## SCHOOLS OPEN AUSPICIOUSLY

**Good Programs Given at Both Buildings—Enrollment of 489.**

With their recurring annual blare foretelling books, lessons, play and whatever else it takes to make the full round of school life, the school bells called Hereford's younger population to the Central and High School buildings Monday morning for the session of 1917-18. It was an ideal day with a brisk norther blowing and a strong hint of fall in the air; and for the most part each boy and girl seemed to enter heartily into the spirit of the occasion, glad that vacation was over and that school days were again at hand.

Especially good programs were rendered at both buildings, with a goodly number of patrons and visitors in attendance at the exercises. Following the opening exercises, the different grades and classes were enrolled and classified after which school was dismissed for the remainder of the day.

Wednesday morning Supt. Fertch announced the enrollment at 291 in the grammar school, and 198 in the High School, making a total of 489 pupils. The Superintendent also stated that the schools had opened under very favorable conditions and that everything augured well for a successful school year.

The following exercises were held Monday. At the High School: Song, "America"—by school. Reading—Lola Bradley. Violin Duet—Edna Elliott, Jack Mounts.

Address—Rev. G. S. Wyatt, Plano Solo—Elizabeth Black. Address—Rev. J. E. McClurkin. At Central Building: Song, "America". Reading—Gwendolyn Price. Reading—Eloise Pittman. Plano Solo—Miss Mabel Betts. Reading—Miss McClurkin. Talks by Rev. W. M. Baker and other visitors.

**Half Million Circulars on "How to Knit" Sent Out by Red Cross**

Half a million illustrated knitting circulars were sent out today from National headquarters to Red Cross Chapters throughout the country. The circulars contain full information on how to knit the eight standardized articles, sleeveless sweaters, mufflers, helmets, socks, wristlets, wash cloths, bed socks and bottle covers, authorized by the Women's Bureau of the Red Cross.

Recent cables from Major Grayson M. P. Murphy, Red Cross commissioner in France, again emphasizes the ne-

cessity for warm knitted articles for the men who face the hardships of a winter in the trenches. Army officers request that the knitted articles be forwarded as soon as possible. The severity of winter with a coal shortage to face and a rising tuberculosis rate to combat demand that several million garments reach France before Thanksgiving.

The handbooks, issued by the Red Cross are primarily for hand knitters. Knitting machines may be used provided the articles can be as well made and made of the same yarn.

The circular is the first of a series to be issued by the Women's Bureau, of which Miss Florence Marshall is Director. Others are to be issued immediately on the making of comfort kits, the manufacture of hospital garments, surgical dressings and relief kits for the refugee children of France and Belgium.

All of them will be available at the nearest Red Cross Chapter. Sock knitters are warned that all knots, ridges or lumps should be carefully avoided as they are apt to blister feet.

Directions for the making of sleeveless sweaters, of which Major Murphy has ordered a million are as follows: 24-2 hanks of yarn (5-8 pound); 1 pair Red Cross needles number three. Cast on 80 stitches. Knit 2, purl 2 stitches for four inches. Knit plain until sweater measures 25 inches. Knit 28 stitches, bind off 24 stitches for neck, loose. Knit 28 stitches. Knit 7 ridges on each shoulder, cast on 24 stitches. Knit plain for 21 inches. Purl 2, knit 2 stitches for 4 inches. Sew up sides leaving 9 inches for armholes, 2 rows single crochet around neck and 1 row single crochet around armholes.

## PANHANDLE AHEAD OF CALIFORNIA

**From Standpoint of Stock Raising Agriculture and Money Making.**

Editor Hereford Brand.

Dear Sir: In justice to Hereford and the Hereford country, I wish to add a few lines to your comment in last week's Brand on my return from California and my comparison on the two great states, for they are truly both great states, but vastly different in many respects.

Looking at it as the average man does as an investment and for a home, I think there is no comparison. I have seen all parts of Texas in my 57 years of life, have owned thousands of acres of her rich lands, have made eleven trips to and all over California, have seen twenty-three other states and territories, and in all my rounds I have yet to find that country that favorably compares in many respects with our one great Texas Panhandle. California is a nice place to live, and they certainly do boast their climate and it is good, but for a large part of the year it does not beat our own Texas Panhandle Climate and California or any other country that I can find offers no rich level farm land at \$15 to \$25 per acre as we are doing, that will produce \$25 to \$50 worth of kafir, maize, Periferita or Hicara as our lands are doing. In fact I know of no land

Elmer Dameron was host, and those composing the party were Mrs. Henry Taddy, chaperone, Misses Louise Oberthier, Frances Dameron, Eliza Mounts, Harriette Shirley, and Messrs. F. U. McCutchen, Earl Gough and Elmer Dameron.

### I BELIEVE IN THE POWER OF NEWS PAPER ADVERTISING

The press, I have found, is a prime factor in commercial activity of every kind. It is invaluable in broadening a market and in promoting understanding between industrial institutions and the public.

The press in a sense belongs to the public and enjoys its confidence and respect. That is fitting and proper, for I know of no greater and more unselfish force that is working for the interest of the public.

The unit of our national life is the community. On the prosperity of the community depends the prosperity of the nation. Fortunately, is that community which has a good, live newspaper, for its editorial and advertising activities are second to no force in building up and developing its territory.

Our civilization is based on specialization, and specialization is based on the finding of a market for the product of the specialist. The newspaper finds this market and develops it, thereby developing the home community, making it bigger and more prosperous and a more satisfying place in which to live.

Before a newspaper can make itself a power it has to absorb quantities of money and the best and untiring efforts of its many directors. Its founders had to show their faith in the community, because a newspaper, more than any other commercial institution, identifies itself with its locality and lives and grows only through that identification. It is time that we recognized what the founding and developing of the press required on the part of the newspaper pioneers and those now in charge.

The press has made itself a great economic factor in the commercial activity of this age. It has demonstrated its worth to a point where I can say without hesitancy that I believe in the power of newspaper advertising to create, intensify and broaden business.

To gain a full realization of the influence of newspaper advertising one has only to imagine the effect upon the business of this country of a sudden stoppage of all means of public announcements.

—J. OGDEN ARMOUR.

any where that will produce the same number of bushels of this grain that our land does, do you? regardless of prices.

California offers no irrigated land at \$50 to \$150 per acre as we are doing that will, and is producing four or five cuttings of the finest alfalfa that goes on the market and is bringing \$25 to \$50 per cutting.

As I stated in a former letter, from California to the Brand a little stock farm or cow ranch in Texas beats a lemon or orange grove in California, so a word to the wise is sufficient. If you have this little ranch here, better keep it, later you can tour California, but be sure to come back home to root. If you will take my word for it this country is hard to beat.

A. H. Elliston.

The Dameron ranch, twenty-one miles southeast of town, was the objective point Thursday evening for a jolly party of Herefordites. The party motored out from town in the late afternoon, and as the last rays of the sun were dying in the west, pitched camp on the prairie and cooked a delicious supper over the camp fire. Mr.

A party of the past week which was thoroughly enjoyed was that given on Friday night by Miss Frances and Elmer Dameron, honoring Miss Laura Oliver. The setting for the merry company was the spacious Dameron lawn which had been well lighted for the occasion, and "forty-two" in the accompaniment of the victrola was the order of the evening. Delicious refreshments of ice cream and cake were served.

### Arnold Buys More Land

B. S. Arnold of Hereford, has purchased from A. H. Turner, ten sections of the Brittain ranch, eighteen miles southeast of Amarillo, being property that Mr. Turner bought just a few months ago. The ranch joins the eight sections, bought by Mr. Arnold some time ago from W. A. Newlin of this city, and all told makes one of the best ranches in this section, according to real estate men. —Randall County News.

## PANHANDLE FAIR BEST EVER

**Dates Oct. 8-13, at Amarillo —Many Entries and Premiums—75,000 Expected.**

That the Panhandle State Fair, to be held at Amarillo, October 8th to 13th, will be much better and bigger than ever before, is now an established fact. There will be upwards of \$18,000 in premiums and purses to be contended for. There is \$10,000 in the cattle division alone, \$6,500 of which is offered in the Hereford classes. Already enough entries have been announced to make the coming exhibition in the class with the Chicago Fat show and the Royal at Kansas City, and it will be better than the Denver and Fort Worth shows. If the people of the Southwest can be brought to realize this fact as many as 75,000 people should pass through the gates of the fair to see this feature alone. But this is only one of the main attractions. One of the best agricultural displays ever shown is already promised all over the Panhandle section. Never in the history of the fair has the amusement and received so much attention as is being given it this year. Secretary J. E. Van Natta informs us that there are more than fifty horses already entered in the harness races and he expects to see the number increased to eighty before the entries close. There is \$4,000 in purses hung up for the races. Then Mr. Van Natta has secured several clean amusement features which will practically make "something doing" every minute. Among these latter, Mile, La Bella and Dire Devil Hurley, appear twice daily in their great automobile clock swings, which has to be seen to be appreciated; Bell and Eva, do acrobatic and clown stunts that are right up-to-now; Grace Ayer, said to be the premier roller skater of the world puts on two exhibitions every day. These are all free entertainments for those who attend the fair. Other free attractions are being sought.

If the people of the Southwest will take hold of this great fair as they should we will soon have as great an exhibition right here at home as the State Fair at Dallas. Get busy, tell your friends about it, and make arrangements to be there with the whole family!

### Ladies of Eastern Star Entertain

The ladies of the Eastern Star, of Hereford, entertained a large number of friend and invited guests with a brilliant social at the Masonic Hall, Monday night for the purpose of raising funds on their subscription to the Red Cross.

When the guests had all arrived Mr. A. O. Thompson and Mrs. S. B. Edwards, as presiding officers, took charge

of the ceremonies for the evening. At the conclusion of a most interesting program the "arcophone degree" was put on in a manner most pleasing to the audience. There were several candidates for this degree, which was administered by Messrs. Elmer Dameron, Forrest Walker and Arch Collins. Dr. Paris delivered an address as "The Spirit of the Red Cross." In his delightful and entertaining way Dr. Paris told of the splendid charitable purposes for which this organization stood and of the good it had and was accomplishing. Both before and following the program Misses Mabel Betts and Minnie Dea Coffin entertained the audience with piano selections. The free-will offering taken amounted to about \$40.

The following program was rendered: Reading.....Bruce Bradley Violin Duet.....Jack Mounts and Edna Elliott. Address.....Dr. G. A. Paris Vocal Solo.....Miss Clyde Wilson Vocal Solo.....Earl Gough Reading.....Miss Mattie McClurkin Music by Misses Betts and Coffin.

## DALLAS GOES DRY BY NEARLY 1,500

**More Than 200 Saloons and Several Wholesale Liquor Houses Will Be Affected.**

DALLAS, Texas, Sept. 10.—Dallas, the most populous county in Texas, voted "dry" in a local option election today. With but six precincts of ninety-six missing, the prohibitionists had a lead of approximately 1,500.

About 10,000 votes were polled out of a registration of 25,000.

**Dallas Votes "Wet" by 700.** The county outside the city of Dallas, which has been "dry" for twenty years was the deciding factor in the election, the city having voted "wet" by about 700 majority. The last previous local option election in that county was held in 1903. More than 200 saloons and several of the largest wholesale liquor houses in the southwest will be affected by today's election.

Prohibition leaders said tonight Dallas was the largest city in the country to vote out liquor by local option. The population of the city was recently estimated at 160,000.

County officials said tonight the saloons in Dallas will close by Oct. 20 at the latest. Under the law the county commissioners are required to meet within 10 days after the elections, canvass the returns and enter necessary orders. These orders become in effect 30 days after their issuance.

Section I. It is hereby made the duty of all persons desiring to park motor vehicles on any street in the city of Hereford paved with asphalt, to park the same in the center of the street and approximately at right angles thereto. The parking of motor vehicles at any other place on such streets is hereby prohibited. The parking of motor vehicles in street intersections and in the intersections of streets and alleys is hereby prohibited.

Section II. If any person shall park a motor vehicle on any street in the City of Hereford paved with asphalt, unless such vehicle is parked in the center of such street and approximately at right angles thereto, he shall be deemed guilty of a misdemeanor.

Section III. Any person operating or in charge of any motor vehicle who shall permit the same to stand for more than fifteen minutes on any street in the City of Hereford paved with asphalt, unless such vehicle is parked, or is permitted to stand in the center of such street approximately at right angles thereto, shall be guilty of a misdemeanor. Provided that a reasonable time required in loading and unloading any motor vehicle shall not be deemed a violation of this section.

Section IV. It shall be unlawful for any person to hitch any mule, horse, or other draft animal on any street of the city of Hereford paved with asphalt, or for the owner or person in charge of such animal to cause or to permit it to stand on any such street. Provided that a reasonable time required in loading and unloading a wagon, dray, or other vehicle, shall not be deemed a violation of this section.

Section V. Any person violating any provision of this ordinance shall be deemed guilty of a misdemeanor and on conviction thereof shall be fined in any sum not to exceed \$100.00 for the first offense and for any subsequent offense may be fined in any sum not less than \$10 nor more than \$200.00.

Chicago's Hay Fever Victims Protected  
Everybody sympathizes with the hay fever sufferer. But while sympathy is desirable and is, no doubt, fully appreciated by the sneezing, coughing, sputtering victims of this malady, it does not operate either as a prophylactic or as a cure.

It has been pretty well established by the investigations of medical authorities that the pollen of various varieties of weeds is responsible for the existence of hay fever. Not very long ago the bulletin of the United States Public Health Service discussed at length the varieties of weeds and grasses that are known to cause hay fever, presenting also illustrations of the same. In discussing the methods of prevention it was recommended that

towns and cities and communities should organize and carry on a war of extinction on the noxious weeds; especially was it recommended that towns and cities should enact legislation declaring vacant lots growing weeds of this character nuisances, and abolish them under nuisance laws.

In March last the City Council of Chicago passed an ordinance along these lines, declaring that noxious weeds, such as rag weed, Jimson, burdock, thistles, etc., growing rank on vacant lots, are a nuisance. The ordinance then makes it unlawful for any person who owns or controls a vacant lot to permit such growth of weeds or grass thereon.

The ordinance also provides that upon investigations and notice from the Commissioner of Health each owner, agent or lessee, shall within five days cut or mow the weeds from any lot so designated in the notice. The penalty for failure to comply with such notice is a fine of not less than \$5 nor more than \$100 for each offense, for each day that such growth of weeds is permitted to remain. Another provision of the ordinance empowers the Commissioner to have the weeds cut and the expense thereof made chargeable to the person who controls the lot, and may be collected by suit or otherwise.

In accordance with the provisions of the ordinance, Chicago's Commissioner of Health has asked the department of public works and the police department to aid him in getting a list of the lots throughout the city coming under the provisions of the ordinance, to the end that notices may be served ordering the owners of those who control them to abate the nuisances.

Inasmuch as it is pretty well understood that the abolition of the pollen-bearing weeds means freedom from the distressing malady known as hay fever, the Commissioner hopes by a vigorous campaign of extermination of this class of vegetation to make Chicago a pretty safe place for hay fever sufferers to live in for the remainder of the season; also to relieve them of the necessity of having to go to far-away places for relief.

STORE WINTER SUPPLIES  
Fruits and Vegetables Required During the Nongrowing Season for the Family

A family of five, including two adults and three children under 12 years of age, under ordinary living conditions, should have stored for each month of the winter season the following food supplies: 1 bushel of Irish potatoes; 1-2 bushel of other root vegetables such as carrots, turnips, and parsnips; 25 quart cans of other vegetables; and 20 quarts of canned fruit and preserves. These figures are based on estimates by the United States Department of Agriculture, which adds that most of this should come from the perishable products of the many home gardens of this year.

With these figures as a basis, it is thought that almost any family may calculate its requirements, taking into consideration the length of the winter season in any given locality. Thus, in the South, where food crops may be grown in the fall, the winter allowance may be less than for the far North, where one must count on supplies for several months longer.

There is still time, says the department, for a final drive in canning, preserving, and drying. In using dried vegetables, it may be assumed that a given quantity of dried vegetables is equal to four times its bulk of canned vegetables; that is, one-fourth of a quart of dry string beans when soaked over night is approximately equal to one quart canned.

WHISKEY MANUFACTURE PUT TO END  
Stocks of Distilled Liquors in United States Placed at 230,000,000 Gallons

Washington, Sept. 3.—Tonight at 11 o'clock whiskey manufacture ceased in the United States under provision of the food control law, and the millions of bushels of grain heretofore

used in making that form of drink will be diverted to food.

Importation of whiskey also stopped tonight.

Just how much grain will be added to the food supplies as a result is not determinable, but experts say that about 100,000,000 bushels are used by the distilleries each year, of which about 40,000,000 bushels are used in whiskey manufacture.

Distillers may continue manufacturing alcohol for commercial purposes and many of them have arranged for this work, others turning their distilleries into manufacturing plants for yeast, vinegar and by-products.

Stocks of whiskey in the country undoubtedly are larger than they ever have been. Distillers have been working at almost capacity and imports have been larger than ever. Officials estimate the quantity of whiskey in bonded warehouses to be about 100,000,000 gallons. Stocks not in bond will bring the quantity on hand in the country up to about 230,000,000 gallons. The annual production of whiskey has been about 116,000,000 gallons.

Salaries Received by Red Cross Officers and Employees  
Henry F. Davison, Chairman of the Red Cross War Council, announces the following:

It is the plan of the War Council of the Red Cross to publish monthly a statement concerning its finance and administration, and every detail which may be found to be of interest to the public will be made known. The following facts concerning salaries paid by the Red Cross may prove of interest to the public.

One year ago, on a peace basis, with only about 200 Chapters and a little over 200,000 members, with annual funds of only a few hundred thousand dollars, the Red Cross employed at its headquarters in Washington 75 paid officers and employees, of whom 29 received salaries of from \$2,000 to \$7,500. At the present time, with the Red Cross on a war footing, with 2,600

Chapters to administer, 3,621,011 members and a war fund of \$100,000,000 pledged, Red Cross National Headquarters employ 684 paid officers and employees have been added to Red Cross Headquarters staff, and of that number 17 receive salaries of from \$2,000 to \$6,000 a year. The highest salary added since war was declared is \$6,000. The highest paid official in the National organization received \$7,500, and he was on the staff on a peace basis.

Of those receiving less than \$2,000 a year, 49 now receive salaries of over a hundred dollars a month. There are 38 clerks being paid one hundred dollars, while clerks and messengers receiving less than \$100, number 491.

In addition to paid officers and employees in National Headquarters, the number of full-time volunteers now contributing their services to the Red Cross is 77. Practically all the important administrative positions cre-

ated since war was declared are filled by volunteers.

During the last month, although the number of Red Cross members has increased from 2,547,412 to 3,621,011, and the administrative work at National Headquarters has increased substantially, the number of paid employees has decreased from 787 to 624. This is partly to be accounted for by the centralization of the work among thirteen territorial divisions under a new plan of organization adopted by the War Council.

SHOOTING SPORT KNOWS NO AGE LIMITATION

Some of Our Best Shots are Past the Color Line Past

Throughout the ages the sport of shooting has been popular in some form or other. Our half-breed forefathers indulged in contests where the weapon was a good right arm and the bullet a smooth round stone.

While it is true that shooting has always been popular, this article will deal with the feature of shooting that places it so distinctly in a class by itself.

Age No Bar
So long as the male of the species can stand on his hind legs—use his arms and hands—and has at least one good eye—he can still derive almost unlimited pleasure from shooting regardless of whether he is clad in knee breeches or snowy hair and long white whiskers.

Some of the best shots in the country are way past the color age limit and their names still figure in the lists of winners with both rifle and shotgun. Many a man has experienced the keenest kind of regret on becoming aware of the fact that he would soon have to give up his favorite sport because he had reached the age limit in his particular line.

The All American

Proof there is in plenty to substantiate this fact. Take, for instance, the All-American Trapshooting Team. This group of men, six in number, made a trip abroad in 1901 and in a series of matches with the best teams that the other countries could produce, they never met defeat.

Take up shooting in some form, for it is a sport that you can stick to with the assurance that you will always enjoy it and that your skill will stay with you until the age when nothing remains of life but a host of pleasant recollections.

Tucumcari Roundup Big Success

The Tucumcari Cowboys Round-up was a revelation in magnitude and attendance that surprised even the directors. While the directors had anticipated an increased crowd over last year's attendance, and had trebled the seating capacity, it proved entirely inadequate and thousands of spectators occupied every available space around the half mile track and arena.

All told 86 contestants were entered in the various events. There were 51 entries in roping alone, being the largest list of steer ropers entered in any one contest this season.

J. A. Street, president of the Cowboys Round-up; Robt. P. M. Case, secretary; A. B. Bagley, arena director; and Foghorn Clancy, official announcer handled the show in true metropolitan style, and the results financially and from the standpoint of good showmanship reflect credit upon these gentlemen.

The Judges, E. T. Davis of Paducah, Texas, Lewis Andrews of Tucumcari, N. M., and Walt Naylor of Las Vegas, N. M., were appointed by the Round-up Association, and their judging was one of the features of the show.

Clovis Will Pave Streets

The sentiment for paving gained great impetus this week when it was determined that four blocks of Main street, including those north of Monroe street, have practically settled the question in their district and will pave according to a petition that will go before the city council at its next meeting.

Bit of Condescension on the Kaiser's Part

A service man on leave from the front tells the following amusing, if slightly irreverent, story, says an English Weekly: Bethmann-Hollweg had been delegated by his Kaiser with a special mission to heaven. He knocked at the gate, and an angel opened the door. Bethmann-Hollweg asked permission to speak to le bon Dieu.

The ambassador of William II exclaimed, "How fortunate," said he, "for I have an announcement of the greatest importance to communicate to the Almighty from the master."

"And what is that?" asked the angel. "Well," replied the envoy, "it is this: My master, the Kaiser, has charged me to announce to the Almighty that he has just conferred noble rank upon Him, and hereafter He can call himself Von Gott."

Frightful Results of Self-Will

The Jewish national sin seems to have been a sort of headstrong self-will, a "stiff-necked" attitude, as Moses frequently called it, a certain inability to imagine themselves subject to the unchangeable laws of God.

One of the most depressing traits in human nature is this perverse continuance in a course of wrong conduct, even when its consequences have been plainly shown.

Therefore the God who has given the precious, dangerous gift of freedom lets us go in our self-will until its results,

standing. The Latin-American is peculiarly susceptible to traditions, and his conservatism and loyalty to people with whom he has been accustomed to trade are strong forces.

South America's Land of Promise

Uruguay, with her 72,000 square miles, is about equal in size to all the New England States. This republic is also known as the Banda Oriental (which means East Side), so called in early days to distinguish it from Argentina, since this small country lay on the east side of the Uruguay River.

Uruguay is also the land of flowers. Mr. W. H. Hudson in his fascinating book has called it "the purple land," because of the predominating "flor morada," which covers the country with a carpet of rich purple.

Cattle Killed by Eating Green Sorghum

W. F. Anderson, whose place is two miles south of Midland, had a piece of very bad luck last Saturday, and features of it may serve as a warning to other stockmen. Mr. Anderson had driven 11 head of 3-year-old heifers up to the house, intending, we understand, to sell them.

Scott's Advice to Shelley on Writing Poetry

"Shelley was not at all diffident when he desired the opinion of anyone with whom he was personally acquainted. He took the bold step of writing a letter without waiting for an introduction, a practice which he had learnt at Eton from Dr. Lind."

Why We Do Not Hold Our Trade

I asked the President of Uruguay the question which I had been placing before other chief executives and business men of these South American countries:

"What is your opinion concerning trade with the United States? Will the present business which the Uruguayans are carrying on with America, largely because it is impossible at present to trade with Europe, continue after the war?"

"We like the Americans," responded the president, "and we should like to trade with you, but the traditions and customs of doing business here are similar to those in other South American republics, and the manufacturers of the United States do not seem to understand these conditions, or at least they have not shown signs of adapting themselves to our modes of buying and receiving goods from abroad."

Trials of an Invalid

I have the anthrax in my knees, and remedies won't rout it; when I have any pink disease, I like to talk about it. Oh, I could tell you, and repeat about acute humbug, and how the doctor makes me eat such things as bean and sage. And when I tell you about the state of my old stomach's lining, it's wonderful how I rotate my eloquence is shining. But when I tell the tale of acres that I'm enjoying my neighbors say, "The subject's stale, long since we found it cloying."

five per cent is devoted to agriculture, because of the lack of population, there being only one and a half millions of inhabitants in a wonderful region of rivers and smiling lands capable of supporting fifty times the number. For grazing purposes, Uruguay is the most favored land in all of South America.

Although the cultivation of wheat and maize especially is now advancing, the grass-lands are unsurpassed, and these now support for the world's food supply more than 9,000,000 head of cattle, 30,000,000 sheep, 800,000 hogs, 600,000 goats and 500,000 horses.

"Sir, I am honored with your letter, which, in terms far too flattering for the prosy vanity of an author, invites me to a task which in general I have made it a positive rule to decline, being repeated in so many shapes that, besides the risk of giving pain, it became a real encroachment upon the time which I must necessarily devote to very unpoetical labors."

"No good man can ever be happy when he is unfit for the career of simple and commonplace duty, and I need not add how many melancholy instances there are of extravagance and profligacy being resorted to under the pretense for the common rules of life. Cultivate then, sir, your taste for poetry, and the belles-lettres, as an elegant and most interesting amusement, but combine it with studies of a more serious and solid cast, such as

Diary of Frances Lady Shelley," edited by Mr. Richard Edgcombe. Shelley had asked an opinion of his poetry. No date is printed with Scott's reply, but it evidently relates to an early period of Shelley's life, and probably before he went up to Oxford.

Time is cheap, and we are apt to think we can flitch it as we will. But it is always ourselves we rob, not time.

Maybe you can waste your own time by being late in keeping engagements and feel that the loss, if any, is your own affair. But it also is the affair of the man you keep waiting.

How We Should Honor the National Anthem

Some days ago the editor of the Evening Church received the following letter:

I was returning from Europe on a German steamer and the usual concert was being discussed, the purser announced that different national anthems would be sung at the close of the concert, and turning to the Americans he said:

"As you have no national anthem we will sing one verse of 'God Save the King' and then one verse of 'My Country, 'Tis of Thee,' to the same tune."

Next morning he told me that, without mentioning the controversy, he had asked an American naval officer on board what our national anthem was, and the officer had replied at once, "The Star-Spangled Banner."

Happily through the efforts of our patriotic societies in the schools, our children now know our national anthem, but we have much to learn regarding its use.

We have learned this much, but we have yet to learn that the national anthem should not be played in a potpourri, in the middle of a dinner as a "piece," or in a parade as a march, and that only one verse and the chorus should be played.

WONDERFUL STUFF!

LIFT OUT YOUR CORNS Apply a Few Drops Then Lift Corn Or Calluses off With Fingers No Pain

No humbug! Any corn, whether hard, soft or between the toes, will loosen right up and lift out, without a particle of pain or soreness.

This drug is called Treezone and is a compound of ether discovered by a Cincinnati man. Ask at any drug store for a small bottle of freezone, which will cost but a trifle, but is sufficient to rid one's feet of every corn or callus.

Just think! No pain at all, no soreness or smarting when applying it or afterwards. If your druggist don't have freezone have him order it for you.

**The Second Liberty Loan**  
Secretary of the Treasury McAdoo gave out two important statements on September 1st, one dealing with the coming campaign to sell the second Liberty Loan and the other regarding the Government engaging in a policy of paid advertising in connection with future issues of the Loan. The statements follow.

It is contemplated that the Second Liberty Loan campaign will close on the 1st of November, next, and that the active campaign will begin not later than October 1st.

The details of the loan cannot be given out until the Congress has acted upon the bond bill now pending. As soon as the new law has been passed announcements of the details of the loan will be made. Obviously no subscriptions will be received or can be received to the new loan until the Congress has acted upon the pending measure and announcement of the issue made.

I earnestly hope that all Liberty Loan committees already existing will perfect their organizations immediately and get themselves in readiness for the

next Liberty Loan campaign, and that new organizations will be effected wherever possible throughout the country for furthering this great service to the Nation.

As in the previous loan, the general direction of the campaign in each Federal Reserve District will be under the supervision of the Federal Reserve Bank of that District as the fiscal agent of the Government, and all Liberty Loan committees are urged to get in touch with the Federal Reserve Bank of their District and actively engage in the preliminary work of preparing for the next campaign.—William G. McAdoo, Secretary of the Treasury.

## THOS. H. INCE'S MILLION DOLLAR SPECTACLE

# "CIVILIZATION"

The MOST STUPENDOUS CINEMA PRODUCTION OF ALL TIME

Mrs. ANNA PERRY

BABY READ

**BABY READ, THE STAR OF "CIVILIZATION"**

Cannon rumbles along the cobbled streets of the villages. Torn by brutal officers from the arms of their weeping mothers, wives and children, the men of Maranero go tramping off to the shambles of war. Nearer and nearer approaches the grim spectacle of the little house where a baby girl, dressed in her old-world costume, plays on the clean-swept kitchen floor.

An older boy bursts into the room in high excitement. The soldiers are coming! But he flings again. The door starts slowly to swing into place. The baby, in her long pleated skirt, her sabots, and her white cap, looking like a miniature Dutch housewife, scrambles to her feet. With difficulty she pushes back the door and walks out, as the horsemen, the cannon, and the marching infantrymen with their bayoneted rifles, and the women clinging to them roll by.

Her hands uplifted: there she stands, the finest moment in Thomas H. Ince's cost-

There is only one other moment of that sort to compare with it. That is when the father comes home at the end of the war and Baby toddles forth with outstretched arms and is seized in a hungry embrace.

Sitting in the darkened theatre, one hears many sudden little ejaculations from the audience, and one's eyes become misty. It is all so genuine, the little girl is so lacking in artificiality. The terrible picture of war which the film portrays is made stronger by contrast.

The little child actress is Lillian Read, and she is only two and one-half years old. But despite her lack of age, Lillian possesses what many a seasoned actress must, indeed, envy. She is the possessor of a contract for her services as a motion picture actress for the next twenty years, or until the time of her marriage, if she should wed in that time.

The contract is with Thomas H. Ince, whose personal representative in New York is J. Parker Read, Jr., father of the child actress.

Salary for the first few months is to consist of presents of picture books and chocolates. But when Lillian becomes three years old her salary will leap to \$75 a week. At five she will get \$100 a week; at seven, \$250 a week; at ten, \$500 a week, and at fifteen, \$1,000 a week. Her salary between the ages of fifteen and twenty is to be agreed upon later.

It was the clever work done by the child in "Civilization" which induced Mr. Ince to make her a star and give her the unre-

cedented contract. Already plans for other pictures in which she will be featured are being considered.

One plan is to produce a series of children's films. A company of twenty-five child actors and actresses will be selected, headed by Lillian.

**OLDEST ACTRESS SCORES BIG HIT**

Mrs. Anna Perry, who, at eighty-nine, has the distinction of being the oldest emotional actress in the movies, has created much comment by her remarkable power of varied facial expression in Thomas H. Ince's masterpiece of filmcraft, "Civilization." Mrs. Perry is a striking contrast to little Lillian Read, the two and one-half-year-old actress, who enjoys the distinction of being the youngest player before the camera. Thus in this big production are seen the oldest and youngest screen stars in the world.

Mrs. Perry is the oldest resident of Ocean Park, Santa Monica, Cal. She has two sons in the movies, both of whom appear in "Civilization," and are well able to comfortably support their mother, but Mrs. Perry, in her younger days, was a staunch advocate of woman's economic independence, and believes in living up to her convictions even after having passed the three-score-and-ten mark. For a sum-

ber of years she has been singled out as a remarkable "type" by the most prominent artists in America, having posed for celebrated black-and-white, pastel, oil and water-color portraits. A painting by Jules Tallan, entitled "Age," was exhibited at the recent Panama Exhibition.

But although Mrs. Perry has been posing for artists for the last thirteen years, it was purely by accident that she went into the movies. Mr. Ince, who is a great believer in "types," was on the lookout for several elderly women to play the role of peasant grandmothers in the imaginary kingdom of Wredpyrd in "Civilization," when one day Mrs. Perry happened to pay a visit to the Inceville studios to watch her sons rehearse a mobilization scene. Her expression of terror when her boys were torn from the arms of their mother—picture mother by the name too gentle hands of the officers attracted Mr. Ince's attention. "We must have that woman in our picture," he said in an undertone to Jack Read, his personal representative who was standing by watching Mr. Ince directing. "She is a find such as one could search the world over for years and years and never happen across."

Large Sulphur Reserves  
Practically every industry requires the use of sulphur in some form, and the United States, to be industrially independent, must therefore have an adequate supply. The record of the last three years, according to a recent statement issued by the United States Geological Survey, Department of the Interior, shows that this country has enough sulphur to support its present industries, even under the requirements imposed by the drain of a vast foreign demand.

The two main sources of sulphur are the native mineral and the sulphides. Each year at least 300,000 long tons of native sulphur and 1,250,000 long tons of sulphides are used, mostly for making sulphuric acid.

ESTRAY NOTICE

J. H. Whitecotton and J. W. Hammett of Moberly, Mo., were Hereford visitors Wednesday. Mr. Whitecotton was here to look after property interests at Spring Lake.

Prof. E. E. Brodie left Sunday via auto for Sherman, Texas where he will be employed in the high school there again. Mr. Brodie spent the summer in the employ of the Dunlap Hardware Co.

Miss Robbie Martin of Blossom, Texas, will teach the Wyche school this year. Miss Martin is an especial friend of Judge and Mrs. J. M. Boone, and was a guest in their home over Saturday and Sunday, going out to her school on Monday.

Mrs. J. T. Kirkman was hostess to the S. W. P. Club on Thursday. Roll call was answered by quotations concerning the war. Miss Gladys Dixon and Mrs. Roy Rogers read papers on the subject. Mrs. Carl Mountz, who was a guest, sang several pleasing numbers.

The hostess served a dainty salad course consisting of perfection salad, cheese straws, and cream with whipped cream.

Let every citizen read the names on the last page each week and learn "Who's Who," and see what who will do.

Will Take Charge of Kindergarten  
Since the public school will not be able to include a kindergarten department this year, Mrs. Tom Carter has undertaken that work. Classes will begin next Monday at her home. The work will be for kindergarten purposes only, will be thorough and practical and she requests that pupils come regularly in order to obtain the best results.

The charge will be \$2.50 per month. For further information see Mrs. Carter.

All the singers of Hereford are invited and urged to meet at the court house Thursday, Sept. 13, at night, to organize the Hereford Choral Club. This club will begin rehearsing at once. The first program will be a patriotic song program and will be given in about five weeks. It is the desire of the management to get every singer in Hereford enlisted. It is not necessary for singers to be trained to join.

The work to begin with will be of light nature and any one with an ordinary voice can succeed with this work. The chorus will develop and gradually proceed from light to more difficult music and the plan is to sing the "Messiah" with the Amarillo Choral Club in Amarillo next spring.

A plan such as this should inspire all our music lovers and appeal to the civic pride of every Hereford citizen. Alto, Sopranos, Tenors, and Bass are needed to make this work a success. You, if you sing, should volunteer and be a booster for it. Prof. Myers of Amarillo, will be the music director of the Club.

The Savings Habit

THE savings habit is what counts these days. Any feeling of unrest or uncertainty that might arise during these trying times can be safely put aside when you have the security of knowledge that there is on deposit for you at this bank a neat, tidy sum—the results of your steady and consistent savings—by means of which you can tide over any temporary inconvenience.

There was never a better time to start than RIGHT NOW. The sooner you start the sooner the amounts will pile up to a substantial sum. Laying aside a little each day is easy and you'll never miss it. And you don't have to call upon your imagination very hard to realize what a benefit it will be to you, should you be suddenly called upon to use it.

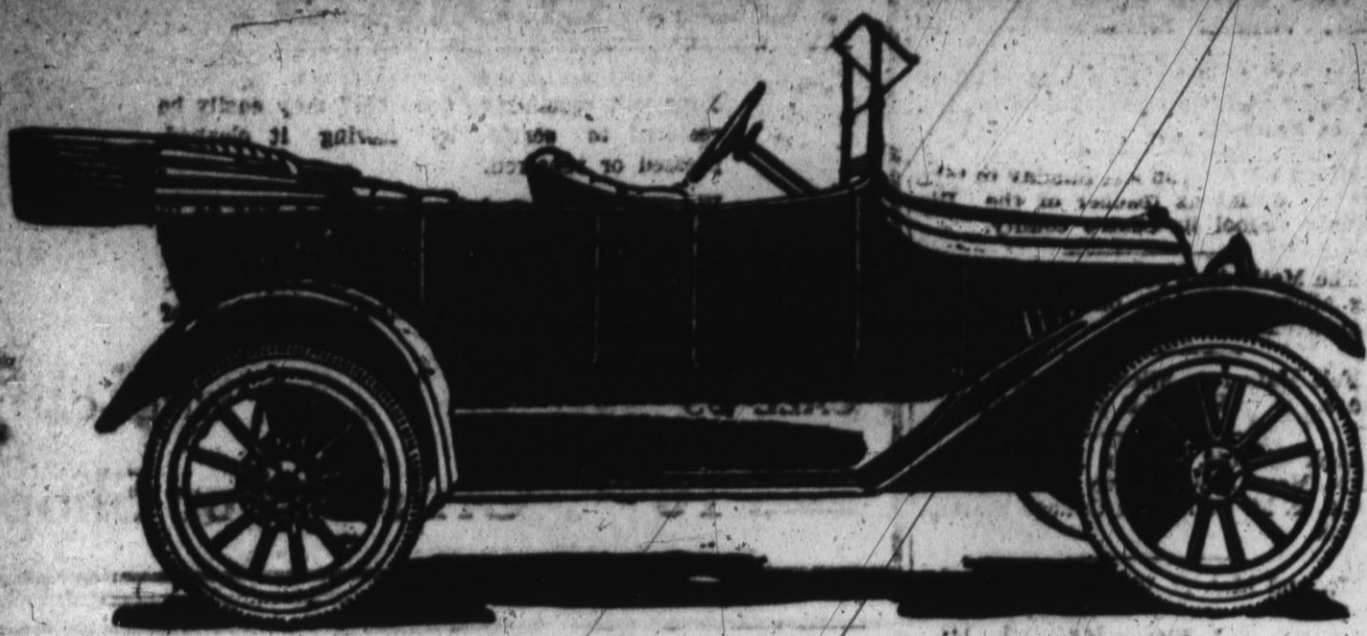

We pay 5 per cent interest on time deposits.

AUTOMOBILE MANUFACTURING is no longer a question of making a dependable motor car. Economy to the owner in operating expense is the important thought.

WE HAVE DONE VALUABLE experimental and designing work, with the result that the average number of miles to the gallon of gasoline is unusually high, and the tire mileage is also unusually high.

FROM WEIGHT, construction and spring suspension are responsible for this marked change in automobile efficiency.

### TO OUR SOLDIER BOYS

(By Mrs. E. J. Williams)

We have the assurance from on high, That God will guard thee with His ever watchful eye,

And keep thee from harm, No matter in what clime you be.

Our homes are saddened, No more thy voice we hear Yet your presence, we feel, is near; So never never fear, our thoughts are with you everywhere.

Father, Mother, Brother, Sister And all others dear shed a tear.

In France's rose bowers And Russia's frozen zone He will claim you as His own.

No harm can come—no ill betide, For safely in His arms you will rest beyond the great sea.

We will pray for thee; Our thoughts, our hopes, our prayers Are for you every where.

For Paul's rule on how to get along with men read Romans 12

When you think of investments and returns read Mark 10:17-31

For a great invitation and a great opportunity read Isaiah 55

For Jesus' idea of prayer read Luke 11:1-13, Matt. 6:5-15

For a prophet's picture of worship that counts read Isaiah 58:1-12

For the prophet's idea of religion read Isaiah 1:10-18, Micah 6:6-8

Why not follow Psalm 119:11 and hide some of these in your memory? —Farm and Ranch.

### TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts Your Liver Without Making You Sick and Can Not Hurt

Every druggist in town—your druggist and everybody's druggist has noticed a great falling off in the sales of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone as a pleasant tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine, no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of life and ambition.

Collins on Application to Sell Finally THE STATE OF TEXAS.

To all persons interested in the estate of Joe Allen Collins, a minor.

Arch D. Collins, Guardian, has filed in the County Court of Deaf Smith County, an application for an order to sell the following property of said estate, situated in Deaf Smith County, Texas, to-wit:

One (twelfth (12-12) undivided interest in lots Nos. one, two, three and four, in Block No. 17 of Whitehall Addition to the town of Hereford, in Deaf Smith County, Texas; also a one-fourth undivided interest in Block No. 15, Block 22, addition to the town of Hereford, in Deaf Smith County, Texas,

which will be heard at the next term of said Court, commencing on the first Monday in October, A. D. 1917, the same being the first day of October, A. D. 1917, at the Court House, thereof, in Hereford, at which time all persons interested in said estate are required to appear and show cause why such sale should not be made, should they choose to do so.

Herein Full Not, but have you before said Court on the said first day of the next term thereof this writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court at office in Hereford, Texas, this 5th day of September, A. D. 1917.

County Court Deaf Smith County, Tex. 32-4t.

Notice of Final Report in Estates The State of Texas

TO THE SHERIFF OR ANY CONSTABLE OF DEAF SMITH COUNTY, GREETING:

You are hereby commanded to cause to be published once each week for a period of twenty days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Deaf Smith County, a copy of the following notice:

THE STATE OF TEXAS: To all persons interested in the estate of Earl B. Shelton, a minor, H. F. Shelton, Guardian of the Estate of Earl B. Shelton, a minor, of said estate, has filed in the County Court of Deaf Smith County, Texas, his final account of said Estate, which will be heard by our said County Court on the first Monday in October, 1917, the same being the first day of said month, at the Court House of said County, in Hereford, at which time all persons interested in said Estate may appear and contest said final account should they desire to do so.

Herein Full Not, but have you before said Court on the said first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Hereford this, the 6th day of September, 1917.

(Seal) A. O. Thompson, Clerk, County Court, Deaf Smith County, Texas. 32 No. 145.

THE STATE OF TEXAS TO THE SHERIFF OR ANY CONSTABLE OF DEAF SMITH COUNTY, GREETING:

WHEREAS, on the 23rd day of August, 1917, in vacation and at chambers, the County Judge of Deaf Smith County, Texas, appointed Arch D. Collins as temporary guardian of the estate of Joe Allen Collins, a minor.

You are therefore commanded to cause to be published once each week, for a period of ten days before the return date hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in Deaf Smith County, a copy of the following notice:

THE STATE OF TEXAS: To all persons interested in the welfare of Joe Allen Collins, a minor, Arch D. Collins was by the County Judge of Deaf Smith County, in vacation and at chambers, appointed as temporary guardian of the estate of Joe Allen Collins, a minor, may appear at the next term of said court commencing on the first Monday in October, 1917, the same being the first day of said month, at the court house thereof in Hereford, at which time all persons interested in the welfare of said minor may appear and contest said application if they see proper to do so, but if such appointment is not contested, at said term of said court, then the said appointment as temporary guardian shall become permanent.

Given under my hand and seal of office, on this 5th day of September, 1917.

(Seal) A. O. Thompson, Clerk, County Court of Deaf Smith County, Texas. 32

Red Cross to Ship 125 Ambulances to Russia

September 9, 1917. - As a part of its program for rendering effective assistance to Russia, the American Red Cross is to ship at once to the Red Cross Commission in Russia, headed by Dr. Frank Billings, 125 motor ambulances and automobiles.

This is the third Red Cross shipment to be dispatched to Russia since the arrival of the Commission there less than two months ago. Drugs, medical supplies and surgical apparatus with a total value of nearly \$600,000, have already been sent.

Ambulances are needed with the Russian armies almost more than any other form of relief. On the eastern front there are now only 6,000 vehicles for the transportation of the wounded, while on the French front, only a third in length, there are 75,000 ambulances. The automobiles now being shipped by the Red Cross will equip one Russian Army corps with five complete ambulance sections.

Each section will include fifteen motor ambulances, one out-bus for transporting slightly wounded, one kitchen trailer, and one dressing station car. In addition, each section will have two touring cars for the use of officers; three light delivery trucks, and one repair car carrying necessary tools and extra parts, and one extra car for gasoline fuel.

For the present, personnel for ambulance sections will not be sent to Russia, but the machines will be operated by Russian drivers under the direction of the Red Cross. Should it be necessary later to send American drivers, they will be recruited from volunteers in the United States.

By-O-Lo Baby, wonder-eyed and wee, Lying on your mother's knee As the evening shadows fall, As the homing-birdies call, List'ning to your mother croon That old, world-old, by-lo tune. In the years to come they'll seem Like the memory of a dream, Mother singing "by-lo-by." And your father standing nigh, And the casement opened wide: To the sky where high doth ride The pale moon that yesternoon You did cry to hold between Your wee hands. Dear, you'll recall As a dream the night and all.

You'll recall, dear, how you lay In her arms at close of day, And the rocking to and fro, And the tuncful by-o-lo, Just as I who look on you, Just as I who hear you coo, Do remember how I laid In my mother's arms, and prayed At her knee when night came down Over hill and mead and town:

Attention Ladies! When in town, use the rest room at the Ford Garage. The Ford Garage. 14-1f

Health About Gone Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

TAKE CARDUI The Woman's Tonic

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

"OCEANS OF WATER"

How my father, tall and strong, Held me; how I heard the song, That same song—now you're asleep, God in heaven, watch and keep! This our baby—to and fro— In the land of By-o-lo. —Judd Mortimer Lewis.

The Honest Man He that doth still and strongly good pursue, To God, his neighbor, and himself most true; Whom neither fear nor fawning can Unpin, or wrench from giving all their due. Who rides his sure and even trot, While the World now rides by, (now lags behind. Who, when great trials come, Nos seeks nor shuns them, but doth always stay Till he the thing, and the example weigh; All being brought into a sum, What place or person calls for, he doth pay. —George Herbert.

### List of Names of Subscribers, Amount Subscribed, and Amount Now Paid in.

NAMES	Amt. Sub.	Has Paid
We will not print the names of those who have subscribed in this column now. Although we could make a better showing than many think. We want to play hide and seek with names and amounts in this column for a while so that you may get the idea and observe some laughable if not lamentable things. No offense intended. It's the truth. You'd fit. And when this starts you will see how liberal some have been. We mean that, it is not ironical. Then we thought that some might wish to change before all names were finally set herein.		
In several instances the subscription was credited to the husband and wife jointly. Rev. Wyatt's among others. We will not follow that plan. We will credit the husband with half and the wife with half. The donations will then appear smaller, and when looking at it after being cut in halves, some may decide to make a raise. Some of the halves are not going to take up much space in this column, brethren, and do look powerful small when printed. Read the last third of the editorial announcement again now.		
Those who have signed subscription contracts should pay AT ONCE a part of their subscription so that we may give them credit in the column to the right. We want this paid before we go to press next week. Read "Special Notice" in another column.		
We want those who have not yet subscribed and who have not yet determined on the amount they will give, to make a partial payment NOW. When you determine on your subscription later, the amount will be credited on your obligation. From this source we must get another \$2500.00. As your names appear in this column and are shifted and grouped and re-grouped in different issues so that the people may form conclusions, you will have credit each time with the amount you have paid and it will show that you intend to do your part but that you have not determined how much to give. It will show a cash payment in the right column but no amount in the left column as your fixed and determined subscription. We are determined to give every one a chance and treat every one fair and we know that none of you will ask more.

### Editorials, Clippings and Quotations

**ANNOUNCEMENT**

When the Rev. G. S. Wyatt arrived last November to take charge of Hereford Station, he was astonished to find that we had no church house. He immediately began to plan for the raising of funds to build. He has been very successful in securing subscriptions, and we may truthfully add, phenomenally successful when the fact is considered that he has worked alone and single handed. Whose hand has been lifted to help him? Whose voice raised to aid, advise or encourage him? Not one has faithfully stood by him. But it is a fact that several have talked against him and jumped on his back in an effort to slow him down and force him to quit. It can't be did, we are going to build. Get ready. Come through. Kick in.

Heretofore, no subscription or collection committee has been appointed or called for by him. Rev. Wyatt has now appointed a committee of three to assist him in finishing up the work of securing subscriptions and making collections. He saw fit to appoint on that committee the following: Jno. P. Slaton, Carl Gilliland and John Sherman. We accepted under one condition: that we be given plenary power, a free hand in every thing, select our own methods, be subject to no authority, rules, regulations or laws and beyond the power of recall or discharge. The bargain is closed, work has begun and THE METHODIST OF HEREFORD ARE GOING TO BUILD.

We are all busy men, we have not the time to quit our individual businesses and go about seeing you personally. Hence, we have contracted with the Brand to run this page as long as we wish. This page will be our newspaper. It may take fifteen weeks to complete the job, and this space costs like rib but the price has been guaranteed and only a few are paying for it, so don't you fret. We are going to build. There will be little, if any, change in the way this page is now planned, ruled and arranged. The complete roll of membership of the M. E. Church here, of all members over the age of 15 years, will be printed on this page every week. We are not handling your names as individual persons, but as a body corporate, the M. E. Church South of Hereford, Texas, as a whole. If you don't want your name carried on this page, then you had better get it off the church roll. We will shift the names from column to column, and group and regroup, arrange and rearrange them from time to time as we may see fit. We will ever have the strictest regard for the first line printed at the top of this page. That's why we put it there.

There will be little change in the headings of the columns as they now are. Of course the reading matter in the columns headed "Editorial" etc. and "General Purpose" will change each week.

Rev. Wyatt has delivered to us the names and amounts of all subscribers. There are about eighty signed subscribers. And the marvel is the high percent of all bankable securities. It will not be as much trouble as you think, probably, to secure the balance of the necessary funds. We are going to build.

There are some who have subscribed who WILL raise their subscriptions. Just you wait and see. To those who wish to raise their subscriptions we will say, don't come to this committee. Rev. Wyatt holds your note in his possession, go to him, get your old note back and make a new one.

To those who have not yet subscribed we will say, don't hurry, be patient. WATCH and pray a little. After this paper has been run about three or four weeks, you'll catch on. These columns will indicate clearly when we want you to dab down.

Now don't imagine a lot of ridiculous things and get mad and don't believe half you may hear or think. Wait until you see it published on this page and then you may and will know that it is the truth. If when you have finished reading the fourth publication and things have gone from bad to worse and then awful, if you are not satisfied, go to Rev. Wyatt and show him that he has busted the Church wide open, nine ways.

Don't subscribe yet. Wait.

Yours sincerely,  
Committee.

### General Purpose Column

When we want your advice or suggestions we will call on you.  
Moral: . . . . . —Adv.

A church or churches that winces at or can't stand publicity before men in this generation will be in a bad fix on Judgment Day, now won't they.

The list of names of members of the M. E. Church of Hereford was furnished by Rev. Wyatt. This list included only those members over the age of 15 years. The lack of space prevents the publication of the names of those members under the age of 15, however, they may be added later. We confess the members whose names are not published are the most worthy.

Should there be an error or omission in or off of the published list, will the person affected, or any other person, phone Rev. Wyatt and call his attention to such error or omission. He says he will greatly appreciate the kindness.

The membership of the M. E. Church of Hereford is worth One Million Dollars. Let all investigate. The total income of these members last year was about \$146,000.00. Get the facts and then figure. Their total income for the year 1917 will be more. When figuring on this take into consideration the increment in the values of their holdings as well as the yearly income and profits in dealings etc.

Are the Methodists of Hereford able to build a \$22,000.00 church? Do they need it?

The building committee is composed of the following members: Eli Dunlap, Chairman; G. A. F. Parker, Sec'y; Treas.: C. B. Williams, E. B. Black, D. K. Ashbrook, Henry Wilkinson, Jno. Sherman, Jno. P. Slaton and D. W. Hawkins.

Rev. George S. Wyatt will deliver a special sermon Sunday at 11 a. m., September 23rd, at the place where some few Methodists occasionally meet at that hour. His text will be taken from Joshua, VII, 1-15. We earnestly request that you hear him then whether you ever heard him before or ever expect to hear him again. The fact is that we are very much interested in that particular sermon. We are not advertising the Rev. Wyatt and will not advertise any other sermon or any other thing he may do, but we are a little interested in the particular subject he has agreed to discuss on that occasion. This same ad will appear next week.

A protection talk: Don't compare yourself or your goodness or liberality or direct your acts by others, else you land in jail, the penitentiary or . . . . . The issue is, Who and What are YOU?

We expect that some of the Brand's X's will comment on our page. All right, boys, if you do, make it short and sharp pointed. Give us the handle end that we may turn the sharp point towards the hearts of those whose names are printed in the columns to the left. Send us a "Marked Copy", if we like it, we may honor you with reproduction and credit and then invite you to a corner stone laying with Methodist chicken on the side. We ARE GOING TO BUILD.

#### Special Notice

A number of subscribers have already made partial payments on their subscriptions. This is advantageous in several ways. Such money so deposited in any bank here is drawing 5 per cent for the church on the daily balance. A partial payment now will make it easier on you hereafter.

We want \$2500.00 more paid in now by those who have subscribed. This must be paid in before we go to press next week in order to give you credit in the column to the right. So come on, pay a part now, you can do so just as well now as later.

Read and remember the first line at the top of this page, we will stand by it. This is our page, we are paying for it and you may go to the devil with your complaints, that is, go to John Sherman, he is the printer.

### List of Donors and Sums Contributed by Non-Members

This column will be reserved for the purpose indicated above. A number have already signed for subscriptions. No names will be printed here, for three or four weeks, however.

To All Persons Who are NOT Members of the Methodist Church: Every time you meet a person whom you think is a Methodist, ask the following questions:

Are you a Methodist? If the answer is yes, then ask, Have you read the Brand? No harm in that is there, besides they are all good fellows and are not ashamed of their faith.
