NUMBER 23

Muenster is ready for Germanfest

Final preparations for Germanfest are under way at the city park this week. The huge 180 x 60 foot tent was erected Monday after which work started promptly on setting up the 23 concessions that will be located there, along with some 15 other concessions that will be scattered elsewhere on the grounds.

Estimates are that attendance will be higher than last year, in keeping with the trend which has applied since the start nine years ago. However, weather is expected to be a factor.

A pair of signs are pre-registrations for the German Fun Run and the bicycle rally. Both are reported to be ahead of last year's

sign-ups. Dan Hamric said the fun run had about 2500 entries Monday whereas it had 2000 at the date last year. The number, expected to be 4000, turned out to be 4200. Now the guess is 4500 and could reach 5000 if weather is right. The bike rally, according to Monica Hess, reached 290 on Monday and with luck can reach 700. It had 425 last year. Encouraged by such indications, Co-chairmen Wayne Klement and Alvin Fuhrman have hopes of surpassing last year's 50000 attendance.

The anticipated crowds will be welcomed by a number of additions and changes. One of them is an electrical line for a wider range of bright lighting plus more power to some concessions. Also concessions were re-arranged to spread the crowds to avoid the discomfort of confinement to limited space. In addition more attention is given to the German theme in decor and costume in the booths. Again an award will be presented to the concession that follows the theme most closely.

As usual, the principal activity will be the German Fun Run, which is expected to set another record. Favored performer is Juan Zetina, last year's winner and also the No. 4 finisher in this year's Boston Marathon. The race will be run in 15K and 5K divisions beginning at 2 p.m. Sunday.

Another activity, still fairly new but growing fast is the bike rally at 11 a.m. Saturday. It will be divided into three courses with distances of 100K, 65K and 35K. The longest route includes the towns of Rosston, Forestburg, Saint Jo, Bulcher and Muenster. Drivers on that road for several hours after 11 a.m. Saturday are asked to watch for the bikers.

Still more races are those of motorcycles and 3-wheelers at noon Saturday at the west side of the park. There will be 4 classes of motorcycles and six classes of 3-wheelers.

And tug-of-war contests will be held each day of the fest...at 7 p.m. Friday, 3 p.m. Saturday and 4 p.m. Sunday.

As regards food and

drinks, they will be abundant, featuring German dishes, tons of sausage, kegs and kegs of beer, barbecue, fried chicken, nachos and a great variety of cakes, pies and snacks.

Under the heading of entertainment, it will be near constant at the pavilion as well as the Coor's stage with the appearance of a number of musical groups and opportunity for dancing to

most of them, especially at the pavilion. In addition there will be free street dancing Friday at 8 and Sunday at 8:30 to 10 plus a VFW dance Saturday 9 to 1.

Also on the program are special acts like jazzers, belly dancers and umpteen contests ranging from pretty baby, pretty smile, pretty eyes to beards, beer bellies and tobacco spitting. The slogan is "not a dull moment."

Arts-crafts fair is added feature

Something new and different at this year's Germanfest is an arts and crafts fair on the second block of Main Street directed by Gary Fisher. It will be open Saturday 10 to 6 and Sunday 12-4 with about 20 stands at the two sides of the street. The object will be to show and sell. Exhibitors will have principally articles made by

themselves, but in some cases they will also have items consigned by others.

The fair will have the benefit of recent decorations for the festival. Planters in front of business houses have been painted and vegetation added. The Muenster Garden Club planted flowers and Fisher planted shrubs.

Stenholm will visit

Friends of Congressman Charles Stenholm will have an opportunity to visit with him Saturday of next week, May 5, when he comes to Gainesville as speaker at the

annual Upper Elm-Red Soil Conservation District awards banquet. He will be at a reception 4 to 5 p.m. on the third floor of First State Bank in Gainesville.

Sewing factory sold

With the closing of this week an 18 year era ends in the ownership and operation of the community's sewing factory. The Jerrell plant, maker of Jr. Elite dresses will become Cameo Coutures Inc., maker of Cameo lingerie. The building was sold recently by the Weinzapfel Estate to John and Stan Fredrick of Dallas, who intend to start production as soon as they can get the operation organized.

The brothers are somewhat like home folks to people of this area. They have owned a farm near Bulcher for several years and now are building a house on it for a combined

part time home and business location.

The factory will be the third in their operation. Presently they have a plant at Fredrick Okla. and one at Juarez, Mexico, and also have five contractors making lingerie for them in other plants. Their intention is to bring some of the present contract work here as soon as convenient. They will begin small, hiring help as equipment is set up, and expect eventually to operate at plant capacity. They intend their employees to be mostly experienced personnel from the Jr. Elite plant. Management includes John Fredrick as president, Stan

More Germanfest parking space

Parking will be less a problem at the Germanfest this year, the big improvement being space for some 2000 vehicles on the vacant lot west of the AMPI plant. Police Chief Helen Tompkins said the entrance will be at the northeast corner of the lot and a pedestrian exit gate will be at the southwest corner diagonally across from Germanfest at the intersection of Highway 82 and Maple Street. Security police on horseback will be on duty for the duration.

Other parking space will be available at both sides of

Cross Street, south of the park, and all over town. Persons parking uptown as well as uptown residents will again find free van service to the park by courtesy of Wilde Chevrolet and Endres Motor.

Chief Tompkins said security is more than adequate. Along with the usual staff there will be the mounted police at the AMPI parking lot plus liquor control personnel. Their principal job is to watch for drinking by minors, in which case a person giving beer to a minor is equally guilty with the minor.

Blood drive date is Thursday, May 3

The community's first blood drive of 1984 is dated for Thursday, May 3. David Bright, community chairman and administrator of Muenster Memorial Hospital, emphasized the fact that this date is Thursday rather than Wednesday and urged all donors to mark their calendars accordingly.

He said the next available Wednesday is after the

schools close when many student donors are gone, so he and the Wichita Falls blood center cooperated in choosing a Thursday. Personnel of the Red Cross blood center will bring their bloodmobile here on the 3rd and set up, as usual, in the K of C Hall.

Until then local personnel are getting out the word to the community via postals, posters and phone calls.

Ronnie Emerson is the new man on the Muenster police force, succeeding Larry Holloway who resigned recently. Emerson has 9 years of experience, having served at Nacogdoches, Baytown and Mt. Enterprise. Before that he spent 7 years as a cost engineer of Brown and Root of Houston. He said he made the change because police work offers more opportunity to work for and with people. His special training as an officer includes accident investigation and traffic control. Emerson and his wife and two children moved to Muenster two weeks ago. They have located their mobile home at Sylvan's trailer park.

Good News

Sirach 1: 1-4

All wisdom comes from the Lord and with him it remains forever.

The sand of the seashore, the drops of rain, the days of eternity: who can number these?

Heaven's height, earth's breadth, the depths of the abyss: who can explore these?

Before all things else wisdom was created; and prudent understanding, from eternity.

Walk in the light

BACK IN the old days when I was younger and went to the movies more often than I do now, I would notice that when I first walked into the movie theater I couldn't see anything. I was afraid to move for fear of running into somebody. After standing there for a few moments, I would soon be able to make out people, seats, and the aisle.

A similar story is told of a family that spent an overcast night deep in Michigan's Northern Peninsula where it becomes extremely dark in the woods. While staying at a cabin there one time, the family noticed that when they first stepped outside they couldn't see a thing. After a little while, however, their eyes grew accustomed to the darkness. Soon they could distinguish shapes, and before long they were able to follow the path down to the lake. When they had been away from the light long enough they began to feel at home in the darkness. But that could be

dangerous, because they still couldn't see everything that might be lurking in the shadows.

I'm sure you can see the spiritual parallel. When we've been saved awhile, we are comfortable in the light. Occasionally, however, we're tempted to be back into the worldly way of darkness. But because we are used to the light, we can't see in the dark so we quickly return. If we don't, we face a subtle danger. The blackness often doesn't really seem so bad anymore. What started as a brief exposure to the darkness soon becomes a familiar way of living.

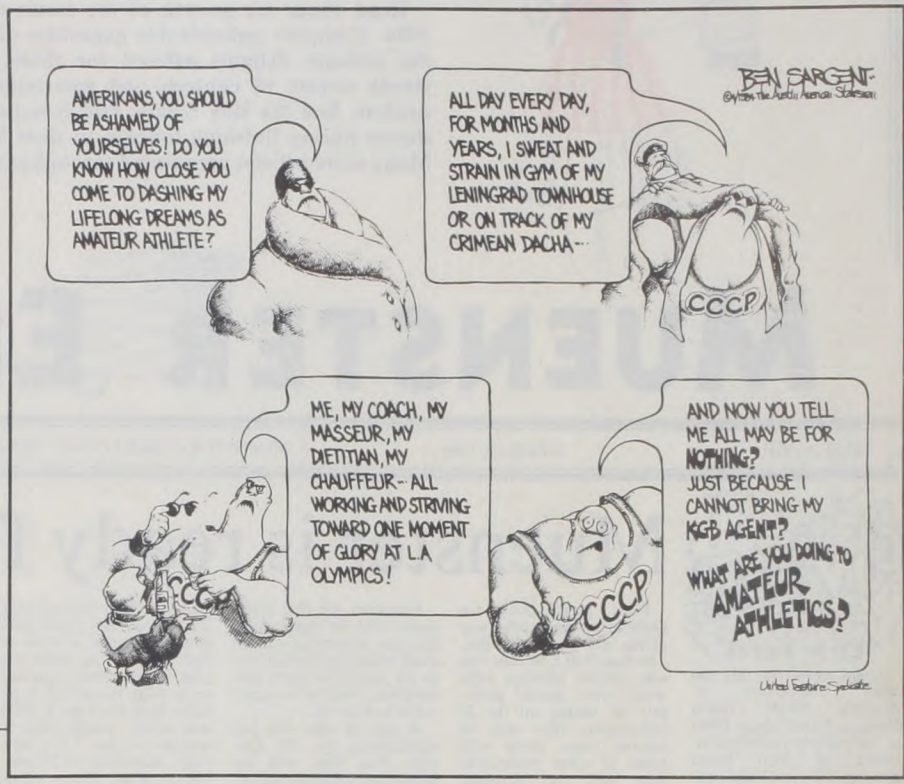

When a person has been trying to live a Christian life, and he strays onto the path of darkness, his guilty conscience soon causes him to return to the path of light. However, if he continues in his sinful life and turns his back to the teachings of Christ which he once followed, it is not long before he gets accustomed to the darkness and it is harder for him to return to the

Christian life he once lived.

In the same way, if a person who once attended church regularly begins to miss church services for whatever reason, the longer he misses the harder it is for him to ever get back to attending on a regular basis. He has grown accustomed to the darkness.

The good news is that we don't have to stay in the darkness. Isaiah 9:2 tells us, "The people who walk in darkness will see a great light; those who live in a dark land, the light will shine on them." Jesus said in John 12:35, "Walk, while ye have the light, lest darkness come upon you: for he that walketh in darkness knoweth not whither he goeth." Christian friend, don't flirt with danger by walking down a path that leads to darkness. You'll find the going much safer if you stay in the light.

Remember, God did not leave us here to get used to the dark but to walk in the light.

UNESCO: the promise

A VERY significant action has just been taken by the Government of the United States: It has informed the United Nations Educational, Scientific and Cultural Organization (UNESCO) that it is reappraising U.S. participation in that organization.

For over thirty years, those of us actively concerned with the struggle for individual freedom have recognized the threat posed by the United Nations and many of its specialized agencies and autonomous bodies such as UNESCO.

We have long known the goals of both organizations were inimical to the best interests of the American people. Finally, Thank God, the outrageous rhetoric and programs of UNESCO have begun to arouse even those into have been generally complacent. This is especially true of the media which has had its own ogored.

Confetti

continued from page 1

High blood pressure is especially dangerous because it has no clear signs. A person can have it and not even know it. It doesn't hurt, and it usually doesn't make a person feel sick or dizzy or nervous. As a result, many people with high blood pressure can live for years without knowing they have it.

That's why it's so important for people to get their blood pressure checked regularly and, if it is high, to follow the treatment their doctors prescribe. Along with drugs, weight loss for the overweight, exercise, and salt restriction are among the most important ways to treat high blood pressure.

Most people think UNESCO is a part of the United Nations. It is not. It is an autonomous organization which happens to have a close relationship with the U.S. It has its own Constitutions, its own budget, its own headquarters, staffed with its own bloated bureaucracy.

Members of UNESCO do not have to be members of the United Nations. It is often referred to as a "specialized agency" but in fact it is an "autonomous body." So when we are discussing UNESCO, we're really not discussing the U.N.

At the present time, UNESCO is made up of 158 member nations. In point of fact it is the world's largest "think tank" with over 2,500 personnel on its Paris headquarters staff alone. Many more are employed at its other subsidiary organizations in various European cities. Its triannual budget, both assessed and non-assessed for 1981-

83, is more than \$1 billion, of which the United States contributes more than 25 percent. (p. 42)

UNESCO is one of the world's largest publishers, bringing out 4 or 5 books a week, year in and year out. Up through 1978 it had published 7,000 books in 70 languages. It issues some 13,000 documents every year totaling hundreds of millions of pages. (p. 42)

It is the world's most aggressive promoter of conferences. In 1982 alone it sponsored 240 international gatherings on subjects within its areas of responsibility.

UNESCO is based on the premise "that since wars begin in the minds of men, it is in the minds of men that defences of peace must be constructed." Like the Constitution of the U.S.S.R., that of UNESCO reads beautifully. It is full of felicitous phrases.

The document says those forming the group believe "in the restricted pursuit of objective truth, and in the free exchange of ideas and knowledge" — that they are going to collaborate among the nations "in order to further universal respect for justice, for the rule of law and for the human rights and fundamental freedoms which are affirmed for the peoples of the world..."

Such are the principles of UNESCO. How, then, is it possible that many of its members do not subscribe to any of these principles?

That question points directly to the present-day problem in UNESCO: The organization has abandoned its principles.

LOYALTY DAY PROCLAMATION

WHEREAS the progress, tranquility and worthy influence of our city depends in large measure upon the determination of its citizens to create and to maintain vigorously the loyalty practice of true American ideals and ...

WHEREAS it behooves us to periodically take stock of our achievements in such matters and to strengthen our stance against any influence either foreign or domestic, which might threaten to disturb our preferred way of life, and ...

WHEREAS there is in our nation evidence of some subverting forces endeavoring to undermine and destroy American unity, now,

THEREFORE, I, Ronnie Felderhoff, Mayor of the city of Muenster, do hereby concur with our national and state leaders in praising the concept of

LOYALTY DAY, celebrated on the first day of May; and in further support of that special occasion I do urge every citizen, school, church, organization, business establishment and home within my official jurisdiction to display the flag of our country proudly and to participate in public demonstration and ceremonies sponsored by the Veterans of Foreign Wars of the United States, and others, on

LOYALTY DAY, May the first, nineteen hundred and eighty-four.

To the editor

Dear Editor,

It is my attempt in this letter to inform the voters as to how candidates stand on the abortion/Pro-life issue.

One of the most important races is for U.S. Senate. The two Republicans running for this position vacated by Senator John Tower, are Phil Gramm and Ron Paul. Both are definitely Pro-Life or anti-abortion in their beliefs. Only one Democrat, David Young, shares similar views with Gramm and Paul. One other candidate, Harley Schlanger has indicated he leans towards the Pro-life

view but has not responded to all questions put to him about Pro-life legislation.

Bob Krueger, Kent Hance and Lloyd Doggett have all indicated a strong Pro Abortion stand. I feel the legalized murder of our unborn children is the most important issue facing our congressmen today, therefore based on the above information, I urge you to vote for Phil Gramm (Rep.), Ron Paul (Rep.) or David Young (Dem.).

Sincerely,
Roger Taylor

To the editor

The Select Committee on Public Education chaired by H. Ross Perot has recommended that the state cut funding for Vocational Education.

The first and final draft of the recommendation reads as follows: "School districts will have the authority to offer vocational and distributive education courses as electives, but such electives will receive no special state financial support."

The wording of this recommendation asserts that the committee does not understand Vocational Education. The Select Committee refers to "Vocational and distributive education" is 1 of 9 programs offered. The nine vocational areas identified by the U.S. Department of Education are agriculture, distributive education, health occupations education occupational home economics, consumer and homemaking education, office occupations, technical education, trade and industrial occupations, and industrial arts.

Senator Bill Sarpaluis, D-Amarillo, in the article "Vocational Education Importance Backed," states that "Any scaling back or reduction in state dollars for vocational training would force local school districts, already strapped for funds, to choose a local tax increase or elimination of programs."

As a result, districts might decrease the number of vocational programs which in effect decreases the options for students desiring vocational training.

According to the "Texas Vocational Consortium News," the Texas Research League sent a questionnaire to 19 of 1,099 school districts. Of the 12 which responded, Temple and Edgewood (San Antonio) were largest. Some had an ADA of approximately 400. TRL reported that 25 percent of the instructional dollar at the high school level is spent on Vocational Education. If indeed the preliminary findings of the TRL are validated, and the fact that 80 percent of jobs require less than a baccalaureate degree, then Vocational Education is a bargain at 25 percent. Of the 1981-82 program completers, only 5.12 percent were unemployed at the time of follow-up.

Sure, Vocational Education is expensive, but so is welfare and all other special programs. If state funding for Voc Ed is cut, schools could lose some federal funding. Federal grants depend on matching state grants.

If one would look at all the equipment in some of the programs, one could understand why Voc Ed is expensive. A math teacher can teach in a room with desks and books. A vocational teacher has to have much needed specialized equipment for skills training.

The "Year 2000" report states that by the year 2000 eighty-six percent of jobs will be of the technical and vocational nature. It asserts also that skills training will be in demand in this highly technical society.

Therefore, let's not take away options for our students. Vocational Education can give them vital life skills and help them to become productive citizens.

The Smith-Hughes Act of 1917 placed Vocational Education in our public schools with the courses of Home Economics and Agriculture. It has grown from that point to fill the needs of students and society. Unless informed citizens unify and fight by writing their Representatives, Senators, and Governor, a way of life that we have known may be no more. I feel that the issue is critical. I feel that we as educators must look to the needs of the students rather than the movement of this time.

Please join me in this effort.

Sewing Tips

Here are a few tips on "Sewing For Kids". Reinforce buttons by sewing a square of seam binding or another button directly under the outside button. Snaps, snap tape and selfgripping fasteners won't pop off like buttons do and are easier for the child to fasten.

Add patches inside knees and elbows when making garments. This will give them longer wearability.

Strengthen pockets with a bar tack at top corners.

Add a few inches to shoulder straps to be let out later.

To salvage an 'Already outgrown' dress, add a ruffle of contrasting print or solid to bottom of skirt wide enough to give the dress desired length. Add a collar or sleeves of the same matching fabric for balance and to keep the dress from screaming "Made Over".

When letting down a hem, cover the old hemline with trim. Add matching trim to bottom if all the hem is let out.

Please tell the Enterprise about your guests during Germanfest week, by phoning 759-4311 or 759-4351 or by mailing to Box 190 Muenster, Tx. 76252.

Early childhood screening May 7

Each year an Early Childhood Screening is held to attempt to identify children at an early age who are suspected of having problems which could be corrected before entering school. Many problems can be corrected if treated early and those which are not fully corrected can be treated much more successfully if early intervention takes place.

If you have a child or know of a child who has problems such as: not talking at an age by which most children talk (or if speech is not intelligible); not sitting or walking by the normal age; does not seem to hear or see as he should; does not behave or learn appropriately for his age, please call 759-2282 or have the parent call the school for an appointment for screening on May 7 at KC Hall.

Please tell The Enterprise about your guests during Germanfest week, by phoning 759-4311 or 759-4351 or by mailing to Box 190, Muenster, Tx. 76252.

Growth of Germanfest reviewed

MHS coaches Peter's and Gustine build the Fry Hut for the Quarterback Club fried chicken booth.

In scope of entertainment and sophistication of crowd management, Germanfest 1984 is a far cry from its beginning in the bicentennial year of 1976. Even more so, it is a world apart from its forerunner, Schutzenfest, the three day festival of Muenster's early day pioneers.

However, the kindred spirit of both is undeniable. Gemutlichkeit! is much in evidence. Fellowship, friendliness, good will, good food, a spirit of reunition, the delight of "coming back home", and a warm welcome that is eagerly offered, awaits each guest; in a word, "Gemutlichkeit!"

Sponsored by the Muenster Chamber of Commerce, Germanfest 1984 is in its ninth year.

In 1976 the event was called German Week, a four-day festival reflecting ethnic heritage, with Leonard Endres as chairman. It opened on a Wednesday evening with an historical pageant sponsored by the PTO in the Muenster High School auditorium. The pageant included presentation of the Flag that had flown over the National Capitol, designated for use

here by Congressman Omar Burleson, and brought to Muenster by Annapolis Naval Academy Student, Ray Luke. He presented the Flag to Chamber of Commerce President, Bertha Hamric during the pageant.

A Queen's Pageant followed on Thursday night, sponsored by Muenster Hospital Auxiliary in the Community Center, for selection of Miss Muenster. Nineteen young ladies competed and Barbie Hess won the coveted crown.

Dances were held on Friday and Saturday nights, and a very formal ball on Sunday night concluded the festival.

The Muenster Public Library held a special exhibit of antiques and personal keepsakes, sponsored by Friends of the Library; Sacred Heart School held a special Art Show and the community opened its arms to former residents, relatives and area friends to extend a welcome.

The main tent for festivities and 20 concessions was located on the parish parking lot. There was food galore and abundant refreshment. Attendance for the four days was estimated at 5,000.

The first 10 mile German Fun Run, sponsored by the Knights of Columbus with Dan Hamric in charge, drew 251 participants, who praised it as one of the best organized they could remember in their running careers. The entire community basked in the glow of its most successful community event.

Alvin Fuhrman was Germanfest chairman in 1977. The Miss Muenster Pageant with 15 contestants was held in the MHS Auditorium, sponsored by the Quarterback Club and Debbie Zimmerer was the winner.

The big tent was placed again on the parish parking lot. Front steps of the Community Center

provided an outdoor stage for entertainment and programs, with Frank Luke as entertainment director. There were 569 runners in the German Fun Run, with Dan Hamric and Ronnie Hess as co-chairmen. The three-day total attendance was estimated at 12,000.

Johnny Pagel was chairman in 1978. The festival was moved to the Muenster City Park, whose great, ancient trees that saw the first Schutzenfest, again provided ideal shade for the Beer Garden and many picnic tables.

Beta Kappa of ESA sponsored the Miss Muenster pageant, won by Cindy Sangster. There were 1345 runners registered in the German Fun Run with 1165 finishers. Each year their praise for an efficiently managed event increased. Estimated crowd total was easily over 30,000 for the three days. Each year when planning stages began special attention was always paid to reception, parking, traffic assistance, fire safety and first aid.

Each year members discussed special community improvements, fixing up, painting, mowing and trimming, special decorations, striving for an image promoting the German tradition of cleanliness and neatness, with city and community improvements at heart rather than just reaping profits. Through the years, profits were plowed back into community im-

provements, support of sponsoring organizations, and charity.

In 1979 a parade opened the big show on Friday afternoon. Alvin Fuhrman served his second year as chairman, with Janie Monday and Johnny Fisher as co-chairman. Excellence of entertainment, numbers of visitors, quantities of foods provided etc. continued to

grow. The Fun Run set new records each year, with 1402 registrants and 1066 finishers in 1979. Crowd estimates again reached 30,000 and Cathy Flusche was named Miss Muenster. Weather that year was a constant worry as well as parking problems that hovered closely, considering the detour caused by re-routing of traffic on High-

way 82 after removal of the overpass. But luck held as the weather stabilized, except for the chill. Dick Ferber was Traffic Director that year.

Most of the steady succession of programs and entertainment was held in the Jaycee Pavilion. New that year for the Jaycee beer concession was a specially built refrigerated truck with kegs inside attached to 32 outside spigots, each identified by brand names it dispensed. A bar the length of the truck facilitated service and waiting aisles were simulated by guide-ropes and poles. New also were Germanfest souvenir cups.

In 1980 two huge tents were needed for the 32 concessions. A shuttle bus service from mid-town was organized for convenience and comfort and to ease parking problems for some. Many campers enjoyed the use of the ball park for the weekend. Monica Hess and Dick Ferber were co-chairmen. Dedication of an historical marker for the city of Muenster followed the opening parade; it was dedicated to Muenster

pioneers.

Fun Run registrants totaled 2,010 in 5 km and 15 km divisions, and experienced crowd guessers set the total attendance at over 30,000. The guest book, attended by the Al Wiesmans, growing through the years, continued to reveal names and addresses from hundreds of Texas and Oklahoma cities, 32 other states and 17 foreign countries.

In 1981, co-chairmen were Dick Ferber and Alvin Fuhrman. As the crowd total grew, security became one of the priority concerns, since the primary intention of sponsors was to provide a pleasant, safe atmosphere for visitors. Special arrangements were made with county and city officers for highly satisfactory and complete surveillance.

Variety and quality of entertainment increased and a new Fun Run record was in sight, but just barely. It had 2,040 registrants with 2,018 finishers. The amounts of food consumed made an unbelievable story in itself. Good service and courtesy became the identifying marks.

A total of about 40,000 were in attendance over the three days.

A huge 6 1/2 x 13 ft. banner, gift from the mayor of

Munster, Germany, dominated one wall of the Jaycee pavilion.

In 1982, a jam-packed schedule of entertainment awaited the expected jam-packed crowd, under direction of Alvin Fuhrman and Dick Ferber. There were 36 concession booths, 24 in the enlarged tent, 12 in other convenient areas. The first Germanfest Bike Rally with

119 participants was added to last year's skill riding Motorcycle Road-co. Germanfest was a giant; some estimates were between the 50 to 55 thousand in the three days. Overall, the atmosphere was pleasant and orderly, and a credit to the courtesy of all who joined in the effort, inspiring frequent praises by amazed and delighted visitors. The Fun Run had 3250 entries.

In 1983 Wayne Klement and Alvin Fuhrman were co-chairmen. The Fun Run became the second biggest in the state, with 4,179 runners who paid their fees. Attendance for the three days remained about the same as 1982. To adhere more clearly to German tradition and heritage, the Chamber of Commerce offered a prize to the booth and its owner who followed that theme. Mrs. Kathleen Shanks, the former Kathy McGannon won the handsome prize beer stein made by Flo

Walterscheid of Flo's Ceramics. Mrs. Shanks sold soft German pretzels and pretzels containing slices of summer sausage.

Indicating the size of Germanfest in 1982 consumption of food and drink was reported at 8,250 lbs of sausage, 1700 lbs of potatoes, 430 lbs of cheese, 750 chickens, 550 lbs of bratwurst, 307 gallons of kraut, 2670 slices of strudel, 2,000 nachos and 593 kegs of beer. No estimate could be made on countless gallons of lemonade, ice tea, soft drinks and such culinary delights as hundreds of home made cakes, breads, rolls, cookies, candies.

The above amounts,

compared to foods served in 1978, when first reports were kept is indicative of the phenomenal growth of Germanfest. In 1976 there were 3200 lbs of sausages, 160 gallons of hot potato salad, 54 gallons of kraut, 500 fryers and 179 kegs of beer.

So many people are due credit for so much good work and good will, that it would be impossible to name everyone, but surely the Ag and Wood Shop students of Edgar Dyer and Rudy Koesler deserve wholehearted thanks for their efforts at keeping the area clean.

A complete report of entertainment available for Germanfest 1984 is printed elsewhere in this issue.

The Germanfest means fun for everyone, young and old.

Helga Beckman is a popular and regular feature at the Germanfest. Her specialty is German folk music and dance.

Motorcycle and 3-wheeler races are growing in popularity.

State qualifier Paula Russell finishes second behind Nancy Harris of Saint Jo in the 200 yard dash of last week's regional meet in Abilene. Both will run next week in the state final at Austin.

Hornettes are 6th in regional, qualify for state in 2 events

Muenster High girls tied for sixth place in the hotly contested regional track meet in Abilene last week. They had 32 points whereas the first place Eden team had 42 5/8. The region includes 8 districts with a total of about 60 schools.

The outcome was specially disappointing to Windthorst which earned first place and lost it when a frustrated runner threw down her baton after taking third place in a relay. The 12 points would have upped the total to 50 but the team was disqualified in that event leaving its total count at 38. The official score lists the

eight leaders as follows. Eden 42 5/8, Goldthwaite 41 5/8, Irion County 40, Windthorst 38, Knox City 36, Muenster 32, Garden City 32, Saint Jo 29. Other scores of District 31-A were Lindsay 13 and Era 2.

Muenster points were earned as follows. 800 m relay, Muenster 2nd, 1:49.71; Paula Russell, Judy Biffle, Rita Walterscheid, LeAnn Sicking. Knox City won with 1:49.31.

200 m dash: Paula Russell, 2nd 26.87. Nancy Harris of Saint Jo won with 26.61. Muenster qualified for the state meet in both events.

Lindsay scored as follows.

Triple jump: Gina Hellman, 4th, 33'5". Paradise win with 36'0".

Discus: Shannon Fleitman 4th, 101'8 1/2". Irion County won with 115'5 1/4".

100 m dash: Beverly Neu, 4th, 13.36. Windthorst won with 12.91.

800 m run: Gayle Hermes, 6th 2:40.64. Garden City won with 2:26.67.

The 400 m relay team was 7th in the prelim but did not run in the final.

Era scored as follows: 2100 m run: Laurie Lewter, 6th, 13:21.93. Woodson won with 11:37.84.

100 m hurdles: Kelly Yarbrough, 6th, 16.55. Knox City won with 15.44.

LeAnn Sicking finished second by a single step to give Muenster High second place in the 800 meter relay of the regional track meet last week at Abilene. Others of the foursome are Paula Russell, Judy Biffle and Rita Walterscheid. The second place qualifies them for the state meet next week in Abilene. Other MHS girls who qualified for the regional are Rhonda Trubenbach and Sharon Russell.

Little League sign-up time

Calling kids and parents and any others who are interested in a Little League baseball program this summer. Chris Sicking announced this week that a planning meeting has been set for Sunday, May 12, 1:30 p.m. in the baseball park.

The purpose is to find out who wants to play, to assign them to teams, and to hold try-outs to help assign any who did not play before. The league had three teams last year and wants 4 or more this year.

Games are to be played on

Monday, Wednesday and Friday. Hopefully the schedule will allow open dates for two weeks of June so players can attend a summer camp.

Little League is limited to boys aged 9 to 12. The requirement is to be 9 years old on or before August 1, but not older than 12 on that date.

An older team, ages 13-15, is also being considered, hopefully to play teams of the same age from area towns. Boys who fit in that age bracket are invited to come and see what can be done.

The application below is provided for the convenience of boys who wish to sign up. The completed form should be presented at Sunday's meeting.

A&M researcher
surgically corrects
knock-knees in foals

COLLEGE STATION— Although medicine often takes its cue from treatments first tried on animals, a veterinary surgeon and researcher here took his inspiration from human medicine when he developed a new technique for treating thoroughbreds and race horses.

Dr. Joerg Auer, a professor of large animal medicine and surgery at Texas A&M University, borrowed a page from the way the leg bones of children with polio were treated to develop a surgical method for eliminating knock-knees in foals.

Knock-knees are a common disorder that can often hamper or cripple foals later, sometimes predisposing them for arthritis.

Auer has performed more than 160 successful operations to correct knock-knees since he first tried the new procedure in 1980.

These Sacred Heart Tigers are qualified to participate in the TCIL state track meet this weekend at Houston. They are: front, Tim Knabe, Chris Dangelmayr, Kyle Walterscheid and Ron Dangelmayr; back, Steven Schmitt, Bret Walterscheid, Neil Hesse and Jim Bartush.

Farm & Ranch

Craig Rosenbaum

County Agent's Report

We've spent the spring fighting weeds in crops. New weeds seem to have taken over. Weeds are not our only problem in farming, and the next consideration in crops is usually "what is the insect situation?"

This past week we visited with H.A. Turney, Area Entomologist with the Texas Agricultural Extension Service, and got his predictions for the spring and summer.

The extreme cold weather this winter has helped to reduce the population of greenbugs in wheat to the level that they will cause little or no problems this spring.

It is still a little early to determine if greenbugs will be a problem to grain

sorghum producers. Weather factors occurring between now and sorghum planting will affect the amount of greenbugs available to infest the sorghum as it emerges from the soil. It appears at this time the infestations of greenbugs will be low.

The populations of greenbugs in wheat are low and beneficial insects are now increasing in number. The combination of these factors looks good for crop producers in Cooke County.

Some producers are concerned about planting grain sorghum later than normal because it might cause a

problem with sorghum midge. If the majority of sorghum blooms in a community at the same time or within two weeks of each other, then there is little

chance that sorghum midge will be a problem.

If planting sorghum is carried out over a long period of time, more than three weeks in a community,

then there is a greater risk of midge damage to the sorghum crop.

Wheat production looks good over the Cooke County area as of now.

A special invitation is extended to anyone who wants to attend. A reception in the homemaking living room will follow the ceremony.

Meeting to reveal skill test results

Tom Fluker, counselor at Muenster Public School, announced this week that results of the Comprehensive Tests of Basic Skills which were administered to children on March 20 will be revealed in a meeting on May 3 in the MHS library.

Parents of children in grades 1 and 2 are asked to come at 7:30 p.m., and those of third and fourth graders are asked to come at 8:30. The purpose is to pick up the test results and receive interpretations.

Garden project group meets April 17

The Muenster 4-H Club's Garden Project group met Tuesday, April 17 at Sacred Heart School at 2:30 p.m. Each member received tomato plants given by Wal-Mart and green bean seeds given by Muenster Garden Center. These were intended to be added to each member's regular plantings.

In July or August the group will hold a vegetable show. All county project participants will be invited. There are 18 project members in Muenster, and 40 in Cooke County. In the show they will be permitted to enter as many varieties as they care to.

Barbara Bayer and Evelyn Sicking are adult leaders of the vegetable project.

When the first settlers arrived, Muenster was designated by a scrap of paper tacked on a telegraph pole.

It pays to topdress pastures.

Pastures are too often overlooked in an otherwise comprehensive fertility program.

The fact is, proper fertilization of pasture will greatly increase meat and milk production. You'll see faster weight gain, more pounds of gain per acre, a longer grazing season and greater carrying capacity. It can also dramatically increase your milk production.

Begin with a soil test. Then apply the fertilizer shown to be needed. Add lime, if your soil is found high in acidity.

Let our Fertilizer Specialist help you. He has the know-how and we have the materials. Come see us soon. We're ready when you are.

Have you thought about a farmer for District 63? Someone who has fought wind, drought, low prices and high interest? That's right — I've been farming and ranching since I graduated from college in 1974. That's my tractor, my plow and my land in the picture below.

For the past four months I've talked about the issues and my experience as a successful businessman — I just figured that everyone knew I had a background rich in agricultural experience. True, I'm not as active as I once was — the oil business has been better than the farming business — but I've been there. And I still own property in two counties in this District.

Let my background in agriculture, energy and manufacturing work for you. Let my concern for property taxes, quality in education and wasteful government speak for you in Austin. I've been self-employed and married for the past ten years — pressure is not new to me. In Austin I can fight for Muenster area citizens — if you will let me. I would appreciate your vote on May 5, 1984 in the Democratic Primary.

Mrs. Millie Reynolds was a Bowie visitor Wednesday the 18th and called on her sister, Mrs. Joe Denham.

Days come and days go and no one calls upon us. Then comes a day and then company appears. Such a day was Wednesday April 18 when Elbert Perryman of Wichita Falls and later Mrs. Gladys Barclay and grandson Shane of Sanger paid us Denhams a visit.

Rev. Joseph Washington of Dallas and Rev. and Mrs. George A. Thompson of Saint Jo were Wednesday p.m. April 18th supper guests in the Ted Jackson home. Later on Rev. Washington preached the 7:30 p.m. Service at the United Methodist Church.

Visiting in the Kenneth Woods home Friday April 13, were their son and wife, Mr. and Mrs. Kenne Woods of Henrietta and Mrs. Ed Frenley of Alvord. Mrs. Kenneth Woods and Mrs. Frenley were cousins.

Though I generally don't tell about local folks "a-calling" on each other, here is one I must tell. According to Eula Faye Galmor this is news — she says she visited with Juanita Sunday April 15.

There is one couple I chat with on occasion to see if they have any news for the column. The lady will say "No, I guess not. No one has been to see us and we haven't been to see anyone." Perhaps the last part of her statement is the reason no one calls on them. Remember the saying, "To get a letter one must write a letter" — this pertains to visiting also.

Merle and Clifford Hudspeth attended Maundy Thursday Service at the First United Methodist Church in Saint Jo at 7 p.m.
