### IT IS CLARENDON HEIGHTS

Such is the Name of a New addition to Clarendon—Lots to be Sold at Public Auction.

We have lots of good little investments in our town, but we home people never appreciate them for their real value until some stranger comes in and shows us what a good and resourceful town we have.—Clarendon Chronicle.

Correct; go head

Mr. G. P. Lane, of Dallas, in seeking a location for investment saw an opening in Clarendon which home capital had been neglecting for years. It did not take him many hours to get hold of some property suitably located, and then the way he made things hum was a caution.

Clarendon Heights is located west of the city on the Frank Collinson land only a few blocks from Clarendon College. It is already one of the best advertised districts in the Panhandle. Mr. Lane has issued thousands of circulars concerning it. He has had a force of men and teams at work all week grading the streets, staking off the lots and blocks, and getting everything in ship shape for the big auction sale which will be had next Monday afternoon, beginning at 2:00 p. m. The plan of the sale is fully stated in his advertisement on another page.

Interest in the sale is already

high, and Mr. Lane has had offers of fancy prices for some of the lots at private sale. He will sell nothing, however, until the auction sale, at which time he confidently expects every lot to go. Read the ad, then call him up and leave orders for carriage to call for you to attend the sale.

### Baby is Dead.

Mildred Angeline, the little 15-months-old daughter of Mr. and Mrs. F. A. Dubbs, died late last Friday afternoon after a long and hard battle with the angel of death. For weary weeks the fond parents had hoped and prayed and worked to save their darling babe, but to no avail; she was needed up higher, and has gone to that happy home above, there to await the coming of papa and mama. The funeral was held from the family residence Saturday afternoon, Rev. W. P. Dickey officiating. Services were held at the grave. The Banner-Stockman tenders to Mr. and Mrs. Dubbs in their hour of grief the tender and sincere sympathy of the entire community.

### NEW BANK FOR CLARENDON

The Clarendon State Bank, Capitalization \$25,000, Will Open for Business Soon.

Clarendon will soon have a third banking institution. The promoters are Messrs. H. D. Ramsey and P. R. Stephens, of this city, and J. C. Knorpp, of Kansas City. A charter has been applied for to conduct a bank under the state banking laws, the capitalization being placed at \$25,000. The officers will be: H. D. Ramsey, president; P. R. Stephens, vice president; Wesley Knorpp, cashier. Negotiations are now under way for the purchase of a brick business house, failing in which a new brick will be erected at once. Efforts will be made to have the bank in operation within the next 60 days.

This will give Donley county four banks, and this fact alone speaks volumes as to the progress of our town and county.

### A Good Show.

The theater season was opened in Clarendon Wednesday night, and those play goers who were fortunate enough to be present were given a treat not often enjoyed in Clarendon.

"The Wizard of Wall Street" was the bill, and that popular actor, Lew Virden, with a most excellent company, were the inter-

preters of this rip-roaring comedy.

Rarely do we see as evenly balanced a company as this proved to be. Each actor fitted into his part with a natural ease and grace only attained by years of study and natural ability.

"The Wizard of Wall Street" has no tears, no climaxes, no death beds nor death's heads; but it has a whole bushel of laughs that are true and good and big, and a few brains mixed in for a plot. The play is not startling; it is only attractive, as the monkey remarked about his caudle appendage when he painted it sky blue. If anyone brought a weep along they evidently lost it in the first shuffle and drew a laugh in its place. "The Wizard of Wall Street" besides being excruciatingly funny is good all through. The company is made up of specialty artists who give the people the worth of their money between acts.

—If your watch or clock needs a doctor take it to Bushnell at Stocking's drug store.

### Card of Thanks.

We take this method of thanking the many kind friends who by their help and sympathy made our recent bereavement more easy to bear. God has taken a flower from our home but has left many blossoms of friendship to aid us in bearing the loss.

MR. AND MRS. F. A. DUBBS.

### REPORT ON DENVER ROAD

Railroad Commission Engineer Makes Investigation and Tells of Deficiencies.

An Austin dispatch of date Sept. 12 says: The railroad commission today made public the report of its engineer on the alleged inadequate service given by the Ft. Worth & Denver road, especially as applied to the passenger service of the road. The report attributes the wrecks and delays to the unballasted roadbed; to the excessive rains, heavy engines and cars used, and unusual tonnage. Engineer Thompson recommends that the Denver provide itself with better roadbed, with heavier rails, with new ties, and that a slower passenger schedule be arranged.

The superintendent of the road, commenting upon the report, said that the road had been endeavoring for months to get material for the reconstructing of the roadbed. That they were more than 150,000 cross-ties short on their orders. That they had been hunting for several years for a suitable ballast on or near the line, but as yet had not found it.

## H. MULKEY WINS HONOR

Clarendon's Popular Photographer Wins Out in Prize Contest at Austin.

If Homer Mulkey isn't feeling good all over he should be, and the size of his hat should be advanced another notch. We have always had a faint notion that to beat our crack photographer in grade of work one would have to rise up early in the morning and burn more than the usual amount of midnight oil. Now this notion has been verified by no less authority than the Photographers' Association of Texas. At the session of this body at Austin on the 4th, 5th and 6th of this month a photographic contest was one of the main features, attracting contestants from all over the state. Mr. Mulkey entered the contest and, as we have stated, came out winner.

Considering the number of contestants, the grade of work produced and the natural handicap Mr. Mulkey labored under by being located in a town the size of this, his success is remarkable, and shows that he possesses more than ordinary talent in his profession.

In conversation with a Banner-Stockman reporter Mr. Mulkey freely admitted that he had made greater progress in photographic work during the past year than during all previous years, and says he expects to make even greater progress during the present year. We hardly see how he will manage to make much greater improvement, but if he says he can we will gamble a dollar against a doughnut that he does it; anyway, here's hopin'.

### Pain from a Burn Promptly Relieved by Chamberlain's Pain Balm.

A little child of Michael Struss, of Vernon, Conn., was recently in great pain from a burn on the hand, and as cold applications only increased the inflammation, Mr. Struss came to Mr. James N. Nichols, a local merchant, for something to stop the pain. Mr. Nichols says: "I advised him to use Chamberlain's Pain Balm, and the first application drew out the inflammation and gave immediate relief. I have used this liniment myself and recommend it very often for cuts, burns, strains and lame back, and have never known it to disappoint." For sale at Dr. Stocking's drug store.

Quite a large herd of cattle belonging to Mr. Jones, a cattleman of Canadian, passed through here last Wednesday enroute to Mr. Jones' ranch in Hemphill county. The cattle had been bought of A. Q. Bonner, J. A. Mahan and other local stockmen.—Collingsworth Courier.

J. B. Porter, during the last week sold eleven head of mules for \$1,475 and has about 65 head yet, ranging from six months to four years old. How is that by the side of a cotton farm?—Silverton Enterprise.

### Starving to Death.

Because her stomach was so weakened by useless drugging that she could not eat, Mrs. Mary H. Walters, of St. Clair St., Columbus, O., was literally starving to death. She writes: "My stomach was so weak from the useless drugs that I could not eat, and my nerves so wrecked that I could not sleep; and not before I was given up to die was I induced to try Electric Bitters; with the wonderful result that improvement began at once, and a complete cure followed." Best health tonic on earth. 50c. guaranteed by J. D. Stocking, druggist.

**Dorothy Dodd**

IN presenting the "Dorothy Dodd" Shoe to our customers, we do so with the conviction that it is the best for the prices of \$3.00, \$3.50 and \$4.00 of any woman's shoe on the market today. It is striking in style, faultless in fit and of moderate price, three points which cannot but appeal to every woman. Another strong point is the exceptional range of styles,—for not only is the proper style afforded for each and every occasion, but each style is divided and sub-divided by variations of design and material until the possibilities for choice are practically limitless. The new Autumn styles present all the latest innovations, with all the little details of finish and workmanship carried to a degree of perfection that makes their resemblance to the high priced custom products more marked than ever.

**THE SPLIT LOG DRAG**

Instructions for the Flaking and Use of a Cheap Yet Good Road Machine.

So much has been said and written by the papers down state concerning the split log drag for the improvement of county roads that instructions for making and using the machine will no doubt prove interesting to our readers. Whether or not this method of road improvement is adaptable to our sandy roads we do not know; of course it could be used, but whether or not the road would be packed tight enough to stand remains to be seen after it has been once tried. To say the least of it, the method is cheap enough and simple enough to warrant a trial:

A man or boy can make drag in less than two hours. Get a log eight feet long and twelve inches in diameter. Split it in halves. Bore three two inch holes in each half one at each end and one in the middle. Join the halves, split sides forward, with good strong braces, about three feet long; wedge them in securely. If a log is not handy, use twelve inch plank. Reinforce the backs with a 2x6.

A loose plank, on which to ride, is placed across the braces. Wrap one end of the chain around an end stake, carry it over the top of the slab, out to the double-trees, and then back to the other end of the slab where it should be fastened by poking an old bolt or spike through one of the links into a hole, bored three or four inches from the end of the slab, and about its center, up and down.

Hitch up and drag—at an angle of forty-five degrees—and you will be surprised at the results.

**HOW TO USE THE DRAG.**

First make the drag and have a four-horse evener ready to use the first time. Wait until your roads are very soft, the wetter and softer the better. Then attach four horses; straddle the right hand rut, and begin to drag. Then turn and come back along the other rut. Don't hurry; drive slowly; the slower the better. The effect of

this first dragging will be to fill up the ruts, and make a moderately smooth surface on which it is possible to make three tracks—one on each side and one where the old track used to be. This smooth surface will shed water partially at least and will give free access to the sun and wind, causing it to dry quicker than the rough surface on either side of the smooth space. When it begins to dry off take two horses and go over the same track again. This will still further puddle the clay and carry a little more into the middle of the road which every team will puddle and compact still more.

If you wish to widen the road, wait until another rain, and then, when it has dried off sufficiently to plow readily, plow one furrow along the outer mark of the drag, take the drag and spread this smoothly over the surface of the road. In this way the road will be widened the width of the furrow and will gradually become oval; that is, higher in the middle and each time the drag is used will become a little smoother and a little harder. If the road is still too narrow, plow another furrow, and so on, until the road has been widened as much as you wish.

Don't try to drag with one piece—use two. One will scoop out the hollows in the road and deepen them. When two are used, the one keeps the other up, and in a month or so the hollows will have filled and become level and hard like the balance of the road.

All over the state of Missouri the drag has been used with satisfaction. The State board of Agriculture recommends it and publishes a free booklet on the subject.

Don't be particular about material. With an ax and a two-inch auger almost any kind of a log can be made into a drag.

**The Breath of Life.**

It's a significant fact that the strongest animal of its size, the gorilla, also has the largest lungs. Powerful lungs means powerful creatures. How to keep the breathing organs right should be man's chiefest study. Like thousands of others, Mrs. Ora A. Stephens, of Port Williams, O., has learned how to do this. She writes: "Three bottles of Dr. King's New Discovery stopped my cough of two years and cured me of what my friends thought consumption. O, it's grand for throat and lung troubles." Guaranteed by J. D. Stocking, druggist. Price 50c and \$1.00. Trial bottle free.

**A Safe Combination**

Pure Raw Linseed Oil and Hammar Condensed Paint

Possibly it has never occurred to you to think of paint as ever being "unsafe." But it is; if for nothing else than that everybody wants to get his money's worth; it is unsafe to buy any paint handed out to you without question. House owner, contractor, or painter, whichever you are, it is to the business interest of every one of you to see that you get paint that will spread well; keep its color and cling to the house for years. That paint's Hammar. Its strength lies in being not a ready mixed paint nor a paint that you mix entirely yourself. It is a condensed paint—all the necessary ingredients are ground in by machinery, except the oil. You put that in yourself—no guess work. Simply a gallon of oil for gallon of paint, no more, no less. You get the whole life of the oil; that is the entire life of any paint, no matter how mixed or how bought. That's why Hammar Paints out-spread, out-stick and outwear any other paint on earth. In buying Hammar you are not paying paint prices for canned oil, with the life of the oil all gone at that! Drop in some day and let me show you how you can save at least 25% on your next paint bill and at the same time get a paint that is guaranteed to stick for five years.

## BIG BUNCH GOES TO S. W. U.

Clarendon College Students Leave En Masse for Georgetown University.

Clarendon College has, within the past few days, had the pleasure of bidding Godspeed to quite a number of her former graduates as they departed for the classic halls of S. W. U. at Georgetown. Our record there has been very fine—one of which we are justly proud. No other correlated school sends so many of her graduates there as do we. D. B. Doak left on Saturday night in order to spend Sunday with home people. On Sunday night, Miss Mary Peebles, who is to take her degree there, and Miss Willie Thompson of our last year's class were bidden goodbye by a host of friends, who were at the train to see them leave. On Wednesday Edgar Betts of the class of 1905, who has been ranching near Hereford, came in for the day, and went on down to Georgetown that night. Gibbs Glenn and W. P. McMicken, undergraduates, have also joined the ranks at Georgetown.

While some of our graduates are entering school again, others are beginning work. Miss Mamie Harrington has begun her music class at Stratford, and Misses Nora Talley left Saturday for Silverton where she has the promise of a very fine music class.

The young men of the dormitory held the first meeting of their regular weekly prayer meeting in

the chapel last Saturday evening. This young men's prayer meeting is a great force for good in the college life.

On Saturday afternoon the first ball game of the season was played. The ball players of the Panhandle and Adkissonian societies formed two nines and played a match game resulting in a score of 17 to 2 in favor of the Adkissonians.

Miss West has organized a most interesting little drawing class on Friday afternoons after the Austin Society is over. Quite a number of the children have joined this class.

Miss Agnes Brummett made a visit to her home at Claude this week to attend the wedding of a friend. She returned Thursday morning.

The Panhandle society greatly enjoyed a farewell speech by D. B. Doak at their meeting Friday afternoon. Mr. Doak was one of the first members of this society and has been one of its best.

The College Circle held an interesting meeting in the college parlors on Monday evening. The question of the Lyceum course was the principal question discussed. Plans had been made for an entertainment on Friday evening of this week, but they were postponed on account of the meeting in progress at the Baptist church.

Dr. Stocking and his son, Dr. Stocking, Jr., were with us at chapel on Monday morning and the college people greatly enjoyed a very earnest, practical talk by the Junior doctor.

The Adkissonian society have arranged to put in a society library in their society room which is on the third floor of the college building. This initial step on the library question means much toward the improvement of the society.

It has been arranged to put a piano in the library and allow one of the young ladies' societies to meet in there.

We are greatly pleased over the new library furniture which has just arrived. This is the gift of our friend who has made the library what it is, Mr. F. A. White, of Dallas.

### The Great Ambition.

This ambition not to be satisfied with little things is characteristic of men of great fiber, and it had a great deal to do in shaping Beecher's career. If he had had an ordinary ambition, he never would have been the power in the world that he was—he never would have become one of the first preachers in the world. A steady stream cannot rise higher than its fountainhead.—Success Magazine.

### Effective Remedy.

It is said that a candidate for parliament at the recent English elections, while justifying flogging in the army, remarked: "There is no necessary disgrace in being flogged. I was once flogged myself, and it was for telling the truth, too." "It seems to have cured ye," said a voice from the back of the hall. This story was also first told about Prof. Mahaffy, of Dublin, Father Healy, of Bray, making the retort.

### Planted in Cans.

Mr. Gardner—Well, dear, how are the tomatoes you planted?  
Mrs. Gardner—Oh, John! I'm afraid we'll have to buy what we need, this year.

"Why how's that, Mary?"  
"I recollected to-day that when I did the planting I forgot to open the cans!"—Puck.

### No Right to "American."

The supreme court of San Joaquin county, California, has decided that no one can acquire exclusive right to the word "American" in business. The decision was given in the suit of the American Fish company, of Sacramento, against the American Fish and Oyster company, of Stockton.

### California's Salt.

A great California industry is the manufacture of salt from sea water. In Alameda county 100,000 tons were produced last year. Only a few years ago the state imported all its salt. Now it produces enough for its own use—which is enormous, owing to the fisheries and packing houses—and exports large quantities as well.

### Turkish Postage Stamps.

The Turkish government offers a bargain to stamp collectors through its minister at Vienna. Rather more than a million Thessalian stamps are to be withdrawn from circulation. They are of all categories and colors—red, blue, green, etc.—and an open offer is made to sell the lot for \$8,000.

### THE PUBLIC SCHOOL NOTES

The Enrollment Still Growing—Literary Society Organized—Notes and Personals.

The enrollment for the public school for the present year, so far is 370. This is an excess of 40 pupils over the enrollment for the same time last year.

The Silvanian Literary Society organized last Friday evening with George Stocking as president and Mabel Smith secretary. The Pansey society so far has preferred lessons to literary work.

Mr. Rowles, contractor on B. T. Lane's new building entered his three little girls in the public school this week.

Mr. J. L. Wright from north part of the county brought his two little girls, Louise and Mary to school Monday morning. They are new pupils.

The introduction of a drum as an aid in keeping time in marching in and out of the building has proven very successful. The pupils are getting so they march in good time.

School is beginning to settle down to a systematic condition of things. The teachers are all fully in the harness, and nearly all classes have been provided for.

The withdrawal of little Miss Pauline Wood from the primary room makes a vacancy that is difficult to fill. Her teacher and classmates regret her departure.

Miss Chamberlain is teaching her music pupils at the residence of Mrs. W. W. Weatherly. This is convenient to the school. Miss Chamberlain says her class has

Rev. Rogers, besides being pastor of the Clarendon Baptist Church, is Chairman of the Executive Board of the Panhandle Baptist Association; President of the Panhandle Baptist Encampment, and Editor of the Panhandle Missionary. In all his work he is ably assisted by his wife. With the assistance of Rev. J. Frank Norris, of Dallas, they are now engaged in holding a revival meeting in this city.

almost reached the limit in size.

It has been necessary to purchase a few tables to supply a shortage of desks in one or two of the rooms. Ten or twelve new pupils have been enrolled this week whose names we have not obtained.

While the public school is large and still increasing, we are con-

scious of the need of another first-class high school teacher; we also need physical and chemical apparatus.

Mr. R. F. Wood presented the public school library with a valuable collection of books Thursday.

Mr. G. C. Hartman also gave a good book for the library.

#### Rowe Rumbings.

Rowe, Texas, August 11.

EDITOR BANNER-STOCKMAN:

Mr. and Mrs. McDougall returned last week from an extended visit to Colorado.

Roy Newton of our community left today for Goodnight to enter school.

Cecil and Mabel Blair, of Clarendon college, were at home Sunday attending the children's day exercise.

W. A. Guill is able to be about again after several days confinement with appendicitis.

W. D. Bishop returned last week from a prospective trip to New Mexico where he obtained a school lease and a 160 acre homestead.

Our town is improving rapidly. We have two good gins near completion.

W. M. Caviness is completing a nice residence in the south side of town.

C. E. Thornton is constructing a beautiful cottage home in the east part of Rowe.

F. E. Caraway, of Clarendon, was here Monday looking after his new building which is to be started tomorrow.

Hollifield and Thornton are building another large store building.

Hendrix-Ramsey & Co. are finishing a new store in new town.

Chas. Phillips and W. B. Lafferty will begin the erection of a new livery stable near the lumber yard Monday.

Real estate transfers this week: Nat Smith to O. C. Hill, 2 residence lots; Nat Smith to Phillip & Lafferty three business lots; J. E. Scott to Mrs. S. B. Daniel, 2 residence lots-new town.

Rowe Public school opened the 1st Monday in this month with an enrollment of 84 the first day. The school bids fair to be the best we have ever had under the management of Prof. Pile and Miss Sallie Johnson. Let us all lend our influence to have the best school Rowe has ever had.

Miss Buchanan's music class is progressing nicely.

Miss Rebecca March returns to Dallas today, after a pleasant visit to Capt. Nat Smith's family.

Carl Carson and wife came in today from New Mexico.

Children's Day exercises were carried out at the C. P. church last Sunday evening. The house was crowded to overflowing. A splendid program was carried out. The songs, recitations and marches of the smaller children deserve special mention; also Mrs. Dickson's reading, "Tommy's Prayer," held the audience spellbound throughout the entire rendition. C. M. #### Chamberlain's Cough Remedy Acts on Nature's Plan.

The most successful medicines are those that aid nature. Chamberlain's Cough Remedy acts on this plan. Take it when you have a cold and it will allay the cough, relieve the lungs, aid expectoration, open the secretions and aid nature in restoring the system to healthy condition. Thousands have testified to its superior excellence. It counteracts any tendency of a cold to result in pneumonia. Price, 25 cents. Large size, 50 cents. For sale at Dr. Stocking's drug store.

Hundley Cocke entered the law department of Cumberland University at Lebanon, Tenn., this week. He has promised to become a Courier correspondent from that part of the world and we shall expect to receive some interesting letters from him ere long as he is a close observer and handles his English well.—Collingsworth Courier.

Childress public school will not open this year until Sept. 31st. This seems unusually late to start but the funds and local conditions have no doubt been taken into consideration.—Memphis Herald.

The Index cannot understand how the Herald got that information. The Index of August 24th stated that the school would open Sept. 3, which it did. The school funds and local conditions in Childress are about as good as could be wished for, except more room is needed.—Childress Index.

Perhaps the Herald man was only perpetrating a little joke and forgot to add that the school in question would close on the 30th of February.

Mrs. M. E. Franks, who had been sick for several weeks died at 4:40 a. m. Wednesday. She was about seventy years of age and on account of this great age was unable to rally. She was the mother of T. R. and H. E. Franks of this city and of W. J. Franks of Hays county, all of whom were present at the time of her death. The funeral took place Wednesday evening at the Presbyterian church, and was preached by the pastor, Rev. J. S. Cunningham. The attendance was quite good and a goodly procession of people accompanied the remains to Fairview cemetery where they were laid to rest. The Herald extends its sympathy to the bereaved family.—Hall County Herald.

Much Interest Being Manifested—The Crowds so Large Church Will Not Hold Them All.

The revival at the Baptist church is starting off with good interest. The congregations have outgrown the house and a tabernacle has been erected in order to accommodate the great throng of people. Some have been reclaimed, and some conversions, with a number of seekers, among them some strong men. Rev. J. Frank Norris, of Dallas, is doing the preaching. He has already captured the people, and the outlook is good for a great revival.

Services are held twice daily, at 10 a. m. and 8 p. m.

### To Homeseekers:

Come to Clarendon if you are looking for a land of limitless acres, of the most fertile soil, abundance of water, climate unsurpassed, women the most beautiful, men of brain, brawn and honesty of purpose, and the Franklin cigar; 5c and worth it. it

Will Guill was up from Rowe yesterday. He is just out of bed with a case of appendicitis, the second attack in two months. He will leave Monday for Dallas where he will undergo an operation for the removal of the troublesome organ.

Mr. and Mrs. J. B. McClelland and children, Bruce and Miss Lila, left Sunday for New York, via Galveston. From Galveston Miss Lila will return to Dallas to school, while the others will proceed by boat to New York City for a sight-seeing tour which will include a visit to relatives in Virginia and at Washington, D. C. Bruce will remain in Virginia for another term in school. Mr. and Mrs. McClelland will be away about a month.

The Parker Amusement Co. erected their tents in Clarendon last week. They were advertised for four days, but on account of some delay in receiving a part of their property only two days were played, and even then they had nothing running except the merry-go-round and Ferris wheel, with a little shooting gallery on the side. In spite of this they did a good business here, large crowds flocking to the grounds each night. The local fire department was benefited to the extent of something over \$50, being allotted 12½ per cent of the receipts.

## Wonder of the 20th Century.

### THE ACME BUTTER EXTRACTOR

Makes butter from sweet cream in from 1 to 10 minutes.

The machine produces a perfect granulated creamery butter every time, the average time being only three minutes. It churns sweet cream as quickly as it does soured. It increases the yield from one to ten per cent.

It is Guaranteed to Pay for Itself in Six Months from the Milk of Two Cows.

It is made of the very best of materials and is guaranteed. The centrifugal force of the cream separator together with the air motor which forces a blast of air through every particle of cream, thereby purifying it, are the two great principles used. See the machine work and be thoroughly satisfied.
