

THE GREAT CLEAN UP SALE

A POPULAR SALE FOR THE MASSES

We have leased the north room of the new Connally building for a period of five years and expect to occupy this room as our headquarters after the 1st. We shall reduce our stock to a minimum, and are going to inaugurate a Gigantic Ten Days Removal Sale. We shall turn a deaf ear to the pleading cry of profits, and stick the knife deep, giving you in many instances prices on articles less than manufacturer's cost. We are satisfied with the profits we have made on the goods by your generous patronage. We don't wish to move "old goods to a new building." Our spring goods are now on the road and we need the space for them in our new quarters. Therefore this removal sale promises to eclipse anything of the kind ever offered to the citizens of Clarendon and surrounding country. Remember, this will be a straight-forward, legitimate Reduction Sale. We guarantee satisfaction or will gladly refund all money paid us. Early buyers avoid the crowds and have advantages of first selection.

The New Dormitory.

We are planning the construction of one brick dormitory this year, and two if possible. We must have them to enable us to go forward with the work. A retrograde movement now would cripple the institution for years. One of the main hindrances in the way of this new enterprise is the indifference of many people in Clarendon. The staunch friends of the institution borrowed a large sum of money to enable the school to open Sept. 1. This money is due and must be paid. No new enterprise will be launched until the situation is relieved. To treat the matter at this critical period with indifference is unfair to those involved and hurtful to the institution. Your own personal interests demand that you pay your notes promptly. All those who owe the college should pay in full, if in their power to do so, not later than Saturday. And the citizens of the town and surrounding country who have contributed nothing to the College, but reaped its benefits for years should come forward with a good subscription and enables us to launch the new enterprise. To complete the work we will raise the balance of the money outside of Clarendon.

P. P. P. Cures Rheumatism

Read what Nicholas Lang, the largest retail grocer in Savannah says about P. P. P.

F. V. LIPPMAN, Savannah, Ga.

Dear Sir:—
For many years I consumed much medicine, and in fact tried every means in my power to get cured of that terrible disease, rheumatism, which had undermined my health. I visited Hot Springs, Ark., without gaining relief, and at last in sheer desperation I took P. P. P. (Lippman's great remedy), and was in a short time entirely cured. In the eight years since that time I have not had a symptom of rheumatism.

P. P. P. did the work to my entire satisfaction and made a quick and permanent cure.

Yours truly,
Nicholas Lang.

WE CAN'T HELP IT!

If people come from our sister cities to buy goods from us. You know people are sorter curious about "the almighty dollar." They always want one hundred cents worth of goods when they part with it; and do you blame them? It's a duty man owes to himself to buy goods where his dollar goes the furthest. That's why people come so far to trade with The Cash Store at Hedley. It's a business proposition.

It Pays

Our sales this week have surpassed all previous records. Do you know why? It is easily answered. It pays to trade at

Great Fences

AMERICAN FENCE

Made of wire that is all life and strength—wire that stretches true and tight and yields just enough under impact to give back every jolt and jam it receives.

Made of materials selected and tested in all the stages from our own mines, through our own blast furnaces and rolling and wire mills, to the finished product. Our employment of specially adapted metals is of great importance in fence wire; a wire that must be hard yet not brittle; stiff and springy yet flexible enough for splicing—best and most durable fence material on earth.

To obtain these and in addition apply a quality of galvanizing that will effectually protect against weather conditions, is a triumph of the wiremaker's art.

These are combined in the American and Ellwood fences—the product of the greatest mines, steel producing plants and wire mills in the world. And with these good facilities and the old and skilled employes back of them, we maintain the highest standard of excellence possible for human skill and ingenuity to produce.

Dealers everywhere, carrying styles adapted to every purpose. See them.

FLORENCE WILLIAMS,
Press Reporter.

Donley county is going to take a step which will place her in the foremost rank of Panhandle counties as regards road building. There is hardly a doubt but that an election for a sufficient amount of bonds will be ordered, and that ultimately we will build some roads in the county which will be the pride of the entire Panhandle country. And when once this step is taken it is our prediction that other counties will get into line and that permanent roads will be built all over the country. With good roads added to our other advantages, Donley county will take the lead.
