LET THE CITIZENS OF TEXAS VOTE RIGHT

TEN THOUSAND ACRE FARM

Hereford Citizen to Open for Big Land Company Largest Farm in the Panhandle

Crosby county is to have the largest farm in the Panhandle if not in the state of Texas. Ten thousand acres of fine smooth plains land is to be put under a state of scientific cultivation.

Julian M. Bassett of Crosbyton, Texas, Texas Manager and joint owner of the C. & B. Live Stock and Land Company was in Hereford this week and closed a contract with L. Gough to supervise this big farm. The two gentlemen left Tuesday to lay out the tract in different parts and plan for the future. This company is composed of some of the strongest capitalists in Chicago who own more than 100,000 acres in Crosby county. For years they operated a cattle ranch, but since the advent of the "man with the hoe" and the iron horse, they have decided to put a large acreage under cultivation. The selection of Mr. Gough was the result of his having in charge the Crosbyton Demonstration Farm, upon which the wheat this year has doubled the average yield of the county. But the entire 10,000 acres will not be put to wheat, but a variety of crops will be raised. Mr. Gough has made a thorough study of scientific farming methods and personal experience has fitted him for just such a place.

Mr. Bassett and his business associates have the reputation of doing things when announced. They wanted the county seat moved from Emma to their town, Crosbyton. An election was secured and held. After some delay the courts have decided that the latter town won, but in the mean time Emma literally moved to Crosbyton. The houses, stores and hotels were loaded onto heavy trucks, traction engines and mule power attacked, and the town trekked across the Plains ten miles to its new location.

About a year ago, Mr. Bassett said that they needed a railroad. None of the big lines seemed to think so, but he and his associates got their heads together and announced that a road would be built from Lubbock to Crosbyton. In a few weeks, work was begun and in less than a year trains were running and Crosbyton was placed the railroad map. And the road is not one of the "jerk water" kind. The road bed is good and the steel laid is extra heavy. The rolling stock is as good as the best roads.

They now announce that the company will open upon farms in their big ranch, divide it into suitable acreage, make the necessary improvements, and in the end have one of the largest farms in the southwest.

Mrs. H. E. Landers and children of Colorado, Texas, Mrs. M. Phelan and children of Stamford, Texas, and Miss Allie Robertson joined their mother, Mrs. W. C. Robertson, in a visit to the family of A. P. Murchison, who is a brother to Mrs. Robertson.

Pittsburg and Return.

The writer who happens to be the humble pencil artist of this hereunto weekly sheet left this city on June 19th, for Pittsburg, Pennsylvania. He was accompanied by two other gentlemen—Robert Elliott and Nicholas Jegella, and the object of the trip was one of business.

The trip carried the party through Oklahoma, Kansas, Missouri, Illinois, Indiana, Ohio, Virginia and into the state of Pennsylvania. The crops in all the territory passed through were more or less spotted. The wheat crop in the northern part of the Panhandle was perhaps the best, while the corn crop from Oklahoma to Indiana would average about a total failure to one third of a crop. The corn for thirty miles on both sides of Columbus, Ohio, was good. The entire country from Hereford to Pittsburg has suffered from the lack of rain during June and the first part of July. On our return trip, we found the crop conditions on the Plains better than at any point.

One thing was very evident: that there is a lack of business confidence and a lull in all commercial enterprises. Even in Pittsburg, a city of 365,000 people, the home of the steel industry, capital is hiding in the vaults of the great banks, only about one half of the mills are in operation and thousands of men are walking the streets in idleness. Many of the largest mills are running on half or divided time. No new manufactures are being built and little, if any, public enterprises are being undertaken.

In other cities, the conditions are about the same. At Columbus, those in position to know, simply say that the people are just resting and that in time inventors and capitalists will open up the avenues of commerce by turning loose some of the much needed circulating medium.

Three things have lent their force to bring about this condition, so they say. One is the improvident condition of the farms caused by the most universal drouth the nation has ever had, the other is the loss caused by high speculative methods and too much gamble in the matter of investments, while the last is the call of the government to adjust the unfair profit taking of the trusts and corporations. The men who hold the purse strings of the nation are trying this method of blocking the move of the government to expose their illegitimate methods. As to which will win remains to be scheduled, but the people will likely pay the penalty long before the culprits are brought to judgement.

More next week.

Birth Day Party

The little friends of Maurine Hughes, five years old last Monday, enjoyed the afternoon at the home of her parents, Mr. and Mrs. Jim Hughes, when they gathered to do honor to the occasion. Home made candy, cream and cake was served. Many little gifts were given by the little friends, while the mother gave a large doll, which delighted little Maurine and her friends. A jolly good time was had in playing games.

Rev. Loman of Hereford came up last Sunday and after taking dinner with Jacob Tiefel's family, Mr. Tiefel took him out to the German Colony and he held services in the Lutheran church.—Friona Scallie.

Prohibition Speeches

The Brand is requested to announce that there will be prohibition speeches to-night (Friday) in front of the Northern Hotel by the following local men:

Messrs. Slaton, Russell, Gilliland, Dameron and Ray.

These gentlemen are all well posted and will have something of interest and benefit to say to you. All antis especially invited to be present.

Election Returns.

Through the courtesy of the Southwestern Telephone Company and by manager, R. W. Lovelace in connection with the local newspapers Hereford will enjoy the complete election returns tomorrow (Saturday) night. Arrangements have been made to bulletin the returns in front of The Brand office, the service to begin as early as the first available returns can be had. New bulletins will be given every thirty minutes or as rapidly as they come in.

Manager Lovelace deserves the thanks of the people of the city for thus making it possible through the service of the Southwestern to get the election returns at an early hour. There will be no charges made nor subscription circulated. The service is free and everybody is invited to come out.

Truck Growers' Association.

All parties, who are interested in growing fruit and vegetables, are requested to meet at Smith's Jewelry store Monday afternoon at 3 o'clock for the purpose of organizing an association. The object of the organization will be to secure uniformity in the growth of fruit and vegetables and to secure a market for the products.

The enterprise deserves the support of everyone who is interested in the success of the Hereford country.

L. Gough left Tuesday for Crosbyton where goes to make arrangements to open a large farm for the C. & B. Live Stock Company, a full account which appears in another column.

Plenty of Rain.

All of the Panhandle has been visited by his honor, J. Pluvius. Two weeks ago, he opened his long kept jug and poured out a generous supply of aqua pura. From day to day, he has continued the pleasant exercises until a satisfied feeling prevails in every section of the country. Yesterday, "Thursday" and last night, he sent the best all-around showers for it extended over a wide scope of territory and came down in such a gentle pattering way, that it would have sooth and smooth the most dry and wrinkled brow. The total precipitation for the two weeks has been three inches. Reports from every part of the county and adjoining counties indicate that the rain has been quite general. The state papers are full of dispatches showing that the entire state has "gone wet."

Base Ball Dope.

Hereford 10; Pampa 5. This is the report that comes from the D. P. Vaughn threshing crew who crossed bats with the Pampa aggregation last Sunday afternoon.

D. P. Vaughn sends in the following letter telling about the game: Andy Hasser and Nood Vaughn, of the old pumpkin roller team, were the batteries for the thresher team. Nood, as pitcher, had the Pampa boys guessing all the time, and the Jumbos could not find the horse hide as it went around their necks. In the first round the Vaughn team took 4 runs, but in the fourth inning, the Jumbos tied the score and things got busy. In the first half of the fifth, Hasser lead off with a single and stole second, then Nood, with a smile on his front, swatted the sphere for a two-bagger. In the last half, Wilde, in center field, threw the ball to the home plate in the nick of time to prevent the opposition from scoring. After that, the Pampa Jumbos never had a look-in.

The Pampa boys are good fellows and say that they have not been beaten this year, but the Vaughn thresher heavers took them down the line, and showed them how to play ball as well as to thresh wheat.

More Rain.

After the half inch rain Wednesday afternoon, another big pour-out came last night, or rather early this morning, three-quarter inch falling. The ground was every where covered. Telephone messages report a flood at Bovina and Canyon.

Some Sweet Potatoes.

William Chedister who makes his home with his daughter, Mrs. H. D. Thomas, takes the prize on raising sweet potatoes. On July 17th, he took from the patch one that measured 8 and 5-8 inches in circumference. By the time these potatoes are ready to harvest he expects to dig some jumbo sizes.

BAINER TALKS ABOUT WHEAT

H. M. Bainer, Agricultural Demonstrator for the Santa Fe Ry. Co., makes the following General remarks in regard to Wheat Ground Preparation.

"There is no question but that wheat ground should be prepared early. For this reason summer tilled land nearly always out yields land that is prepared just before seeding time. Wheat requires a firm seed bed. On account of this, early preparation can be deeper than later work. Deep plowing just before seeding-time is not desirable as the ground will not have time to become well settled. Early deep preparation is very favorable to wheat, production, especially where the ground has been thoroughly packed with machinery or has had enough moisture to settle it properly. Deep plowing for wheat in the latter part of August or September is not advisable.

All deep preparations should be packed with a sub-surface packer, disc set straight, or peg tooth harrow immediately after the plow. This packing is very necessary, it keeps the ground from drying out as deep as plowed and establishes a moisture connection between the solid sub-soil and the plowed surface. The wheat roots penetrate this packed soil very readily and are not damaged by gradual settling, later, or from an undue loss of moisture on account of too loose soil.

The farmer who prepares his wheat ground early should not be satisfied with shallow, three or four inch plowing. This ground should be worked an inch or two deeper each year until a depth of, at least, seven or eight inches has been reached. From observation and experience, I firmly believe that the time is not far distant when we will prepare our ground twelve and fourteen inches deep instead of seven or eight. This depth of plowing should necessarily be done six months or a year ahead in order to insure a crop the first year. To be certain, this depth of plowing will give good results for a series of years and will not be prepared to this depth every year.

Lands prepared for wheat after the latter part of August should be worked shallow—at a depth not to exceed four to six inches. Often where there are but few weeds, if any, the disc harrow will make a good seed bed without plowing, provided the land has been well worked the previous year.

Where wheat is to follow wheat or some other grain crop, the ground should be disced immediately, many weeds are likely to grow, and later, the ground will become too hard and dry to plow at all. Growing weeds will consume the moisture very rapidly. The wheat farmer cannot reasonably expect to grow a good crop of wheat following a weed crop.

After the seed bed has been prepared, whether before seeding time or after, the surface should not be allowed to crust. The common peg tooth harrow or weeder should break this crust as often as it forms, until the wheat gets too large to work. Do not let the ground get too hard before harrowing as it is likely to be too fine and make it liable to be washed away or as deep plowing as the hard or tight lands.

THE SCRIPTURES AND PROHIBITION

Some seem confused as to what the Bible really teaches on the subject. For their benefit I submit the following:

1 Thess. 5:21-22.

"Prove all things; hold fast that which is good."

"Abstain from all appearance of evil."

Please note some seeming difficulties only.

Deut. 14:26,

Please begin with 23rd verse and read through to the 26th. You will discover that wine was used in the Pascal Lamb feast and the above refers to a religious service and was to be eaten before the Lord, and that God Himself was to choose the place.

Moses wrote the first five books of the Bible. Now let Moses speak for himself.

Num. 6:3.

"He shall separate himself from wine and strong drink, and shall drink no vinegar of wine, or vinegar of strong drink, neither shall he drink any liquor of grapes, nor eat moist grapes, or dried."

Lev. 10:8-9.

"And the Lord spake unto Aaron saying: Do not drink wine nor strong drink, thou, nor thy sons with thee, when ye go into the tabernacle, of the congregation, lest ye die."

Prov. 31:4-7.

"It is not good for kings, O, Lem-

uel, it is not good for kings to drink wine; nor for Princes strong drink. Lest they drink, and forget the law, and pervert the judgment of the afflicted."

"Give strong drink unto him that that is ready to perish, and unto those of heavy heart." etc.

The last two verses refer to a custom of giving wine to condemned criminals ready to be executed, as a kind of opiate. They offered something of the same to Jesus on the cross, but He refused it.

Now, again, let Solomon answer Solomon;

Prov. 20:1.

"Wine is a mocker, strong drink is raging, and whosoever is deceived thereby is not wise."

Prov. 23:20-21, 29-32.

"Be not among winebibbers; among riotous eaters of flesh. For the drunkard and the glutton shall come to poverty."

"Who hath woe? Who hath poverty? Who hath contentions? Who hath babbling? Who hath wounds without cause? Who hath redness of eyes?"

"They that tarry long at the wine; they that go to seek mixed wine."

"Look not upon the wine when it is red, when it giveth his color in the cup, when it moveth itself aright."

"At the last it biteth like a serpent and stingeth like an adder."

"Thine eyes shall behold, strange

Castro County Clippings.
From The Dimmitt Plainsman of Friday, July 14.
Partial rains fell in Castro county last Thursday. On Friday night the rainfall was even better and reached to parts of the county not visited by the precipitations of the night before. On Saturday night still other parts of the county had good rains. The county has, with notable local exceptions, been thoroughly soaked with moisture. The feed crops are well every where.
E. S. Ireland calls the attention of The Plainsman to the new wolf scalp law which is of interest to Castro county people. Each wolf scalp, coyotes, is worth \$1.00. Lobo wolf scalps are worth \$5.00.
The county commissioners could not have made a better selection for sheep inspector for Castro county than B. T. Bell. He knows as much about sheep as any man in the Panhandle of Texas and he is otherwise eminently qualified for the office. Mr. Bell will inspect all the sheep in the county every 90 days.
O, Well! It rained again Wednesday and it rained some more Wednesday night. There was more or less drizzling Thursday morning until about 9:30 and then there was an earnest, sincere downpour. The ground is once more wet "down to the white dirt," and the white dirt is down four or six feet. Castro is the wettest county in Texas.

SALOONS or no saloons; that is
 the question.

If the business institutions of our
 cities and towns are founded upon
 the success or failure of the saloons,
 then they are built upon the wrong
 foundation.

If THE church people, the women
 and the children, must stay out of
 this campaign; pray, to whom is the
 right of amending our constitution
 delegated?

THE enforcement of any law de-
 pends upon the sentiment of the
 citizens of the community where the
 law is being violated. Are the citi-
 zens of Houston and San Antonio
 and the friends of Jacob Wolters
 less law-abiding than the citizens of
 Deaf Smith county?

"TAXATION without represent-
 ation" brought on the American
 Revolution. Is it right to tax the
 dry counties of Texas to prosecute
 the crimes of the wet counties and
 yet tell the dry sections that they
 have no right to vote on a question
 which effects that taxation?

If THE saloon business is such a
 fine thing, why is it that there is so
 many in the field trying to defend
 its reputation? A business that does
 not effect the moral standing of a
 community needs no defence. Do
 we have to defend the dry goods
 stores or the hardware stores?

WHY do most of the Anti speakers,
 when they get up to address the
 people, begin by saying, that they
 are not booze fighters and never pat-
 ronize the saloons, that they have
 no use for gamblers and their kind?
 If the saloons are such valuable

assets to a city or state, why don't
 they practice what they preach and
 give their support in the right way.
 Speech making costs the saloons
 money, while drinking brings in the
 cash.

YOU'LL LIKE HEREFORD!

F. H. Wood of Frions, Texas, was in the city Tuesday and made a call at this office. Mr. Wood owns a herd of about 4000 sheep. From 2200 ewes he has over 2000 fine lambs, and the spring clip of wool amounts to over 34,000 pounds. This is a good record but what should you expect in a country like the Panhandle of Texas but success in the sheep industry.

Dr. Harper of Illinois dropped off at Hereford this week on his return from California and made call upon his friend Gyles. Dr. Harper thinks Hereford has a great future but wondered why we don't let the world know about our wells. "They would go wild over wells like McDonald's in southern California," he said. He was very much interested in the irrigation possibilities.

At the Hawkins Residence.

One of the most pleasant evenings of the summer was spent at the Hawkins home, Tuesday, July 18, from 5 to 7 o'clock, when Mesdames H. H. Hawkins and C. L. Sullivan entertained in honor of a number of their visiting friends. Mrs. Sullivan received the guests at the door in her gracious way, while Mrs. W. T. Stanberry served at the punch bowl, adding by her smiles to the welcome. The guests of honor were: Mrs. Brooks, of Quanah; Mrs. Hilton, of Endee, N. M.; Miss Milam, of Cleburne; Mrs. J. C. Chapman of Dallas and Mrs. E. T. Stoker and daughter, Miss Kate, of El Paso, who were introduced to those in the receiving line by Mrs. Hawkins. The friends and guests mixed freely together and passed the hours most happily. The diversion consisted of a short program of music and reading. Piano solos by Misses Black and Witherspoon, a vocal solo by Miss Beulah Potter, a reading by Mrs. Jarrott, added to the pleasure of the evening. The receiving hall, parlor and dining room was tastefully decorated with pot plants and sweet peas. A large number of friends were present who were delighted to meet the guests for whom the occasion was given.

A Tea Pouring.

A number of friends had the pleasure of meeting Mrs. Bob Brooks of Quanah, sister of Mrs. J. E. Kelley, at the latter's home last Thursday afternoon from four to six.

The guests were received by the hostess and presented to these in line—Mesdames Russell, Brooks, Witherspoon and Miss Milam. The tea table was set in exquisite taste and presided over by Mesdames Irwin and Slaton. Misses Louise Irwin and Mary Dunlap assisted. The guests were served to sandwiches and tea. Mesdames Price and Hough in their own pleasant way lead in the entertainment and all who were present enjoyed the opportunity afforded to meet the guest of honor.

The fountain at the Corner Drug Store is a cool place to meet me.

50 Per Cent Better

"I have used less than one bottle of Cardui," writes Mrs. Gertrude Ward, of Rushville, Neb., "and am feeling fifty per cent better than when I began taking it. Before taking Cardui, I had suffered with female trouble, for eight years. My greatest trouble was irregularity. I also suffered with severe pains, every month, but now I am greatly improved and will recommend Cardui to all my suffering friends."

Take CARDUI

The Woman's Tonic

The rare medicinal herbs of Cardui are imported by the manufacturers direct from Europe and are not to be found in any other medicine. These ingredients are what give Cardui its superiority, as a female medicine and tonic, over any other medicine. For over 50 years Cardui has been the favorite woman's medicine. The ladies like it, because it is so easy to take, so gentle, so safe, so reliable in its results, and they have faith in its curative tonic powers, because of the thousands of other ladies it has helped. Try it today.

Tucker Auto Wheel a Success.

H. G. Tucker, well known at Hereford as an inventor, has perfected a new auto wheel which will revolutionize the auto business. It consists of articulating steel springs so arranged as to give perfect resiliency and at the same time sustain the downward weight and side thrust of the machine. The face of the wheel holds a solid rubber tire. The wheel does away with the expensive break-downs which are ever happening to the ordinary kind. A company of a million dollars capital has been organized and the stock is having ready sale. T. C. Bell, general manager of the company, and Mr. Tucker are now in Chicago arranging for the manufacture of the wheel. A test has been made and the wheel has met every criticism. Geo. Karr, the first man to run an auto in Hereford, is a member of the company and will make the endurance trip to try-out the wheel. He will likely start at Chicago and visit all the principal cities between that point and San Antonio.

Marlin Model 20 REPEATING RIFLE
Without change of mechanism it handles .22 short, long or long-rifle cartridges perfectly. The deep Ballard rifling develops maximum power and accuracy and adds years to the life of rifles. The shield top is protection from defective cartridges—prevents powder and gas from being blown back. The side ejection never lets ejected shells fall on your head and allows quick, accurate repeat shots. With simple take-down construction, removable action parts, least parts of any .22—it is the quickest and easiest to clean. A great vacation rifle. Ask any gun dealer.

The Yankee Biscuit vs Two Texans

While two Texans were in Pittsburg, trying of light bread three times a day, they asked to be served with hot biscuits, whereupon their hostess acceded to their desires. A few days after when they took their departure, the hostess presented the one with a neatly wrapped box, telling to keep it as a memento of their visit. The good host is a well known writer of Pittsburg and "just for fun" placed on the "relic" three verses of poetry, entitled "The Yankee Biscuit," which follows with a reply.

The Yankee Biscuit.
By Darious Earl Maston, The Iron City Poet, July 13, 1911.

My Jolly Texan, here's a cure
For every kind of sorrow;
But you would to-day endure,
Don't eat it until to-morrow.

By certain folks its name is known
As Yankee soda biscuit;
Unless your stomach's used to stone
'Tis surely death to risk it.

So I advise a better use,
Unless your wings angelic
Have sprouted out, -Oh, please excuse
Just keep it as a relic.

The biscuit was made by his wife,
Mrs. Lura B. Maston, and presented
to Robert Elliott upon his departure
from their home at Pittsburg, Pa.

The Sequel Result
These three verses quite terse and neat

Came with that Yankee biscuit,
Wrapt in a box like bonbons sweet,
From a friend who had mixed it.

"Do not open this box, 'she spake,
'Till on the broad Texas plains;
'Tis just a pleasant memo-sake,
A tablet to keep off pains.

With thanks and grins, the box he took
And to his heart he pressed it;
His promise made, he most forsook,
Anxious was he to test it.

Of trinkets rare, he dreamed and slept,
That box he held to view it;
He thought of heir-looms now long kept,
But never thought he'd chew it.

When he sought to gain the pleasure
And broke the seal to risk it,
What he found was not a treasure,
But that hard Yankee biscuit.

He laughed and cried, sent up a roar
As he viewed that hand made relic;
The Texan said and almost swore,
"They want me to be angelic."

Brave and true, he dared to wonder
What would happ'n to eat that roll;

A bite he took, -a clap of thunder,
Up he doubled like a scroll.
By A. C. Elliott, a real Texan.

Mrs. H. G. Hayes and sons left last week to join Mr. Hayes who has accepted his former position as draftsman with the Elgin watch concern. Mr. Hayes is a well known draftsman and architect of ability and goes back to his old place after spending a few years on the farm recuperating. Mrs. Hayes states, however, that they will return to Hereford in about a year, and take up their residence on their farm which is one of the best improved farms in this section. Their friends and neighbors regret to even lose for a year but wish them a pleasant stay at their old home.

Dr. S. L. Boone of Hereford was this week looking out a location for a massage institute, to treat patients, also instruct people in the science. He will locate here on in Slaton. —Plainview News.
