THE WONDERFUL AEROSCOPE, HIGHER THAN THE FERRIS WHEEL, GIVES VISITORS MARVELOUS VIEW OF THE WORLD'S GREATEST EXPOSITION

THE GIANT FRAME OF THE AEROSCOPE AS IT APPEARED UNDER CONSTRUCTION

portunity a plenty in the unique mechanical achievement, the Aeroscope, on "The Zone," at the Panama-Pacific International Exposition. The Aeroscope resem a novel and intricate design, its steel construction recalling that of the Bascule bridge At the extremity of the long arm of the crane is a two-story car with a seating capacity for 100 persons and standing room for 20 more. At the short end of the crane is a giant mass of concrete, which serves as a counter-balance for the long arm of the crane. Beneath the car are two great water tanks, which take on water or discharge it as passen gers enter or leave the car, thus always preserving the balance to a nicety. When for example, a man weighing 160 pounds enters the car an amount of water of equal weight is released from the tank, and when the passenger departs 160 pounds of water are automatically discharged into the tank below the car. The car ascends without perceptible motion, and perfect safety and a jarless ride of ten minutes is assured to passengers while enjoying this trip of 265 feet into the clouds, or four feet higher than the Ferris wheel. Two motors control the ascent and descent in conjunction with the counter-balance of the nuge car, and when it reaches its extreme height it pegins to swing slowly around on the wheels at its base, giving a magnificent view of the exposition, of San Francisco bay and of the city of San Francisco.

Attending Sociological Congress

Rev. R. E. L. Farmer, pastor of the Baptist church in Hereford, was in Houston last week and atsended while there the sessions of the Sociological Congress that met there

Rev. Farmer is enthusiastic about soms and found enchanting resting daughters need the help of the men the grent work that is being pushed by the men and women composing this congress.

#### Four Sisters Are Teachers

One of the families that is comtributing its full share of teaching the young idea to shoot is the family of Mr. R. G. Sisha. Four of the daughters have taught school this past winter and spring, and another is a member of this years graduating class of the Hereford High School, and will doubtless qualify as teacher later. Miss Jessie taught at Stamford the last year, Miss Bessie near Wildorado, Mles Helen taught 30 miles north of Pampa, Miss Cotto the Freeo school.

Miss Goochie is in the graduating class here this spring and will doutless teach. Another remarkable thing about these four sisters is that tney all graduated from the Canyon Normal last year in the same class.

Auto Given Away Saturday.

The little auto, which has been on display in the window of G. E. Burn's Drug Store, and which was coveted by so many of the little folks, was won by the little daughter of J. E. Valentine living about eight miles east of town. The drawing was Saturday afternoon.

### Gets Bruised Foot.

Mr. Clyde Beech, who works on one of the McDonald Irrigating farms, had the misfortune last Wednesday evening of letting a heavy iron pipe fall on his foot, mashing it quite badly.

SHOULD BE UNIVERSITY OF RE-LIGIOUS LEARNING.

Duty of Christianity to Evangelize the

Rev. Jno. A. Rice, D. D. John M. E. Church, South,

years ago, the question was What is a college? The atto answer it shook the educaworld in America from center inference. Another question is ning to be asked: What is church? Without undertaking to give a definition of it, let me ask, in initial paper, what the church is for? The New Testament reveals three distinct tasks to which it is

First, that of evangelization. The arch is divinely commissioned to it for the lowest and the least nan in the least land and offer him hip to the Eternal God; offer him a divine power, which lifts him out of the bog and places him upon the highest levels of human life, where God and the soul are in fellowship. This alone were an immense priv-

#### Teaching the Art of Living.

The church is commissioned also to teach and train those who are with its evangelistic message. The term, Religious Education, has me to mean a specific thing in our country, namely, the training of the people in the local church in those deep matters which pertain to the art of living. I am not now speaking of the work of education in schools. colleges and universities, but the work of education at our doors, in the congregation. Every agency in reach should be employed to the utmost in this important mission. Indeed, the local church could be made a sort of university for all the people, in which the simple, practical arts and virtues of everyday life should be taught and enforced. Only recently has this special phase of the church's work received anything like adequate attention. The New Testament word for covered and convenient for examinait is Edification.

## School of Religion Needed.

Of course, the Sunday School is the center for all this work, although the through the entire week and the Sunday School should cease to be so named. It should be called the School an all-the-week activity. During this time various and sundry clubs, classes, spector. musical organizations, culture courses, as well as distinctly religious meetings, should be held. Thickly settled neighborhoods, as we shall see, offer fine opportunities for the development of things spiritual.

The third task to which the church is committed is that of Christianizing the social order; that of infusing the spirit of Jesus into every nook and corner of our life. Nothing is foreign to the interest of the church.

# Neighborly Love Essential.

If religion pervades and colors the whole life then ours is serious business, for it will let no corner of the world escape its influence. The sooner thing to be practiced in a corner the better for the world. The question of tianity, was Can it be made to source with the human reason? Of the nineteenth. Can it be made to square with the results of scientific research? Of the twentieth, What can it do? We must learn to enforce not only love of God, whom we cannot see, but love to our neighbors, with whom we are living the other is Christianity whatever else it may be. Everything that interests is a genuine follower of the Christ,

It is the mission of the church—the rural as well as the city—to evangelike the whole world, to train to the highest degree of efficiency those whom it evangelizes and to seek to make the spirit of Jesus the absolute cule in all human relations.

It is an admitted economic fact that there can be no permanent prosperity without a permanent agriculture.

# THE NATION'S DINNER TABLE

Ordinance No. 88.

An ordinance to be known as dinance No. 88, providing for connections with and regulating the use of sewers; regulating house drainpenalties.

Be it ordained by the City Commission of the City of Hereford,

Section 1. That the Sanitary Sewer system of the City of Hereford, consisting of Main and Lateral Conduits of salt-glazed vitrified earthenware pipe with necessary accessories, are designed to carry off all liquid house waste, and are hereby designated as Sanitary Sewers. The sewers in streets and alleys passing in front and sear of the various lots are called Main or Lateral Sewers. The sewers leading from the main or lateral sewers to the property on either side, are called house sewers.

Sec. 2. All connections of house sewers, drains or plumbing work with the sewer system of the City of Hereford, shall be made in accordance with the following rules and regulations.

Sec. 3. Any person, firm or association of persons desiring to connect with the Sani'ary Sewer system shall make application in writing to the City Commission, such application shall state the exact location of the property, and shall be signed by the owner of the property or his authorized agent.

Upon the receipt of such application the City Commission shall detail some competent employee of the city to inspect the property, locate the connection and see that the work is done in accordance with the provisions of this ordinance.

Sec. 4. The City Commission shall be given notice when any work is completed and ready for inspection, and all work must be left untion until inspected and approved. Such inspection shall be made within twenty-four hours after such notification. The inspector shall apply activities of the church should extend either the ether, peppermint, water or smoke test and the party installing such connection shall remove or of Religion or the Church School or repair any defective material or something else that indicates it to be labor when so ordered by the in-

Sec. 5. No open gutter cesspool or privy vault shall be connected with any sewer or drain.

Sec. 6. No person, firm or association of persons shall injure, breek or remove any portion of any manhole, lamphole, flush-tank, catch-basin or any part of the sewer system, or throw of deposit or cause tc be thrown or deposited in any sewer, opening or receptacle connecting with the sewer system any garbage, offal, dead animal, vegetables, ashes, cinders, rags or any we learn that Christianity is not a other matter or anything watsoever except feedly brine, the necessary the eighteenth century, touching Chris- toilet paper and liquid house or mhi siop.

Sec. 7. The house sewer trench shall be dug so as to meet the public sewer at the position of the "Y" branch. The material thrown from the trench shall be placed so as not in constant contact. Neither without to obstruct, and so as to cause the least inconvenience to the public. his neighbors must interest him, if he Proper barriers and lights must be maintained on the banks of the trench to guard the public against accident during the process of the work. In back-filling the earth shall be carefully rammed or flooded so as to keep the pipe in proper position and avoid settling, and no stones shall be used in filling until there has been a depth of two feet of fine earth placed over the pipe.

Sec. 8. The house sewer from a point five feet outside the house to the street sewer, shall be of first quality, salt-glazed, vitrified earthen the repast 13,000 beeves, 21,000 hogs, pipe, unless laid less than six inches 4,500 sheep, 2,000 hundredweight of deep, when it shall be of heavy cast iron. # Summerfield News.

Summerfield Texas, May 12. Planting is the order of business in this vicinity.

Mrs. W. E. Harris was visiting her folks in Holland, New Mexico, over Sunday.

Mr. Mat Fiddler and his son-inlaw McComber, of Aurora, Illinois, were down in this vicinity last Saturday, looking after their pasture lands, going from here by auto to Amarillo.

E. H. Skidmore received a message from Guyman, Oklahoma, last Wednesday stating that his father was stricken with paralysis and for him to come at once to his bedside. Mr. John Skidmore, his brother, accompanied him to their father's bed

Mrs. Sawyer came in last week for an extended visit with her sons for an over Sunday visit with his and their families.

Mr. Thomas and family are nicely located in their new home attended court at Dimmitt this week near Summerfield. We welcome being called as members of the these good people to our midst.

Reports from Mr. Lee McMinus,

well. His many friends hope for a speedy recovery.

Mr. Carl Frye drove down in his auto Sunday evening for a short visit with Mr. and Mrs. Johnson.

Mrs. John Skidmore of Hereford, spent a few days with her friend, Mrs. Lawrence Johnson, the first part of the week.

Mr. W. E. Odell and son took dinner with Mr. and Mrs. T. A. Osborne last Sunday.

Miss Cloe, our public school teacher, spent part of Saturday and Sunday with Mr. Sims and family. Nora and Gladys Beenis spent Saturday night and Sunday at the home of Lawrence Johnstons.

Mrs. B. C. Roberson is confined to her room with sickness. We are glad however to report, that she is gaining strength daily.

Loyd Goodlow came in Saturday brother.

G. J. Ness and F. A. Laughlin petit jury.

# Midsummer Eve'

Presented by the Seventh Grade, With the Assistance of a Few Pupils From Other Grades.

# SYNOPSIS

SCENE I. A WOOD AT NIGHT--Two little mortals, hunting for the fairies on midsummer eve, become lost in the forrest. The little evil Will-o'-the-Wisp entices them toward the bog from which place they are rescued by the elfins.

SCENE II. COURT OF THE FAIRY OUEEN-The Elfins lead the children to the court of the Fairy Queen\_ and the little ones are adopted as her princesses, Forgetme-nots. The members of the court endeavor to amuse the princesses with their songs and drills. The morn is near and the Spirit of Dawn approaches, telling the Queen the mother is weeping for her lost children. They return to their home, promising to return again next midsummer/

# The Hereford Brand

(A NEWS PAPER) The Brand Publishing Co.

B. F. GUTHRIE, Editor

Address all communications to BRAND PUBLISHING CO.

Subscription Price \$1.00 Per Year, Strictly in Advance

Any erroneous statement s,feeting the racter or reputation of any individual or firm which may appear in The Brand, will he gladly corrected upon being brought to the attention of the publishers.

#### IF YOU SEE IT IN THE BRAND, ITS TRUE.

Advertising in a newspaper that the people buy, and read because they want it is the only advertising that is worth much. If all these millions spent every year in fake advertising schemes was spent for space in good papers, the results would be much more gratifying.

#### PETITIONING AGAINST HIGHER FREIGHT RATES.

Petitions are being circulated and largely signed here protesting against the proposed increase in freight rates. There is one of the petitions in Garrison Brothers store and farmers and others wanting to sign it can call there and do so.

The freight rates that the panhandle people are now paying are certainly high enough but the burden proposed are not only unjust and unreasonable, but they are a slap at the prosperity of the panhanple country. The people should fight it to the last ditch.

## Good Rains in Panhandle

Reports from different parts give an account of good rains in sections of the Panhandle. At Amarillo, a good rain fell Wednesday. The north part of this county also reports a good shower. A light rain fell in Hereford yesterday. While it is getting a little dry now and a rain would be welcome, crops are not suffering and grass and meadows appear are in fine shape.

Farmers are beginning to harvest their first crop of alfalfa, and a finer one was never raised in this section.

# Decoration Day Program

This program given by the U. D. C., is to be on May 30th and as follows:

Music-Hereford Band. Decoration of Graves. Song America -- By all present. Invocation-Eld G. A. Faris. Address, Significance of Memorial

Day-Atty. Elmer Dammeron. Song, In the Sweet By and By. Appeal to the Citizens of Hereford in behalf of the cemetery work-W.

Bestowal of "Crosses of Honor." Benediction-Mr. J. D. Walker. Dixie-Hereford Band.

# Some Demand for Lots.

City property here seems to be looking up and there is some demand for it. Mr. A. C Elliott reports the sale of two pieces of of property this week.

# Spring Is Here

Men get your hats cleaned, blocked and retrimmed. Special care will be given your panama. We do satisfactory dye work in any and all materials. Men's suits made to look like new. Call T. M. Colson. Phone No. 197.

# Wealthy Land Owner Here

Dr. H. B. Tanner and son, of Los Angeles, have been at the Cordova several days. They have large interests in the lands of the Panhandle and think of spending the summer in this vicinity.

Tr. Tanner is the proprietor of a large sugar planfation in Old Mexico, employing some fifteen hundred Mexicans. He and his son went to Amarillo Monday morning.

Mrs. Vaughn and grandchildren, Homer Lee Vaughn and Miss Merrell Granger left Thursday tor extended visit.

By Peter Radford.

This country is suffering more from tainted politics than from any other malady at the present time. There is scarcely a campaign speech made, a platform demand written or a measure enacted into law that does not carry the taint of personal gain of some politician or political faction

There is more "blue sky" in campaign promises of many politicians running for office than was ever contained in the prospectuses of the boldest promoters of chimerical business schemes. There are more secret combinations formed by politicians in the name of "My Country" than were ever formed under any and all other aliases. There are more political rebates hidden in the phrase "Be it enacted" than were ever concealed under any and all other disguises.

The inordinate thirst for political power and unrestrained passion for mastery has caused more distress in this nation than the greed for gold, and it ought to be regulated by law. No business combination ever pursued their competitors as relentlessly or visited more heartless cruelty upon their customers than a political party that seeks to make junk of an industry, or cripple a business for party success, through tariff measures, political supervision and ofttimes destructive legislation. Many political platforms are as alluring to the voter as the story of the rainbow with its pot of gold and their consummation about as far-fetched. Self-gain is the first law in politics. There are many men in office today who, if they could not shake plums off the tree of American liberty or cut a melon taken from Uncle Sam's commissary, would have less desire to serve the public.

The country is surfeiting with patriots, who will bare their breast to bullets in defense of their country, but there are few men in public life who will bare their breast to voters or run the gauntlet of party disfavor in defense of agriculture or industry. No representative of the people, who will permit personal prejudice to dethrone justice, party success to disfranchise reason or the rancor of a political campaign to influence judgment can render capable service.

The preservation of our presperity depends upon wisdom, courage and honesty in government, and the Amerfcan voter should seek these attributes as implicitly as the Wise Men followed the Star of Bethlehem and they will often be found to rest over the stable; the plow or the staff of the Shepherd. The surest cure for tainted politics and machine rule is fresh air and sunshine and these important elements are most abundant upon the farm, and when farmers, bankers and merchants are elected to membership in legislative bodies, much of the trouble in government will dis-

By Peter Radford.

Much has been said and more written about the evils of watered stock in big business concerns and the farmers of this nation believe that every dollar written into the life of any business organization, should be able to say "I know that my Redeemer liveth," but farming is the biggest business on earth, and there is more water in its financial transaction than that of any other industry. There is as much water in a farmer's note drawing eight or ten per cent interest when other lines of industry secure money for four or five per cent per annum, as there is in a business paying a reasonable compensation upon the face value of securities representing an investment of only fifty ference is, the water is in the interest rate in one instance and in the securities in the other.

The promoter ofttimes takes chances and his success is contingent upon the development of the property involved but the usurer, as a rule, takes no chances and his success cripples the property involved. There may be industries that cry louder but none that suffer more severely from financial immorality in both law and custom than that of agriculture.

The farmers of America today are paying \$200,000,000 per annum in usury on real estate and chattel loans, and this interest capitalized at five per cent, represents \$4,000,000,-000 of fictitious values which the farmer is paying interest on. This sum of money is almost equal to the annual value of crops produced in the United

The earning power of the farmer's note based upon his interest rate very nearly divides likes the earth's surface—three-fourths water and onefourth land. The largest body of water that floats upon the financial hemisphere now rests upon the farms and its waves are dashing and its billows are rolling against seven million homes threatening ruin and disaster to the prosperity of the nation. Will our public servants who understand how to drain the liquid off industrial properties turn the faucet and let the water off the farms?

It is an admitted economic fact that there can be no permanent prosperity without a permanent agriculture.

Agriculture is recognized as the greatest of all industries and a prosperous, progressive and enlightened Dallas where they will make an agricultural population is the surest safeguard of civilization.

accalaureate Sermon at Dimmitt

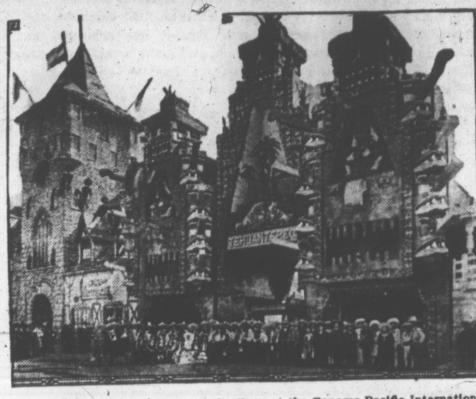

Dr. Faris of the Christian Church of this city goes to Dimmitt Sunda to preach the baccalauriate sermon for the graduating class. The Dem mitt schools are closing a very successful year under Miss Griffith. Commencement exercises will be held next Friday and Saturday flames. Some feed and two small

#### Barn Burns.

Tuesday afternoon while some papers were being burned at the residence of Mr. J. I. Walker, the barn caught fire and was damaged considerably before the department could succeed in extinguishing the out buildings were burned.

> Radium Used to Promote Plant Growth.

Some of the remarkable properties of fadium are being demonstrated by an exhibitor in the Liberal Arta build ing at the Panama-Pacific International Exposition, San Francisco, in con nection with a new invention making medicinal purposes. 4

Demonstrating the power of this mineral promoting metabolism a number of young plants, some existing with and some without the aid of radium, are shown. Those in the radioactive soils are seen to be growing mon soil, and to have a more healthy appearance.

This inventor has found a process of impremating terra cotta bricks with radium bearing minerals and properties. The porous bricks last almost indefinitely, losing only half their potency, it is estimated, in 1,800 years. Since the discovery of this mineral it Canyon Tuesday morning after a has been found that many celebrated waters as Carlsbad and Baden Baden, owe their health-giving properties to ra- tess dium. The inventor claims that his process produces in ordinary waters

the qualities of these famous springs. The radium ore used in the manufacture of radioactive terra cotta is known as carnotite; a formation found mainly in Colorado and Utah, and now producing three-fourths of the world's radium. The European mineral, known as pitchblende, from which the famous European springs are impregnated, is also displayed

Most Rapid Photographs Ever Taken. The most remarkable set of speed photographs ever taken are a part of chinery Hall at the Panaina Pacific International Exposition, San Francisco. They are pictures of a shell from a 12inch coast defense gun in flight, the set including the various phases of the flight beginning just as the great projectile pokes fts hose out of the nuzzle of the gun.

The pictures were taken with a served by the hostess. being the fastest shutter ever manuwas made by breaking an electric sir-Hereford Wednesday of this week. city last Saturday looking after cult in a wire strotched across the

. One picture shows the sh way out of the muzzle before any smoke and gas has escaped Another was taken when the shell was two feet from the muzzle but hidden by a heavy ring of smoke. -A third shows the shell in flight a hundred feet from the muzzle. The photograpi's are so perfect and the exposure so rapid that scarcely any blur is perceptible. They were taken at Fortress Monroe, Va. 111der the direction of Capt F. J. Behl of the coast artillery corps and head of the department of enlisted specialists at the Coast Artillery school at Fortress Monroe.

NATIVE LIFE OF THE FAR PACIFIC

The photograph shows the pelle of the interesting Samoan village at the Panama-Pacific International Ex position at San Francisco. The struc tures in this village, comprising the native thatched buts of the Samoan or as they were formerly called, the Navigator islands, were brought in tact from the native villages and are absolutely faithful in all their features. There are many native fam illes living in the village, who for the edification of visitors perform the aquatic feats in which the wlanders excel, and dance the rhythmic native dances. The life of the people of the Pacific ocean is wonderfully lilus trated at the Exposition, and of all the races none are more interesting than the Samoans who exhibit man; traces of Aryau descent. No Exposi tion visitor should fail to see these unique tribespeople.

DESTINY OF NATIONS DEPENDS UPON CONTENTED HOMES.

By W. D. Lewis.

President Texas Farmers' Union Why is woman dissatisfied? Why does she grow restless under the crown of womanhood? Why is she weary of the God-given jewel of motherhood? Is it not a sufficient political achievement for woman that future rulers nurse at her breast, laugh in her arms and kneel at her feet? Can ambition leap to more glorious heights than to sing lullables to the world's greatest genuises, chant melodies to master minds and rock the cradle of human destiny?

God pity our country when the handshake of the politician is more gratia fying to woman's heart than the patter of children's feet.

Woman Is Ruler Over All.

Why does woman chafe under restraint of sex? Why revile the hand of nature? Why discard the skirts that civilization has clung to since the beginning of time? Why lay aside this hallowed garment that has wiped the tears of sorrow from the face of childhood? In its sacred embrace every generation has hidden its face in shame; clinging to its motherly folds, tottering children have learned to play hide and seek and from it youth learned to reverence and respect womanhood. Can man think of his mother without this consecrated garment?

er? Is not woman all powerful? Man A HEREFORD CITIZEN Why this inordinate thirst for powcannot enter this world without her consent, he cannot remain in peace without her blessing and unless she Tells His Friends and Neighbors of simply ask for a kidney remedy sheds tears of regret over his departure, he has lived in vain. Why this longing for civic power when God has made her ruler over all? Why crave authority when man bows down and worships her? Man has given woman his heart, his name and his money. What more does she want?

Can man find it in his heart to look are his own words : with pride upon the statement that his honorable mother-in-law was one of the country, that his distinguished Doan's Kidney Pills from Woodburn passed." Success means-Where the most powerful political bosses in grandmother was one of the ablest & Son's Drug Store, when I suffered fillbusters in the Cenate or that his mother was a noted warrior and her name a terror to the enemy? Whither quickly relieved me. Now, when I they are today. Build You A Home. are we drifting and where will we

#### God Save Us From a Hen-Pecked Nation.

I follow the plow for a living and my views may have in them the smell of the soil; my hair is turning white under the frost of many winters and perhaps I am a little old-fashioned, but I believe there is more moral influence in the dress of woman than in all the statute books of the land. As an agency for morality, I wouldn't give my good old mother's homemade gowns for all the suffragette's constitutions and by-laws in the world.

As a power for purifying society, I wouldn't give one prayer of my saintly mother for all the women's votes in Christendom. As an agency for good government, I wouldn't give the plea of a mother's heart for righteousness for all the oaths of office in the land.

There is more power in the smile of woman than in an act of congress. There are greater possibilities for good government in her family of laughing children than in the cabinet of the president of the United

The destiny of this nation lies in the home and not in the legislative halls. The hearthstone and the famfly Bible will ever remain the source of our inspiration and the Acts of the Apostles will ever shine brighter than the acts of Congress.

This country is law-mad. Why add to a statute book, already groaning under its own weight, the hysterical cry of woman? If we never had a chance to vote again in a lifetime and did not pass another law in twentyfive years, we could survive the ordeal, but without home, civilization would wither and die.

God save these United States from becoming a hen-pecked nation; help us keep sissies out of Congress and forbid that women become stepfathers to government, is the prayer of the farmers of this country.

# A DIVINE COVENANT.

God Almighty gave Eve to Adam with the pledge that she would be his helpmeet and with this order of companionship, civilization has towered to its greatest heights. In this relationship, God has blessed woman and man has honored her and after four thousand years of progress, she now proposes to provoke God to decoy man by asking for suffrage, thereby by amending an agreement to which she was not a party.

Woman, remember that the Israelite scorned a divine covenant, and as a result wandered forty years in the wilderness without God. Likewise man should remember that it is a dangerous thing to debase woman by law. Rome tried lowering woman's standard and an outraged civilization tors the clothes off the backs of the uman race and turned them out to roam in the world naked and un-

[Agricultural and Commercial Press Service]. It is interesting to watch the forces of civilization battling for supremacy. The struggle now going on between the rubber and the iron tire promises to be the liveliest contest of the Twentieth Century.

The struggle is a silent one and there are no war correspondents to write vivid descriptions of the conflict but the results are more farreaching to present and future generations than the war of Europe.

The rubber tire has been maneuvering for point of attack for several years and has captured a few unimportant positions in traffic, but it has now pitched a decisive battle with its iron competitor by hurling a miltion "jitneys" at the street railways and the battle is raging from ocean to ocean. Upon the result of the struggle depends the future of the rubber tire. If it is compelled to retreat, its doom is sealed, but if it wins the battle it will revolutionize the transportation methods of this nation.

If the rubber tire conquers the street traffic its next struggle is with the railroads of the country, and then the greatest battle between economic forces ever fought out on the face of this earth is on, for iron is the undisputed master in transportation, and and millions of men.

Stephenson applied the steel tire to an iron rail in 1814, but it was 1869 before the golden spike was driven at Promontory Point, which bound the country together with bands of steel. It took the iron tire fifty-five years to creep from ocean to ocean, but the rubber tire while warm from the creative mind of the inventive genius sped across the continent like an arrow shot from the bow of Ulysses. The roadbed was already prepared and therein lies the power of the rubber tire over that of fron, for government builds and maintains the public highway.

But iron is a stubborn metal and Drug Store. it has mastered every wheel that turns; has fought battles with every element above and beneath the earth and has never tasted the wormwood of defeat, and when rubber hurls its full force against this monarch of the Mineral Kingdom, it may rebound Saturday Evening Post. to the factory stunned beyond recov-

The rubber tire first made its appearance on the bicycle, but it proved a frivolous servant and was dismissed for incompetency. It has always been too much inclined to revel in luxury to be taken seriously as a utility ma chine and its reputation is not one to inspire confidence in heavy traffic performance.

But to those who care to waft into drear land, it is enchanting to note that there will be a marvelous difference between a rubber and an iron age. The rubber tire will scatter the transportation at every man's door, others cost you. We guarantee it why a city? It will traverse the continent with a net work of Macadam highways as beautiful as the boulevard built by Napoleon. It will paralyze the law making bodies of this nation for how could the legislatures run without the railroads to operate

By Peter Radford.

The recent investigation of the United States Commission of Induswat Reations orought together the extremes of society and has given the public an opportunity to view the representatives of distinct classes, side by side, and to study their views in parallel columns.

Capital and labor have always been glaring at each other over gulfs of misunderstanding and if the Federal Industrial Commission attempts to bridge the chasm, it will render the public a distinct service.

The farmer has been sitting on the fence watching capital and labor fight for many years and incidentally furnishing the sinews of war and it is quite gratifying to find them talking with, instead of about, each other. When honest men smile and look into each other's souls, it always makes the world better and far more satisfactory to the farmer, who in the end, bears the burden of conflict, than resolutions, speeches or pamphlets charges and countercontaining

The love for justice makes the whole world kin. Understanding is an arbiter far more powerful than the mandates of government, for there is no authority quite so commanding as an honest conscience; there is no decree quite so binding as that of the Supreme Court of Common Sense and no sheriff can keep the peace quite so

perfect as Understanding. We suppose the time will never come when capital and labor will not be occasionally blinded by the lightning flashes of avarice or frightened by the thunder peals of discontent. But Understanding is a Prince of Peace that ever holds out the olive branch to men who want to do right. A man's income is always a sacred thing for in it are the hope, ambition and opportunity of himself, and family, but there is nothing in a human heart quite so divine as Justice and Understanding is its handmaiden.

### A WONDERFUL HEALING IN-FLUENCE IN KIDNEY TROUBLE

A year 5nd a half ago I was taken with a severe attack of kidney trouble that pained me to such an en me. Was attended by a doctor ferings. who pronounced it as stone in the bladder and prescribed lithia water. I took lithia water and tablets for some time and got no relief from them. I stoppep taking medicines for some time, later having some Swamp Root in the house I decided to try it and felt much relieved. While taking the second bottle commenced to Pass gravel in vrine until I had passed in all at least a halfdozen or more and have not suffered the slightest since—and in all have taken one bottle and a half and feel very grateful to Swamp-Soot. Yours very truly,

H. W. Spinks, Camp Hill, Ala.

Personally appeared before me this 16th day of August, 1909, H. W. Spinks, who subscribed the above statement and made oath that the same is true in substance and in A. B. Lee, Ex. of Justice of Peace.

### You Need a Tonic

There are times in every woman's life when she needs a tonic to help her over the hard places. When that time comes to you, you know what tonic to take—Cardul, the woman's tonic. Cardul is composed of purely vegetable ingredients, which act gently, yet surely, on the weakened womanly organs, and helps build them back to strength and health. It has benefited thousands and thousands of weak, ailing women in its past half century of wonderful success, and it will do the same for you.

You can't make a mistake in taking

# The Woman's Tonic

Miss Amelia Wilson, R. F. D. No. 4, Alma, Ark., says: "I think Cardul is the greatest medicine on earth, for women. Before I began to take Cardui, I was so weak and nervous, and had such awful dizzy spells and a poor appetite. Now I feel as well and as strong as I ever did, and can eat most anything." Begin taking Cardul today. Sold by all dealers.

Has Helped Thousands.

# Two Very Poor Reasons

If some housewives inadvertently use baking powder which contains alum it is

Usually for two reasons-lack of knowledge as to what it is made of or because it costs less than a standard brand like Dr. Price's Cream Baking Powder, which is made from cream of tartar.

There is no longer any reason for lack of knowledge, since the label on every baking powder can shows in plain English just what it contains. If the label on your can names alum as one of the ingredients, and you are in doubt about its unhealthfulness, your, doctor can enlighten you.

As to the lower cost, there is very little difference in practical use, about one cent for a whole cake or pan of biscuits-a mere trifle when you consider the vast difference in healthfulness in favor of food made with

### Lutheran Church.

Next Sunday at 10 a. m., in the county court room in the court house there will be a German service with special Pentecost serman, text Acts 2 1-13. Immediately following this service the examination and confirmation of a class of catechumens will take place, with a special confirmation germon in English. The names of the catechumens are John McDonald, Henry Schuette, Paul Frye, and Sophia Schuette. All friends are welcome to attend. E. O. Schmidt, pastor.

#### Start A Meat Farm

This section is well adapted to raising live stock. Every year feed may be produced for all manner of live stock. And live stock farming farming section ever prospered permanently until live stock became a leading part of the business.

Just now is the time to plan for tle, sheep and hogs. The planting season is still here and more kaffir corn, milo maize, feterita, and sorthe crop should placed in the silo. Anpway plant more feed.

Many complain that though they had much feed they could not buy stock to eat it. Their feed was grain. There are those who have found it difficult to turn their kaffir short notice for the lack of market. They could have turned this grain into woney through hogs, cattle and sheep, but had no money to buy the

This scarcity of money for the feed lot has hampered many a man. Next fall indications are that money will be available to the responsible small feeder. Conditions are changing and feed lot loans are prefered to those who loan money on stock. It is a short time loan on stock that is growing value every day it is fed as

The farmer with lots of feed about the place will find help to get stock to eat it next fall and winter. A. M. Hove,

Publicity Agent Santa Fe. Music Recital a Success

Music lovers of Hereford were given a real treat Thursday when the pupils of Mrs. Earl E. Wilson and Miss Marsh appeared in joint recital at the High School auditor-

A large and sympathetic audience gave the inspiration necessary to insure each performer's being at his best and the result was highly gratifying to their friends as well as to their teachers.

The entire program was creditable, indeed, showing as it did, the excellent character of the work done by these teachers.

Little Lucile Brumley surprised the audience by playing her number smoothly and correctly when she

The piano duet by little Misses Hazel O'Brian and Beulah Lee Rutherford showed good ability for such small performers as they played evenly and in perfect time, so that there was never the slightest

The ensemble work of the violin pupils was especially good. The piano pupils have had all their training from Mrs. Wilson and reflect

# BARNEY, BILLY AND BORS

By DOROTHY DOUGLAS.

(Copyright, 1914, by the McClure Newspaper Syndicate.)

Esther had always known Barney and Billy and Bobs. She could not remember a day when they had not been a part of her life, although she did not recognize them as a vital

But-the other man had come. He had dragged Esther from out her contented care-free fife into a love entanglement that threatened to carry ner off entirely from Barney, Billy and Bobs as well as her every childbood associate.

James Carter had come out to the arm from the city in order that he night gain a certain knowledge of ntensive poultry farming. In comng he had fallen a victim to Esther's resh charm and declared himself her plave before the entire population. Barney was the first to congratulate

Esther on her engagement. "I am going to visit Jimmy's peo-

ile," Esther told Barney. "I expect to e frightfully homesick."

"I'd hate to think you wouldn't be," Barney said frankly, "but you may as vell become accustomed to the new ife you are about to enter. I am gong to miss you ten times more beause I have only Buly and Bobs left to chum with.'

When, two weeks later she was comortably ensconced in the beautiful ledge. some of her betrothed and made to eel one of the family, Esther felt or the first time that she was really ingaged to marry Jimmy Carter. The entire change of life, the dressing for linner and the servants behind one's thair and all the formalities of a vell-regulated household brought Esher to a sense of responsibility hitherto unknown to her.

"Jimmy," Esther said, "I cannot mary you. My soul it back in the counry. I feel like a prisoner beating the itone walls for freedom."

He took her hand within his own and slipped the ring from her finger. 'I will have this made into a penfant, and when you wear it just renember that I loved you deeply enough to set you free.'

He did not look into Esther's eyes, out turned away toward the curained window and stood there looking out over the city streets. Jimmy was not seeing anything out there. Instead, he was looking forward to a 'ew years distant when he would have erased the vision of Esther from his ghum should be planted. Part of life thoughts. The blankness brought a heavy sigh from his lips and he closed his eyes.

He opened them because Esther had slipped over to his side and her head drooped softly onto his shoulder. She was weeping nervously and Jimmy's arms swept comfortingly about her.

"Never mind, little girl," he said. "It was my own fault for being so conceited as to imagine I could take the place of all the wonderful things that filled your former life - your family, the beautiful country as well as Barney, Billy and Bobs." In spite of himself a slight spasm of pain shot over Jimmy. It was difficult to realize that Eather might some day belong to another man.

Esther's sobs ceased suddenly and she looked wonderingly up at Jimmy. For the first time in her life Barney, as a possible lover, had been suggested to her. The thought sent a wave of hot color over her cheeks and Jimmy released her from his arms.

"After all, Esther," he said as an added consideration, "I am going to ask you to wear this ring just until you are on the train going home. Parents are bound to blame the other fellow in a case like this and my parents are only human. I would rather not have them know - until you are gone. Do you mind?"

Esther was trembling violently and Jimmy only drew her tenderly into his arms, so that he seemed to be holding her against a world of emotions. Manlike, he smoothed back the soft hair from her brow and planted

"I would rather live in a prison all my life," she said, brokenly, "than to live apart from you." She looked up and smiled contentedly.

Story With a Moral. Mrs. Duck was waddling along the river bank one day, when she met Mrs. Giraffe. Putting her head on one side, she said:

"Good morning, Mrs. Giraffe, I hope you are well." "Just as well as you are, down

on the ground," replied Mrs. Giraffe. "Who's down on the ground," asked Mrs. Duck.

"You are," replied Mrs. Giraffe, "and you annoy me by speaking to me." "Never mind," answered Mrs. Duck;

"I may be down on the ground, but I can see the little blades of grass coming up from the ground and the little flowers as they come into bloom. Humph! You are way up there among the trees, with your long legs and long neck. I can swim, too, and you can't, so there!" And with that Mrs. Duck walked into the water and swam away. Mrs. Giraffe's head was so high it

was near the limb of a tree on which sat a little bird. Hearing a funny little voice Mrs. Gi-

raffe turned and saw the little bird, who said to her: "Your legs are long, the duck's are

short. Why worry?" Then they both laughed and Mrs. Duck dived after a worm and left a splash in the river.

#### Good Recital

The piano forte recital given by the pupils of Miss Minnie Coffin on Tuesday evening at the high school auditorium was largely attended and was fully up to the standard of the other excellent recitals which have been given recently.

The execution of the different numbers was not only pleasing to held. the ear, but it demonstrated the character of Miss Coffin's work and the truly excellent results of her methods.

Seldem in a program of such length, especially when so many of the performers are children is found so much that is creditable, and taken as a whole, it gave evidence of the painstaking work of a competent teacher and was highly pleasing to the parents and friends of the young' musicians.

### In Hereford Two Days.

The Jacob Brothers, owing to the demand for the services of their fine saddle stallion, have decided to have him in Hereford two days each week instead of one as announced. He will be here Fridays and Saturdays of each week during the season. This is one of the best saddle horses in the Panhandle, as all who saw him here last Saturday will acknow-
