A RELIC OF THE CIVIL WAR

Original Roll Book of a Company of the Confederate States Army, Year 1862.

There is now in the temporary possession of the editor of the Banner-Stockman one of the most interesting relics of the war between the States which it has ever been our good fortune to come across. This memento of a bloody struggle, than which none more fierce is known to history, belongs to Capt. E. E. McGee, of Rowe, this county, and is the original roll book of Company B. 42nd North Carolina Regiment, C. S. A.

The book contains the roster of the company revised from time to time during the progress of the war, showing the killed and wounded, the captured and the recruits, and, withal, is a most interesting little volume. Capt. McGee was a private soldier in this company. The book remained the property of the orderly sergeant of the company throughout the war and for many years after, up to the time of his death at his home in North Carolina, when Capt. McGee made application to the widow for the book and received same from her. The book is in a fairly good state of preservation considering the amount of handling it must have had, and the names in the various rosters are neatly and legibly written in ink, showing that the orderly was a man of method, careful and correct in his business.

Believing that the roll in full would be of interest to many of our readers we select the most legible one, which follows. It is of date, Oct. 28, 1862, and is signed by J. L. Smith, Sergeant. There are 404 names in the list of that date:

Sergeants—J. F. Dotson, J. L. Smith, W. J. Montgomery, H. A. Herman, H. L. Poston.

Corporals—A. D. L. Shuford, P. T. Monroe, W. P. Shuford, M. D. Phifer.

Privates—I. W. Blackwelder, Henry Beaker, W. F. Beefel, Wm. Blackwelder, J. D. Briles, T. A. Brown, Wm. Burns.

C. W. Carpenter, B. F. Cowan, R. F. Cobb, A. Clauninger, Jno. A. Clark, W. A. Cody, J. A. Carel, T. Crughenhour, J. Cannel, M. Cauble, Green Cauble, S. Cauble, B. Cauble, John Campbell, A. F. Campbell, B. Cass, A. Cass.

W. J. Daniels, Jonas Daniels, Julius Day, J. B. Dillon, A. Dolen, D. M. Dry, W. Deuney.

W. F. Eagle, B. Eller, Joseph Exum.

J. M. Finger, M. D. Fink, J. P. Fry, T. Foster, R. Freeman, J. E. Frazer.

Reece, G. M. Reece, Jas Ruff, J. Ritchie.

Wiley Sanders, E. Simmons, Wm. Stilwell, Lewis Stilwell, John Sipe.

Jack Taylor, W. M. Thomas, B. C. Trexler, Frank Tucker, John Tucker, S. Thompson, John Tri-vett, R. Thorp.

I. C. Wilkens, Jas. Wilkens, J. L. C. Wade, G. A. Walton.

If this article should meet the eye of any living member of this company the Banner-Stockman would be glad to hear from him, and if he will, write us a sketch, giving some of his reminiscences we would be glad to publish same. Capt. McGee has already contributed to these columns and promises further articles. Let the old soldiers speak out.

A man may use the mole on the back of his neck for a collar button; he may ride a freight train to save three cents a mile; he may light the lamp with a splinter to save matches; he may stop his clock at night to save wear; use a period for a semicolon to save ink; pasture his grandmother's grave for hay; put lightning bugs in his beehive to make the bees work of nights; but a man of this kind is a gentleman compared to a man who will take a newspaper, and when asked to pay for it, puts it back in the postoffice, marked "refused."—Ex.

WAS A VERY SICK BOY.

But Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"When my boy was two years old he had a very severe attack of bowel complaint, but by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy we brought him out all right," says Maggie Hickox, of Midland, Mich. This remedy can be depended upon in the most severe cases. Even cholera infantum is cured by it. Follow the plain printed directions and a cure is certain. For sale at Dr. Stocking's drug store.

John McKillop returned Saturday night from Mineral Wells and will remain in Clarendon some time. Recently John had the misfortune to fall while roller skating and as a result is carrying around a broken arm. He assigns no reason for the accident other than his own carelessness, but we risk the guess that he hung the toe of his skate in the very recently acquired elongated hirsute adornment of his upper lip with the result as above stated.

Starving to Death.

Because her stomach was so weakened by useless drugging that she could not eat, Mrs. Mary H. Walters, of St. Clair St., Columbus, O., was literally starving to death. She writes: "My stomach was so weak from the useless drugs that I could not eat, and my nerves so wrecked that I could not sleep; and not before I was given up to die was I induced to try Electric Bitters; with the wonderful result that improvement began at once, and a complete cure followed." Best health tonic on earth. 50c. guaranteed by J. D. Stocking, druggist.

Plumbing.

For first-class plumbing, pipe and electric fittings of all kinds, windmill erecting or repairing, see Will M. Clower at the old Preston shop two doors south of the Banner-Stockman office. All work guaranteed.

The laxative effect of Chamberlain's stomach and liver tablets is so agreeable and so natural you can hardly realize that it is produced by a medicine. These tablets also cure indigestion and biliousness. Price 25 cents. Samples free at Dr. Stocking's drug store.

Overstocked—Overstocked.

Must sell registered Hereford heifers at once. Will sell at a bargain and on easy terms from my Lone Star Herd. 46-4t N. N. MARTIN.

A Cheap Girl.

Girls don't cheapen yourselves by allowing yourself to be everybody's plaything, says an exchange. It is all right for you to have a "fellow" and go here and there with him, but don't be everybody's girl just because he asks you to be, then imagine that you will not cheapen yourself in the eyes of young men. It is a laudable ambition for a girl to have a "fellow" and she is entitled to the best if she is the right kind of a girl. But it makes no difference how really good she is, she loses respect of everybody when she gets so stuck on herself that she cannot walk down the street without stopping to gab with every lobster she happens to meet. When she permits such familiarity and cultivates it, she loses dignity and that is one of the rudiments of being a lady. The average young man has no respect for the girl that is familiar with all the boys of her acquaintance and she is the last girl in the world he would think of marrying. It is really a disgusting sight to see an otherwise sensible girl gadding up and down the streets, gabbing with every wart she meets, loafing around the stores and sponging treats from all who have the price, and when she marries she is invariably some fellow's last chance. Married life can be happy only when husband and wife have implicit confidence in each other, and no man can have confidence in a cheap, gabbing, gossiping, giddy girl, the one who imagines the boys are all eager for her company, when in reality they use her for a plaything with which to pass away the time. Don't cheapen yourselves girls, but pick some really good young man, fellow with an ambition beyond cigarette smoking, booze fighting and gambling and tie to him. If he don't suit you get the right one, that is if you must have a fellow—but don't fool around with half a dozen of them at once and don't think for a minute that any one respects you. He does not. He is just four-flushing. An honest girl is the most beautiful object in all creation even if she is ugly as a hedge fence, but a cheap girl—oh, get the ax.—Ex.

Pain from a Burn Promptly Relieved by Chamberlain's Pain Balm.

A little child of Michael Strauss, of Vernon, Conn., was recently in great pain from a burn on the hand, and as cold applications only increased the inflammation, Mr. Strass came to Mr. James N. Nichols, a local merchant, for something to stop the pain. Mr. Nichols says: "I advised him to use Chamberlain's Pain Balm, and the first application drew out the inflammation and gave immediate relief. I have used this liniment myself and recommend it very often for cuts, burn, strains and lame back, and have never known it to disappoint." For sale at Dr. Stocking's drug store.

MADE SPLENDID GRADES

Clarendon Boy Receives Congratulatory Letter from Board of Chicago Examiners.

The following letter was received by Dr. Fred F. Stocking last week, and is of special interest to many Clarendon people, because Fred is a Clarendon boy. He graduated last spring from Rush Medical College, Chicago, and in July took a rigorous examination before the Illinois State Board of Health for license to practice medicine in that state. His license was issued some time ago, and the letter below followed and explains itself. It is from the secretary of the board:

SPRINGFIELD, ILL., Sept. 12.—Dr. Fred F. Stocking, Clarendon, Texas—Dear Doctor: I have just had occasion to look over the grades received by you in your examination before this board, and find that you have received a general average of 95.1 per cent. Your grades in full are as follows: Chemistry, etiology and hygiene, 86; physiology and neurology, 100; anatomy, 87; materia medica and therapeutics, 100; pathology and bacteriology, 95; surgery, 100; physical diagnosis, ophthalmology and otology and pediatrics, 93; obstetrics, 100; gynecology, laryngology, rhinology and medical jurisprudence, 90; practice, 100.

You may have been notified of these grades, but I write you today to congratulate you upon your most excellent and most unusual showing. Such grades are very seldom obtained from the Illinois State Board of Health and Rush Medical college has reason to feel that you have brought credit to that institution. Very truly yours,
JAMES A. EGAN, Secretary.

The Banner-Stockman also congratulates Dr. Stocking. He will return to Chicago this fall and enter Cook County Hospital as practitioner in that institution, having won a place in competitive examination.

Chamberlain's Cough Remedy Acts on Nature's Plan.

The most successful medicines are those that aid nature. Chamberlain's Cough Remedy acts on this plan. Take it when you have a cold and it will allay the cough, relieve the lungs, aid expectoration, open the secretions and aid nature in restoring the system to healthy condition. Thousands have testified to its superior excellence. It counteracts any tendency of a cold to result in pneumonia. Price, 25 cents. Large size, 50 cents. For sale at Dr. Stocking's drug store.

Hold Your Clothing Orders.

Owing to the unexpected delay in the completion of Mr. Lane's building, we will not secure possession of the building now occupied by The Powell Trading Company until about Oct. 10. Our goods are daily arriving, and it will pay you well to defer your winter purchases, until you inspect our complete line with their prices of suits, rain-coats, over-coats, fancy vests and etc. Our goods are all right in style, fit, tailoring, quality and price. The Breath of Life.

It's a significant fact that the strongest animal of its size, the gorilla, also has the largest lungs. Powerful lungs means powerful creatures. How to keep the breathing organs right should be man's chiefest study. Like thousands of others, Mrs. Ora A. Stephens, of Port Williams, O., has learned how to do this. She writes: "Three bottles of Dr. King's New Discovery stopped my cough of two years and cured me of what my friends thought consumption. O, it's grand for throat and lung troubles." Guaranteed by J. D. Stocking, druggist. Price 50c and \$1.00. Trial bottle free.

Rev. W. C. Rogers and Missionary R. E. L. Farmer will begin a tent meeting near Chamberlain school house 5 miles south-east of Clarendon, Tuesday night, Oct. 2.

Mrs. G. A. Latimer and children, of Dalhart, are this week visiting her sister, Mrs. J. D. Stocking.

ANOTHER RANCH PASSING

John B. Pope is Fast Disposing of His Hall County Property to Farmers—Cattle Sold.

John B. Pope, of this city, is out of the cattle business after many years service on the ranges of the Panhandle. The last of his cattle were sold last week to Smith & Gibson, of Memphis. There were about 1000 head of stock cattle in the deal, and the price averaged about \$17 around.

For some months Mr. Pope has been engaged in selling off his ranch lands to actual settlers, and so far has disposed of about seven sections in lots of 160 and 320 acres. This ranch is in Hall county, running right up to the Donley county line, and contains some very fine farming land. The price of the land has ranged from \$10 to \$17.50 per acre. Mr. Pope has ten or twelve sections left which will be sold in the same manner as fast as applicants appear.

Little Alta Vivian is Gone.

The Great God of Heaven, who knoweth best and doeth all things well, came into our midst last Sunday morning and wafted on high the spirit of Little Alta Vivian, the daughter of Mr. and Mrs. Robt. Conner. The remains were entered in the Clarendon cemetery Sunday afternoon at 3 o'clock. Little Vivian was born April, 21 1906, and died September, 23 1906. Only five months and two days was she spared to the fond parents, but in that short time had become the joy and pride of the home, always with a sweet smile for every one.

Why God made her stay so short we cannot understand, but to aching hearts comes the knowledge that tho' their darling is gone from them she is in the arms of God's angels.

Thou art gone, our precious darling,
Never more canst thou return,
Thou shall sleep a peaceful slumber,
Till the resurrection morn.

Thou art gone, our precious darling,
Never more we'll see thy face;
Till we meet thee o'er the river,
In that happy dwelling place.

There we'll meet you precious darling,
There we'll clasp our babe once more;
When we've met, to part, no, never,
On that happy peaceful shore.
A FRIEND.

Going to Paint This Season?

Has the paint on your house ever stuck five years?

HAMMAR PAINT will stick five years!

Because
The essential qualifications of a lasting paint, viz., perfectly blended pigments and pure linseed oil, are what you get when HAMMAR PAINT is used.

You do not know the quality of oil used in ready mixed paint.

You do not know how long the ready mixed paint has been standing.

Hammar Condensed Paint is nothing but a perfect blend of paint pigments. You add thereto an equal portion of pure linseed oil. The result is a paint that you know contains pure linseed oil without adulteration.

A paint that always has lasted five years and always will.

But to make it safe for you to buy Hammar paint, we will guarantee it to last five years or money back. This guarantee is backed by a half million in cash and by the Great Hammar Paint House of St. Louis, with the reputation of a third of a century back of it for honorable dealing. Drop in some day and let me tell you something about paint that's new.

NEWS FROM THE COLLEGE

What the Pupils do, how They do and Why—Also About Those Who Train Their Minds.

Miss Ethel Doak came down from Claude and visited with her brother Hugh over Saturday and Sunday. Miss Ethel is one of our old students and graduated last year at S. W. U. She is teaching vocal at Claude.

Verner Glenn, from Wellington, came up for a few days the latter part of the week to visit his brother and College friends generally.

Roy Stephens paid a farewell visit to the Adkissonians last Friday. He has gone to the A. & M.

Ira Neeley and Coopwood Perry visited home folks at Quail and Wellington last Saturday and Sunday.

Miss West was unable to meet her art class for a day or two this week on account of getting her

subscriptions, back tuition, board bills and notes due the College; second, to pay outstanding accounts; third, to raise money sufficient for doubling the capacity of the brick building on the College campus, so as to have an adequate auditorium for next commencement.

D. B. Sachse was in from his farm down on the Hall and Donley line in the Bitter Creek country Saturday to meet his wife who was returning from a visit to their old home in Collin county. Mr. Sachse was showing some samples of corn which he had raised this year on sod land. The ears were as large as ever seen. He says he has 40 acres which will easily yield 50 bushels to the acre, the corn being as fine as he ever saw raised in Collin county on \$75 land.

foot hurt by a falling seat at the Baptist tabernacle. She is at work again now.

The small folks in Miss Betts' room surprised her by decorating her desk with all sorts of good things, darkening the windows and lighting the candles, having everything wearing quite a festive look when she returned at noon.

Robert Swim visited relatives near Brice last Saturday and Sunday.

Misses Lizzie Crisp, Ruth Stocking and Nora Wilson are out of school on account of sickness now for a few days.

Gordon Willard, one of our old students, entered school again the first of the week. He will be in the senior class.

Cecil Blair and his sister, Miss Mabel, have returned to school from Rowe after having been absent for a few days on account of their father's illness.

Edward Neeley, of Quail, visited his brothers at the College lately.

Roy and Arthur Bell, from near Chillicothe are new students at the boys' dormitory.

Misses Turner and Hept, of Cataline, are also among our new students.

The next lyceum number will be held in the Methodist church October 13. The speaker is Dr. George Waverly Briggs, especially famous in Kentucky. "Dr. Briggs is an orator of power," says the Atlanta Constitution.

Rev. G. S. Hardy will go to Stratford to take charge of the church there. Rev. R. A. Hall has resigned the work on account of ill health.

So large is the attendance at the College that the faculty and trustees have considered the great need of enlargement of the buildings. After mature deliberation Rev. W. B. Wilson, of Canyon City, has been employed as financial agent for a period of two years. His duties will be: first, to handle old

New Industry for Panhandle.

Professor Carleton R. Ball, agronomist of the bureau of plant industry at Washington, gave some interesting facts the other day concerning denatured alcohol. The tax of over \$2 per gallon is to be removed on January 1 from all alcohol which has been made unfit for use as a beverage. This makes alcohol a very low priced product instead of an expensive commodity. Alcohol can be made from almost any fruit or vegetable but some things like the Irish potato can be made to yield very high percentage of alcohol. Strains of the potato that are high in alcohol can be readily produced in the Panhandle. But in sorghum and kaffir corn the Panhandle already has the beginning for this new industry. Both the sweet and non-sweet sorghums will produce considerable quantities of alcohol. While the industry cannot yet be said to be even in its infancy it is certain that the manufacture of alcohol will prove an important industry in this part of the country. Alcohol can be used for all the purposes for which gasoline can be used, and if the production can be made sufficiently economical, this country will have some recourse against the high charges for oil and oil products. As it can be produced on a small scale anywhere, there is little likelihood of its becoming cornered.—Amarillo Herald.

Miss Elizabeth Francis O'Neill, a pupil of the Art Institute, Chicago, will give instruction in the following branches of Art: Painting in oil and water colors, tapestry, crayon, pen and ink, sketching from nature, perspective, artistic anatomy, composition, painting, pyrography and newspaper illustration. For particulars apply at residence of J. D. Camp, or phone No. 61.

Misses Pauline Hutchinson and Irene Downs, of Bowie, are visiting Mrs. W. J. Adams at Hotel Denver this week.

As a dressing for sores, bruises and burns, Chamberlain's Salve is all that can be desired. It is soothing and healing in its effect. Price 25 cents. For sale at Dr. Stocking's drug store.

DR. PRICE'S Cream Baking Powder

PURE—WHOLESOME—RELIABLE

MADE FROM CREAM OF TARTAR DERIVED
SOLELY FROM GRAPES, THE MOST DELICIOUS AND
WHOLESOME OF ALL FRUIT ACIDS

Its superiority is unquestioned
Its fame world-wide
Its use a protection and a guarantee
against alum food

★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★

Alum baking powders are detrimental to health.
Many consumers use alum baking powders in perfect
ignorance. They are allured to the danger by the cry of cheap-
ness, and the false and flippant advertisements in the news-
papers. Alum baking powders do not make a "pure,
wholesome and delicious food" any more than two and two
make ten. Their manufacturers are deceiving the public.
If you wish to avoid this danger to your food,

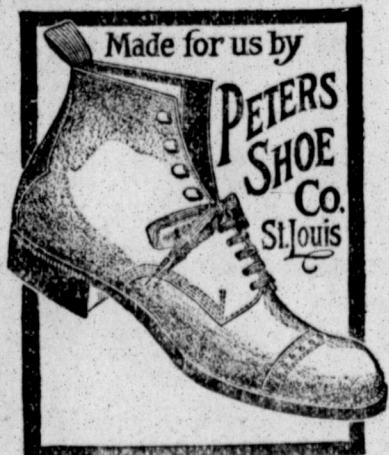

LOOK UPON THE LABEL

and decline to buy or use any baking powder that is not
plainly designated as a cream of tartar powder.

IN JUDGE WOOD'S COURT

State Fails to Produce Witnesses and
Saunders is Discharged—Hill
Found not Guilty.

Justice court convened Monday
and the case of the State vs. Leslie
Saunders, charged with intent to
murder, was called for trial. For
some reason (said to be sickness)
the state's witnesses were not
present, and the court assuaged its
wounded dignity by assessing a fine
of \$5 all around on the witnesses
and ordering that the prisoner be
discharged, which was done. The
next day a new complaint was
filed, this time in the county court,
and another warrant for arrest of
Saunders was issued. Saunders in
the meantime had left town, and
up to time of going to press he had
not been arrested, although it is
thought he has only gone back to
Henrietta to resume his job as tele-
grapher, and will return as soon as
the warrant reaches him, without
trouble.

In the case of O. E.
Hill, charged with disturbing the
peace, retried from a former
session, defendant was acquitted
by a jury, after being out only a
few minutes. This case was tried
here a few weeks ago, and it will
be remembered that a heavy fine
was assessed. The new trial sets
aside the former verdict. Mr. Hill
is a son of O. C. Hill, a prominent
farmer of the Bray community.

Getting It Down Fine.

The two hundred and fiftieth part of
an inch is a millimeter. The two mil-
lionth part of a millimeter is what Dr.
P. E. Shaw, of England, is measuring.
The unaided eye cannot perceive much
less than one-tenth of a millimeter.
With the help of a microscope the eye
can see as little as 1-5,000 millimeter.
The measuring medium used for en-
gineering gauges will detect differences
of 1-8,000 millimeter. By using inter-
ference bands of light we can perceive
movement of 1-100,000 millimeter.—
Scientific American.

Townsmen and Countrymen.

That the townsman is shorter lived
than the countryman is incontrovert-
ible. Dr. Tatham calculated that in
the rural districts of England the av-
erage expectation of life at birth is
51.48 years for males and 54.04 for
females, whereas in Manchester it is
only 28.78 for males and 32.67 for
females, which means that each male
has to sacrifice 10.48 years, or 29 per
cent. of his life, and each female 9.82
years, or 34 per cent. of her life for
the privilege of being born in an
urban area.—Popular Science Monthly.

Paint "Mixed on the Premises"

The best architects
always specify: "Pure
White Lead and Pure
Linseed
Oil in
original
packages, to
be mixed
on the prem-
ises." There
are two rea-
sons: first, to
make sure no
substitute is
used in the
place of Pure
White Lead; and
second, that the
paint shall be mixed to suit the particular
wood and the climatic conditions of the
locality.

If architects with scientific knowledge
and professional reputation are so careful
to make sure that only the best
materials shall be used, is it not
quite as incumbent on the
house owner to do as
much for himself, when
not employing profes-
sional aid?

Painters of reputation never quarrel with
these specifications, because they realize
the materials called for are necessary to
a satisfactory job. If a painter is con-
scientious, he will of his own accord use
nothing but White Lead which is known
to be pure. The standard is

PUBLIC SCHOOL NOTES

Our Weekly News Letter From the
City's High School—Personal
and School Room Items.

The trustees of the public school
came to the school building last
Friday, looked in upon the teach-
ers and took a general survey of
things. They expressed them-
selves as being favorably impressed
with all work. The teachers felt
complimented by this visit, as the
board came to show their apprecia-
tion of the efforts of the faculty in
making the school a success. Come
again, gentlemen.

A physics experiment apparatus
has been ordered and will arrive in
a few days. Then the physics
class is to get some of the best of
instruction in this science.

Miss Nellie Ryan, of last year's
graduating class, is teaching at
Brice, in Briscoe county. She is
delighted with her work, and will
make the district an excellent
teacher.

Miss Burdett was forced to walk
home Thursday evening, as her
driving horse got loose and could
not be found.

Lula Harrington, Clifford Wil-
liams and Lena Sloan, the latter of
Estelline, are new pupils in the 6th
grade.

Helen Bugbee left Saturday for
Kansas City where she will enter
school. Helen was a little ray of
sunshine, and the 6th grade, pupils
and teacher, will miss her.

Ruth Harrington is a new pupil
in the ninth grade.

Verdie Smith, of Rowe, and Etta
Sloan, of Estelline, are enrolled in
the 7th grade.

Gerald Harrington, Irvin So-
Relle and George Latimer are new
primary pupils.

Football just at present is "The"
game among the boys. Skinned
faces and torn clothing are com-
mon results. Byron Alexander and
Lex Barnett unexpectedly ran to-
gether with such force Wednesday
as to knock each other lifeless for
awhile.

Elizabeth Allen has withdrawn
from school until her health im-
proves.

The Pansy literary society has
adopted a constitution.

Miss Burdett's pupils organized
their society last Friday. Park
Chamberlain is president and Le-
titia Rhodes secretary.

Miss Frances O'Neil, an art
teacher of unusual merit, was a
visitor this week.

Edwin Patterson is in school
again after a week's illness.

Tommy's Idea.

Tommy—Papa, don't fish go about
in schools?
Papa—Yes, Tommy. Why?
"Oh, I was just wondering what
would become of the school if some
fisherman happened to catch the
teacher."

Mitigating.

A widow, accused in a London police
court of drunkenness, said that, not hav-
ing eaten anything in 14 days, a glass of
beer she had taken had gone to her head.
"I have also," she added, "apologized to
the police."

His Pull.

Lariat Lem, of Gory Gulch, who
had been elected to the legislature,
had attended his first session and re-
turned to his admiring constituents.

"You don't seem to have had any
trouble in catching the speaker's eye,
Lem," said one of them.

"You bet I didn't!" answered the
rising statesman, setting down his
glass. "He knowed blamed well that
if I failed to catch his eye, I'd catch
his nose the first time I saw him on
the street."—Chicago Tribune.

READY MADE HOT STUFF.

The latest great reform proposed by the President does not relate to the tariff or the trusts or spelling, but to old-fashioned hens. By means of an executive order he means to make every full-grown hen lay at least one egg a day, and prohibit her from setting on eggs at all. This is the only reform he ever proposed which does not in some way conflict with the constitution, and we heartily approve of it. The hens need regulating, and Teddy to do the job. Let the reform begin.

From the stalwart Republican point of view the fine crops are due to the protective tariff and the low price of wheat to the determination of the Democrats to revise the sacred schedules that protect the trusts.

The White House has been renovated and furnished again at a cost of thousands of dollars. Every year this process is repeated under our reform administration,

which is a wicked waste of the taxpayers' money. There has been more money spent for executive purposes during President Roosevelt's administration than from Lincoln to the end of Gen. Grant's administrations.

Have you heard from Maine? Republican majorities cut to next to nothing. The same percentage of Democratic gains will defeat the Republican candidates in every close and doubtful Congressional district.

Secretary Loeb has stopped denying that President Roosevelt is willing to take a third term and the federal officials' hope of the continuation of public pap has risen accordingly.

THAT Texas is the greatest state Uncle Sam owns is not realized by such small chaps as Delaware, Rhode Island and others. The bigness of the state can not be realized by these states because of their own minutiveness. Recently a furrow was plowed with a steam plow from Canyon City to Gameo, N. M., a distance of 87 miles. Only once did the operator of the plow have to take his plow out of the ground because of the lay of the land. If any little two-by-scantling state up north can raise this we would be pleased to have them shove out their entire stack. We can meet anything they can produce.

A prospector remarked to us a few days ago that he didn't see how this country ever did anything, that it didn't raise much of anything except feed stuff and alfalfa. Leaving out the many other crops which this man ignored it is probable that he was not very

well acquainted with alfalfa. This product sells for from \$10 to \$15 per ton and produces three and four tons a year. Not being acquainted with the gentleman's idea of what constitutes a good paying crop we can't say whether \$35 per acre off of \$15 per acre land is what he considers a paying proposition or not.

For once the editor of the Banner-Stockman has had the pleasure of being classed with Leiter, Price, Sully and others who have tried cornering wheat, corn, cotton and other commodities. One day this week ye innocent pusher of a more or less trenchant pen cornered the visible supply of eggs on this market. We felt great and expected the price to go at least as high as they did last winter during the Armour cold storage corner. Contrary to all expectations the price remained unchanged although we field our corner until the invisible supply came rolling in. There is something lacking in our scheme of finance. Perchance it was not frenzied enough. Anyway we have already made a pool of our corner and the corner is occupying the pool.

Laundry For Sale.

Having other business and not having time to look after it I will sell my steam laundry. This is a good, paying business, and will pay you to investigate at once, as I have several parties from a distance figuring to buy it, but prefer to sell to a Clarendon citizen. If you want it don't wait; come around and see me at once.

Getting Ready to Feed.

James Trent, of the Cold Storage Power Co., is making arrangements for his winter feeding operations at his farm south of town. He last week closed a trade with T. S. Bugbee for 150 3-year-old speyed heifers, onto which he expects to throw the fallow in great shape this winter. These heifers are a very fine lot, right in keeping with the class of stuff which Mr. Trent always buys, and with his past experience as a feeder he should make a record with them.

—Cash only, after we get in our new brick about Oct. 1. We will then have a shop as good as the best, with only first-class workmen. Three bath rooms, second to none in the state, four chairs with good barbers operating them, as good as can be had. Nothing will be left undone to make our shop neat, clean, and of the class that cater to the genteel public. The Imperial Barber Shop.

Sale of Steers.

One the prettiest bunches of steers ever raised in Donley county went at a bargain last week when M. T. Crabtree sold to H. B. Lovett 180 head of twos past at \$20 around. Delivery was made Saturday, the steers dehorned and started on the trail to Mr. Lovett's ranch in Gray county. Mr. Lovett also bought 68 head of dehorned twos from John T. Sims at about the same price. All these cattle were good and in prime condition.

A QUEER CASE AT CLAUDE

The Claude News gives the following
Account of a Queer case at Law
in That County.

Next was the case of State vs. John Scott, charged with the offense of false imprisonment. The case is something new in our local court. It developed in the trial that Mr. Scott and Rev. Sebe J. Thomas had a personal difficulty on the premises of Scott several weeks ago, in which Scott beat and bruised Thomas severely and detained him for over half an hour, refusing to allow him to proceed on his journey. Scott went before Justice Bowie, plead guilty to fighting and paid his fine. The present case was filed on information charging "false imprisonment." The jury, by agreement of counsel, returned a majority verdict, assessing a fine of \$180. A motion for new trial will be argued before Judge Moore Saturday.—Claude News.

Wonder of the 20th Century

THE ACME BUTTER EXTRACTOR

Makes butter from sweet cream in from 1 to 10 minutes.
The machine produces a perfect granulated creamery butter every time, the average time being only three minutes. It churns sweet cream as quickly as it does soured. It increases the yield from one to ten per cent.

It is Guaranteed to Pay for Itself in Six Months from the Milk of Two Cows.

It is made of the very best of materials and is guaranteed. The centrifugal force of the cream separator together with the air motor which forces a blast of air through every particle of cream, thereby purifying it, are the two great principles used. See the machine work and be thoroughly satisfied.

SLOWER TRAIN SCHEDULE

Effective This week The Denver Road
Adopts Slower and Safer
Time Card.

Under the new schedule trains Nos. 7 and 8, will be operated through between Fort Worth and Texline only, there being no connection with the Colorado & Southern Ry. No 7 will leave Fort Worth at 8:45 as at present, reaching Texline at 5:25 the following afternoon.

No. 8 will leave Texline at 12:01 p. m., arriving at Fort Worth the following morning at 7:45 instead of 7:25 as at present, still maintaining all connections at Fort Worth. These trains will carry a 16-section Pullman sleeper between Fort Worth and Amarillo.

Trains No. 3 and 4 now running between Fort Worth and Quanah will be extended to Childress. No. 3 will leave Fort Worth at 8:30 a. m., or ahead of No. 1—The Denver Special, arriving at Childress 6:50 p. m. No. 4 will leave Childress at 6:55 a. m., reaching Fort Worth at 5:00 p. m., instead of 1:30 as now.

Train No. 1 will leave Ft. Worth at 9:45 a. m., the present time, but will reach Denver slightly later, though still early in the afternoon, and in ample time to make all trans-continental connections there and at other Colorado common points. No. 2 will arrive at Fort Worth at 6:45 p. m. instead of 5:10; also continuing to connect in that city with lines for various points in Texas and other states. These trains will also continue to handle through Pullman sleepers between Houston and Denver, and will maintain the present through cafe car service between Fort Worth and Denver.

It is anticipated that this change, particularly the extension of trains Nos. 3 and 4, will result in much additional convenience to the traveling public.

 H. Mulkey, the photographer, expects to build a concrete block on the lot now occupied by his studio. The building will be commenced at the same time the McDaniel & Carroll building is started.
 W. D. Cole, of Perryville, Tenn., was here the first of the week prospecting and visiting with his old-time Tennessee friend, J. T. McMurray. He left Wednesday, after closing a trade whereby he bought the W. C. Stone residence, price \$1400, and will move his family to Clarendon about January 1st. This is another family located through the medium of good schools.
 T. H. Peebles showed us last week a sample of a new peach from his orchard. It is called the Salway, and is a late September variety of freestone. One peculiar thing is that in spite of its lateness this peach is exceptionally juicy and fine flavored. The two peaches shown at this office lacked only a quarter of an ounce of weighing one pound, and they were not the largest Mr. Peebles had, either. He thinks it is a very superior fruit for this section.
Card of Thanks.
 We extend our thanks to our neighbors and friends of Lelia for the kindness shown during our baby's illness.
 MR. AND MRS. R. E. CONNER.
Photographer's Notice.
 H. Mulkey will be in Claude from Sept. 26 to Oct. 5.

The Fortunate Isles.
 You sail and you seek for the Fortunate Isles.
 The old Greek Isles of the yellow bird's song?
 Then steer straight on through the watery miles.
 Straight on, straight on, and you can't go wrong.
 Nay, not to the left; nay, not to the right.
 But on, straight on, and the Isles are in sight.
 The Fortunate Isles where the yellow birds sing
 And life lies girt with golden ring.
 These Fortunate Isles they are not so far.
 They lie within reach of the lowliest doer.
 You can see them gleam by the twilight star.
 You can hear them sing by the moon's white shore—
 Nay, never look back! Those leveled grave-stones
 They were landing steps; they were steps unto thrones
 Of glory for souls that have sailed before,
 And have set white feet on the fortunate shore.
 And what are the names of the Fortunate Isles?
 Why Duty and Love and a large Content.
 Lo! these are the Isles of the watery miles.
 That God let down from the firmament.
 Lo, Duty and Love, and a true man's Trust.
 Your forehead to God, though your feet in the dust.
 Lo, Duty and Love, and a sweet babe's smiles.
 And these, O friend, are the Fortunate Isles.
 —Joaquin Miller.

Incandescent Novelty.
 An old novelty in incandescent electric lamps is one with the bulb, of frosted glass, in the shape of a pig. Another oddity in such lamps is one with the bulb in the shape of an elk's head, with antlers and all complete. Such novel little electric lamps are used in store windows to catch the eye, and elsewhere they may be used for the sake of their novelty or for their decorative effect.

A SUCCESSFUL REVIVAL

Rev. J. Frank Norris and Pastor Rogers have Just Closed a Two-weeks Meeting.

The revival meeting that was conducted at the Baptist church for the past two weeks, or more, closed Tuesday night. It is conceded to be the best meeting ever held in Clarendon, taking it from all points of view. The church house would not accommodate the immense congregations and a large tabernacle with seating capacity of 800 was built. Rev. J. F. Norris, of Dallas, assisted the pastor in the meeting. The entire town and community felt the good effects of this meeting. Several prominent citizens were converted and joined the church; several of them past middle age. There were about 25 professed conversions, and 32 additions in all to the church, with others who will yet join; 15 were baptized. Revs. Norris and Rogers make a strong team in conducting a meeting. Rev. Norris has agreed to come back again next year and assist in another meeting. A collection was taken for him, amounting to \$130; also a collection of between \$40 and \$50 to send Pastor Rogers and his good wife to the State convention.

Baptist Church.

There will be regular services at both hours 11. a. m. and 8. p. m. next Sunday. The B. Y. P. U. will meet at 4 p. m. We hope to have a large union. The 5th Sunday meeting will be in progress at Lelia church, but the pulpit will be filled by either the pastor, or some brother from the Lelia meeting.

WILSON C. ROGERS,
Pastor.

A Card Party.

Mr. and Mrs. R. A. Chamberlain and daughter, Miss Bessie, entertained at cards on Tuesday evening of this week. Those attending report the party as one of the most pleasant social events of the season, and the hour was unusually late when the guests tore themselves away. Refreshments, both dainty and appetizing, were served at about the usual hour. The ladies' prize was won by Mrs. I. W. Carhart; it was an elegant piece of Battenburg hand work. W. H. Patrick was awarded the gentlemen's prize, a burnt leather pocket book, while J. D. Van Horn turned the ace and carried off the consolation prize—a bound volume of E. P. Roe's work.

TELEPHONE SYSTEM SOLD

Ed Decker Sells Hello Plant to T. L. Benedict and Will Prospect in South America.

E. H. Decker has sold his half interest in the Clarendon Telephone Exchange to T. L. Benedict, of Denver. Mr. Benedict is an old Clarendon citizen who has never been satisfied since he left here a year or so ago. He will return and take personal charge of the business. The other half of the interest is the property of George W. Washington. We hear that some substantial improvements are in contemplation when the new management takes charge, which will be about Oct. 20.

Mr. Decker and family will likely leave us and locate in Colorado while Ed prospects awhile in South America. He promises the Banner-Stockman some letters from that country if he goes there. Mrs. Decker, as "Central," has endeared herself to the people of Clarendon and the best wishes of a whole host of friends will attend her.

Book Your Kodaks.

They are much nicer and a great deal handier to look through than when mounted on cards. Get the books from Miss Cosy Randall at Powell Trading Co's. Books also for souvenir postal cards. Price only 50 cents. tf

Dr. Standifer returned Monday night from Oklahoma City, where he had accompanied Mr. and Mrs. J. M. Wattenbarger, the lady being taken there for a surgical operation. The operation was performed Sunday and the doctor reported her as doing exceptionally well when he left. Mrs. G. A. Anderson, of this city, returned on the same train, having fully recovered from her hospital experiences of the past month.

For Sale.

Second hand buggy for sale or trade. See or write J. K. Porter, Clarendon Texas. 2t

Mr. and Mrs. W. F. White left Wednesday for Dallas, where Mr. White expects to wind up business affairs to the extent that he will be able to return to the Panhandle to live.

Fat Hogs Wanted.

We want to buy fat hogs. See us at once at the new meat market. Lane Bros. tf

—When we get in our new brick about Oct. 1 we will start a strictly cash business. Will be better fixed than ever before to do good work, but will want the cash for doing it. Positively no loafing or swearing allowed, and no credit. We mean business. The Imperial Barber Shop.
 John H. Kelley is just completing a neat five-room cottage near Dr. Standifer's residence. It will be occupied by Mr. and Mrs. W. T. Hayter. Mr. Kelley will also build another house near the public school building, which, when completed will be the parsonage for the editor's family.
 —About Oct. 1st we will be located in our new brick building with a modern barber shop, everything new, and experienced workmen. After that time we will work for cash only, no credit. The Imperial Barber Shop.
 The new time card went into effect on the Denver Wednesday. The effect of the change is to make a slower and safer schedule. No 1, northbound, now arrives at 9:40 p. m. No 7, northbound, is due at 9:32 a. m. No 8, southbound, 7:33 p. m. No 2, southbound, 7:18 a. m.
