LADIES' CIVIC LEAGUE HOLDS FIRST MEETING

Mrs. Fuhrbach Is Chosen to Lead Program of Improvement

Members of the Ladies' Civic League of Muenster got off to a good start last Thursday afternoon when 35 persons responded to the 100 invitations that had been sent out earlier in the week by Mrs. Angela Fuhrbach, president of the organi-

In addition to formally organizing the new club the ladies discussed a number of improvements to be held up as a goal of achievement and appointed a committee chairman to take charge of each project. The chairmen, in turn, are expected to select their committees.

Heading the sanitation project is Mrs. Tony Gremminger, who is expected to encourage such improvements as a sewer system and proper disposal of garbage. Mrs. T. S. Myrick is in charge of a proposed flower show which, it is hoped, will encourage a more general growth of flowers. Miss Marie Seyler, one of the instructors in the Muenster public school, was appointed as chairman of the school improvement program. Miss Anna Wilde was appointed to head the park improvement and home beautification com-

Parish Societies Give Report on Convention At General Gathering

At a general meeting of the Sa cred Heart congregation in the Muenster Parish Hall Sunday night delegates of the four parish societies submitted their reports of the Catholic State League convention at Tours on July 21 and 22.

Representing the St. Anne's Society were Mrs. J. M. Weinzapfel and Mrs. Joseph Swirczynski. Andrew Hoffbauer reported for St. Joseph's ing Sunday afternoon at 4 o'clock. Society, Alois Hess for the Holy Thirteen were baptized. Miss Em-Name Society, and Miss Olivia Wal. ily Beck, who is a returned missionterscheid for the Young Ladies' So. ary from Brazil, ass:sted Reverend dance the preceding evening. In the

High spots of the reports proclaimed this year's convention as the outstanding one for the past several years and credited the Most Rev. Christopher Byrne and Father Duda of Tours for the marked success. A word of praise was also included for the people of Tours who co-operated perfectly with their pastor in every respect.

As a part of her report Mrs. Weinzapfel called attention to newly organized mission sewing societies and suggested its organization here as one of the activities of St. Anne's Society. Since that time it was announced that the new group will have its first meeting next Thursday and will meet the second Thursday of each month thereafter.

Vacation Visit Ends for Father Joseph Fuhrmann

Rev. Father Joseph Fuhrmann, who has spent the past week here and one triple in four trips to the visiting with his many friends and plate. On his other attempt he slaprelatives, returned to his home in ped a hard ball to center and went Corpus Christi Sunday.

Join Muenster in

Citizens of Saint Jo are ready to co-operate with Muenster in her efforts to secure a CCC camp to conduct soil conservation work in this locality, according to a letter recently received from S. C. Roach, vicepresident of the First State Bank of Saint Jo. The letter was sent to J. M. Weinzapfel, chairman of Muenster's five-year plan of progress.

In his communication, Mr. Roach suggested that a number of Muenster citizens attend a meeting in Saint Jo for the purpose of introducing the soil conservation program to farmers of that area and also make preliminary steps to secure assistance of CCC workers to begin soil work at the head of the Lake Dallas watershed, which takes its source near Saint Jo.

BUSINESS SESSION OF KNIGHTS OF COLUMBUS

A short and snappy meeting of the Knights of Columbus Wednesday night was featured by little more than routine business.

Brief remarks made by Grand Knight Henry Hennigan called the members' attention to a special meeting at Pilot Point Thursday in which officers of the newly formed council would be installed. Along with all other knights of this district Muenster members were extended an invitation to the opening celebration. The grand knight also urged members to attend the National K. of C. convention at San Antonio from August 15 to 19.

At Wednesday Meeting 76 Prospects Sign; Plan to Sweeps Up Cotton **Extend Survey to** Lindsay

Seventy-six signatures of prospective current consumers were submitted to Chairman J. W. Hess Wednesday night in a meeting of rural electrification committeemen. Thirtyone of the names were submitted by Al Wiesman who is in charge of the north-east division of the Muenster community.

With one-half the required number of prospects already listed both the rural electrification group and leaders of the five-year program are confident that the work can be carried on to a successful conclusion. Interest is shown by the latter group because the lighting project, which was already under way, was endorsed as one of the objectives to be encouraged in Muenster's forward cam-

After being assured of favorable response in their own community. committeemen resolved to extend their survey to the Lindsay area especially those sections which are rather thickly settled. J. H. Otto and Al Wiesman were appointed to contact the Lindsay prospects.

In order to assist committeemen in removing misunderstandings in some of the prospects it was definitely pointed out that in no case would the minimum charge be permitted to go higher than \$3.50. This is a figure set by the Federal Government and cannot be raised. It can, however, be lowered if and when the number of consumers reaches a figure that would justify a lower minimum.

It was further explained that the minimum of \$3.50 buys a total of 50 k.w.h., a sufficient volume of current to serve many of the farm homes. Compared with other rates this current is actually cheaper than that now furnished by utility companies. For \$5.00 a home could have washer, iron, electric range, radio, refrigerator and the normal number of electric lights

Those attending the were Chairman J. W. Hess. Sec. retary V. J. Luke, Barney Voth, J. H. Otto, Robert Yosten, Rudy Hellman, Al Wiesman, Al Fleitman and J. M. Weinzapfel.

MUENSTER, TEXAS

VOTE FOR THIS AMENDMENT

On Monday, August 23, 1937, there will be submitted to the voters of Texas, among other things, an amendment to the Constitution of Texas which provides for the elimination of double liability on stocks of State Banks in Texas.

Thirty-two States have already voted to eliminate the double liability of stockholders in State Banks. We are asking the voters of Texas to do the same for State Banks in Texas by voting FOR this amend-

For the amendment of Section 16 to Article XVI of the Constitution of the State of Texas, providing for the amount of the liability of stockholders in State Banks.

Against the amendment of Section 16 of Article XVI of the Constitution of the State of Texas, providing for the amount of the liability of stockholders in State Banks.

go to hell, you go for 'em."

CHAPTER 9.-McCrossen continues to annoy Jane and when he attempts to kiss her, she beats him off. Indignation runs high about the burning of Denison's ranch house. Bill Pardaloe, Henry Sawdy and Bob Scott, investigating the fire, and the tracks of a horse ridden by Barney Rebstock. In town, Rebstock is on a spree, his pockets full of money. By a ruse, Sawdy gets him over to McAlpin's livery barn to search for his strayed horse.

(Continued from Last Week) CHAPTER 10

A hanging lantern lighted the barn gangway dimly. Sawdy's call for a hostler was answered by Mc-Alpin himself, who, lantern in hand, ambled in his peculiar gait briskly forward.

"Hello, Mac," exclaimed Sawdy, waving like a tall tree in a number four breeze. "We're looking for Barney's horse," he continued grufly-"got loose up the street just now-seen anythin' of a stray?""

McAlpin, raising his lantern looked at Rebstock. "Why, yes, I seen a stray," he admitted sulkily.

"Was it a sorrel?" asked Sawdy with some hope. "It was a sorrel, Sawdy; saddled

and bridled. What about it?" "It's probably Barney's horse.

Let's see it. Where is it?" McAlpin jerked his head back over his shoulder. "In the box stall.

Your horse, Barney?" "Sure, it's my horse."

"Right this way, Barney," returned McAlpin. "Put out your cigars, boys, and come along with me." he added, lantern in hand. He scuttled down the gangway, Rebstock and Sawdy after him, stopped at the stall box, hung his lantern on a high gangway hook, unlatched the stall door, and pointed within. "There's your horse, Barney. Maybe I better give him a bit of oats before you go . . . No? Water, then?'

Rebstock and Sawdy had stepped into the stall with McAlpin. The liveryman led the horse out. Rebstock started to follow; Sawdy laid a hand on his shoulder. "Jus' a minute. I want to talk to you, Barney. We'll join you in a minute, Mac. Get out the black bottle. But leave the lantern."

"What's up?" asked Rebstock, eyeing Sawdy closely, and always suspicious.

Sawdy was standing backed against one side of the box stall. "Barney," he said in confidential fashion. "I'd like to have just a little horse-to-horse talk with you." "What d'you mean, horse-to-horse talk?" snapped Barney.

"Just this: Do you feel just exactly right, leavin' your money with Harry Boland?"

"What d'you mean

"Do you feel safe? I ask you as man to man, Barney, and an old ier, was esteemed among his fellows friend, do you feel safe, leaving a as one hard to corner. Sawdy held roll with Boland?'

Barney fumbled mentally. "Why shouldn't I?" he countered bluntly. Rebstock's eyes flashing green. Reb-"I'd hate to see you, after this stock wanted to get close enoughtrouble you've had, lose your money to Sawdy to cut him and jump with Harry Boland," persisted the through the door; but he feared the owman. "I'll tell you honest-and terrific grip of the cowman's finyou can tell the critter himself if gers on his wrists before he should

mation.

"No." "How much money are you leavin' with him?"

"None of your damned business, that's how much. I'm headin' up the street. Get out of the way."

I'm low Rebstock's eyes - part of the "Don't get sore, Barney. meanin' the best for you. Just wait time he could hardly follow his a minute an' I'll walk up the street jumpy steps. with you-gettin' kind of thirsty myself. Did you hear, Barney, about Bill Denison's place gettin' the stall like boxers stripped for the burned down?'

"I heard about a fire out that the fastest on his feet among the way - what about it?" demanded cowmen that rode the Gunlock Rebstock.

"Why, nothin' - nothin' at all. was naturally as quick as a flash, But, Barney, this is why I wanted and knew he was facing the most to talk to you: There's folks here dangerous man with a knife along in town that don't know you as the Spanish Sinks. Ten youthful

The fight was in the lap of the

gods. A misstep or a foot slip might end it any second. Sawdy was hoping his comrades secreted out in the tically. corral would hear the scuffle and come in. But he was just stubborn enough not to call for heip.

Barney enraged at his plight, was breathing hard, and wind was too precious to waste in words. This silent struggle for the one slight advantage that would end the fight went on to the music of jerky breaths and nimble footing. It was soon a question as to whose wind would give out first-Sawdy, heavier, was at a disadvantage in ensay you know a lot more about that durance. While they feinted and bill to my father-in-law after I get fire than you want to tell. I claim jumped about, his foot slipped.

Barney saw the opening. He ney's wrist. With a mere twist of the deadly grip learned long ago in Panhandle knife fights, he snapped pin, struggling along the gangway like matches the two bones of Barney's forearm.

The wiry outlaw screamed. He was through; the rear gangway you're heavier than a ton of bricks. doors were flung open, and the con. I can't hold on much longer." federates came running in from the

don't like to see an old friendship From the darkness of the box light rays within.

"Henry!" he yelled in alarm. 'What's a-matter, pard? What's wrong?" He unlatched the gate of the stall as he called and hastened inside with Scott and Page at his heels. McAlpin ran down from the office. It was a moment before Lefever could make out just what was happening on the floor, as Barney, half choked, writhed under the remorseless grip that closed his windpipe. Sawdy, spread out on his stomach, lay, a huge bulk, with one heavy breathing indicated life. "Henry!" exclaimed Lefever. "What the hell's happened?"

1939 — OUR ANNIVERSARY YEAR

Ground plans are already being made for the 50th anniversary celebration to be held in Muenster during 1939. On the grandest scale possible to our limited means we hope to present an impressive panorama of our pioneer days and the progressive steps taken since that time.

As usual at such occasions, one of the features will emphasize our town's development, a great deal of it the development made between 1937 and 1939. As harsh and traitorous as it seems, we must admit that, as a place to live, Muenster has made very little actual progress up to the present time. Compared with other cities, all of them younger and some of them smaller, we are hopelessly behind. Those cities have sewers, paved streets, trees, flowers, shrubs, parks, gymnasiums, affiliated high schools, swimming pools, theaters, active chambers of commerce, attractive business sections, and the dozens of other features that make a town better to live in.

Every one of those cities had to consider the very same problems that face Muenster today. They realized that the improvements required work and money, perhaps more than was in sight, but at the same time they realized that each improvement was needed. They set their minds first on achieving something, then began looking for a way.

Between now and 1939 there are dozens of projects, some large and some small, that Muenster would like to complete. It would like to have a park, hard surfaced streets, more attractive business houses, a sewer system, and many other items, all of them requiring the will to go on more than anything else.

Eventually we will have all of them, why need we delay now? With a will to go on we can find a way. We can start now the improvements that will be a source of comfort as well as a greater source of pride during our anniversary celebration.

OUR CHAMBER OF COMMERCE

We have a strange situaton at Muenster. Two weeks ago we adopted a fiveyear program for the development of Muenster and its surrounding trade territory. We drew up a list of objectives as a goal and began to visualize the wonderful fruits of our efforts. We're going to do this, that, and a dozen other things to make our town and our community an ideal home.

But who is WE? As blunt as that question seems, it has to be answered before we can hope to make a start. At the present time WE is everybody and no body. It is everybody in the community and no body in particular, and it will remain that way until we organize into something definite. We must form one definite group, set a definite goal, and employ a definite plan of action. We must select one or two leaders and pledge our co-operation in their every undertaking.

In other cities such organization exists in a chamber of commerce. At one time Muenster also had a chamber of commerce but for lack of interest it failed to survive. Muenster now has a program that stands

one that can inspire interest and co-operation in an active chamber of commerce.

As much as our men hate to admit it they are really being shown up by the women. Last week 100 invitations were sent out for the first meeting of the Ladies Civic League. Thirty-five ladies responded and organized what promises to become a mighty force in Muenster's forward movement. They elected officers, agreed upon a goal of achievement, and made their first steps toward the goal. They will get results because they have something worth while to work for, but the extent of their success will depend largely on the men's co-operation.

For the men to fail the ladies now would be an unpardonable sin. They must, out of loyalty and personal pride, form a kindred organization to help the Ladies Bengal Lancers, comes this glorious have you two been up to? Bill," he Civic League in its chosen work. In ad- adventure of the Scottish Highland- said suddenly, "you've been moving dition they must, or hide their faces in shame, not only keep pace with the ladies' progress but set the pace for them. Thus far the ladies are far in the lead.

WE means men and ladies alike. WE must work together in harmony to an end that will be helpful to all. One section of that WE is already in action. The other section, our Chamber of Commerce, we hope will be in the game soon.

MAKING COMMUNISTS

We Christians are becoming more and more alarmed over the spread of Communism but still we are slow to take the first and most important step to check its growth. Communism is thriving on a promise that has been offered through the ages by Christianity, but in late centuries, and even more so in the late decades, the world has been wondering whether Christianity has not failed.

A drowning man will snatch after a straw. Likewise our civilization today, sinking deeper and deeper in the present day turmoil that threatens total destruction, grabs after the meagre straw of hope in a Communistic system.

Before going any farther it is well for us to realize that Christians, and not Christianity, are at fault. Or perhaps it would be better to say that so-called Christiansfor they no longer practice the virtues encouraged by Christ-are causing all the turmoil. With starvation amidst plenty as we see it nowadays it is apparent that the old ideas of Christian charity have been discarded. With industry exploiting labor to the end that honest workers do not receive a fair wage one wonders what has happened to old standards of justice. Brotherly love also seems to have gone on the rocks with political developments among individuals and nations.

There can be no doubt about it. People who profess to be Christians are themselves providing the most fertile soil for the seeds of communism. It matters not that communism has failed and is still failing in many localities. Civilization nowadays is altogether too much aware of conditions in our so-called Christian system. Is is surprising that they look to another system for relief?

Communists are not born, they are made and we, indirectly, are making them. The Creator favored all men with natural tendencies toward love, justice, kindness, and a belief in God. By our action in recent years we have done everything to break down those virtues. Under such conditions is it surprising that men rush blindly into a new system? That it has nothing to offer does not occur to them in their confusion. They are merely grabbing after a straw, hoping that it will save them.

"I hope the officers will by word and example, endeavor to check any cursing or swearing, and that everyone in the army will realize that we can have little hope of the blessing of heaven on our arms if we insult it by our impiety and folly. Added to this, it is a vice so mean and low, without a temptation, that every man of sense and character detests it."-George Washington.

A gentleman is one who thinks more of other people's feelings than of his own rights; and more of other people's rights than of his own feelings.-Matthew Henry Buckham.

Carpy picked up his bag. He was not been put into effect. part way down the corridor when he was waylaid by Lefever.

(To Be Continued)

Farmers May Get \$3,500,000 By Decision

Washington, Aug. 5.-The United States Court of Appeals held today that 100,000 cotton producers were entitled to more than \$3,500,000 in refunds for cotton tax exemption certificates they bought under the epealed Bankhead act.

The court said the cotton farmers vere coerced to buy the certificates under threat of a confiscatory tax.

The Bankhead act was repealed after the Supreme Court invalidated its basic principles in holding the Agricultural Adjustment Act uncon

The Court of Appeals ruled on suits brought by two Alabama and two Mississippi cotton planters against Ernest L. Deal, manager of the national surplus cotton tax exemption certificate pool; Secretary of Agriculture Wallace, W. A. Julian, treasurer of the United States, and Comptroller Payne and Administrator Davis of the defunct AAA.

The Bankhead act was passed by Congress "to place the cotton industry on a sound commercial basis, to prevent unfair competition and practices in putting cotton into the channels of interstate and foreign com-"Bill, you're a blamed liar. You merce, to provide funds for paying lifted it to look at this girl-didn't additional benefits under agricultur-

The act was limited to the crop "How do I know, doctor?" asked year 1934-35 and fixed the quota for that year at 10,00,000 bales, im-"Bill," he said, sitting down by posing a \$25 per bale tax on all cot-

"Doc, I'll confess, I couldn't see Tax Session Will Be Started in September

Austin, Aug. 5.-The tax session of the Texas Legislature will start "early in September." Gov. James V. Allred told newsmen today.

He anticipates at least one full session for tax measures, and perhaps two, followed by a session on public utility regulation.

The trouble has been, the governor observed, that the four months' regular sessions have been "one long filibuster," which is the reason platform demands of the party have

For 10 years, he said, this has prevented utility legislation.

HIGH-POWER PERFECTION in modern design

COME in this week and see this smart new Perfection oil range in cream-white, or pure white por-celain enamel finish. A large, "Live-Heat" oven and five fast, clean, High-Power burners make it just as good as it looks. The concealed oil reservoir, holding two gallons, is easily removed for filling. The moderate price will be a pleasant surprise for husbands.

IN circulation nowadays is a rumor to the effect that this community will soon have the opportunity of witnessing some really simplified cotton farming. A man who is supposed to have rented a farm for next year states that he will have a flock of 80 geese to clean out all the grass while he leisurely sits in the shade and whittles. We laughed it off as a fairly good yarn, but after hearing that the scheme has been successful elsewhere we are wondering whether we will have to laugh out of the other side of our faces. To say the least the idea, if it works, should be a dandy. Besides saving a lot of work it would provide additional income from the sale of cheaply fed geese. Nevertheless we are still wondering how the geese can be trained to plant and pick the cotton.

A slight idea of freedom in Germany: A theater owner advertised a special feature with an offer of 5,000 marks to the person who did not like it. The house was packed but no one claimed the money. The feature was a picture of Hitler.

Henry Ford and Andy Anderson old as Henry or whether Henry is Hood 4. one year less than twice as old as Andy. Would it make a difference?

We've heard lots of talk about the dumb Indians who sold Manhattan Island for \$24. Those Indians were not the dumb onesthey did not own the island. Before Peter Minnit got a title to the land he had to buy it again, this time from the rightful owners.

A roadside sign in Normandy reads, "Pasture Your Horse Here. which the outcome was almost as-Short-tailed Horses 10c a Day; Long-tailed Horses, 20c a Day." did not run into monotonous top-Asked to explain the distinction, a heavy scores. Leo beat Bulcher 7 local peasant answered: "A short. to 1, and Muenster beat Myra 7 to 3. tailed horse is bothered more by flies. To shake them off he has to boost her percentage Tuesday night use his head and while he's doing but fell one point short when the that he cannot eat. A long-tailed Hood club nosed out at the long end horse can handle the situation with of a 7-6 count. his tail without lifting his mouth from the grass."

Tid - bits of comment from Shorty's place-Wanted: One hair cut, size 6%. See Shorty Herr. Quoting Stan Yosten: "Flash! Ferd has just completed a grille and fender job on his car; he is now ready for another wreck."

As far as is known the record trip of a grasshopper is 145 miles. Not long ago an entomologist smeared a yellow tint on a hopper then turned it loose. Several days later the little creature was found 145 miles away. Aside from providing information the hopper demonstrated how his kin can become such a widespread nuisance within a comparatively short time.

A local mechanic got a new idea in pig-trading Tuesday. He accepted the buyer's figure and then accepted a dollar for the buyer's option. Upon finding that his partners did not like the deal our hero was very much distressed when said buyer declined to release his option for less than two bucks.

A news report reveals that Idaho. a playful puppy on trial for his life a year ago has just completed his first year's sentence. At the time of the trial comment arose all over the Nation, dog lovers were full of sympathy as were hundreds of plain sensible people who were shocked by the pitiful simplicity of men who would place a dog on trial, hold it responsible as though it possessed an intellect and free will. By their action those men would place men and dumb brutes on the same level, an action to be accepted as an insult if it did not come from such shallow minds. It is interesting to

note also that public officials would spend hundreds of dollars of taxpayers' money on a thing so ridiculous as a dog's trial.
