A treat for people who appreciate fine motorcycles was a gathering of some 200 machines reporting at a check point here Sunday in a motorcycle rally sponsored by the Wichita Falls Roadrunners. Muenster was one of five checkpoints in North Texas visited by the tour.

The bikes invariably were deluxe models loaded with accessories and comforts, some with trailers or sidecars, the last word in motorcycle luxury.

Picture left in the right hand photo is Bud Smith of Wichita Falls, check point supervisor. With him is Michael Karadimas, president of the Road and Track Motorcycle Club of Dallas. Thirty to forty clubs participated. A club's object is travel, fellowship, and trophy activity.

After many years of observing the international mischief that goes on in United Nations, we think that Secretary of State George Shultz had the right idea in threatening to walk out of the UN General Assembly if that body carries out its idea of expelling Israel.

Millions of Americans have a belly full of UN. We're fed up with its pro-communist leaning and especially with its hostile attitude toward free people and its constant opposition to US interests as well as its support of Soviet objectives. The attitude is obvious. UN favors the take over of our country and our friends by the Red Monster. All of which helps to explain why so many Americans are saying Get US out of the UN and UN out of the US.

As much as this slogan appeals to us, we have to admit that it is unwise. Regardless of all shenanigans, we should understand that we serve our interest better by keeping in touch than by avoiding the trouble makers. No matter how much it hurts, it's better to know where we stand. Besides, there must be times when we can get vital information faster through the UN.

Likewise, as a matter of aid to friends it's better to be in a position to help, as in the present Arab hostility to Israel. So, regardless of official UN policies it seems wiser to use UN to our advantage when we can, and to avoid a complete break.

However, in principle the idea deserves serious thought. As Secretary Shultz said, if Israel is kicked out US will walk out until UN comes to its senses. At the same time it will stop paying its dues, which amounts to about 25 percent of the organization's budget, as well as big payments toward support of other UN projects. Imagine, there are 157 member nations in the UN, most of them hostile to us and each having the same voting power we do, but still all of them combined pay three times as much as we do.

Also, we should remember that some have manipulated for more than their fair share of voting power. Russia, for instance, divided into five provinces when joining and has five votes compared with one for US.

Considerations like these convince us that a break with UN is fully justified even though it doesn't serve our best purpose. However this is an occasion to assert rights and justice. Why not get tough and tell UN we insist on paying no more than our share of the dues and that we don't like our country's millions to have no more representation than countries of a few hundreds or thousands. To say the least US should insist on a better deal than it is getting with the UN.

## Improvements at 82 Liquor will be shown at Grand Opening

A grand opening of Wimmer's 82 Liquor this weekend will show extensive improvements and expansions plus additions of several new lines of merchandise.

Ray and Kaye Wimmer, who have owned the business since July 1, have enlarged their floor space from 1000 to 1600 square feet including a 25 percent increase of shelf space and enlargement of walk-in refrigerator space to three times its former size. Other items of the

project are new wall paneling, a lowered ceiling, new carpet and central heating and air conditioning.

The increase of space provides for a number of additions to the store's stock of merchandise. In the beer department there are new brands, principally imports and additional packages of brands already stocked. In the wine there are about 50 additional varieties, also including imports. Also, keg beer is added and the selection of liquors is enlarged.

## Blood drive yields 95 pts.

With a total of 95 pints, Muenster got close to its goal at the three-a-year blood collection Wednesday conducted by the Red Cross blood center of Wichita Falls. On the basis of effort it met the quota. Over 100 came to give, but some could not be accepted because of physical condition or medical history.

Two gallon donors were in the group. Sharon Wolf completed her second gallon and Chuck Bartush completed his first.

The blood collected here becomes a part of the central supply furnishing fresh blood to a large number of hospitals in North Texas and South Oklahoma. All draw

on it as needed and all conduct drives to supply the blood bank.

Members of the hospital staff and the hospital auxiliary were there to help the blood bank personnel make their collection.

Hospital personnel were Lynda Yosten, Gwen Carroll, Herman Carroll, Jean Haverkamp, Della Hellman, Lanie Bartush, Shirley Endres and David Bright.

Auxiliary personnel were Juanita Bright, Cecilia Wimmer, Dolores Miller, Louise Wimmer, Frances Bayer, Mary Lee Hennigan, Carolyn Bayer and Cheryllyn Bayer.

## Good News

Isaiah 54: 15-17

Should there be any attack, it shall not be of my making; whoever attacks you shall fall before you.

Lo, I have created the craftsman who blows on the burning coals and forges weapons as his work; it is I also who have created the destroyer to work havoc.

No weapon fashioned against you shall prevail; every tongue you shall prove false that launches an accusation against you. This is the lot of the servants of the Lord, their vindication from me, says the Lord.

## Officer Stovall nabs 3 robbers

Less than a half hour after three robbers held up the Johnny Schmitz barbecue place on I-35 across Red River they were under arrest in Muenster. Policeman Robert Stovall nabbed them while they were buying gasoline at Bayer's Kolonialwaren.

As related by Stovall, the trio, who stated they were from Kilgore, used a sawed off shotgun in robbing the Schmitz place about 6:30 p.m. on October 13. Police were alerted immediately

and their car described as a 1973 Plymouth with a Colorado license.

Apparently too early to be caught by road blocks at Gainesville, they were spotted about 6:50 by Stovall filling their car at Bayer's. He drove up close behind the man filling the car (the driver) told him he was under arrest for the Oklahoma Hold-up, and ordered a woman and a 15 year old juvenile out of the vehicle. The weapon was beside the woman on the front seat

but she made no effort to use it. Stovall confiscated the loaded gun and recovered \$160 which had been stolen.

He then notified the Cooke County Sheriff's Department which sent a vehicle to take the prisoners to the county jail where bond for the adults was set at \$50,000 each. Since then extradition has been waived and the trio has been transferred to the jail of Love County, Okla.

## The Owner's Manual

By Larry Tisdale DVM

Did you ever do something to help your church or to help carry on God's work here on earth, perhaps a job such as janitor, carpenter, cook, Sunday School teacher, vacation bible school teacher, etc., and nobody seemed to notice or care or even said thank you? If so, don't worry about it. The Bible says we're not to work to please man but to please God.

I Corinthians 15:58 states, "Therefore, my beloved brethren, be ye steadfast, unmovable, always abounding in the work of the Lord, forasmuch as ye know that your labour is not in vain in the Lord." We are to be steadfast and unmovable; not fickle and hot one day and cold the next. We should not be on fire for the Lord one day or for one project and then clam up and draw into our shell and not want to put out any energy to carry on with other projects that the Lord would have us do in the following days or weeks. But we are always to

"abound in the work of the Lord" or to keep on doing His will.

We are to keep on because we know that our work is "not in vain in the Lord." We know that the Lord sees and knows what we are doing in this present age. Because of this, a firm belief in the resurrection and a solid hope for the future gives incentive for service right now. A Christian's labour "is in the Lord." All that he does is in Christ's strength and for Christ's glory.

The story has been told that Verdi, renowned musician from the last century, always received great applause for his performances. Those who watched him closely said his eyes always traveled upward to the box where his tutor sat. He did not react to the applause until he could see if his teacher was applauding also, then and only then did he smile and bow in acceptance of the clapping. What a lesson for Christians! What good is the world's acclaim if our

Master is not pleased. We need to labor for His praise and His alone...for then and only then may we celebrate our work well done.

Paul says in Galatians 1:10, "For am I seeking the favor of men, or of God? Or am I striving to please men, I would not be a bond servant of Christ." We would all do well to have this kind of attitude which Paul had. If you have dropped out of church, are no longer worshipping with fellow brothers and sisters in Christ, or have stopped doing some of the works which you know the Lord has called you to do because you have not received the recognition from your fellow man that you think you deserve, then let me encourage you to once more begin to do the works which God desires because our main duty is not to "seek the favor of men" or to "strive to please man" but to do the will of our Father which is in heaven.

## NFIB honors Stenholm voting record

Rep. Charles W. Stenholm has earned the "Guardian of Small Business" Award—and an endorsement for re-election—from the National Federation of Independent Business (NFIB) for his outstanding voting record on small-business issues.

The nation's largest small-business group presented Stenholm with the award because he voted with a majority of NFIB members 95 percent of the time.

On announcing the award, NFIB President Wilson S. Johnson said, "The voting record of Rep. Stenholm this Congress demonstrates that he is responsive to the needs of his state, because small businesses create the majority of new jobs and if

left to flourish, will be a major factor in restoring economic growth."

House members were rated on 22 recorded votes during this session of Congress. Issues ranged from cutting the budget to raising unemployment taxes and forcing the government to pay its bills on time. Those members of Congress who did not have recorded votes on at least 70 percent of the issues included in the ratings were not eligible for the award.

NFIB is a non-profit, non-partisan organization representing 45,622 small-business owners in Texas and more than a half-million independent businesses across the country.

## Letter to the Editor:

Dear friends,

As a memorial, to our father and husband, Ray Hess, money was given to an organization called World Vision.

We would like to give you an explanation of the work they do.

World Vision was started 32 years ago by Dr. Bob Pierce. It is a non-profit, interdenominational organization concerned for the physical and spiritual needs of people throughout the world. It is dedicated to serving God by ministering to children and families, providing emergency aid, developing self-reliance, furthering evangelism, strengthening Christian leadership and challenging Christians to become involved in missions.

We will use the money for part of their work, which is supplying children with food and clothing. We will be sponsoring one child from Japan. We have sent in \$855.00. We would like to thank each and everyone who has a part in this Memorial.

## Senator Glasgow on the proposed amendments

Herewith is another article by Senator Bob Glasgow outlining pros and cons on constitutional amendments which will appear on the Nov. 2 election ballot.

Amendment No. 3 "The constitutional amendment exempting implements of husbandry from ad valorem taxation."

This amendment proposes to exempt from ad valorem taxation implements of husbandry used in the production of farm or ranch products.

In 1981, the Legislature amended the property tax code to provide "an individual is entitled to an exemption from property tax on implements for farming or ranching that he owns and uses in the production of farm or ranch products."

The Constitution presently allows the Legislature to exempt from ad valorem taxation "the personal property homestead of a family or an adult." Personal property homestead is defined in the Constitution as the personal property of a family or an adult that is exempt from forced sale for debt. There is an exemption ceiling on personal property for a family of \$30,000 and for a single adult \$15,000. An Attorney General's Opinion held that this limit applied to the exemption of

farm implements. Thus the necessity for the Constitutional Amendment if all farm implements are to be excluded from the property tax.

Also, the Attorney General's Opinion held that the exemption applied only to the property of an individual and not to farm partnerships or corporations.

This proposed constitutional amendment would remove the \$30,000/\$15,000 ceiling and make the exemption available to all engaged in farming - individuals, partners and corporations.

### ARGUMENTS For:

1. The proposed amendment promises partial relief for economically hard-pressed farmers and ranchers without serious adverse effect on local governments' tax bases.

2. Taxing agricultural equipment and machinery often is barely cost-effective because of the disproportionately high expense of locating the property and assessing and collecting the tax.

Against: 1. The voters have amended the constitution twice since 1979 to give tax relief to farmers and ranchers—expanding eligibility for favorable methods of valuing agricultural land

and totally exempting from taxation livestock and poultry in the hands of the producer. Additional tax relief for farmers and ranchers is not needed.

2. It is trite but true: a tax exemption merely shifts part of the tax burden from the beneficiaries—farmers and ranchers in this case—to all other taxpayers. Owners of homes and businesses, among others, will have to pay for the proposed exemption through higher property taxes.

Amendment No. 4 "The constitutional amendment authorizing the legislature to provide terms of office not to exceed four years for members of governing boards of certain water districts and other conservation and reclamation districts."

This proposed amendment would authorize the legislature to provide by law for members of governing boards of water districts and other conservation and reclamation districts to serve terms not to exceed four years.

The Constitution presently provides that terms of office for governmental officers may not exceed two years unless the Constitution expressly provides for longer terms. There is no provision in the Constitution that expressly provides for directors of water districts and

other conservation and reclamation districts to serve terms longer than two years. In recent years, elections of members to governing boards of these districts have been characterized by low voter turnout and large financial costs. This is particularly true of districts that serve primarily rural areas.

### ARGUMENTS For:

1. Under current constitutional provisions requiring two-year terms for directors, districts are required to hold directors' elections every year or every two years. The frequency of these elections places a severe financial burden on some districts, particularly those in rural areas. The adoption of four-year terms would allow districts to reduce substantially the cost of directors' elections by holding the elections less frequently.

2. Voter interest in many water district and other conservation and reclamation district directors' elections is very low. It is alleged that part of this voter apathy results from the frequency of elections. The adoption of the proposed amendment would provide less frequent elections, which should generate more voter participation.

3. A two-year term is a very short period in which to develop expertise and efficiency on the part of mem-

bers of a governing board. Adoption of up to four-year terms would allow members to serve long enough to become familiar with the operation of the district and to contribute to more knowledgeable and efficient administration and decision making.

1. Even though directors' elections may be of considerable expense to a district, the financial cost to the district cannot be as great as the value to the voters and taxpayers of assuring that members of the governing board will be responsive to their needs and desires through frequent elections.

2. There are times when a member of a governing board does not adequately serve his district because of illness, lack of interest, or incompetence. Frequent elections to brief two-year terms provide the voters with a means to assure that those persons unable or unfit to serve on the board can be expeditiously replaced. Adoption of four-year terms will seriously reduce this power of the voters.

3. Water districts and other conservation and reclamation districts have operated since the turn of the century under the two-year term limitation for directors and do not appear to have suffered any major negative effects as a result of

the limitation. Therefore, the adoption of four-year terms would not seem to be vital to continued efficient operation of these districts. (A special thanks to the staff of the Legislative Council for the research and development of the pros and cons on this amendment.)

## Dr. Dan Dotson of Graham runs for State Senator, District 30

Graham physician Dan Dotson, M.D., candidate for State Senate District 30, announced his candidacy today.

Dotson has been in general practice in the north Texas (Young County) community for 10 years.

Running as a Conservative-Libertarian, Dotson said "the capitol in Austin swarms with special-interest groups seeking special legislative favors from legislators who were put in

office by the campaign contributions of the same groups. The individual citizen and taxpayer continually loses under these circumstances. There is virtually no one seeking to limit

the overall size or influence of government, since public power is treated as a commodity to be bought and sold, and neither buyer nor seller wants the situation changed."

As usual in opposing evil, a certain amount of sacrifice is required. It can come only from candidates who are willing and able to

serve without expectation of under-the-table gain and voters who will act conscientiously without the prodding of big media mouth with big money."

Dotson is a native of Dallas, a chemical engineering graduate of Rice University, Houston, and a medical graduate of Southwestern Medical School, Dallas.

## Scout Fun Fair will be November 13 in Ft. Worth

Cub Scouts of Pack 664 will be participating at the annual council-wide Scout Fun Fair on November 13, at Tarrant County Convention Center in Fort Worth. All troops and packs can participate by setting up a booth or display which the boys have to operate. Booths are judged and awarded ribbons.

Last year Pack 664 Cub Scouts came home with the highest award given, the "Presidents Award," which they proudly display on their pack flag. In order to compete, the boys must sell tickets of which the pack receives a commission and earn prizes according to the number of tickets they sell. Price of tickets is \$1.00. This year the pack is giving a top salesman award to the boy

who sells the most tickets. The selling of tickets is believed to teach the boys the importance of trustworthiness and accountability. By participating in this big event they get to see what other boys their age are doing. Chairman for Pack 665 is Cubmaster Lupe Evans, with committee members Sharon Walterscheid, Judy McDaniel, Paula Reiter, Shirley Knabe and den leaders, Mil Biffle, Kathy Sicking and Patsy Bayer.

## Robert Gremminger returns from 5-months back-pack European hike

Back-packing for more than five months in Europe, walking mostly, taking a train rarely, was an experience with memories to last a lifetime, a trip to evoke the envy of folks who look forward to even one week's vacation, and was the good fortune of Robert Gremminger.

He returned recently and spent two weeks in Münster visiting his grandparents Mr. and Mrs. Victor Hartman and Ted Gremminger, Sr. and other relatives. He has returned to his home in Denver where he is visiting his parents Ted and Katherine Gremminger.

After a 5½ month walk through Europe he is frequently asked: "How are your feet?" and he answered "Well, my hiking boots took a beating. I wore out two pairs."

Commenting on his mode of travel, Gremminger said "this was an adventure of a lifetime, with the added luxury of never having to meet a deadline or time schedule...the luxury of just buying a map, selecting a point and just going there." He said he worked for a year to finance his trip. His brother, Wayne, made a similar trip about 5 years ago.

On April 26 he flew from New York to London and

spent a week there with a cousin, Wilbert Vogel and toured the English countryside while waiting for the airline to find his well-equipped back-pack, lost in transit.

In Brugge, Belgium he toured the most medieval city in Europe, spent some time in Amsterdam, and returned to Brugge on Ascension Thursday, happening upon a religious parade that re-enacted Biblical scenes. This is an annual event.

He visited many areas of Germany, coming in and out several times during the five months; the first visit was to the Moselle Valley, the vineyards and the verdant green countryside. He then spent a day and night in Luxembourg and a week in Paris. Meeting new people, he said, was even better than the travels. He became acquainted with people from Japan, India, Brazil, Africa, etc., who were traveling in Europe much the same as he was.

He said he found Parisians very aloof, not at all like Belgians and Germans and Frenchmen in the rural areas who were friendly and eager to talk.

While hitch-hiking, he said he met a family who offered him a ride, invited him to their home for a week,

took him wind-surfing, and sight-seeing to the coast. In Nice, another family gave him a ride, invited him for dinner and breakfast and gave him a chance to wash his clothes. He wrote extensive letters to his parents, enabling him to keep a sort of diary.

In Lourdes he visited the grotto and shrine, nestled in green hills and a valley, and attended the inspiring candle-lit procession. But he said he was disappointed by the rows of tourist and souvenir shops in the town.

In Spain, Gremminger toured Pamplona, the northern city in the Basque Country, but he said he was keenly aware of the unrest and frictions there.

He said he especially enjoyed the seafood in Spain, and, since he spoke Spanish, could converse with people more often, whereas in some countries he relied on others' ability to speak English. In Spain he met a student from Münster, Germany who was there to learn the language by traveling as he was.

During the month he spent in Spain he met other groups of students who were studying the language, and with them he visited a home in Majorca. He hitch-hiked "all over Spain, the best way to meet people", but "sometimes there were long, hot waits in the sun, to catch a ride."

As the European tour continued, he hurried to Venice, "a fabulous city with tourist enchantment...there's no other place like Venice, no streets for cars...you either walk or ride in boats. It is like an island with ancient buildings and a skyline packed with towers and domes and cathedral spires."

Gremminger said he took a crowded train through Yugoslavia enroute to Greece, where "it was fun to see all the famous places, but more fun to meet people." One night he camped on a hillside and just below was a band of gypsies with their stirring music. "But" he said "I listened from a distance." Regretfully, he remained in Greece only one week, but especially enjoyed traveling on the Peloponnese

ROBERT GREMMINGER

"Island" since the tourist season was over, and the few could enjoy the picturesque hills and houses.

He went to Italy by boat, to make Pompeii his first stop and went on to the small town of Ercolano to be nearer Mt. Vesuvius. His guide was a 14 year old boy who is a pen-pal.

He said Rome is packed with things to see, and he spent as much time as possible at the Vatican. The sculpture, Pieta, is so awe-inspiring as to lead viewers to gaze for hours; and the mosaics in St. Peter's are marvelously beautiful, with the practical advantage of being virtually indestructible and certainly will not deteriorate with age as some paintings do.

Following Rome, he went to Florence, Italy, Europe's most artistic city, where his special goal was to view Michaelangelo's massive statue of David. He was impressed with the enormity of the city of Milan, which was much cleaner than many other cities. There his special goal was to view da Vinci's Last Supper. He said "I guess I gazed at it for a half hour."

"But", he said, "for beauty Switzerland takes the cake." Perpetual snow on peaks; lush valleys; lots of waterfalls plummeting a couple of hundred feet defy description.

Four languages are spoken in Switzerland; all instructions and directions are given in 4 languages. For a week Gremminger was a guest of a family in Switzerland who had friends in Denver. Afterwards he went by train back into Germany to spend a week in Munich with friends and was privileged to meet citizens of Dorfen, in Bavaria. There he attended a Folkfest, saw and learned about real, authentic, traditional celebrations and good food.

He visited in Salzburg Austria and saw scenes reminiscent of "The Sound of Music," and the famous Von Trapp Family Singers. What he enjoyed most about Vienna was the architecture and the music; and the lights and fountains which, like those in Paris, were incomparably beautiful. He heard Strauss music everywhere, but he said the Danube is no longer blue, but dirty.

He spent one day in Nuremberg, noting that most of the bomb-damage has been re-built by American and English influence. Heidelberg, which was never bombed, is still picturesque and very beautiful. In West Berlin he saw where heaps and mounds of bomb damaged rubble had been moved out of the

city to make room for reconstruction. One huge rubble heap now called Devil's Mountain is now topped by a radar station.

In Frankfurt, he stayed with a family who also had friends in the States and it was them that he accompanied to Heidelberg. After traveling in the Black Forest he visited Strasbourg and then Münster, Germany and back to Berlin for another week, because, in Münster he met a friend who sent him to relatives in Berlin. "I was always lucky meeting people!" he said.

In the northern part of The Netherlands the tourist season had ended, so there was time and opportunity for leisurely walking on flat land, extremely flat, called the "pool table of the world." He walked and walked through dairy country and also visited an island in the North Sea, off the coast of Holland. He returned to Amsterdam for a second visit before returning to England, where it was particularly easy to hitch hike to London and another visit with Wilbert Vogel.

On September 27 he returned to New York and then came to Texas to visit relatives.

### 94 Henscheid kin gather in Muenster for weekend

Ninety four descendants of the late Henry Henscheid, Sr. and Christina Langenfeld Henscheid gathered in Muenster during the past weekend for the first reunion held here since 1961.

They all attended a dinner Saturday evening in the luncheon room of the Community Center, catered by the SHS luncheon personnel.

An evening of singing, reminiscing, getting acquainted with cousins not met before, renewing friendships with others and listening to music added to the delight.

Family members came from Washington, Montana, Idaho, Utah, Arizona, Iowa, Missouri, Mississippi, Oklahoma and Texas.

The relationship attended the 11 a.m. Mass in Sacred Heart Church Sunday morning. Wayne Klement, a grandson of the Bill Henscheids, gave the introduction and Rita Pels, a granddaughter of the Albert Henscheids played the organ. Bernard Henscheid of Blackfoot, Idaho, a son of the Henry Henscheids, Jr. sang and Ray Henscheid of Pocatello, Idaho, also a son played the clarinet that once belonged to his grandfather Henry Henscheid, Sr. The elder Henscheid was a member of the first men's choir at Sacred Heart Church and also of the Muenster Band.

Also participating in the Liturgy Sunday were Dolores, daughter of the Albert Henscheids and Herb Miller, at Communion and Mrs. Chris Cupit of Dallas, daughter of the Joe Hesses, who gave the Readings.

At noon, the Herb Millers hosted dinner at their home for the reunion.

Many of the group toured the old Henscheid homestead, north of town, on Sunday afternoon, and

were greeted there by Mr. and Mrs. Alfons Koesler, Jr. present owners, who graciously opened their home on Saturday also, for guests arriving early.

Henscheid grandchildren recalled memories of many delightful visits to the farm in their childhood and teen years.

Henry Sr. and Christina Henscheid, coming from Iowa, settled in Muenster in 1891 on that farm, remaining there all their lives. They reared eleven children: John, Bill, Henry, Joe, Albert and Leo Henscheid and Katie Henscheid Yosten, Anna Henscheid Derichsweiler and Christina Henscheid Hesse. An infant died in Iowa before the family moved to Muenster. Included in the family relationship are 63 grandchildren (33 attended the reunion); 273 great-grandchildren and a number of great-great-grandchildren.

Some of the relatives departed for their homes late Sunday; most left Monday. Those remaining Monday visited about town, and toured the Jr. Elite Dress Factory where their guides were Bernice Sicking and Alvina Voth. One of the guests mentioned that Jr. Elite garments are available in her home town of Phoenix, Ariz. in a store where she is employed; and another recalled that, prior to 1940, Richard Fette, Buster Herr, Spike Yosten and Ferd Yosten were employed in Idaho by Henry Henscheid, Jr. in the harvests.

Mrs. Florence Henscheid Ellsworth of Black foot, Idaho, and some of her Muenster cousins also visited at St. Richard's Villa with Mrs. Jenny Schilling. Mrs. Schilling's father, Mike Sieger was a brother of Lawrence Sieger, grandfather of Mrs. Ellsworth. She carried with her a picture of the six Sieger brothers and was delighted to find a similar picture belonging to Jenny Schilling. It was generally agreed throughout the reunion weekend that "It's a Small World!"

### Herb Knabe honored on birthday

The decorated birthday cake was made by a sister-in-law, Mrs. Pat Knabe. Display of gifts and table games followed the meal.

It takes 32,000 miles of Lone Star pipeline to deliver the gas you need. Manager of Construction Services Bill Becker is one of more than 4,000 Lone Star specialists who keep this system efficient—and growing.

## Lone Star people help keep gas first in efficiency.

Efficiency alone can't solve the problem of rising gas prices. We're buyers of gas, like you. And deliverers. Gas that cost us 18 cents in 1972 cost \$3.46 in mid-1982. And the cost can go up every month.

However, we can control part of the gas bill you pay. We do it by getting gas from the wellhead to you as efficiently as possible.

It's one of the biggest delivery jobs in the nation. It involves over 4,000 Lone Star people, 32,000 miles of pipeline and a huge investment in transmission, distribution and processing facilities.

Yet all this accounts for only about 15% of your gas bill. The other 85% is the cost of gas itself.

Efficiency alone can't solve the cost-of-gas problem. But it keeps the problem from compounding.

## Tigers nip Trinity valley 19-0

Loose ball. Tigers scramble for this Trinity Valley fumble but to no avail. A Trojan got there first, and dis-

pointed Tigers were Wade Walterscheid 26, Mike Bar-tush 65, and Troy Yosten, 89.

Sacred Heart's Tigers had it all their way at Fort Worth Saturday night in rolling over Trinity Valley's Trojans 19-0. The contest was as one sided as the score as the SH boys made a total of 324 yards, including 209 in the air. Meanwhile the hosts had to settle for only 74 yards. The win brings up the Tiger record to 5-1.

highly pleased with their total yardage, which included 104 in passes and 49 in rushes by Darrell Herr, along with 44 yards in passes by Curtis Henscheid and 19 by Duane Haverkamp plus 40 rushing yards by Wade Walterscheid.

Though appearing to make an early start with 38 yards on six plays Sacred Heart stalled on the third series and punted but started again after the Trojan kick on first series. Then, with 43 to go, they made their drive in 13 plays. The pay-off was a 15 yard pass, Neil Hesse to Mike Dangelmayr. Curtis Henscheid's kick upped the count to 7-0 with 10:19 remaining in the quarter.

The Trojans bounced back with 28 yards of gains in six plays but failed on the third series, losing possession on the Tiger 23. That's where Darrell Herr took a screen pass from Hesse and sprinted 75 yards to pay dirt. The PAT kick missed. Sacred Heart led 13-0 at 5:51.

The remaining time of the half was a standoff. Except Herr's 13 yard gain, neither team made a first down.

The Tigers started the second half by allowing a blocked punt on first series. That gave Trinity Valley a set-up with 25 to go for the goal, but the next series fell short by a yard, after which Sacred Heart started the other way from the 16. Two series gained 26 and the next ended in a kick, but again the Trojans could not go and had to punt, and the Tigers made another start at their 25.

The next SH drive, including a 30 yard pass to Curtis Henscheid, gained 41 yards to the Trojans 34 and failed on the next series at the TV 31 as the last quarter opened.

At that point the Trojans did their best of the night. They drove 40 yards to Sacred Heart's 29 and ended the fourth series with a kick, setting the Tigers back to their 18.

Tigers tried to move again but their drive was suddenly halted by an interception after gains of 61. However Trojan success was short. Two plays later Darrell Herr intercepted at the 25 and returned all the way to pay dirt. A run for extra points failed. SH led 19-0 at 3:34 from the end.

A fumble recovery by Floyd Trubenbach put SH in charge for the rest of the game, and they advanced to the Trojan 4 yard line.

Coach Virgil Henscheid praised his boys for super defense, but noted that their offense broke down a few times. Nevertheless he was

### Sacred Heart Tigers host Cistercian Friday

With visions of marking up their sixth win of the season, Sacred Heart's Tigers are busy this week getting set for their game here Friday night with the Cistercian Hawks. The game is booked for 7:30 following the 5:30 junior high game with cistercian.

As seen by Coach Virgil Henscheid, the pre-game signs indicate an even contest in which the visitors will have a weight advantage and the Tigers will have the edge in speed and quickness.

Another factor which is

encouraging to the coach is the team's super performance last week featuring a solid defense and the best passing game of the year. A few offensive plays went sour, he said, but generally blocking was good and so was the rushing. Considering all, he expects a close contest but is also confident.

Regarding physical condition, all are fine with the possible exception of Ricky Hennigan who is favoring a shoulder injury. He rates as questionable for this game.

Darrell Herr, came to a sudden halt when sandwiched by these Trojan defenders. Another identifiable Tiger is Wade Walterscheid 26.

# Hornets upset Valley View

Wayne Carroll, the smallest player on the field, performed like a giant last week as the biggest factor in Muenster's 20-7 upset of the Valley View Eagles. He returned a punt for 67 yards and a touchdown, he received a 44 yard touchdown pass, and he intercepted two Eagle passes. Furthermore he did his share of the teamwork as the Hornets turned in their best all around game of the season. They were sharp on defense and gave up only one turnover.

Statistically the game was closer than the score. Muenster led 12-9 in first downs and 214 to 152 in rushing yardage but lagged behind 77 to 58 in passing. Muenster had the better record in turnovers by a count of 3 to 1.

With the win Muenster has a season record of 3-0-1 with a possibility of taking the district lead in its meeting with Lindsay this week. Lindsay now stands at 4-0.

The Eagles, now 2-2, were rated as early season contenders for the title, and were favored over Muenster in last week's game. And a single big play late in the first period made the predic-

tion look good. After holding the Hornets on their first drive, the Eagles sprung Tony Jones through the middle on a 71 yard scoring gallop. The clock read 4:22 as Warren Dyer's kick upped the score to 7-0.

Opening the game, the Hornets made three first downs and stalled on the fourth series. Kevin Felderhoff tried to salvage the drive with a 47 yard field goal attempt, but missed. So Valley View took over on its 30 and scored on first possession.

After that three Eagle penalties helped the Hornet drive but it bogged down on third series and ended in a kick. Jones promptly stepped off 19 but the Eagles had to punt on the next series. Muenster responded with 5 by Ronnie Fisher and 39 by Carl Sicking to the Eagle 31, but a fourth down fumble on the next series gave Valley View possession on the 27.

The Eagle kick four plays later brought on Carroll's sensational 67 return for Muenster's first TD. He got the help of timely blocks as he drifted left and got around the corner and then outran one pursuer to the goal. Felderhoff's extra

point tied the count at 7-7 as the clock read 6:20.

The Eagles snapped back with a 43 yard drive, then fumbled and MHS was in possession on its 37. Short gains by Fisher and Sicking reached the Eagle 44, where Felderhoff connected with Carroll for the go ahead score. The reception itself was a dandy and good footwork stretched it into a TD. Felderhoff's kick upped the count to 14-7 with 1:14 remaining in the half.

During that time Carroll intercepted and Muenster was back in possession at intermission.

Starting the second half MHS had to punt on second series and so did Valley View, and the Hornets were in possession 70 yards from the goal. Fisher made 36 in one romp and three more tries yielded 7 before Felderhoff got loose on a fourth down play for the remaining 27. He missed the PAT kick and the scoring ended at 20-7 with 3:58 remaining in the third period.

The Eagles responded with a first down but were stopped on the next series by Carroll's interception. Muenster kicked on its second series setting the Eagles back to the 10. From there Valley View made three first downs, then lost possession on the fourth series where a fourth down try fell short. During the remaining 6 minutes Valley View had possession for one series and Muenster for three.

## 7th graders win 34-0 at Alvord

The Muenster Junior High seventh graders had a very successful game last week against the Alvord seventh graders, winning 34-0.

The Muenster juniors scored on their very first offensive play and were in command the entire game. Scoring for Muenster were Greg Bell for two TD runs, Brian Hess on two scoring passes from QB Kevin Anderle, and Scott McAden on one TD run.

In addition to a good running and passing game, the future Hornets were also outstanding on defense. They allowed Alvord only two first downs the entire night.

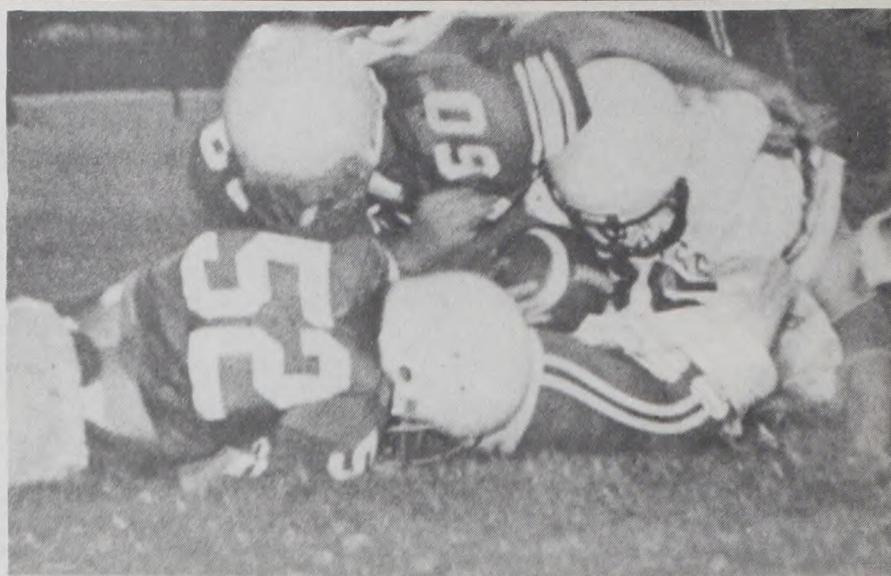

## Valley View kids beat 8th graders

Muenster 8th graders were 14-8 losers last Thursday in a tussle with the future Eagles of Valley View on Muenster High's field.

Valley View started the scoring with a short run in the first quarter. Muenster tied it in the second period with a 20 yard pass, Ryan Klement to Damian Hellman, completing a drive of about 60 yards.

The young Eagles regained their lead later in the same period with a long touchdown pass.

Neither team was able to score in the second half.

Tim Fleeman 60, and Brian Klement 52, team up to stop this Eagle runner in the Hornets 20-7 upset win. Janie Hartman Photo

# Muenster and Lindsay meet Friday in title showdown

## A letter from Coach Pete

Dear Hornet Fans:

Your support throughout the season has meant a great deal to this group of boys and coaching staff. It's so easy to follow the teams that are picked to win; but, you Hornet fans, have supported a group of inexperienced youngsters that were told by the polls they couldn't win.

We believe in enthusiasm! You, fans, can make the difference in a ballgame. You set the momentum of the game and get that extra spark lighted. We are depending on you to help us Friday night and the remainder of the season. Thanks for your support. Let's get Lindsay, Coach "Pete"

The big shootout of District 9-A west zone is on schedule Friday night when Muenster's Hornets and Lindsay's Knights go after the win which is a must in the title race. Though the outcome is not the last word, it will determine the loop leadership and establish a strong favorite for the final standing.

At this time Lindsay is the leader at 4-0 and Muenster is next at 3-0-1. By winning Muenster can gain to 4-0-1 while Lindsay drops to 4-1-0. If the outcome goes the other way Lindsay would gain to 5-0 and Muenster would drop to 3-1-1.

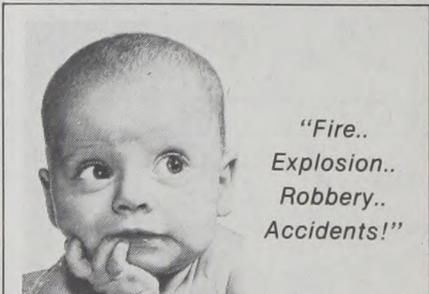

As seen by Coach Leonard Peters, the odds are stacked in Lindsay's favor. The Knights are loaded with talent, including over-all experience plus a big and quick line and a speedy backfield. On the other hand the Hornets are less endowed with all of those vital qualities. Starting the season Muenster was rated 14th in the 16 member district while Lindsay was Number 1.

However, changes have developed since then. Muenster has moved up. It has been competitive and has earned its chance to go for the top spot.

In spite of an underdog rating the Hornets and their coaches are confident about

Friday. They are proud of a superb team effort in upsetting Valley View and feel ready to put on a good show at Lindsay, and perhaps get a few breaks to boot. As Peters said, the win is

possible and the Hornets will go after it in spite of the odds. He also says that fan support is a big item, the more the better. So, Hornet friends are urgently reminded to come and help.

Super-Hornet! Wayne Carroll had a great night Friday in Muenster's 20-7 win over Valley View. Here he receives a pass and after evading an Eagle tackle went on to a 44 yard touchdown. In addition he returned a punt 67 yards for a TD and intercepted twice.

## THE NEED IS LEADERSHIP! THE TIME IS NOW!

Texans have had so many increases in their utility bills it's become a bad habit.

But we can break that habit if we elect a governor strong enough to say *Enough!*

We need a governor who will lead, not follow where the utility companies lead him.

We need a governor who will fight to see that staying warm in the winter and comfortable in the summer doesn't cost a family of four so much they can't afford their house payment . . . or cause an older person on a fixed income to risk health and life to be able to pay his electric bill.

If you think paying more and more is a bad habit, *Break It!* Elect Mark White Governor.

Mike Hermes of the Knights stretched but not enough for this pass in Lindsay's game with Era.

# Lindsay demolishes Era 78-0

by Donna Arendt  
Lindsay Knights ran wild at Era last week stampeding 78-0 over the outclassed and undersized Hornets. The game was a run-away from the start as the visitors scored on almost every possession and held the home team helpless all the way.

The Knight's first drive began as Mike Corcoran recovered an Era fumble on the 28 yard line. From there Lindsay scored in four plays, Stan Dieter making the last yard and Leonard Fuhrmann kicking the PAT to make 7-0.

Lindsay's next score began with a Hornet fumble as Mike Corcoran recovered. Dieter carried for a first down on the 13 yard line, Weems gained 7 yards, and John Dieter gained the remaining 6. Fuhrmann's PAT was good to make the score 14-0 with 7:29 left.

Quarterback Corcoran scored next for the Knights from 5 yards out with 10:15 left in the second quarter. The drive began on the Knight 33 yard line, and a 30 yard pass to Michael Hermes was the big play in gaining to Era's 5.

The knights scored again with 5:13 left in the quarter after starting at their own 37 yard line. Stan Dieter gained 29 to the hornet 34 and three more plays reached the 4. Weems scored from there and Fuhrmann's kick added a point.

The next TD started with Fuhrmann's punt return to Era's 37. Four plays made the distance and Corcoran finished the job with a quarterback sneak. John Dieter kicked the PAT.

With 2:51 remaining, Lindsay went after its final score of the half. It started with a fumble recovery by Terry Harnell on Era's 27, Stan Dieter gained 14, and Corcoran's pass to Michael Hermes in the end zone upped the score to 40-0 at half time.

In the second half Lindsay's Junior Varsity got into the action. The Knights scored with 8:07 left in the third quarter as Weems ran 38 yards for the touchdown and Doug Anderle dived into the end zone for the extra points, to make it 48-0.

Next Knights recovered an Era fumble on the 7 yard line and went on to score from it. From there Kenny Thurman gained 4 and Victor Schmidkofer scored.

Doug Anderle made the next touchdown on a 17 yard run and Schmidkofer gave the Knights 2 more points for a 64-0 lead with 10:50 left in the final quarter.

Lindsay's next drive began on the 30 yard line when Era's Sikes faked a punt but failed to get a first

down. Weems made the distance in three carries. The PAT failed leaving Lindsay's lead at 70-0.

Lindsay's final score of the night followed Era's fumble on the 26 yard line. Pat Bezner scored from there on a reverse and Schmidkofer added extra points.

The Knights host the Muenster Hornets this week for Lindsay's Homecoming, hoping to defeat them again after their 33-20 win last year. Kick-off time is 7:30 immediately following the crowning of the queen.

Queen candidates are Seniors Jill Myrick, Shawna Hellman, Madge Klement, and Lisa Hess.

### CARD OF THANKS

I am so grateful to so many for help, concern, care and kindness while I was a patient in Muenster Memorial Hospital. To the wonderful doctors and nurses, to friends and neighbors we say "Thank You!" We will treasure every favor.

Daisy and Pop Thompson

I wish to thank Dr. Kralick and all the doctors and nurses of Muenster Memorial Hospital for taking such good care of me; also Bishop Dangelmayr and Father Victor who visited and prayed with me, and all who sent cards, flowers and good wishes. Special thanks go to my children and grandchildren for their thoughtful concern. Many thanks to all of you.

**County FB urges vote for Amendment Three**

Leonard Hartman, president of the Cooke County Farm Bureau, has announced support for proposed Constitutional Amendment Three, saying that passage of Proposition Three would be a positive step toward keeping a viable agricultural industry in Texas.

Proposition Three proposes to correct a problem caused by a legal interpretation of the tax exemption for agricultural machinery and equipment, and is one of six proposed Constitutional Amendments to be considered by Texas voters on November 2nd.

This equipment is currently taxed inconsistently across the state. A 1982 Attorney General's opinion held that the statutory exemption is limited in dollar amount and doesn't apply to combine and agricultural operations, not even to family groups.

"Any producer of any product must recover the cost of production, including taxes, and show some profit - if he is to stay in business," Hartman said. Without passage of Proposition Three which would correct the property tax exemption on agricultural machinery and equipment, some producers may conclude that they cannot afford to remain in business. Then, we'll see a drop in production which will also hurt our local economy.

"Many school districts and most counties do not tax agricultural machinery and equipment at all, while others do. With Proposition Three, we could assure fair, uniform tax treatment for all food producers," he said.

Hartman said that total revenues generated by food and fiber taxes accounts for

less than one-eighth of one percent of all Texas property tax receipts each year.

Addressing the effect of the amendment on school districts, Hartman said that school revenue losses will be partially offset by increased state aid when this equipment is removed from each school district's state aid formulas. "Statewide, some school districts will actually

receive more aid than the revenue they will lose," he said.

"In addition to helping consumers and producers alike, encouraging a healthy agricultural industry in Texas will contribute to the vitality of the state's overall economy, thus increasing overall tax revenues from many other sources," Hartman concluded.

Vote for **FRED THORNBERRY**

Vote for a man with a farm background to be the chief spokesman for Texas farmers and to promote Texas products by seeking new markets.

Fred Thornberry, 45, grew up on the family farm near Conroe, as did his mother and grandfather. He is proud of his family's record of over 100 years of

service to Texas agriculture. Today he is still an active producer of honey, beef and timber.

Thornberry knows agriculture from the ground up. He has bachelor, master and doctor degrees in agriculture areas from Texas A&M University.

In addition he has more than 20 years of marketing, management, and administrative experience relating to Texas agriculture. His experience includes serving as county extension agent, research associate at the Texas Agricultural Extension Station, project group supervisor with the Texas Agricultural Experiment Service, and author of more than 400 articles for industry and professional publications.

Thornberry's opponent for Agriculture Commissioner is Jim Hightower, a "political activist (who) percolated through a decade of politics in Washington D.C. He was legislative assistant to former US Senator Ralph Yarborough."

Hightower is the author of two books critical of the land grant system and the 4-H program, and former editor of the liberal magazine, Texas Observer. In 1980 he claimed to be an energy expert but was defeated as a candidate for Railroad Commissioner.

As candidate for Agriculture Commissioner he is backed by national Democrats and liberal groups such as the AFL-CIO. He has said, "only

through unionization will hundreds of thousands of Texas workers get their fair shake or anything like it."

Hightower lists Ramsey Clark and Ralph Nader among his major supporters, and most of his campaign fund has been raised in New York, Washington and the West Coast.

He describes his political objectives in the following manner: "The way to take over the Democratic Party is by getting elected. The Party becomes what you say it is."

"I am saying things have gotta change. I am an agrarian reformer; I want to tamper with the system."

The choice is clear in this election. Texans can elect a man who knows Texas agriculture and is dedicated to it. Or it can elect a liberal backed by Eastern politicians, who has stated his intention to tamper with the system.
