PARROT NEIGHBORHOOD IN STORM'S PATH

Rain, Hail and Wind Lay Waste to Crops and Buildings—Three Hundred Head of Sheep Killed and Injured.

Parrot, Texas, June 29—This vicinity was visited by a most disastrous storm yesterday, commencing about one o'clock in the afternoon. The storm, hail, wind and rain, came up very suddenly. The hail was like huge balls of ice, laying waste everything in its way. The wind seemed to gather force as it traveled, terminating into a regular tornado, wrecking buildings on the Barber-Hanlan section, tearing down the windmill tower, destroying everything on the Noble ranch but the house and breaking all the window lights in it. One hundred and fifty sheep were killed and as many more are injured so they will die, legs broken and badly wounded. Mr. Nobles buggy was taken out of the shed and carried some distance, dropped and smashed into splinters. Fence posts were broken off and everything completely demolished. All the window lights were broken at John Hanlan's, weather boards on the house are split and holes burrowed into the boards where the hail stones struck. One hundred and thirty chickens had their heads split open, but it missed the stock. Window lights were broken at Metcalf's, Neely's and Hackers. At the home of Geo. Shepard all the window lights on the north and east were broken, and even dishes on the table. One calf was killed and many of his cattle have large gashes on their hips where the hail struck. Frank Metcalf had one cow killed and another one with its leg broken. At the Stover place the hail stones measured 9 to 11 inches, and at Geo. Shepard's they were as large as baseballs. At the Terrell place everything was destroyed. Hail stones came through the roof at Shepard's, Metcalf's and Hanlan's. We are unable to get a definite report as so many phones are out of commission. On the day of the tornado and hail, the Neely's, Hanlan's, and Orie Kenfro families had gone to the creek fishing. The morning was perfect, not a cloud to be seen. Soon after they began to gather, the sound of roaring was heard. The picnickers had just started to fry their fish, but they soon gathered up their belongings and ran for their cars and made an effort to reach a nearby barn where they stayed until the hail was over. From their place of refuge they watched the cyclone doing its work about fifteen miles from where they were. They describe it as looking like great clouds of smoke, curling, twisting and boiling in every direction.

Thinks Irrigation the Thing
Wooden, Texas, 6-26-15.
The Hereford Brand,
Hereford, Texas.
Please find enclosed herewith a check for \$1 for which you will please continue to send me the news. I enjoy reading about the good crops on the plains where the people make it rain on their crops. It hasn't rained here in so long crops are burning down. If we don't get a rain in the next 15 minutes corn will be a complete failure, and this is considered a wet country, but no country is complete without irrigation.
Wishing the Brand great success,
I am,
Yours very truly,
J. D. Bowman.

GREAT CROWDS ATTEND THE BIG MEETING

Intense Interest, Powerful Sermons and Stirring Music; Conversations Daily

"It's the oldtime religion, and it's good enough for me," is the sentiment uppermost in the minds of Hereford people just now, and not only is this true of Hereford folks, but from all over the country people are flocking to hear again the old, old story, told so forcibly and so impressively, both in sermon and in song.
The power of the spirit is manifest in every service and many have already responded to its force. The service that has no conversions is exceptional, the converts ranging from boys and girls just verging into manhood and womanhood to men and women who, at best, can have comparatively few years to spend in his service.
One man seventy-five years of age, came thirty-five miles to attend the services and was converted.
Ministers and laymen from Amarillo, Canyon, Plainview, Dimmitt and other towns have added much to the meeting. The special services have resulted in great good.
The men's service on Sunday afternoon was without doubt the largest gathering of men ever seen in Hereford. Some of those men had not heard a sermon in years and are now regular attendants at all of the services.
The Mother's Day service was one of the best of the week. The sermon was a clear, concise exposition of the responsibilities and opportunities of mothers, and an earnest plea that they might more fully realize the exalted place to which God has called them. During this service, Dr. Norris read Kipling's "Mouner O' Mine" in such a way that it had a new meaning for its hearers.
The children's meeting on Wednesday afternoon was another especially good service.
On Thursday morning the old people of the community were honored in a special meeting. They were conveyed to and from the tabernacle in autos and occupied reserved seats. This meeting was indeed a benediction and an inspiration.
Thursday afternoon there was a special service for women. This was one of the most largely attended and helpful of the entire meeting.
All in all the meeting is GREAT and the good it will accomplish could scarcely be estimated.
The singing is, in itself a real evangel. The large chorus of perhaps two hundred voices is assisted by a large junior choir.
Brother Scholfield is a wonderful leader, but the power and sweetness of his rich, clear voice is most effective in his solos. These alone are worth going a long distance to hear.
Rev. Norris is impressing everyone with his earnestness and power, and his excellent work is bringing wonderful results.
Good Rain Here
On last Friday night this section was visited by a much needed rain about seven tenths of an inch falling. Grain crops were suffering in places before the shower. Some wheat was damaged but generally the wheat is good, oats are damaged more than wheat.
Row crops are looking fine and with another rain or two at the right time this country will have abundance of feed as well as lots of grain. People say the general prospect never was better here than now.
Grass is plentiful stock is doing well and bringing good money; so everyone seems happy.

COMMERCIAL CLUB ORGANIZED

J. Frank Potts is Elected President of Body. Meeting Full of Enthusiasm

As announced beforehand a number of the business men of Hereford met last Friday evening at the county judge's room in the court house for the purpose of forming an organization of the business men of Hereford and Deaf Smith county.
The meeting was characterized by great enthusiasm and all present seemed anxious to effect an organization for the purpose of forwarding the commercial interests of town and county.
At this meeting a temporary organization was effected, and committees on membership and board of directors were appointed. After a number of interesting talks the meeting adjourned to meet again on last Tuesday evening at 2 o'clock. About twenty members were present at this meeting.
After disposing of the unfinished business, the committees made their respective reports.
The committee on directors reported the selection of E. B. Posey, Jno. L. Wilson, D. C. Laird, Jas. A. Hughes, and Elmer Dameron and recommended that J. Frank Potts be made a member of the board and the president. The report of the committee was unanimously adopted.
The committee on membership reported a good measure of success, having 130 names up to that time.
The election of J. Frank Potts as president, John W. Sherman as recording and financial secretary and Henry Wilkinson as corresponding secretary was ratified unanimously.
President Potts made several helpful suggestions as to what might be accomplished by the organization.
An interesting talk was made by Dr. H. D. Rucker. W. L. Boys addressed the club in the interests of having a farmers' institute organized. He stated that a farmer's short course is to be held at Austin the first of August under the direction of the U. S. Department of agriculture. The department proposes to furnish free transportation to delegates from counties that have a farmers institute, allowing one delegate for every twenty-five members. Mr. Boys suggested that the club members also be organized into a farmers institute and that the officers of the club also be officers of the institute. A motion was made and carried to that effect.
The club will entitle the club here to send six delegates whose transportation will be furnished.
The president of the club stated that one of the first things requiring the attention of the club was proper entertainment of the members of the bankers convention that will meet here July 21st and 22nd, and steps will be taken to see that the bankers are properly entertained.
The meeting then adjourned subject to the call of the president.
Following is a list of the members:
D F Ashbrook, J F Potts, Eli Dunlap, W M Knight, H C Myrick, Judge Russell, J W English, James Moses, L Baskin, L S Lahm, Roy Stocking, J B Elliston, C C Rockwell, A A Ott, W E Betts, W E Dameron, Jno L Wilson, Geo H Guinn, Allen Powelson, W E Dunlap, J A Fox, Chas Purcell, J H Bowers, C A Skelton, S J Dodson, R W Baird, Chas Julian, J H Cardwell, A J Lipscomb, Earl Wilson, F H Oberthier, W S Higgins, D L McDonald, A C Elliott, J W McQueen, C S Garrison, Carl Cockrell, Geo W Cloyd, J A Hughes, W L Boys, J P Slaton, Henry Wilkinson, W E Neal, W A Miller, W H Smith, H D Rucker, Joe Landrum, A O Thompson, J Tiefel, Jno W Sherman, A L Gibson, E B Posey, Joe B Collins, E W Harrison, C C

HEARD AT THE MEETING

The world is becoming more moral, less Godly; more cultured, less Christly.
For every auto that helps in spreading the gospel, there are thousands carrying people into hell.
Parental government has absolutely fallen through.
True motherhood and modesty go together.
I'd rather have the prayers of Christian mothers than the support of the German army.
As long as Christian motherhood is respected, the country is safe.
The one paragraph in the Bible that every infidel believes is, "It is appointed unto man once to die."
Faith has the consciousness and realization of its answer now.
Only twice did Jesus express surprise, once when He found no faith among His own people, and once when He found it among aliens.
The thing that places Jesus in a class by Himself is His taking little children in His arms and blessing them in an age that placed a premium upon their murder.
It's no sin for a man to own money, but it is a sin for a man to be a man.
The European war proves us cultured barbarians—the ancients spared women and children.
In the eyes of the world a successful man is a man who owns three or four counties.
The most precious word ever heard is that one that connects a lost soul with God—redemption.
There are just two animals that use tobacco—man and the tobacco worm.
Farmers Will Meet
The State Farmers Short Course will be held at College Station for one week beginning July 26. The railroads have made a rate of one cent per mile each way for this meeting.
Farm Demonstrator W. L. Boys, for this county, says he expects a great meeting and believes this would be well worth the time of any one interested in farming to go.
This is a good opportunity for high school boys interested in the work to go.

DIMMITT YOUNG PEOPLE WED

McLean-Dixon Nuptials Solemnized at Home of Bride's Parents at Dimmitt

One of the prettiest weddings that has ever been celebrated in Dimmitt and one in which an unusually wide circle of friends was interested, was solemnized on Tuesday, June 22nd, at the residence of Mr. and Mrs. C. E. McLean when their daughter, Mary, became the bride of Mr. C. W. Dixon.
Just as the beautiful June day was fading into evening, the guests arrived and were received on the large veranda from one corner of which, in a dainty pink and white bower, punch was served by little Miss Alice McLean, sister of the bride.
They were ushered into the parlor, beautiful and fragrant with pink and white sweet peas and geraniums where, promptly at 5 o'clock as the final strains of "A Wedding Trip," was played by the Victrola, the bridal couple entered unattended and were met by Rev. Triplett, pastor of the Baptist church, who spoke the solemn words which united the lives of two of Dimmitt's best young people.
After the ceremony and congratulations, Rev. Triplett led the way into the dining room. Here the same color scheme was carried out in great bouquets of pink and white sweet peas which were massed together in elaborate profusion.
The bride's cake was cut and served with brick ice cream, by Misses Cecil Gilliland of Hereford, and Helen McLean, sister of the bride.
The bride wore a beautiful going away gown of gray poplin with accessories to match, and at her belt was loosely fastened a bouquet of her chosen flower, the sweet pea.
Attended by several of their friends they motored over to Hereford where the next day they took the train for a brief honeymoon visit to Roswell, New Mexico, after which they will be at home in Dimmitt.
This young couple are both well known throughout the county and both have the highest esteem of many friends who extend congratulations.
News of the Lodges

BANKERS COMING HERE

Convention Here This Month Promises To Be Big Event

The Panhandle Bankers Convention is to meet here July 21 and 22. It is expected that there will be over one hundred Bankers from out of the city here. This is an event that Hereford should make the most of. Hereford and Deaf Smith County should not only get ready to entertain them royally but also to show them what we have here. The city should be cleaned "spink and span" Then all our irrigation wells should be running on the evening that is planned to take them a tour of the country.
On Wednesday the first day of the session it is planned to take the members for an auto ride over the irrigated section returning to the river near town where will be held a fish fry and barbecue. A big beef is being set apart for the occasion, the fish have not been caught yet.
Let's do our best.

HAVING FINE TRIP
 Mrs. H. F. Mitchell Writes of Their
 Trip to Fort Collins, Colorado

To Mrs. Guthrie:
 I made you a promise of a letter
 descriptive of the trip from Here-
 ford to Fort Collins.

We started the 16th day of June,
 made the Canadian bridge by noon
 (stopping in Amarillo 2 1/2 hours, ate
 dinner.) A party was eating din-
 ner at this place from Amarillo; they
 were going to Colorado Springs.

We made Dalhart early that even-
 ing and spent a most pleasant even-
 ing and night with our friends, Mr.
 and Mrs. Floyd Cooper.

Second day June 17th. We left
 Dalhart about 7:30. The day was
 ideal; nothing very interesting in
 Mexico. Those people sure hold
 you up on gasoline—20 cents. Other
 places we paid 16 and 15c. We
 camped the second night at the foot
 of the mountains, the view of Raton
 was fine from this place. The next
 morning we started over the moun-
 tains, rising 2,700 feet in 5 miles.
 This was a fine ride and the scenery
 was great. This is wending a steep
 but not perilous journey, however.
 Raton Pass over the mountains, is a
 sight no pen can paint. Then the
 Raton Canyon. We passed small
 places and stations, but I will just
 give the larger ones. Trinidad is a
 bustling, wet, picturesque town.
 The next place of interest was Wal-
 senburg. We overtook a party of
 people we knew and they wondered
 what we were doing away down
 there. In the party were Mr. and
 Mrs. E. E. Carhart and Mr. and
 Mrs. Click and baby and daughter
 Miss Pearl Carhart. The party
 joined us at dinner, together with
 Mrs. B. D. Garmon, daughter of
 Mrs. Carhart, at the Huesauford.
 We had a nice visit with them.

The next place of interest was
 Pueblo; good roads and a very pret-
 ty place. This country through
 here is sparsely settled, not much
 farming, but mining camps and
 towns all along at the foot of the
 mountains. We camped that night
 nine miles from Colorado Springs.
 This place is beautiful, we spent
 some time here driving through
 parks and boulevards and beautiful
 streets. This is the prettiest
 place to my notion. It is very in-
 teresting between the Springs and
 Denver. We spent some time in
 Denver. This place has so many
 automobiles and lots of joy drivers
 —cut corners any old way. It was
 amusing to watch them.

From Denver to Fort Collins we
 saw many pretty irrigated farms
 and lots of fruit (we are enjoying
 strawberries now) and pretty cattle.
 Our friends, Mr. and Mrs. Morgan
 kindly secured for us a house large
 enough for all and we are at home
 at 121 W. Olive street.

We enjoyed Fort Collins yester-
 day going to the Methodist church
 and hearing good music and pipe
 organ and hearing a fine sermon by
 the minister.

I think many would make the trip
 if they knew how good it was.

what a lovely view it was by auto.
 We did not have a puncture and our
 oil and gasoline bill was \$5.40.

Hoping you will enjoy this, from
 your friend, Mrs. H. F. Mitchell.

P. S. Speedometer registered
 635 miles. Please excuse this as it
 was written under difficulties, ev-
 erybody talking.

Hornless Hereford Breeder Here
 Mr. William Winn of Canyon was
 here last Saturday. Mr. Winn is
 one of the pioneer breeders of Horn-
 less Hereford cattle and now has
 one of the largest herds of the kind
 in the United States. He has some-
 thing like a hundred and fifty head.

He started in fifteen or sixteen
 years ago by crossing a Hereford
 bull on the native muley cow that
 was occasionally found and by selec-
 tion and breeding up got a herd that
 are as true to the characteristics as
 the long horns, and without horns.

He says however occasionally an
 animal will send out little horns
 showing that the original tendency
 was strong.

You Should Use INTERLOCKING TILE for the Following Reasons:

- ECONOMY** Low First Cost—less than brick and concrete. Little more than good frame.
- NON-CONDUCTIVITY** Warmer in Winter. Cooler in Summer.
- DAMP PROOF** The tile formation prevents passage of moisture.
- LIGHT WEIGHT** No Continuous Mortar Joints through the wall. The walls weigh only 65 lbs. per cubic foot. Brick walls weigh 120 lbs. per cubic foot. Concrete walls weigh 160 lbs. per cubic foot. Less strain on foundation and lower stories.
- INTERLOCKING** Rigidity, to withstand lateral thrust of floor and roof loads, wind pressure, etc. Every Unit a Header, insuring strongest possible bond throughout the wall.
- STRENGTH** Passed by United States Bureau of Standards, Washington, D. C. Passed by United States Army, Watertown Arsenal, Massachusetts. Accepted as equal of brick or concrete, by leading Engineers and Architects everywhere.

Where the spirit of the Lord is, there is liberty.—11 Cor. 3:17.

An exchange, in describing a near railway accident makes the following interesting statement, "A cow on the track skipped from lip to lip." Some cow.

THE AMERICAN FLAG

When a man of thoughtful mind sees a nation's flag, he sees not the flag only, but the nation itself; and whatever may be the symbols, he reads chiefly in the flag, the government, the principles, the truth, the history, which belong to the nation that sets it forth.

This Nation has a banner, and wherever it streamed abroad, men saw daybreak bursting in their eyes for the American flag has been the symbol of liberty, and men rejoiced in it. Not another flag on the globe had such an errand, or went forth upon the seas carrying everywhere the world around, such hope for the captive and such glorious tidings. The stars upon it were to pining nations like the morning stars of God, and the stripes upon it were like beams of morning light.

As at early dawn the stars stand first, and then it grows light, and then, as the sun advances, that light breaks into banks and streaming bands of color, the glowing red and intense white striving together and ribbing the horizon with bars effulgent, so on the American flag, stars and beams of many-colored light shine out together. And wherever the flag comes, and men behold it, they see, in its sacred emblazonry, no rampant lion and fierce eagle, but only light and every fold indicative of glory, liberty.

Let us then twine each thread of this glorious tissue of our country's flag about our heartstrings; and looking upon our homes and catching the spirit that breathes upon us from the battlefields of our fathers, let us resolve, come weal or woe, we will, in life and in death, now and forever, stand by the stars and stripes.

They have been unfurled from the snows of Canada to the plains of New Orleans; in the halls of Montezuma and amid the solitude of every sea; and everywhere, as the luminous symbol of resistless and beneficent power, they have led the brave to victory and to glory. They have floated over our cradles; let it be our prayer and our struggle that they shall float over our graves.—Henry Ward Beecher.

WHY NOT HERE

Here in the Panhandle under dry farming to say nothing of the irrigable sections, such as we have around Hereford, a man engaged

Harvest Time

Is here and the Progressive, Up-to-date Farmer feels the necessity of co-operating with A GOOD BANK.

We earnestly solicit the accounts of farmers at this busy time and the COURTESIES of our institution are especially extended to them at ALL SEASONS OF THE YEAR.

The First National Bank

E. B. POSEY, Cashier
 RAINFALL since July 1—9.3 inches.

in livestock farming can keep more stock on a section of this land than he can keep on the best quarter section in Iowa or Illinois. This land in the corn belt states will cost from 16 to 30 thousand dollars for a quarter section. A good section without a foot of waste land can be bought in the non-irrigable sections for from 6 to 8 thousand dollars or about one fourth what the quarter costs in Iowa, Illinois or Missouri.

Here the winters are much shorter and less severe, the climate is healthy and the water pure and in abundance. Conservatively speaking here's what a man can do with a good silo and a hundred acres in feed crop and fifty in grain. He can keep from 75 to 100 head of cattle besides his hogs and poultry and finish his stock at home and have a steady income of from fifteen hundred to two thousand dollars a year above the expense of running the farm providing the family furnishes the labor which would be much less here than in the corn belt. He can't do this on horseback or with an automobile but if he will buckle down he can do it as many farmers here are demonstrating every year.

Why then are people passing these fertile plains by. There are several reasons chief among which is the fact that people in other states do not know what we have or what we can do; in fact we do not realize yet ourselves.

The man raised here too often has his eyes focused on big things and the small things are underestimated. We set to much store by the man with wide acres and big herds and sight the new comer to them. One of two things happens to him. He either becomes appalled at the vast capital involved and goes away or he tries the same plan and fails.

What we want is the man on a section with cattle and silo or in the irrigable sections the man with 80 acres alfalfa, hogs and cows. Facts showing just what can be done and is being done should be gathered and published in the Eastern States that are sending thousands past us every year.

Not everyone who comes here can succeed, that is not true anywhere, but men of intelligence, thrift and honesty with capital ranging from five to ten thousand dollars can succeed and make money. Those with less capital must attempt less but they too can succeed.

BASKIN ENGINE HOUSE BURNS

Fire Caused by Leaking Pipe Causing Explosion

On last Thursday night the engine house and tower at the Hester Baskin farm North East of town was burned down.

The fire was started by an explosion caused by a leaking pipe of gasoline. Mr. J. B. Hester in using a pair of pliers to twist the little rod that throws the flame on the hot ball cracked the lead pipe and the gasoline leaked and exploded.

The explosion knocked Earl Gallagher down and skinned his face but he was not seriously injured. The house and derrick were burned and the fixtures on the engine damaged. It will take several days to get the thing rigged up.

Mr. Baskin estimates the loss at six or seven hundred dollars with no insurance. This makes three well buildings that have been burned here. S. B. Edwards' burned last year and some time before that, E. Renfro's.

Announcement

We have sold out lock, stock and barrel to E. W. Harrison. He takes over our wagon yard, coal, grain, hay, salt and ice business. In our twelve years in business we have received numberless favors for which we sincerely thank our many friends and assure you that the ties of friendship are highly prized and we wish to have a continuance of these feelings. We expect to remain in Hereford and it will ever be our pleasure to be of use to the entire community. In the meantime, to those who owe us we we say bring on the dough. Fallwell & Son.

HAIL KILLS MANY SHEEP

Wheat and Other Crops Also Injured in Sections of Panhandle

On last Monday afternoon many sections of the Panhandle were visited by a severe hail storm. Only a small section of this county was hit by the severe storm although there was a general hail storm. East of town several fields of wheat were injured. Mr. M. J. White lost about 60 acres of wheat that was so badly damaged as not to be worth cutting. However, he carried insurance that will cover the greater part of the loss. Several other fields were also injured. East of Dimmitt in Castro county the storm was quite severe. A. G. Noble had about 100 sheep killed and several crippled and two of his windmills were blown down. The wheat and gardens in this section were badly injured. In other parts of the Panhandle the storm was severe. At Tahoka, Texas, the hail was accompanied by a heavy wind that unroofed several houses. One girl 16 years old was killed by the hail while trying to escape from a house that had been unroofed.

In the section of Dawn the hail stones were nearly as large as hens eggs. Around Hereford they were heavy enough to sound like hen's eggs on the roof.

Two PURE Cinnamons— One strong, the other weak— Why?

Cinnamon is the bark of a tree. It gets its flavor from a volatile oil in the bark—the more of this oil the better and stronger the flavor.

The amount of oil varies according to the age of the tree, the soil, climate and the cultivation of the tree itself. Later, the handling of the bark must be such as to preserve the oil from evaporation, and finally the grinding must be so done that loss of oil will not occur during that process.

Thus you see that from the very start it is much more than purity that must be preserved for you—it is flavor and strength which can be lacking even in perfectly pure Cinnamon.

White Swan Cinnamon is made of high-grade, relatively high-priced and most carefully selected bark from young trees. In every step of handling and manufacture the greatest care is devoted to keeping the strength and flavor (the oil) intact. It is packed with the same care. We recommend it and guarantee its flavoring strength to be at least four times that of ordinary "pure cinnamon."

Ask your grocer—he can tell you what White Swan means to quality.

Austin, Texas, June 25 1915.
To the Editor:
Permit me, through your columns, to advise those of your readers who have not paid their last year's interest due on their school land that it will be necessary for them to pay by about the middle of August if they desire to prevent a forfeiture of their land. This is necessary on account of the importance of getting the money into the State's Treasury before the close of the present school year on August 31st in order to help prevent a deficit in the school fund apportionment. No one should wait for a personal notice before sending in his payment.

Yours truly,

The "Fourth of July" bids fair to be a "Sane Fourth in this community at least no preparations for a celebration has been talked of and yet Independence day carries us backward to the time when America became the scene of bloody conflict. The "tiger strife" with the red man was scarcely passed when the gauge of battle was thrown down before the British Army in the streets of Boston. Then followed the disastrous riot eleven days afterward and the destruction of tea in Boston harbor and then in succession the battles of Lexington and Bunkers Hill. Over the grave of the first victim was opened a mighty chapter in the worlds history. One cannot read the graphic descriptions on these events in history without the stirring of his patriotic spirit and it may be commended as a wholesome exercise to read the opening chapters as a preparation for the proper observance of the Fourth of July.
Quite often some one will say to you, "why I did so and so, and you never mentioned me in your items." In answer to all and a request for all we will say, we don't intentionally leave out any, and if you have bought or sold a ranch, if you have moved into or out of the community, if you have built a new house, if your friend from a distance is paying you a visit, or if you are going to visit him, if you have gotten married, or gotten rich, or died, if you know anything of general interest that has happened, or anything that is liable to happen most any minute, with or without previous warning tell us. We want the news.

STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Fomeroyton, Ky.—In interesting advices from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Thedford's Black-Draught, and quit taking other medicines. I decided to take his advice, although I did not have any confidence in it. I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it. I am so thankful for what Black-Draught has done for me." Thedford's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest.
