## DISTRICT COURT THIRD WEEK

Grand Jury Makes Final Report—  
Criminal Docket Passed—  
Cases Disposed Of.

The Criminal Docket was disposed of last week, the case of the State of Texas vs E. T. Stevens being the last one tried. In this case the jury returned a verdict Sunday morning finding the defendant guilty and assessing his punishment at two years in the penitentiary. A motion for a new trial was filed immediately and Judge Hill still has it under advisement. Several criminal cases were continued until next term of court Saturday on motions of the defendants.

The Grand Jury adjourned Tuesday, Nov. 14th, having returned two more indictments Saturday and four Tuesday, two of which were for misdemeanors and four for felonies. This makes a total of nineteen indictments found by the Grand Jury during this term of court, sixteen of which were for felonies. The Grand Jury made the following report:

"To the Hon. D. B. Hill, District Judge:

We, the Grand Jury, empanelled at this term of this honorable court, having completed our investigations, beg to submit the following report:

(1) After careful and thorough investigation we find evidence of violation of law sufficient to justify us in finding sixteen bills for felonies and three for misdemeanors.

(2) Having visited the public buildings and examined them carefully, we found them in good sanitary condition and neatly kept.

The Grand Jury having been in session twelve days and having no further business to come before us, we beg that we be now discharged.

Signed, R. N. Mounts, Foreman."

It being evident that it would be impossible to dispose of all the jury cases coming up for trial this term of court, Judge Hill had a jury commission summoned Tuesday composed of Geo. Muse, J. M. Chapman and W. B. Phillips, who selected a petit jury for next week as well as a grand jury and four petit juries for the April term, 1912. Heretofore only three petit juries have been summoned, but the large amount of jury business has made it necessary for four weeks to be assigned to jury cases.

The following civil cases have been disposed of since last Thursday: W. P. Boyd vs J. E. Turner, suit for damages. Dismissed.

Arthur Boyd vs W. J. Stover, suit for damages. Dismissed.

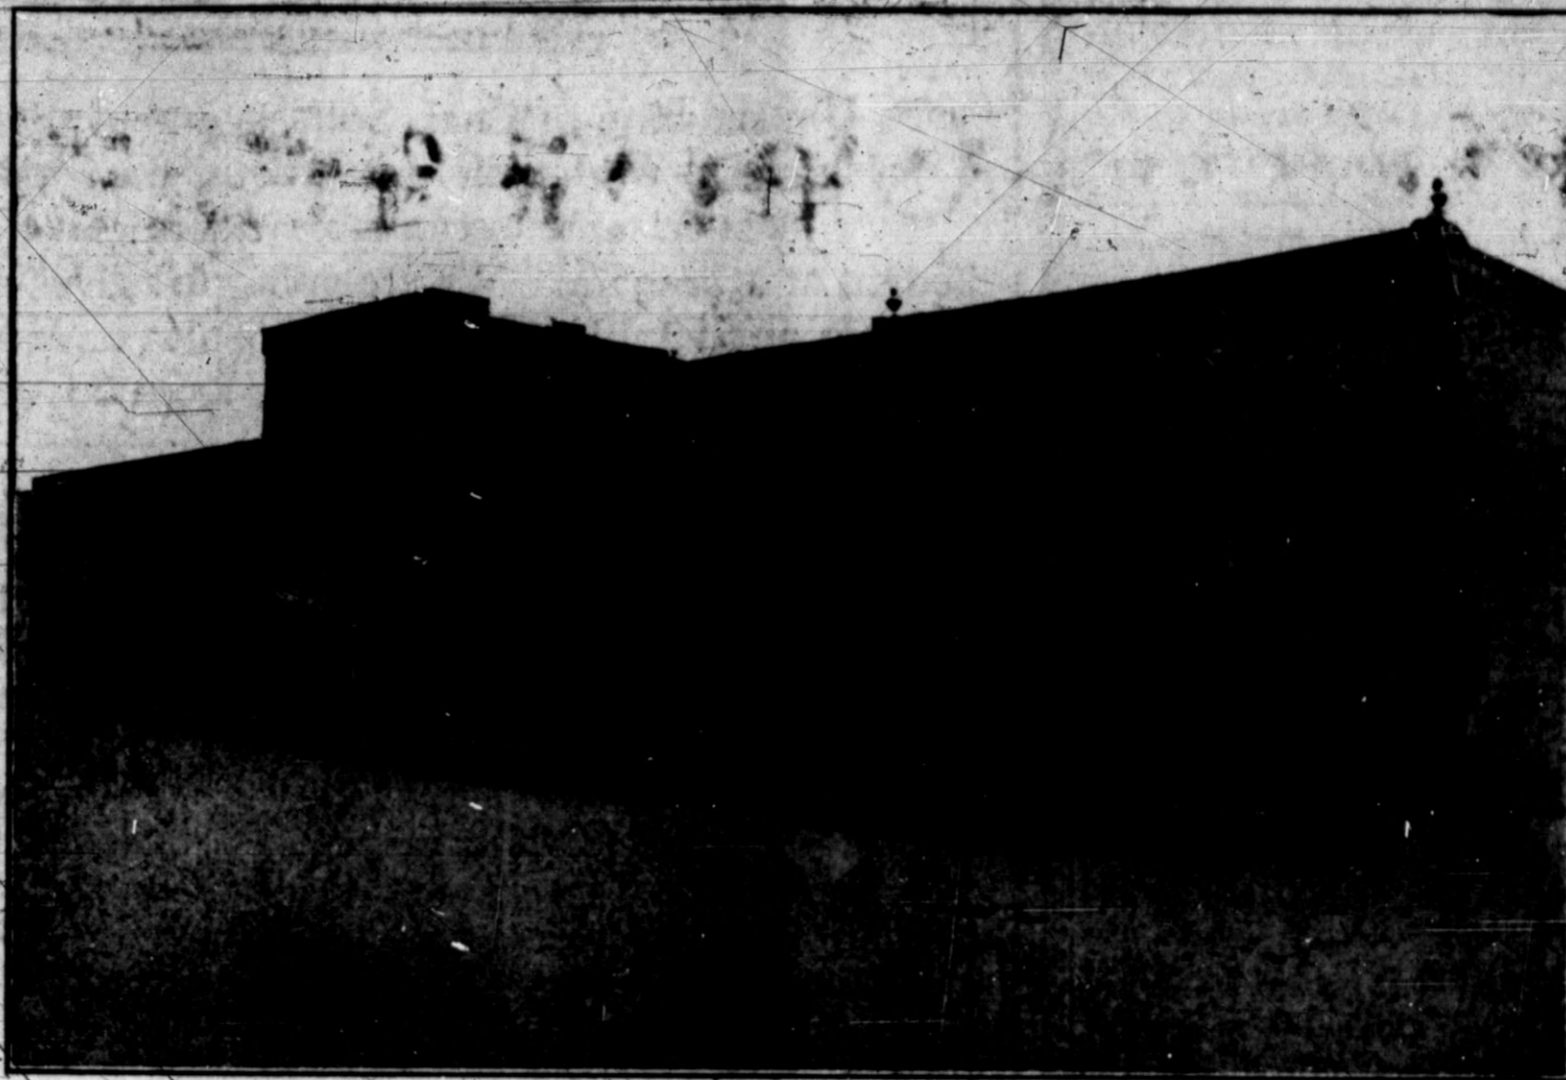

Mrs. Kathryn Hutson vs L. T. Lester, suit for try title. Auditor appointed and case continued for the term.

The First State Bank & Trust Company of Hereford vs Southwestern Engineering & Construction Company et al, suit to foreclose attachment lien. Jury peremptorily charged by the court to return a verdict for the defendants. Plaintiff will appeal.

National State Bank of Mt. Pleasant, Iowa, vs L. A. Ricketts et al., suit on notes. On trial.

### Hereford Weather.

The weather around Hereford has run all varieties of show from a cheap vaudeville to grand opera, or more poetical from balmy spring to frigid winter. On the first three

MAIN STREET, LOOKING NORTH FROM 2ND STREET, Hereford, Texas

days of the month, snow, sleet, rain and freezing weather prevailed, giving about a inches of puffed water in the formed sleet and snow.

On the 2nd, the lowest temperature was 17 degrees, and again on the 12th, the mercury stood at 10 degrees, the coldest record for November. On the 11th, Saturday last, the but end of a Dakota blizzard in the shape of a west wind struck the Panhandle and continued for about 3 hours at a lively rate, the strong wind suddenly ceased and in a few minutes a good stiff wind from the frigid circle swooped down on the Plains. As a result, the thermometer dropped like a crippled air-ship from an altitude of 72 degrees to 10 degrees in a few hours. No damage was done except to fences. The record follows:

### Thanksgiving Services.

The Hereford churches will hold their joint annual Thanksgiving services on the appointed day, Thursday, Nov. 30. This year the exercises will be held at the First Christian church and Rev. Purcer, pastor of the Baptist church, will deliver the sermon. A request has been made that all who will assist in the song service to meet at the Christian church on Sunday afternoon of the 26th to select and rehearse the music program.

## PANHANDLE EXHIBIT TO THE FRONT

Two Tons of Farm and Garden  
Stuff on Display at Chicago  
Land Show.

Special to The Brand.

Chicago, Nov. 16.—The services of an expert Chicago decorator have been secured by the Texas Panhandle Publicity Association in order that the color scheme and general artistic effect of the Texas Panhandle exhibit at the Land Show may not only be unique, but of such an attractive character as to take first rank among the many meritorious displays in the Coliseum. The background is in red and white and the middle ground made fascinating with fluted columns. White railings will constitute the uprights in a triangular effect that should lend itself admirably to the display of those products more particularly associated with intensive farming. The pergola idea has been carried out in the general scheme of decoration and there is no doubt about the strength of this creation as applied to the magnificence of the auditorium. Perhaps it is not generally known that the products which have been sent to Chicago from all over the Panhandle, from Crosbyton and Memphis to Texline and from Higgins to Farwell, aggregate two tons of crop samples and include the best of everything that the fertile soil of the Panhandle can produce. When the eager, earnest homeseekers, who will crowd the Coliseum for three weeks, let their eyes rest upon the Texas Panhandle exhibit they cannot fail to be charmed with the manner in which the agricultural possibilities of the Panhandle have been visualized. The display is an object lesson to the men who have grown restless on the worn-out and fertilizer hungry farms of the north and east and who crave the newer and grander oppor-

tunities of the great southwest in general and the Texas Panhandle in particular.

### Blizzard Over Northwest.

Chicago, Nov. 13.—The entire middle west is still shivering from one of the worst early season storms on record. Twenty-four deaths have been reported and hundreds have been injured, many fatally. The poor in all of the large cities have suffered keenly. The property loss caused by the great blizzard will run into millions and reports from isolated districts are still coming in. A peculiar coincidence occurred here Saturday. John Maloney was overcome by heat in the afternoon, and is not expected to recover, only a few hours later three men were frozen to death. Eleven persons were killed in a tornado which swept the town of Virginia, Ill., just preceding the cold wave Saturday, and thirteen persons were frozen to death in various cities in the path of the blizzard. Reports from Canada show that the damage was great there. Thousands of acres of wheat was destroyed leaving the farmers, many of whom were immigrants from the United States, facing starvation. The loss of cotton suffered by the four cotton states in the grip of the storm, will be very heavy.

A heavy storm is raging over the great lakes and high winds prevail. Several boats are missing and two have been blown ashore.

### Baby Falls From Train.

Last Saturday morning, Nov. 10, a baby about eighteen months old fell from the train between Lockney and Floydada while the train was in motion. The train had gone two miles before the baby was missed, and when it was picked up, after the train had backed back, the little was so cold it could not cry. It was badly bruised and scratched, but not seriously injured.

The child belonged to a painting gang on the road, and its fall was from a bunk car. That it escaped instant death was a miracle.—Lockney Beacon.

## SALOONS DOWN AND OUT NOW

Amarillo Drink Shops Close Doors  
at Midnight Wednesday and  
New Law Takes Effect.

Amarillo, the principal city of the Panhandle, is a "dry" town after several years of factional warfare. The two daily papers of that city, one an avowed anti, the other soft gum-shoe pro, each had a "say" coming. The News, the pro paper, had this as a farewell word and warning:

The closing of the saloons in Amarillo at midnight last night wrote finis to the long-drawn-out story of a bitter factional fight which has for the past several years divided the citizenship, arrayed neighbor against neighbor, and made unity of effort along lines of civic progress almost impossible.

But now that the issue is closed, it is the hope of The News that a new leaf may be turned and a new story written—a story that will tell of a burial and forgetting of the feelings engendered by differences—and that the citizenship will clasp hands and touch shoulders in an effort to lift Amarillo to a plane of development which will give her rank among the foremost progressive cities of the southwest.

It is the belief of The News that the proclamation of Mayor Patton, calling upon all good citizens to join in an effort to make certain the thorough and rigid enforcement of the local option law, meets with the hearty endorsement of the populace, regardless of individual opinion on the now-discarded issue.

It believes that the majesty of the law should be upheld to the final letter, and will at all times lend its earnest and uncompromising support to that end, that the good name of Amarillo and its people as a law-abiding, law-respecting city and citizenship may not be brought into question abroad.

With this final word The News urges once more that a new leaf be turned. We are one people. This is our city. Let's get together and make it what it should be.

The Panhandle, the big anti sheet, comes out with a "hope so" and warns the people thusly:

The last chapter of a long unpleasant warfare between Prohibition advocates and Anti Prohibitionists comes to a close.

Prohibition in Amarillo is a new experiment. The brands of Prohibition we have had in the past have not been genuine.

We now assert as we have stated before that this paper is for strict enforcement of the prohibition law. The only way to test the effects of a law is to enforce it. If at the end of two years it is seen that Prohibition is beneficial in all the things it's advocates claim, then Amarillo will continue to be a dry town. It is found that Prohibition is a check for a city, the size of Amarillo will again vote for liquor being handled by saloons.

If by chance the condition of in Amarillo or a were called for the sees in Amarillo and diagnosis of the illegal sale, the statement is made that the condition of the boy is critical.

**Alfalfa Tea For Hogs.**

A new chapter in the history of swine husbandry has been written in the experiments of the Broadview Ranch, and the title of that chapter is "Alfalfa Tea for Pigs." In the course of his experiments along the lines of higher efficiency in the feeding of alfalfa and of effecting economies and converting waste into profit, Doctor Sudduth discovered that an extract could be made from the alfalfa straw which is not only an ideal pig food but which leaves more available protein in the straw after the cooking than was available when the stems were in the raw state. According to his analyses, the meal made from his selected mountain-grown alfalfas, rightly harvested and cured, contains 20.13 per cent of protein after the leaves and tender portions of the stalk have been separated from the straw by a mechanical process. This meal also contains 5 per cent of fat, with carbohydrates running high—43.45 per cent, and with crude fiber only 15.96 per cent.

In 1910 Doctor Sudduth raised over eight hundred and this year a thousand pigs on alfalfa tea as the main element of the feeding ration and fitted them for market with far less difficulty and expense than the average hog-farmer experiences with the standard food rations. Here is the way in which Doctor Sudduth explains his experiments in pork productions from alfalfa tea:

"The alfalfa tea made under ordinary farm conditions and upon a broad commercial basis compares favorably with skim milk in its food value—not so much by reason of the casein or protein content embodied in the skim milk as the fact that it gives a fluid so easily digestible that, when you come to make your mixture of feed with the tea, you have a combination that is almost marvelously capable of quick assimilation—and that is just what the young pig requires, for his digestive apparatus is perhaps the most delicate of all animals."

"The hog's digestive process

comes nearer to that of man than does that of any other creature; it is easily upset, and to get satisfactory commercial results the delicate digestive machinery of the swine must be artfully, systematically and scientifically pandered to from infancy up. The whole agricultural world is practically agreed on the fact that skim milk and shorts are about the ideal food for pigs. It is also admitted—and cannot be disputed—that if any grains are cooked they are thereby put into a much more digestible form than when raw. Consequently, in working out my hog-ration, my aim has been to duplicate—and if possible to improve upon—the heretofore ideal combination of skim milk and shorts."

"Before dismissing the subject of feeding alfalfa to hogs, it should be said that many hogs are lost every year by feeders in alfalfa sections because they do not understand the digestive machinery and processes of the hog. Let me illustrate this. When I was attending the dry-farming congress I repeatedly received word from my superintendent that my shoats were dying off at an alarming rate. The messages said that the pigs were 'tucked in the flank,' that they dragged around a few days and then died. As they were running on alfalfa pasture, I surmised that they had managed to get hold of some digitalis along the river-bottom and had been poisoned by it. I wired back to shut the shoats up in a pen. The day I returned home, three big husky shoats had just died and others were languishing. I told boys, who thought the cholera had struck the drove, that we would an autopsy and perhaps learn something.

"In every one of those shoats that had died we found a hard impaction of coarse alfalfa fiber at the upper end of the large intestine. Then I made a mash, fortified with one drop of croton oil for each of the shoats and three drops for each of the sows. After that we didn't lose any more hogs, but we knew better than to

### Old Firm Closes.

One of the oldest grocery firms in the city quits business this week. Cardwell Bros. for nearly ten years has done a flourishing business, but some months ago decided to make a change. They have sold their remaining stock to a Mr. Clitt and will invoice to him at once.

In the loss of the Cardwell firm, composed of Jim, Emmett and Jack Cardwell, Hereford loses one of its most progressive and enterprising business institutions. The young men have made good. They have always encouraged and assisted by their means and energy worthy public enterprises in the community. They leave their business circles of the city with the sincere wishes of the people. For sale by allowing them to

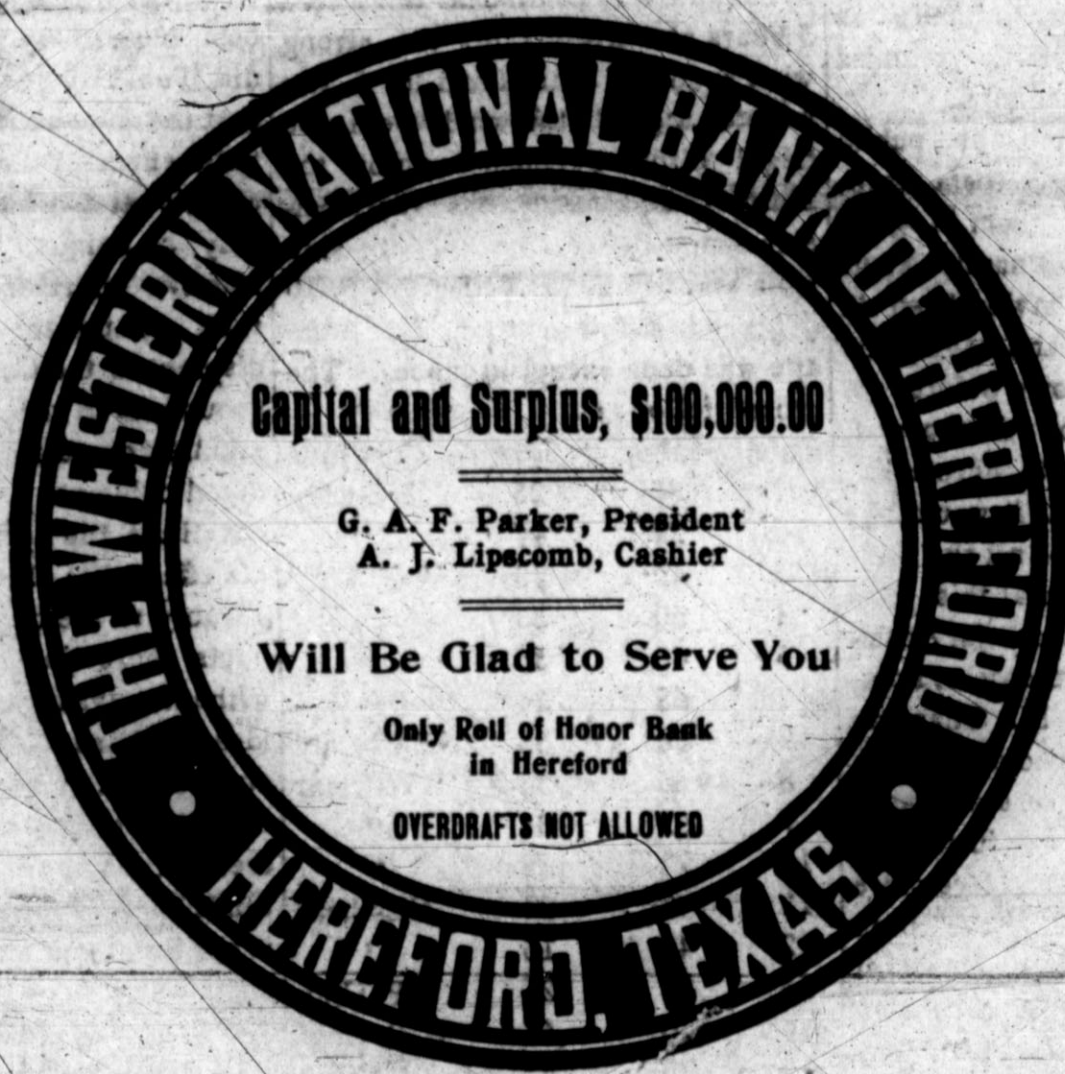

their new location. Mr. and Mrs. Jim Cardwell and Mr. and Mrs. Emmett Cardwell will be greatly missed in the social life of Hereford, while Mr. Jack's place among the benedicts will be hard to fill.

The senior Cardwell and Jack will engage in business in Dallas, going there by December 1. Emmett will remain at Hereford to close up the business of the old firm.

The Brand waves to them in their departure a bon voyage and a safe landing.

### Married at Dimmitt.

Last Saturday night at Dimmitt, in the presence of friends, Mr. Glen N. Greer and Miss Jessie Beedle were united in marriage, Rev. G. T. Bailey officiating. Miss Beedle is one of the teachers in the Dimmitt High School. Mr. Greer has charge of a mercantile establishment at Dimmitt. The Brand sends congratulations.

## Brand Publishing Company Hereford, Texas

**New Firm For Hereford.**  
Some weeks ago, Oscar Cliett of Farwell bought the Cardwell Bros. stock of groceries to which he will add in a few days his stock from Farwell. He, with his family, will move here in a few days to make Hereford their future home.  
The Texico Trumpet says some nice things about our newly acquired citizens:  
"Oscar Cliett and family move to Hereford this week to make their home, Mr. Cliett having purchased a grocery store and business in the Deaf Smith metropolis. He is shipping his grocery stock in Texico to add to the Hereford store.  
It is with regret that it falls to the Trumpet to announce this business change. Regret that we lose Mr. Cliett and his estimable and accomplished wife from our community, and Oscar from our circle of business men. Mr. Cliett has been associated with ~~Stock~~ business interests since the early history of the town, and he has made as many friends and as few enemies as any one could to be an active business man. Whole-souled and liberal in his dis-

position and fair in his dealings with his customers and those who have had business interests associated with him, he has well earned the good will and respect that goes with him.  
While we regret the deal that makes this business change and loses this very desirable family from Texico's midst, yet it is with anticipation that the people of Hereford will extend to the Cliett's the welcoming hand and at once accept them to their confidence for the splendid that they are, and that the business will prove fully commensurate for the change that takes them from among old friends and places them among strangers. They deserve the best there is at Hereford."  
The Brand extends to Mr. and Mrs. Cliett the glad hand and wishes them the deserved success that awaits them.  
**Why Deface the Court House.**  
Just the other day two men were standing in the passage ways of Deaf Smith county's new and beautiful court house, and one of the two called attention to the match scratched

marks on the tinted walls. The other then counted the defacements and found over twenty places on the walls of the main floor. Yes, long brown match scratched places. While standing there one of the attaches of the court house deliberately drew out a match and "struck" it on the stair case walls. Why will grown men do such a thing? To spend a hundred thousand dollars on a public building, and then to have marred, marked, bespitted, bespattered and defaced by the very best citizens, is a condition to be deplored. The writer saw one of the attorneys, during the trial of a case, strike a match across the face of one of those handsome polished tables that are used in the bar. There that long scratch remains to invite some other unthoughtful match scratcher to do likewise. With only one term of court, and our beautiful building being marred by the very ones who should cry out for its protection, how long will it be before it will lose its beauty?  
A Brand Liner will ~~that~~ room for you—

**Daily Weather Reports.**  
The Brand receives by wire every day at about 10 o'clock a. m., direct from New Orleans, a weather forecast for the next 48 hours following. The telegrams are posted at the front door of the office for the convenience of the public. Sheep owners and cattlemen would do well to consult these forecasts every morning. While the government may miss it sometimes, the general results are dependable.

### FREE IF IT FAILS.

Your Money Back if You Are Not Satisfied With the Medicine We Recommend.

We are so positive that our remedy will permanently relieve constipation, no matter how chronic it may be, that we offer to furnish the medicine at our expense should it fail to produce satisfactory results.

It is worse than useless to attempt to cure constipation with cathartic drugs. Laxative or cathartics do much harm. They cause a reaction, irritate, and weaken the bowels and tend to make constipation more chronic. Besides, their use becomes a habit that is dangerous.

Constipation is caused by a weakness of the nerves and muscles of the large intestine or descending colon. To expect permanent relief you must therefore tone up and strengthen these organs and restore them to healthier activity.

We want you to try Retail Orderlies on our recommendation. They are exceedingly pleasant to take, being eaten like candy, and are ideal for children, delicate persons, and old folks, as well as for the robust. They act directly on the nerves and muscles of the bowels. They apparently have a neutral action on other associate organs or glands. They do not purge, cause excessive looseness, nor create any inconvenience whatever. They may be taken at any time, day or night. They will positively relieve chronic or habitual constipation, if not of surgical variety, and the myriads of associate or dependent chronic ailments, if taken with regularity for a reasonable length of time. 12 tablets, 10 cents; 36 tablets, 25 cents; 60 tablets, 50 cents. Sold only at our store—The Rexall Store.

### Bad Condition of Gutters.

During the wet weather recently everybody noticed the bad condition of the gutters on Main street, especially on the west side between 1st and 2nd streets and between 3rd and 4th streets. It has been suggested that the city make use of some of those paving bring which lie piled up on the vacant lot and lay a gutter along the blocks mentioned. The gutter could be made about 3 or 4 feet wide and put down in cement. This would insure a free flow for the water that comes into the gutter and would do away with the nuisance mud and a very bad smell at times.

### Texas Industrial Notes.

An eighteen thousand acre tract near Plainview will be irrigated and sub-divided into forty-acre farms.  
The total production of Texas corn in 1909 was 75,498,695 bushels. It is stated that the Santa Fe will spend two million dollars at Sweetwater for terminal facilities and office buildings.  
The kafir corn and milo maize acreage in Texas increased from 22,813 acres in 1899 to 573,384 in 1909.

There are in Texas 194,993 farmers owning their farms and of these 131,161 own their own farms free of encumbrance.

The total yield of the peanut crop of Texas in 1909 was 1,076,296 bushels.

Reports from the Panhandle indicate that extensive acreage is being devoted to wheat this fall.

Texas produced in 1909, 97,936 tons of alfalfa, valued at \$1,339,314.

It is reported that a large cotton mill will be operated at Post City in the near future.

The Wichita Falls Motor Company, the only automobile factory in Texas, has a capacity of ten cars a day.

The Brand makes no charges on church notices where there is no money consideration, but when an admission is charged or profit expected in money, the regular rate, 5c per line is charged.

### Notice by Publication of Final Account.

#### THE STATE OF TEXAS,

To all Persons Interested in the Estate of Emma R. Buttram deceased: C. G. Witherapoon, Executor of the Estate of said Emma R. **Soil Survey.**

The Brand is in receipt of a bulletin from the Department of Agriculture entitled "Reconnaissance Soil Survey of the Panhandle Region of Texas." The contents of the book, which contains 60 pages, show a wide range of subjects treated other than the soil. In describing the bulletin says: "The area surveyed includes the five northern tiers of counties in Northwest Texas and is popularly known as the Texas Panhandle. It consists of the following 26 counties: Armstrong, Brisco, Carson, Castro, Childress, Collingsworth, Dallam, Deaf Smith, Donley, Gray, Hall, Hansford, Hartley, Hemphill, Hutchinson, Lipscomb, Moore, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Sherman, Swisher, Wheeler.

The Panhandle is rectangular in form, 150 miles wide by 170 miles long, and contains an area of 25,740 square miles or 16,473,600 acres."

This should settle the claims that other portions of Texas have been making—that they are in the Panhandle.

The Summary of the bulletin says: In general the region consists of high level plains toward the west, bordered on the east by an escarpment of rough broken land which leads down to rolling and more or less dissected plains. The lowest altitude is about 1,700 feet and the highest nearly 5,000 feet above sea level.

A very rapid settlement, especially near the railroads, has taken place within the last few years, but there are still large stretches of country which are sparsely populated. The railroad systems furnish good transportation facilities for much of the area, but in some sections further extension is needed.

The climate is semiarid, and crops often suffer for lack of sufficient moisture. The average precipitation is about 20 inches, being somewhat greater in the eastern and less in the western parts of the area. As a rule most of the rainfall comes during the late spring, summer, and early fall months. The area has a continental climate, the winters being rather cold and the summers warm.

The area was formerly devoted entirely to ranching, but over much of it this is giving way to farming. A system of agriculture combining stock raising with general farming, especially the growing of forage crops, will doubtless prove most profitable.

The principal crops are wheat, oats, corn, kaffir corn, milo maize, sorghum, emmer, millet, cotton, alfalfa and broom corn. Of these kaffir corn, milo maize and sorghum are especially well suited to the soil and climatic conditions. Some fruit crops are grown in a small way entirely for home use.

dope all nicely fixed up, ready to "run" with no cost to the publisher. Soft snaps to get a lot of stuff set up so's it won't "pi" or bread "type lice." Nearly all of the Panhandle papers have politely refused with thanks. The Canadian Record says: "Let us hear the jangle of kale seed, old fellow, just like the merchants and your boost fodder will go forward."

That's the way. It takes money to play the political game and it all that bunch of as-see-rants (bread a again) down in the sticks want their platform run "advertisement" for so much "per," alright, but otherwise don't, don't let 'em work us.

The Brand has had a chance to use a quarter of a mile of "boiler plate slabs" from Wolters, Ramsey, Ousley, et al, a la Western Newspaper Union, but we didn't, and we won't. If the 750 weekly papers of Texas should get a 10-cent rate for the full page plate, the amount would be the neat little sum of \$900 per week for each candidate, and it is 12 months until election day and the woods are full of candidates. Accordingly the weekly papers are being asked to contribute heavily and often to the campaign fund (and fun) of all sorts of candidates. Don't do it, boys.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 1 drop to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, etc. Take Hall's Family Pills for constipation.

### Good For Sore Throat

When your throat becomes slightly irritated—you neglect it for a few days—it increases in severity and becomes so sore you can hardly swallow—

Be prompt in your treatment—you don't want it to become chronic and probably end in Tonsillitis or Quinsy—that would mean either an operation or prolonged treatment, and much suffering.

Purchase a bottle of **Nyal's Sore Throat Remedy** and gargle the throat thoroughly—it allays all irritation, soothes and heals the inflamed membranes and prevents further infection

Unlike most throat remedies Nyal's Sore Throat Remedy is absolutely safe—while most effective as a gargle it is not injurious if swallowed.

Twenty-five cents the bottle. (12)  
When we had a chance to get the exclusive selling agency for Nyal Family Remedies we jumped at it. They are known among all druggists as the highest quality line on the market, and are prepared by a great firm of manufacturing chemists, famous for fifty years.

### TEXAS NEEDS GREAT MEN

#### XIII. ABILITY

THOMAS JEFFERSON wrote the Declaration of Independence and founded a great nation on the western hemisphere. Benjamin Franklin taught wisdom, and he became the foremost American philosopher. Civilization has always responded to the inspiring touch of lofty natures and has given those who have led us up the mountain peaks of progress a prominent place on the pages of history. The hand of destiny is ever sifting the human race for a genius who can inspire us with ideas that will travel like light and shape the rising glory of our country.

THOMAS JEFFERSON WRITING THE DECLARATION OF INDEPENDENCE

Let those who would walk down the aisles of greatness dig a channel into which men's thoughts will flow like a river. Make a key that will unlock the door of wisdom; plant a seed that will unfold like a rose; weave a prosperity that will enkindle and wave a magic wand over Texas that will unhewen stuff in human nature. Texas needs a **gentle** agent.

Let us in planning our gifts include these little ones, and keep this work of sweet charity going and growing. Its growth and possibilities shall be bounded by the providence of God only, and not by any indifference on the part of our people. Cor. Sec.

**Castro County Clippings.**

From The Dimmitt Plainsman of Friday Nov. 10.

Last Saturday Dr. G. J. Slapleton bought the City Drug Store from C. F. Kerr. Estes Woodburn has moved his stock of goods from the Slover building to the City Drug Store and will have charge of the new concern.

The recent rains have put about eighteen inches of moisture in the ground and the prospects for a good wheat crop next year are very bright.

Cotton pickers and kaffir corn pickers are still needed in Castro county. Every day you see the farmers in town looking for men to help gather the fleecy staple and to put the kaffir corn and milo maize crop in the shock. They are paying one dollar per hundred for cotton pickers and two dollars per day for kaffir corn flunkers.

Tom Tate and Will Hamm were in Hereford Tuesday on business.

Miss Mary Williams returned from Hereford Tuesday where she

had been visiting her parents for the past two weeks.

The regular meeting of the Fruit and Truck Growers Association is held on first Saturday afternoon of each month at 2:30 o'clock. All invited. 30th

**CAUSE FOR ALARM.**

Loss of Appetite or Distress After Eating a Symptom That Should Not Be Disregarded.

Appetite is just a natural desire for food. Loss of appetite or stomach distress after eating indicate indigestion or dyspepsia. Over-eating is a habit very dangerous to a person's good general health.

It is not what you eat, but what you digest and assimilate that does you good. Some of the strongest, heaviest, and healthiest persons are moderate eaters.

There is nothing that will cause more trouble than a disordered stomach, and many people daily contract serious maladies simply through disregard or abuse of the stomach.

We urge all who suffer from any stomach derangement, indigestion, or dyspepsia, whether acute or chronic, to try Rexall Dyspepsia Tablets with the distinct understanding that we will refund the money without question or formality. After reasonable use of this medicine, they are not perfectly satisfied with the results, we recommend them to our customers every day, and have yet to hear of any one who has not been benefited by them. We honestly believe them to be without equal. They give very prompt relief, aiding to neutralize the gastric juices, strengthen the digestive organs, to regulate the bowels, and thus to promote perfect nutrition, and eradicate all unhealthy symptoms.

We urge you to try a 25c. box of Rexall Dyspepsia Tablets, which gives 15 days' treatment. At the end of that time, your money will be returned to you if you are not satisfied. Of course, in chronic cases length of treatment varies. For such cases, we have two larger sizes, which sell for 50c. and \$1.00. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store.

**Parrott Paragraphs.**

George Miller and Miss Mamie Miller of Platteville, Wisconsin, are visiting at the home of their brother, Gus Miller.

It was our privilege to spend a day and a half at the teachers' county institute. It was a very great pleasure and we are very proud of our teachers. Dimmitt is certainly an ideal place for such a meeting for all the citizens are so appreciative of the work done and are so kind and hospitable. The enthusiasm among the teachers was contagious. We feel that we can do better work in our common sort for having been there.

Mr. and Mrs. B. F. Neely went to Dimmitt Monday.

Harold Hanlan has been absent from school the past week picking cotton.

A number of examinations were given at the school the past week, all with good results.

A very pleasing program was given by our young people at the Young People's Meeting. They were very kindly assisted by Miss Wagner and Loretta and Meta. John Hacker presided.

Mr. and Mrs. Shepard and Dave were the guests of Mr. and Mrs. John Hacker.

Messrs. Easter and W. E. Hacker are assisting R. S. Neely in putting a new wheel on his windmill in place of the one carried away by the wind Saturday.

The wind was very busy Saturday leveling fences and over turning small buildings and hay stacks.

J. Wagner and R. S. Neely brought the new bailer from Hereford Tuesday.

Mrs. Grant, who has been visiting her sons, A. C. and I. D. Grant, has returned to her home at Ridgeway, Missouri.

We are very glad to learn that Mr. Guthrie will come here to live as soon as he can load his car. Our country has need of such men. Jack.

**Stock Cattle In Demand.**

From Kansas City Drivers Telegram. W. E. Hicks of Hereford, Texas, emphasizes the fact that the demand

this fall for calves and young stock was extraordinary. Buyers went right after them, and paid the price.

"Think of it," said Mr. Hicks, who marketed six carloads of cows yesterday, "selling calves at \$20 each. The old time cowmen who hear of such prices will drop dead. The old timers will remember when the best 3-year-old steers on the plains could have been had for that price. Of course we are raising a very high class of cattle, but the price is out of sight. It pays to raise calves on the plains today when they sell that way."

Here is a woman who speaks from personal knowledge and long experience, viz., Mrs. P. H. Brogan, of Wilson, Pa., who says, "I know from experience that Chamberlain's Cough Remedy is far superior to any other. For cough there is nothing that excels it." For sale by all

## Pains All Over!

"You are welcome," says Mrs. Nora Guffey, of Broken Arrow, Okla., "to use my letter in any way you want to, if it will induce some suffering woman to try Cardui. I had pains all over, and suffered with an abscess. Three physicians failed to relieve me. Since taking Cardui, I am in better health than ever before, and that means much to me, because I suffered many years with womanly troubles, of different kinds. What other treatments I tried, helped me for a few days only."

## TAKE CARDUI The Woman's Tonic

Don't wait, until you are taken down sick, before taking care of yourself. The small aches and pains, and other symptoms of womanly weakness and disease, always mean worse to follow, unless given quick treatment.

You would always keep Cardui handy, if you knew what quick and permanent relief it gives, where weakness and disease of the womanly system makes life seem hard to bear. Cardui has helped over a million women. Try it.

### Big Tract Under Water.

Plainview, Texas—One of the most attractive irrigation projects in the state will be advanced in this section. The Callahan tract, which is situated near here, comprising eighteen thousand acres, is to be the scene of operation. It is the plan of the company owning this land to have the work of drilling wells for supplying the water for irrigation well under way within sixty days. The company's engineers are now surveying the tract, which will be cut into forty-acre farms. Their plan is to have roads running east and west, one-half mile apart, and north and south one mile apart.

It is the intention of the company to locate an experimental farm of one hundred and sixty acres near the center of the tract. Forty acres of this will be in charge of an expert from the United States Department of Agriculture, who will demonstrate the productive possibilities of a forty-acre farm when cultivation is carried on along scientific lines.

### HAPPY RESULTS.

Have Made Many Hereford Residents Enthusiastic.

No wonder scores of Hereford citizens grow enthusiastic. It is enough to make anyone happy to find relief after years of suffering. Public statements like the following are but truthful representations of the daily work done in Hereford by Doan's Kidney Pills.

B. W. Miller, E. Eleventh St., Hereford, Texas, says: "I obtained my supply of Doan's Kidney Pills from Woodburn & Son's Drug Store, when I was suffering from pain in my back and this remedy quickly relieved me. Now when I stoop or lift, I do not have that pain in my loins and the trouble with my kidneys has also been corrected. I do not know of a better medicine for kidney complaint than Doan's Kidney Pills and I cheerfully give this public statement in their praise."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

### Panhandle Grows Flax.

Canyon City, Texas.—That the Panhandle is adapted to production of flax has been clearly demonstrated by D. L. Hickox near this city. Mr. Hickox had about two hundred acres of flax under cultivation this year and he reports an average yield of fifteen bushels to the acre, which he sold at three dollars a bushel. Mr. Hickox is from Minnesota where flax is grown extensively. He came here last year and thoroughly investigated the conditions with a view to the growing of flax. His investigation satisfied him that he could raise just as good a product as he had grown on his Minnesota farm. He accordingly put two hundred acres under cultivation and is so well pleased with his venture that next year he will plant two thousand acres. He made enough from his crop this year to pay for the land on which it was planted.

Farmers in this vicinity are much interested in Mr. Hickox's crop and many have stated they would devote a small acreage to flax next year.

## JOWELL-ARTHUR NUPTIALS.

In the presence of a select number of friends and members of the families of the contracting parties, the marriage of Miss Winona Arthur to Mr. Charles Jowell, was celebrated at the home of the bride's parents in this city on Wednesday evening at seven-thirty, Rev. S. T. Shore of the First Christian Church officiating.

The parlor and dining room of the Arthur home was beautifully decorated in greenery with a sprinkle of yellow roses, the central figure being an arch between the two rooms and under this arch the couple stood during the ceremony.

At the appointed hour, following the strains of Mendelssohn's wedding march, played by Miss Willia Elliott, the couple appeared under the soft lights of the dining room and stopped at the selected place, the wedding party all being assembled in the parlor. In sentences well chosen, the minister said the words that made the twain one, after which congratulations were in order.

The bride wore a neat gown of white marquisette over yellow satin; the groom a neat black business suit.

After the ceremony all the party was served to cream and cake, during which time the pleasantries of the day and occasion were passed.

The bride is the only daughter of Mr. and Mrs. C. P. Arthur who have made their home at Hereford for a number of years.

Mr. Jowell is the son of Mr. and Mrs. J. T. Jowell, and had only a few months ago returned from a cruise around the world as a member of the United States Navy. He at present holds a position with a business firm of this city.

The new couple received many handsome and useful presents.

The Brand extends to Mr. and Mrs. Charles Jowell its heartiest congratulations.

## AN "AT HOME."

Mrs. Luther Hough with Mrs. J. W. Hicks, Wednesday afternoon of this week from 4 to 6, gave at the latter's home a delightful "At Home" to a number of friends complimentary to Mrs. Draper of Amarillo, a niece of Dr. Hicks. The reception rooms were beautifully decorated with home-grown chrysanthemums of different shades, the plants being banked in an effective way. The guests were received by Mrs. Hicks and were passed down the receiving line by Mrs. Hough.

In the line were Mesdames Draper, C. W. Witherspoon, Barcus, Henry Wilkinson and N. E. Gass. Those in the house party were Mesdames W. E. Hicks, Pittman, Gibson, Irwin, A. C. Elliott, Roloson, Russell and Miss Miller. The punch bowl was presided over by Mrs. Irwin. The afternoon was spent in pleasant conversation and each guest was made to feel the open hospitality of the hostesses. During the hour a salad course was served. A large number of ladies called to pay their compliments.

## Men Do Not Attend Church.

In an address made at Dallas a few days since, it was stated that less than 10 per cent of the men attended church. The Men and Religion movement which has been given much attention in the last few months, is emphasizing the need of men and boys in the churches. That men do not attend church is a condition, not a theory. Only a few Sundays ago, a certain observing gentleman in Hereford counted the grown men in a church audience and there were present just a baker's dozen. Where were the men? Why don't the men attend the church exercises? This question may be answered by asking why men in large numbers will attend a show, a circus, a baseball game, a football contest, a moving picture show, or even a "badger fight." Because they are interested. Men and boys seldom attend any kind of gathering through a sense of duty. They must have some interest or have their curiosity aroused. But some people attend church as a matter of habit or simply to have somewhere to go. If the church can get a few men and boys to attend from force of habit, a few more to attend out of sheer curiosity, a few from a sense of duty, the rest of them must be had and held by making the church services and exercises interesting to the staying

point. The average church exercises, except the eloquence of the preacher, is rather dry to the average man or boy, especially to young men, who desire a line of progressive thought and action. Theological theories no longer interest them, the preachments of hell fire no longer terrify them, the sanctified exhortations of known hypocrites disgust them. The singing in the average church is poor if not often excruciating to the average man of the world. The church choirs are usually composed entirely of volunteers, some of them not being able to make a "joyful noise," not to mention singing in time and harmony with the rest of the members. The church must throw off its shackles of empty forms, meaningless ceremonies, it must reach out the "glad hand" without that shake of "holier than thou," it must make the church a place of common interest to men and boys, it must open its doors seven days in the week and drive out the chill that hovers there from Sunday to Sunday.

## Endorses C. W. Post Rain Making.

That heavy rains often fell after big battles during the Great War between the States has been attested by E. T. Woodburn of this place and in this connection endorses the rain making endeavors of C. W. Post of "There is a Reason." Mr. Woodburn believes that the denotations disturb the elements in some way that brings about the precipitation. He remembers well the heavy rains that fell after a day's canonading during the war. He thinks Mr. Post should be encouraged in his experiments as a rain making device of that kind would beat an irrigation well or ditch too "bad to talk about."

## Beattie To Pay Penalty.

Richmond, Va., Nov. 13.—The supreme court of appeals today refused the writ of error asked for by Henry Clay Beattie, who was convicted of the murder of his wife last July. Beattie is sentenced to be electrocuted Nov. 24, and must die unless the Governor interfers, which is very unlikely.

Very little sympathy is felt for Beattie, whose guilt was proven beyond a doubt by sensational evidence produced just at the close of the long trial.
