## HAYTER BROS.

"School Days,  
School Days  
Dear old Golden  
Rule Days"

Grand music will  
it be to hear the  
familiar chimes of  
the school bells.  
Every boy's heart  
beats with rapture  
when he gaily

wends his way toward the old school building. Just as sweet a music will it be to the mothers to know that we have the best and most complete line of school suits ever seen in Clarendon.

We're pleased to announce the arrival of many beautiful Fall Patterns in Boys' School Suits. We invite your early inspection. They're sure to please you in quality, style and price.

We represent and are sole agents for the famous "Viking System" make of Chicago. Each suit is fully guaranteed to give satisfaction or your money will be cheerfully refunded.

School  
Suits  
\$2.50  
to  
\$10.00

### School Shoes

This season we offer to our customers the famous "School Boy's Pride" Shoes, the best school shoe in the world; Radium Calf, Box Calf and Patent Leathers. Sizes 2 1-2 to 6.

\$2.50  
and  
\$3.00

### EIGHTY-ACRE HOG FARM

He Keeps Something Growing all the Time, and Raises 100 Hogs a Year on His Little Farm.

From a bulletin of the Department of Agriculture:

"A good illustration of the successful handling of hogs on a small farm is that employed by a man in northern Oklahoma on an 80-acre farm. He has his whole farm fenced hog-tight and turns off annually from it an average of 100 head of hogs. All these are, of his own raising and are grown and fitted for market with the crops raised on his farm, with the exception that a little corn is occasionally bought. He has 5 acres of alfalfa, and each autumn sows 5 acres of wheat for late fall and winter pasture. In the spring he sows oats to supplement the wheat and alfalfa. The wheat is sown at the rate of 1 1/2 bushels to the acre, about September 1, and furnishes pasture in the fall, when alfalfa pasture is getting short, and, for a part of the winter. The wheat will also furnish some pasture for the hogs in the spring. The oats tide over until the alfalfa is ready for pasturing. Thus green food is furnished for the greater part of the year. The rest of his 80 acres this farmer plants to corn. A part of this feed is fenced off and "hogged down" by the spring pigs in the fall. As fast as the hogs need it the fence is moved over, and fresh corn is taken in. This pasturing is begun at the same time that corn is usually cut up green and fed to hogs, i. e., when it is in the roasting ear stage. This plan of feeding is kept up until the remainder of the corn is all husked from the field. Then the hogs are turned in to clean up the waste corn in the field. Last summer cowpeas were drilled in the corn when it was cultivated the last time. These furnished much valuable feed in addition to the corn.

"In April this man had 20 head of fall pigs averaging about 125 pounds. These shoats had had no feed except wheat and alfalfa pasture and the waste grain they gathered from the field, except a little corn that was thrown to them each day in the late winter and early spring. In April they were put on ground corn for thirty days. During this time each ate an average of one-fourth bushel daily. At the end of thirty days they averaged 225. This makes an average gain of 100 pounds per day, or a little more than 13 pounds of gain for each bushel of corn fed. The market price of corn was 50 cents a bushel. The hogs sold at \$5.50 per hundred, thus bringing 73 1-3 cents a bushel for the corn fed.

This farmer raises two lots of pigs a year, farrowed in March and September, turning off fall pigs in the spring and spring pigs in the fall, selling at 6 to 8 months old. From March 15, to November 1, 1905, he turned off \$20,500 worth of hogs and had 22 head in the fattening pens, all of his own raising and all grown and fattened on the products of his farm.

Another farm in the same locality will serve as an illustration of what may be done with fall pigs in this section. Eighty head ran on the alfalfa and wheat fields of the farm during fall and winter. They gathered roughage and waste grain in the fields and were fed no grain until 6 months old. At this age they averaged 135 pounds. They were then fed some corn on alfalfa pasture, the amount gradually increasing till the pigs were on full feed. Corn was fed for two months, during which time the pigs made an average gain of 14 pounds for every bushel fed. They were sold at 8 months old, weighing 235 pounds each. The price of corn was 45 cents a bushel. This makes the cost of the corn fed \$25.14, or \$5.21 for each hog. At the average price of hogs in this locality, 5 1-2 cents, the herd averaged \$12.62 1-2 per head. Deducting the price of corn fed leaves \$9.71 for each hog to represent the value of the fall and winter pasture, the farmer's labor, profits, etc.

Another farmer ran a bunch of September pigs on alfalfa and wheat pastures until the following May, when they weighed 125 pounds. They received in addition one ear of corn each twice a day. At this time the corn was increased gradually until each hog was getting to ears twice a day, which this farmer claims is the maximum feed for young hogs. They were fed thus for six weeks, making in this time a gain of about 100 pounds a head, and assuming 10 bushels of corn each at a cost of \$3.50 a head, or 3 1/2 cents a pound for each pound of gain on corn. Allowing 4 bushels more as the quantity probably fed up to the fattening period at two ears a day, makes the cost of corn for each hog \$1.90. To this adding \$1.10 a head for pasture and slop (the cost of the slop fed is not known) brings the cost of each hog to \$6.50 a head, or 2 2-3 cents a pound. This allowed a good margin of profit at the mingling place of pork.

W. E. REEVES, PRESIDENT R. H. JONES, VICE-PRESIDENT G. A. WIMBERLY, CASHIER

### A BUSINESS LUXURY

A checking account is, indeed, a business necessity, and he who tries to get along without one is at a great disadvantage. It is not required that a person should have a large bulk of business in order to open an account. Professional men, farmers, and even many women, are running checking accounts. If you have never done business in this way, and are not familiar with the plan, come to us and we will get you started.

### ROWE STATE BANK

HEDLEY, TEXAS

### Sanborn for Congress.

I. W. Carhart, of this city, chairman of the republican district executive committee of the 13th congressional district, went to Amarillo last Saturday and called to order at 10 a. m. the district convention for the nomination of a candidate for congress and such other business as might come up. The nomination was given to Hon. H. B. Sanborn, of Amarillo, one of the district's staunch republican leaders.

Lewis Johnson, of Jack county, was elected district chairman for the ensuing two years, and the usual resolutions were passed, endorsing the candidacy of Taft, the administration of Roosevelt, and ratifying and confirming the doctrines of the party in general.

### Lelia Lake Alfalfa.

Editor Banner-Stockman:  
I noticed in your paper of 14th inst. where my old friend I. J. Brokaw had been exhibiting some fine specimens of alfalfa in your city. While the item did not so state it left the impression that this alfalfa was grown on Mr. Brokaw's farm near Hedley. The truth of the matter is that Friend Brokaw stopped at my place at Lelia Lake and procured this alfalfa from my field. Of course we all know that he was not attempting a deception in exhibiting Lelia Lake alfalfa as from Hedley, but simply forgot to mention where it was grown. If Friend Brokaw will call again I will undertake to supply him with other samples of almost any crop he wishes to brag on, and can assure him that Lelia Lake will produce the kind of stuff to show, no matter what he may desire.

Yours truly,  
J. A. GERNER,  
Lelia Lake, Texas.

### If Your Eyes Trouble You

Call on C. N. Bushnell, the graduate optician, at Dr. Stocking's store, Clarendon, Texas. Eyes tested free. Glasses scientifically fitted when needed. Satisfaction guaranteed. tf

### College Opens.

College opens Tuesday Sept. 1st. All the college and school books and supplies will be found at Stocking's store.

### Are You Insured?

I will be home for Sunday and will occupy my pulpit at both hours, preaching upon the following subject:

"Are You Insured in the Everlasting Life Insurance Company?" Home Office, Heaven.

1. It is strictly equitable, I. John, 1-9.
2. Reliable, II. Timothy, 1-12.
3. A free policy to you, Isa. 55, 1-2.
4. Its dividends are sure and liberal, Matthew, 6-33.
5. One hundred per cent in this life and in the world to come life everlasting, I. Peter, 1, 4-5.
6. No hopeless cases, Mark, 2, 17.
7. Policies are non-forfeitable, John, 5, 24.
8. Christ has paid the premium in advance, Matthew, 20, 28.
9. For full instructions in making out a policy, read John 1, 12.
10. Office hours—just now, II. Corinthians 6, 2.
11. Solicitors wanted, Matthew 20, 4.

J. A. ARNOLD,  
Pastor Christian Church.

### Kansas-Grazed Texans Sell High.

Lewis & Molesworth, of Clarendon, recently had on the Kansas City market 63 head of their steers grassed in Kansas averaging 1,117 lbs, which were sold by Clay Robinson & Co. at \$4.25, this price being the highest of the season for Kansas-grazed Texans of so light weight. In fact, the only sale of cattle of this class this season to compare with the above was a string of heavier beeves averaging 1,224 lbs, the sale of which on the preceding day is reported by Clay Robinson & Co. at \$4.30.

College students take notice: We have a full line of artist's supplies, such as Winsor & Newton oil and water colors, brushes, Whatman's water color paper, Strathmore Royal charcoal paper, and anything else you may need in the study of art. McKillop & Goodman. tf

Notice.  
Dr. Albert J. Caldwell, Eye, Ear, Nose and Throat, New Carson Building, Amarillo, Texas.

### ...THIS BANK...

### Wants Your Business

We confess it. On the other hand, we know we are justified in thus asking your patronage. We not only offer our depositors every facility to be found in a modern institution, together with courteous consideration and the best of service, but we also assure you of security for your money, strength and stability in management and methods. We will appreciate your business.

### The First National Bank

CLARENDON, TEXAS

## Big Sale of Real Estate

The Western Real Estate Exchange reports business extremely active. During the past five weeks, they have sold \$93,428,000 worth of property, and during the past ninety days they have sold \$120,987,000 worth of property. From the numerous inquiries they are receiving, they feel assured of a still larger volume of business in the near future. The following is a list of their recent sales:

C. W. Bennett to H. W. Hankins, 160 acres 2 miles south of Clarendon	\$4,800.00
D. O. West to E. A. Riddle, 188 acres 7 miles west of Clarendon	3,384.00
Julia W. Beverly to E. A. Riddle, house and 1-4 block in Clarendon	2,650.00
H. G. Shaw to W. C. Rackliff, 80 acres 5 miles west of Clarendon	1,200.00
J. H. Reeves to W. E. Mills, one block in Clarendon	1,000.00
Guss Johnson to H. T. Decker, one block in Clarendon	600.00
Thos. S. Bugbee to W. B. Holsclaw, 250 acres 2 miles west of Clarendon	6,425.00
Walter Knorpp to W. C. Fritz, 160 acres near Groom	2,720.00
Walter Knorpp to Wm Zimmerman, 320 acres near Groom (in Donley Co.)	11,400.00
J. D. Camp to Mrs. S. L. Warren, house and 1-4 block in Clarendon	2,750.00
E. A. Riddle to P. J. Olson, 188 acres 7 miles west of Clarendon	3,948.00
Cornelia Adair to B. F. Flowers, 500 acres 7 miles west of Clarendon	7,500.00
A. P. Warner to B. W. Quigley, 150 acres at Southard	4,000.00
Jno. W. Knorpp to Fred Zimmerman, 320 acres near Groom (Donley Co.)	7,040.00
Jack Twyman to I. C. Riddle, 150 acres at Southard	3,000.00
W. A. SoRelle to W. E. Day, 320 acres 6 miles north of Rowe	2,640.00
Jno. W. Knorpp to J. K. Homer, 320 acres near Groom	3,840.00
Floyd Countiss to J. H. Poldrack, 248 acres 3 miles south of Clarendon	6,000.00
Walter Knorpp to Mrs. M. Poetzell, 788 acres near Groom (Donley Co.)	17,730.00
H. L. Braly to D. C. Priddy, two blocks in Clarendon	1,000.00
Jno. W. Knorpp to J. Anderson, 320 acres near Groom	5,120.00
S. J. Krouskop to Andrew Benson, 156 acres at Southard	4,000.00
J. Herring to Joseph Kuehler, 648 acres near Groom (Donley Co.)	12,960.00
Walter Knorpp to F. Kinishmire, 320 acres near Groom (Donley Co.)	5,280.00

Total amount of sales \$120,987.00

Aside from these sales, and as reported in last week's issue of the Banner-Stockman, the Western Real Estate Exchange rented B. W. Chamberlain's four sections two miles south of Clarendon for five years to M. Weisenfeld, of Amarillo, for a cash consideration of \$22,000.00, all of which makes a record of which they can justly be proud.

With the exception of one or two of these sales, they were all made for property in Donley county, and we venture to say that taking all of these sales, together with those made by other agents and private parties, there is no county in the Panhandle that can duplicate the record for this length of time. 45-11

## School Supplies

The bell will soon be summoning the youngster back to school. Attending to their needs will be an important item. The greater your needs the larger the saving to you here.

Boys and misses ribbed hose special values, down to	10c
Large assortment writing tablets, down to each	2c
Best letter ink on the market for only	5c
Wax crayons, assorted colors at, per box	5c
Rules, pencils, erasers, handkerchiefs, pencil boxes, pen-holders, etc.	

## THE FAIR

Mulkey Bld. Clarendon, Texas

### Baptist Church.

Sunday at 11 a. m. the theme will be: "Foundation Building," text Rom. 15:20. It shall be shown that foundation work is always the hardest. But Paul was not in search of a fine parish and a fat salary. He was not seeking a rich synagogue already built. He went nowhere in the foot prints of men, but went first and bore the fruit of opposition and persecution. Laying foundations is no small business, for in proportion as you go up, you must first go down and your work is hidden out of sight and you get few thanks. Then men can't see the outcome of their work nor know its far-reaching results on generations to come. Preaching at night also by the pastor. Especially all the members are requested to be present.

### The Oddity Club.

The Oddity Club held its regular meeting Wednesday with Miss Ethel Teague. The weather was very inclement, but the girls ventured out, and they certainly spent a pleasant afternoon.

A guessing contest was one of interesting features of the afternoon. Miss Zoe O'Neill won first prize and Miss Emma Sue Wilson won consolation prize.

We were ushered into the dining room which was beautifully decorated with the club colors, and were served with delicious cream and cake.

We took leave of our hostess wishing that she would entertain again next Wednesday.

MABEL SMITH,  
Press Reporter.

### POTPOURRI MAKING.

How to Prepare and Select the Various Ingredients.

For a dweller in the country or the garden surrounded suburb the following suggestions for gathering and preserving the sweetness and fragrance of the spring and summer for decoration in the winter months by setting up a potpourri jar are recommended to every young girl who has access to a garden or the fields and woods.

Any one of the quaint and pretty patterns of rose jars procurable at any big shop will answer for holding the potpourri itself, which consists not only of rose leaves, but of the petals and leaves of any sweet scented plant. The putting up of the potpourri consequently extends through spring and early summer. Just as the different blossoms come out. There are a few general directions which must be closely followed in making potpourri. The rose jar itself, as also the vessel in which the potpourri is mixed, must be perfectly new—must never before have been used. The salt used in the making must be toasted in the oven to insure its absolute dryness. The blossoms and leaves must be young and tender when gathered, entirely unwilted and must be used when perfectly fresh—not after lying by or standing in water. The ingredients must be thoroughly stirred up at least once—better twice—a day, and when the potpourri is all gathered and mixed it should be exposed for two or three weeks to the heat of the August sun.

Here follow two recipes for potpourri ingredients. They are copied from an old book handed down from mother to daughter in a German baronial family and have been followed, as have also the general instructions given above, and found reliable and satisfactory even in the present generation:

First.—One pound fresh pickled orange blossoms, half a pound of roses, half a pound of mace, half a pound of lavender and four ounces of marjoram leaves, four ounces of carnations, four ounces oxalis, one ounce rosemary, one ounce cloves and half an ounce of bay leaves.

Second.—One pound of orange blossoms, one pound of roses, half a pound of red carnations, half a pound each of marjoram and myrtle, two ounces each of nutmeg, thyme, lavender, sage, camomile and sweet basil, fifteen or twenty bay leaves and three handfuls of jasmine. Let the mixture stand for a month, stirring twice a day, and then add ten ounces of powdered orris root, two ounces of cinnamon and two of cloves, with six drams each of yellow sandalwood and cyper.

Both the above recipes call for half a pound of salt—absolutely dry—to draw out every bit of perfume.

### How to Make Milk Safe.

Scientific investigations have proved that milk in a raw state should never be given to children. Those who cannot buy pasteurized milk should pasteurize it at home. This can be done by observing these simple directions:

First.—Bring the milk slowly to a boil, and when it reaches the boiling point bottle it instantly, cork tightly and cool it.

Second.—Never feed milk that is more than twenty-four hours old to an infant.

Third.—Keep the milk near ice and never leave a milk bottle uncooled.

Fourth.—Cleanse and scald all bottles before re-filling.

Careful observance of these directions will insure against babies contracting disease from impure milk.

### How to Reduce Fat.

An excellent and highly effective exercise for the removal of abdominal fat is taken as follows: Lay flat on the back on the floor and place the hands at the sides. Catch the toes under something to keep the feet down and keep the knees stiff. It is well to catch the toes under the edge of the dresser, as there is no danger of this being moved by the exercise. Take a deep breath and rise slowly to a sitting position. Lower the body, slowly expelling the breath. Be careful not to overstrain the muscles while practicing these movements.

### How to Clean Doors.

Doors and window frames require special attention at cleaning time. Clean the paint with warm water and a little ammonia. Take a clean soft flannel and wet as much as the arm can reach. Wash and wring the flannel and rub the paint till quite clean. Dry the surface thoroughly and polish with a soft cloth. If the paint is left damp it shows the marks of the washing and loses its polish. For very light paint wring a cloth out of hot water, dip it in whiting and rub till quite clean. Then wash it and polish with a clean wash leather.

### How to Free Clogged Drainpipes.

A convenient and inexpensive way to open up a clogged drainpipe is to pour a half cup of gasoline in the sink or basin drain which is clogged and to allow it to stand for about an hour without letting the water run. The result will surprise you and save the trouble and expense of a visit from the plumber.

### How to Economize in Ice.

Fifty pounds of ice every other day will last better and keep the icebox colder than twenty-five pounds a day. Besides, you save the ice man three calls a week and yourself his wet footprints; also you buy the ice tongs only one-half as often.

### How to Clean Plaster of Paris.

The plaster of paris figures which have become dingy may be brushed with a soft brush and then washed with warm soap suds without injury.

# Still in St. Louis

### How to Water Flower Beds.

If the soil is good stiff loam and you have frequent showers you do not need to supply any water. If your soil is sandy and the weather dry it is beneficial to water every day. Geraniums seldom need watering when growing in good garden soil. With much water they grow too much and flower sparsely. Canas require rich soil and plenty of water. Coleus and plants of this character do not require much water. For them and geraniums we prefer the suburban life. Frequent hoeing to watering. Careful watering is the hardest thing to teach an inexperienced hand both in the greenhouse and on the lawn. If using a hose, sprinkle carefully, having just enough force to water without washing the ground. Hold the sprinkler near the ground, and see that the water goes where you want it. In this way the ground will become thoroughly soaked. Never stand off and throw water at a flower bed. Geraniums should not have the flower heads watered if you can avoid it, as it spoils them completely. In the evening after sundown is the best time to supply water, as the plants have all night to take up the moisture, for water is soon evaporated under the combined effects of wind and hot summer sun.

### How to Cure an Oily Skin.

If your skin is inclined to be greasy you must take some care about your diet. Such things as rich soups, pastry and hot, highly seasoned dishes must be really left alone. Instead of using soap wash your face with oatmeal. Just take a little oatmeal in the palm of your hand, make it quite damp, and then rub it over your face as you would do soap. This oatmeal must be well rinsed off afterward, and when the face is quite dry bathe it with the following lotion: Sulphate of zinc, thirty grains; eau de cologne, one ounce; rosewater, two ounces. Use this twice a day. Stewed fruit of all kinds are good for you, and last thing at night, also every morning, you should make it a practice to eat an apple.

### How to Wash an Auto.

In washing an automobile use plenty of water. Two sponges should be used and two chamols skins, one set being used for the body and the other set for the chassis and running gear, since the chassis and running gear will always be more or less oily, and there is no excuse for getting on on the body. When a car comes in at night covered with mud, under no circumstances should this be allowed to remain on overnight and harden. The car should be immediately run on the washstand and the mud softened by showering the car with cold water. Do not attempt to rub the mud off, but allow it to be taken off gradually by the water.

### Lelia Lake Local.

Lelia Lake, Texas, Aug. 26.  
Editor Banner-Stockman:  
A nice rain fell Sunday afternoon. Five crops.

Mr. and Mrs. Roberts, of Ennis, and Clark Cook, of Dunn, have been visiting J. D. Cook the past week.

The new school building will be finished this week and the school will begin the 14th of Sept.

V. S. Holcomb and wife, of Decatur, have been employed as teachers.

W. B. Sims and family will move to Clarendon this week. While we regret to see these good people leave us, we feel sure that our loss is the Clarendon peoples' gain.

H. C. Jackson is having a new barn erected.

Mr. Will King and sister were visiting in Memphis Saturday and Sunday.

Jack Reid and wife, of Strawn, are visiting their father, J. L. Reid, of this community.

Eula Cook visited Edna Smith of our city Saturday and Sunday.

Tine Mace and wife are here from Mexico.

The Lelia ball team played the Rowe boys Tuesday afternoon. It resulted in 8 to 21 in favor of Lelia. "Three cheers for Lelia!"

### CHEERFULNESS.

The Campaign is on in Earnest—Who Will be President?

To form your opinions and keep in touch with the progress of the campaign, you will need first class newspapers.

We have an arrangement whereby you can get the Dallas Semi-Weekly News, and the Banner-Stockman both for \$2.25 cash.

This gives you a live metropolitan paper and a live local paper, 3 papers each week, not only through the campaign and election, but for one whole year.

Place your order NOW, with Banner-Stockman.

Don't send out of town for your typewriter ribbons, carbons, and papers when you can get them here and save money. Phone No. 2 and the Banner-Stockman will deliver. Finest typewriter oil, 10c a bottle.

### Notice.

# THE GREATEST SUBSCRIPTION AND EDUCATIONAL OFFER EVER MADE

The Fort Worth Semi-Weekly Record, The Oklahoma Farm Journal and The Banner-Stockman, together with the New Home Library Wall Chart, showing splendid maps of Texas, the United States and the World, all four for only \$2.00.

The Semi-Weekly Record is easily the best paper in Texas, Tuesday and Friday, twice a week. The newest, best, brightest and biggest Great Southern Newspaper.

The Record presents at one sweeping view the whole area of events. The news of the county, state, nation and the world is given in each complete issue. Special departments each week that will interest every member of the family.

The New Home Library Wall Chart, for home, school, college, business and professional reference is positively up-to-date. Similar charts sell regularly in educational supply stores for \$1.50 and upward. Size of chart, 28x36. Number of pages, 6. Portion of contents: Ten distinct maps; flags of all nations; portraits of all our presidents, portraits of all rulers; portraits of all governors of Texas; maps of Panama, the United States, Texas, the Philippines, and of the world. Nothing approaching it in educational value ever before produced.

Price of the chart alone \$1.50.

Oklahoma Farm Journal, Oklahoma City, edited by John Fields, who was director of the Oklahoma agricultural experiment station from 1899 to 1906. Published semi-monthly. Subscription price: One year, 50c; three years, \$1.00; for life, \$5.00. Stop when time is out. Absolutely non-political. Gives just the news and information that the farmers of the Southwest want. Now read by more than 30,000 of them.

## The Great Proposition

Remember, The Banner-Stockman one year, The Oklahoma Farm Journal one year, The Semi-Weekly Record, Tuesday and Friday, for one year, and the splendid wall chart, all four for \$2.00 when called for at this office. Fifteen cents extra is charged to cover postage and packing if the chart is to be mailed to you instead of being called for at this office.

The Banner-Stockman, one year	\$1.50
The Oklahoma Farm Journal, one year	.50
The Semi-Weekly Record, one year	1.00
The Wall Chart	1.50
<b>Total</b>	<b>\$4.50</b>
<b>All Four for only</b>	<b>\$2.00</b>

Or the Semi-Weekly Record one year and the Wall Chart for \$1.00 at this office; 15c extra if the chart is to be mailed to you. This is the greatest value for your money ever offered. Act now. Order at once, as our supply of charts is limited. Address all orders to

## HIGHWAY DRAINAGE.

Tiles Are Best For Gravel or Stone Roads.

### SOME POINTS ON THE WORK.

**Underdrainage Below Surface With Farm Tiles a Great Protection—Side Ditches That Hold Water Make an Inferior Roadway.**

The drainage, says Professor Ira O. Baker, is the very best preparation for a gravel or a stone road. Gravel or broken stone placed upon an undrained foundation is almost sure to sink gradually; whatever its thickness, whereas a thinner layer upon an underdrained roadbed will give much better service. "Roads tiled without gravel are better than roads graveled without tile."

The road should be underdrained so as to keep the water level well below the road surface. In most localities this can be accomplished reasonably well by laying a line of farm tile three or three and a half feet below the road surface along one side of the roadway. It is sometimes claimed that there should be a tile on each side of the road.

Some writers on good roads advocate the use of a line of tile under the middle of the traveled portion, and some advocate a line on each side of the wheelway. The object sought by these tiles is rapid drainage, and therefore it is urged that they should be laid near the surface. It is doubtful whether any water will reach the tile, since the road surface when wet is puddled by the traffic, which prevents the water from passing through the soil, and it is certain that in clay or loam the drainage thus obtained is of no practical value. More than one farmer has tried to drain his barnyard by laying tile near the surface, always without appreciable effect.

While a line of tile on one side of the road is usually sufficient, there is often a great difference as to the side on which it should be laid. If one side of the road is higher than the other, the tile should be on the high side to intercept the ground water that is flowing down the slope under the surface.

The tile should be laid in the bottom of the slit ditch below the frost line. Of course the tile should have a uniform grade and a sufficient fall and an adequate outlet. The size of the tile required will depend upon the length of the line and the grade of the ditch, but local experience in farm drainage is likely to be a better guide than any general statement that can be made. Farm drainage is almost certain to precede road drainage in any particular locality.

The side ditches are to receive the water from the surface of the traveled way and should carry it rapidly, and entirely away from the roadside. They are useful also to intercept and carry off the water that would otherwise flow from the side hills upon the road. Ordinarily they need not be deep and if possible should have a broad, flaring side toward the traveled way to prevent accident if a vehicle should be crowded to the extreme side of the roadway. The outside bank should be flat enough to prevent caving. The proper form of ditch is easily made by the usual road-machine or road grader. The side ditch should have a free outlet into some stream so as to carry the water entirely away from the road. No good road can be obtained with side ditches that hold the water until it evaporates.

Much alleged road work is a positive damage for this reason. Piling up the earth in the middle of the road is perhaps in itself well enough, but leaving undrained holes at the side of the road probably more than counterbalances the benefits of the embankment. A road between long artificial ponds is always inferior and is often impassable. It is cheaper and better to make a lower embankment and to drain thoroughly the holes at the side of the roads. Often the public funds can be more wisely used in making ditches in adjoining private lands than in making ponds at the roadside in an attempt to improve the road by raising the surface.

### New Dust Killing Machine.

Consult General Robert J. Wynne reports that a new tar spraying machine which the makers claim will do away with the dust nuisance has been tested on the roadway in front of the Horticultural Hall, Westminster, London, before practically the whole of the municipal engineers, a large number of county surveyors and suburban engineers and two representatives appointed by the war office. After the tar spraying process a second machine scattered a level layer of granite grit and chips upon the tar, which when rolled formed a road with a fine, smooth surface, durable and dustless. A tar macadam road made in this way costs from 3s. 6d. to 4 shillings (\$5.70, 97 cents) a square yard as against ordinary macadam, which costs on an average 2s. 6d. (60 cents) a square yard.

### Useful Trees For Roads.

French roads are commonly bordered with shade trees. This is believed to be a protection of the roads against the effects of excessive heat and drought. Only such trees, however, are considered useful as have vertically descending roots. The spreading roots of other kinds might damage the road.

### Preventive of Mud.

Thin asphalt as a dust and mud preventive is used in preference to all other materials by the highway authorities of the District of Columbia.

## COOKING IN CAMP.

How to Prepare Simple but Appetizing Dishes.

Confronted by the conditions existing in a camp kitchen, which differ somewhat from those of a modern town chef's realm, cooks are apt to spoil the broth by trying to do too much or construct too elaborate dishes. The simplest foods are most appetizing when camping, and they are the best to eat. They should be simply prepared. Coffee made in camp has a different flavor from that made anywhere else. An experienced camper gives this rule for making it, says the New York Herald:

Have the coffee ground fine, place eight heaping dessertspoonsful in a hot coffeepot, add two quarts of boiling water and set the pot near the fire for a few minutes. The coffee should never be boiled. This amount is for four persons.

To make chocolate the same authority says: Take two heaping dessertspoonsful of milk powder and eight dessertspoonsful of chocolate. Add a little water and make a paste. Then pour in two quarts of boiling water and add a little sugar.

**Biscuits.**—Take two pints of flour to which have been added two heaping teaspoonsful of baking powder and sift into a bread pan. Add one level teaspoonful of salt, some cold pork fat the size of an egg and mix all together thoroughly while dry. Add six heaping dessertspoonsful of evaporated milk or twice as much fresh milk with enough cold water to make as soft a dough as can be rolled on the bread board, which has been sprinkled with flour. Roll the dough about one-half inch thick and cut into circles with a china or tin cup the rim of which has been dipped in flour, or use a knife. Place the circles in a greased or floured pan, set in the rack of the baker before the fire and leave until light and brown on top.

**Corn Bread.**—Take one pint of flour and one pint of cornmeal and put in the bread pan, with two heaping teaspoonsful of baking powder, one level teaspoonful of dried egg, one teaspoonful of sugar and cold pork fat the size of an egg. Mix thoroughly while dry. Add six heaping dessertspoonsful of evaporated milk and enough cold water to make a thick batter. Stir until well mixed and pour into a greased pan. Place in the rack of the baker and stand the baker in front of the fire.

**Griddlecakes.**—Take two pints of flour to which have been added two teaspoonsful of baking powder. Add one level teaspoonful of salt, two dessertspoonsful of dried egg and mix together dry. Mix with six heaping dessertspoonsful of evaporated milk and enough cold water to make a creamy batter. Do not have the batter thin. Fry in the frying pan, which has been greased with a piece of pork fat.

**Boiled Rice.**—Thoroughly wash and rinse one cup of rice in cold water, drain and place in about two quarts of boiling water in an uncovered pot, add two teaspoonsful of salt and boil steadily for ten or twenty minutes, adding water, if necessary, as the rice boils. When tender, drain and place near the fire to dry it a little.

**Hasty Pudding.**—To a quart of boiling water add half a teaspoonful of salt and stir in slowly a cupful of cornmeal. Boil ten minutes, stirring constantly to prevent scorching. Hasty pudding served with milk and sugar makes an appetizing and wholesome dish.

### How to Clean Tan Leather.

The knowledge that tan leather is hard to clean at home keeps a great many people from wearing it as much as they would like. Unless one is very careful the efforts of renovating make it become dark and streaked in places. Heavy tan gloves, which are almost every one's greatest comfort, can be kept in good condition by taking a damp rag and rubbing it over the surface. This removes the dirt and restores the original color. Yellow shoes, which no girl considers herself in the latest style without, can be cleaned by putting a few drops of turpentine on a woolen rag and rubbing them evenly all over. When dry, polish with a soft brush, and they will look like new.

### How to Clean Cretonne.

To clean cretonne it should first of all be thoroughly shaken in the open air and then washed in bran water without rubbing. Rinse in a second bowl of bran water, to which salt and vinegar have been added in the proportion of one tablespoonful of each to a quart of water, in order to prevent the colors from running. Wring tightly and roll up with a fold of clean towel between each roll. Using a heavy hot iron, iron the cretonne on the wrong side until it is quite dry. As the bran water itself stiffens, there is no necessity for starching.

### How to Banish Moths and Roaches.

Salt prevents moths from getting into the carpets. To clear a house of cockroaches put powdered borax into a tin with a perforated lid and dust the borax into cupboards, about the stove, on the floor and everywhere the roaches are found. Use the borax steadily in this way for a time, and you will find that the roaches disappear entirely. This remedy is perfectly safe, for borax will not injure dogs, cats or other animals.

### How to Keep Belts and Ribbons.

A convenient way to keep belts, ribbons and collars in order is to use a curtain stick or old cane. Wind around it some colored cambric or ribbon. Place two large hooks in the wall so that they extend slightly. Place your stick on hooks and you have a neat rack. This saves much time and keeps your bureau drawers tidy.

## WASHING SUMMER DRESSES.

How to Fix the Colors and Prevent Fading.

An excellent laundress who has never been known to fade a summer frock says she has a special "fixative" for every color.

Alum used in the rinsing water will prevent green from fading. A handful of salt thrown into the rinsing water will set blue.

Ox gall is good to use for gray and brown. Hay water made by pouring boiling water over hay is excellent for washing tan or brown linen.

A tablespoonful of black pepper stirred into the first suds in which cottons are washed will prevent colors from running.

Five cents' worth of sugar of lead crystals dissolved in a pailful of water makes a solution which fixes the tone of pinks, blues and lavenders. The fabrics should remain in the sugar of lead bath half an hour or so before going to the suds.

These baths will not prevent a garment from fading if it is hung in the sun to dry. Delicate colors—in fact, any colors at all—are safe if dried in the house.

Vinegar is useful in reviving colors. Add one teaspoonful of common vinegar to each quart of cold rinsing water. Thoroughly saturate the article, wring tightly and dry quickly.

If the color has been taken out of silks by fruit stains, ammonia will usually restore it.

To wash brown Holland dresses, use bran, but no washing soda and no soap unless the skirt is very dirty. Boil two handfuls of bran in one quart of water and strain through muslin. Put the bran on to boil again, as you will require a second supply of bran water for rinsing.

Cool the water by adding one quart of cold water to it. Then wash the skirt. You will be surprised to see how the bran extracts the dirt. Rinse first in bran water, then in plain water. Put the article through a wringer and iron while damp on the wrong side.

### How to Make Cement.

Something which the suburbanite frequently needs in small quantities, but which he rarely has on hand, is a good, quick setting cement for uniting small fragments of iron, setting wooden handles into tools and a hundred and one other small jobs. A very good cement which will answer almost any requirement may be made by dissolving common orange shellac in enough alcohol to form a paste. This may be kept on hand in a tightly corked bottle with a wide mouth, tightly corked, or the alcohol will evaporate. When it is desired to use the cement place as much as it is desired to use in any small tin vessel and set the paste on fire. The alcohol will soon burn out, and the cement should then be quickly used before it has time to cool. This cement is very strong and is waterproof.

### How to Make a Pot Roast.

Purchase beef suitable for a pot roast, lay in an iron pot, with salt and pepper and four tablespoonfuls of vinegar, an onion and carrot, sliced fine. Cover with boiling water, cooking slowly for two or more hours, or until the meat is well done. Then heat a skillet hot, adding a few tablespoonfuls of choice butter. Lay the meat in the same, searing it on all sides. Put the roast back in the pot, making a brown gravy by adding flour to the butter in the skillet and the gravy in which the meat was cooked, with a small measure of tomato catchup and some mushrooms, if liked. Serve with mashed potatoes and Yorkshire pudding.

### How to Make a Belt.

If the belt for a woman is made of silk, cut it on the straight of the goods. Make it two and a quarter inches longer than the size of the waist. This allows for seams and the lap. For a stout person the belt when finished should not be more than half an inch wide, while the slim woman's belt may be an inch wide when finished. To the outside of the skirt stitch one edge, taking off a three-eighths of an inch seam. Turn the edge which remains over the top of the skirt and thru another three-eighths of an inch seam. Stitch either by hand or on the machine.

### How to Break a Cold Quickly.

In addition to the ordinary precautions to break a cold, such as taking a few grains of quinine when first felt or six or ten drops of camphor on a lump of sugar if the cold be in the head, it is well to live carefully till the disease is conquered. Drink plenty of cold water, eat sparingly, avoid coffee and other stimulants and be careful not to overfatigue yourself or expose yourself to drafts. This does not mean, however, living in hermetically sealed rooms, as colds usually flee more quickly if one has plenty of fresh air.

### How to Remove Spots From Clothing.

To remove grease or similar spots from clothing with gasoline without leaving the objectionable ring when dry first dampen with water around the spot to be cleaned. Sponge spot inside of ring with gasoline in the usual way. Hang in the open air a few minutes and press. This will positively leave no ring.

## AGRICULTURAL AND MECHANICAL COLLEGE OF TEXAS

H. F. HARRINGTON, LL. D., President  
Thorough Training in Practical Science

Regular four year course in Agriculture, Animal Husbandry, Horticulture, in Architectural, Civil, Electrical, Mechanical and Textile Engineering. A TWO YEAR COURSE IN PRACTICAL AGRICULTURE. Instruction also in English, History, Mathematics, Drawing, Physics; Chemistry; Modern Languages.

## GIVE A DOLLAR.

In accordance with a request from the National Democratic Campaign Committee the Banner-Stockman herewith starts a fund for campaign purposes. All who believe in a government "for, of and by" the people should contribute to the "Bryan and Kern \$1.00 Campaign Fund." The money should be sent or handed to the Banner-Stockman. We will in turn remit it to the treasurer of the national committee, Governor C. N. Haskell, of Guthrie, Ok. Now everybody get in line with your dollar. The list to date:

Banner-Stockman	\$1.00
J. F. Woodward	1.00
A. M. Beville	1.00

The editor of the Wellington Times is getting out a much better paper since the primaries.

MORE sidewalks and better streets is one of the city's crying needs. How shall we get them?

PLAINVIEW voted to issue sewerage bonds. One by one these Panhandle towns come to their senses. It's up to Clarendon.

JOHN B. HAWLEY says Clarendon can put in a sewerage system for \$20,000. Say, let's vote it \$40,000 and put the extra twenty thousand on street improvements!

AND now comes Vernon with a bond issue to be voted on September 10. Vernon wants sewerage and waterworks, city hall and high school building, and will vote on an issue of \$41,000. Great guns; that amount of bonds would scare some Clarendon people to death!

A PLAN is now on foot to pipe Donley county water to Childress in order to furnish that city with an adequate supply of the "pure stuff." This is not a joke, but Memphis parties are actually said to be figuring on the proposition. Plenty of good, Donley county water is all Childress ever did need to make a big city.

THE Mineral Wells Index is responsible for the following anti-prohibition argument: "The ladies of a neighboring town on the day of election took an active part in scattering local option literature and pinning flags on the voters. In the evening they had a lot of literature left and threw it over into a dairyman's cow pasture. The cows ate the literature and every cow in the pasture went dry."

After wrestling with a threatened strike of the pressmen and overcoming that danger last Saturday, the Evening Telegram of Fort Worth found real trouble on its hands Monday. Editor Webb was missing from his desk, and the working force without a head was crippled. Sleuths sent out to learn if he had been kidnapped, finally located him at home, looking after the welfare of two Misses Webb, who had just joined the family, and claiming them as the biggest "scoop" of his life. All are doing fine, and congratulations are profuse.

OUR old friend, R. Aubrey Terrell, has acquired the editorial and business management of the Canyon City News, and in his first issue makes some great improvements in the paper. Aubrey is entirely capable of getting out a good paper and Canyon City is to be congratulated. Away back yonder, some twenty-five or thirty

years ago, (more or less according to whatever he has to say about it) Aubrey and this editor were "devils" together in the office of the Denton County News. We learned to set type, smoke cigarettes, chew tobacco, write editorials, "cuss" and discuss politics, and many other useful items necessary for the thorough education of a genuine "print," imbibing our fund of information from such past masters at the art as C. Will Geers, Harry T. Raines, C. P. Grafton, and others of the old school. We are glad to welcome our quondam companion in iniquity back to the fold. He will make this great and glorious Panhandle country a valuable citizen—the more so in his new capacity as editor.

## ME 'N THE OTHER FELLER

### "CLARENDON HAS GOT THEIR GALL."

During the nine years that we have been in the newspaper business in Clarendon we have never, until this week, known of a Panhandle paper "knocking" on Clarendon College; on the contrary the press of this section has at all times lent its aid to the upbuilding of the school, or at least has had the consideration to let the institution alone. The Mobeetic Texan in its last issue, however, takes the following shot at Clarendon and our college:

Rev. Wilson, the financial agent of the Clarendon College, was interviewing the people of Mobeetic and vicinity Friday, Saturday and Sunday with a view of enlarging the enrollment of the college and asking for donations to build up a new college. Seems to us that Clarendon has got their "gall" to come up here to ask for a public donation to build up their town. We need all the money we can get to build up our own school at home.

"Clarendon has got their gall!" We have no comment to make. Clarendon people will simply consider the source and let the remarks pass, knowing full well that they will do us no harm.

Too numerous to mention is the way we are now compelled to speak of the houses going up in Clarendon.—Banner-Stockman.

Better add a special reporter to your editorial staff so that you can keep step with the growth of your town. But all Texas is so full of prosperity now that it is hard to keep up with what is going on within her borders.—Ft. Worth Star.

The Panhandle Editorial Association held at Clarendon last week was not very well attended by the craft, but from the reports given by those who were present, we form a very favorable opinion of the time that was had. The next meeting will be held at Childress and not a pencil pusher in the district should be absent. It is hard for the association to have half the program cut because those who were to take part did not show up. Many good ideas and much help can be gained by attending these meetings and the editor who misses out—well he is not in it when it comes to the delightful banquets served.—Higgins News.

We are led to believe that Editor Shaw has determined to turn over a new leaf and attend the meetings in the future. Here's hoping that we may meet him at Childress next summer.

The Panhandle is not worrying so much about who will get the official pie in November as what can be done with the crops already raised and to be raised before that time. Prosperity is promised by both big parties. The Panhandle has it; so why worry?—Banner-Stockman.

"Official pie" is an uncertain quantity any way you look at it. You may have it one day and the next day some other fellow will have it, but industry brings in a good living, with no thanks to governors or presidents, and no one can take it from you. Fill your own barn, and the good wife will make plenty of pie for you and the children the year round. The Panhandle seems to be in splendid shape along that line.—Ft. Worth Star.

Of the many comments on the

appointment of R. T. Milner to the presidency of the Texas A. & M. College the following from the Childress Post seems to be the most timely:

R. T. Milner is to be the new president of the A. & M. College. He is at present Commissioner of Insurance and Agriculture and has been renominated to succeed himself. Mr. Milner is probably a good man, as he should be, but we have never heard that he is any sort of a school man. School work is a profession unto itself, as distinct as any other, and one whose mastery requires years of unremitting toil. Hence to appoint a man who has had no experience to the management of one of our best educational institutions is a most hazardous piece of business. Furthermore, there are too many practical school men in Texas who would be glad to have such an appointment to make the appointment of a politician at all necessary or even excusable. Mr. Milner may make a fine school man but if he has had no previous knowledge of the work the chances are against him. School teachers have a hard lot in this life and we believe they are entitled to everything in their profession.

Remember that Denton is to have an election soon to determine whether or not we will have a system of sewers. Under the plan proposed, our taxes will be increased about 10 per cent for about seven or eight years, and then the sewer will be practically free to every man. This is the cheapest way and the best way for Denton to get sewers. If a company is allowed to have charge of the sewer each patron will have to pay at least from \$8 to \$15 per year for the use of them. Let the people own the sewers, and then the cost will be less.—Denton News.

It used to be that a system of sewers was a luxury which it was thought only a large city could enjoy. But we have learned to live better. What was a luxury ten years ago is now a necessity. Towns much smaller than Denton ought to have sewers.—Dallas News.

"One of whom Clarendon is which." That a bond issue is best Denton has already determined. Denton once gave a company a franchise for sewerage, but thinking better of it took it away before the system was begun. She will now issue bonds and construct the system herself.

Advertise, and the world is with you; Stop and you go it alone. For it's bargains, not, 'noss, we're after. We have cobwebs enough of our own.

TALK sewerage, think sewerage, boost sewerage, and when the time comes vote for sewerage.

OF course being an editor isn't always a rose-hued dream, but it skins the job of Sultan, where one has to call on the blacksmith to come around with monkey wrench and pliers to take his shirt off. We have trouble with our mail almost every week, but our friend "the stick man of Europe," seems to have trouble with his mail every night.

HON. WORTH S. RAY, of Denton county; legislator, editor, printer, engraver, poet, politician and space writer, has "broken into" the newspaper business again. He has established at Denton "The Texas Quill," a monthly political journal. The first issue is full of good democratic stuff, of which Mr. Ray is eminently capable of supplying large quantities on short notice. Here's hoping "The Quill" will find and fill a long felt want in Texas politics.

W. C. Cottrell returned last week from Colorado where he had gone to look after the interests of himself and several other local people in the land drawings in the famous San Luis Valley. He reports several of the boys very lucky, O. H. Brown securing 40 acres, W. W. Taylor 20 acres, and the others, including himself, five acres each. The country is fine, Mr. Cottrell says, and the land is being placed under irrigation very fast and is worth \$100 per acre. Hundreds of people are locating there from all over the United States.

C. L. Young is viewing portions of New Mexico this week.

Everything in the art material line at McKillop & Goodman's, if

## MORE ABOUT SEWERAGE

Clarendon Can Install Complete Sanitary System for About \$5.00 Per Head Population.

The editor recently met John B. Hawley, the Fort Worth civil engineer, and had a long talk with him concerning the sewerage system as applied to Clarendon. Mr. Hawley is the man who installed the Amarillo system, and is at present at work on the Dalton system and is figuring with Memphis also in the event the people of that town decide to issue the bonds.

Mr. Hawley stated to the editor that a complete sewerage system could be installed in Clarendon for a matter of \$20,000. He said that the average rate as he had found it in many years' experience was about \$5,000 or \$6,000 per 1,000 people. He further stated that he would be glad to come to Clarendon and meet our business people and go over the matter with them at any time they would send for him, provided of course, that he was not too busy at the time to respond. Mr. Hawley stated that he believed he could convince any reasonable man by talking to him and explaining the features of sewerage that are not generally understood, and in this connection he gave us a copy of a speech made by him at Mineral Wells before the meeting of the Mayors' Association in July. We here reproduce a short excerpt from this speech, and will present the gentleman's remarks in full next week. The article deals with facts concerning sewerage not generally known and will be found very interesting to all concerned. The excerpt:

Let us assume a city of 5,000 souls, and cost at \$6,000 per thousand.

Cost	\$30,000
Interest at 5 per cent	1,500
Sinking fund at two per cent	600
Operating expense	1,200
Total annual cost	\$3,300

Let us suppose the annual death rate to be 15 per 1,000, or 75 deaths per year, and that a system of sewerage will reduce that rate to 10 per 1,000, or 50 per year.

The lowest estimate that is placed on an average human life by the sociologists is \$1,500 up to \$5,000. Using a very low figure, \$2,000 per life, \$50,000 would be, according to the view of our scholars, saved to the community by reason of the sewerage system, and yet the total yearly cost was but \$3,300.

And then think of the comfort and cleanliness that sewerage makes for, even if it did not decrease mortality.

Whether or not the Thaw bankruptcy proceedings were designed partly with the view to opening a way for the release of Thaw from the insane asylum, there appears to be a possibility that this may be the result. Thaw's commitment to prison, after he had been acquitted of murder on the grounds of insanity, is legal only in New York. A former district attorney points out that, if the federal authorities demand Thaw's presence at Pittsburg at the bankruptcy proceedings there, there is no other course open to his custodians than to produce him; and that, once across the river and in New Jersey, Thaw would be legally free and without fear of imprisonment so long as he remained outside of the state of New York. So simple a matter as a writ of habeas corpus would insure his freedom, in any event outside of that state. Other lawyers have expressed a similar opinion.—Fort Worth Telegram.

A gentleman informed The Index a few days ago that Mr. Browder, owner of the Memphis water works system, was having estimates made as to the cost of piping water from Memphis to Childress. The supply of water where Memphis gets her water is said to be inexhaustible and if the expense of piping is not too great it would be a paying proposition to get the water to Childress.—Childress Index.

M. F. Lee is still a very sick man, and his condition seems to be growing worse. There is no hope of his recovery.

## WANTED—A RIDER AGENT

and district to ride and exhibit a complete line of "Hedgethorn" bicycles furnished by our agents everywhere. We are making money fast. Write for full particulars and special offer at once.

**NO MONEY REQUIRED** until you receive and approve of your bicycle. We ship to anyone anywhere in the U. S. without a cent deposit in advance. *Postage prepaid*, and allow **TEN DAYS' FREE TRIAL** during which time you may ride the bicycle and put it to any test you wish. If you are not perfectly satisfied or do not wish to keep the bicycle ship it back to us at our expense and you will not be out one cent.

**FACTORY PRICES** We furnish the highest grade bicycles it is possible to make at one small profit above actual factory cost. You save 25 to 50 per cent to \$25 middlemen's profits by buying direct of us and have the manufacturer's guarantee behind your bicycle. **DO NOT BUY** a bicycle or a pair of tires from anyone at any price until you receive our catalogue and learn our method of *factory prices* and remarkable special offers to rider agents.

**YOU WILL BE ASTONISHED** to study our superb models at the *unusually low prices* we can make you this year. We sell the highest grade bicycles for less money than any other factory. We are satisfied with \$2.00 profit above factory cost.

**SECOND HAND BICYCLES.** We do not regularly handle second hand bicycles, but usually have a number on hand taken in trade by our Chicago retail stores. These we clear out promptly at prices ranging from \$3 to \$8 or \$10. Descriptive bargain lists mailed free.

**COASTER-BRAKES,** equipment of all kinds at half the usual retail price.

## 50 HEDGETHORN PUNCTURE-PROOF 4 80

### 8 SELF-HEALING TIRES A SAMPLE PAIR

**NO MORE TROUBLE FROM PUNCTURES**

NAILS, Tacks or Glass will not let the air out. Sixty thousand pairs sold last year. Over two hundred thousand pairs now in use.

**DESCRIPTION:** Made in all sizes. It is light and easy riding, very durable and lined inside with a special quality of rubber, which never becomes porous and which closes up small punctures without allowing them to escape. We have hundreds of letters from satisfied customers stating that their tires have only been pumped up once or twice in a whole season. They were no more than an ordinary tire, the puncture-resisting qualities being given by several layers of thin, specially prepared fabric on the tread. The regular price of these tires is \$8.50 per pair, but for advertising purposes we are making a special factory price of only \$4.80 per pair. All orders shipped same day letter is received. We ship C. O. D. on approval. You do not pay a cent until you have examined and found them strictly as represented. We will allow a cash discount of 5 per cent (thereby making the price \$4.55 per pair) if you send **FULL CASH WITH ORDER** and enclose this advertisement. We will also send one nickel plated brass hand pump. *Tires to be returned at 40% expense if not used—no return on them.* We are perfectly reliable and money sent to us is as safe as in a bank. If you order a pair of these tires, you will find that they will ride easier, run faster, wear better, last longer and look finer than any tire you have ever used, or seen at any price. We want you to send us a trial order at once, hence this remarkable tire offer.

**IF YOU NEED TIRES** don't buy any kind at any price until you send for a pair of the special introductory price quoted above, or write for our Big Tire and Sundry Catalogue which describes and quotes all makes and kinds of tires at about half the usual prices. **DO NOT WAIT** or a pair of tires from anyone until you know the new and wonderful offers we are making. It only costs a postal to learn everything. Write it now.

**J. L. MEAD CYCLE COMPANY, CHICAGO, ILL.**

Four dollars and a half for \$2.00. That's what you get if you take advantage of the Banner-Stockman's big subscription offer. Read the ad.

### TO CUT A LONG TALK SHORT

We will tell you frankly, that we have got a lot of stuff here in the line of lumber and building material, that we are willing to swap for about two-thirds its actual value. If you're going to do any building or fixing up about the place soon, it'll pay you to get wise to this price-quality combination and buy what you need RIGHT NOW.

Talk about getting in on the ground floor. Why! This is a cinch compared with ordinary ground offers. You've got to have the lumber. It's only a question of how long you can put off buying it, and when you can buy the cheapest, that looks from where we sit, like about the time you should pick out to buy.

Better let us make an estimate on what you need.

## PLANS AND RULES

### For Clarendon Public School.

#### TEACHERS.

- Teachers shall notify the Superintendent at the earliest possible moment when they are unable to attend to their duties, that their places may be supplied at once.
- When it shall become necessary to employ a substitute teacher, such substitute shall receive the same salary that is paid to the regular teacher, the same to be paid out of the salary of the teacher in whose place the substitute is employed.
- Teachers shall be in their places at least thirty minutes before the opening of school, and shall remain until its close. When a teacher is tardy a penalty of fifty cents shall be deducted from his or her salary for each default in this regard. They shall exercise vigilant care over their pupils in the playground, and a sufficient number to supervise the yard shall be continually on the ground during recess.
- Teachers are required to attend promptly all meetings appointed by the Superintendent.
- Any teacher, after a proper hearing before the Board, may be dismissed for good reasons, provided ten days' notice is given.
- Any teacher intending to resign shall give the Board of Trustees fifteen days' notice of such intention, under penalty of forfeiture of salary for one-half month.
- Each teacher shall keep a record of such information pertaining to his or her work as may be required by the Superintendent and Board of Trustees.
- Teachers are not allowed to send their pupils on errands during school hours, except on urgent business pertaining to the school.
- Teachers shall maintain strict order and discipline in their respective school rooms, and any habitual neglect of this requirement will be considered a good cause for dismissal.
- It shall be the duty of teachers to notify parents when their children are absent from school, and inform parents if their children are not keeping up with their classes, before such children are placed in lower classes.
- Any teacher who may chafe to witness the misconduct of any pupil, either in the hall or on the school grounds, shall call that pupil to order.
- The utmost neatness and order of things shall be preserved by all teachers in their rooms. Pieces of paper or other rubbish shall not be allowed upon the floor, in the pupils' desks, nor thrown out in the yard. Each teacher shall pay especial attention to his or her own desk, that it may at all times be a model of neatness, and that everything thereon is arranged with reference to taste. In fact, the teacher is expected to strive to be an example in neatness, virtue, honesty, truthfulness, amiability and everything else that pupils should imitate.
- All crayons and erasers shall be collected just before each dismissal and placed on the teacher's desk or in it; and at noon and recesses, as well as in the morning before school, pupils shall not be allowed to speak except in an undertone while in the building.
- Teachers shall not be allowed to inflict corporal punishment without first reporting the case to the Superintendent, together with cause; nor shall teachers speak in terms of disrespect to any pupil, nor about any parent, teacher or the Superintendent.

#### PUPILS.

- All children residing in the Clarendon School District, and all who have transferred their school money to said district, between the ages of 7 and 21 years, shall be admitted free unless otherwise ordered.
- Non resident pupils will be charged as follows:
 

Primary	\$1.50 per month.
Intermediate	\$2.00 " "
High School	\$2.50 " "
- The use of tobacco in any form will not be allowed, either in the building or on the school grounds, and pupils who persist in so doing may be suspended or even expelled.
- Any pupil may be suspended for gross misconduct, by the teacher with the approval of the Superintendent; but no pupil shall be suspended for a longer period than five days without action of the Board. Three suspensions may be cause for expulsion.
- Expulsion requires the action of the Board.
- Pupils who willfully deface or injure any of the school property shall be required to pay in full for such damages. Failing to do this within two weeks afterwards, they shall be suspended and may be readmitted only by vote of the Board.
- Pupils who may be absent or tardy, must bring to their teacher a written excuse signed by the parent or guardian.
- Students who shall be absent from any of the regular examinations, without excuse from parent or guardian, shall be required to pass such examinations as the teacher may prescribe.
- Pupils shall not be permitted, except in urgent cases to leave the school to attend to other duties, or to leave the ground at recess without permission.
- Pupils must not, in any way, communicate with each other during the regular exercises of the school, except through the teacher.
- Pupils are not allowed to assemble or loiter in the vicinity of the school building before or after school hours.
- For the purpose of enforcing proper discipline, and maintaining good order among pupils attending the public school, the school authorities and teachers shall be deemed to have jurisdiction over them from the hour they leave the custody of their parents or guardians in the morning, until their return to their several homes in the evening; and it is particularly enjoined upon such parents or guardians, that they require their children to report to them immediately after the close of the school each day.
- All pupils on completing the full course, shall receive certificates or diplomas, the form of which shall be prescribed by the Board.
- No pupil known to be affected with a contagious or infectious disease, or coming from a family where such disease prevails, shall be received or continued in the Public School.
- All pupils shall go to and from school quietly, and shall neither play nor quarrel on the road; nor shall any pupil enter the garden, lot, field, or other property of any citizen during school hours or in passing to and from school, without permission of the owner. The use of profane, and other bad language is forbidden.

#### Hedley Headlights.

Hedley, Texas, Aug. 25.  
Editor Banner-Stockman:  
Dr. Sarvis reports good health for our community. He says no slow fever.

Miss Lence Bull, of Valley View, is visiting her sister, Mrs. Tom Rolfs.

Quite a number of our young folks are preparing to leave for different points to attend school. Quite a few are going to Clarendon College.

Better see J. P. Sarvis, of Hedley, real estate office, for all kinds of trades.

A big land deal is now going through, the principals being, J. J. Mickle, of Memphis, and Capt. Nat Smith, of Hedley, the Hedley real estate office acting as the agent.

Mrs. Bob Jones has returned home after a long visit down east. We certainly are glad to see her back.

The town is full of prospectors and the real estate men are quite busy.

We had a fine rain in this section last Sunday. Corn will come so fast that the railroad company will be compelled to put in a switch here.

Mr. Willis, the popular manager of the J. C. Woolridge Lumber Co., is away on a two weeks' fishing trip. He was accompanied by his family.

Bob Boston is up from Memphis taking care of the J. C. Woolridge Lumber Co.'s business while Mr. Willis is away.

Paul Sarvis has a nice real estate office and says he is prepared to deal in all kinds of land.

Mrs. Z. Mickle, mother of Mrs. Dr. A. M. Sarvis, is visiting the latter for a few days. She will return to Memphis soon.

The Methodist people closed a successful meeting here last Sunday night. Bro. Doak, the pastor, was sick and had to call in Clarendon ministers.

Mr. George Wimberly is hatching now. Mrs. Wimberly is away visiting. Poor George.

The road commissioner has been making the boys hustle here. We need good roads, let the good work go on.

The public school will open the second Tuesday in October. The school board has added a new room and built a nice fence to keep the boys from straying.

#### See Our New Line

Of face lotions, toilet preparations, bath waters, face creams, hair tonics, etc. Also barber's supplies such as combs, brushes, etc. In buying from us you always get the best. All our lotions come under the pure food and drug laws, and are guaranteed high-grade articles. The ladies of the city are respectfully asked to give our line an inspection.

THE IMPERIAL BARBER SHOP,  
of Lloyd Blackwell, Prop.

#### A Cost Sale on Gasoline

Stoves. Realizing that this hot weather won't last always, we want to clean up our line of Detroit Vapor stoves, the only ones using gasoline or alcohol as fuel. If you have been hesitating about getting a summer stove buy it now at cost. We also guarantee them or money back.

A. L. CONNALLY & CO.

Plainview, the progressive up-to-date South Plains city, held its precedent Saturday by voting (almost unanimously) bonds for a sanitary sewer system. With an up-to-date sewer system, new light plant and new water works to be built in the near future, Plainview bids fair to become a competitor for first place among Panhandle towns.

We see by the Canadian Record that Rev. George F. Harris has accepted the pastorate of the Methodist church at Canadian, the former pastor having resigned. As Mrs. Harris was not well enough to take the overland trip it was given up. We are sorry to learn that Mrs. Harris has been quite ill since they left Higgins but hope she will soon be well again.—Higgins News.

The Donley county cantaloupe crop is now being marketed. The fruit is very fine this year, and possesses a flavor so excellent as to place the local product far ahead of anything ever shipped in here, either from above or below. Donley county cantaloupes are the best grown.

—Just because the fall is the best time of the year here to drive don't wait to buy a buggy. The evenings are cool and pleasant; come and buy one now from Connally, the buggy man.

T. E. WILLIAMS,  
Russell, Oklahoma.

# WHO BIDES HIS TIME

By James Whitcomb Riley

Who bides his time and day by day  
Faces defeat full patiently  
And lifts a mirthful roundelay,  
However poor his fortunes be,  
He will not fail in any qualm  
Of poverty—the paltry dime  
It will grow golden in his palm  
Who bides his time.

Who bides his time—he tastes the sweet  
Of honey in the saltiest tear,  
And, though he fares with slowest feet,  
Joy runs to meet him, drawing near,  
The birds are heralds of his cause,  
And, like a never ending rhyme,  
The roadsides bloom in his applause  
Who bides his time.

Who bides his time and fevers not  
In the hot race that none achieves  
Shall wear cool wreathen laurel, wrought  
With crimson berries in the leaves,  
And he shall reign a goodly king  
And sway his hand o'er every clime,  
With peace writ on his signet ring,  
Who bides his time.

John Young is here from Amarillo.

—W. C. Cottrell, bricklayer and plasterer, Clarendon, Texas, if

Will McMicken was up from Memphis this week.

—Whatman's watercolor paper at McKillop & Goodman's.

We are sorry to report that J. S. Hayter is down with typhoid fever.

—Strathmore Royal charcoal paper at McKillop & Goodman's.

—Full line of artist's supplies at McKillop & Goodman's.

Mrs. J. F. Tax has returned from a visit to her mother at Marlin.

Mrs. B. F. Smith's mother returned last week to Blomington Grove.

—Second-hand, one row McCormick binder for sale cheap. E. A. Taylor.

Mrs. Will Dubbs left Wednesday for a visit to her mother at Seymour.

Rev. J. G. Miller will preach at the Methodist church Sunday morning and evening.

—Two good lumber wagons for sale. They will sell on sight. E. A. Taylor.

John and Allen Hedrick, of Dalhart, are visiting Jerome and George Stocking.

—Get a ruler free by buying your school tablet from McKillop & Goodman.

S. T. Sayre's father, who has been very sick for some time, is rapidly recovering.

Mrs. Ida B. Greer very pleasantly entertained a crowd of young people at her home Tuesday.

—The lathes at Taylor's shop are running night and day. Are they doing your work.

Mr. and Mrs. R. T. Johnson are back in Clarendon after a visit to Oklahoma points. Mr. Johnson has been employed as organizer for the Modern Woodmen.

Mrs. Joe Hardy has returned from her extended visit to points in the old states.

—Do you want to trade hay for a saddle or a sewing machine? See, J. H. Rutherford.

Mrs. J. E. Humphrey and children visited the family of J. A. Gerner at Lelia Lake last week.

—School children, when you buy a tablet from McKillop & Goodman you get a ruler free.

Tom Arnett, of Seymour, is in Clarendon for a visit to his grandmother, Mrs. W. W. Weatherly.

—Students of the art department will find at McKillop & Goodman's everything needed in their work.

Taylor's lathes are running night and day. Why? Because they do the work right. Let them work for you.

Miss Carrie Smith returned Tuesday from Plainview where she has been visiting the family of Rev. G. S. Hardy.

—What do you know about those good dinners down at the corner restaurant? Ask Elkins, the new proprietor.

Mrs. W. E. Ayers and daughter, Miss Alma, returned the first of the week from a visit to relatives in Amarillo.

—Little Jimmie Duncan was brought home by his mother last week from Canadian with a well developed case of typhoid fever.

C. L. Young has corn, corn chops, oats new crop, bran, cotton seed meal and all kinds of hay for sale, phone No. 4.

M. E. Bell's dew home in the south part of town has been finished and he has moved his family from the ranch.

The ladies of the Baptist church will entertain the ladies of the various other churches on Monday, August 31, at 4 p. m.

Dr. S. A. Steele will deliver his famous lecture, "Home Life During the War," Sept 9, in Clarendon. Watch for further announcement.

J. W. Morrison is a "lone widder" the past two weeks, Mrs. Morrison and two of the younger children being in Dallas on a visit.

Mr. and Mrs. Matthew McAtee, of Mangum, Oklahoma, are here on account of the serious illness of M. F. Lee. Mrs. McAtee is Mrs. Lee's sister.

Some of the finest watermelons ever seen are being marketed in Clarendon just now. And that's saying a great deal, for Donley county has long been noted for watermelons.

Undertaker P. A. Buntin supplied a casket for the 4-month-old child of J. A. Lancaster Wednesday. The family lives in Hall county near the Brice settlement.

W. A. Sedwick, representing the Texas Anchor Fence Co., was here this week showing the company's product and appointing a local agent. A. L. Connally received the appointment.

Frank Lesley, of Dublin, with his family came in Saturday and will make Clarendon their home. Mr. Lesley is a painter by trade, and has already gone to work. He is greatly pleased with the Clarendon country.

Rev. Geo. S. Slover, president of Clarendon College, passed through Hereford last Monday on his return from the funeral of his uncle, W. A. Slover, who was buried at Dinmitt last Saturday.—Hereford Brand.

We are informed that Wellington has closed a contract with the new railroad company out of Altus. This road is headed for Roswell, and Clarendon is on a direct line. Clarendon is ready to entertain any proposition the company may see fit to make.

The new crop of maize and kafir is beginning to come on the market. It is selling at 60c per hundred. The heads are still quite heavy, and 60c makes the feed figure up a fancy price, but all coming in so far has found a ready market.

J. H. Roberts and sons, and J. G. Martin, took the Roberts hounds out for a wolf chase Monday. The day proved too hot for the work, however, so the sportsmen contented themselves with chasing coons on Carroll creek. They caught three large ones.

Mrs. W. C. Hill returned last night from Shamrock, where she has been for a visit to the family of her brother-in-law, Rev. T. B. Hilburn. She was accompanied home by Miss Zoe Weatherly, who has been visiting her aunt, Mrs. F. M. Montgomery, for several weeks.

### For Sale.

A full blood, short horn bull, 4 years, deep red, yellow skin. A herd header, milk and butter strain. A. L. CONNALLY.

## WHEN SHOES PINCH.

How to Prevent the Trouble and Insure Comfort.

There are few people who do not know some time in the course of the year where the shoe pinches, and it is hardly too much to say that in nearly every case this is preventable and is produced by ignorance. Bathing the feet daily, cutting the nails and going now and then to the chiropodist prevent many ills, but there is more to be done in order to promote the good appearance of the feet and their absolute comfort. Special foot ills from which people suffer are corns, bunions and ingrowing nails. It is necessary to be very careful in the selection of stockings, as also in boots and shoes. It is no economy to have only one pair of shoes or boots in constant wear. Three is far more beneficial. It is not good for the feet to keep to one pair, and three pairs will last much longer worn in change than one pair after the other.

During the day many people go through various phases with their feet. They are often slightly swollen in the morning; then a loose shoe should be worn, the size being sufficiently ample to allow the feet to spread and have perfect ease, the heels being not above the moderate height. On going out it is advantageous to change both shoes and stockings. The feet perspire a good deal, and a fresh stocking is healthy and cleanly. It is best to use cold water for the feet in cold weather and warm water in hot weather, for the cold water hardens the feet and especially in towns prevents the pavements affecting them and wards off chills. A little spirit in the water to bathe the feet rests and strengthens them, and a little borax and a little ammonia in the water are very beneficial. Those who have to stand about all day should change their shoes in the middle of the day and before dinner because this both cools and airs the feet. The leather dries and gets ailed and well cleansed too. Every pore of the feet and ankles is exhaling what the leather absorbs, so that it is neither cleanly nor hygienic to keep too long to the same boots and shoes, and the leather, which is thus allowed to air and dry, lasts much longer. The reason why patent leather shoes are so unhealthy and often painful in the wearing is that they cannot perspire, so that the feet perspire more. The ankles are very sensitive; hence in cold weather high boots or gaiters should be worn. If the feet are too dry and hard, the skin beneath thickening, cream rubbed in at night is specially beneficial. Those that perspire unduly should be treated by damping the stockings with a little alcohol and applying a little powder, such as borax or talcum. Half of the foot troubles originate in improper footwear—too high heeled shoes, shoes and boots that are too short—and many an undue increase of the great toe joint is due to wearing shoes too loose over the instep, thereby allowing the feet to spread. Boots and shoes to fit should follow the actual outline of the feet, whether short or long, broad or narrow.

### How to Clean a Sweater.

If you wish to wash a sweater make a suds of warm water, white soap and borax. Move the sweater up and down in the water until clean; then rinse in warm water, adding a little borax. In regard to drying, always tie the article (all in a bunch) in a towel or cloth, knotting the four corners; then pin it to a line out of doors, where the wind will blow through it. The towel should be opened from time to time and the article shaken, then replaced. When fairly dry the process may be completed in the house by laying, still in a heap, over the register or any place where it can get thoroughly dry. Pull into shape during the drying, and the garment will be found soft, fluffy and very little shrunken.

### How to Make a Commode.

An empty packing box does not cost anything and makes a good commode or dressing stand if fixed in this way: Get a large packing box; turn same upside down; knock the board out of one side for the door; nail in wooden brackets and fit in a wide board for a shelf; then cover the top and sides of the box with black five cent lining, tacking it neatly around. Stretch a hay wire across the top of door and slide on curtains of red cotton or any material desired; then hang up a large mirror, which will improve the looks of the stand.

### How to Polish Cows' Horns.

To secure the fine luster on cows' horns when they are to be exhibited first scrape lightly with a piece of pumice stone until the surface is smooth. They are then polished by rubbing with a flannel rag and dusted with powdered pumice stone. Sometimes a little alcohol is rubbed over them to dry the surface of the horn so that it will take a good polish. The horns of some animals are so soft that it is impossible to give them high polish.

### How to Remove Shiny Spots.

To remove shiny spots from black woolen garments place the garment, whether coat, trousers or dress, on an ironing board. Wring a cloth from water, spread carefully over the garment, then pass a hot flatiron back and forth just above the wet cloth as closely as you can without touching it. The nap will rise and the shine disappear.

### How to Make Resisting Cement.

A cement which will resist the action of hot and cold water and which is most useful for mending coarse cracks and holes in iron and tin kettles and pans is made by mixing litharge and glycerin to the consistency of thick cream or putty.

## Lumber Lumber Lumber

No matter what your needs in the lumber line I want an opportunity to supply same. Full stock of all kinds of Building Material, Paints, Oil, Glass and WALL PAPER. Best Paint Sold—"H. P. S." Absolutely the largest and best line of Wall Paper ever brought to Clarendon.

Respectfully solicits the ENTIRE patronage of the Clarendon public and always GUARANTEES SATISFACTION. Phone 38

### How to Wash Veils.

If your white veil is very much soiled it will not be a difficult matter to bring it back to its original newness. Make a strong lather of white soap and simmer the veil in it for about a quarter of an hour. Rinse it in cold water carefully with a little liquid bluing. You can also add perfume to this water. Pass the veil through a thin gum arabic water, or water in which rise has been boiled, and clear it by shaking. Pin evenly on a linen cloth. When dry, lay between a piece of thin muslin and iron on wrong side. To wash your black veil pass it through hot water in which a small quantity of ox gall has been mixed, together with some perfume. Squeeze but do not rub it. Rinse in cold water, putting bluing in the last rinse. Stiffen by dipping in a very thin glue water made by pouring water on glue. Squeeze and shake out and dry and iron on the wrong side, the same as the white veil.

### How to Clean Black Goods.

To clean black cloth garments buy 5 cents' worth of borax and 10 cents' worth of camphor gum. Put them into a large bowl, breaking the camphor gum first into small pieces. Pour over this one quart of boiling water, stirring to dissolve the borax. All the camphor will not dissolve. After it is cool put it into a bottle and cork tightly, says the Delinctor. When wishing to use it pour a portion into a basin, diluting it with half the quantity of cold water. Wet a black stocking with this and sponge your goods, pressing afterward. This will remove all spots and grease and restore the black.

### How to Clean Gloves.

In the country good thick gloves, with stitched backs, long wrists, are the most comfortable to wear. White suede and kid gloves are best restored to their pristine freshness with a mixture of powdered alum and fuller's earth applied with a dry brush and well rubbed in till the dirt is removed. Silk gloves can be cleaned with magnesia placed between two layers of paper, and in a few days, when the powder is removed, they will look like new. Gloves should be laid by in brown paper. White paper often discolors them through the materials used in making the paper.

### How to Make Excellent Paste.

To make a fine paste take two ounces of pulverized gum arabic, one and one-half ounces of fine starch and one-half ounce of granulated sugar. Dissolve the gum arabic in as much water as you would use for the starch indicated. Mix the starch and sugar with the mullage. Then cook the mixture in a double boiler until the starch becomes clear. It should be as thick as tar. It can be kept indefinitely by the addition of a teaspoonful of camphor or a few drops of oil of cloves.

### How to Make Almond Milk.

Almond milk is made by blanching sixty almonds and putting them into a mortar with two lumps of sugar. The latter causes the oils to blend. By very slow degrees a pint of rosewater is then added, the nuts being broken at the same time by pounding until they are reduced to powder and all the rosewater is in. This may stand bottled overnight and is then strained. It is one of the best lotions and bleaches there is.

### How to Relieve Ivy Poisoning.

Orange juice is a simple remedy for ivy poisoning. Bathe the afflicted part of the body. The itching and burning will cease, and in a few days the skin peels without any further spreading.

Rev. W. B. Wilson, the bustling financial agent of Clarendon College, returned last week from Mobeetie where he had been at work in the interests of the school. He reports quite a successful trip, having secured donations in and around Mobeetie to the amount of \$1250.

Brooks & Sullivan report the sale of two lots next to Dr. Gould's residence to D. A. Lucas, of Grapevine, Texas, who is already building a nice residence thereon. Mr. Lucas is a son-in-law of A. B. Clark, and a brother-in-law of J. H. Clark. His family is here. He is a good citizen and we welcome him to Clarendon.

The Brice community this week gets another good citizen in the person of W. M. Herring, of Sachse, Dallas county. Mr. Herring got in Wednesday and reports four cars of stuff on the road. He was met here and taken out by D. B. Sachse. Mr. Sachse reports fine crops in his community and everybody prosperous and happy.

The Clarendon Band has employed a man named Fifer, from Holland, Texas, as teacher. He has been wired to come at once, and will devote his entire time to the work. This is good news. The boys are doing so well and with a good teacher the Clarendon Band will soon be making the Tucumcari claim; i. e., "The band that put Clarendon on the map."

The Banner-Stockman is informed that a number of our best citizens have taken our weed cutting advice and have placed the fronts of their property in fine shape. In some instances the entire street has been "scalped" of weeds and grass from fence to fence, making a very pretty effect. If each property owner (or renter, for that matter) would put in one hour a week cutting the weeds on his property line the city would be kept entirely free from the growth.

### To the Public.

We wish to warn you against traveling opticians using our name. Through these columns we will announce any one sent out to represent us. AMARILLO OPTICAL CO. P. H. SEWALD, DR. C. WOLCOTT.

### Sunday Drug Service.

Owing to the fact that people want medicine on Sunday the same as week days you will always find someone at our store to fill your prescriptions. Our specialty—Careful prescription work.

Shoes**  
For Men  
For Women

The Patterns for "White House Shoes" are designed by the foremost pattern-makers of the U. S., insuring good fitting qualities and pleasing shapes.

The Leathers are all of the best tannages, of Kid, Box Calf, Kangaroo and Gun-Metal Calf, and the Patent Leathers are best obtainable.

The Workmanship is high class all through the Shoes, thus insuring a uniformity in construction and finish.

The styles are always new—a big variety for both men and women.

This mark is stamped in the Shank of each shoe

### Let the People Know.

"My goods are my advertisement," is the argument of some merchants (?) put up to the newspaper advertising solicitor. Perhaps they have the goods, but if they are wise they will let the people know that they have them and the only successful way of so doing is to let them know it through the medium of the newspaper, which is read by the people. Such a newspaper is what we claim for the Banner-Stockman.

### Public Free School Opens.

The public school opens Monday Aug. 31. The public schools enter this year on their third term of five years with a new series of state adopted books. As usual we will handle all adopted books with exchange privileges. We presume there will be the same grand rush for books on the opening day. We will be prepared to wait on the crowds but ask that you bring the money so that we will not be asked to charge school books for two reasons. First, because we are requested by the publishers to sell for cash only. Secondly, because our commission is so small on school books that we can afford to sell them only for cash. If you will bring the books which you wish to exchange and the money

now any day before the opening you may make your purchases and avoid the rush of opening day.

Yours for school supplies,  
J. D. STOCKING.

### I. J. Brokaw Dead.

A telegram from C. P. Brokaw at Dalhart to Mrs. J. T. McHan at Hedley states that his father had been killed by a train. It is supposed that the telegram alludes to a former Clarendon citizen, Mr. I. J. Brokaw, whose son lives at Dalhart. No particulars are given of the accident further than the bare mention that Mr. Brokaw was killed.

### Died.

Mrs. Julia Ann Shepard, known to her many friends as "Grandma Shepard," died at the home of her daughter, Miss Ann Bobo, in this city Sunday night at the advanced age of 76 years. Funeral services were conducted Monday afternoon by Rev. W. C. Hilburn. Deceased was known and loved by a large circle of friends in Clarendon. She leaves three children here, Mesdames A. W. McLean, W. H. Condron and Miss Bobo.

### Notice, Baptists.

The annual meeting of the Panhandle Association will meet with the Hulver Baptist church, Sept. 9 at 10 a. m. Those coming by rail will notify W. B. Duncan, Esteline, Texas, and conveyance will be furnished out to the church—six miles. Let all churches send messengers.

J. P. BURK, Pastor.

### For Sale.

A good farm hack, brand new, for sale for cash or on terms. See J. H. Rutherford, at the saddle shop.

Why order your typewriter supplies from a traveling man? You can get as good or better goods from the Banner-Stockman and can see what you are buying. tf

### SYMPTOMS OF RABIES.

How to Know When Your Dog is Really Mad.

Hydrophobia is in reality so rare and so terrifying that its symptoms and treatment are little understood. As a matter of fact, the commonly accepted expression of madness in a dog is often misleading. The real mad dog does not shun water, as it is said. On the contrary, mad dogs often rush to the water and drink eagerly if they are able to swallow. The mad dog does not froth at the mouth. It does not run amuck, snapping at everything in its path. What, then, are the indications of the mad dog? To those familiar with a given dog the surest symptom and the one which should excite closest attention is a distinct and unaccountable change in the dog's disposition, a staid dog becoming excitable and a frisky one dull.

That condition does not necessarily mean rabies, but it is suspicious, says Caspar Whitney in the July Outing, and if in addition the dog has trouble in swallowing, as though it seemed to have a bone in its throat, beware! That dog should be instantly tied up, because if it be rabies it takes but a day or two for ferocious instincts to develop. The unmistakable evidence, however, of a dog with rabies is the sticky, whitish saliva which covers the teeth and shows on the drawn lips. The eyes glare and are red; the dog has paroxysms of running fury, during which it barks hoarsely, which alternate with periods of temporary exhaustion.

### Dust Layer.

Water gas tar makes a satisfactory dust layer when used in moderate quantities on roads already in fairly good condition. It can be applied to good advantage with an ordinary spring cart.

Users of typewriters would do well to remember that the Banner-Stockman office sells typewriter supplies of all kinds. We handle the best brands of ribbons, carbons, papers, onion skins, etc., on the market, and also the very finest typewriter oil in small bottles for only 10c. tf

The Banner-Stockman, the Oklahoma Farm Journal, the twice-a-week Fort Worth Record, and the Record wall chart, \$4.50 worth, all for \$2.00 at the Banner-Stockman office. Call and see about it. This offer has never been equaled. tf

### Pasturage.

I will take stock to pasture at 25 cents per head per month. Have plenty of good grass, six miles southeast of town. tf

## Davis Lone ★ Star Washer

The Only Complete  
Washer In The World

Ladies, did you ever see a washer you could wash the collar on a shirt, the bottom of your skirt, the wristbands and such places that need extra work without washing the other part of the garment at the same time. See the DAVIS LONE STAR and you will see the only complete one ever invented. Any spot in any garment can be rubbed extra with this machine, and not get your hands in the water to do it. This machine does not wash or tangle your clothes, but keeps them smooth and when clean will bring them out of the water nice and ready for the wringer. Would like to see this machine? Speaks for itself. Telephone 217, and we will be pleased to call at your home and wash anything from a handkerchief to a bed quilt. A piece of paper can be washed on this machine to prove that there is no wear on your silks and laces. We want good men to handle this machine we can put you to work in any county in the United States. Your home is not complete without The Davis Lone Star Washer. Call on or write us at our home office, Clarendon, Texas.

J. L. Davis & J. W. Davis, Jr.

# HO! FOR COLORADO!

The land of matchless mountain scenery, where the air is cooled by breezes from the snow-capped Rockies. Why not spend your vacation there? Ask your ticket agent about the low rate to Denver, in effect every day until Sept. 30th. When you get to Denver and start sight seeing, go to the Union depot and ask for a ticket to the summit of Mt. McClellan.

## HIGH CLASS CARPENTERING

There's a difference in carpenter work as there is in everything else. There is good, bad, indifferent, and THE BEST. The latter is the kind I do. To perfect my work I have added to my shop all the different wood-working machines which go to make up a high-grade, well-equipped shop. Band saws, circular saws, and all other kinds of labor-saving and work-perfecting devices, all driven by power and operated by men who "know how." That's the reason my work is superior; that's the reason I can come and ask for your business with a guarantee of strict satisfaction. Call and see me. Shop opposite court house, at Morrison lumber yard.

H. W. KELLEY.

## READY FOR THE OPENING

President Slover Announces Clarendon College Ready For the New Term in New Building.

I am sure that all Clarendon rejoices with the authorities of Clarendon College in the remarkable prosperity of the school. I am glad to be able to announce to the public that we will be able to begin school on time in our new building. While the building is not complete in every detail we will be able to run school without serious inconvenience to the school or workmen, having so planned that the noise will be in the lower part of the building while the school will be conducted in the upper part. We will have more room ready to be used than Clarendon College has ever had before. I want to thank our patrons for their support in the past and at the same time assure them that the school is in far better condition than at any time in its history to do real school work. Most of our teachers have been doing special work during the summer at Chicago, Boston and other places and I think I can

truthfully say that no such faculty has ever been in the Panhandle. They will all be in their places and ready for work next Tuesday. I would like to call the attention of the public to our music school. I think the school is going to be able to give as good service at five and six dollars per month as can be gotten at some of our best schools at from six to twelve dollars per month. We not only have a fine music faculty but they are equipped with the best of instruments. The indications are that we are going to have all of the out-of-town pupils that we are going to be able to accommodate. This is going to put a great responsibility on Clarendon as a whole. We can't afford to do anything but our best by these choice young men and young women who are entrusted to our care. I bespeak the co-operation of all Clarendon and the local patrons in particular that we may have in every respect the greatest school year that Clarendon has ever had.

GEO. S. SLOVER.

## Bishop Garrett at Episcopal Church.

Sunday morning, August 23rd, was a red-letter day at St. John Baptist church. There was a very large congregation, and the Bishop of the Diocese, the Rt. Rev. Alexander C. Garrett, preached a magnificent sermon. There were 12 persons confirmed, the largest class presented in the history of the church. The rector and the people are to be congratulated. The yearly coming of the venerable Bishop is a matter of great interest to his friends and admirers, both inside and outside of his own denomination.

Mrs. A. C. Burroughs is expected to return next Tuesday from Houston. She is somewhat better and it is to be hoped she will continue to improve.

Ten cents buys enough of the finest typewriter oil at the Hammer-Stockman to run a machine six months.

## Democratic Nominees.

- For District Attorney.  
HENRY S. BISHOP.

J. H. O'NEALL.
- For Sheriff and Tax Collector  
J. T. PATMAN.
- For Tax Assessor  
G. W. BAKER.
- For County and District Clerk.  
WADE WILLIS.
- For County Treasurer  
GUSS JOHNSON.
- For Justice Peace Precinct 2.  
A. J. BARNETT.
- For Commissioner Precinct No. 2  
R. E. WILLIAMS.
- For Commissioner Precinct No. 3  
J. G. MCDUGAL.

—Stocking has kodaks for rent.  
—"If it isn't an Eastman it isn't a kodak."  
WANTED:—At the Cold Storage Market, some large fat hogs. If.  
BORN:—To Mr. and Mrs. D. N. Warner on Aug. 22, a girl.  
BORN:—To Mr. and Mrs. Roy M. Stocking, on the 25th, a fine girl.  
—A new car of Forney hay, alfalfa, new oats—in fact everything in the feed line. C.L. Young. If

Mrs. C. R. Ayers, of DeLeon, Texas, is visiting her daughter, Mrs. J. M. Sellers, in this city.

Charley Gatlin has moved his family to town from the Lakeview community in Hall county. They are occupying the John Grady residence in the south part of town.

Mr. and Mrs. J. H. Iglehart, of Memphis, spent the first of the week in Clarendon, guests of Mr. and Mrs. John H. Kelley, the ladies being cousins. Mr. Iglehart is a band instructor and will probably be employed by the Clarendon Band.

The most successful merchants are those who invest twice as much money in advertising as they do in house rent—or its equivalent, if they own their own business house. How does your advertising account compare with your rent account, Mr. Clarendon Merchant?

W. T. Gay, of Rowe, was here Tuesday and made us a pleasant call. He came to Douley county from Oklahoma about eight months ago, and while he was one of the unfortunates struck by the hail last spring still he reports good crops and fine prospects. A good rains in his section would be appreciated.

Mr. and Mrs. C. N. Bushnell, of Clarendon, after spending a week or two in Channing visiting their daughter, Mrs. H. M. Horn, returned Tuesday evening to their home in that city. Mrs. Horn and little daughter, Estelle Estelle, accompanied them home and will spend several days visiting and recuperating.—Channing Courier.

Harry Proctor, the band teacher, writes that it will be impossible for him to return to Clarendon prior to Jan. 1st, and the boys are trying to locate another instructor. The band deserves the assistance of our business people, and having shown their mettle will doubtless be given all the financial aid necessary to the employment of a competent teacher.

## A Question of Quality

Why is it that people who expect to visit in Clarendon save their photograph work until they have an opportunity of getting their work done by Mulkey? The reason is not hard to find. If a Mulkey photograph is no better than another no one would go to the trouble of waiting to get pictures from him. He really does them better. If you want a good picture call on

Mulkey
