

FEW GAINS, MANY LOSSES TO WOMEN UNDER DICTATORSHIP, SAYS NOTED WOMAN WRITER

By HELEN WELSHIMER

There are few gains and many losses for women under a dictatorship. Few deny this truth in reference to Germany and the despotic Hitler's attempt to engender masculine superiority by setting up a household plan for women.

"Germany is not a good criterion," they say. "But what about Russia?" "Yes, what about Russia? It has been announced recently that the Bolsheviks, capitalizing on this new equality for women which the constitution guarantees, are enlisting women rapidly in the state's defensive system.

Government Backs Move

The conference made an attempt to be presented as a spontaneous action of army wives. The government undoubtedly was back of it, for the Commissars attended the sessions and approved. Certainly they deny that they have something in mind which will resemble Russia's female "battalions of death" which were on the firing line in 1917.

Women, unless an abnormal life has created abnormal desires, do not want to become trained parachute jumpers and sharpshooters. Therefore the words of one of their conference leaders, are appalling. She said: "We must prepare ourselves to catch the rifles from the fallen hands of the fallen and shoot the hearts out of our enemies."

forward to war—for a dictatorship and Communism must depend on armaments for their survival.

Fare Better in Democracy

A Democracy, such as we have, is replete with kindness and sympathy for women. We are not asked, not even permitted, to perform hazardous jobs under the blind excuse that equality of toll is being recognized. We are not asked, or permitted, to organize for war.

True Spanish women have been bearing arms. French women fought on the streets of Paris during the Revolution. Their motives are easily understandable. These women acted on the spur of an emotional impulse, because of a wrong which had smoldered within them for a long time.

Rather than deploring that we do not have an equal labor program with men, as do the Russian women, we should rejoice that we are not asked to play follow the masculine leader into the trenches.

After all, if the women of a nation become war-minded, how can that universal peace, that brotherhood of man, that federation of the world, of which poets write and statesmen talk and ministers never find a foot-hold?

It is a woman's job to work for peace, to influence man to share her views. In a democracy this privilege is hers. After all, her rights are not so limited in a nation such as the one where we hold citizenship.

FARM NEWS

Home Products Utilized

The three tank dumps on the White-Baker Ranch in Pecos county are utilized for orchards, by Mrs. J. T. Baker, demonstrator of the Bakerfield home demonstration club, and the ravines on the ranch are also set with fruit and pecan trees.

During the past year, Mrs. Baker made 150 pounds of cottage cheese, 365 pounds of butter, and 60 pounds of soap.

Ready to Entertain Mrs. Simpson

An American couple, Mr. and Mrs. Charles E. Bedaux, above, were reported preparing their chateau near Tours, France, to receive Mrs. Wallis W. Simpson. Excessive redecorations indicated that Mrs. Simpson's marriage to the Duke of Windsor might take place there.

In addition to the fruit and nuts used by Mrs. Baker, the trees and a vineyard furnish fruit to the families living on the ranch.

WENDELL MAYES, Editor JOHN BLAKE, Business Mgr.

Unless there is a definite change in our attitude toward violators of traffic laws, the accident problem will never be solved with modern automobiles on highways.

Less Speed—Less Killing. The annual death toll which last year passed the 38,000 mark, will grow larger, not smaller.

A high percentage of automobile accidents, and especially those of the more disastrous type, are wholly or partially the result of "alcohol at the wheel."

Experience has proven that a substantial percentage of drivers cannot be educated into safe practices. Nor can they be frightened into them.

Our dilatory attitude in the matter of accident prevention has its ghastly reflection in the statistics. Old ideas of traffic control and driving requirements must be superseded by restrictions adapted to faster cars, better highways, and the constantly increasing traffic congestion.

Many a fire that might have been quickly extinguished with little loss has become a conflagration—because of the common lack of understanding of the availability and use of fire alarm boxes.

Where Speed Is Essential. The larger cities can afford fire alarm systems and that small and medium-sized communities must bet along as best they can without them.

The National Board of Fire Underwriters cites the true case of a man who dashed out of a burning building and sprinted more than a mile to the firehouse to report the blaze.

The National Board states that there are systems suitable for any sized community, at a moderate cost. To do without any essential fire protection device is the most wasteful sort of "economy"—cents are saved at the risk of dollars.

The value of time cannot be exaggerated in a fire crisis when minutes are all that stand between the community and destruction.

The Federal government—like all other units of government of great size—is wasteful and inefficient. There is duplication of effort.

Government Reorganization. In some cases, ten to twenty bureaus exist for a job which could be done by one or two.

These are facts recognized by practically everyone. In the course of its history, the government has, like Topsy, "just grown." Often it has grown without rhyme or reason.

As a result it is widely felt that there is a strong need for Federal reorganization. The highly conservative Senator Byrd has made a study of the subject and offered recommendations. The President appointed a "Committee on Administrative Management" to investigate and advise on possible changes.

This Committee has now made its report. As diagrammed by The Capitol Daily, it recommends extensive reorganization within the framework of the constitutional "checks and balances" plan.

There are now ten major executive departments, State, Treasury, Justice, Post Office, Navy, War, Commerce, Agriculture, Labor and Interior. Two new departments, whose heads would be cabinet members, would be created—social welfare and public works.

There are two main reasons why government reorganization is desirable—efficiency and economy. Unhappily, these ends are not always compatible when politics is involved.

It is probable that a White House sponsored plan, similar to that recommended by the President's Committee, will be introduced in this session of Congress.

The only Roman town gate still in use in England is the Newport Arch at Lincoln. Archeologists believe that it was built between 50 B. C. and 50 A. D.

Terracing. West Texans, among the first to realize the advantages of terracing and contouring to conserve soil and moisture, are protecting their land at a faster rate than ever before, reports from county agricultural agents indicate.

In Coleman county, four crews of boys furnished by the National Youth Administration, supervised by instrument men hired by the Extension Service, and under the technical direction of the county agricultural agent, ran terrace and contour lines on 2,970 acres during 29 days of February.

The Tom Green county agricultural agent ran terrace lines on approximately 2,500 acres during the past month, while farmers who had received instructions in terracing schools and demonstrations ran lines on an additional 3,580 acres.

In spite of hard ground in Kerr County, John Green of the Reservation community built level terraces 35 feet wide and 18 inches high on his farm.

Of 2,200 acres on 25 farms terraced in Rannels county in February, lines on more than 700 acres on 10 farms were run by farmers who had learned to run lines through instructions received in terracing schools and at demonstrations.

A terracing school in Brown County attracted 20 farmers who places and see things . . . simply makes me green with envy.

And so we bid good night to little Martha Hamilton Flick, charter member of the National League of Pen Women, who passed away in Oklahoma City, March 1 of pneumonia. Ninety-five years old . . . in her body . . . her mind as alert as ever . . . It never aged nor did her spirit. It was my pleasure to sit with her at a luncheon and to know her was to love her.

Big News of the Month. Lola Clark Pearson has moved to Oklahoma City. Mrs. Pearson, as you know is the Good Cheer editor of the Oklahoma Farmer Stockman and has been living at Marshall. A lovely new home is being erected in Oklahoma City for the Pearsons . . . She will be more in the midst of things in the new home and mighty happy, I'm sure.

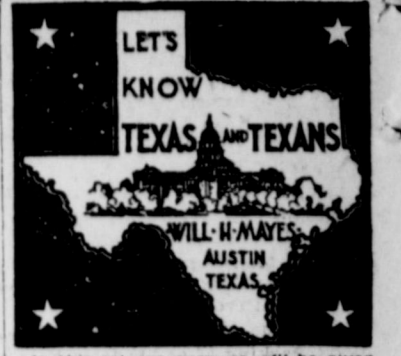

Our Jennie Harris Oliver is visiting in the Purple Valley at present with her brother, George . . . (he's a postmaster but really a very human one.) Hess Trutt of Enid is the new Oklahoma Poetry editor of Poetry and Music and both she and Helen McMahan have delightful poems in the current issue . . . Dorothy McFarland has a lovely poem in the current Kaleidograph . . . Dora Aydelott's new book is due any day now . . . I think sometimes I can't wait but I will of course . . . A clever letter in poetry form says that Lona Shawver, Texas writer whose book "Range Poems and Ranch Windies" made me know she was my kind of folks, has been wrestling with the flu in Seattle, Washington . . . how these arrived folks can hop across the states and go

received instructions in checking levels, setting up instruments, and running terrace lines.

Yard Improvement. Yard improvement work has gotten off to a good start in 1937 in West Texas with home demonstration club women and underpinning their houses, making flagstone walks, and planting native shrubs, according to reports of county home demonstration agents.

Mrs. C. W. Rosson of Rannels county has used native rock for underpinning her house, and has added fertilizer and new soil to her yard which has recently been leveled. Native rock from a nearby mountain was used for making a winding flagstone walk. In order to have the walk of uniform width and to have the edges straight, the walk was staked off with string. Then soil was taken out about two inches deep to make the walk level with the remainder of the yard.

Forty-three native shrubs were planted in the yard of Mrs. J. W. Nichols of Brown county during February. All of the native shrubs were used for screen plantings except two alaritis which were used in a foundation planting. The shrubs include: buckeye, wild plum, red buds, nandina, euonymus, sumac, yucca and others.

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the state and its people. Address inquiries to Will H. Mayes, Austin, Texas.

Q. For what is Uvalde most noted? A. Uvalde, on the Southern Pacific Railroad, about 100 miles west of San Antonio, is noted as one of the largest honey-production sections of the world, for its extensive asphalt fields, and as the home of Vice President John Nance Garner.

Q. To what are most of the forest fires of Texas attributed? A. Statistics for 1936, which are a fair average for all years, show that careless smokers cause 25 percent of forest fires; incendiaries, 50 percent; debris burning, 14 percent; the remaining 11 percent being attributable to campers, railroads, lumbering operations, lightning, and miscellaneous causes.

Q. What are the heights of perpendicular walls of the Rio Grande River in the proposed Big Bend International Park? A. In places these river canyon walls reach a height of 2,900 feet with the river at the bottom in exactly the same position as the Colorado in the cradle of Grand Canyon.

Q. What probably would be the most distinguishing characteristics of the Big Bend International Park as compared with other National Parks in the United States? A. The fact that it would be in two nations, that it would have varied scenery of kinds not to be found in other parks of this country, and that the mild weather would render it attractive to visitors at all seasons of the year.

Q. Where is the largest rice package plant in the world? A. At Beaumont, Texas.

Q. Were elections ever held on Sunday in Texas? A. Prior to independence all elections in Texas were held on Sundays.

Q. When was granite first mined on a commercial scale in Texas? A. Granite was first used on a large scale in the building of the State capitol, from 1885 to 1887, coming from Granite Mountain in Burnet County near Marble Falls, (which has been worked continuously since), where the supply is apparently inexhaustible. Pink, gray, and opaline granites are found in abundance in Burnet, Llano, Mason, and (some) in Gillespie counties.

Q. Were you not mistaken in the statement that the Indianola railroad was destroyed in the storm of 1875 and not rebuilt? A. The statement should have been "in the storm of 1886" instead of "in the storm of 1875."

Q. What was the "Terrell Election Law"? A. It was a law introduced in the Texas Legislature by Judge A. W. Terrell, and passed in 1905, changing the practice of nominating party candidates in conventions to selecting them in a party primary in which every member of the party might participate. As first passed the candidate receiving the highest number of votes for any office was declared the nominee, and in 1918 the law was changed to provide that if no candidate received a majority of all the votes cast, the two leading candidates should enter a second primary, which is still the law. All rights reserved.

History Projects. "Texas Under Six Flags," 26 pages of outline pencil pictures ready for children to fill in with colored crayons, every picture conveying a vivid impression of Texas history that will not be forgotten. ADVISORY COUNCIL SPONSORING SURVEY OF CITY PROBLEMS

As one of the first steps in its study of Brownwood and Brown county problems and their solutions, the Brownwood Civic Advisory Council had mailed to representatives of various businesses and professions in the city a questionnaire to be checked and returned to the Council.

The questionnaires are printed self-addressed postal cards to Karl H. Moore, chairman of the city-county cooperation committee and opinions on the questions are to be checked by the clerks and returned.

The questionnaire reads: "Do you favor: 1. A reasonable ordinance? 2. Parking meters on busy streets? 3. Ringing the street lights? 4. Cleaning streets after rainy spells? 5. Spring main streets of motor cars at night in order to clean streets? 6. Enforcing ordinance to keep streets clean? 7. Reasonable amount of repair of streets? 8. Rigid enforcement of traffic laws? 9. The present system on city trash haul? 10. Further suggestions."

Dave Knobler Is Appointed Member Of Style Committee

Notification of his appointment as a member of the Women's Style Committee of the National Shoe Retailers' Association was received a week by Dave Knobler, of the Knobel's Style Shop.

Mr. Knobler plans to attend the summer-style convention to be held New York at the Waldorf-Astoria hotel on April 5 and 6. At the convention, advance styles from American and European designers will be shown and style trends secured on information and suggestions will be given by members of the association.

TRACK, FIELD MEET DATES APRIL 26-27

Annual Brown county track and field meet will be held March 26 and 27. Tracy Taves, county athletic director, announced late this week.

As usual, the county track meet will be divided into Class A, B and C for seniors. In addition, the usual meet for Juniors and ward school athletes will be held.

The latter divisions will play Friday, March 26 on the Junior High school grounds. The Juniors will start at 2:45 that afternoon.

Senior track and field events will be held on March 27 on the Howard Payne track, Brownwood, May and Bangs will compete in the Class A division with other schools of the county competing in the Class B or Class C divisions.

Tennis matches will also begin March 26 and continue through the following day. Bracketing for teams will be made in the office of the county school superintendent on March 26.

April 10 has been set as the date for the playground ball contests. The games will be played on the Junior High, Coggin and South Ward, CCC and Coggin Park diamonds. At least 60 teams are expected to enter competition in this event.

Brownwood Debate Team Wins Co. Meet

Moody Bettis and Fred Abney Brownwood High's debate team won first place in a county round-robin debate tournament held in Howard Payne auditorium Saturday. The team will represent Brownwood county in the District Interscholastic League meet this year.

Second place winner was the Bangs team; Brownwood Junior High School won third place, while Brooksmith won fourth. Joe Stalcup and Larry Hillyer compose the Junior High team.

Five teams have entered the county round-robin tournament for girls debaters at Howard Payne auditorium Wednesday and Thursday of this week. The teams are Brownwood Senior High, Brownwood Junior High, May, Bangs, and Brooksmith. Winner of the tournament will represent the county in the district meet.

Santa Fe Officials Inspect FW-RG Line

For the purpose of getting first hand information as to the physical properties of the newly acquired Fort Worth & Rio Grande System, officials of the Santa Fe Railroad late this week inspected the line between Menard and Brownwood. The inspection was made preparatory to launching an extensive improvement program by the Santa Fe.

"We bought the Frisco line 'sight unseen,'" General Manager W. E. Maxson stated recently, "and we have had no opportunity till now to examine what we have bought."

Since consolidation of the Frisco with the Santa Fe there has been no change in operation of the former. Schedule changes, however, are expected in the future, together with a program of improvement designed to equip the new line for handling heavy traffic that will be routed through Brownwood from the west and northwest.

Included in the party of officials inspecting the Menard-Fort Worth line were:

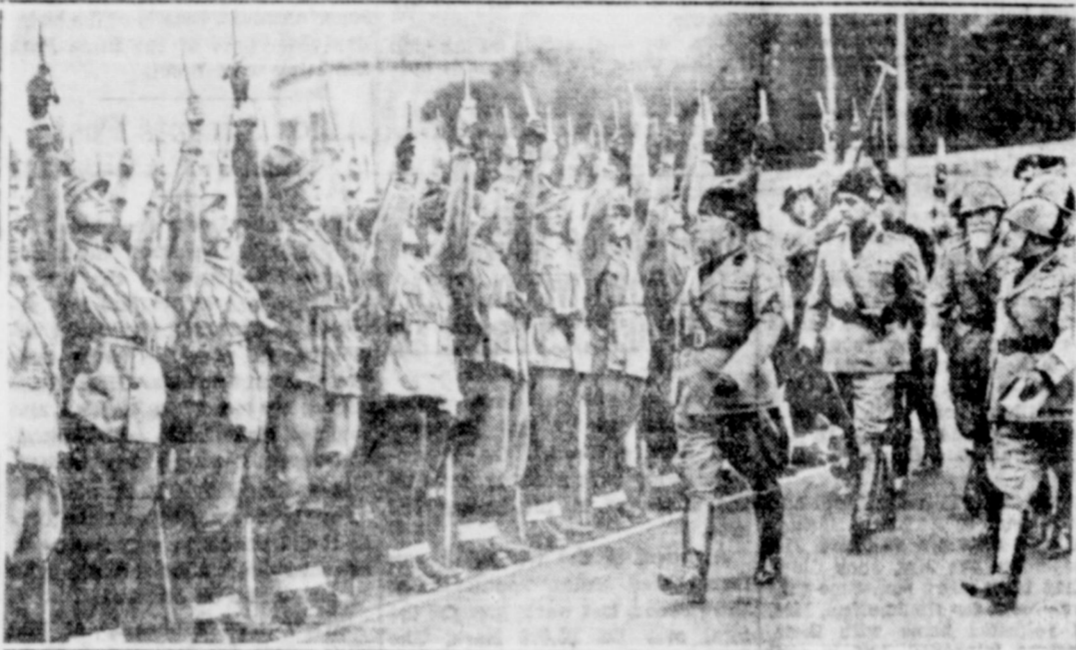

W. E. Maxson, Vice President and General Manager, Galveston; M. L. Lyles, Assistant to the President, Chicago; W. D. Sawyer, Secretary and Treasurer, Galveston; O. L. Clarke, Land and Tax Commissioner, Galveston; J. S. Hershey, General Freight Agent, Galveston; A. C. Ater, General Passenger Agent, Galveston.

Gravity Milk Separators at McLeod's Hardware.

Busy as they are with their thriving snow game, the quintuplets find time to introduce the two new nurses who have been added to the staff at the Callander nursery.

NRS Offices Moved To Main Hotel From Court House Building

Transfer of the local office of the National Reemployment Service from the first floor of the county courthouse to 104 Main Avenue in the Main Hotel was made this week.

Brownwood officials of the NRS stated that the new office puts them in a much better position to serve both unemployed people and employers. The office accepts applications of unemployed persons and files them according to occupation.

Rent and utility bills for the new office are being paid by the City of Brownwood. The county is furnishing the telephone for the office.

CITY OBSERVES B&PW WEEK OF MARCH 14-20

Mayor W. H. Thompson has issued the following proclamation: "As mayor of the City of Brownwood, I hereby set aside the week beginning March 14 as National Business and Professional Women's Week and ask the cooperation of the citizens of Brownwood with the local Business and Professional Women's Club in their program for the week."

"Brownwood is justly proud of this club, and its work, and I feel

sure the entire citizenship will join wholeheartedly in the programs for the week.

(Signed) "W. H. Thompson, Mayor of Brownwood."

Included on the club's program of observance is a "women only" banquet, to be held Thursday. Theme for the week is "The Business Woman as a Citizen." The national organization was formed in 1919 and the local club was organized in May, 1923, and federated in 1924.

Business and professional women of the nation have been extended a special greeting for their week by Mrs. Franklin D. Roosevelt, herself an active member of the organization.

"I can not help feeling that these years are extremely important to the business and professional women of the country. We are seeing great changes, efforts, are being made to give greater social security to our people, and this can only be accomplished by giving them greater economic security."

"I feel that women are making great strides in both business and in the professions, and I have great confidence that they will make their contribution to the solution of these problems in the course of the next few years."

"My good wishes to all our members, and may success crown all our efforts."

Carried in a small tube, an asbestos fire extinguisher for automobiles is undergoing tests in England.

Automobile tax collections in the first half of 1936 were 9.7 per cent higher than during the same period of 1935.

In 1935 some \$9,000,000 worth of automobile engines, parts for assembly, accessories and service appliances were exported from the United States to Japan.

STATES HAVE OPPORTUNITY TO SHOW WARES IN HUGE BUILDING AT NEW YORK FAIR

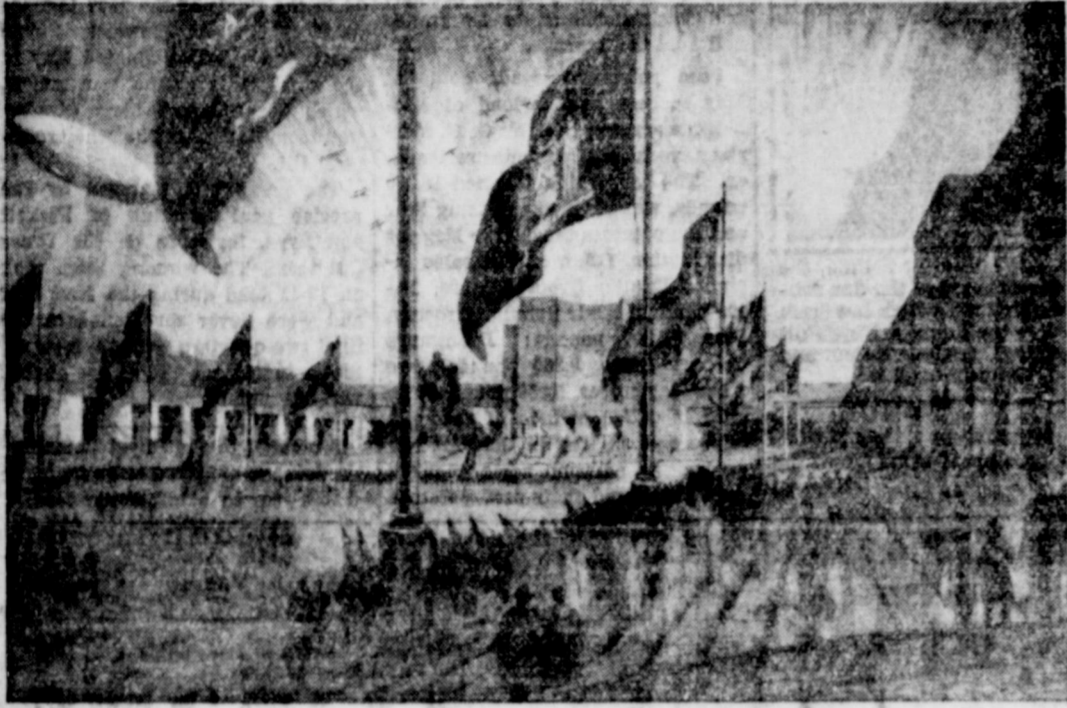

NEW YORK (Special)—Included in the limited edition book of unusual size and beauty which the New York World's Fair 1939 incorporated has sent to state governors and through diplomatic channels, to foreign governments, is the following text devoted to:

The Sovereign States of the Federal Union
George Washington in declaring that the public felicity and prosperity of America depend upon the firm union and the unceasing co-operation of the sovereign American States, divined the future. The prosperity and the greatness of these United States have arisen from the free and unimpeded circulation of ideas and products in the world's greatest consumer market.

The Fair gives to each State the appropriate setting and opportunity to announce to the world its unique and indispensable contribution to America's rich and colorful civilization. The Fair contemplates a Hall of States, in the imposing Government group and flanking the structure which the Fair looks to the United States to build to house the exhibits of the forty-eight States, and the Territories. Those wishing to participate more extensively will, in addition to their exhibits in the Hall of States, either erect their own buildings or obtain space to display their products and attractions in one or more of the exhibit zones.

The State of New York has naturally taken the leadership in the participation of the sovereign States of the Federal Union. Its total appropriations for Fair purposes may exceed \$5,000,000, and the New York State World's Fair Commission appointed by the Governor has been active for some time. Other States already are beginning to express enthusiastic interest in participating more extensively than at previous world's fairs.

The many visitors will find a fresh cause for pride, and enthusiasm in the revealing exhibits of their respective States. But beyond this the exhibits will enable the States to make a persuasive presentation to all visitors of what they have to offer to the consumer and to the tourist.

Before the Hall of States, at the New York Fair a Brigade Might Pass in Review

Pioneer Citizen of This County Expires At Home in Quemada

Death came to James M. Price, 78, and one of the earliest citizens of Brown county, at Quemada, Texas, on March 9. Mr. Price was born February 23, 1859, and came to Brown county in 1874 from Benton county, Arkansas in a wagon bed.

In spite of physical handicaps, he led a very active life.

Surviving him are his widow and four sons and six daughters, also are four sisters, Mrs. M. W. Owen, 85 years old of Ralls, Texas; Mrs. Mollie Russell, 83, Blackwell Texas; Mrs. S. F. Elms, 75, Comanche; Mrs. Leeana Fay, 73, Longview; and two brothers, Dax C. Price, Brownwood and John C. Price, 64 Trinidad, Colorado.

Mortuary

FENTON—W. F. Fenton was born September 5, 1868, in Missouri, and died Saturday, March 13. Last rites for the retired Coleman county farmer were held from the home of a daughter, Mrs. Vernon Sewell in Coleman Sunday afternoon, with Rev. Linwood Bishop, Church of Christ minister, officiating.

Survivors include his widow Mrs. W. F. Fenton; four sons, Hiram, of Coleman, Elijah, Andrew and W. F. Jr., all of Gouldsburg; five daughters Mrs. Nora Proctor of Stephenville and Mrs. Katie Minor, Mrs. Lizzie Sewell, Mrs. Pearl Sewell and Mrs. Rosa Walker, all of Coleman.

Weatherby Motor Co. Installs Alignment Adjustment Machine

Installation of a John Bean Wheel Alignment was completed this week at Weatherby Motor Company.

J. N. Weatherby, owner of the company, stated that it is imperative that both the front wheels and all steering apparatus be in balance in the interest of safety in the operation of today's high speed automobiles.

The equipment was installed at Weatherby's under the direct supervision of Mr. Raney, the factory representative who has been conducting a school on the operation of the machine.

The mechanics of the Ford Motor Company are given thorough training in every phase of wheel alignment service through the classes.

The public is invited to inspect the new equipment and take advantage of the efficient service which it enables Weatherby Motor Company to offer.

Sewer System Being Installed At Park

A complete sewer system is being installed at Lake Brownwood State Park. Installation of the sewer during this work period which closes June 30, is made possible by allotment of an additional \$6,450 to the local park for the purchase of material. The original material allotment for the period was \$16,900.

The sewer system will connect with every building in the park including the cottages and bath house, which is under construction at the park bathing beach.

Federal Home Loan Bank Representative Conferring In City

A special representative of the Federal Home Loan Bank Board, J. C. Conway, is in Brownwood this week to assist the Brownwood Federal Saving and Loan Association, a subsidiary of the federal organization, in perfecting some of its plans.

The local company was organized in 1935 and was one of the first of its kind in this section, being one of over 1200 similar loan and thrift organizations in the United States under supervision of the United States government.

WTGA Tournament Director Selects Seven Committees

Hubert Leveridge general chairman in charge of preparations for the annual West Texas Golf Tournament to be held in Brownwood May 27-30, appointed the following committee chairmen and members last week:

Golf committee—Port Bludworth, chairman; John French, A. H. Bell, W. P. Murphy.
Tournament rules committee—M. W. Terry, chairman; John T. Yan-

FARM REVENUE FROM MILK REACHES HIGH FOR PAST FIVE YEARS

Farmers' cash income from the nation's milk production totaled \$1,417,000,000 for 1936, an increase of \$128,000,000, or 9.9 per cent over the 1935 total according to the Milk Industry Foundation.

Farm milk income has increased nearly 50 per cent since the depression low. Cash milk income for December, 1936, of \$113,000,000 was 91.5 per cent of the 1924-29 average compared with the 78.5 index figure for agriculture as a whole.

Since milk production in 1935 is estimated to have increased by 2 per cent to 3 per cent over 1935, the past year's larger cash payments to farmers are chiefly due to higher unit prices paid for milk. Increasing consumption of milk in fluid form, for which farmers receive their highest prices per quart, also helped to increase dairy farmers' milk checks.

While supply and demand are in fair adjustment for the nation as a whole, there has been an unusually high production of milk in some sections of the country. Farmers are evidently feeding their herds well despite high feed prices. This, together with the high percentage of cows being milked, has caused a substantial increase in milk production in most markets.

To aid farm income this increase in production can best be marketed through stimulating consumption of milk in fluid form, as milk used for butter and other products bring the dairy farmer lower prices.

An unwarranted increase in the price farmers receive for milk sold in bottles would cause higher retail prices. This would not only tend to slow up consumption, but also artificially stimulate production thereby forcing more milk to market in the form of butter and other products. Thus it would result unfavorably on dairy farmers' income.

Entertainment committee—N. A. Locks, chairman, D. D. Melroe, Leo Ehlinzer, James Mitcham, J. Claude Smith, Dr. J. N. Arvin and Lee Watson.

Calcutta pool committee—W. O. Kemp, chairman; H. L. Cravens, Herman Bettis, D. T. Strickland, Hugh McFarland, W. R. Ellis, Dr. H. L. Lobstein, A. P. Rowland, and W. Lee Watson.

Prize committee—E. A. Franke, chairman; H. W. Leveridge, A. H. Bell and E. J. Robertson.

Pairings committee—Dr. H. E. Arvin, chairman; Walter Watson, Billie Griffith.

Locker rules committee—C. M. Carpenter, chairman; L. E. Dublin and E. J. Weatherby.

Special contest committee—Pug Sturdivant, chairman; C. E. Boyd and S. E. Morris.

A Polish engineer has developed an instrument grouping for automobiles which is mounted in the center of the steering wheel.

EXAMINATIONS ANNOUNCED

The United States Civil Service Commission has announced open competitive examinations as follows:

Social science analysis, various grades, \$2,000 to \$5,500 a year.

Engineering draftsmen, various grades, \$1,620 to \$2,900 a year, for work on ships.

All States except Colorado, Iowa, Kansas, Maryland, Minnesota, Nebraska, South Dakota, Vermont and Virginia, and the District of Colum-

bia, have received less than their quota of appointments in the apportioned departmental service at Washington, D. C.

Full information may be obtained from C. D. Woods, secretary of the U. S. Civil Service Board of Examiners, at the post office.

A New York mechanical engineer has invented a helicopter which is said to ascend straight up at a speed of 27 miles an hour when equipped with a 300-horsepower engine weighing 3,000 pounds.

SAY HELLO to EASTER with CLEAN, NEAT CLOTHES

Be as fresh as a breath of Spring... as bright as Spring sunshine in clothes cleaned the EVANS way.

Send us your suits, dresses, coats, hats, draperies, from your home or send covers from your car. Have them fresh and 'new' for Easter. Play safe, by letting us have your Easter garments now. Then there's no disappointments.

2,851 GARMENTS MADE IN NYA SEWING ROOMS SINCE AUGUST, 1936

Girls working on National Youth Administration sewing room projects in this district have made a total of 2,851 garments since August 1, 1936, Ben Jackson, assistant district supervisor, reported to J. C. Kellam, acting state director.

This figure included 826 dresses, 506 undergarments, and 1,219 miscellaneous garments such as infants clothing, blouses, skirts, sheets, towels, smocks, etc., which are distributed to needy families in the district.

These girls learn the art of cutting, machine and hand sewing, and finishing. Many of them use their own initiative in designing details and trimmings. They are between the ages of 18 and 25, and work part-time under capable supervision.

"We feel that NYA girls are receiving valuable training in the sewing rooms as well as producing worthwhile goods for needy persons," Mr. Jackson said.

NYA sewing room projects in this district are located in the following counties: Blanco, Brown, Coleman, Gillespie, Llano, McCulloch, Mason, Menard, Runnels, San Saba.

A recent check-up on work done by NYA girls in sewing rooms over the state during the past 6 months' period shows that 2,498 workers have made 233,294 garments for needy families. The average cost per garment was 57 cents.

Some states have as many as 20 kinds of automotive taxes, including five federal taxes.

USE SANITARY BLOCS. Amazingly new, scientific, powerful sanitary device. Needed in every home. Toilet bowls kept clean and sanitary. Kills repulsive odors. Quick death to moths. Contains Paradichlorobenzene which is approved in Good Housekeeping and U. S. Dept. of Agriculture as moth killer. Now available for few cents through St. John's Episcopal Auxiliary, Phone 767R or 1418 for interesting details.

"Hit Maker" Is Director of New Historic Romance

Hollywood's "hit maker," Frank Lloyd, the only motion picture director who won the coveted Academy Award three times, is the producer and director of "Maid of Salem," a gripping romance with Claudette Colbert and Fred MacMurray, which runs Saturday midnight, Sunday and Monday at the Lyric Theatre.

Famous for his "Mutiny on the Bounty," "Under Two Flags," "Cavalcade," "The Sea Hawk," and many other epoch-making films, Lloyd's latest is a romance between a Puritan maiden and a Virginia cavalier, laid in old Salem during the famous witch scare of 1692. Miss Colbert is caught in the wave of hysteria which seizes the town and is condemned to die as a witch on the testimony of overwrought women and children.

The dramatic story faithfully follows history in depicting and explaining the witch scare, which is one of the least understood occurrences in American history. A staff of nearly one hundred research workers combed libraries and private collections for old papers and documents relative to the period in order that the film might be as accurate as humanly possible.

Lloyd had the entire village of Salem, as it existed in the seventeenth century reproduced from old maps and charts in order to film "Maid of Salem." He assembled a cast of feature and character players to support the two leads which sets a record for big names—among them Harvey Stephens, Louise Dresser, Bonnie Bartlett, Gale Sondergaard, E. E. Clive, Bonita Granville, Virginia Weidler, Rosita Butler, Beulah Bondi and Donald Meek.

ATTENTION, TURKEY GROWERS

We are ready to set turkey eggs in the biggest, most up-to-date and efficient incubator in Central Texas, especially designed for turkey hatching. Bring us your turkey eggs on Wednesday or Thursday. We know how to hatch them right. In market for Quality Chicks see us.

D. & C. HATCHERY
Hamilton, Texas

Are the hairs of your head numbered? And too lightly? Ever think about a toupe? The Cleveland wiggy patron above reflects on that bald spot and has his head measured.

No two heads are alike and dimensions are most important. Toupes must fit. The crafts-woman above carefully compares measurements, selects a dummy head.

The hair of someone else's head is blended slowly and carefully, brown and gray, or black and gray, perhaps, for just that right shade, particularly at the temples.

Then, one strand at a time, the hair is crocheted to the fine fabric or hair base which has been tacked to the dummy. Fine skill is required for perfection and naturalness here.

MAY FARMING SECTION FAST BECOMING POTATO RAISING CENTER OF STATE; '37 CROP PLANTED

Fast becoming the leading potato raising section of the state, the community around May this year will be planted in more than 200 acres of Irish potatoes by May farmers.

Planting of the potato crop already has been started and will continue for the next two weeks. Potatoes planted on heavy soil will be marketed around June 1. Those planted in sandy soil will be ready for market two weeks later.

Most of the farmers favor one of two varieties of potatoes—Red or Triumph, which will be sold for sold for the fresh potatoes market; and Irish Cobblers, to be graded and sold for storage.

Seed potatoes already sold at May include one carload of Minnesotas arranged for by G. H. Morrison, vocational agriculture teacher. The car, which weighed 18,000 pounds, was shipped to Rising Star and the potatoes trucked to May for distribution. Other recent sales include: Evatt's Grocery store, 19,000 pounds; Elvie Schults' Grocery, Store, 7,500 pounds; Brannan's Grocery Store, 8,250 pounds; two other May stores, 5,000 pounds. The total is 48,750 pounds of seed potatoes sold in May in the past few weeks. In addition some growers have purchased their seed potatoes

in Brownwood and Rising Star. Those sold in May will seek about 170 acres, counting 500 pounds to the acre. The total will be brought to about 200 acres with the seed potatoes purchased elsewhere.

CROSS CUT GIRLS DOWN ZEPHYR TO WIN COUNTY MATCH

The Cross Cut girls' basketball team Tuesday night annexed the Brown county championship by defeating Blanket high school 39 to 14 in the finals of the 1937 tournament, played on Howard Payne court. Cross Cut eliminated May in the semi-finals of the tournament which began last Friday. Blanket won from Zephyr in the other semi-final tilt.

The game was featured by the precise goal shooting of Pickett and Byrd, forwards on the Cross Cut team. The winning team took an 18-11 lead during the first half and were never threatened in the final two quarters. Pickett, forward took individual scoring honors with 24 points.

Personnel of the Royal Canadian Air Force is expected to be increased this year by about 40 per cent.

These last fine touches. Each toupe is carefully combed with particular attention to the original pattern of the patron's hair—as he recalls it. The toupe—a wig covers the entire head, the toupe only partial baldness—is expertly barbered, trimmed and shaped on the dummy head so that it will fit exactly and not blow off with the first brisk breeze of spring.

pal J. R. Stalcup; response, Miss Pauline Calvert, Brady; four numbers of E. P. Thompson's school orchestra; tumbling number by Kay, Marion and Rosemary Watson and Marty Snyder; two numbers by Miss Frances Merritt's mixed chorus; address, "Finding Yourself," by Rev. C. P. Owen, pastor of the First Presbyterian church.

Brownwood Students Away at School Gain Recent Recognition

A total of 668 students in the College of Arts and Sciences at The University of Texas made grades during the fall semester entitling them to places on the honor roll of that college. Both quantity and quality of the work done by each student were considered in compiling the honor roll. The list, just announced Dean H. T. Parlin, included Carolyn Louise Calloway of Brownwood.

Other Brownwood students away at college who achieved recent honors include J. S. Woodward and W. T. Harris, who were named on the fall semester honor roll of the College of Engineering at The University of Texas, just announced by Dean W. R. Woolrich. Emphasis was placed on the quality of work done in the fundamental subjects. Dean Woolrich pointed out.

Lowell Poncey began the season on John Tarleton's rifle team by undershooting Allen Academy 32 points, and last Friday and Saturday, participating in the intercollegiate rifle match of the Eighth Corps area. Sgt. M. H. Cessna coaches the team.

Allen academy took the first match of the year from Tarleton by scoring 1902 points out of a possible 2,000, while Tarleton scored only 1570. Harold Willoughby of San Antonio was high point man for Tarleton with a score of 187 out of a possible 200.

Softball League Makes Plans For Year's Schedule

Tentative plans for the this year's schedule of the Brown Softball League were drawn at a meeting Monday night in Weakley-Watson-Miller company offices. April 12th was set as the date for play to begin.

Of the twelve teams entered in last year's league, only seven reported for the 1937 competition. Five additional teams made application for league membership, however. Applying were Daniel Baker, and Howard Payne College, Future Farmers, Brownwood Fire Department and Brown county teachers.

A proposal was discussed to divide the league into two groups, one to include the strong teams, the other to be made up of the weaker clubs. Representatives discussed the suggestion to sponsor a junior loop, to be made up entirely of boys below a certain age.

Another meeting of the league will be called soon.

Stover Case Affirmed

Convicted and found guilty of negligent homicide in connection with the death of J. Frank Davis, 52, farmer, who was struck and killed by an automobile on a road near his home in northern Brown county, the night of July 27, 1935, John W. (Pete) Stover faces a year in jail.

The 21-year old Brown county farm youth who appealed his case to the court of criminal appeals in Austin, which affirmed the deci-

Home Makers Club Closes Convention Here on Saturday

A luncheon at noon Saturday closed the district meeting of Home Makers Clubs in this section of the state. About 150 girls and their instructors attended the sessions and a luncheon in the Brownwood High School home economics cottage.

At the business session which preceded the luncheon, Brady was selected as the site for the fall meeting, to be held in October or November. Miss Kay Watson, of Brownwood, was elected district

secretary at the session, Miss Dorcus Lewis, San Saba, district president, presided at the business session.

Towns represented at the meeting were Brownwood, Bangs, Burkett, Talpa, Mullin, Santa Anna Comanche, Rochelle, San Saba Hamilton, Doole, Goldthwaite Melvin, Richland Springs, Brady, Coleman and Mozelle.

Hostesses for the Brownwood meeting were the two Brownwood clubs, taught by Miss Lura Lee Hank and Miss Clara Dishman.

An entertainment program held in Brownwood High School auditorium Saturday morning was as follows: Welcome address, Princi-
