America has many problems to worry about but none are more fundamentally serious than the social scourge of herpes, which has spread alarmingly in recent years and is now reported by the media to have reached 20 million cases.

Understandably, this is a shock to all who think that sex liberation is the accepted way of life. After a shameful disregard for conscience and religion and morality, they are learning that the law of nature also draws the line on their behavior. They cannot escape the fact that they are being punished for their own immorality and they alone are accountable. Moreover, the punishment is terrifying, unless and until someone finds a cure for it. And to make matters worse the number of cases can only increase while people continue refusing to accept the solid thinking on the subject.

Our first difficulty is that the media, which has most influence on public opinion, is itself on the wrong track. For instance, a magazine widely used in junior high schools used two pages on a discussion of venereal herpes. Its conclusion on what can be done to stop the spread of herpes included such superficial suggestions as "washing your hands," avoiding tight jeans, wearing all-cotton underwear, and never using saliva to moisten your contact lenses."

But that article had no advice whatever about refraining from sex, which is admitted to be the principal cause of the malady, and perhaps the only cause. The liberal media has come up with many suspected causes, obviously trying to divert public suspicion away from the logical suspect.

After all, we must remember that the media has a vested interest in promiscuity. Some of their profitable enterprises include the abortion clinics, contraceptive manufacturers, sex educationists, porn magazines and movies and TV. It's big business to exploit sex. Greed, along with atheism and a disregard of moral values is plenty reason for the liberals to keep on encouraging sexual laxity.

It's really unfortunate for civilization that his continues happening. How much farther will the dread disease advance before a sufficient number of right thinking individuals overcome the evil influence of liberal thinking on the subject? In fact, the problem cannot really be solved until the nation gets back on the right train of thought and admits that materialism is all wrong. There must be a rebirth of the old time idea that this is God's world and we have to run it His way to get along. This applies to sex as well as the other matters of life. This epidemic of herpes is teaching us again that there's a penalty for defying the rules.

What's to be done about it? Practical people say "the one best way to avoid contracting incurable herpes is to remain a virgin, marry a virgin and remain faithful to each other."

Liberal commentators resent such remarks from traditional moralists, but advice doesn't come only from the puritan minds. Ted Koppel of ABC Nightline had this to say on one of his recent programs. "If people

## County's chief tax appraiser retires

LeRoy Johnson, chief appraiser of the Cooke County Tax Appraisal District, announced last week that he has resigned his position effective January 1 to take the position of senior appraiser.

He will join Dean Sallee as senior appraiser and will be in charge of all appraisers and appraisals as well as

doing some of the appraising himself.

Johnson said he changed positions because of health problems, but added they would not affect his work as an appraiser.

Chester Calhoun, chairman of the CCTAD board, said the organization will

start looking for Johnson's successor this month and intends to move slowly with attention to personal qualifications and the state law. No date has been set for making the appointment.

In the meantime Pat Dennis, deputy chief appraiser, has been named by the ap-

praised district board to take over the chief appraiser's duties. Johnson became a member of the CCTAD staff in 1980 and was named the chief executive officer the next year. In that position he had a part in organizing the district and directing the growth of its staff from 3 to 18 persons.

## Council considers fire station expansion

A short agenda occupied members of the Muenster City Council for only a short session at their 1983 opening meeting Monday night. They finished their business with time to spare for football but finished the evening

with disappointment as the erratic Cowboys went down in defeat at Minnesota.

First item of the meeting was the appearance of Don Rice of the Cooke County Ambulance Service to assure the Council that all parties

concerned have signed an agreement and the service here is expected to begin within two weeks. His reference was to the city council, the commissioners court and Bill Boyles of the Boyles estate. Work to

renovate living quarters for two ambulance operators was to begin at once and a shed for their vehicle is due to follow promptly. The property is leased from the

## Ambulance service to begin late next week

The Muenster City Council Monday night gave approval to all the needed renovations for the house which will serve as the base for the local substation of the county's ambulance service. Emergency medical service personnel say the service should be operational by the end of next week.

Don Rice, administrator of the Cooke County Emergency Medical Service (CEEMS), said the plan now is to get the substation

established and begin emergency service as soon as possible. He said a garage to house the ambulance would be built after the service is operating.

The substation will be located at the Boyles estate house at the corner of Oak and Third streets.

County Commissioners voted two weeks ago to base one of the county's ambulances in Muenster, ending a year-long effort to improve emergency medical

service in the western area of the county.

Rice said basing an ambulance in Muenster would greatly reduce response time in the event of an emergency. The time it now takes for an ambulance coming from Gainesville to respond to an emergency in Muenster is about 14.5 minutes. Such a response time is insufficient for a great number of emergency cases, Rice said. For example, a heart attack victim must receive attention

within four minutes or there will be permanent damage even if the victim survives.

Besides basing an ambulance in Muenster, plans for the substation call for two emergency care technicians who will be on call 24 hours a day.

The biggest task remaining before service can begin involves the completion of a renovation project on the house which Rice said should be finished in a few more days.

The project of basing an ambulance in Muenster got rolling slightly more than a year ago. At the last commissioners' meeting before the substation was approved, Ronnie Felderhoff, who acted as liaison between the Muenster City Council and the Commissioners Court, presented the court with a statement of support accompanied by more than 500 signatures of residents of western Cooke County.

The residents were

requesting that an ambulance be based here.

Felderhoff said the commissioners' favorable decision was due in large part to that large amount of citizen support.

Rice said basing an ambulance here has been the biggest goal since he became CEEMS administrator two and a half years ago.

"Now," he said, "it finally looks like it's going to become a reality."

## Steve Wimmer loses life in gun accident

Tragedy struck the community about 2:30 p.m. last Sunday when Steven Paul Wimmer, 13, son of Jerry and Louise Wimmer, was killed instantly by gunshot while hunting on the David Flusche farm about five miles north of town.

He and Shawn Flusche, an eighth grade classmate at Muenster Junior High, were rabbit-hunting. Each had a shotgun and Steven also had a small .22 caliber revolver.

Shawn had just shot a rabbit and left his gun with Steven while he went to the bottom of a shallow ravine to retrieve the animal. While there he heard his companion say "there's another one" and an instant later he heard the revolver discharge. Turning around he saw Steven clutch his chest and fall.

There are no witnesses to tell what happened, however Justice of the Peace Bill Freeman, reasoned that in his rush to put aside one or both of the shotguns, the victim had allowed the handgun to fall out of his jacket pocket and discharge.

The odds against a fatality, he added, must be at least a million to one. Along with the unlikelihood of dropping the weapon, it had to fall with the hammer at point of impact and strike a hard object, such as one of the shotguns or a rock, with sufficient force to make it discharge. Furthermore the gun had to be pointed in the precise direction of a vital area.

Freeman pronounced the victim dead at the scene and ordered his body sent to Southwest Institute of Forensic Science in Dallas for an autopsy.

Funeral service Sacred Heart Church was packed for the funeral service Tuesday at 10:30 a.m. with Father Victor Gillespie officiating at a Mass of Christian Burial and Fathers

Placidus Eckart and Denis Soerries concelebrating. Also participating were the Youth Choir directed by Stephen Beyer, Jo Ell Hellman in the scriptural reading and Coach Leonard Peters in a poem relating the sorrow of death with the joy of eternity.

In his funeral homily Father Victor said that this kind of tragedy has no answer except through faith in God and His promise of eternal happiness for those who love Him. He also referred to inevitable grief at the loss, saying "go ahead and cry, don't be ashamed of your tears, but think of the boundless joy of heaven and eventually a reunion of complete and eternal happiness."

Burial was in Sacred Heart Cemetery directed by Nick Miller Funeral Home and Pallbearers were Bobby Noggler, Doyle Lewis, Michael Lewis, Ricky Wimmer, Larry Wimmer and David Wimmer. All of his classmates were honorary pallbearers. They carried long stem carnations, white by the girls and red by the boys. After

Matthew 4:8-11

The devil then took him up a very high mountain and displayed before him all the kingdoms of the world in their magnificence, promising, "All these will I bestow on you if you prostrate yourself in homage before me." At this, Jesus said to him, "Away with you, Satan! Scripture has it:

"You shall do homage to the Lord your God; him alone shall you adore."

At that the devil left him, and angels came and waited on him.

### United Way nets \$5,071

People of Muenster gave \$5,071 to the 1982 United Way campaign according to a report this week from Sharon Wolf, community chairman.

Though the amount falls \$929 short of the \$6,000 goal, and \$739 less than last year's total, it represents a very good community response, the chairman said.

For being good to the many agencies which participate in the United Way program, and for making Muenster look good she extends thanks to all donors from herself and the campaign personnel. They were Kenneth Selby, Larry Kinard, Dolphy Hellman, Virgil Henscheid, Larry Hennigan and Monica Hess.

## Small-business Angle

by Wilson S. Johnson

### ADVICE FOR SMALL BUSINESSES: SHOP FOR MONEY

This is a column about shopping — not for a new suit or a new car but shopping for money. Bankers with whom I talk tell me that too many small-business people are woefully inexperienced in shopping for financing.

Business people admit they are frequently intimidated by bankers. Yet, when I ask them how often they see their bankers, many say they go by the bank only when they need money!

Bankers like Dean Treptow of Brown Deer, WI, say they like to get to know their potential customers as well as possible. Treptow says far from intimidating small-business people, he often lends them more than they ask for! "When people ask us for financing the first time, they tend to be reluctant to ask for all the money they really need to get the job done vowing to face the consequences later," Treptow says. "They don't because they think that if they ask for too much money, the bank will turn them down."

Probably one of the most important things for any small-business person to keep in mind when preparing to deal with the bank is that banks are businesses too. They make their profits by managing money, and they are run by men and women, not by machines or inflexible rulebooks.

A small-business man in Norfolk, VA, was astonished when his bankers agreed to a substantial loan request with what appeared to be minimal consultation. But he was well known to the bank, and he had carefully laid the groundwork for the loan request. His banker knew the loan was a good business transaction, and it didn't take him long to agree to the request.

Dean Treptow explains, "It's important to help the customer — especially the new customer — feel comfortable when dealing with the bank. We like to deal with reality rather than people's perceptions about what the bank will or will not approve."

The pamphlet "Shopping For Money," produced by the National Federation of Independent Business, lists the following tips for small-business borrowers:

- Look for a bank that is small-business oriented
- Choose a bank that knows the community
- Work with the right bank officer
- Be prepared yourself before going in for a loan
- Check with your accountant about which financing option is right for you
- Consider the demands of the loan arrangement against your whole financial position
- Plan your needs in advance and avoid borrowing unless absolutely necessary

With interest rates coming down and small business poised for expansion, these banking tips may be helpful in the months ahead. For the booklet "Shopping For Money," write, "Shopping for Money," NFIB, 600 Maryland Ave., S.W., Suite 695, Washington, D.C. 20024.

## The Owner's Manual

By Larry Tisdale DVM

Last week, along with studying how God's word lives and abides, we also saw how the life span of man, like the flowers and grass, exists but for a brief period of time. Another verse which emphasizes the insignificance of man and the brief time he is here on earth, even more so than the verse we studied last week, is found in James 4:14-15, which says, "Yet you do not know what your life will be like tomorrow. You are just a vapor that appears for a little while and then vanishes away. Instead, you ought to say, if the Lord wills, we shall live and also do this or that."

Here we see the folly of leaving God out of our plans, especially our long range plans, which includes business plans, family plans, occupational plans, etc. Although James was ad-

ressing this message originally to Jewish merchants who carried on a lucrative trade throughout the world, his message is just as relevant to us today as it was to them. He reminds us that we do not even know if we will be around tomorrow or not, much less what our life will be like if we are. If you thought your lifetime was brief when compared to the grass and flowers, at least the grass lasts for a season and the flowers for a day or two.

But a vapor only lasts for a little while and then it vanishes away and no trace of it even remains to show that it ever existed. Next time you get to feeling very important, think of this verse with this comparison and it will help to bring you back down to earth. God created each one of

us for a purpose. We should strive to discover that purpose for our life and then to do His will. James did not mean that we are not to make any long range plans, but that we are not to leave God out of our plans. We need to realize that our plans will only come to pass if it is according to God's will. Therefore, when things do not work out as you had planned, just remember that God is in control, and some day we will know the reason things turned out the way they did.

As for me, I still have a lot of things on my "one of these days if the Lord wills" list, and probably most of them will still be on the list when my time on this earth is over. In the meantime, we need to do as the songs says, and just live "one day at a time."

## Looking Ahead

NATIONAL EDUCATION PROGRAM  
Searcy, Arkansas

**TODAY'S CONCERNS**  
One hundred-seventeen million working Americans are concerned about high taxes that lower their take-home pay making it very difficult for those of average or modest means to make ends meet.

Why are taxes so high? Because government spending is so high! What has caused government spending to increase so rapidly?

To answer that question, let's analyze the Budget for Fiscal 1983 which has just begun on October first.

If we carefully study the spending functions we find they can be subdivided into four general categories which seem logical to us.

First, there is the category of expenditures for the proper functions of government: protecting the life, liberty and property of the individual. Under this category we find listed in the Budget: National Defense, General Government, and Administration of Justice. The total expenditure for these proper functions of government is \$223.4 billion, 27.4 percent of total spending.

The second category we find contains socialistic functions, those in which the government has become involved in the

production and distribution of goods and services. We find listed: Energy, Natural Resources and Environment, and General Science, Space and Technology. The total expenditure here is quite small: \$23 billion, only 2.8 percent of total spending.

It is in the third category where we find the cause of the tremendous increase in government spending: domestic redistribution of income. We find listed such functions as: Income Security, Health, Education, Training, Employment and Social Services, Revenue Sharing, Aid to Veterans, to Transportation, to Commerce and Housing Credit, Aid to Communities, to Agriculture. When we add, for purposes of realistic appraisal, an arbitrary assignment of one-half the interest on the national debt, we find this category costing taxpayers \$501.4 billion, 61.5 percent of the Federal Budget.

The fourth and final category is international redistribution of income, which means Foreign Aid. We find this will cost taxpayers \$11.5 billion in this one year. But — when we add in the other half of national debt interest it costs \$68.1 billion, 8.3 percent of the total budget.

How can we justify charging one-half the debt interest to international redistribution? Because a recent study by the Congressional Research Service, done for Senator Helms, disclosed that since the foreign aid program was begun, the money borrowed to give away has cost taxpayers \$2.3 trillion, twice the national debt of \$1.29 trillion anticipated this year. So, you see, it is very moderate to assign only half the debt interest to international affairs.

Now what does all this mean to each of us? It means that government spending and taxes are so high because redistribution of income, domestic and international, is now consuming \$570 billion annually, 70 percent of a federal budget of \$770 billion.

Now, here is a question. Where does our federal government get the authority to take the property of one person, through taxes or inflation, and give it to another person, either here in the United States or in a hundred plus countries around the world?

The answer is: The government has never been given such authority by the people. It has been, however, assumed by government as the people have failed to challenge that assumption.

Thanks for books and pens and paper, thanks for wood to build our homes, for firewood to keep us cozy in them, thanks for violins and cellos and guitars. Trees give us a lot. Don't take them for granted. Please be careful. A tree will thank you.

Only you can prevent forest fires.

absolutely never want to get herpes, and they don't have it to begin with, they should simply just stop having sex. If they want to take the next best step — well, an absolutely monogamous relationship among two people, neither of whom has herpes, is a barrier to the introduction of herpes into that relationship. Anything short of that, you introduce an element of risk." Koppel might have

added that this way works because it is the way that God intended. The country has lots of worries nowadays—the economy, social security, crime, racism, hunger, foreign affairs and what not. And now comes this social disease as another sign that we are not living right. Hopefully the nation's leaders will take the hint and start working on the solution which must already

be on their minds. Hopefully this will include religious and moral leaders. Their greatest possible service to their flocks would be to revive those basic solid principles upon which the nation was founded. When the grass roots starts thinking right many of the desired effects will have been achieved and government will be inclined in the right direction.

### RACISM IN AMERICA

By Edwin Feulner

The president of General Motors is white. The president of the United States is white. The grand wizard (or whatever he's called) of the Ku Klux Klan is white. Which only goes to prove that the blacks who went to the streets in the 1960s crying "Burn Baby Burn" and the blacks who went on a rampage in the Nation's Capital recently to protest "white racism" were correct after all. America stinks and blacks don't stand a chance.

A lot of people, of course, still amuse themselves with such nonsense. It's the stuff, I suppose, that the social planner's dreams are made of. So tenaciously do some people cling to the idea of the white racist society deliberately keeping the black man "in his place" that anyone who questions its validity still runs the risk of being called a bigot.

The doubting Thomases are bigots. The people who call them such names are enlightened liberals, seekers of cosmic truth.

Though the Washington power establishment refuses to take any blame for the November 27 "anti-Klan" violence—which was directed indiscriminately not against the KKK, but against innocent bystanders—they certainly must share the blame with the grubby cretins who committed the crimes.

For weeks before the scheduled KKK rally the Washington news media were vividly alive with story after story about the KKK, and the planned march of the hooded hate-mongers through the streets of the Nation's Capital.

One would have believed from watching local TV that hundreds, perhaps thousands, of Klansmen would be descending on the Nation's Capital, heralding a new era of hate in America.

It was only on the morning of the scheduled rally that we found buried in a newspaper story the fact that only 50-200 Klansmen were expected. Even those figures were overblown: just 36 Klansmen showed up.

Meanwhile, all sorts of organizations—some of them not much better than the Klan itself—were planning their "anti-Klan rally." At least two of the local TV stations urged viewer participation in the anti-Klan events. To gasoline they were adding a lit match; an explosion was inevitable.

As things turned out, the Klansmen cancelled their march. This, according to the liberal apologists, angered the anti-Klan mob. As Dorothy Gilliam said in *The Washington Post* on the Monday after: "... the counterprotestors, many times the minuscule numbers of the Klan, sent a message of strong resolve: certain vulgarities, such as the appearance of the KKK, just won't be tolerated in the nation's capital."

"It is unfortunate," she lamented, "that the anti-Klan demonstrators became angry when they were denied a confrontation with the white-sheeted purveyors of hate and subsequently vented their fury on the most available symbol—police authority. But it should be remembered that the crowd was orderly until its members were denied what they considered was their right to confront the Klan."

"The looting did no credit to the anti-Klan movement," she said. "But in any war, no matter how heroic are the soldiers, there will be some among them who will rape, rob and plunder. . . . But it would be a mistake, I think, to let the looting and police battling detract from the central theme of the day."

It's hard for an honest fellow to figure out what the theme of the day was. Klan activity will not be tolerated, but hooliganism is okay?

America doesn't appear so much to be a hate-filled country, as it does a lax and lawless one. I'd suggest to Dorothy Gilliam and her friends (and they can call me names if they'd like) that America has more to worry about today from the kind of muddle-headed thinking that passes as intelligent liberalism than it does from the 36 Ku Klux Klansmen who couldn't even get their act together long enough to march.

(Feulner is president of The Heritage Foundation, a Washington-based public policy research institute.)

## Energy companies establish financial assistance for needy

Two Texas Energy Companies have initiated programs designed to offer financial assistance to needy persons and families who have difficulty paying their winter heating and utility bills. Lone Star Gas Co. announced recently that it has initiated HAP'N (Heating Assistance Program for the needy). And Texas Power and Light has formed the Energy Aid Program. The Energy Aid Program is designed to help needy senior citizens, people who are ill and disabled and families whose financial hardships make them unable to pay for essential energy services. Details of administering the program are being worked out and TP&L expects the program to be in full operation within 90 days. An established charity or agency in each community

or area served by TP&L will be responsible for determining eligibility of those who apply for aid. The agencies will send Energy Aid payments directly to utility companies, which will credit them to the accounts of the recipients. TP&L will make an initial donation of \$50,000 to the program and TP&L employees will be given the opportunity to make individual donations to the fund. Customers will be able either to send in donations with their electric bills or to make contributions to the program directly to the responsible agency in their community. Eligible person will be able to receive help with electric or natural gas utility bills, or both. Contributions from customers will be distributed in the areas from which they are received. Contributions made by employees at TP&L's Dallas

headquarters will be apportioned to administering agencies within TP&L's 54-county service area. Lone Star Gas Co. has committed \$100,000 to establish Project HAP'N. Lone Star will invite its customers and the public in general to join in making contributions to the project. The coordinating agency and the fund address will be publicized throughout Lone Star's 110-county service area soon. Project HAP'N assistance funds can be used for any type of heating bill. "We at Lone Star recognize that our funding will not adequately help all who are financially in need with their heating bills," said Lone Star President Carol Neaves. "But with additional funding from other sources, both public and private, this beginning effort should bring some help to more people."

### In Memory of Steven... Death Opens the Door to Life Evermore

We live a short while on earth below, Reluctant to die for we do not know Just what "dark death" is all about And so we view it with fear and doubt, Not certain of what is around the bend We look on death as the final end To all that made us a mortal being And yet there lies just beyond our seeing A beautiful life so full and complete That we should leave with hurrying feet To walk with God by sacred streams Amid beauty and peace beyond our dreams- For all who believe in the RISEN LORD Have been assured of this reward, And death for them is just "graduation" To a higher realm of wide elevation- For life on earth is a transient affair, Just a few brief years in which to prepare For a life that is free from pain and tears Where time is not counted by hours or years- For death is only the method God chose To colonize heaven with the souls of those Who by their apprenticeship on earth Proved worthy to dwell in the land of new birth- So death is not sad...it's a time for elation, A joyous transition...the soul's emigration Into a place where the soul's SAFE and FREE To live with God through ETERNITY!

For I am persuaded, that neither death, nor life, nor angels, nor principalities, nor powers, nor things present, nor things to come, Nor height, nor depth, nor any other creature, shall be able to separate us from the love of God, which is in Christ Jesus our Lord.

### Library to receive books in large print

The Münster Public Library is one of thirty-seven libraries in northeast Texas that is participating in a project that brings romances, Gothics, westerns, current fiction and nonfiction, and mysteries to you in a large print format. The project is sponsored with grant funds through the Northeast Texas Library System, headquartered at the Dallas Public Library. Every two months your library will receive a packet

### Westgate receives 3 year accreditation

Don Ciulla, Administrator of Westgate Medical Center, announced recently that the hospital has been awarded a three-year accreditation by the Joint Commission on Accreditation of Hospitals (JCAH). Every department and service of the hospital, as well as the physical facility, was reviewed by a JCAH survey team. The three-person team included a physician, a registered nurse and a hospital administrator. "Westgate has been commended for its efforts in providing high quality patient care," Ciulla said. "We are happy to cooperate with the Joint Commission. Accreditation by this group assures the public that our hospital provides the high standard of patient care it has a right to expect."

### Council

estate after being renovated by the city with help from the Chamber of Commerce and the Jaycees. Next business concerned planned drainage improvements on Mesquite. The report is that work of clearing ditches has been delayed by bad weather and the holidays, but it is planned to start as soon as the weather permits. The council also announced that all who want paving on the street should arrange by May to install curb and gutter. Another item was expansion of the city fire station to provide more vehicle and storage space. The addition will be 1344 square feet, full width of the building and extending east to the alley. A problem is that existing concrete slab is slanted the wrong way and drains water toward the building instead of away from it. The slab

will be replaced by one of the proper slant before work on the walls begins. Walls will be brick veneer on the south and east sides and metal on the north side. Fourth and last on the agenda was the re-appointment of Al Hess and Robert Miller to the city zoning board. Members whose terms continue are Sam Endres, Vincent Felderhoff and Earl Fisher.

## Albert Zimmerers observe 25th wedding anniversary

Mr. and Mrs. Albert Zimmerer observed their 25th wedding anniversary with a celebration on Dec. 26 in the Community Center.

A buffet of pick-up foods, a slide presentation of pictures beginning with their wedding, a dance, and special decorations repeating the chosen wedding colors, combined to enhance the happy celebration.

Albert Zimmerer and the former Imogene Flusche were married on Dec. 28, 1957 in St. Peter's Church in Lindsay by Father Conrad Herda. He is the son of Mr. and Mrs. Johnny (J.F.) Zimmerer and she is the daughter of Mr. and Mrs. William Flusche, Sr. They were all present at the anniversary.

Wedding attendants in 1957 were her brother

William Flusche, now of Houston as best man; his sister Cecilia (Zimmerer) Novacek now of Fort Worth as maid of honor; her sister Kitty (Flusche) Hess now of Fort Worth, bridesmaid; her brother Jim Flusche of Lindsay and his cousin Melvin Voth of Gainesville, as groomsmen, who also were in attendance at the anniversary. Other members of the wedding party, but unable to be present at the anniversary were Beatrice and Ernest Wolf of Muenster and Dorothy Billner of Saratoga, California.

Assisting with plans, preparations and hosting, were the children of Albert and Imogene Zimmerer namely: Albert Jr. of Gainesville and his wife, Kathy who made the white carnation corsage for her mother-in-law; Deryl, who is home from Univ. of Texas

of Austin, having received his degree in December; Debbie of NTSU, Denton, who made all table decorations and baked and decorated the anniversary cake; Gary, a student at Texas Tech; and John, Shelly and Carl of the home.

Securing signatures in the guest book were a god-child Holly Hess of Forst Worth and Sara Flusche of Lindsay, both nieces. They and Lara Hess assisted Debbie Zimmerer in serving the anniversary cake. Mrs. Albert Zimmerer, Debbie and Shelly assisted by Mrs. Wm. Flusche, Sr. prepared all foods in the festive menu.

The floral centerpiece on the anniversary table was made of white silk carnations, white paper lace doilies and turquoise ribbon. All tables held candle wreaths made of paper lace doilies, silver cup cake holders with inserted turquoise satin bows, surrounding white candles.

William Flusche, Jr. narrated the slide program and Doug Martin's Band played for dancing.

### Garden Club holds plant exchange

Instead of a gift exchange, members of the Muenster Garden Club held a plant exchange during their regular December meeting, which had been changed from Dec. 13 to Dec. 15. Mrs. King Koch was hostess in her home.

Mrs. Ray Wilde, president appointed a nominating committee which will report at the regular meeting on Jan. 10, scheduled for the TP&L building, when Mrs. Pat Stelzer will be hostess.

To observe Arbor Day, members planned to purchase a gift certificate for a tree to be presented to the Cemetery Commission, when a suitable site is available. Members also discussed replacing dead shrubs in the planters on Main St.

The hostess served pie, spiced tea or coffee to members, who also enjoyed viewing the special Christmas decorations in the home.

# Dolores Miller attends Blazer Workshop then sews eight for family

**BY Evelyn Yeatts**  
Dolores Miller is one of 71 women who participated in one of four Blazer Construction Workshops which were sponsored by the County Extension Service in 1982.

Since her completion of the workshop, Mrs. Miller has made a total of eight blazers in a variety of styles and colors using methods learned. Besides sewing for herself, she has made blazers for her two daughters. One daughter, who works full time, has found this especially beneficial to her career wardrobe.

Polyester and polyester blends have been the fabrics most often used in Mrs. Miller's clothing construction. She enjoys polyester and wool blends but has not made 100 percent wool blazers because of the hot nature of herself and family. Mrs. Miller estimated a savings of over \$200 on the blazers. This is a very low estimate; however, according to Mrs. Evelyn Yeatts, County Extension Agent. With the excellent construction done, the savings realized was probably closer to twice the amount Mrs. Miller gave.

The blazers were made using fusible materials to a large extent rather than time-consuming hand tailoring techniques. The lining was also constructed and put in completely by machine.

Because of the continued popularity and importance of blazers in the women's apparel field, additional construction workshops will be held in early 1983.

Two workshops will be started on Thursday, January 13. The first will be at 9:30 a.m. at the Texas Power and Light Meeting Room in Gainesville. The orientation meeting and demonstrations will be repeated at 7 p.m. for those who prefer a night workshop.

The workshops will be conducted by Mrs. Evelyn Yeatts, County Extension Agent, and by Miss Cookie Myers, County Extension Agent. At this first meeting

three additional two-hour dates will be selected to meet the convenience of those attending. If enough people from the Muenster area register for a workshop, additional meetings will be held in Muenster.

At each session demonstrations will be given by Mrs. Yeatts and Miss Myers.

Participants will then go home and before the next session complete work on their own individual blazers. Questions and problems will be brought to each workshop session for the Extension Agents to assist

with. To register for one of the workshops, call the County Extension Office at 665-4931 or 665-1966.

This workshop is not designed for the beginning seamstress but for one who has had some sewing experience and developed skills already.

Blazers are definitely a classic changing in minor ways from one year to the next but remaining popular. This is a trend that is sure to continue especially with the large number of women in the labor force.

**Cecilia Hermes celebrates 75th**

Mrs. Julius Hermes, Sr. (Cecilia) celebrated her 75th birthday on Monday, Dec. 27 at the home of her son-in-law and daughter, Mr. and Mrs. Earl Hess.

A buffet supper was followed by dessert of birthday cake and ice cream. Party decorations and theme of the special cake were "Springtime." After the honoree opened and displayed her gifts, guests enjoyed table games.

Attending were Messrs. and Mmes. William Hermes, Julius Hermes, Jr., Richard Hermes, Walter Hermes, Billy Zimmerer, J.D. Fleitman and Mrs. Zita Fleitman, with the hosts.

**Parents warned of dangers of children swallowing foreign objects**

A recent broadcast sponsored by the Columbia-Presbyterian Medical Center and The Prudential Insurance Company volunteered specific steps parents can take to prevent their children from inhaling foreign objects.

Dr. Russell Asnes, a pediatrician at the Columbia Medical School, says youngsters with strong "oral tendencies" may swallow objects like buttons, tacks or coins which parents leave around the house. Plastic toys which can be disassembled also present special dangers, since children may swallow or choke on the smaller parts.

Dr. Asnes says parents minimize risk from small objects by making the home as safe as possible. "A major part of being a parent involves being on constant watch for ingestions, not only of small objects and toys, but also of household items such as cleaning fluids and medications," says Dr. Asnes.

Parents should also be aware that ordinary foods, particularly peanuts, can be sucked into the windpipe or lungs by young children.

Dr. Asnes says the Heimlich Maneuver is the most effective procedure to dislodge a foreign object from the windpipe. "In the Heimlich Maneuver, one places his hands around the child, forming a fist beneath the breastbone, and presses quickly and firmly in an upward action to remove the object," explains Dr. Asnes.

**Texas, giant magnet pulls people from everywhere**

Texas had three million more people in 1981 than in 1977, making it the fastest growing state in the nation. "It's like the state is a giant magnet pulling people here from everywhere," said Dr. Robert Skrabaneck, demographer and sociologist with the Texas Agricultural Experiment Station, Texas Real Estate Research Center and Texas A&M University department of Rural Sociology.

Why are so many people moving to Texas, and who are they? "Besides being in the Sunbelt, the Lone Star state has a low unemployment rate and low tax structure (compared to other states)," he pointed out.

In 1960, Texas was the sixth most populated state, and by 1970 it had become the fourth largest. In 1975, Texas became the third largest state, preceded only by California and New York.

The population has been evenly distributed the past 10 years, Skrabaneck noted, with 210 Texas counties showing an increase and only 44 reporting a decrease.

"Big cities like Dallas, Houston and San Antonio are getting larger, but the real growth is occurring in the suburbs of these cities," he said. "The cities keep growing out and incorporating what were once rural areas."

Rural areas have been consistently gaining in population the past 15 years, Skrabaneck said. This comes

**Growing Child**

You're having morning coffee with a neighbor. Suddenly your two-year-old rushes in to tell you something important: "Sam broke too me ever!"

Since he's not a fluent speaker yet and the urgency of the situation interferes with intelligence, you don't know what he's trying to convey to you. What to do?

Growing Child, the monthly child development newsletter, first gives these hints about what not to do. Don't belittle the child with criticism, "Who can understand you when you talk like that?"

Don't threaten him, "If you don't talk better no one will ever understand you." Don't bribe him, "If you say it nicely, you can have a cookie."

Don't command him, "Say it like this so we know what you mean." Don't overprotect him, "Go out and play and we'll talk about it later."

Now, what to do: Echo what he has said insofar as you can and replace the unintelligible part with one of the "wh" words: Youngster: "Sam broke too me ever." You: "Sam broke what?"

Assure him that you truly understand his feelings (even if you do not understand his speech). This is very reassuring to a child. None of us ever outgrows the appreciation for emotional support. For a child, a hug or squeeze accompanied by simple feedback; "I know you are upset right now. I understand how you feel. Come have a drink and we'll talk about it."

Treating a youngster as a sensitive individual with his own sense of personal dignity which can be hurt or gratified will result in cooperative behavior.

At about two years, a youngster has increased speech and language comprehension, but still understands only concrete and practical words and statements.

He uses many words that have no meaning for him; he's imitating what he's heard without really understanding. He uses words which he himself creates. This occurs when he wants to say something and he doesn't know the appropriate word. Many children enjoy their own creations and do a lot of, combining interesting sounds and phrases.

The pronouns "mine" and "me" are in use but he refers to himself by his given name instead of using "I". He loves to hear stories about himself. When he talks or "tells a story" he sing-songs his sentences. He may even be very fluent in telling his experiences, but he has no sense of "pastness" - he's a here-and-now person.

The Growing Child newsletter follows a child's development month-by-month. For more information on the social and physical development of children from birth to six years old, write to Growing Child, PO Box 620N, Lafayette, Ind. 47902. Include child's birthdate when writing. A year's subscription to the newsletter costs \$11.95.

# Forestburg News by Myrt Denham

The very last Forestburg news column that appeared in this newspaper was gathered and written by Mrs. Gladys Barclay. This was while I was a patient in the Bowie Memorial Hospital. My thanks to her for a job well done.

If you noticed and enjoyed the Christmas lights in Forestburg - well thank the Jack C. Dills and the Larry Dills. It is their custom to have these lights put up each year to say "Merry Christmas" to all their friends, customers and neighbors instead of sending Christmas cards.

Lecia Lynch, daughter of Mr. and Mrs. Doyle Lynch, graduated from the University of Texas at Arlington at 10 a.m. Sat. Dec. 18, receiving a B.S. degree in nursing. Attending were Mr. and Mrs. Doyle Lynch, Rayann Lynch, Mrs. Imogene Lynch, Mr. and Mrs. Clifford Hudspeth and Mr. and Mrs. Dale Hudspeth, Mashelle, Chad and Leah. Lecia Lynch is now working at the old Methodist Hospital in Dallas.

Things are progressing and looking up in the Burg area - with two new business ventures.

One being a new gift shop on the highway towards Slidell and other is that David Steadham has gone into the dairy business. He started operating the dairy once operated by Eugene Shears. David began his activity about two weeks ago.

Now if Forestburgers could just find someone to really operate the local cafe it would be great. A cafe here has a good potential if operated right and good food is served. Several years ago a couple did just this - and they got so much business they had to give it up because it did more business then they could handle.

Mrs. Beth (White) Dill and Mrs. Becky (Brogdon) Scott received their B.S. degrees from TWU in Denton on Sun. Dec. 19. Beth is the daughter of Mr. and Mrs. J.W. White of the Burg and the wife of Charles Dill plus the mother of three children - Keith, Kody and Keisha. Becky is the daughter of Mr. and Mrs. Barney Brogdon and the wife of Larry Scott all of the Burg - plus the mother of a daughter, Jennifer.

The Forestburg United Methodist Women had their annual Christmas party Wed. afternoon, 2 o'clock Dec. 15 in the home of Mrs. Marion Sockwell. The afternoon's festivities were led by Mrs. Laura Belle Jackson, then a gift exchange followed by visitation and refreshments. Present were the hostess, Mmes. Esther Shears, Alice Shears, Lucille Littell, Laura Belle Jackson, Dorothy Thompson, Decie Ellzey, Vera Mae McGee, Cleo Lanier, Betty Reynolds, Cleta Reynolds and Ruth Harris. The group presented gifts to Mrs. Lizzie Gardner, who was not present, as their special guest for the season.

Thursday night Dec. 22 the "Little Country Church" at Dewey had a Christmas get-together. It was for all Dewey folks, their friends and relatives. It was time for visiting with refreshments and a nice Christmas tree and gifts for the small ones.

The Methodist Young Adults, youth and youngsters plus friends went Christmas caroling Wednesday night Dec. 22. After they gathered at the Jack C. Dill home for a party and refreshments.

Mr. and Mrs. Dude Berry

attended funeral services for Jim Parks of Denton on Friday Dec. 24. He was the father of Mrs. Mike Berry (Dude & Bula Mae's daughter-in-law) and the uncle of Mrs. Jim (Lutie) Embry of Saint Jo.

Mr. and Mrs. Donal Steadham, Charles and Kay plus Mr. and Mrs. Jimmy Steadham, Diann, Doniece, and David, Mr. and Mrs. Larry Dill and children gathered at the home of Mrs. Emma Steadham for their Christmas Eve party.

Mr. and Mrs. Perryman Denham visited with his mother, Mrs. Joe Denham, Bellmire Home, Bowie, Friday afternoon Dec. 24.

Millie and Web Reynolds and Mrs. Wanda Perryman cooked Christmas Day dinner, loaded it in their car and drove up to Wichita Falls to share it with Millie's brother and wife, Bailey and Gladys Perryman.

Chris Carter of Windthorst arrived at the home of his grandparents, the Jack Carters on Christmas Day and visited with them until Wednesday Dec. 29.

Spending Christmas Day with Merle and Clifford Hudspeth were their children and grandchildren plus great-grandchildren. They were Mr. and Mrs. Gerald O'Brien and three sons, Gerald's mother, Mrs. Vivian O'Brien, Mr. and Mrs. Charles Barber and Angie plus Charles' sister Melinda Barber, and Mr. and Mrs. Raymond Woods and family all of Wichita Falls, Mr. and Mrs. Doyle Lynch and Rayann, Mr. and Mrs. Dale Hudspeth and family all of the Burg and Lecia Lynch of Arlington.

On Sunday Dec. 26 Mr. and Mrs. Gerald O'Brien and three sons of Wichita Falls, Mr. and Mrs. Archie Peers of Krum, and Mr. and Mrs. Jerry Nivers of Denton all headed for a Ski Lodge at Breckenridge, Colo., west of Denver. They intend to spend a week there to do some skiing. Mrs. Peers and Mrs. Nivers are sisters and aunts to Mrs. Gerald (Margaret Hudspeth) O'Brien. All I can say is that they were a mighty bunch of brave souls to venture up there with the blizzard conditions that existed.

Mr. and Mrs. David Wates of Abernathy spent Sunday Dec. 26 with Mr. and Mrs. Dale Hudspeth and family.

grandchildren; and 8 great-great-grandchildren.

The Christmas season is but memories now, some so very happy and some perhaps not so happy. One lady told me that she had read that many of this year's Christmas presents would be next year's garage sale items. Well, perhaps and perhaps not.

As we start a new year I would once again like to remind the readers of this column that if they wish for this column to continue, then I need them all to share their news items with me. It is absolutely impossible for me to call or contact everyone thus I would appreciate your calling me or sending me your news items via mail. Otherwise, I am afraid I may have to discontinue the writing of this column. As I've said before - it is only as good as you, the people, help me to make it. So with that Perryman and I want to wish everyone a very Happy New Year - and especially a healthy one.

## MHS splits two with Slidell

Muenster High teams started their district basketball race Tuesday night by dividing a pair of games with Slidell. The Hornets were 57-49 losers and the Hornettes were 29-22 winners.

A strong fourth period in which they outscored their visitors 16-5 got the win for the MHS girls. In the preceding three periods both teams were ice cold and Muenster trailed by counts of 6-4, 12-8 and 17-13, but then MHS got hot while Slidell remained cold. Leading MHS scorers were Stephanie Richey 9, Paula Russell 8, and Rita Walterscheid 7.

In the boys game Slidell led 10-9 and 28-21 the first two periods and gained to 46-33 in the third. Finally Muenster improved and trimmed the margin by 5 for the 57-49 loss. Kevin Felderhoff led the scoring with 21, Wayne Carroll added 10 and Kevin Wolf 8.

JV boys of Muenster were one sided losers in the preliminary game. After a 7-7 first quarter tie Slidell gained in the next three for leads of 24-19, 36-21 and 48-23. John Anderle scored 11 for Muenster.

Muenster teams will go to Forestburg Thursday for their next action.

## SH opens district play with two losses to Notre Dame

Sacred Heart High started its TCIL district competition Tuesday night with a pair of last minute squeaker losses to Notre Dame of Wichita Falls. In each game SH was

overtaken in the last minute and lost by two points.

In the Tigerettes game the score was tied with 22 seconds to go when ND stole the ball and took the lead 41-39 with a layup. In remaining time SH missed a 12 footer and was fouled getting the rebound, then missed the resulting free throws. Failure on free throws was a big factor of the game. SH made only 3 of 12.

Until the final minute Sacred Heart held the lead with scores of 12-9, 26-21 and 32-28 ending the three periods. Scorers were Anne Felderhoff 16, Susan Walterscheid 15, Marilynn Hartman 4, Laurie Endres 2, Karla Hartman 2.

The Tigers game was very similar with SH losing in the last minute. Knights went

ahead 55-53 with 25 seconds to go and Tigers responded with a tying basket, and Knights made the winning shot a second before the buzzer. Again foul shots were a factor. SH made only 7 of 14. The Tigers led 3 periods by counts of 14-12, 28-24 and 45-40 before losing in the final second. Scorers were TJ Walterscheid 18, Curtis Henscheid 15, Neil Hesse 12, Greg Walterscheid 10.

Next action will host Alamo of Amarillo Friday at 6 p.m.

## SH closes regular season with two wins

Sacred Heart teams started the new year on a happy note by winning both ends of a double header with the ever potent Forestburg High. The Tigers won 65-55 and the Tigerettes 46-38. Both teams have a 10-4 record as they enter TCIL district play.

In the opener the SH girls took a 14-10 first quarter lead and Forestburg nudged ahead for leads of 24-23 and 32-30 in the second and third periods. But Sacred Heart hit a hot streak while Forestburg cooled off in the fourth and the end result was the 8 point win for Sacred Heart.

Susan Walterscheid led the SH effort with 19 points and 14 rebounds. Anne Felderhoff scored 15, Marilynn Hartman 6, Laurie Endres 4 and Sandra Walterscheid 2.

Big second and third quarters did the job for the Tigers. Starting with a 10-10 first quarter, they soared to leads of 27-14 and 53-32 in the second and third before giving up 11 points of their margin in the fourth and winning by 65-55.

Greg Walterscheid scored 16 for the Tigers, Curtis Henscheid was next with 15 and 8 rebounds. TJ Walterscheid hit 14 and Duane Haverkamp 8.

## A First Texas 80's Report: On Money Market Investments.

**"Only one plan offers you an escalating interest rate. Plus a lot more."**

Today, a lot of places offer money market investments. Banks have them. So do brokerage houses. But only First Texas has *Money Maker Plus*. It's a new type of high-yield investment designed with many pluses to help you beat the 80's.

**+Plus:**  
**An escalating interest rate.**

The first and biggest plus is the interest rate. It's escalating, so the more you invest, the higher your interest rate. And throughout 1982, First Texas interest rates were consistently higher than the average rates of money market funds.

Under				
Deposits:	\$2,500	\$2,500	\$5,000	\$10,000
Rates:	5.25%	9.50%	10.00%	10.50%

These sample rates illustrate the increments of this investment. Actual interest rates will probably differ and may vary daily.

**+Plus:**  
**It's insured.**

Another plus is that your principal and interest are insured safe up to \$100,000 by the FSLIC. You also have immediate access to your money.

**+Plus:**  
**Check writing, and a free regular-checking bonus.**

With the First Texas *Money Maker Plus*, after a minimum opening deposit of \$2,500, you can write checks, pre-authorize drafts, and make additional deposits or withdrawals of \$500 or more. There's a checking bonus, too. When you open this account, you'll receive a free First Texas regular checking account for one year.

**+Plus:**  
**It's only at First Texas.**

Other pluses include no activity charges or management fees, and you even receive a monthly statement of your account.
