COWBOYS GIVE STREET EXHIBITION

Old Time Memories Brought Back—Bronc Busting, Leather Leggings, Six-shooters in Play.

Hereford was treated to real western cowboy show Wednesday afternoon. A dozen boys from the Lee Bivins "L-X" ranch were in town and they made their presence known. The first thing they did was to take in the Brand office, and after satisfying themselves that the office was making good its name, they turned their attention to the curio window. Seeing so many old guns and relics of early days, they proposed to give an exhibition. Thereupon, Robert Elliott, the curio fiend and owner of the window, outfitted three or four of the boys with pistols, dirks and other frontier paraphernalia. With their cow ponies the boys paraded up and down the street in front of the Brand office and did many stunts which were interesting and remindful to the old-timer and a source of wonder to the tenderfoot. At the close of the general exhibition, Dog Face Hunter, one of the favorites, proposed to "goose" his bronc, which was done, and a lively bucking stunt was the result. The horse, in his efforts to get the rider off, jumped on the sidewalk, which proved to be too slippery for him, and he fell broad side with his rider. Neither were hurt.

The kodak fiend was clicking his machine and some good shots were taken.

The boys had just returned from the "J-A" ranch near Friona where they had placed 1400 head of steers on the range. This was the part of 2776 head belonging to the Bivins herds, which they have been distributing. The boys composing the camp were: R. W. Brown, foreman; Big Nasty, Cooper, Truscull, D. B.

bins, Dog Face Hunter, Scott, Wilson, Harris, Barr, Steel and Rogers.

The boys from the Bivins ranches are always well behaved men and are widely known for the western hospitality. They promised the curio window a complete set of cowboy accouterments, including a pair of chaps, spurs, belt and six-shooter, hat, handkerchief, shirt, saddle pockets, lariat, etc.

Come again boys and we will let you "shoot up" the Brand office.

While in California recently we attended a school of instruction and are now better prepared than ever to sell your land or do some trading for you. Tell us about your bargains for sale. Express to us your wishes and we will do the rest. A. H. Elliston & Son, at the old stand. 16tf

WOOL MEN TO ORGANIZE

All Who Are Interested in the Wool Industry Are Asked to be at the Court House Saturday.

We are requested to announce that there will be a meeting of the wool growers and those interested in the wool industry at the old court house Saturday afternoon at 2 o'clock.

Primarily the purpose is to form an organization of the wool growers. There is plenty of warehouse room in Hereford to store all the wool that is brought to this point. The idea is to issue receipts for the wool stored and all hold until the minimum price agreed upon at the meeting is reached. If it is not reached those promoting the affair say that arrangements have been made to secure money on the wool stored, which will be held until the price set is reached.

Not only are the sheep men in Deaf Smith county urged and invited to attend but those in adjoining counties as well.

FOURTH WEEK DISTRICT COURT

District Court Takes Up Non-Jury Docket—Several Judgements Returned to Date—Sellers to Marry.

The court finished the jury docket last week, the last case tried being that of Henry Von Liene vs. Geo. W. O'Brien, in which the jury returned a verdict in favor of plaintiff for the amount sued for.

The Non-Jury Docket was taken up Monday and the following cases have been tried:

Hamilton and Vanatta vs. N. E. Rood et al., suit on note, judgment in favor of plaintiffs against N. E. Rood, and the court has judgment against other defendants still under advisement.

H. L. Goats vs. Leon A. Murrills et al., two suits on notes and foreclosure of Vendors lien, no judgment rendered yet.

R. N. Mounts vs. General Bonding & Casualty Insurance Company, suit to recover money obtained by fraud. No judgment rendered yet.

H. M. Lindenbauer vs. J. P. Snyder, suit for damages on warranty, judgment for plaintiff for \$808.00 and interest.

W. H. Vanatta vs. Chas. F. Ogden et al., suit on notes and foreclosure of Vendors lien, judgment for plaintiff for principal, interest and attorney's fees.

Bank of Bovina vs. Tom Railey, suit for debt, on trial.

Eight other cases were continued for the term.

Judge Hill left Thursday for Dalhart, having adjourned court in order to enable the county officers to move into the new court house. Court will reconvene in the district court room in the new building next Monday.

The following invitation has been received by several members of the court: "Mr. and Mrs. W. M. Cava-

naugh invite you to be present at the marriage of their daughter, Maud Ellen, to James Wesley Sellars, Wednesday, June seventh, nineteen hundred eleven, at high noon in the Chapel of the Sacred Heart, Tascosa, Texas."

Mr. Sellars is the district attorney of the 69th Judicial District and the other members of the court were somewhat surprised to learn that he was so soon to become a benedict.

Among the out-of-town attorneys in attendance on court this week are Messrs. A. S. Rollins of Canyon City, H. H. Cooper, A. A. Lumpkin and S. H. Madden of Amarillo and Bromberg of Dallas.

Another of the Santa Fe's big engines passed through Hereford Monday afternoon and drew quite a crowd to the station the few minutes it stopped here.

MOVES TO MISSOURI BUT COMES BACK

John Millard and Family Make a Trip to Missouri But Return Without Unloading Car.

About two weeks ago Mr. and Mrs. John Millard decided to leave the Panhandle and move to a better country whereupon they selected Missouri. Their car was loaded and Mr. Millard left with that, Mrs. Millard and little son following on the passenger a day or two later. Mrs. Millard arrived at their destination, but she was so dissatisfied and home sick for Hereford that she waited for her husband to arrive with the car of household effects. Without unloading the car the freight was repaid back to Hereford. Mrs. Millard took the train and was soon back in Hereford smiling and explaining to her friends how it all happened. Mr. Millard came back in a few days and they are now again citizens of Hereford. Come to Hereford if you would be happy.

HEREFORD COLLEGE CLOSSES YEAR

Successful Session Ended Friday Night With a Play by the Students—Large Crowd Present.

Hereford College closed a successful year last Friday night when the pupils of the department of oratory gave a well staged play—"A Regular Flirt." The pupils who had "parts" acquitted themselves with much credit and elicited applause from the audience as each climax was reached in the play.

The large chapel was filled and packed with the friends of the school.

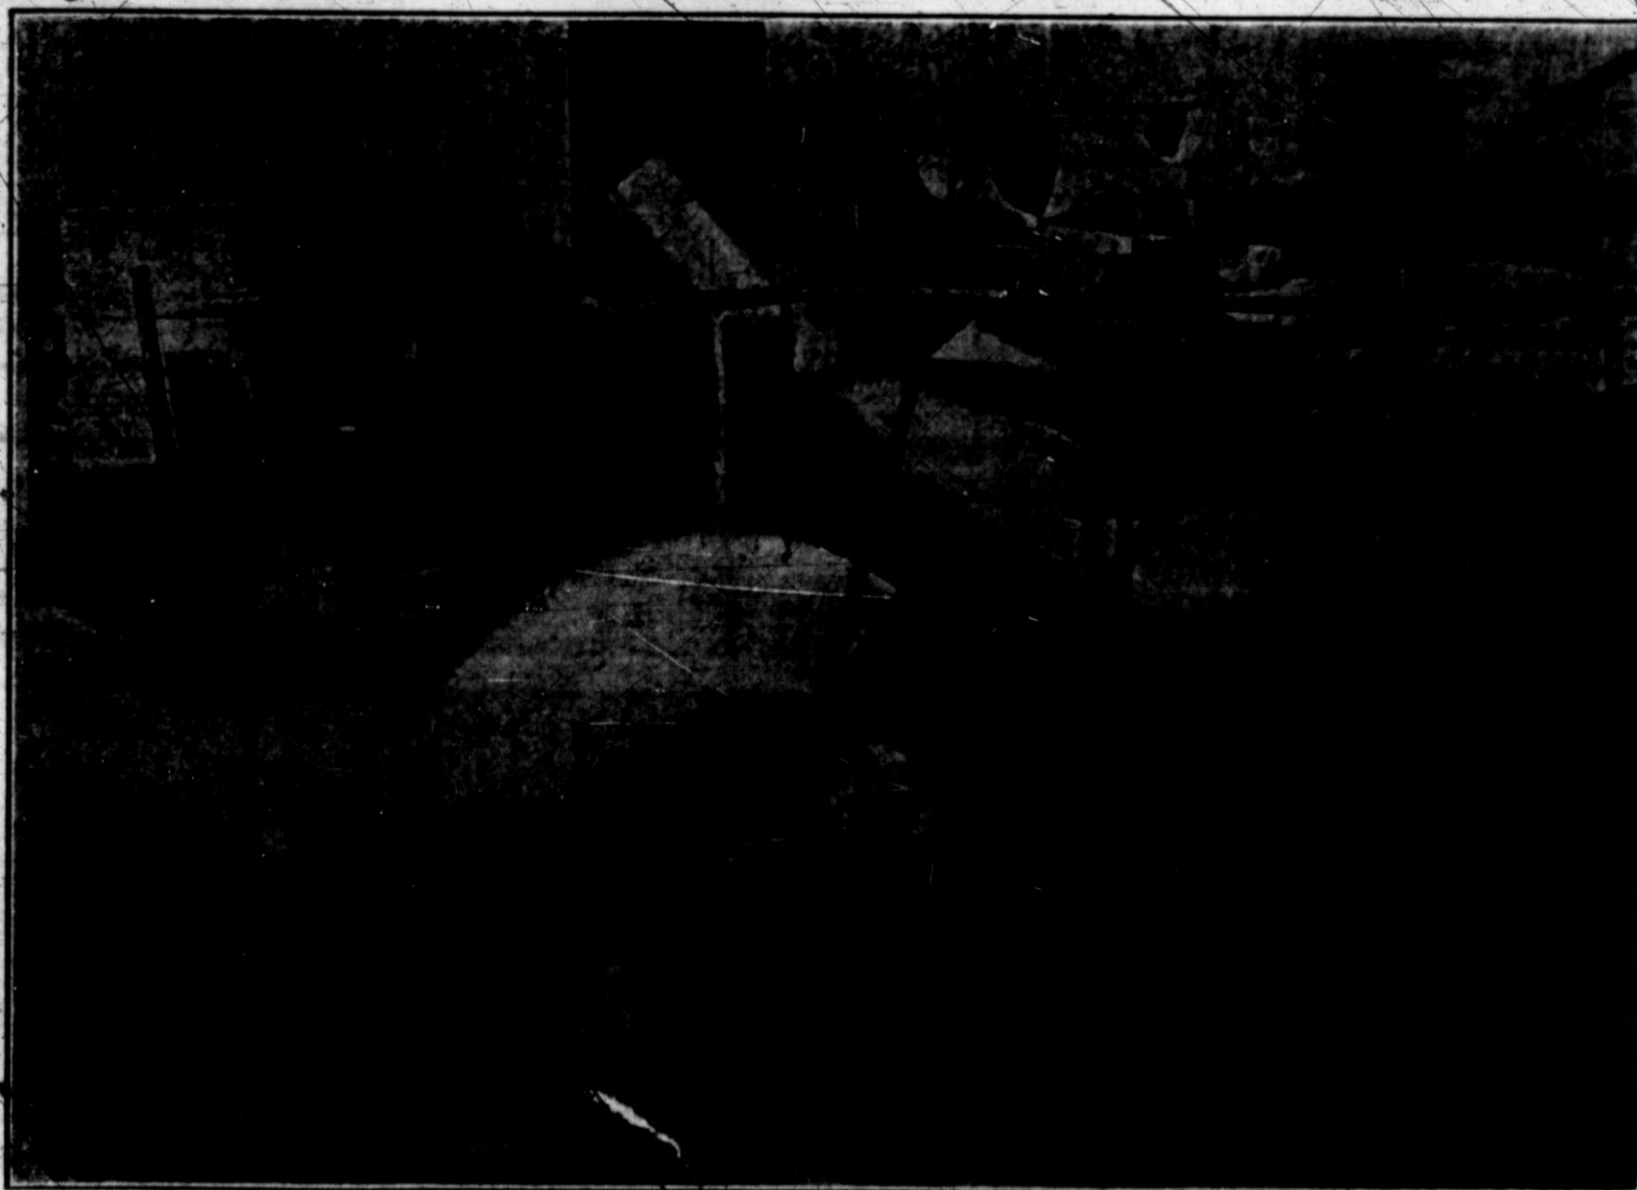

At the close of the program, President Shirley came out, and after a few remarks as to the reasons for granting scholarships and the methods of grading, announced the winners for the two scholarships in Texas Christian University. The honors went to Albert Moore and Gertrude Taylor with Lewis McBride and Minnie Harris close seconds. Albert Moore is the son of Mr. and Mrs. S. B. Moore who have moved to Kansas. Miss Gertrude is the daughter of Dr. and Mrs. A. L. Taylor of 25 Mile Avenue. It is announced that both of these young people will accept the scholarships and attend the school at Fort Worth next session.

The Dramatis Personae of the play was as follows:

Dr. Theodore Morgan, a prominent physician... G. T. McBride.
Reginald Morgan... Perry Johnson.
Theodore Morgan... Wayne Estes.
Dick Harding, the Doctor's step-sister's son... Lewis McBride.
Kitty Harding, Dick's sister... Lora Moore.
Mrs. Mortimer Mason, a designing widow... Bertha Witherspoon.
Mary O'Reilly, Mrs. Mason's maid... Fay Horton.
Mildred Elliott, A Regular Flirt... Percy Gallaher.

A MOTHER'S APPEAL

How Texas Lets the Deaf-Mute Children Lack Proper Attention.

So much appears in the papers from time to time about the needs of the State University and A. and M. College, the College of Industrial Arts and the State normals, that I would like to mention in a modest way some of the needs of another state school, namely, the Deaf and Dumb Institute at Austin. Having a dear little girl in school there, it has been my privilege to visit there several times in the last six years, and have had splendid opportunities of observing conditions at close range. There seems to be a special set of officers and teachers in

charge of the institution who are doing great work with the means at their disposal, but there has not been that response to the appeals for the institution from the legislature that one would expect in the great state of Texas, consequently the progress of the school has been greatly hindered. Two years ago the salary of two teachers were cut out, also that of the sick nurses, providing no one to care for the pupils when in the hospital, except the physicians. While I think the same legislature appropriated a nice sum of several thousand dollars for a swimming pool and natatorium for A. and M. College. Two or three more teachers are needed in the Deaf and Dumb School, and in talking with the principal he said:

"Our hands are completely tied

for we have no money to pay more teachers," and when I inquired about one of the best teachers, was told that she had only been allowed a salary of \$600 a year, and the Iowa school had offered her \$900, so of course she had gone. In the kitchen were only four cooks for the vast number of 450 children, while over at the Blind Institute I was told were 250 pupils with five cooks.

Now, being a woman, the proposition is entirely too large for me, but there is something wrong when a great state like Texas cannot or will not keep pace with other states in her public institutions. I was surprised when informed that there are hundreds of deaf children in the state who cannot attend school for lack of room, and yet an education means so much to those deprived of their hearing, and the influences thrown

around them, while in school is of the utmost importance. In the dining room at the dormitory I found that pupils are required to eat and drink from tin dishes, which is a way humiliating to every self-respecting boy or girl, for it is an established fact that to treat a child like an animal develops the animal nature. Then, too, it teaches them a carelessness in handling dishes that is hard to overcome. The committee of investigation from the legislature does not seem to take into consideration the increased cost of living when making appropriations for the Deaf and Dumb Institute, for the school opened two weeks late last fall and will close a week or two early, because they have not sufficient money to run the entire term. Now it cannot be that the state is pauperized, for we notice that all the other state schools are running on full time. Now these are just some of the facts picked up while on a visit to my little daughter at the institute in March, and I do hope that the special session of the legis-

lature this summer will find it in their hearts to heed the urgent needs of the school. MRS. J. M. DEVENY, West, Texas, April 20, 1911.

Johnson Concrete Tile

These are the only practical tile for sub-irrigation. One man can lay in the trench 3,000 feet per day and cement the joints. These tile can be made porous if preferred, which would also reduce the price. But the ideal one is that with 1 to 4 small holes in the bottom side which has proven to give satisfaction in controlling the water and one that can always be depended on.

What Determines the Advertising Rates.

Not everybody who buys advertising space understands what determines the price.

As a general rule it is determined solely by the circulation.

There are some exceptions, where the medium has an especial quality in a limited circulation.

Where there is both quantity and quality, the medium is especially valuable. With country papers the general rule is to allow ten cents per inch per 1,000 copies of actual circulation.

That allowance is very reasonable. It would make the rate on the Register-Tribune right at thirty cents per inch.

Our present charge is twenty cents per column inch, with a reasonable discount on large quantities used during the year.

We have no "special rates" every advertiser using our columns paying exactly the same. This applies to foreign advertisers just the same as to the fellow around the corner. Cottolene and Dr. Price's Baking Powder is charged just the same as any Roswell firm. We could never see any rational excuse for allowing the outside fellow a lower rate, and they don't get it from us.

Figuring from a circulation of 3,000, our rates are ten cents under the market, and the home advertiser gets the advantage of it just the same as the outside man with millions.

All intelligent advertisers will see the point, for the character and extent of our circulation is well known in the Pecos valley. There are no press room secrets in our shop. Over a thousand of our papers go into Roswell homes, another thousand into the smaller towns and the farm homes of the valley.

They go there year after year. The people have confidence in the paper and in its advertisers, for so far as possible we safeguard every line of advertising we accept.

This quality and this circulation makes the price of advertising in the Register-Tribune an especial bargain.—Roswell Register-Tribune.

Extra Special Announcement.

We are authorized to announce that the Fort Worth Record will make the following unusual offer to rural route subscribers on account of the forthcoming prohibition campaign: The Daily and Sunday Record will be sent by mail to any rural route address or to those living in small towns where the Record is not delivered by local carrier, from now to July 31st, 1911, for \$1.00; or from now until August 31st, 1911, for \$1.50. Remit by money order direct to the Record Co., Fort Worth, Texas.

Every farmer should become thoroughly posted on this great vital question and the Record can be depended upon to give both sides of the question fully and impartially.

SUGGESTIONS MADE BY HEALTH OFFICER

Dr. G. T. Thomas of Amarillo Calls Attention to Necessity For Cleaning and Screening of Foods.

The following communication from Dr. G. T. Thomas, the health officer, is considered timely and worthy of acceptance by the citizens of Amarillo, especially during the spring and summer seasons:

"Every day should be clean-up day in Amarillo, who boasts of her healthy climate, high altitude, ozone laden air and cleanliness.

"With the opening of spring begins the breeding of the house fly. The fly must have filth to propagate it. Shall we furnish it and pay our toll to the druggist, physician and the undertaker?

"Flies are disease carriers.

"Live and breed in all kinds of filth.

"Infect food and drink by germ-laden feet.

"Each female fly can lay 150 eggs.

"Should be kept out of dwellings.

"Flies breed in horse manure, cow dung, decaying vegetables, garbage of all description, dead animals and human excrement.

"Flies are nature's scavengers, it is true, filling the same function as some bacteria do, but become an intolerable nuisance and DANGER when entering human dwellings and contaminating foods.

"The presence of flies is a direct evidence of careless housekeeping and the existence of filth in some form about the premises.

"Remember that when and where absolute cleanliness prevails there will be no flies.

"Look daily after the garbage cans. See that they are carefully sprinkled with lime or kerosene oil and effectively covered.

"Do the same thing to manure heaps, and remove all manure from stables every three or four days, and when removed, cover with lime and sand.

"Look carefully after the cuspidors. They require constant attention, this is particularly true in hotels, boarding houses, station houses, railroad stations, and, in fact, wherever people congregate in large numbers.

"Flies are fond of feasting on tuberculosis sputum, and hover around cuspidors. The specks of flies contain live tubercle bacilli after they have eaten tuberculosis sputum, showing that the bacilli will pass through the digestive tract of the fly in an active infective state.

"Flies carry on their mouths (proboscis), and on their legs, putrefying and disease germs, on which they have recently fed, and then crawl over food, infecting it, unless shut out by screens.

"Keep flies from the SICK, especially those ill with communicable or contagious diseases. If the room is not screened the patients should be treated under a net, both for safety to others as well as individual comfort.

"SCREEN ALL FOOD. Apply this rule, not only to food prepared at home, but to food stuffs offered for sale, and especially fruits, salads, and all other things which do not require to be cooked.

"Flies crawl over fruits when exposed for sale, unguarded by screens, and the generality of people do not wash fruits before eating it. This is a fruitful source of human infection, particularly if a case of typhoid fever near by is being carelessly handled.

"Don't forget that flies will carry the bacilli of typhoid fever from the stools of the patient (if left exposed

and not disinfected), if given an opportunity, to the food in the kitchen and dining room. This is no conjecture, for the Spanish-American war proved this fact.

"The great secret of how to get rid of flies is CLEANLINESS, FIRST, and by screening all openings of the home, especially the kitchen and dining room.

"On May 9, 10, 11, Amarillo will be hostess to the representative medical men of Texas with a large number of men of national reputation.

"Any entertainment that we might offer or any impressions of our city's greatness, would be destroyed by filthy back yards, and any advertisement their coming might be would be destroyed.

"Greatest of all, filth and uncleanness destroys health and must be paid for in suffering and dollars.

WOMEN ARE MATYRS

Woman is her own worst enemy—seldom does she make allowance for herself—

Self-sacrifice with her is persistent—in fact it is pernicious and as a consequence she is seldom both healthy and happy.

Everyone's health must be looked after—all but her own. In her own mind she comes last—always.

No matter how strong her constitution she must eventually give way under the strain—the climax comes in complete collapse.

Careful and constant attention to details in the matter of her own health is imperative—the delicate functional organs must perform their duty with unceasing regularity, the blood must be kept pure, it must nourish every tissue of her body, and the nerves kept proof against irritation.

Considering that it's only a matter of a few seconds each day—three or four doses of

Nyal's Vegetable Prescription

—it's totally unnecessary that her health should become impaired.

Nyal's Vegetable Prescription will make the most delicate system disease proof. It sells at \$1.00 the bottle.

A very fine line of rubber goods, such as hot water bottles, fountain syringes, etc., now in stock.

50 Per Cent Better

"I have used less than one bottle of Cardui," writes Mrs. Gertrude Ward, of Rushville, Neb., "and am feeling fifty per cent better than when I began taking it. Before taking Cardui, I had suffered with female trouble, for eight years. My greatest trouble was irregularity. I also suffered with severe pains, every month, but now I am greatly improved and will recommend Cardui to all my suffering friends."

Take CARDUI

The Woman's Tonic

The rare medicinal herbs of Cardui are imported by the manufacturers direct from Europe and are not to be found in any other medicine.

These ingredients are what give Cardui its superiority, as a female medicine and tonic, over any other medicine. For over 50 years Cardui has been the favorite woman's medicine. The ladies like it, because it is so easy to take, so gentle, so safe, so reliable in its results, and they have faith in its curative tonic powers, because of the thousands of other ladies it has helped. Try it today.

MISSIONARY WRITES TO LITTLE FRIENDS

Miss Laura Edwards of Choon Chun, Korea, Sends Interesting Letter to Elizabeth and William Slack.

Choon Chun, Korea, March 25, 1911.

My Dear Little Friends:

I cannot tell you how very glad I was to get your letters which came a long, long time ago, and I have been wanting to write to you but I just been too busy.

William, I am so glad you sent me that pretty little picture of yourself. I think it is so cute and keep it on my dresser all the time. You have grown so much and look like a big boy with your hair cut. The little curl is very pretty. When I look at it I think of how you looked when last I saw you. You asked me to tell you about our Christmas and even though that happy time has passed a long time ago, I will tell you a little about it.

We had a Christmas tree for our school children, though it was not covered with as many and beautiful toys and pretty things for children as you have always seen on Christmas trees. The Koreans, even though they love their children very dearly, are not able and never think of giving them a Christmas present, so the children received only what few things we could give them. Mrs. Nounchell, who is one of our former missionaries and is now at home, sent us thirteen small dolls which we gave to the little girls, and to the boys and the other girls we gave gloves, handkerchiefs, etc. We had some oranges and nuts, which we were able to get in Korea, and so we had a very pretty tree. The children thought it was the nicest tree they ever saw. We had Christmas songs and the Christmas story told by the children, and so we had a joyous time. I wish I could tell you all about these dear little Korean children. Our school children are all so sweet. I suppose you would think, as I did when I first saw them, that some of them are awful dirty, for some of their mothers do not take the care to bathe and put nice, clean clothes on them as your mama does. Many of them wear the same clothes all winter without one time being washed, and some of the poor little fellows never have their hair combed, but all the children in Korea are not like this. Our Christian mothers try to keep their children clean, or at least a little cleaner than the heathen. No Korean child looks like either of you two fair children. They are all rather dark complected and have black or very dark brown eyes and hair. Some of them are very pretty indeed. I wish you could see one of my little friends who is quite often in my home. She is five years old and is the daughter of our Korean preacher here. Every time she sees me she wants to come

home with me. She has eaten dinner with me twice. I suppose you know that the Koreans do not eat the same kind of food that we do nor in the same style that we do. They always sit on the floor and eat with brass or wooden sticks which take the place of our forks, but little Alice, when she comes to my house, sits up at our table and eats as nicely as any American child of her age. This little girl has a new baby sister and when I heard about her I went to see her and there lay the dear little baby wrapped in a little piece of quilt on the floor. The Korean houses do not have stoves as we do, they have fire built under their dirt floors and keep warm in this way. They do not have either beds or chairs. They sit on the floor, eat on the floor and sleep on the floor. I think you would enjoy some kodak pictures of some of our Korea children so will send you some soon. It is such a joy to teach these little children and their mothers about Jesus.

I hope all of my little Hereford friends are praying for me every day. Please tell them that I think of them often and would be glad to get cards or letters from any of them. Tell your mama that I will write to her as soon as I can find time.

Lovingly,

LAURA EDWARDS.

COMPLIMENTARY PARTY.

Just a phone message given by Mrs. F. T. Roloson to a number of her friends inviting them to a little thimble party on Tuesday afternoon that they might meet her sister, Mrs. E. E. Smith of Pasadena, Calif. A thimble party meant fancy work, as every one thought, and delightful little chats with who ever came next. This was in part the intention, but the real meaning of thimble party became apparent when the hostess asked the guests to select three sheets of tissue paper, colors to suit taste, and make a hat, using as models some of the pictures found upon the walls. A study in human nature followed. Some were in a hurry, anxious to complete the task, others started out with enthusiasm, and consuming interest, but became discouraged and "lost out," while a few worked slowly and carefully that their creations in millinery might be artistic and beautiful. Truthfully, all of the hats were stylish from some view point, but the real elements of success in that line were found in the productions by Mesdames Oberthier, Arnold and P. W. Price. A reading by Mrs. Kelly with piano accompaniment by Mrs. Parker added much to the delight of all. Pineapple sherbet and cake were daintily served. The afternoon with Mrs. Roloson and Mrs. Smith was a very pleasant one.

BIRTHDAY PARTY.

Eloise Pittman At Home

Thursday Afternoon, May 18, 4 to 6. 1906-1911.

The reception of this little card by 55 small children was the occasion of much anticipated joy. Promptly at the hour the "tots" began to arrive, many of them taking some gift to little Eloise on this her fifth birthday. Loving hands of the mother and aunt had left nothing undone which would add to the enjoyment of the hour. The dining room was a vision of loveliness in its color scheme of pink and white. The long table was laid in white damask, in the center of which rested the birthday cake bearing five candles. From an overhead center were drawn long streamers of pink and white ribbon to the corners of the table. From each plate baby ribbon lines were run under banks of pink roses at the end of which were fastened little sacks of candy, which the children drew out when assembled around the table. Ice cream with pink and white cake were served as refreshments. Punch was served by Mary Farmer and Jonathon Pitman as the little guests arrived. The children played on the lawn and many different games passed off the hour happily. Snap-photos pictures were made of different groups and a flash light also made of the dining room. The cake cutting was the last interesting game of the afternoon.

High School to Close.

On June 9 the High School will close the year's work. The program for the commencement exercises has not been completed but it is planned to have three evenings—one for the commencement sermon, one for the annual address, class program and delivery of diplomas, and one for the class play. The play will be given at the College in order to get use of the stage arrangements. There will be eight graduates this year—one boy and seven girls: Jessie James Buckner, Meda Woodburn, Bessie Sisk, Enid Smith, Irene Williams, Arabel Givens, Donna Lancaster and Edna Fuqua.

Plants Now Ready.

Cabbage, potatoes and tomato plants now ready. See G. C. Major, South Hereford or phone 97. 12tf

Ollie Curtisinger, a former citizen of Hereford, but now in business at Memphis, Texas, was here this week visiting his father.

Parrott Paragraphs.

We are glad to pass through the cold wave without frost. The cloth of gold over the Plains is quite complete now. The warp and woof of which is the "Texas Rose."

Master Frank Hacker spent one day last week with his uncle's family, W. E. Hacker. Judging from his ability to have a good time while so young he must have inherited the genial disposition of both father and mother.

All are so busy in the fields planting and sowing.

Tom Shepherd and Gladys and Mabel Hacker took supper Sunday evening at John Hacker's

We sang Sunday night at John Hacker's. The quartette were all there. The first time that they have all been together since the busy time commenced. After we had all sang for some time they gave us some splendid music which was enjoyed by all. It is a treat to hear them sing. We went home feeling that we had all enjoyed a fine evening as we always do at Mr. Hacker's.

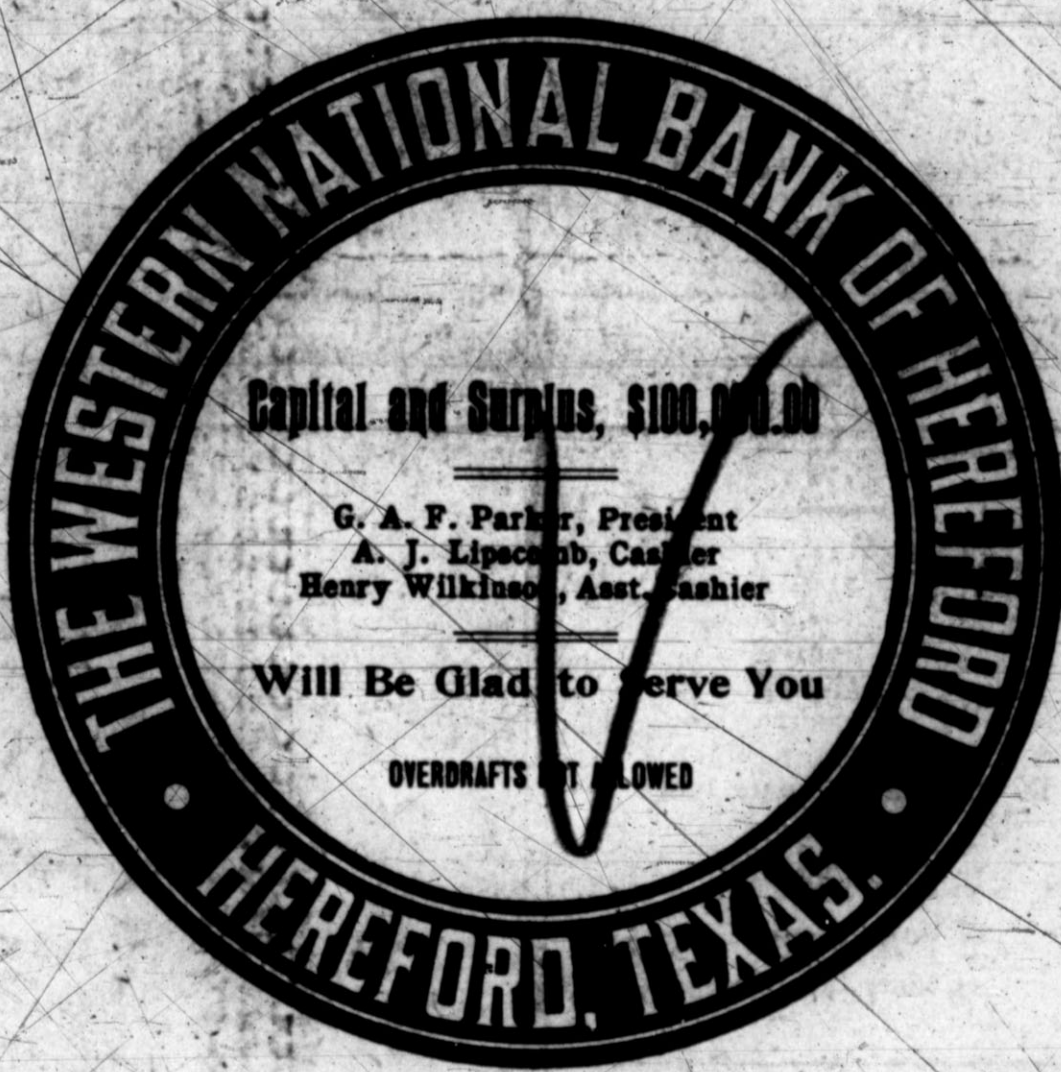

Mr. Shepherd called at Mr. Jennings' Wednesday.

Miss Wagner starts for Wisconsin Thursday to visit her old home. We shall miss her and will be glad when she returns.

W. E. Hacker and family with the carryall stopped for R. S. Neely and sister and Mr. Kepp and they all went to the singing together. This is the way we have good times in our neighborhood.

Our Sunday school wishes to thank Mr. and Mrs. Ricketts, Senior, for the beautiful roses that they sent us for Mother's day, and also Mr. and Mrs. L. Ricketts for picking and bringing them. They added much to our day.

Jack.

RAISE CANE!
This is the year to raise cane. We have the seed—amber, Orange and Shumac. See potato, cabbage and tomato plants now ready.
