It Did Happen-Quite a Stirgin Social , their newly-elected, painfully Circles!

A most unique activity bestowed itself upon some forty-one of Hereford's young people. Such was a Royal Thanksgiving Celebration novelty given by the Sunday School Class of Mr. C. B. Under the spell of a hearty, magnetic greeting and corollal welcome into this ecstatic atmosphere all were soon ting-ed deeply in the joyous spirit of the evening and delightfully mingled amid the bubbub and excitement of varied games duly registered by Miss Doris Bowers on cleverly hand-tinted talleys of "Turkey-design"; |until a dainty luncheonette was artfully served as Mr. Nobles' effective tenor tried the acoustics of the elegantly decorated sception parlors, geniously devised by nary talents ingratiated themselves with steaming aromotous coffee and whipped cream; compelling pumpkin ples; tasty pressed chicken sandwiches relishable dill-pickles and

These new Studebakers—the FIFTY norse power SIX at \$1085 and the FORTY horse power FOUR at \$875 are striking examples of the Studebaker ideal of beauty-nothing freakish or faddish but modest and dignified in design. The new Ford cars are up-to-the-minute in appearance, with large radiator and enclosed fan, hood with full streamline effect, crown fenders front and rear, black finish with nickel trimmings -a snappy looking car and with all the dependable, enduring and economical qualities that have made the Ford "The Universal Car." One fact is worth more than a ton of guesses. Ford ears are selling from five to ten over any and all other cars simply becouse they give more satisfactory service, last longer and are easier to operate and costs less to maintain and there's no guessing about the reliability of Ford Service. Which Do You Prefer?

Pullman or Freight?

No one would think of riding in a freight car if he could enjoy the comfort of a big, comfortable easy riding Pullman parlor car.

So with automobiles. Most of the popular priced cars ride like freight cars. This is due to the old fashioned type of spring.

Many manufacturers still continue to use them.

The Overland does not. The 75 B Overland has the latest type of cantilever shock absorbing springs: As a result it is one of the easiest riding cars in the world: One demonstration will prove this. \$635 f. o. b. Toledo.
