SECOND WEEK DISTRICT COURT

Court Has Been Busy With Criminal Docket—Several Civil Cases Tried—Grand Jury Returns Thirteen Indictments.

District Court has been trying the Criminal Docket this week and quite a number of cases have been disposed of already. The following is a list of the cases tried:

The State of Texas vs. C. L. Height, theft by Bailee, jury returned a verdict of guilty with a sentence of two years in the penitentiary.

The State of Texas vs. Floyd Elliston, theft of over \$50.00. Defendant entered a plea of guilty and the jury returned a verdict of guilty with a sentence of two years in the penitentiary, recommending that the sentence be suspended during good behavior of the defendant.

The State of Texas vs. Charley Hubbard, theft of over \$50.00. Same disposition as the case of Floyd Elliston.

The State of Texas vs. Juan Duran, horse theft. Jury returned a verdict of guilty with a sentence of two years in the penitentiary, defendant having pleaded guilty.

The State of Texas vs. Miguel Valdez, horse theft. Same disposition as the case of Juan Duran.

The State of Texas vs. E. T. Stevens, swindling. On trial.

The Grand Jury is still in session, having returned thirteen indictments to date, twelve of which are for felonies, and one for a misdemeanor.

The following civil cases have been disposed of since last Thursday:

J. D. Jarrott vs. Miller & Jefferson, suit on a note. Judgement by default in favor of plaintiff.

John E. Ferguson vs. Minnie M. Clarkson et al, suit on a note and foreclosure of lien. Judgment by default for plaintiff.

Mrs. E. J. English et al. vs. B. F. Gaines, trespass to try title. Judgment by default for plaintiff.

Lewis J. Shepherd vs. T. D. Cain, suit on a note and foreclosure of common law lien. Judgment by default for plaintiff.

Geo. A. Howe vs. J. P. Collier et al., suit on a note and foreclosure of Vendor's Lien. Judgment by default for plaintiff.

The First National Bank vs. L. W. Ricketts et al., suit on note. Judgment by default for plaintiff.

Rockwell Bros. & Co. vs. S. Harrell et al., suit on a note and foreclosure of Material Man's Lien. Judgment by default for plaintiffs.

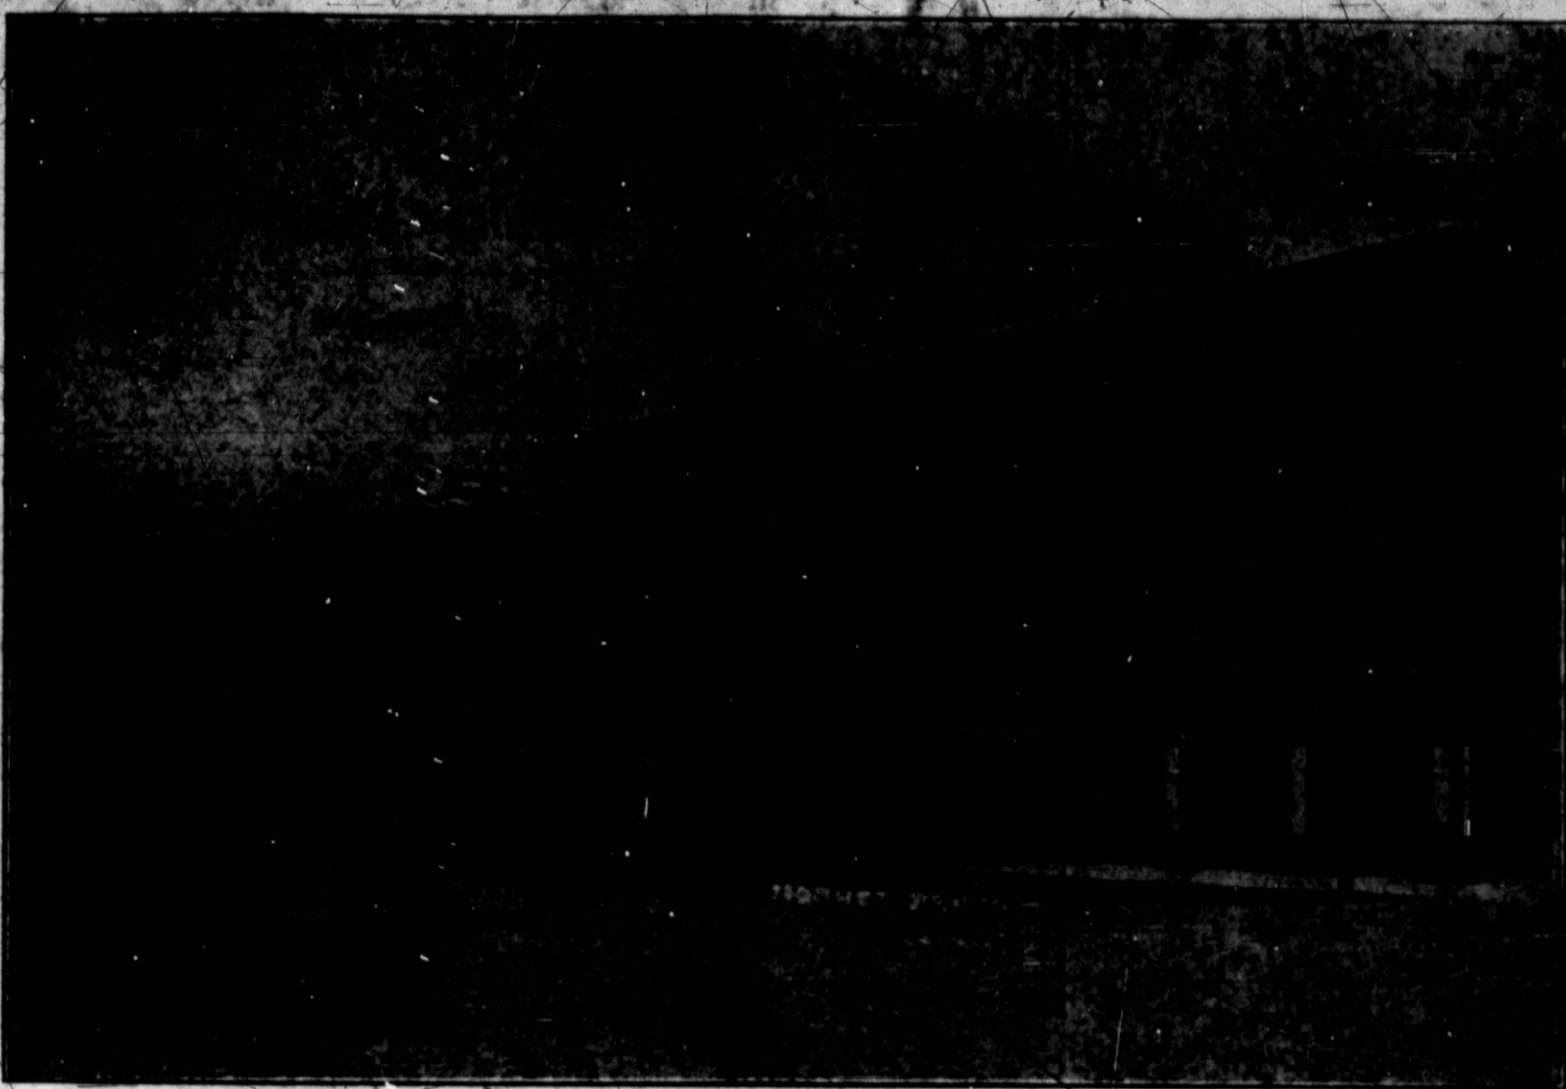

Myrtle E. Cox vs. E. M. Cox, suit for divorce. Divorce granted and former name of Wilson restored.

G. H. Porter vs. P. & N. T. Ry. Co., suit for damages for conversion. Jury returned verdict for plaintiff for \$2485.44.

Mrs. M. O. Kersey et al vs. The First National Bank et al, suit to try title. Settled and dismissed at cost of defendants.

L. A. Ogle vs. W. W. Woodall et al, suit on note and trespass to try title. Judgment by default for plaintiff.

Cotton picker, arrested at the Gough farm two miles north of town. Will pay \$1.00 per acre.

TOUR PLAINS COUNTRY IN AUTO

John G. Hoyt of Hartford is Impressed By Possibilities of State.

John G. Hoyt of Hartford, Conn., president of the Hartford Life Insurance company, came to Texas, traveled 4,000 miles in an automobile over the western plains country, left \$500,000 in loans and went back East this week to become an active evangel of the greatness and prosperity of Texas.

For nineteen years General W. W. Patterson of Dallas has been Texas manager for the Hartford company, and during those nineteen years he has persistently urged the officials of his company to come out to Texas to see the resources of the state. Mr. Hoyt finally acceded to the urgent invitations and the insurance president was shown a very large area of the plains country.

Leaving Dallas Oct. 1, President Hoyt, General Patterson and Colonel R. S. Thompson of Amarillo began the automobile tour. They traversed Nolan, Scurry, Hale, Floyd, Crosby, Randall, Swisher, Lamb, Dawson, Mitchell, Howard, Potter, Deaf Smith, Hansford, Hutchinson, Ochiltree and several other counties in that section of the state.

President Hoyt was much impressed by the excellent crops of cotton, milo maize, kaffir corn, sugar beets, the apple and peach orchards and the varied agricultural products of that vast section. The possibilities of irrigation in that section so appealed to him that he loaned almost \$500,000 to farmers and ranchmen in that section to be applied on irrigation and farm projects generally.

CONFERENCE APPOINTMENTS

Northwest Texas Methodists Hear Appointments and Adjourn at Plainview.

After a Sunday of heart-warming addresses, the Northwest Texas Conference adjourned at Plainview Monday after a most profitable session of five days. Appointments were read out at the last session. In the Amarillo District Rev. O. P. Kiker was returned as presiding elder, and Rev. J. M. Sherman was returned to Hereford. This is quite agreeable not only to the Methodist here but other people as well, as Mr. Sherman is considered an able pulpit man and a splendid pastor.

Rev. D. W. Hawkins, well known here, was returned to Ochiltree where he has a record of a successful year's work. Other appointments for the Amarillo District are:

O. P. Kiker, P. E.; Amarillo, Polk Street, E. E. Robinson; Houston and Buchanan Street, W. I. Caughran; Bovina, John A. Wallace; Canyon, F. M. Neal; Channing, T. E. Graham; Dalhart, J. W. Mayne; Dumas, J. T. Howell; Glazier, Thos. Hanks; Hansford, B. J. Osborne; Hereford, J. M. Sherman; Ochiltree, D. W. Hawkins; Panhandle, P. G. Huffman; Plemons, G. B. Carter; Stratford, J. P. Lowery; Texline, Geo. Smallwood; Wildorado, W. J. Land.

The Brand is in receipt of a card from Mr. and Mrs. James M. Gilliland of Pecos, Texas, to which card is attached another bearing the name

Newton Bernard Gilliland November 3rd, nineteen hundred and eleven, wherefore their friends rejoice with them and wave congratulations.

FIRST CARLOAD OF SUGAR BEETS

Hereford The First Town in Texas to Ship Out Train Load of Sugar Beets.

Springing a surprise even on many of our own citizens and a flash of wonder on other towns in Texas, Hereford ships out this week the first carload of sugar beets ever raised in Texas. Next week will record the loading of fourteen more cars making a fair trainload of the sugar producers.

Credit for this achievement must be placed to the slogan: "WATER, SOIL and SUNSHINE" which played the all important part on the McDonald Irrigated Farms.

Mr. D. L. McDonald who has had charge of the demonstration is satisfied with the results, and the beet experts who have visited Hereford are more than pleased with the outlook.

The harvest of the 35 acres of beets begins this week. A "lifter" made especially for raising the beets out of the ground will be used.

Hand labor will then "top" the beets and load them into wagons. The tops will be used for feeding purposes.

The beets will be shipped to the refinery at Garden City, Kansas.

A test shows that the Hereford beets will yield about 15 per cent sugar, a good percentage and enough to justify planting a large acreage next year.

Judge W. B. Boyd, who formerly lived here, but now living in Central Texas, has been here several days on business.

NO. 1133 GOES INTO DITCH

Engine Pulling Gravel Train Plows Into Through Freight and Turns Turtle—No One Hurt.

One of the worst wrecks which has ever occurred at Hereford happened here late Friday afternoon. A through freight was standing on the main line cooling off a hot box near the engine. It was a long train and the caboose stood just opposite the freight depot. This train had passed the gravel train a few miles west, and the latter came down the grade across the creek with high speed, the trainmen, no doubt, thinking that the train ahead had passed Hereford. As No. 1133 came up the grade towards the yard, the wind directly in line with the train, blew the steam from the "pop-off" right along the track in front of the engine. This cut off the view, but a rift in the steam cloud revealed the rear of the other train a few hundred yards ahead, and No. 1133 was too close to stop the heavy loaded train. The whistle shrieked as if in distress, the engineer worked the reverse lever, and then both he and the fireman left the caboose. The second the big engine struck the caboose, jamming it under the car of cement, stripping the caboose to the floor. The cement car telescoped another car, also loaded with cement. The rear of the big engine was lifted into the air and the momentum of the heavy train turned it off the track and it fell broad side at almost right angles to the line. The tender lay along side the helpless monster.

Several Hereford people saw the wreck.

The work of cleaning away the wreck began at once, a large force of Mexican laborers coming in. Many of them worked all night. Early in the night the big steam wrecker was on hand, but it was about 11 o'clock on Saturday before the big engine was lifted and set back on the track. A large crowd stood around all morning to watch the work. By 1 o'clock the track was cleared and the main line open for traffic. It is said that this wreck would cost the road about \$3500.00 including the damage to the engine.

FEASIBILITY OF ACCURATE SHOOTING FROM AEROPLANE DEMONSTRATED BY UNITED STATES GOVERNMENT.

Flying at Mile-a-Minute Clip, Lieut. Fickel Throws Two Successive Shots Straight Into Target.

Bridgeport, Conn., was recently the scene of a most remarkable aeroplane achievement. Not only did it thrill the vast army of spectators because of the reckless daring displayed by the birdmen, but it proved beyond all question that, with the right make of rifle, a marksman can shoot while flying at tremendous speed, with the same accuracy as when on the ground.

Army officers have been anything but satisfied with the results obtained with the service rifle, and the flight was planned as a test of a repeating arm of other than government make.

The flight took place at the Lake Aerodrome before 10,000 people who paid admission and a far greater number who occupied points of vantage upon neighboring hilltops, housetops and trees.

When Beachy came upon the field, a violent wind was blowing. Undeterred, he mounted his seat and was soon soaring high above. More than once it seemed to the spectators that his frail craft must surely turn turtle and come crashing to the earth, but every time the treacherous wind threatened, clever manipulation by the aviator held the machine straight and true. After having been in the air a number of minutes, Beachy pointed his craft in the direction of the grandstand, encircled it twice and, as gracefully as a bird alights, brought it safely to the ground.

To every one present it seemed certain, in view of the dangerous antics of the wind, that no more flights would

be attempted that afternoon; but to the amazement of all, Beachy, as soon as he landed, hailed Lieut. Fickel, who was standing nearby, armed with a Remington-UMC rifle, and invited him to take a seat alongside.

This Lieut. Fickel did, and aviator and passenger were soon on their way. To make the trip all the more hazardous, the machine had been shorn of all extra supports invariably carried with passengers for balance.

Time and again the big planes could be seen to tremble as if they were about to snap when contrary gusts of wind caught them; and to those below the tilting and the swaying of the monoplane were fore-runners of certain destruction to the aviator and his passenger.

When the machine reached the farther end of the field it suddenly turned, and came flying back at lightning speed. At the other end of the field, in full view of the spectators, a target had been rigged. When within firing range, Lieut. Fickel raised his rifle and sent two shots straight to the mark. It was a wonderful performance and a fitting climax to a meet that was replete with sensational features.

In an interview after the demonstration, Lieut. Fickel said that he found the speed and accuracy of the Auto-loader a distinct advantage over the service rifles he had previously used in similar tests, and that he considered it the only practical gun for use under such conditions.

Why is it that girls always find the fellows in Northern off town more attractive than boys they've grown up with?

It's for the same reason that people imagine that the next town store or the mail order house in the far off city has better bargains than the home town store within five minutes' walk. They know our quality as the girls know the good solid qualities of the home town boys—but, you know there is a fascination in the strange, the uncertain, the unknown.

Gass-Herron.
On Tuesday, October 31, the marriage of Miss Lena Herron to Mr. N. E. Gass was celebrated at Graham, Texas, the home of the bride. Mr. and Mrs. Gass arrived in this city Sunday last and were met with many happy congratulations. Mr. Gass is well and favorably known in Hereford, being one of the most popular young men of the city. Miss Herron with her parents formerly made Hereford her home and it was during her residence here that she and the groom met. She has many friends in the social circles of Hereford and the announcement of her return was received with gladness.

The reception in honor of the new couple Monday evening by Mr. and Mrs. D. R. Gass, was largely attended. The affair was given at the home of Mr. and Mrs. C. L. Sullivan, assisted by Mrs. H. H. Hawkins. The guests were received by Miss Dimple Gass, sister of the groom. The punch bowl was presided over by Misses Jane Gregg and Mable Gass. A splendid program and readings was

given by the Misses Lambert, Mr. Chas. Kelley, and Miss Barton. A happy strain of conversation ran thro the course of the evening, all departing with well wishes for the newly weds.

Recovers Land.
The Supreme Court last week refused a writ of error in the matter of Hardeman County vs. C. C. Slaughter, suit for recovery of about 2960 acres of Hockley county land, same being a portion of the four leagues owned by Hardeman County and known as school lands. Some twenty years ago this land was sold—the four leagues—for \$5000, for which a note was given but never paid. The county brought suit for recovery, and Col. Slaughter agreed to take 2960 acres by deed and relinquish the balance. Last year the Supreme Court held that the county had no lawful right to dispose of the land to Col. Slaughter as it had done, that the land could be used or sold only for the benefit of the schools of the county. Thereupon suit was brought in the District Court, and rendered. An appeal was taken,

and the result above stated was the outcome. The land is worth approximately \$30,000.—Quannah Observer.

We wish to thank the many, dear friends who, by their loving sympathy, they tried to help us bear the loss of our dear husband, father and brother. May the Heavenly Father, who alone can sustain us in such bereavement and upon whose strong arm we are relying in this dark hour, bless you all.

TEXAS NEEDS GREAT MEN

X. EDUCATION.

THE Chinese made the first paper and the Germans made the first type and brought education within the reach of every citizen on the globe. These achievements, together with the printing press, were the crowning glory of civilization. The Texas press is a great industrial educator. To read our newspapers makes the farmer want to start another plow, the miser shoulder his pick, the manufacturer enlarge his plant and the banker increase his investments. Our marvelous progress is due largely to our inspired writers who sweetly sing the praises of Texas.

THE FIRST PRINTING PRESS.

The vigor of youth is upon Texas. The dew of prosperity falls upon it by night and the rays of a glorious sun nurture it by day. Our soil—warm from creation—is as fertile as the Valley of the Nile. Our land—the factory site of the Universe—invites the merry hum of industry and our minerals—nature's treasury box—await the prospector's pick. Texas opportunities light the universe like the blaze of a mighty fire, inviting whosoever will to come to a land as beautiful as the shores of Paradise and as full of possibilities as the Garden of Eden. Let every one come. Texas needs great men.

Moved Shop.

The Orr Barber Shop has moved to the building next to Richard's Restaurant. The place has been remodeled throughout and put in "apple pie" order. Old patrons and new are invited to call.

The Parole Law.

The last legislature passed a law known as the "Parole." This law provides for the suspension of the sentence in felony cases where the time does not exceed five years and if the offense is the first one. But in order to get the benefit of the law, the jury must recommend to the court that the defendant be given the benefit of the parole law. It is then still optional with the trial judge. Another feature of this new law is that the "parole" privileges extend over a period double the time of the sentence fixed by the jury. The defendant during the time of the "parole" must be upon good behavior, and any violations of the rules of the parole will subject the party to arrest and the immediate execution of the sentence. We believe this is a good law. The object of punishment should be reformation from crime and not confirmation.

As the penitentiaries are usually conducted by the states, the inmates are not only severely punished, but are confirmed in sin, made to hate mankind, and ruined for citizenship. The reformed criminal from our penitentiaries is the exception and not the rule. The association of all kinds of characters from the hardened outlaw to the first weak offender are huddled together; the confining walls and bars against freedom, the armed guards, the inhuman whipping post, the cruel hearted supervisors, the hard task masters, and even the hated stripes, all make a terrible, ever-present impression on the lives of the unfortunate inmates. True,

the state must confine those who are a menace to society and dangerous to the dignity of the state, but many recognize now that the state has failed in a measure to accomplish any reformation in the criminal element of the country by the penitentiary methods.

The state of Oregon has taken an advance step in the right direction in handling her convicts. The present governor has worked wonders and his methods are making good citizens of a large per cent of the convicts while most of them were turned out as law-breakers. Two things he has done which every body said was impossible: To work the men on the public highways without shotgun guards and to remove the hated convict stripes. Squads of men are sent out daily in citizen's clothes to work. Even the life-termers are placed upon their honor and given their freedom. During the first two years of this trial only three men violated their pledge and escaped, two of whom were captured, while during the previous two years twenty men had tried to escape, several of whom were shot down and killed and others made their escape.

You say this is not punishment. When the state deprives a man of his liberty, he is punished, but when the state reforms a criminal and makes a good law-abiding citizen by humane treatment during the term of confinement, it has then accomplished a better thing than mere punishment. Reformation is what we need most and not ruination.

AVOID HARSH DRUGS.

Many Cathartics Tend to Cause Injury to the Bowels.

If you are subject to constipation, you should avoid strong drugs and cathartics. They only give temporary relief and their reaction is harmful and sometimes more annoying than constipation. They in no way effect a cure and their tendency is to weaken the already weak organs with which they come in contact.

We honestly believe that we have the best constipation treatment ever devised. Our faith in it is so strong that we sell it on the positive guarantee that it shall not cost the user a cent if it does not give entire satisfaction and completely remedy constipation. This preparation is called **Rexall Ordinies**. These are prompt, soothing, and most effective in action. They are made of a recent chemical discovery. Their principal ingredient is odorless, tasteless, and colorless. Combined with other well-known ingredients, long established for their usefulness in the treatment of constipation, it forms a tablet which is eaten just like candy. They may be taken at any time, either day or night, without fear of their causing any inconvenience whatever. They do not gripe, purge, nor cause nausea. They act without causing any pain or excessive looseness of the bowels. They are ideal for children, weak, delicate persons, and aged people, as well as for the most hearty person.

They come in three size packages, 12 tablets, 10 cents; 36 tablets, 25 cents; 80 tablets, 50 cents. Remember, you can obtain them only at our store—The Rexall Store. Corner Drug Store.

In order to secure the maximum number of lecture periods in the auditorium of the Coliseum during the Land Show, the Texas Panhandle-Publicity Association has secured two hundred colored slides representative of the most interesting scenes in the Panhandle. These will be used through the medium of a magnificent stereopticon machine so that every lecture by a Texas Panhandle orator will be beautifully illustrated. Plans have been perfected for the distribution of the lecture periods that will enable each district of the Panhandle to tell its own story of progress and development.—T. P. P. A.

**THE PRICE OF COTTON AND
 THE POLITICAL SITUATION.**

**Significant Relation Between Tariff
 Activity and Losses of Cotton
 Growers Across the
 South.**

In the appointment of a delegation of cotton growers at the North Carolina state fair recently, with instructions to attend the meeting in New Orleans having for its purpose the holding by farmers and others of a considerable proportion of this year's cotton crop and the curtailment of next year's acreage, is to be found one of many indications of dissatisfaction existing over the present political relationship to the price of cotton.

It is said that President Taft's reciprocity campaign and the Underwood tariff bills not only adversely affected general business during the year 1911, but specifically caused the cotton manufacturers to lose, by shrinkage and decreased volume of trade, between \$50,000,000 and \$100,000,000.

Crippled and with a prospect of more tariff agitation in 1912, cotton manufacturers have naturally been unable to make purchases of cotton in the usual way, with the result that, with a full crop, political agitation has created a decline in the price of the staple thus far from 14 cents per pound to 9 cents per pound, with many predictions from well posted quarters that a much lower range will be experienced.

It is further claimed that without the extra session for the discussion of reciprocity the Underwood tariff measures would not have been introduced and in consequence there would have been but little probability that cotton would have declined under the force of a full crop lower than 11 cents per pound instead of registering in price the low water mark for years, as it does today.

The farmers in the south and the manufacturers of cotton generally are charging up a loss on this year's crop of not less than \$175,000,000, which loss they claim is directly traceable to political influence.

J. W. Copeland, of Dayton, Ohio, purchased a bottle of Chamberlain's Cough Remedy for his boy who had a cold, and before the bottle was all used the boy's cold was gone. Is that not better than to pay a five dollar doctor's bill? Sold by all dealers.

Progress Exhibits.
 The exhibits at the Dallas Fair, which has just closed, gave us a high-water mark in our progress in Agriculture, Live Stock, Mechanics, Art, etc., and every citizen of Texas should be proud of the record made, but the exhibit of most far-reaching importance in point of education and one which adds a new department if not a new epoch in Fair Association work was the progress exhibit made by the Santa Fe Railway with its demonstration train.

Transportation made its most rapid strides when motive power passed from muscle to metal and there is no more entertaining and instructive lesson in Texas progress than that of a pack pony of the 70's standing beside a big mogul of today.

There are many other interesting forms of comparing our progress that will not lead themselves to this method of exhibit. For example, during the period above mentioned, the assessed value of Texas farm lands increased \$927,000,000 and the assessed value of all property \$2,218,000,000 largely due to the advent of the iron horse. No Fair Association can fulfill its mission without a progress exhibit.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

AND TRUST COMPANY HEREFORD TEXAS

THE continued "falling weather" which has happened several times lately has put a good "season" in the ground and as result many farmers will sow wheat.

THAT wonderful Plains Country! Out at Hereford they have a street fifty miles long in a perfectly straight line. They call it "Fifty-mile Avenue." It runs right through the center of the town, and, of course, projects several hundred yards into the country on either side of the town.—Rockdale Reporter.

Wolters and Randell.

Colonel Jake Wolters says that if elected United States Senator he would be willing to vote for a law forbidding the interstate shipment of intoxicating liquors for sale into local option territory. That is a commendable attitude and it is more than many people expected of Colonel Wolters, who is generally regarded as a standpatter when the liquor question is an issue. But Colonel Randell is ahead of Colonel Jake in this matter. Randell has already voted for such a law as Colonel Wolters speaks of. Indeed Randell has gone further, for if we are not mistaken the Sherman congressman is willing to exclude the interstate shipments of intoxicating liquors on any account into local option territory and has so voted in the congress. Randell believes in local self-government. If the qualified voters of a state, county or precinct declare by their votes that they do not desire intoxicants sold in that territory Randell is with them. He says Uncle Sam should not connive at any effort to negate the will of that people. To that extent Colonel Randell is as good a pro as is Dr. Rankin, and he has the edge by long odds on Colonel Wolters.

It may be remarked in passing that Randell is prosecuting his campaign for the senate in quiet but industrious manner and he is making friends and supporters. It is evident that those who say they do not expect Randell to be a material force or influence in the contest for the senate are likely to experience marked surprise at the strength he will develop.—Waco Semi-Weekly Tribune.

Rev. Shuffler Dies Suddenly. Clarendon, Tex., Oct. 30.—Rev. C. M. Shuffler, missionary evangelist of the Northwest Texas Conference of the Methodist church, died suddenly early this morning at the residence of J. T. Graham, on West Fourth Street. Funeral arrangements have been completed, awaiting the arrival of his wife and son, Ralph Shuffler, editor of the Olney Enterprise from Olney.

Rev. Shuffler has been a prominent minister of the Methodist church for many years. He was in the North Texas conference for many years and was then transferred to the old Northwest Texas conference. When that conference divided he came into the new conference. He was for a time editor of the Plainview Herald at Plainview. Last November at the conference held at Clarendon, Rev. Shuffler was appointed conference Missionary Secretary, with headquarters in Clarendon, and he has this year done a good work over the conference district.

Good For Sore Throat

When your throat becomes slightly irritated—you neglect it for a few days—it increases in severity and becomes so sore you can hardly swallow—

Be prompt in your treatment—you don't want it to become chronic and probably end in Tonsillitis or Quinsy—that would mean either an operation or prolonged treatment, and much suffering.

Purchase a bottle of **Nyal's Sore Throat Remedy and gargle the throat thoroughly—it allays all irritation, soothes and heals the inflamed membranes and prevents further infection**

Unlike most throat remedies Nyal's Sore Throat Remedy is absolutely safe—while most effective as a gargle it is not injurious if swallowed.

Twenty-five cents the bottle.

When we had a chance to get the exclusive selling agency for Nyal Family Remedies we jumped at it. They are known among all druggists as the highest quality line on the market, and are prepared by a great firm of manufacturing chemists, famous for fifty years.

DEMOCRATS GAIN SOME

Kentucky Comes Back—Socialists Win In Many Cities—N. M. Goes Democratic.

Elections held Tuesday in many states and cities throughout the country showed varying results, with Socialist gains as a predominant feature.

Socialists elected the mayor Schenectady, N. Y., and all other city officials except one, also a majority of the county board.

Ohio was another winning ground for the socialists, they electing two mayors in eight principal cities. Where the socialists were beaten, radical Republican progressives were elected by Republicans.

FOSS WINS AGAIN.

Complete returns show that Foss, Democrat, for governor of Mass., was elected over Frothingham, Republican. The Foss plurality is 7,734.

TAGGART DEFEATS GUYER.

Joseph A. Taggart, Democrat, was elected to Congress in the Second Kansas District by a majority of one thousand over U. S. Goyer, Republican. Taggart fills the unexpired term of the late E. C. Mitchell.

CLEVELAND, OHIO, DEMOCRATIC.

Two years ago Republican, this city returned to the Democratic fold today, electing Newton D. Baker mayor over Frank G. Hogan, Republican. Baker is Tom L. Johnson's political heir and favors woman suffrage. J. Karth (Democrat) and Henry T. Punt (Democrat) were elected mayors respectively of Columbus and Cincinnati.

LANDSLIDE IN KENTUCKY.

Kentucky today landed back into the Democratic ranks, electing James B. McCreary by 20,000 majority over Judge E. C. Orear, Republican. The Republican majority in the last election was 7,000.

TAMMANY LOSES GRIP.

Tammany's hold on New York

City was shaken today. Republican candidates for the supreme court justices are conceded to have been elected. Latest returns tonight indicate that the rest of the Assembly will be as follows: Republicans 100, Democrats 49, Socialists 1, a gain of thirty-seven seats for the Republicans, with a majority in the assembly of fifty.

NEW JERSEY REPUBLICAN.

Indications at midnight are that Republicans will control both branches of the Legislature next winter. In the first congressional district William J. Browning, Republican, was elected.

MCDONALD CLAIMS ELECTION

The Democratic state committee claims the election of McDonald for governor of New Mexico by four thousand. Indications are that there will be a Democratic legislature which will elect Democratic U. S. Senators.

W. W. Bennett, J. P. Wood and Troy Womble attended the opening of the new W. O. W. hall at Amarillo Monday. They report an extra good time, besides a good "feed."

A GREAT DISCOVERY.

Certain Ingredients That Really Promote Hair Growth When Properly Combined.

Resorcin is one of the most effective germ destroyers ever discovered by science, and in connection with Beta Naphthol, which is both germicidal and antiseptic, a combination is formed which destroys the germs which rob the hair of its natural nourishment, and also creates a clean, healthy condition of the scalp, which prevents the development of new germs.

Pilocarpin, although not a coloring matter or dye, is a well-known ingredient for restoring the hair to its natural color, when the loss of hair has been caused by a disease of the scalp. These ingredients in proper combination, with alcohol added as a stimulant and for its well-known nourishing properties, present perhaps the most effective remedy that is known for scalp and hair troubles.

We have a remedy which is chiefly composed of these ingredients, in combination with other extremely invaluable medicinal agents. We guarantee it to positively cure dandruff and to grow hair, even though the scalp is spotted with bare of hair. If there is any vitality left in the roots, it will positively cure baldness, or we will refund your money. If the scalp has a glazed, shiny appearance, it's an indication that baldness is permanent, but in other instances we believe baldness is curable.

We want every one troubled with scalp disease or loss of hair to try Rexall "93" Hair Tonic. If it does not cure dandruff and grow hair to the satisfaction of the user, we will without question or quibble return every cent paid us for it. We print this guarantee on every bottle. It has effected a positive cure in 93% of cases where put to a practical test.

Rexall "93" Hair Tonic is entirely unlike, and we think, in every particular, better than anything else we know of for the purpose for which it is prescribed. We urge you to try this preparation at our entire risk. Certainly we know of no better guarantee to give you. Remember, you can obtain Rexall Remedies only at our store—The Rexall Store, Corner Drug Store.

Castro County Clippings.

From The Dimmitt Plainsman of Friday, Nov. 3.

About 8 o'clock last Thursday evening rain began falling in all parts of Castro county and continued steady throughout the greater part of the night. The average was more than an inch the county over. The county was thoroughly soaked and was a benefit to the wheat that has been planted. Saturday night rain began falling about 9 o'clock and continued the greater part of the night. About three inches fell in the two rains, and the ground is in a splendid condition for the planting of crops of all kinds and the prospects are very bright indeed. Monday evening another half inch of rain fell in Dimmitt and in the southern part of the county over two inches fell. Wednesday night and Thursday two inches of snow fell. The teachers' institute at Dimmitt was well attended.

Are You Nervous?

What makes you nervous? It is the weakness of your womanly constitution, which cannot stand the strain of the hard work you do. As a result, you break down, and ruin your entire nervous system. Don't keep this up! Take Cardui, the woman's tonic. Cardui is made from purely vegetable ingredients. It acts gently on the womanly organs, and helps them to do their proper work. It relieves pain and restores health, in a natural manner, by going to the source of the trouble and building up the bodily strength.

TAKE CARDUI The Woman's Tonic

Mrs. Grace Fortner, of Man, W. Va., took Cardui. This is what she says about it: "I was so weak and nervous, I could not bear to have anyone near me. I had fainting spells, and I lost flesh every day. The first dose of Cardui helped me. Now, I am entirely cured of the fainting spells, and I cannot say enough for Cardui, for I know it saved my life." It is the best tonic for women. Do you suffer from any of the pains peculiar to women? Take Cardui. It will help you. Ask your druggist.

IT'S YOUR KIDNEYS.

Don't Mistake the Cause of Your Troubles. A Hereford Citizen Shows How to Cure Them.

Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they may lead to dropsy or Bright's disease. The best remedy to use is Doan's Kidney Pills. It is for all which are caused by weak or diseased kidneys. Hereford people testify to benefit received.

W. S. Higgins, president of First National Bank, 610 E. Fourth St., Hereford, Texas, says: "My back was lame and painful and I had dizzy spells and pains in the top of my head. Some time ago I got a supply of Doan's Kidney Pills from Woodburn & Son's Drug Store and the contents of one box brought me such great relief that I can heartily recommend them. This preparation can be relied upon to act promptly and effectively."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

The Texas Panhandle Publicity Association has applied to the United States Land and Irrigation Exposition for a full allotment of lecture periods in the lecture halls of the Coliseum. The auditoriums are equipped for stereopticon machines, and, during the hours given over to the Texas Panhandle, colored slides will be shown representative of farm and city scenes.

An announcement has just been made that Monday, November 27th, will be the "New South's Day and Society Day," and that December 2nd will be "Texas and Louisiana Day." The opening day has been taken over by the city of Chicago and it is safe to predict that the turnstiles will be clicking steadily from morning till night, piling up the greatest paid attendance that has ever gone on record for the Coliseum. The installation of booths was commenced on the 31st ult. with the intention of having the building ready for exhibits not later than the 8th inst. This allows ten days in which to arrange the different displays.

AMARILLO HIGH SCHOOL DEFEATED

Whitewashes of Hereford High School Have Comparatively Easy Victory.

Hereford football boys added one more victory to the two already won when on Wednesday they defeated the Amarillo High School by the score of 8 to 0. The advance notices regarding the Amarillo team were to the effect that the team was a bunch of well balanced and fast players. This was verified soon after the first whistle blew and it looked as if Hereford was to receive a goose egg on her score card.

Amarillo won the toss and chose to defend the south goal. Hereford took the receive and on the kick off returned the ball ten yards, but failed to gain their distance and it was Amarillo's ball on the thirty yard line. They made it first down, but were then held for downs. The ball was never more than thirty yards from the center of the field during the first quarter and the second quarter was reeled off to the same tune. The ball most of the first half was in Hereford's territory and the locals were outplayed. Half ended with the score 0 to 0.

During the ten minute intermission Hereford mixed some big medicine, and when the team lined up to kick off at the beginning it was seen that Estes had been shifted to quarter, McBride to half and Wheeler had replaced Gallaher at end. Estes kicked off to the ten yard line and then a play was pulled off that so far as we know is the one of its kind on record. The Amarillo man caught the ball and ran behind his own goal line thereby making a safety, giving Hereford two points. Amarillo kicked out from the twenty-five yard line and then it was seen that the locals were playing a differ-

ent brand of ball from that they put up in the first half. Line smashes and end runs were pulled off in rapid succession for good gains and it looked as if they were on the road for a touchdown. The ball was fumbled on the twenty yard line and Amarillo punted out of danger. Hereford brought the ball back to the twenty-two yard line when time was called for the third quarter. Score, Hereford 2, Amarillo 0.

After four minutes of play in the fourth quarter without once losing the ball, the ball was taken to the yard line and Estes went over for a touchdown and kicked a hard goal against a side wind. Score, Hereford 8, Amarillo 0. While Estes gets the credit for the touchdown proper, credit must be given to Price and Steiger, who, by consistent line bucks, made the play possible. After the kick the prettiest play of the game was made when a forward pass was pulled off on a fake Estes to Elliott for a gain of thirty yards. Time up with ball on fifteen yard line in Hereford's possession.

Though beaten, the Amarillo boys put up a scrappy game and proved to be about the toughest proposition that Hereford has met this season.

To Avoid Trouble.

Haskell, Texas, Oct. 31, 1911.

Hereford Brand:

I thought I would discontinue the Brand when my time was out, but I am afraid it would cause trouble in the family. It is the only paper I take that every member of the family reads. I don't think they skip the advertisements. So in order to keep peace in the home, I send you check to keep it coming. We all love Hereford.

Yours,

O. W. DEAN.

TEXAS NEEDS GREAT MEN

XI. ENTERTAINMENT

WHEN Themistocles was asked by his host at a dinner party to entertain the guests by playing the lute, he replied that he "could not play the fiddle, but that he could make a small town a great city." We have in Texas many politicians who are good "fiddlers," but they cannot make a small town a great city. We are overrun with orators who can play upon the passions of the people, but they can't put brick and mortar together. We need builders.

A FAVORITE PASTIME OF POLITICIANS.

Let those who hunger and thirst for power understand that the highest glory of the statesman is to construct, and that it is better for a man that he should build a public highway than that he should become Governor of the State, and that he should plow than that he become the author of a law. The true test of statesmanship is the plow and the hammer, and let those who would govern, first build. Texas needs great men.
