Surveys reported in *Scientific American* show that today's homemaker who is not employed outside the home actually spends more time in family-related tasks than women did in the 1920s—55 hours a week now as opposed to 52 hours then.

On the average, homemakers spend five hours a week less preparing meals and cleaning up afterward than they did 50 years ago. One appliance manufacturer, General Electric, points out that clean-up appliances, such as dishwashers, and convenience foods probably account for most of this gain.

More time is spent today, on the average, in child care, shopping, and other managerial tasks, and—very surprisingly—in doing the laundry.

In spite of the fact that automatic washers and dryers have come onto the scene and ironing has been greatly reduced by modern fabrics and fabric coatings, the average time spent doing the laundry has increased in the last half century, if only by a little. Presumably the reason is that people have more clothes now than they did in the past, and they wash them more often.

Of course, doing laundry today with the aid of automatic

washers and dryers is far less uncomfortable and physically demanding than in the days of washboards and clotheslines, the General Electric spokesmen notes.

What about women who do work outside the home?

In the 1920s it was unusual to find married women employed outside the home. Today, however, about 40 per cent of married women are in the labor force. In contrast to the 55 hours a week nonemployed women spend on housework, employed women spend just 26 hours a week.

One would expect that employed women, in an effort to "catch up" on housework would spend more time at it on the weekends than do non-employed women. Not so. Nonemployed women spend about an hour a day more on weekend housework than do employed women.

Several possible explanations for this could be:

—Nonemployed women may have larger families and/or younger children.

—Employed women may get more help from other members of the family.

—Employed women may be able to use their earnings to buy labor-saving devices or services of others.

At any rate, the old adage seems to remain true. While modern appliances, fabrics, and foods have made it less demanding, "... A woman's work is never done."

Special Liturgy Observes 2 Feasts

The feasts of Saint Joseph, March 19, and Saint Benedict, March 21, were observed in Sacred Heart Church with special liturgies.

During the Mass celebrated by Fr. Stephen Eckart on Wednesday evening, March 19, officers of Saint Joseph's and St. Anne's Societies and students and teachers of 5th grade CCD participated in special parts. Adults included

were: Wilfred Bindel, Harold Knabe, Jim Gehrig, Denis Walterscheid, Mrs. Al Hess, Mrs. Wilfred Bindel, Mrs. Vic Gremminger, Mrs. Leo Henscheid, Mrs. Mel Stephens, Mrs. Roy Monday and Mrs. David Bright. Among the children were: Charlotte Fleitman, Leslie Reiter, Rene Steizer, Jerry Serna, Sandy Barnhill, Carla Walterscheid, Tim Schneider, Jill Walterscheid, Michael Walterscheid, and Doug Walterscheid.

Included in the Liturgy was an observance of Holy Childhood Day when fourteen students carried Adoption cards in the Offertory procession.

During the quiet time following Communion all fifth grade students of the Parish participated in a Choral Reading in honor of Saint Joseph, the special patron and head of the Parish Family, protector from storms and a Model for workers.

Mrs. David Bright was organist and guitarists were Diann Yosten, Lisa Trubenbach and Michael Stephens. Senior girls of CCD led the community singing.

Following the special religious ceremonies, a dinner was held in the new Community Center for members of Saint Joseph's and Saint Anne's Societies and a program which presented Bill

Koerschner as guest speaker. **March 21**

The feast of Saint Benedict, of special significance to members of the Benedictine Order, which staffs Sacred Heart Church and School, was held Friday morning, March 21, during Mass, celebrated by Father Placidus Eckart with the added observance of Vocation Day. The celebration was themed: "What you are is God's Gift to you. What you make of yourself is your Gift to God."

One hundred twenty eight students in grades 1 through 8 who have relatives in Religious Life, carried lighted candles in the entrance procession. These students have an aunt, an uncle, a great-aunt or a great-uncle in the Priesthood, Brotherhood or Sisterhood. Included are nieces and nephews of an Abbot and a Bishop.

Children taking part in the Liturgy were Ted Koerschner, JoEll Hellman, Joe Koerschner, Jill Mollenkopf, Tim Knabe, Sherrie Herr, Teddy Walterscheid, Brian Bindel, Keith Hennigan, Donnie Fleitman, Mike Bartush, Karla Jo Hartman, Lisa Hennigan, Debbie Bindel, Carmen Sicking, Mike Koerschner, Scott Fleitman, Nancy Fleitman and Brian Herr.

A veteran plumber was trying to convince some vocational education students that plumbing in the old days was a lot tougher than it is today. "You boys think you work hard?" he jeered. "When I first started in this business they let us lay two lengths of pipe, and then turned on the water. We had to keep ahead of it"

Be Careful About Taking Medicine

Ever wake up, or at least about half awake, in the night with a splitting headache? Or a pain in the tummy? And stumble into the bathroom and reach for a bottle in the medicine cabinet? And gulp down a pill or two, or a spoonful of medicine?

Sure. All of us have. And we're risking serious trouble in taking medicines carelessly.

The medicine was prescribed by your physician, and he included specific orders for size and frequency of dose and how to take it. The Texas Medical Association reminds that there is a good, sound reason for these orders, and they're meant to be followed.

A few simple rules for taking medicine can help to avoid an accident that may make your minor discomfort a lot worse.

* Never take medicine in the dark. Be certain you can see the bottle or pill box, to make certain it's the right one. If you need glasses, put them on.

* Read the directions carefully before taking. Those directions are there for a reason — your health.

* Don't increase the dosage or take more often than directed without checking with your doctor.

* If the label says "Shake well before using," it means what it says. Shake it.

* Don't take medicine prescribed for someone else. Just because it helped your husband's cough doesn't mean it's right for you.

* Keep medicine out of reach of children. The small child who is rushed to the hospital after eating a whole bottle of sugar-coated tablets is an all too common occurrence.

* Put the cap back on the bottle. Some medicines change strength if exposed to air too long.

* Keep the medicine in its original box or bottle. Shifting sleeping pills to an aspirin bottle, for instance, could produce dire effects for someone else in the family.

"Green Finger" Tips For Spring Flowering Bulbs

Fall means Halloween, football games, Thanksgiving, cool days, colorful leaves, and for the home gardener—Spring garden planting time. Fall is when you must plant tulip, daffodil, hyacinth and crocus bulbs in order to have them bloom in a riot of color next Spring.

Here are a few green finger tips recommended by the Dutch bulb industry to help the Fall gardener:

1. **BUY THE BEST.** Buy blemish-free, quality, large, healthy bulbs for best results. You get what you pay for.

2. **ORDER EARLY.** If you buy through a catalog order early to get the best selection. Plant when bulbs arrive, or open the bags and store in a cool dry place until you are ready to plant.

3. **PLANT IN WELL DRAINED SOIL.** Bulbs prefer well drained soil. For heavy clay soils, fork in sand, peat or vermiculite to improve drainage.

4. **PLANT BEFORE FROST HARDENS THE GROUND.** The planting period for Spring flowering bulbs such as tulips and hyacinths, usually extends from September 1 to December 15. Daffodils and minor bulbs should be planted as early as possible. In the South you can plant one month later.

5. **PLANT AT THE RIGHT DEPTH.** Bulbs should be set, pointed ends up 6-8 inches deep for daffodils, tulips and hyacinths and 3-4 inches deep for crocuses, muscari, and most other small bulbs.

6. **BULBS CAN BE GROWN ANYWHERE.** There is a place in every garden for bulbs—in beds, borders, shrubbery, rock-

eries, orchards, woodlands, lawns, on walls, in tubs or window boxes—in sun or even shade.

7. **PLANT IN GROUPS.** Plant bulbs in clumps of twelve to twenty-four for the best and most colorful effects. If you want flowers for indoor decoration, plant extra bulbs in an unused area especially for cutting purposes.

8. **WATER WELL.** Water planted areas well after planting and throughout the Fall should there be insufficient rainfall.

9. **MULCH.** Cover bulb beds with a mulch to help retain moisture and to retard soil from heaving during the late Winter. Remove mulch after shoots appear.

Forgotten People

When Senator James L. Buckley of New York visited the Soviet Union late last year, he not only met with some of the top Communist officials, but he also took time to contact some of the members of persecuted "minority" groups in the USSR, including one of the most resistant dissidents, Andrei Sakharov. Buckley reported that he found not a single one of some dozen families he talked to had a working telephone because all their phones had been cut off. Thus, the families were cut off not only from each other but from any hope of getting messages in or out of the USSR.

The evidence convinced him, Buckley said, that prison conditions are now in many ways worse than those that existed even during the barbarities of the Stalin era. "Instead of the extermination camps of the Stalin years," Buckley said, "there now exist camps dedicated to what might be called 'protracted death' i.e., death on the installment plan."

While in Moscow Buckley was handed a list of 6,000 Volga German families who have been trying to leave the Soviet Union, and suffering additional torture because of their requests. He was told that 20 or 30 individuals who helped compile the list are now in prison, and that the actual number comprised more than 25,000 men, women and children. The victims are treated as a separate nationality, with the word "German" stamped on their identity papers; they are subject to abuse in schools as "Hitlerites" and "Nazis" and denied opportunities for higher education. Buckley was also given case histories of Soviet persecution of Baptists, Buddhists, and other minority groups.

During this period of celebration of our 200th Anniversary, it is well for us to ponder the difference between living in a nation founded upon atheism and the rejection of God and a nation founded upon belief in God and a system of justice built upon the laws of God.

Every American, every night, should praise God that he or she was privileged to have been born here, rather than on the other side of the Iron Curtain.

Shades of Horatio Alger

Although there are several months left to go in 1975, it can be safely said that Ed Livermore, editor and publisher of the weekly Edmond (Oklahoma) Booster has come up with the Horatio Alger story of the year.

In case some of you younger readers don't know or haven't been told, Alger was once the most widely read author of boy's stories in America. In every tale, Alger had a moral: that with luck, pluck, absolute honesty, integrity and hard work, any scrawny kid could make good. Surprisingly, most of them did. Sophisticated publishers today have decided that such positive messages are too "corny" for modern youth.

However, it seems that back around 1960, a young student from Iran found himself (a) at Central State University (b) unable to speak English very well and (c) in need of automotive transportation. He contacted a number of dealers, telling them he wanted to buy a car and pay honest money. He learned that some were over-pricing their cars. However, when he approached Bob Ford of the Ayers-Ford Chevrolet dealership in Edmond, "He gave me a good deal; I checked it out later and found out he really did."

This year, Mr. Robert Azarmi of Iran returned to Edmond; not as a student, but as the sole purchasing agent for the Iranian Contractors Association, known as the STSS. In his pocket he had an order for 750 dump trucks and 350 pickups, amounting in cost to a great many millions of dollars. Guess where he took his order?

There's no doubt about the deal, reports Ed Livermore. "I've seen the irrevocable letters of credit from the Chase Manhattan Bank."

Said Robert Azarmi: "I'm pleased and grateful to God that I made the decision to go to these people."

And said Bob Ford, the Chevrolet dealer: "It's unbelievable. He was just an ordinary student and we sold him an automobile. When you cast your bread upon the waters, you never know how it will come back to you."

And we can't think of a better tag line than that.

Hornets Win 4th, Blast Sanger 7-2

The Muenster High baseball team, coached by Harold Tipps, continued its winning streak here last Thursday with a 7-2 triumph over Sanger's Indians. The win extended their perfect record to 4-0.

Starting with 6 runs in a big first inning and adding another in the second, the Hornets were comfortably ahead all the way. The visitors' only threat was in the fifth when they brought in 2, but they were cut off for keeps after that.

Terry Walterscheid continued his good record of pitching and hitting by slamming out a triple in addition to pitching all the way. He faced 31 batters in the seven innings, fanned 15 of them and allowed 8 walks and 2 hits. Sangers two pitchers faced 33 in six innings, struck out 9 and gave up 12 walks and 2 hits.

The Hornets' two hitters were Terry Walterscheid a triple and Neil Huchton a single.

"Has your grand piano arrived yet?"
"Yeah, came yesterday; we hitched it to the dog and he pulled it up to the third floor."
"How can a little dog like that drag a grand piano up three floors?"
"We used a whip."

This replica of the blockhouse at old Fort English in Bonham was razed in the 1960s, but another like it is planned as a Fannin County Bicentennial project.

Fort English Vital to Bonham Pioneers

Construction of a Bicentennial project at Bonham under sponsorship of the Fannin County Bicentennial Commission and the Historical Survey Committee brings back a cherished page of history to Casey English of Rosston, a grandson of Bailey English whose famous Fort English had a vital part in Bonham's early days.

The project is a full size replica of the block house built by English between 1836 and 1839 as a refuge where frontiersmen took their families when warned of Indian raids.

It was built at English's expense, of hewn timbers with a projecting upper story. The four sided structure had portholes from which to shoot at the attacking Indians, usually Comanches and Kiowas.

English is described as a brave and prudent humorist who said "If we want to keep our hair to part, and not to be parted with, we'd better build us a good strong blockhouse."

He was a former Arkansas sheriff who led ox drawn wagons on trains of settlers to Bon-

ham. An elementary school there is named after him and a Methodist church got its start at Fort English.

Specifications for the replica fort call for a 20 x 20 lower section with walls 10 feet high, a 24 x 24 upper section with walls 8 feet high, and a cupola topping the structure. Portholes for gunfire are in all four walls at each of the three levels.

Early settlers credited the fort with saving many lives. Along with the blockhouse it consisted of a surrounding stockade and small houses where settlers could assemble and live in time of danger. Vegetables were grown inside the stockade. The story is that

Charles M. Schwab, the American steel magnet, worked for Andrew Carnegie as a young man. The Scotch industrialist taught him one of the hardest lessons of the business world.

"All records broken yesterday," Schwab wired his boss.

"What have you done today?" Carnegie wired back.

settlers could live there many months without outside supplies.

The present project is the second replica of the original Fort English. The other was built in the Texas Centennial year, 1936, as a promotion by the late Sam Rayburn. It was razed in 1960 because of termite damage and unfavorable public reaction for saving it.

THANKS
 During the weeks I was a hospital patient here, my family and I came to realize what it is that makes our Muenster Memorial Hospital so great. It's the folks who manage and staff it and everyone else who has anything to do with it. My special gratitude goes to Bishop Dangelmayr, Father Placidus and Father Stephen. Thanks to all for everything.

Letters to the Editor

Dear Editor,
 We want to thank the businessmen of this community who came to the junior livestock sale last Friday night. The students expected to lose money on their animals. But through your generosity most of them made a profit. We are very grateful.
 Thank you.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH
 Many farms and ranches in this conservation district may have one or more gullies as a result of uncontrolled surface run-off which make that area unproductive. More important they are a threat to overall efficiency of farming or ranching operations.
 If you have a gully too deep to cross with machinery or animals it may divide the land into "hard-to-manage" units. This runs up labor costs, boosts operating capital requirements for fuel and machinery repair. Usually taxes on the gullies are just as great as those on the most productive adjacent land.
 Gullies can be controlled. In many cases the walls of the gully can be pushed with a bulldozer and shaped to a parabolic form and made smooth enough to cross with farm equipment, pickups, etc. This will condition the land so a seedbed can be prepared and made ready for establishment to grass. With the addition of fertilizers to get the grass off to a good start and the control of weeds you can have this gully producing good grass within a year or so. You are also stopping any further soil loss and the gullied areas begin to produce their fair share of the forage needs for the farm. You will be pleased with the improved appearance on your farm or ranch.
 Did you know that birds and animals need "homes" just like people? Good wildlife management provides for water and a food supply near "cover" that gives them shelter and protection. This enables them to raise their families. A good conservation program on a farm puts the land to its best use and usually there will be the minimum requirements for birds and small animals.
 It won't be long until many will be thinking about fertilizing their improved pastures for good forage production. The cost of fertilizers has increased over the past few years and it makes this management practice more costly; however it is a management practice which cannot be overlooked if you want to continue large quantities of high quality forage from your improved bermudagrass, pastures, and lovegrass.
 Coastal bermudagrass with a medium level of fertilizer applied such as 200 pounds of 16-20-0 per acre or its equivalent, along with other good management practices, can be expected to produce from 5 to 6 animal months grazing per acre per year. With higher levels of fertilizer the potential is greater.
 With no fertilizer the forage production diminishes to a level of around 2 to 2.2 animal months grazing per acre. Many times the grass becomes stunted and the stand may weaken due to lack of fertility. Every farmer or rancher with improved pastures should do some figuring to see whether he can afford to miss a year of fertilization.

Forestburg News

By Myrt Denham

Mr. and Mrs. Elmer Caswell and son Gary spent a few days in Houston recently visiting another son and wife, Mr. and Mrs. David Caswell.

Mrs. Christine Box and daughters Cathy and Carla of Hart, Texas, were recent visitors in the home of Mrs. Wanda

Perryman and Mrs. Eula Moore.

Messrs. and Mmes. Mike Kelly and David Koffman of Wichita Falls spent the weekend of March 15-16 with the William Caswells. Mmes. Kelly and Koffman are daughters of the William Caswells.

Mr. and Mrs. Cecil Stevens and Dola Christenberry all of Bowie were luncheon guests of Mrs. Zelma Kimmons and Mrs. Ollie Caswell March 13. Other luncheon guests of these two ladies one day recently were the D. D. Reynolds of Denton, the Rodney Applegates and Mrs. Jan Wright and children.

Mr. and Mrs. T. W. Smith of New Braunfels and the burg returned to their Forestburg home Thursday, March 13. Mrs. Smith's brother Edgar Kloepper of New Braunfels made the trip up with them. Mr. Kloepper was the house guest of us Denhams from March 14-18. We are happy that Wesley and Gladys have returned to their home here for an extended stay.

Mrs. Gladys Moore of Dallas, Mrs. Vivian Barnett of Alford, Mrs. Olita Wallace of Sunset — all sisters of Mrs. Joe Hunt of New Harp, visited another sister Mrs. John Raby of Dodge City, Kansas and an aunt in Winfield, Kansas the weekend of March 14-16.

Mrs. Gordon Wade, Tina and Jeana were recent visitors in the home of Mr. and Mrs. Ronnie Fowler and family. I am told the Fowlers are fairly recent newcomers to the burg area.

The Buford Greenwood's daughter Karla and husband Sam Parsons of Wichita Falls recently purchased a nice home in that city. So on March 15 Buford and family motored up to Wichita Falls to help the Parsons get moved and settled in.

Mr. and Mrs. Lee Holzbog of Birdseye, Indiana arrived at the Herschel Holzbog home, New Harp, on Thursday, March 20 for a few days visit. Lee is Herschel's brother.

Miss Carol McMillion of Dewey and her sister Mrs. Kenneth Reed and son of Sunset visited another sister, Mrs. Charles Fenoglio of Graham March 20.

Mrs. Doyle Boyd and children of Houston and Mrs. Norris Boyd and children of Gainesville spent the weekend of March 14-16 visiting Mrs. Eula Belle Boyd of Dewey.

Friend husband and I plus one Betty Reynolds made it up to Sheppard AFB Tuesday, March 18. Yours truly had to make a short appearance at the "Vampire Lab" at the hospital there. From there we heeled to the Sikes Shopping Center where we all enjoyed lunch. Then Betty and I spent several hours "pinching and feeling" merchandise in the various shops in the center while our male companion visited with his friend Joe Smith.

Wynona Riddles tells me that R. B. McDougall of Ada, Okla., held two services in the local Church of Christ on Monday and Tuesday nights—March 17-18. Out of town visitors were Mrs. Dorothy Isley, Johnny Lewis and Jim Langdon all of Fort Worth and Mrs. Claud Barclay and Mrs. Johnny Barclay of Alford.

Rev. R. C. Ricker of the Saint Jo-Forestburg United Methodist Church was the dinner guest of the Hal Hays and LeAnn March 20.

A small group of ladies gathered in the home of Mrs. Cleo Lanier Monday a.m.

March 17 for a St. Patrick's Day coffee. Those enjoying the morning with Cleo were Mmes. Cleta Reynolds, Marilyn Sockwell, Millie Reynolds, Juanita Bailey, Bertha Covington, Nema Barnett and Vera Mae McGehe.

Barney and Veda Brogdon and grandson Hannon Orrell visited with Mr. and Mrs. Durwood Sledge and family of Cleburne Sunday, March 16. Speaking of Hannon Orrell—how many of you have noticed what beautiful eyes that young feller has? They are something to take note of.

Mr. and Mrs. Woodrow Sirmont and the burg ventured out Dewey way Thursday nite to visit with Jim and Nema Barnett. Now this may not seem like news — but it really is.

Home from various colleges for the Easter and Spring vacations are: Miss Sherri Wylie of Stephenville visiting her parents Red and Bobby and her grandmother Mrs. Ida Wylie. Phyllis Lanier is home with her folks the Gene Laniers and I am told that Kaye Steadham is home visiting her parents Donald and Ruthie Steadham.

Myrtle McMillion accompanied her brother E. B. McMillion of Bowie to Vernon Thursday, March 20. Myrtle visited her aunt Mrs. Lillie Reynolds while E. B. attended the Vernon livestock auction. Myrtle then spent Thursday nite with Miss Rachel Reynolds of Bowie.

Lloyd and Bess Orrell have moved into Room 2 of the

Bellmore Home in Bowie. We visited Lloyd and Bess Sunday p.m. March 23. They are doing very well and wish to be remembered to all their Forestburg friends.

Blakie Scott, of Lewisville, underwent minor surgery Thursday a.m. March 20 at Muenster Memorial Hospital. He is now recuperating in the home of Mr. and Mrs. A. B. McMillion.

Reports come to me that Mrs. Ruby Sledge recently underwent foot surgery in the Muenster Hospital. Ruby was to come home March 20.

Bobby and Mabel Covington and son Robbie plus Bertha Covington braved all that cold rainy weather Saturday p.m. March 22 and headed for Grand Prairie to spend the weekend with Mr. and Mrs. Jerry Gaylor and family.

Friday night March 21 at 8 p.m. about 40 people met at the Forestburg Community Center to re-organize the Forestburg Volunteer Fire Department. They elected a common Lake, Blake Freeman, Carroll Dill, Charles Edwards, Max Brogdon and Cleo Lanier — who ended up as their secretary. Clifford Hudspeth was elected an alternate member of the committee. It was decided to

use what funds they have to repair the present equipment and then take it from there. Another meeting is planned in the near future. After the meeting adjourned, refreshments were served.

Let's not forget the ex-students banquet to be held at the school gym Saturday nite, March 29. Tickets can be purchased from Lester Wade Boyd or one of the seniors — or at the door that nite. Tickets will be higher at the door. All ex-students and families are invited to attend.

Help Offered to Small Business By 12 Agencies

Twelve Federal Agencies will cosponsor a first of its kind in this area, the "Government Assistance to Small Business Conference," February 18-19, at the Fairmont Hotel, in Dallas, Texas. The conference will run daily 8 a.m. to 6 p.m., and will attract an estimated 1,000-1,500 small business men and women in Texas, Louisiana, Oklahoma, Arkansas, and New Mexico.

According to Fred S. Neumann, Small Business Administration, Region VI Director, this conference is the first of

its kind in this area. "We will present 12 Federal Agencies under one roof," he said. "This is a fine example of the Federal Government's commitment to bring its resources and services directly to the small businessman."

SBA will coordinate the Conference. Other participating agencies include the Departments of Commerce, Defense, Housing and Urban Development, Labor, Health, Education, and Welfare, Agriculture, and the Environmental Protection Agency, Federal Energy Administration, General Services Administration, and Internal Revenue Service. The Conference is designed

to answer questions and inform small business of the services offered by these agencies; services which can assist in business development, expansion or management.

Deadline Near for Reporting Earning Over \$2400 to SS

People under 72 who earned over \$2400 and got one or more monthly social security retirement, dependent, or survivor checks in 1974 must submit an annual report of their earnings to social security by April 15, according to Gus Jones, Social Security District Manager in Sherman.

The report shows how much was earned in wages and self-employment income last year by people who got monthly social security payments — as well as how much they expect to earn this year.

"The report will be used to determine if people were paid the correct amount of social security benefits for 1974," Jones said. "It will also be used to adjust their monthly 1975 social security payments according to their estimated earnings."

Full social security benefits could be paid to eligible people in 1974 if they earned \$2400 or less for the year. But no matter how much they earned for the year, they could be paid their full social security benefits for any month they earned \$200 or less and didn't do substantial work in their own business.

The figures for 1975 are \$2520 for the year and \$210 a month.

"People who file an annual

report late or don't file one that's due may suffer a penalty," Jones said.

People who were 72 or over in all months of 1974 don't need to file an annual report of their earnings.

"If you have questions about the annual report or need an earnings report form, call or write any social security office," Jones said.

The Sherman Social Security Office is located at 810 N. Travis. The phone number is 893-4301. Office hours are from 8:30 a.m. to 4:45 p.m., Monday through Friday, except national holidays.

A representative may be contacted in Gainesville each Tuesday and Thursday from 9:30 a.m. to 12 noon and 12:45 p.m. to 3:00 p.m. at the Federal Building. Those people living in Gainesville may call the Sherman office toll free by dialing "O" and asking for ENTERPRISE 6-2528.

Reducing plan for energy users

Plan C How to save electricity when using ranges

1. When using top-of-range utensils, cover tightly and cook with minimum of water.

2. Cooking's faster; less energy's used. Food looks and tastes better, too.

3. Use flat-bottomed utensils for best contact with heating surface. Use proper size utensils. A 6" pan on an 8" heating surface wastes energy.

4. Preheat oven only when needed and only to temperature stated. Normal preheat is 10 minutes; any longer wastes energy.

5. When broiling, do not preheat. Leave door ajar... air circulation insures proper broiling.

6. Use oven fully. Fill it with foods that cook at same temperature. Freeze extras for later use.

7. Center pans in from oven sides, staggered above each other (no overlap) for best heat distribution.

8. Thaw frozen meats before cooking.

9. Do not use oven or surface heating elements for home heating.

10. Turn range off immediately when finished.

Conserve electricity and you help conserve one or more of the fuels needed to produce it: natural gas, coal and oil. Conserve fuels and you help assure that there will be enough to meet essential needs for electricity in the future.

When you pass a TP&L office, warehouse, generating plant or other facility, you'll see that we've turned off all non-essential lighting. And, in as many other ways as possible, TP&L is reducing its own uses of electricity.

If you would like additional information on conserving electricity, call or see the Customer Service Representative in the TP&L Office.

Three Benedictine Brothers Observe Silver Jubilee

Wednesday, March 19, the feast of Saint Joseph, was a special day of celebration at Subiaco Abbey as three members marked the 25th anniversary of their monastic profession as Benedictine Monks. Brothers Patrick Hogan, Michael Fuhrmann, and Louis Fuhrmann took their vows in 1950 before the late Abbot Paul Nahlen and the Subiaco monastic community. Wednesday afternoon, the three renewed those same vows with

Abbot Raphael DeSalvo at a community Mass with monks, relatives, friends, and students in attendance.

Brother Patrick Hogan of Verona, Missouri, came to Subiaco following service in the military forces during World War II and has spent all his religious life at the abbey. He has filled many duties at Subiaco during his 25 years, including working in the laundry and as a custodian of the house.

Brother Michael Fuhrmann of Lindsay, Texas, also a World War II veteran, has primarily been occupied with the abbey farm and in a special way with the forest and timber on the abbey's property.

He was one of the founding monks of Santa Familia Monastery in Belize, and after returning to Subiaco from that mission, continues his duties as forester.

Brother Louis Fuhrmann, also of Lindsay, Texas, entered the monastery after his graduation from high school at Subiaco. He has worked on the abbey farm throughout his religious life except for three years spent at St. Mukasa Priory in Nigeria. He returned to Subiaco, when, as a result of the Biafran War, the abbey was forced to end this missionary effort in Africa.

Following the community Liturgy, the three were special honorees at an anniversary dinner at the Abbey.

Brother Michael is the son of Mrs. Joe Fuhrmann of Lindsay and Brother Louis is the son of Mr. and Mrs. Henry S. Fuhrmann also of Lindsay.

Family members attending were Mr. and Mrs. Steve Grewing and Donna and Elaine and Mrs. Ray Hess, all of Muenster; Mrs. Joe Fuhrmann, Mr. and Mrs. Henry S. Fuhrmann, Mr. and Mrs. Damon Fuhrmann and Mrs. Harold Nortman, all of Lindsay and Sister Catherine Henry of Iota, Louisiana.

Brothers Honored At Skating Party

Steven and Todd Fisher were honored by their parents, Mr. and Mrs. Butch Fisher with a birthday party last Saturday afternoon at S and S Skating Rink in Gainesville. Todd was 9 on March 15 and Steven was 10 on March 25.

Classmates and cousins had cupcakes and cold drinks and shared in a gift opening. Helping with hostess duties were Mrs. Kay Bedrick and Kim, Mrs. Sherry Ramsey and Cindy and Sandy, and Tonya and Julie Fisher.

Third graders attending were Bobby and Danny Wilson, Warren and Wesley Sicking, Craig Felderhoff, Jay Mollenkopf and Ronnie Fisher.

Fourth graders were Kevin Felderhoff, James Bright, Gregory Luke, Mike Bedrick, David Dittfurth, Billy Grewing, Carl Sicking, Garland Tate, Brent McElreath, Brad Biffle and a cousin, Glen Fisher.

Winning free passes for family skating were Kim Bedrick, David Dittfurth, Carl Sicking and Sandy Ramsey.

Grade 5 Wins SH Luncheon Contest

Wednesday brought to a close a contest at Sacred Heart Luncheon to determine the class with best participation. Fifth graders and Mrs. Garrett were the winners.

Their prize was the opportunity to select a favorite menu from among many presented by Mrs. Lawrence Martin, and the favorite was pizza.

The fifth graders found their table reserved, and 24 children and their teacher were surprised with individualized placemats made by Mrs. Bob Swirczynski. The place mats were made of yellow art paper, decorated with a flower in one corner, with each child's name drawn across, each with a

clever description.

A special treat after the pizza was ice cream and Easter cup cakes. Mrs. Voth served the fifth graders. The seventh grade was runner-up in the contest and was also served ice cream and cup cakes.

about the implications of that theory. If this kind of murder is justified, then why not any other murder that can be justified by reason? Judging the extent to which reason is already twisted in this issue, that becomes a terrifying thought.

Work-to-be-done fascinates some people. They can sit and look at it for hours.
