Unknown Man Found Dead in Lake.

Corpse Discovered Tuesday by Small Boys.
No Marks of Identification.

Tuesday afternoon while boating in the Jefferies lake a mile north of town some small boys discovered the corpse of a man. They hurried to town and notified the officers and Sheriff Patman and County Physician D. B. McGee immediately went to the scene. The body was found about 50 yards from the shore, lying face downward in about ten or twelve inches of water. Sheriff Patman brought the body to land, and later it was brought to town where Undertaker Buntin prepared it for burial.

The body had evidently been in the water for several days—perhaps a week, and was so badly decomposed that at first it could not be determined whether the man was white or colored. Many who viewed the remains were of the opinion that it was the body of a local negro, Dick Bates, the clothing, shape of head, etc., conforming to the description of Bates, but later the coroner's inquest developed the fact that the man was white.

The description of the body as given by Coroner R. F. Wood, is as follows: White man, 5 feet, 6 inches high, about 40 years old weight about 135 pounds, light hair, nearly bald, sandy mustache, dressed in light colored small checked trousers, no shirt, net undershirt, good black socks with white toe tips, fairly new shoes of size 5½. A black coat was found on the bank containing only a red laborer's ticket with the following wording: "Ft. W. & D. C. R'y Co., R. M. Plumlee, The Railroad Labor Agent, 13th and Main, Ft. Worth, Texas." This ticket was of the kind usually given out by railroad labor agents to serve as a pass over the road. The man's pants pockets contained only a dirty handkerchief and 61 cents in small change.

Justice of the Peace Wood held an inquest and rendered a verdict of suicide. There were no marks of violence on the body, and the theory is that the man was a

stranger who, becoming despondent and noting the lake deliberately drowned himself. There is another theory that he was drunk and wandered into the lake and falling face down was unable to get out of the water and so drowned. The latter theory seems the most natural to some as the water is not deep at any point in the lake and is argued that a sober man would be unable to commit suicide in water so shallow.

LATER:—Sheriff Patman started an investigation Wednesday and ascertained the following facts concerning the dead man. The clerk of the commissary for the railroad construction gang which has been located here for the past two weeks says that a man answering the description of deceased had been hanging around the boarding cars since Thursday, having come in on Thursday night's train from Ft. Worth. He appeared to be just recovering from the effects of a protracted spree and also acted at times as if he might be half crazy. He was in search of work and brought recommendations from J. D. Shepherd, of Ladonia, Fannin county, Texas. He was sick and had a bottle of medicine and begged for a course of calomel which was given him. He remained around the car until Sunday morning, being given his meals and allowed to sleep in the car, but Sunday morning, he was told to move on and immediately did so, starting out up the railroad track. This was the last seen of him, but Sunday afternoon some boys found a hat near the lake which fits the description of the hat worn by the man. It is almost a sure thing, then, that the man was drowned some time Sunday, and that he either committed suicide or else went "buggy" and wandered into the lake. Sheriff Patman has communicated with the man Shepherd, also with Plumlee at Ft. Worth, and the identity of deceased will certainly be made known upon receipt of their replies.

There was a wedding in "high life" among the colored population last night. The groom was the new preacher for the colored Baptist church, while the blushing bride was no less distinguished a personage than Miss Mary Briscoe, Jane's daughter. The ceremony was performed by a visiting brother of the Methodist faith.

THE MARTIN-BENNETT COMPANY

Range Contest is Open in Earnest.

About Thirty Thousand Votes Have not Been Brought In. Have Your Candidate Announce Now.

The Banner-Stockman has bought from the Witt-Richardson Hardware & Implement company, a \$45 Buck's Steel Range—a regular beauty in the way of a stove and something every family can find use for even if they have a good stove already. This range will be given absolutely free to the most popular lady in Donley county, the test of popularity being decided by votes issued on subscription money paid the Banner-Stockman. One dollar paid on subscription (either new or renewal) entitles the holder to 100 votes; 50c paid entitles you to 50 votes; 25c gets 25 votes. When the money is paid a coupon is issued calling for these votes and may be voted by the holder for any lady in the county whom he chooses to support. The votes will be deposited in a locked ballot box at this office and each week a count will be made and the result announced. At the close of the contest another count will be held by a committee of disinterested parties and the lady who has received the most votes will be awarded the range which will be delivered to her on demand by the hardware firm above named. The range is now on exhibition at the store of Witt-Richardson and can be inspected by anyone who so desires. Each copy of the Banner-Stockman from now until the contest closes will contain a coupon which is good for five votes when clipped and presented at this office.

NO VOTES WILL BE SOLD TO ANYONE AT ANY PRICE.

This is a subscription contest and not a money making scheme on the part of the proprietors. We want to get new subscribers and get in closer touch with our old subscribers, making them stronger friends than ever to the paper and its publishers, and this range contest is put on because we believe it will help us do all this.

THE GOLD WATCH:

No young lady is barred from competing for the range yet it is more than likely that the married ladies will monopolize the range contest, so to give the girls and young ladies a "square deal" we have arranged to give away a \$25 gold watch and chain to some one of Donley's fair daughters. This watch will be given to the young lady under 21 years of age who secures us the largest number of NEW yearly subscribers while the range contest is running. There

W. P. Dial and J. M. Gist will at once begin the erection of a commodious grain house on the track at this place. They expect to engage actively in the grain business here again this fall and will make things look good to the farmers. Mr. Dial has rented his farm and will move to Memphis as soon as he gets his present crop gathered and will become a citizen of this city. We are glad he has decided so to do, as he is an enterprising citizen.—Hall County Herald.

Fiendish Suffering

is often caused by sores, ulcers and cancers, that eat away your skin. Wm. Bell, of Flat Rock, Mich., says: "I have used Bucklen's Arnica Salve, for ulcers, sores and cancers. It is the best healing dressing I ever found." Soothes and heals cuts, burns and scalds. 25c at Stocking's drug store; guaranteed.

—School tablets, pens, ink, pencils and all kinds of school stationery for normal students at Clower's.

are no other conditions. All the girls have to do to compete is to go to work soliciting new subscribers. They may get their fathers, mothers, brothers, sisters or friends to help them. The new subscribers do not necessarily have to be living in the county. They may live anywhere in the United States. Two six months, or four three months subscriptions will count as one yearly subscriber. New subscriptions so secured will be entitled to votes in the range contest. Now girls, get to work. See people, and ask them if they are taking the Banner-Stockman. If not don't let go until you get their names. Get your friends to subscribe for the paper to be sent to friends or relatives in the old states. Any girl who will work right hard should be able to secure a dozen new names the first day. Call at the Banner-Stockman office or write us if you are going to compete for the watch and we will furnish you with subscription blanks and some literature which will help you do the talking, also a supply of coupons which as agents of the paper you can supply to subscribers. Remember, some girl is going to win a watch and it is well worth working for.

To the first 50 NEW subscribers while the contest is running we will give absolutely free a year's subscription to Holland's Magazine the new high-class literary monthly published by Frank P. Holland, the publisher of Farm and Ranch, at Dallas. This is a regular \$1-a-year magazine, and a good one, too. The first fifty new subscribers to the Banner-Stockman under the terms of this contest will get the Banner-Stockman and Holland's Magazine both one year for only \$1.

The range contest will close at noon on December 24, 1905, on which date the votes will be counted and the result made known.

The watch contest will close at the same time and the watch awarded to the young lady or girl who has handed us in the most new subscribers. The only persons barred in these contests are members of the families of any of the Banner-Stockman force, and the members of the families of the firms supplying the premiums.

The gold watch was sold us by J. M. Clower & Son, and is now on exhibition in their show window. Drop by and see it, also the range at Witt-Richardson's.

Assessor McClaskey this week finished the work on the tax rolls and the footings are interesting. The total state and county taxes amount to \$15,872.56. Total valuations of all property \$1,485,751. Total number of acres of real estate rendered, 575,841.2-3. Total number horses and mules, 2,904. Cattle, 29,084. Hogs, 1,889. Polls, 443.—Collingsworth Courier.

A Touching Story

is the saving from death, of the baby girl of Geo. A. Eyer, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious throat trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for consumption, coughs and colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At Dr. Stocking's drug store, 50c and \$1.00 guaranteed. Trial bottle free.

B. W. Chamberlain

The real estate men of Clarendon owe it to themselves and to the community at large to effect some kind of a local organization whereby all might be able to work together in unity and harmony. The present haphazard methods are very unsatisfactory to all concerned. A local real estate exchange might be put on foot that would prove to be a big aid to the members in settling up the country and profit every member. As it is now a prospector is often disgusted at the avidity with which he is seized upon by a bunch of men who have lands for sale, and the different tales he hears and the backbiting indulged in, all serve to disgust him with the town and he is often practically driven away. We don't mean to say that this state of affairs is any worse here than in the other Panhandle towns, but it is bad enough and plans of some kind should be formed to make a change. A local real estate man, perhaps a little more frank than some others, said to the editor last week: "Well, we had ten prospectors in town today, located one and drove the other nine away." Get together, gentlemen, it will pay all concerned.

Public is Aroused.

The public is aroused to a knowledge of the curative merits of that great medicinal tonic, Electric Bitters, for sick stomach, liver and kidneys. Mary H. Walters, of 546 St. Clair Ave., Columbus, O., writes: "For several months, I was given up to die. I had fever and ague, my nerves were wrecked; I could not sleep, and my stomach was so weak, from useless doctors' drugs, that I could not eat. Soon after beginning to take Electric Bitters, I obtained relief, and in a short time I was entirely cured." Guaranteed at Dr. Stocking's drug store; price 50c.

Walter K. Hollifield was up from Rowe Monday looking after the papers necessary to the clinching of the deal whereby he buys the Dr. Brown residence at Rowe. It is a very nice little home, good house and two acres of land with many conveniences.

We sell and recommend this preparation." For sale at Dr. Stocking's drug store.

Little Carolyn McDermott.

Carolyn, the bright and interesting daughter of Captain John M. McDermott and wife, of Tellico Plains, died last Saturday about 4 o'clock p. m. She had not been sick a great while and had the best of nursing and medical aid. Besides the local physicians, Dr. Gordon, of Birmingham, visited her, but all to no avail. She was taken much worse on Friday last and never was able to rally. Deceased was the only daughter and was not only the idol of her parents, but was a great favorite with all who knew her, and the stricken father, mother, brothers and relatives are inconsolable for the loss of the beautiful and lovely curly haired darling, who was only about 12 years of age. Hon. Robert Cooke, Thos. H. Cooke and other relatives from Chattanooga came up to attend the burial ceremonies, which were under the supervision of Undertaker Harry Evans.—Athens (Tenn.) Post.

Little Carolyn was a niece of Banker W. H. Cooke, of this city, and in company with an aunt visited Mr. Cooke's family here about two years ago. She was a beautiful and lovable child, whose untimely death is greatly to be regretted.

We have been favored with a catalogue of Clarendon College, a Methodist institution of learning of considerable note, which is a very handsome specimen of the art preservative. The work is the artistic skill of Alvis Weatherly, formerly of the Seymour News, a young newspaper man of splendid ability and a printer of fine natural taste. The catalogue is printed on an extra quality of linen paper, contains photos of the president and faculty of the institution, graduating class, various societies, the college and other public buildings, private residences, all perfect in arrangement, and is faultlessly executed. Work of this character is of inestimable value to the institution. It creates a fine impression of Clarendon College on the public mind and gives to the outsider the idea that it is in reality a school of the first-class. It is an excellent piece of work, and the boy has a right to feel proud of his job.—Baylor County Banner.

The compliment paid Mr. Weatherly in the above paragraph is a deserved one. He has been foreman of the Banner-Stockman office for the past year and has proved himself a printer of more than ordinary artistic ability. His work on the catalogue in question has been the subject of much comment, both locally and abroad. The Clarendon College catalogue for 1905-1906 has been pronounced by experts as the best piece of book printing ever turned out in the Panhandle. A representative of one of the big Dallas printing houses made the statement to the editor that his house would not have done as good work had they been entrusted with the job. Mr. Weatherly is now at work on the catalogue for Clarendon Public School which promises to be fully as good a job as the other book. The Banner-Stockman does the BEST printing, and you will make no mistake in leaving your orders with us.

Peculiar Disappearance.

The Banner-Stockman has one of the finest lines of calendar samples for 1906 ever issued and is prepared to take the orders of local business concerns for this class of advertising matter. Don't let a traveling man get your order until you see our line. The price will be no larger and by patronizing us you keep the money at home. tf

Painting the Town Red

Was at one time the favorite diversion of those who settled this country. The grade of paint used was extremely poor and in a very short time after the paint was applied the buildings began to show cracks—probably caused by the use of too much lead, or maybe the lumber was poor. Present day methods are somewhat different and more sombre colors are now in vogue. Whatever the color Vane Calvert Paint has that color in its correct shade and if properly put on WILL NOT CRACK. Our lumber is a good thing to put Vane Calvert Paint on. Its fine finish makes it especially desirable for work which requires the BEST grade of lumber.

FARMERS continue to "complain" of the general excellency of crops.

THE Northwest Texas Press Association is in session today and tomorrow at Hereford. It had been the intention of the editor of the Banner-Stockman to meet with the boys this year but we were unavoidably compelled to forego that pleasure at the last moment. We trust the gang will have a most profitable session and that the pleasure trip to Colorado points will be all that was anticipated.

In placing the street lights recently contracted for we believe the city fathers made a mistake in not locating one at the double bridge on West First street. At this point there are two narrow bridges over deep gullies, and on dark nights the place is more or less dangerous. A street light should be placed at this point and the road further made safe by the placing of several yards of railing on either side of the bridges.

If the city has not already an ordinance prohibiting the leaving of teams on the street without hitching no time should be lost in drafting one and seeing that same is enforced. Clarendon has more runaway accidents than any other town of its size we have ever seen and so far we have been particularly lucky in that no one has been killed. There is scarcely a week that there is not at least one runaway team. Last Saturday a big team dragging a heavy farm wagon ran amuck throughout the town, finally splitting the main street wide open. At the time there were many ladies and children on the streets and it is a wonder that someone was not badly hurt, or killed. The practice of leaving teams unhitched is all too common; even the precaution of dropping the traces is not often resorted to, and if a change is not made there will be a fatality to record some of these days.

The new company contemplates some extensive improvements in the yard and will also increase their stock of lumber so as to be adequate to meet all demands. They also have in contemplation the establishment of several other yards at various points in the Panhandle.

Mr. A. C. Morgan remains in charge of the business, and no more capable manager could be found.

School Board Meets.

The school board held a meeting Monday and transacted considerable important business. A vacancy having been caused on the board by the removal from the city of C. W. Ryan, the matter of a successor was taken up with the result that J. H. Rutherford was appointed for the unexpired term. It was decided that the school should open for the fall term on the second Monday in September. The usual tax levy of 50c on the \$100 valuation was made, and the purchasing committee was ordered to buy sufficient new desks and school furniture to equip an additional room. This new room was badly needed last year, in fact had become an absolute necessity. The board has laid in a big supply of coal, sufficient to last throughout the winter, and usual small repairs will be made around the building, so that when the time rolls around for school to open everything will be in ship shape.

Will Lewis in Railroad Accident Where One Man was Killed and Several Injured.

Will Lewis, who left here Sunday with a shipment of cattle for Kansas City, came in an ace of being killed at Emporia, Kas., Monday night. He was in a caboose of a freight train with 20 other men when another train telescoped the caboose from the rear. Of the 21 men in the car only three escaped injury. Will being one of the fortunate trio. One man was instantly killed and several seriously if not fatally hurt. Will was stunned, scratched and bruised, but was worse scared than hurt. The engine split the caboose wide open, passing entirely through it, and the wonder is that all were not killed.

The local "syndicate" say that Will has been carrying a rabbit foot since the steer kicked him in the face, and that this accounts for his fortunate escape from sudden death.

Shirts

Shirts are an absolute necessity; the law requires that one shall at all times wear a shirt or a substitute for same. To present a dressy appearance one should be careful in their selection of Shirts. We have just received as pretty a line of Shirts as has ever come into the Panhandle and are offering them at prices that will prove satisfactory to the buyer. It is our desire to please our customers and with few exceptions have succeeded in doing so. If you are not one of our regular customers give us a trial and you may find it to your interest to trade regularly with us. We always keep nice things in cold drinks and can please you along this line.

SIX CENT PORK.

For the First Time in a Year Hogs Sell at Six Cents at Ft. Worth.

The Six-Cent Hog has arrived. He came to visit the Fort Worth stockyards late Friday afternoon for the first time since September 23 last. To all appearances the Six-Cent Hog is much like thousands and hundreds of thousands, yea millions of thousands, that have sold in times past at four and five cents. He showed that he had been well fed and well bred, 'tis true, and seemed to walk rather more proudly to the scales than did his brothers and sisters, though to the eye of the casual observer his form and carriage were as similar to thousands of others hogs that have wended their way over the hills to the abattoir as two peas in a pod. The advent of the Six-Cent Hog has been heralded for some weeks past, but he was hardly expected to reach this city until next week. His hogship, however, seems to have thought it would be a good joke to surprise his many friends in Fort Worth and Texas by arriving on the scene a few days before his visit was expected, and by sneaking in late in the day, as if not caring to associate with his fellows that were worth no more than \$5.97 1/2.

It is hoped, and sincerely, by producers of his kind, that the visit of the Six-Cent Hog will be an extended one and that he may find many brothers and sisters in the state of Texas whom he will consider worthy associates, as this market seems a fitting place for the holding of a grand reunion of the Six-Cent Hog family. It is feared that if such a reunion is not held within the near future, however, circumstances will require its indefinite postponement.

H. L. Nye of Ninnekah, I. T., was responsible for this visit of the Six-Cent Hog to Fort Worth. He shipped in 71 head of an average weight of 204 pounds, which were of the Six-Cent family. Armour & Co. will see that they are properly entertained while in our city, and they will be treated to a trip through a modern packing house today.—Ft. Worth Live Stock Reporter, Aug. 5.

A Kurious Kolumn
By A. Kurus Kusse

It is a mighty cold day when the Clarendon real estate men can't find a joke to perpetrate on one of their number. One of them is this week nursing a case of dry grins and philosophically bearing up under the strain of the following tale told on him publicly by another member of the fraternity: For convenience we will call the sufferer Jones, principally because that is nothing like his name. Jones had been down to meet the morning train before breakfast and when he showed up at home for the morning meal he was greatly preoccupied in the study of the problem of which piece of land he should sell the prospector whom he had just caught. In his abstraction he knocked at his own front door for admittance. His wife answered the summons and in her surprise simply stood there without saying a word, waiting for an explanation of the tactics. Mr. Jones didn't give her long to wait, but sticking out his handshaker briskly said: "Jones is my name, what is yours?" He thought he was meeting a prospective purchaser of real estate. Kurus doesn't pretend to vouch for the truth of this story but simply gives it as it was told to him.

Ulysses Powell.
The subject of this sketch was born on the 17th day of September, 1836, at Mt. Swan, Mo. He professed religion at the age of 18 years under Rev. Church, of the First Christian church. Was married Nov. 15, 1863, to Miss Nancy M. Underwood, of St. Genevieve, Mo. He first resided at Bellville, Ill., coming to Texas in 1880. Five years later he removed to Clarendon and this city remained his home up to the time of his death on July 22, 1905. A wife and nine children survive him; one son at Dalhart, Texas, two sons and a daughter at Amarillo, one daughter at Jericho, one daughter and two sons at Clarendon. He also leaves two sisters and one brother in Missouri.

Bro. Powell was an earnest and consecrated Christian, and his entire life was an open book. His afflictions during the last few years of his life were many, but he bore them all with true Christian fortitude, and his life can be held up as an example of faithful and conscientious Christianity. The community at large has lost a good citizen, while his immediate family suffer the loss of a loving husband and father.

GOVERNMENT LAND.

On August 28, 1905, 2,425,000 Acres to be Thrown Open for Settlement in Utah.

Advices are received to the effect that the Uintah Indian Reservation in Utah will be thrown open by the Government for settlement on August 28, and that on account of same individual registrations for the land will commence August 1, at Grand-Junction, Colorado, and at Vernal, Price and Provo, Utah, such registrations to close August 12.

Drawings to determine the order in which selections of the land may be made, will be held at Provo, Utah, commencing Thursday, August 17th, and the applications of those participating and drawing numbers from one to fifty inclusive, must be presented at Vernal, Utah, August 28th, when they will be considered in their numerical order during the first day; the applications of holders of numbers 51 to 100 inclusive, to be presented on the second day, and so on until all numbers have been disposed of.

Between the time of registration and the drawing, applicants will be given certificates permitting them to examine the lands. All applications for entry must be made individually, and cannot be made by agents or representatives except in the cases of the honorably discharged soldiers and sailors, who may submit proofs of their qualifications through agents of their own selection. No person, however, will be permitted to act as agent for more than one soldier or sailor. The reservation is reached to advantage via a new transportation line from Mack, Colorado, known as the Uintah Railway, also by stage line from Price, Utah, a station on the line of the Denver & Rio Grande R. R.

On this account and in order to admit of interested persons participating in the very unusual opportunity thus presented, at nominal expense, the Ft. Worth & Denver City Ry., (The Denver Road) will sell round trip tickets from Texas points daily at rate of one fare plus \$2 for the round trip, with a return limit of 60 days from date of purchase and will also afford the privilege of stop-overs going and returning in order to facilitate the interests of those desiring to investigate and file claims.

Details regarding the best plans of procedure in order to secure parts of the property will be supplied free of cost by Mr. A. A. Glisson, G. P. A., of "The Denver Road" at Ft. Worth, Texas, upon application.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Stock News.

Wm. Harrell, an old time and popular cattleman of Northwest Texas and the Panhandle, is now located at Kansas City, where he is with the Lee Live-Stock Commission Co., as cattle buyer. Mr. Harrell is considered one of the best judges of Panhandle cattle in the United States, and with this knowledge he is peculiarly well fitted to buy the cattle of our stockmen, and cattle coming from this section will be treated fairer by him than most any one else. The Lee Company also has offices at Chicago and St. Jo. When shipping cattle to Kansas City remember Mr. Harrell, and make your consignments to the firm he represents, and you will be given a "square deal."—Childress Index.

The cattle that were shipped to the Kansas City and St. Joe market last week hit a pretty hard market. John Harris sold eighteen cows at \$2.20 per cwt and eighteen calves at \$5.35 per cwt. John Palmer sold on same market two cars of cows at \$2.25 and one car of steers at \$2.70. A. L. Bennett had three cars of cows and one car of calves, which were purchased here by Jos. Hopkins and which sold on St. Joe market at \$2.40 for cows and \$5.50 for calves.—Canadian Record.

The best sale of steer yearlings this season was made Thursday last by Bob Campbell, when he sold to Ben and Dick Kerrick his crop of 42 head at \$18.42 around. There were no cutbacks, the entire lot going. Messrs. Kerrick intend shipping them to Iowa to fatten. The highest heretofore paid this season, so far as we have heard, was \$16. Mr. Campbell had an extra nice lot and says his calves are much better than last year.—Claude News.

Russell Craft sold his half section just southwest of town last Saturday to W. P. Cagle. He retained the town block adjoining with his house. He also sold the quarter just south owned by him to Mrs. Patterson. Thus he came near dispossessing himself all in one day.—Hall County Herald.

Thos. Connell, one of the oldest and best known cattlemen of this country, sold his ranch and cattle to Meredith & Smith, of Dexter, Kansas, this week. Mr. Connell has a nice home in Canadian and will live there in the future. The terms were private but it is thought he got a good price for both. The purchasers are men who have means to improve the land and who have had the necessary experience. They are fine men and we are glad to welcome them among us.—Higgins News.

They Appeal to Our Sympathies.

Sick headache results from a disordered condition of the stomach and is quickly cured by Chamberlain's Stomach and Liver Tablets. For sale at Dr. Stocking's drug store.

Kinloch PURE RAW LINSEED OIL
MAKES THE BEST PAINT

Important Memorandum—The painter is the most important factor in the success of a job completed. Invest in a good painter with the best quality of paint. Kinloch's Pure Raw Linseed Oil will last five years. The same paint applied by a dealer (\$20.00 value, \$20.00 price) will last only one year. This the "per-year cost" of the good painter's job is \$12.00—the poor painter's \$20.00.

When we sell you paint, you buy the linseed oil separately. We know from our experience that paints without fresh linseed oil is not going to last very long. Of course, it may look well in the beginning—but in the end—what? We're here in business to stay and when we recommend Kinloch Paint we certainly must be positive of its staying qualities, too. We can give you some real information on painting. When you are ready to buy come and see us about.
